CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, JANUARY 1, 1910.

No. 1.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week, to insure its publication in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to the watering, cleaning, lighting, and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Aldermen, next meeting, January 17.
Common Council meets January 6.
School Committee meets January 3, 7.30 p. m.

Rapid Transit Commission. Stated meetings of the Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Harbor and Land Commissioners. Stated meetings of the Commission are held Mondays and Fridays, 2 p. m.; Wednesdays, 11 a. m.

Monday, January 10.—Railroad Commission, 20 Beacon street. 10.30 a. m. Hearing on car service, Dudley street to South Station.

Bids close Tuesday, January 18, 12 m.

STREET DEPARTMENT.

Advertises for proposals for building a tollgate way footbridge at West Roxbury.

Proposal forms to be had at office of Superintendent of Streets. Bids to be filed at office of same.

Bids close Monday, January 17, 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending December 30, 1909:

AUDITING DEPARTMENT.

Appointment (routine) of Julien C. Haynes as acting auditor for the month of January, during such time as the City Auditor may be absent from the office.

ENGINEERING DEPARTMENT.

Appointment (routine) of Frank A. McInnes as acting engineer for the month of January, during such time as the City Engineer may be absent from the office.

FIRE DEPARTMENT.

The following named men have been appointed to serve on probation at a salary of \$720 per annum each:

Thomas F. McGowan, Daniel F. Ahern, William J. McCarthy, David J. Ryan, Jr., Bernard Turley.

Increase allowed: Charles T. Needham, assistant engineer of Engine Company 16, promoted to position of engineer with increase from \$1,200 to \$1,300 per annum.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

Lewis Ackroyd, Jr., ward porter, \$30 per month; Arthur F. Miller, center orderly, \$20 per month; David B. Simpson, house porter, \$25 per month; Gretta Bannon, ward maid, \$12 per month; Lizzie McLaughlin, ward maid, \$12 per month; Margaret Driscoll, scrubber, \$5 per week.

The following employees have had increase of wages:

Anna Torjusen, laundress, \$16 to \$17 per month; Mary A. Lynch, laundress, \$20 to \$22 per month; Minnie Kelly, nurse, \$8.33 to \$12.50 per month; Annie C. O'Brien, nurse, \$5 to \$8.33 per month.

PENAL INSTITUTIONS DEPARTMENT.

Appointment (temporary) of Patrick Casey as fireman at House of Correction at a salary of \$600 per annum.

Appointment (temporary) of Arthur Nicholson as fireman at House of Correction at a salary of \$600 per annum.

STREET DEPARTMENT.

Appointment of Paul Markowitz as a clerk in the Sewer Division at \$800 per year, to fill a vacancy.

Increase allowed: James R. Wiley, blacksmith in the Sewer Division, from \$2.25 to \$3 per day.

WATER DEPARTMENT.

Increase pay of Thomas Dolan, plumber, from \$2.75 to \$3 per day, this being the average rate of pay for plumbers in this department.

OVERTIME ALLOWED.

Street Department.

Walter Jenkins, veteran (Highway Division), allowed the following sum for having become incapacitated while in the performance of his duties: Thirty days at \$3.50 per day, \$105.

Overtime allowed Andrew O'Shaughnessy of Highway Division for injuries received while in performance of his duties: Absent eighteen days at \$3 per day, \$54.

Warren A. Rogers and B. A. Williams, engineers, allowed three-quarters of a day each at \$4 and \$3 respectively; and Thomas A. Finneran allowed one day at \$3.50 per day for overtime on North Market street work.

Overtime allowed Michael J. Hughes of Sewer Division for injuries received while in performance of his duties: Absent thirty days at \$3.52 per day, \$105.60.

Water Department.

Henry A. Fisher, Income Division, allowed overtime for one month for metering, not to exceed four hours per day at \$0.625 per hour.

The following men are allowed overtime for extra work in the Distribution Division, at \$0.625 per hour, for one month:

George A. Pratt, Robert F. Denvir, James F. Cloney, Harold Gallagher, William D. Nagle, Edward Fogarty, John Hurley, Thomas Carr and William J. Green.

CONTRACTS AWARDED.

The following contracts for work and supplies have been awarded. Those awarded without public advertisement are specially indicated. Week ending December 30, 1909:

PARK DEPARTMENT.

Contract (not advertised) for furnishing filling for North Brighton Playground, awarded to Hugh Nawn Contracting Company, \$2,000.

Permission to so award was given after representation by the chairman that material from the subway can be procured in this matter for 25 cents per load of not less than 40 cubic feet, which is much less than material can be obtained for in any other way.

PUBLIC BUILDINGS DEPARTMENT.

Contract (not advertised) for the erection of the clock at Peabody square, awarded to E. Howard Clock Company, \$1,100. Permission to so award was given after representation by the superintendent that on account of the weather and the fact that a concrete foundation must be put in this request is imperative.

SCHOOLHOUSE DEPARTMENT.

Contract for electric work on the Prince School, awarded to Alfred J. Hixon, \$1,775.

Other bids received were as follows:

Edwin C. Lewis, Inc., \$1,847; Godfrey Specialty Company, \$1,900; Electric Economy Company, \$2,925.

SUPPLY DEPARTMENT.

Contract for furnishing hay, grain and straw throughout the city, awarded to Hosmer, Robinson & Co.

WATER DEPARTMENT.

Contract (not advertised) for one 30-horse power White steam car for sum of \$2,000, awarded D. J. S. Hathaway.

ADDITIONS AND ALLOWANCES TO CONTRACTS.

Under the law the Mayor has during the week approved the following additions and allowances to contracts. Copies of these additions and allowances to contracts are on file in the office of the City Clerk.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

B. F. Carroll, authorized to deduct from the contract of February 14, 1908, for the erection of ward building, corridor, power house and tunnel of the hospital, River street, Mattapan, \$28.59. Original contract, \$87,434. Additions to date in writing, \$5,393.98. Deductions to date in writing, \$28.59. Contract as stands, \$92,799.39.

SCHOOLHOUSE DEPARTMENT.

Authority to insert in specifications of Dorchester High School Addition the Johnson System of Control in the heating and ventilating apparatus, \$2,500.

PERMISSIONS GRANTED.

While the aldermen have certain powers in the granting of licenses and permission to store gasoline and project bay windows, etc., the approval of the Mayor is in all cases necessary to make such permits legal.

The Mayor has during the week approved the following requests of this general nature:

BUILDING DEPARTMENT.

Permission given to Samuel Ostein to project a bay window on building, Nos. 15-17 Endicott street, Ward 6.

Contract for furnishing oats, shorts and corn awarded, to W. P. Whittemore Company.

FOR USE OF FANEUIL HALL.

John J. Attridge, noon, December 27, 1909; Herman Hormel, evening, December 31, 1909; William C. Wall, noon, December 31, 1909; William C. Wall, noon, January 5, 1910; R. F. Field, day time, December 30, 1909; Francis D. O'Donnell, evening, January 5, 1910; John J. Gallagher, day and evening, January 1, 1910; T. F. Callahan, day time, January 6, 1910; John F. McDonald, day and evening, January 3, 1910; Bricklayers' and Masons' Unions, Nos. 3, 9, 27, evening, January 12, 1910; Boston District Council U. S. W. V., evening, February 13, 1910, for memorial services.

GASOLINE PERMIT.

For keeping and sale of gasoline, a permit was issued to P. V. Sullivan, rear of 193 Humboldt avenue, Ward 21.

TEMPORARY USE OF LOCAL FUNDS.

Communication directing the auditor and treasurer to use \$393,300 for "Boston Tunnel and Subway" from any funds in the treasury by loan, the said amount to be replaced before the close of the present financial year from funds raised as provided by law for meeting the said appropriation.

PERMISSION TO CONSTRUCT.

STREET DEPARTMENT.

Permission has been granted to the Superintendent of Streets by the Mayor for the following work in excess of \$1,000 in cost with the department force without competition: A surface drain of concrete, in Market street, between Henshaw and Washington streets, crossing Washington street, and in Chestnut Hill avenue, between Washington and Dighton streets, Brighton district, the estimated amount being \$13,788.

"This work can, in my opinion, be as advantageously done by labor methods as any work now necessary."

"(Signed) GUY C. EMERSON,
"Superintendent of Streets."

Permission has been granted to the Superintendent of Streets by the Mayor for the following work in excess of \$1,000 in cost with the department force without competition: Surface drains in Long avenue, between Commonwealth avenue and Allston street, and in Princeton avenue, between Allston street and Allston square, Brighton district, the estimated amount being \$5,526.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

"(Signed) GUY C. EMERSON,
"Superintendent of Streets."

ISSUANCE OF LOAN APPROPRIATIONS.

Request of Mayor to the City Treasurer to issue bond certificates of indebtedness as follows, determining the dates of payments of said bonds, and establishing the rate of interest in all cases at $3\frac{1}{2}$ per cent per annum:

Various Municipal Purposes (authorized May 6, 1909), \$75,000.
Various Municipal Purposes (authorized May 6, 1909), \$55,000.
Various Municipal Purposes (authorized May 6, 1909), \$35,000.
Various Municipal Purposes (authorized May 6, 1909), \$20,000.
Various Municipal Purposes (authorized May 6, 1909), \$10,000.
Various Municipal Purposes, Public Park Loan (authorized July 26, 1907), \$80,000.
Various Municipal Purposes, Public Park Loan (authorized July 26, 1907), \$25,000.
Various Municipal Purposes, Public Park Loan (authorized May 6, 1909), \$12,000.
Various Municipal Purposes, Public Park Loan (authorized May 6, 1909), \$7,500.
Various Municipal Purposes, Public Park Loan (authorized May 6, 1909), \$5,000.
High School of Commerce and Administration Building (authorized under chapter 446 of the Acts of 1909), \$50,000.
East Boston Courthouse and Police Station (authorized December 13, 1909), \$25,000.
Cambridge Bridge Loan (authorized under chapter 467 of the Acts of 1898), \$15,000.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the month of January:

Jan. 6, Roxbury High School, Miss Evelyn Blair, soprano, and William Howard, violinist.
Jan. 7, Ford Hall, Wm. H. O'Brien, baritone, and William Howard, violinist.
Jan. 14, Dorchester High School, Miss Adelaide Griggs, contralto, and Frank H. Eaton, flutist.
Jan. 18, Franklin Union Hall, Mrs. V. McNally, mezzo-soprano, and Jacques Benavente, saxophone.
Jan. 20, Charlestown High School, F. Morse Wemple, baritone, and Barthold Silberman, violinist.
Jan. 28, Roxbury High School, Miss Emma Buttrick Noyes, soprano, and Frank H. Eaton, flutist.

The orchestra consists of ten skilled professional musicians of whom William Howard acts as the director. Prof. Louis C. Elson lectures at every concert, explaining and interpreting the program rendered. Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at several of the leading music stores, and at drug stores and other convenient stations in the vicinity of the different halls.

CITY OF BOSTON.

Area of city, 42.65 square miles, or 27,300 acres.
Miles of streets, 511.60.
Number of buildings, including tenement houses, 87,327.
Tenement houses, including four or more families, 7,000.
Public parks and playgrounds, 2,507.15 acres.

CENSUS EXAMINATIONS.

Supervisors of the Census are appointed by the President, by and with the advice and consent of the Senate.

Applications for the position of enumerator, supervisor's clerk or interpreter should be addressed to the supervisor of the district in which the applicant seeks employment—Mr. Charles F. Gettemy, State House, Boston.

Examinations for the appointment of special agents will be announced later. Application for appointment as special agent should be made to the Director of the Census, Washington, D. C., and not the Civil Service Commission.

CITY OF BOSTON.

PROPOSALS FOR TROLLEY SYSTEM, OR OTHER SUITABLE SYSTEM, FOR CARRYING COAL, LONG ISLAND, BOSTON HARBOR.

The Boston Infirmary Trustees invite proposals for construction and installation of a trolley system, or other suitable system, for transporting coal from the coal sheds to the power house of the Almshouse and Hospital on Long Island, Boston Harbor, and furnishing bond of a surety company satisfactory to the Trustees, proposals to be accompanied by plans and specifications of the system on which the bid is made. Plans showing the grade, and the construction of the coal shed and wharf, will be provided upon application at the office of the Trustees, 28 Court square, Room 3. The proposal should be enclosed in a sealed envelope marked "Proposal for Coal Carrying System, Long Island," and left at the above-named office with certified check for \$100, payable to and to be the property of the city if the proposal is not carried out, before 12 m. on Wednesday, March 2, 1910, at which time and place the bids will be publicly opened and read. Duplicate proposal, without check, should be filed with the City Auditor previous to the time named for opening the bids. The Trustees reserve the right to reject any or all bids.

EDWARD M. GALLAGHER,
Chairman.

(Jan. 1-15-22-Feb. 5-19.)

CITY OF BOSTON.

PROPOSALS FOR SUGAR.

The Boston Infirmary Department invites proposals for furnishing sugar to the Boston Almshouse and Hospital, Long Island, and the Almshouse, Charlestown, and giving bond of a surety company for \$700. Only proposals obtained at the office of the department, 28 Court square, Room 3, signed by bidder, and left before 12 m. on Thursday, January 6, 1910, at said office with certified check for \$75, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. The department reserves the right to reject any and all proposals. The bids should be inclosed in a sealed envelope and marked "Proposal for Sugar for the Boston Infirmary Department." In accordance with the city charter, a duplicate copy of the proposals must be filed at the City Auditor's office (without check) at the same time proposals are left at the Boston Infirmary Department.

EDWARD M. GALLAGHER,
Chairman.

(Jan. 1.)

CITY OF BOSTON.

PROPOSALS FOR FLOUR.

The Boston Infirmary Department invites proposals for furnishing flour to the Boston Almshouse and Hospital, Long Island, and the Almshouse, Charlestown, and giving bond of a surety company for \$500. Only proposals obtained at the office of the department, 28 Court square, Room 3, signed by bidder, and left before 12 m. on Friday, January 7, 1910, at said office with certified check for \$50, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. The department reserves the right to reject any and all proposals. The bids should be inclosed in a sealed envelope and marked "Proposals for Flour for the Boston Infirmary Department." In accordance with the city charter, a duplicate copy of the proposals must be filed at the City Auditor's office (without check) at the same time proposals are left at the Boston Infirmary Department.

EDWARD M. GALLAGHER,
Chairman.

(Jan. 1.)

CITY OF BOSTON.

PROPOSALS FOR BUILDING TOLLGATE WAY FOOTBRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for building Tollgate Way Footbridge, West Roxbury, and giving bond therefor of a surety company approved by the superintendent in the sum of two thousand dollars (\$2,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Tollgate Way Footbridge" and left at the said office of the Superintendent of Streets before 12 m. on Monday, January 17, 1910, with certified check for one thousand dollars (\$1,000), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals.

GUY C. EMERSON,
Superintendent of Streets.

Boston, December 31, 1909. (Jan. 1.)

CITY OF BOSTON.

PROPOSALS FOR CARPENTRY AND OTHER WORK.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for carpentry and other work in the Washington Allston Annex, Cambridge street, Brighton, Boston, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Wednesday, January 5, 1910, at said office, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trades unions' rate of wages.

R. CLIPSTON STURGIS,
THOMAS LEAVITT,
EDWARD R. GREGORY,
Commissioners.

(Jan. 1.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for building Elementary School, Winthrop-Brimmer District (Abraham Lincoln School), Ferdinand, Melrose and Fayette streets, Boston, Mass., and giving bond of a surety company therefor in the sum of \$80,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Tuesday, January 18, 1910, at said office, with a certified check for \$2,500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trades unions' rate of wages.

R. CLIPSTON STURGIS,
THOMAS LEAVITT,
EDWARD R. GREGORY,
Commissioners.

(Jan. 1.)

CITY OF BOSTON.

NOTICE TO PHYSICIANS, MIDWIVES AND PARENTS.

Physicians, midwives and parents can obtain blanks for return of births on application at this office, or they will be mailed on request.

REVISED LAWS, CHAPTER 29.

(Extracts from Sections 1, 3 and 6.)

SECTION 1. Each city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

SECT. 3. Physicians and midwives shall, on or before the fifth day of each month, report to the clerk of each city or town a correct list of all children born therein during the preceding month at whose birth they were present. . . . The fee of the physician or midwife shall be 25 cents for each birth so reported.

SECT. 6. Parents, within forty days after the birth of a child, shall cause notice thereof to be given to the clerk of the city or town in which such child is born.

All births in Boston to be reported to this office.

E. W. MCGLENEN, Registrar.
(Jan. 1-8-15.)

INAUGURAL ADDRESSES.

REPRINTS OF ADDRESSES DELIVERED BY THE MAYORS OF BOSTON AT THEIR
INAUGURATION FROM THE INCORPORATION OF THE CITY.

William H. Whittemore, formerly City Registrar, and a man who delighted especially in the preservation of historical data relating to the city, started in 1890 a compilation of the inaugural addresses of the mayors of Boston. Up to that time they were available only in odd and scattered municipal documents, kept with indifferent care, or in some instances in privately printed documents.

In 1894 he produced the first volume which contained the addresses from Phillips to Bigelow. In 1896 he published a second volume, with the addresses from Chapman to Norcross. The two volumes make not only substantial but interesting reading for all citizens. Because of the fact that the volumes in question are out of print, it is proposed to reprint the addresses in probably weekly installments in the *City Record*.

No. 2.

Mayor Quincy's Inaugural Address, which was delivered May 1, 1823, is as follows:

Gentlemen of the Board of Aldermen and Gentlemen of the Common Council:

In accepting the office, to which the suffrages of my fellow citizens have called me, I have not concealed from myself the labors and responsibilities of the station. Comparing my own powers with the nature and exigencies of the present relations of the city, I should have shrunk instinctively from the task, did I not derive, from the intelligence and virtues of my fellow citizens, a confidence which no qualifications of my own are capable of inspiring.

In entering upon the duties of this office, and after examining and considering the records of the proceedings of the city authorities the past year, it is impossible for me to refrain from expressing the sense I entertain of the services of that high and honorable individual who filled the chair of this city, as well as of the wise, prudent and faithful citizens, who composed, during that period, the City Council. Their labors have been, indeed, in a measure, unobtrusive; but they have been various, useful and well considered. They have laid the foundations of the prosperity of our city deep, and on right principles; and, whatever success may attend those who come after them, they will be largely indebted for it to the wisdom and fidelity of their predecessors. A task was committed to the first administration to perform, in no common degree arduous and delicate. The change from a town to a city had not been effected without a considerable opposition. On that subject many fears existed, which it was difficult to allay; many jealousies, hard to overcome. In the outset of a new form of government, among variously affected passions and interest, and among indistinct expectations impossible to realize, it was apparently wise to shape the course of the first administration rather by the spirit of the long experienced constitution of the town than by that of the unsettled charter of the city. It was natural for prudent men, first intrusted with city authorities, to apprehend that measures partaking of the mild, domestic character of our ancient institutions, might be as useful, and would be likely to be more

acceptable, than those which should develop the entire powers of the new government. It is yet to be proved, whether, in these measures, our predecessors were not right. In all times the inhabitants of this metropolis have been distinguished, pre-eminently, for a free, elastic republican spirit. Heaven grant, that they forever may be thus distinguished! It is yet to be decided whether such a spirit can, for the sake of the peace, order, health and convenience of a great and rapidly increasing population, endure, without distrust and discontent, the application of necessary city powers to all the exigencies which arise in such a community.

In executing the trust which my fellow citizens have confided to me, I shall yield entirely to the influences, and be guided exclusively by the principles of the city charter; striving to give prudent efficiency to all its powers; endeavoring to perform all its duties, in forms and modes at once the most useful and most acceptable to my fellow citizens. If at any time, however, through any intrinsic incompatibility, it is impracticable to unite both these objects, I shall, in such case, follow duty, and leave the event to the decision of a just, and wise, and generous people. In every exigency it will be my endeavor to imbibe and to exhibit, in purpose and act, the spirit of the city charter.

What that spirit is, so far as relates to the office of mayor, what duties it enjoins, and by what principles those duties will, in the course of the ensuing administration, be attempted to be performed, it is suitable to the occasion, and I shall now, very briefly, explain.

The spirit of the city charter, so far as relates to the office of mayor, is characterized by the powers and duties it devolves upon that officer.

By him, "the laws of the city are to be executed; the conduct of all subordinate officers inspected; all negligence, carelessness and positive violations of duty prosecuted and punished." In addition to this, he is enjoined to "collect and communicate all information and recommend all such measures as may tend to improve the city finances, police, health, security, cleanliness, comfort and ornament."

The spirit of the city charter in this relation may also be collected, by considering these powers and duties in connection with the preceding form of government. One great defect in the ancient organization of town government was the division of the executive power among many; the consequent little responsibility, and the facility with which that little was shifted from one department, board or individual, to another, so as to leave the inhabitants, in a great measure, at a loss on whom to blame the deficiency in the nature or execution of the provisions for their safety and police. The duty, also, of general superintendence over all the boards and public institutions, being specifically vested nowhere, no individual member of either of them could take upon himself that office, without being obnoxious to the charge of a busy, meddling disposition. The consequence was, that the great duty of considering all the public institutions, in their relations to one another and to

the public service, was either necessarily neglected, or, if performed at all, could only be executed occasionally, and in a very general manner.

The remedy attempted by the city charter is to provide for the fulfillment of all these duties, by specifically investing the chief officer of the city with the necessary powers, and thus to render him responsible, both in character and by station, for their efficient exercise. By placing this officer under the constant control of both branches of the City Council, all errors, in judgment and purpose, were intended to be checked or corrected; and, by his annual election, security is attained against inefficiency or abuse in the exercise of his authority.

The duties, enjoined by the charter on the executive authority, are concurrent with its powers and coincident with its spirit. If, in making a sketch of them, I shall be thought to present an outline difficult for any man completely to fill, and absolutely impracticable for the individual who now occupies the station, let it be remembered that it is always wise in man to work after models more perfect than his capacity can execute. Perfect duty, it is not in the power of man to perform. But it is the right of the people that every man in public office should know and attempt it. Let it also be considered that it will be advantageous, both for the individual who may hold, and for the people who judge and select, that both should form elevated conceptions of the nature of the station. The one will be thus more likely to aim at something higher than mediocrity in execution; and the other, forming just notions of its difficulty, delicacy and importance, will select with discrimination, and receive more readily faithful and laborious endeavor in lieu of perfect performance.

The great duty of the mayor of such a city as this is to identify himself, absolutely and exclusively, with its character and interests. All its important relations he should diligently study and strive thoroughly to understand. All its rights, whether affecting property, or liberty, or power, it is his duty, as occasions occur, to analyze and maintain. If possible, he should leave no foundations of either unsettled or dubious. Towards them, he should teach himself to feel, not merely the zeal of official station, but the pertinacious spirit of private interest.

Of local, sectional, party or personal divisions he should know nothing, except for the purpose of healing the wounds they inflict, softening the animosities they engender, and exciting, by his example and influence, bands, hostile to one another in every other respect, to march one way, when the interests of the city are in danger. Its honor, happiness, dignity, safety and prosperity, the development of its resources, its expenditures and police, should be the perpetual object of his purpose and labor of his thought. All its public institutions, its edifices, hospitals, almshouses, jails, should be made the subject of his frequent inspection, to the end that wants may be supplied, errors corrected, abuses exposed.

Above all, its schools, those choice depositaries of the hope of a free people, should engage his utmost solicitude and unremitting superintendence. Justly are these institutions the pride and the boast of the inhabitants of this city. For these, Boston has, at all times, stood pre-eminent. Let there exist, elsewhere, a greater population, a richer commerce, wider streets, more splendid avenues,

statelier palaces. Be it the endeavor of this metropolis to educate better men, happier citizens, more enlightened statesmen; to elevate a people, thoroughly instructed in their social rights, deeply imbued with a sense of their moral duties; mild, flexible to every breadth of legitimate authority; unyielding as fate to unconstitutional impositions.

In administering the police, in executing the laws, in protecting the rights, and promoting the prosperity of the city, its first officer will be necessarily beset and assailed by individual interests, by rival projects, by personal influences, by party passions. The more firm and inflexible he is, in maintaining the rights, and in pursuing the interests of the city, the greater is the probability of his becoming obnoxious to all, whom he causes to be prosecuted or punished; to all, whose passions he thwarts; to all, whose interests he opposes. It will remain for the citizens to decide whether he who shall attempt to fulfill these duties, and thus to uphold their interests, in a firm, honest and impartial spirit, shall find countenance and support in the intelligence and virtue of the community.

Touching the principles, by which the ensuing administration will endeavor to regulate and conduct the affairs of the city, nothing is promised, except a laborious fulfillment of every known duty; a prudent exercise of every invested power; and a disposition, shrinking from no official responsibility. The outline of the duties, just sketched, will be placed before the executive officer, without any expectation of approximating towards its extent, much less of filling it up, according to that enlarged conception. By making, in the constitution of our nature, the power to purpose greater than the power to perform, Providence has indicated to man that true duty and wisdom consists in combining high efforts with humble expectations.

If the powers vested seem too great for any individual, let it be remembered that they are necessary to attain the great objects of health, comfort and safety to the city. To those whose fortunes are restricted, these powers, in their just exercise, ought to be peculiarly precious. The rich can fly from the generated pestilence. In the season of danger the sons of fortune can seek refuge in purer atmospheres. But necessity condemns the poor to remain and inhale the noxious effluvia. To all classes who reside permanently in a city, these powers are a privilege and a blessing. In relation to city police it is not sufficient that the law, in its due process, will ultimately remedy every injury, and remove every nuisance. While the law delays, the injury is done. While judges are doubting and lawyers debating, the nuisance is exhaling and the atmosphere corrupting. In these cases prevention should be the object of solicitude, not remedy. It is not enough that the obstacle which impedes the citizen's way, or the nuisance which offends his sense, should be removed on complaint or by complaint. The true criterion of an efficient city government is, that it should be removed before complaint and without complaint.

The true glory of a city consists not in palaces, temples, columns, the vain boast of art, or the proud magnificence of luxury, but in a happy, secure and contented people, feeling the advantage of a vigorous and faithful administration not merely in the wide street and splendid avenue but in every lane, in every court, and in every alley. The poorest and

humblest citizen should be made instinctively, to bless that paternal government which he daily perceives watching over his comfort and convenience, and securing for him that surest pledge of health, — a pure atmosphere.

The individual, now intrusted with the executive power by his fellow citizens, repeats that he promises nothing except an absolute self-devotion to their interests. To understand, maintain and improve them he dedicates whatever humble intellectual or physical power he may possess.

Gentlemen of the City Council:

In all the relations which the constitution has established between the departments, it will be his endeavor, by punctuality and dispatch in public business, by executing every duty and taking every responsibility which belongs to his office, to shorten and lighten your disinterested and patriotic labors. Should his and your faithful, though necessarily imperfect, exertions give satisfaction to our fellow citizens, we shall have reason to rejoice not with a private and personal but with a public and patriotic joy; for next to the consciousness of fulfilled duty is the grateful conviction that our lot is cast in a community ready justly to appreciate, and willing actively to support, faithful and laborious efforts in their service.

Should, however, the contrary happen, and, in conformity with the experience of other republics, faithful exertions be followed by loss of favor and confidence, still he will have reason to rejoice,—not, indeed, with a public and patriotic but with a private and individual joy,—for he will retire with a consciousness, weighed against which all human suffrages are but as the light dust of the balance.

NOTE. — No copy has been found of the original pamphlet, if indeed such were printed. This version is reprinted from Quincy's "Municipal History," pp. 375-8.—W. H. W.

PROCEEDINGS OF SCHOOL COMMITTEE.

Dec. 27, 1909.

A special meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5:30 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Ellis, Lee and Magenis.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers on probation, as reported by the Superintendent and laid over at the last meeting. The appointments were approved.

RENTED SCHOOL ACCOMMODATIONS.

A communication was received from the Board of Schoolhouse Commissioners, under date of Dec. 22, 1909, stating that premises No. 104 Elm street, Charlestown, have been hired to provide additional accommodations in the Prescott District, at a rental of \$50 per month, the city to furnish heat and janitor service, occupancy to begin Dec. 20, 1909.

Placed on file.

AMENDMENT TO RULES.

A communication was received from the Board of Superintendents, under date of Dec. 24, 1909, recommending the amendment of section 138, paragraph VI., of the rules,

relative to the elementary school master's certificate, in accordance with an accompanying order.

Placed on file.

The following order was offered:—

ORDERED, That the rules be amended as follows:—

Section 138, paragraph VI. Add the following at the close of the first clause,—and of day industrial schools, so that the clause will read as follows:—

VI. Elementary School, Master: To masters of elementary schools and of day industrial schools.

Laid over.

TUITION OF NON-RESIDENT PUPILS, TRADE SCHOOL FOR GIRLS.

A communication was received from the Secretary, under date of Dec. 27, 1909, with reference to the charge for tuition of non-resident pupils attending the Trade School for Girls (see p. 133), reporting that the State Board of Education has approved a tuition fee for such pupils of \$8 per month, and that the Business Agent from time to time transmits to the State Board of Education for approval a list of such non-resident pupils, and renders bills for such tuition to the various cities or towns in which such pupils actually reside.

Placed on file.

The communication received from the Business Agent at the meeting of Oct. 4, 1909 (see p. 133), relative to the charge for tuition of non-resident pupils attending the Trade School for Girls, was thereupon taken from the table, and placed on file.

ASSISTANT TO JANITOR, MASON-STREET BUILDING.

A communication was received from the Secretary, under date of Dec. 27, 1909, stating that in consequence of the resignation of John T. Randolph from the position of assistant to the janitor of the Mason-street Building on Dec. 12, 1909, the Civil Service Commission has certified the following-named persons as eligible to fill this position,—James V. Flaherty, Henry J. Mahoney, and Andrew D. O'Leary; and recommending the appointment of James V. Flaherty, who stands at the head of the list, to the position, to date from Dec. 24, 1909.

Placed on file, and the appointment of James V. Flaherty to said position approved, from the date stated.

On motion, it was

ORDERED, That the salary of James V. Flaherty, assistant to the janitor of the Mason-street Building, be established at the rate of six and 92-100 dollars (\$6.92) per week, to date from Dec. 24, 1909, and until otherwise ordered.

PAYMENT TO SETH GANONG.

On motion, it was

ORDERED, That there be paid to Seth Ganong for services rendered as assistant to the janitor of the Mason-street Building during the month of December, 1909 subsequent to the resignation of John T. Randolph, the sum of four and 94-100 dollars (\$4.94).

COAL SUPPLY.

A communication was received from the Business Agent, under date of Dec. 27, 1909, calling attention to the situation as regards the coal supply in the bins of the various school-houses, and stating that sufficient coal was purchased during the current financial year to cover only the financial year; that on Dec. 1, 1909, the total amount of coal in the school-houses was 9709 tons, and that the unexpended balance of the appropriation for fuel and light on that date was \$12,000; that he is of the belief that every coal bin which holds a year's supply should have such a supply put in during the summer months, and that those buildings which do not hold a year's supply should receive on the first of December or early in that month enough fuel to carry them through the winter; and recommending that the Auditor be instructed to provide in the estimates for the coming financial year for a sufficient sum to provide for a year's supply of fuel in all buildings which have sufficient bin capacity for that purpose, to fill the bins of all the other schools during the summer, and to provide all buildings which do not

hold a year's supply with sufficient coal by the first of December to carry them through the winter, wherever the bins are of sufficient capacity.

Placed on file.

On motion, it was

ORDERED, That the Auditor be instructed to provide in the estimates for the coming financial year for a sufficient sum for fuel to provide a year's supply in all buildings which have adequate bin capacity for that purpose; to fill bins of all the other schools during the summer and to provide all buildings which do not hold a year's supply with sufficient coal by the first of December to carry them through the winter wherever the bins are of adequate capacity.

JANITORSHIPS, HARVARD HILL SCHOOL-HOUSE AND JOY-STREET PORTABLES NOS. 97, 98, 99 AND 100

A communication was received from the Schoolhouse Custodian, under date of Dec. 27, 1909, stating that he had considered the candidates certified by the Civil Service Commission as eligible for appointment to the janitorship of the Harvard Hill School-house and Joy-street Portables Nos. 97, 98, 99 and 100, and recommending that John H. Palmer, who stands first on the list, be appointed to the janitorship of the Harvard Hill School-house, and that James E. Johnson, who stands second on the list, be appointed to the janitorship of the Joy-street Portables Nos. 97, 98, 99 and 100, to date from Jan. 1, 1910.

Placed on file, and the appointments of John H. Palmer and James E. Johnson to said positions approved, from the date stated.

APPOINTMENT AND PAYMENT OF JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Dec. 27, 1909, submitting a list of temporary appointments, reappointments and transfers of janitors, for periods of ten days or less, and amounts due for such services, as follows:—

Bowker Building School—A. P. Goodman, appointed from Dec. 12, 1909, reappointed from Dec. 22, 1909; amount due from Dec. 12 to 27, 1909, inclusive, \$16.

1446-1448 Columbus-avenue School—Patrick Havery, reappointed from Dec. 22, 1909; amount due from Dec. 21 to 27, 1909, inclusive, \$4.62.

Cook School-house and Portable No. 40—Charles Timmins, appointed from Dec. 26, 1909.

Harvard Hill School-house—James E. Johnson, reappointed from Dec. 22, 1909; amount due from Dec. 21 to 27, 1909, inclusive, \$11.88.

Hutchings-street Portables Nos. 41, 102, 103 and 105—John Powers, amount due from Dec. 20 to 27, 1909, inclusive, \$10.55.

Joy-street Portables Nos. 97, 98, 99 and 100—Henry T. Brennan, reappointed from Dec. 25, 1909; amount due from Dec. 21 to 27, 1909, inclusive, \$9.23.

Lawrence School-house—Thomas F. Powell, temporarily transferred from Dec. 21, 1909; amount due from Dec. 21 to 25, 1909, inclusive, \$13.86.

Mt. Vernon-street School-house—Charles Timmins, amount due from Dec. 21 to 25, 1909, inclusive, \$9.31.

Nathaniel Hawthorne, Howard-avenue and Howard-avenue Annex School-houses, and Portable No. 42—William H. Johnson, amount due from Dec. 21 to 27, 1909, inclusive, \$30.21.

Tuckerman School-house—Thomas F. Powell, temporarily transferred from Dec. 26, 1909.

Placed on file, and the reappointments and transfers approved.

On motion, it was

ORDERED, That for services rendered as acting janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, Joy-street Portables Nos. 97, 98, 99 and 100, from Dec. 21, to 27, 1909, inclusive, nine and 23-100 dollars (\$9.23).

To A. P. Goodman, Bowker Building School, from Dec. 12 to 27, 1909, inclusive, sixteen dollars (\$16).

To Patrick Havery, 1446-1448 Columbus-avenue School, from Dec. 21 to 27, 1909, inclusive, four and 62-100 dollars (\$4.62).

To James E. Johnson, Harvard Hill School-house, from Dec. 21 to 27, 1909, inclusive, eleven and 88-100 dollars (\$11.88).

To William H. Johnson, Nathaniel Hawthorne, Howard-avenue and Howard-avenue Annex School-houses and Portable

No. 42, from Dec. 21 to 27, 1909, inclusive, thirty and 21-100 dollars (\$30.21).

To Thomas F. Powell, Lawrence School-house, from Dec. 21 to 25, 1909, inclusive, thirteen and 86-100 dollars (\$13.86).

To John Powers, Hutchings-street Portables Nos. 41, 102, 103 and 105, from Dec. 20 to 27, 1909, inclusive, ten and 55-100 dollars (\$10.55).

To Charles Timmins, Mt. Vernon-street School-house, from Dec. 21 to 25, 1909, inclusive, nine and 31-100 dollars (\$9.31).

PAYMENT TO CHARLES F. HARTSON.

A communication was received from the Schoolhouse Custodian, under date of Dec. 27, 1909, recommending that the order passed at the meeting of Dec. 20, 1909 (see p. 185), relative to the payment of acting janitors of various school-houses, be amended to provide that Charles F. Hartson be paid for services rendered as acting janitor of the Nathaniel Hawthorne, Howard-avenue and Howard-avenue Annex School-houses and Portable No. 42, from Dec. 15 to 17, 1909, inclusive, the sum of eleven and 69 100 dollars (\$11.69), instead of \$10.76.

Placed on file.

On motion, it was

ORDERED, That the order passed at the meeting of Dec. 20, 1909 (see p. 185), providing for the payment of acting janitors of various school-houses, be amended to provide that Charles F. Hartson be paid for services rendered as acting janitor of the Nathaniel Hawthorne, Howard-avenue and Howard-avenue Annex School-houses and Portable No. 42, from Dec. 15 to 17, 1909, inclusive, the sum of eleven and 69-100 dollars (\$11.69), instead of \$10.76.

MEDICAL INSPECTION OF CHILDREN RECEIVING AGE AND SCHOOLING CERTIFICATES.

A communication was received from R. K. Conant, Secretary of the Massachusetts State Child Labor Committee, under date of Dec. 22, 1909, relative to a proposed bill to be presented to the Legislature, requiring the medical inspection of children between the ages of fourteen and sixteen years before they are permitted to go to work, and providing that no age or schooling certificate shall be granted unless the person issuing the same has first seen a certificate signed by a school physician to the effect that the child is in good health and physically able to perform the work which he intends to do, and also providing for the appointment of school physicians.

Referred to Mr. Lee for consideration and report.

PAVEMENT ON NORTHAMPTON STREET, NEAR EVERETT SCHOOL.

A communication was received from Edward J. Welsh, under date of Dec. 21, 1909, calling attention to the poor condition of the pavement and street railway tracks on Northampton street, in front of the Everett School, the resultant noise being the source of much annoyance to the school and the residents in the vicinity, and requesting the cooperation of the School Board in remedying the matter.

Placed on file.

On motion, it was

ORDERED, That the attention of the Superintendent of Streets be called to the condition of the pavement and the rails of the Boston Elevated Railway Company in front of the Everett School on Northampton street, because of which the noise of passing vehicles is so great as seriously to interfere with the conduct of the school, and that he be requested to take such steps as may be necessary to have the surface of the street and the tracks relaid, in order to remedy the annoyance that is now caused the occupants of this school.

DATE OF BEGINNING OF TEACHER'S COMPENSATION.

The attention of the Board was called to the case of a teacher who was appointed on Nov. 16, 1909, as an assistant in one district, where she never served, and was then transferred to another district, to date from Nov. 29, 1909, on which day she reported for duty, but found the school closed on account of stormy weather, and actually began service on the following day, Nov. 30; the question being whether

her compensation should date from the day on which she reported or on the following day when she actually began work.

Referred to the Corporation Counsel for his opinion on the subject.

ADJOURNMENT.

The Board adjourned at 6:07 o'clock P.M.

Attest:—

THORNTON D. APOLLONIO,
Secretary.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH:

1910.

February 7. Civil Engineers, Class 27.
February 15. Metropolitan Park Policemen, Class 16.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON:

1910.

January 4. Draw Tenders, Assistant Draw Tenders, Class 25.
January 7. Firemen, Class 20.
February 8. Civil Engineers, Class 27.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.
March 29. Janitors and Engineers of Public Buildings, Class 24.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth; and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and, when filled out, should be filed in the office of the Commission.

In order to receive a notice to appear at any of the above scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

By order of the

MASSACHUSETTS CIVIL SERVICE COMMISSION,
WARREN P. DUDLEY,
Secretary.

PROCEEDINGS OF BOARD OF ALDERMEN.

Monday, December 27, 1909.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 3 o'clock, p. m., Chairman BRAND presiding and all the members present.

The Board voted, on motion of Ald. ANDERSON, to dispense with the reading of the records of the last two meetings.

REMOVAL OF CONSTABLE.

The following was received:

City of Boston.

Office of the Mayor, December 17, 1909.
To the Gentlemen of the Board of Aldermen:
You are hereby notified that I have this day removed James McDonough from the office of Constable of the City of Boston.

Respectfully,

G. A. HIBBARD, Mayor.

Placed on file.

NOTICE OF REMOVAL OF PENAL COMMISSIONER.

The following was received:

City of Boston.

Office of the Mayor, December 24, 1909.
To the Gentlemen of the Board of Aldermen:
In order that it may appear in the official record, you are hereby notified that Vernon V. Skinner has been removed from the office of Penal Institutions Commissioner, said removal to take effect this day (December 24, 1909) at twelve o'clock m., and that Superintendent of Streets Guy C. Emerson has been designated by me to discharge temporarily the duties of the office.

Respectfully,

G. A. HIBBARD, Mayor.

Placed on file.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston.

Office of the Mayor, December 27, 1909.
To the Gentlemen of the Board of Aldermen:
Subject to confirmation by your Board I hereby appoint Henry Stockley (Hotel Buckminster, Beacon street) a Weigher of Beef for the term ending April 30, 1910.

Respectfully,

G. A. HIBBARD, Mayor.

City of Boston.

Office of the Mayor, December 27, 1909.
To the Gentlemen of the Board of Aldermen:
Subject to confirmation by your Board I hereby appoint Henry A. Madden (474 Sumner street, Ward 2) a Weigher of Coal, Measurer of Wood and Bark, Measurer of Grain, Weigher of Boilers and Heavy Machinery and Weigher of Beef, for the term ending April 30, 1910.

Respectfully,

G. A. HIBBARD, Mayor.

Laid over under the law.

CONTROL OF COURTHOUSE, ETC., EAST BOSTON.

The following was received:

City of Boston.

Office of the Mayor, December 27, 1909.
To the Gentlemen of the City Council:
It has been decided to locate the new courthouse and police station building for East Boston in Central square. It will therefore be necessary to transfer the care and custody of such portion of the square as may be needed to the department which will have charge of the maintenance of the proposed structure, and I recommend the passage of the accompanying draft of order which will place the site of the building under the control of the Public Buildings Department.

Respectfully,

G. A. HIBBARD, Mayor.

Ordered, That so much of Central square in East Boston as may be needed for a site for new courthouse and police station building be and hereby is transferred from the care and custody of the Public Grounds Department to the care and custody of the Public Buildings Department.

Referred to the Committee on Public Improvements, on motion of Ald. ANDERSON.

REPAIR OF FERRYBOAT GENERAL SUMNER.

The following was received:

City of Boston.

Office of the Mayor, December 27, 1909.
To the Gentlemen of the City Council:
I transmit herewith a communication from the Superintendent of Streets calling attention to the necessity for repairing the ferryboat "General Sumner," which was recently dam-

aged by fire, and I earnestly recommend the passage of the inclosed draft of order providing for the transfer of \$40,000 from the appropriation for Street Department, Lamp Division, to a special appropriation for this purpose.

Respectfully,

G. A. HIBBARD, Mayor.

Street Department.

City Hall, Boston, December 27, 1909.

To the Honorable the Mayor:

I would respectfully request that the inclosed order for the transfer of \$40,000 from the appropriation for Street Department, Lamp Division, to a special appropriation for repairing the ferryboat General Sumner be introduced into the City Council in order that this boat may be put in service at as early a date as possible, so as not to subject ferry passengers to unnecessary inconvenience.

Very respectfully,

GUY C. EMERSON,

Superintendent of Streets.

Ordered, That the City Auditor be authorized to transfer the sum of forty thousand dollars (\$40,000) from the appropriation for Street Department, Lamp Division, to a special appropriation for repairing the ferryboat General Sumner, recently damaged by fire and water.

Referred to the Committee on Public Improvements.

CLAIMS, STREET DEPARTMENT.

The following was received:

City of Boston.

Office of the Mayor, December 18, 1909.
To the Gentlemen of the Board of Aldermen:
I transmit herewith a communication from the Superintendent of Streets containing a further reply to the order of your Board requesting a list of all claims over which the Committee on Claims has jurisdiction, now pending before the Street Department for investigation.

Respectfully,

G. A. HIBBARD, Mayor.

Street Department, City Hall.

Boston, December 17, 1909.

To the Honorable the Mayor:

Returning herewith order of the Board of Aldermen relative to list of claims in this department over which the Committee on Claims has jurisdiction, you are respectfully informed that since the receipt of the former order a few claims have been called to my attention and reports made thereon. So far as I know, there are no further claims now pending, but if others are presented to me reports will be made upon them as soon as practicable. It would seem to me that the most practical way for the Committee on Claims to get the information which it desires may be to apply to Capt. William H. Dyer, who acts as an inspector of claims, and who is not, as you are of course aware, an official of this department.

Respectfully,

GUY C. EMERSON,

Superintendent of Streets.

Placed on file.

1. LIST OF PAYMENTS BY THE CITY OF BOSTON, 1833-1874, TO NATHAN MATTHEWS, SR., ESQ.

FILLING, RAINSFORD ISLAND.

The following was received:

City of Boston.

Office of the Mayor, December 18, 1909.
To the Gentlemen of the Board of Aldermen:
I transmit herewith, in order that it may be placed in the files of the City Clerk, an instrument from the United States War Department granting permission to the city to fill solid at Rainsford Island, Boston Harbor.

Respectfully,

G. A. HIBBARD, Mayor.

War Department.

Washington, December 16, 1909.

Sir,—In answer to your application of the 7th inst., permission, revocable at will by the Secretary of War, is hereby granted the City of Boston, in accordance with the recommendation of the Chief of Engineers, U. S. Army, and in conformity with license No. 3419, from the Board of Harbor and Land Commissioners, to fill solid at Rainsford Island, Boston Harbor, at the location shown on map attached thereto, subject to the following conditions:

That the work herein permitted to be done shall be subject to the supervision and approval of the local officer of the Corps of Engineers, U. S. Army, whose address is Boston, Mass.

Very respectfully,

ROBERT SHAW OLIVER,

Acting Secretary of War.

Hon. G. A. Hibbard, Mayor.

Boston, Mass.

(Annexed was the map referred to.)

Placed on file.

PAYMENTS TO MESSRS. MATTHEWS.

The following was received:

City of Boston.

Office of the Mayor, December 27, 1909.
To the Gentlemen of the Board of Aldermen:
I transmit herewith a communication from the Statistics Department containing an answer to your order requesting a list of all sums of moneys paid by the city to Nathan Matthews, Sr. and Nathan Matthews, Jr., and the purposes for which said sums were paid.

Respectfully,

G. A. HIBBARD, Mayor.

Statistics Department, 73 City Hall.

Boston, December 24, 1909.

Hon. G. A. Hibbard.

Mayor of Boston:

Sir,—On December 13, 1909, in the Board of Aldermen it was "Ordered. That the Statistics Department be requested to furnish this body with a list of all sums of money paid by the City of Boston to Nathan Matthews, Sr., and Nathan Matthews, Jr., and the purposes for which said sums were paid."

In conformity with the foregoing order I beg to submit the following statements derived from the official records and reports of the City Auditor since 1841.

FOR PROFESSIONAL SERVICES.

1. Paid to Nathan Matthews, Jr.

DATE.	Object.	Amount.
1896, { June 11 . . .	Retainer in the matter of valuation of portion of the Boston Water Works to be taken by the Metropolitan Water Board	\$1,000 00
{ August 4 . . .	For Services in the matter of the taking of the Water Works by the Metropolitan Water Board to date	693 50
1897, January 8	For Services in the matter of Water Works taking, under Statute 1895, chapter 488, on account	1,500 00
1898, February 10	For Services in the matter of the taking of the Water Works by the Metropolitan Board	2,463 75
1899, { May 15 . . .	For Services in the matter of the taking of the City's Water Works by the Commonwealth, on account	2,500 00
{ December 23 . . .	For Services, re Boston v. Commonwealth, on account	2,000 00
		\$10,157 25

2. Paid to Matthews & Thompson.

1900, September 10	For professional services of Matthews & Thompson in the preparation, trial and argument of the case for the Park Commission at the investigation of the Board, by Special Committee of the Board of Aldermen	*\$3,850 00
1901, February 15	For professional services to date in the claim of the City of Boston against the Commonwealth of Massachusetts for the taking of land and water rights by the Metropolitan Water Board, including payment for the services of Messrs. Thompson & Spring, and all persons hired and retained by me to do legal work in or on said claim	15,000 00
	Total	\$18,850 00

*Paid to S. Romney Spring for Matthews & Thompson.

RECAPITULATION.

Paid to Nathan Matthews, Sr., 1853-1874	\$68,426 25
Paid to Nathan Matthews, Jr.: For Official Services, 1891-1905	\$44,375 00
For Professional Services, 1896-1901	*29,007 25
	73,382 25

*Of this sum, \$25,157.25 was for services as special counsel re the taking by the Commonwealth of Boston's sources of water supply—settled by the Mayor and Law Department in 1901 for \$13,000,000.

Very respectfully,

EDWARD M. HARTWELL, Secretary.

The Board voted to print the communication as a public document, yeas 8, nays 4:
Yeas—Ald. Anderson, Attridge, Brand, Curley, Giblein, O'Hare, Timilty, Whelton—8.

Nays—Ald. Ballantyne, Carr, Cotton, Hale—4.
The matter was assigned to the next meeting of the Board.

PROPERTY EXEMPT FROM TAXATION.

The following was received:
City of Boston,
Office of the Mayor, December 27, 1909.
To the Gentlemen of the Board of Aldermen:
I transmit herewith several tables prepared by the Assessing Department, containing "a list

of all property exempt from taxation, except church property, with the assessed values of the same and the reasons for exemption," which information was requested by your Board on the 13th instant.

Respectfully,

G. A. HIBBARD, Mayor.

Monday, January 17, at 3 o'clock p. m., when any parties objecting thereto may appear and be heard, viz.:

James Marcello, to keep and store dynamite, etc., on Allston street at Summit avenue, Ward 25.

George R. Bascom Company (Inc.), to keep and sell gasoline at 31-33 Stanhope street, Ward 10.

The Texas Company, to keep, store and sell petroleum at 258 Southampton street, Ward 17.

A. J. & G. H. McMurtry, to keep and store dynamite and exploders at rear 487 Washington street, Ward 25.

COAL AND COKE LICENSES.

Copies of coal and coke licenses granted by the Secretary of the Commonwealth were received. Placed on file.

NOTICES OF HEARINGS.

Notices of hearings were received from the Harbor and Land Commissioners as follows:

Hearing, December 29, on petition of Edison Electric Illuminating Company of Boston for leave to lay a conduit in Charles river at Charles-town Bridge.

Hearing, December 29, on petition of Boston & Albany Railroad Company for license to construct pier No. 5 in Boston Harbor, at East Boston.

Placed on file.

USE OF BUILDING FOR GASOLINE.

In accordance with law notice was received from the Armstrong Transfer Express Company for the storage of gasoline in building corner of Troy and Albany streets, Ward 9, under license granted by the Board of Aldermen, and of intention to use for same purpose for the ensuing year. Placed on file.

RULES CONCERNING DRAWBRIDGES.

A copy of regulations of the United States War Department for the opening and closing of draws and bridges was received.

Placed on file.

CLERK HIRE.

A communication was received from W. T. A. Fitzgerald, Register of Deeds, in accordance with the provisions of section 23 of chapter 22 of the Revised Laws, certifying that persons have been employed in his office from November 22 to December 20, and that work had been performed to the amount of \$2,729.90.

Approved and ordered paid.

ELECTRIC WIRES.

Ald. BALLANTYNE, for the Committee on Electric Wires, submitted the following:

(1) Reports on petitions (severally referred December 13) for leave to erect poles in various streets — recommending the passage of orders of notice for hearings thereon on Monday, January 10, at 3 o'clock p. m., when any parties objecting thereto may appear and be heard, viz.:

The New England Telephone and Telegraph Company of Massachusetts, to erect two poles on Woodward street, Ward 15.

The same company, to erect eight poles on Holbrook street, Ward 23.

The same company, to erect seven poles on Bernard street, Ward 24.

The same company, to erect twelve poles on Talbot avenue, Ward 24.

Edison Electric Illuminating Company of Boston, to erect two poles on Arklow street, Ward 22.

The same company, to erect two poles on Walden street, Ward 22.

Reports severally accepted; orders of notice passed.

(2) Report on petition of Fire Commissioner (recommended December 13) to erect lamp-post for fire-alarm box — recommending the passage of the following:

Ordered, That permission be granted the Fire Commissioner to place and maintain lamp-post for fire-alarm box for the support of wires at points designated by white dots on a plan deposited in the office of the Superintendent of Streets, made by H. D. Cabot; said post to be located as follows:

Massachusetts avenue, southerly corner of Boylston street, 1 post, plan dated November 18, 1909.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating said poles to be completed within thirty days from the date of the passage of this order.

Report accepted; order passed.

(3) Report on petition of the New England Telephone and Telegraph Company of Massa-

chusetts (recommitted December 13) for leave to erect poles—recommending the passage of the following:

Ordered, That permission be granted the New England Telephone and Telegraph Company of Massachusetts to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by F. T. Crockett; said poles to be located as follows:

Arlington street, Ward 25, between Parsons and Leicester streets, three poles, 40 feet by 14 inches; sidewalk, 7 feet; date of plan, November 19, 1909.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating said poles to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed.

(4) Report on petition of the Edison Electric Illuminating Company of Boston (referred December 13) for leave to erect and to remove poles—recommending the passage of the following:

Ordered, That permission be granted the Edison Electric Illuminating Company of Boston to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by W. H. Cole; said poles to be located as follows:

Parker Hill avenue, Ward 19, near Huntington avenue, one pole, 50 feet by 15 inches; sidewalk, 7 feet; date of plan, December 16, 1909.

Ordered, That permission be granted to said company from Parker Hill avenue, as shown on said plan.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating and removing said poles to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed.

PROJECTIONS, ETC.

Ald. BALLANTYNE, for the Committee on Building Department (Ald.), submitted the following:

(1) Reports on petitions (severally referred to-day) for leave to project signs at various places—that leave be granted, viz.:

A. S. Onthank, 193 Concord street, Ward 1.

Philip Armo (four signs), 41 Decatur street, Ward 2.

marquise—that the petitioners have leave to withdraw, viz.:

Samuel Barkin (referred December 6), three bay windows, 601 Saratoga street, corner Swift street, two over Swift street and one over the corner of said street, Ward 1.

J. Arthur Gustowski (referred December 6), one bay window, rear 662-664 Saratoga street, over Curtis street, Ward 1.

Estate of John C. Haynes (referred November 22), marquise, 146 Summer street, Ward 7.

The question came on accepting the reports. Ald. GIBLIN—Mr. Chairman, as a member of the Committee on Building Department, and after consulting with the Chairman, Ald. Ballantyne, I would say that he is perfectly satisfied that I should move to have the reports on these two East Boston matters referred back to the Committee on Building Department.

On motion of Ald. GIBLIN the reports on the petitions of Samuel Barkin and J. Arthur Gustowski, above, were recommitted to the Committee on Building Department (Ald.).

The question came on accepting the report on the estate of John C. Haynes.

Ald. BALLANTYNE—Mr. Chairman, I move that that also be referred back to the committee. That is a matter that I would like to consider.

The report on the petition of the estate of John C. Haynes was also recommitted.

PARKMAN MEMORIAL HOUSE.

Ald. ANDERSON called up No. 14, special assignment, viz.:

14. Whereas, The City of Boston, by the will of the late George F. Parkman, acquired a certain piece of property at 33 Beacon street, to wit, the house of the late George F. Parkman; and

Whereas, The said property in ordinary course would be sold and turned into cash; and

Whereas, The aforesaid property may well be adapted, with slight changes, into headquarters for some city department; be it

Resolved, That the Board of Aldermen express the opinion that said property ought not to be sold, but retained until it shall be determined whether the property is not suitable for a Parkman Memorial House; and be it further

Resolved, That copies of these resolutions be transmitted to the Mayor and the executor of the Parkman estate.

The preambles and resolutions were passed, Ald. ANDERSON calling for the yeas and nays, yeas 12, nays 0.

LICENSES.

Ald. CURLEY, for the Committee on Licenses, submitted the following:

(1) Reports on petitions (severally referred to-day) for permits for children under fifteen years of age to appear at various places of amusement—that permits be granted, viz.:

Charles T. K. Miller, Hollis Street Theater, for three weeks, beginning December 20, for Emily Worcester to appear at the Hollis Street Theater.

Annie V. Sharp, for certain children to appear at Symphony Hall on the afternoon of January 8. Rich, Harris & Frohman, for Raymond Hackett to appear at Colonial Theater for two weeks, appearing December 27.

Reports severally accepted; permits granted on the usual conditions.

(2) Reports recommending that minors' licenses be granted to two vendors.

Reports accepted; licenses granted on the usual conditions.

USE OF FANEUIL HALL.

Ald. ATTRIDGE, for the Committee on Faneuil Hall, etc., submitted reports on petitions (severally referred to-day) for use of Faneuil Hall—that leave be granted, viz.:

Boston District Council, U. S. W. V., evening of February 13, 1910.

Boston Mutual Life Insurance Company, 4 to 11.30 p. m. on January 13, 1910.

Herman Hornel, evening of Friday, December 31.

John J. Attridge, noon time of December 27. Bricklayers and Masons' Union, January 12, 1910.

Reports severally accepted; leave granted on usual conditions.

CLAIMS.

Ald. CARR, for the Committee on Claims, submitted reports on petitions for compensation for damage to property—that the petitioners be given leave to withdraw, viz.:

Edward Wren (referred last year), for damage to property at 1072 South street, Ward 23, by men employed in destroying gypsy moths.

Fannie McClinch (referred last year), for injuries caused by bursting of water main on Geneva avenue, November 18, 1907.

Timothy J. Cunohan (referred 1907), for damage to property at 15 Stanwood street.

Catherine E. Mahoney *et al.* (referred 1906), for damage to property at 485 Quincy street caused by overflow from sewer.

United States Construction Supply Company (referred October 4), for damage to property caused by flooding in cellar of 323-327 Franklin street.
Reports severally accepted. Sent down.

FULL TIME FOR EXTRA MEN.

Ald. O'HARE offered an order—That his Honor the Mayor be requested to direct the Superintendent of Streets to pay all regular extra men full time for holiday work.
Passed. Sent down.

REPAIR OF SOUTH BOSTON BRIDGES.

Ald. O'HARE offered an order—That the City Engineer be requested to furnish this Board at its next session with an estimate of the cost of putting all bridges to South Boston in safe and suitable condition for the carrying of heavy cars.
Passed.

PAYMENT TO MRS. AKERLY.

Ald. GIBLIN offered an order—That there be allowed and paid to Mary C. Akerly, widow of James B. Akerly, a member of the Fire Department, who was killed December 11, 1909, while in the performance of his duty, the sum of \$3,000, and that said sum be and hereby is transferred from the appropriation for Fire Department to a special appropriation for that purpose.

The question came on giving the order a second reading.

The order was referred to the Committee on Public Improvements.

MONUMENT TO GEORGE F. PARKMAN.

Ald. TIMILTY offered an order—That of the income available the present year from the Parkman Fund the sum of \$40,000 be hereby appropriated, to be expended by the Art Commission for a statue of the late George F. Parkman or for such other suitable monument in his honor as they may deem advisable; the said statue or monument to be erected in such portion of Boston Common as said commission shall select; and the erection of said statue or monument on Boston Common is hereby authorized.

Referred to the Committee on Public Improvements.

LAMP AT ROXBURY CROSSING.

Ald. TIMILTY offered an order—That the Superintendent of Streets be requested to place and maintain a flaming arc lamp at Roxbury Crossing, Ward 19, the expense attending the same to be charged to the appropriation for Street Department, Lamp Division.
Passed.

ELECTRIC LAMP, GORDON PLACE.

Ald. CARR offered an order—That the Superintendent of Streets be requested to place and maintain an electric lamp on Gordon place, off Leonard street, Ward 24, the expense attending the same to be charged to the appropriation for Street Department, Lamp Division.
Passed.

ELECTRIC LAMP, LAURIAT AVENUE.

Ald. CARR offered an order—That the Superintendent of Streets be directed to place and maintain an electric lamp opposite the Baptist Berean Church on Lauriat avenue, Ward 24, the expense attending the same to be charged to the appropriation for Street Department, Lamp Division.
Passed.

SKATING, MARCELLA STREET PLAYGROUND.

Ald. COTTON offered an order—That the Park Commissioners be requested, through his Honor the Mayor, to flood the Marcella Street Playground for skating, the expense attending the same to be charged to the appropriation for the Park Department.
Passed.

MUSIC STAND, BOSTON COMMON.

Ald. COTTON offered an order—That the Music Trustees be authorized to expend not exceeding \$75,000 out of the income of the George F. Parkman Fund, for the erection of a music stand on Boston Common, and to carry out the other recommendations contained in the communication of the chairman to Mayor Hibbard, dated December 2, 1909.
Referred to the Committee on Public Improvements.

SUBSOIL IRRIGATION SYSTEM.

Ald. COTTON offered an order—That the Superintendent of Public Grounds be authorized to expend, in addition to the sum of \$10,000 provided by a certain order approved by the Mayor on May 11 last, a sum not exceeding \$60,000 out of the income of the George F. Parkman Fund for the establishment of a suitable subsoil irrigation system in Boston Common and the Public Garden and to carry out the other recommendations contained in his letter to Mayor Hibbard, dated December 4, 1909.

Referred to the Committee on Public Improvements.

FINANCE COMMISSION PAPERS.

Ald. CURLEY offered an order—That the Finance Commission furnish this Board with all papers, both public and private, in their possession.

The order was read a second time, and the question came on its passage.

The order was declared passed. Ald. Anderson doubted the vote and asked for the yeas and nays. The order was passed, yeas 6, nays 5:

Yeas—Ald. Attridge, Brand, Curley, Giblin, Timilty, Whelton—6.

Nays—Ald. Anderson, Ballantyne, Carr, Cotton, Hale—5.

PAPERS CONCERNING WATER SYSTEM.

Ald. CURLEY offered an order—That the Law Department furnish this Board with all papers in their possession bearing on settlement of legal claims in connection with taking of land and water rights by the Metropolitan Water Board.

Passed.

EMPLOYMENT OF EXTRA MEN.

Ald. CURLEY offered an order—That the Superintendent of Streets, through his Honor the Mayor, be directed to request permission of the Civil Service Commission to employ as regular men all men now employed as regular extra men in the Street Department.

The order was passed. Sent down.

COST OF STREET WIDENINGS, ETC.

Ald. CURLEY offered an order—That the City Auditor be directed to furnish this Board with a list of all moneys paid and to whom paid in connection with widenings or takings in connection with the following streets: Union street, February 26, 1853; Ann street, February 26, 1853; Federal street, December 28, 1865; Williams street, April 20, 1867; Federal street, June 12, 1867; Williams street, May 27, 1868; Appleton street, February 26, 1869; Washington and Malden streets, Chelsea, January 8, 1873; Federal street, April 24, 1873; Parker street, August 1, 1874.

Passed.

CONDITION OF CITY STREETS.

Ald GIBLIN offered the following:

Whereas, The streets of the City of Boston are to-day in a condition which renders them unsafe for use by the citizens, etc.

The CHAIRMAN—The order will be referred to the Committee on Public Improvements. The Board will take a recess subject to the call of the Chair.

PUBLIC IMPROVEMENTS.

Ald. BALLANTYNE, for the Committee on Public Improvements, submitted the following:

(1) Report on order (referred to-day) that the Music Trustees be authorized to expend a sum not exceeding \$75,000 out of the income of the George F. Parkman Fund for the erection of a music stand on Boston Common, and to carry out the other recommendations contained in the communication of the Chairman to Mayor Hibbard, dated December 2, 1909—that the order ought to pass.

Report accepted; order assigned to the next meeting on motion of Ald. COTTON.

(2) Report on petition of J. J. & P. M. Ahern (referred to-day) to move a wooden building—recommending the passage of the following:

Ordered, That the Superintendent of Streets be authorized to issue a permit to J. J. & P. M. Ahern to move a wooden building, pitch roof, 21 feet in length by 29 feet in width by 33 feet in height, from 1 Elm street through Elm, Ashland, Everdean and Blanche streets to stone foundation at 31 Blanche street, Ward 24, on the terms and

conditions expressed in the ordinance of the city relating thereto.

Report accepted; order passed.

(3) Reports on petitions (severally referred to-day) for leave to construct bulkhead opening, etc.—recommending the passage of orders that the Superintendent of Streets issue permits as hereinafter specified, the work on same to be completed on or before February 1, 1910, according to the terms and conditions expressed in the ordinances of the city relating thereto, viz.:

Charles P. Bowditch *et al.*, trustees, to construct, maintain and use a bulkhead opening 2½ feet by 1 foot and with an iron cover of rough upper surface under and in the sidewalk in front of estate 19 Mason street, Ward 7.

Sam Albert, to construct, maintain and use a bulkhead opening 4 feet by 3½ feet and with an iron cover of rough upper surface under and in the sidewalk in front of estate 210 Sumner street, Ward 2.

A. Del Signor, to construct, maintain and use three areas with patent sidewalk covers and three coal-hole openings not exceeding 18 inches in diameter, and with iron covers of rough upper surface under and in the sidewalk in front of estate 11-13 Charter street, Ward 6, as shown on a plan dated December 27, 1909, and placed on file in the permit office of the Street Department.

Peter Bent Brigham Hospital, to enlarge, maintain and use the areas with iron covers at present existing under and in the sidewalk in front of estate 9 Tremont row, Ward 7, to the dimensions as shown on a plan dated December 17, 1909, on file in the permit office of the Street Department.

Reports severally accepted; orders passed.

(4) Report on message of the Mayor, communication and order (referred to-day), that \$40,000 be transferred by the City Auditor from the appropriation for Street Department, Lamp Division, to a special appropriation for repairing the ferryboat General Sumner recently damaged by fire and water.

The report was accepted, the message and communication sent down and the order was passed, yeas 12. Sent down.

(5) Report on order (referred to-day), that the Superintendent of Public Grounds be authorized to expend a sum not exceeding \$60,000 from the income of the George F. Parkman Fund for the establishment of a suitable sub-soil irrigation system in Boston Common.

Report accepted; order passed, yeas 12. Sent down.

(6) Reports on petitions for sidewalks (severally referred to-day), recommending the passage of orders that the Superintendent of Streets make sidewalks in front of the following named estates on streets as hereinafter specified; said sidewalks to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestone, the owner to furnish the material, viz.:

Daniel J. Riley, 100 Cummington street, Ward 11; Thomas Pickard, 13-15 Hobart street, Ward 25; John T. Sweeney, 11 Hobart street, Ward 25; William Riley, 458-460 Columbia road, Ward 16; Henrietta E. Wedel, 12 Hobart street, Ward 25.

Reports severally accepted; licenses granted on the usual condition.

USE OF CITY LAND.

Ald. COTTON called up No. 13, special assignment, viz.:

13. Report of the Committee on Public Lands, recommending the passage of the following:

Ordered, That his Honor the Mayor be requested to consult with the various heads of city and county departments, especially the Penal Commissioner, Pauper Trustees and Children's Trustees, in regard to the possible beneficial use by some department of the land owned by the City of Boston on New Boston street, in Wilmington and Woburn, and further, that his Honor the Mayor be requested to report to the City Council the result of such consultation.

The order was assigned to the next meeting of the Board.

RAILROADS.

Ald. ANDERSON, for the Committee on Railroads, submitted the following:

(1) Reports on petitions of West End Street Railway Company (severally referred to-day) for locations for tracks on Warren and Dudley streets, and on Washington street near Marvin street and Dudley Street Station—recommending the passage of orders of notice for hearings thereon on Monday, January 17, at 3 o'clock p. m., when any parties objecting may appear and be heard, viz.:

Reports accepted; orders of notice passed.

(2) Report on petition of the Boston & Maine Railroad (referred November 29) that the Board of Aldermen, acting as County Commissioners, prescribe the limits within which

certain land in Charlestown may be taken for an additional track leading to Mystic Wharf—recommending the passage of the following preambles and order, acting as County Commissioners, viz.:

Whereas, The Boston & Maine Railroad, a corporation duly established under the laws of the Commonwealth, has represented to this Board, acting as County Commissioners, that it requires additional land for one or more new tracks for the purpose of reaching Mystic Wharf;

Whereas, This Board, acting as County Commissioners, did, on Monday, December 13, after due notice to the owners of said land, give a hearing in accordance with section 78 of chapter 463 of the Acts of 1906; now therefore be it

Ordered, That the limits within which the Boston & Maine Railroad may take land for one or more tracks adjacent to other land occupied by said railroad be prescribed as follows:

Beginning on the location of said railroad at land now or formerly of Charles H. Burns, thence running westerly by said location on a curve to the right having a radius of nine hundred forty-two and eighty-seven hundredths (942.87) feet, one hundred fourteen and seventy-four hundredths (114.74) feet to land now or formerly of Edith A. Richards; thence turning and running north 29 degrees 34 minutes and 14 seconds east by said land now or formerly of Richards fourteen and twenty-three hundredths (14.23) feet to other land of the Railroad Wharf and Storage Company; thence turning and running easterly by said land of the Railroad Wharf and Storage Company on a curve to the left having a radius of nine hundred twenty-eight and eighty-seven hundredths (928.87) feet to said land now or formerly of Burns; thence turning and running south 29 degrees 34 minutes 14 seconds west by said land now or formerly of Burns fourteen and sixty-eight hundredths (14.68) feet to the point of beginning, said parcel containing sixteen hundred and seven (1,607) square feet; reserving to said Railroad Wharf and Storage Company the right to pass and repossess over the above described land by means of an extension of the existing private crossing twenty (20) feet in width as shown in the plan filed in the office of the City Clerk and dated November, 1909.

Report accepted; preamble adopted and order passed.

PAYMENT TO MRS. AKERLY.

Ald. GIBLIN offered an order—That there be allowed and paid to Mary Akerly, widow of James B. Akerly, a member of the Fire Department, who was killed December 11, 1909, while in performance of his duty, the sum of \$3,000, and that said sum be transferred from the Fire Department to a special appropriation for that purpose.

Ald. CARR—Mr. Chairman, I move that this be referred to the Committee on Public Improvements.

The CHAIRMAN—The Chair declared the motion to refer carried, and Ald. Curley doubted the vote and asked for a verification by yeas and nays.

Ald. ANDERSON—Mr. Chairman, I rise to a point of order. We are discussing matters here when there is nothing before us. The matters are all disposed of.

The CHAIRMAN—The Chair will rule the point not well taken. The Clerk will call the roll. The question comes on solving the doubt on reference to the Committee on Public Improvements.

The motion to refer to the Committee on Public Improvements was declared lost, yeas 6, nays 6.

Yeas—Ald. Anderson, Ballantyne, Brand,

Carr, Cotton, Hale 6.

Nays—Ald. Attridge, Curley, Giblin, O'Hare,

Timilty, Whelton—6.

Ald. HALE—Mr. Chairman, I would like to move a reconsideration of the vote just taken, hoping that the same will prevail.

The order was specially assigned to the next meeting of the Board.

THE NEXT MEETING.

Ald. ANDERSON moved that when this Board adjourns it be to meet on January 17, at 3 o'clock p. m.; carried.

LAMPS, ETC., CHARLES RIVER BANK.

Ald. HALE offered an order—That the Charles River Basin Commission and the Metropolitan Park Commission be requested to place and maintain lamps along the Charles river embankment from Cambridge street to Massachusetts avenue; also to place benches along said embankment and iron ladders therefrom to the water's edge.

On motion of Ald. HALE, the order was specially assigned to the next meeting of the Board.

GENERAL RECONSIDERATION.

On motion of Ald. COTTON, the Board refused to reconsider all action taken to-day.

Ald. ANDERSON moved that the Board do now adjourn; declared carried.

Ald. CURLEY doubted the vote and asked for the yeas and nays.

The Board voted to adjourn, yeas 7, nays 5:
Yeas—Ald. Anderson, Attridge, Ballantyne, Brand, Carr, Cotton, Hale—7.
Nays—Ald. Curley, Giblin, O'Hare, Timilty, Whelton—5.

Adjourned at 6.27 p. m., to meet on Monday, January 17, at 3 p. m.

Thursday, December 30, 1909.

Special meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 12 m., Chairman BRAND presiding and a quorum present.

The Clerk read the call of the meeting, as follows:

City of Boston,

Office of the Mayor, December 29, 1909.

To the Members of the Board of Aldermen:

You are hereby requested to assemble in the Aldermanic Chamber on Thursday, December 30, 1909, at twelve o'clock m., for the purpose of taking action upon the call for city election, as required by law.

Respectfully,

G. A. HIBBARD, Mayor.

Placed on file.

Chairman BRAND offered an order—That the City Clerk be directed to give notice, by advertising the same as required by law, that meetings of the male citizens of this city, qualified to vote for city officers, will be held in the several polling places designated for the purpose by the Board of Election Commissioners, on Tuesday, the eleventh day of January, 1910, to give in their votes for Mayor, for nine members of the City Council, and for one member of the School Committee; also to give in their votes "Yes" or "No" in answer to the following question: "Shall licenses be granted for the sale of intoxicating liquors in this city?"

The City Clerk is also directed to give notice, as aforesaid, that meetings of the female citizens of this city, qualified to vote for School Committee of the City of Boston, will be held on the same day and in the same places, to give in their votes for one member of the School Committee.

The polls at said meetings will be opened at six o'clock a. m., and closed at 4 o'clock p. m. Passed.

The CHAIRMAN—The purpose for which the Board convened having been accomplished, the Board now stands adjourned, to meet at the hour appointed at the last meeting.

PROCEEDINGS OF COMMON COUNCIL.

Thursday, December 30, 1909.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7.45 o'clock p. m., President McCABE in the Chair.

CARRIAGE STAND PERMITS.

The following was received:

City of Boston,

Office of the Mayor, December 21, 1909.

To the Gentlemen of the Common Council:

I transmit herewith a communication from the Police Commissioner containing an answer to your order requesting a list of the carriage stand permits granted for Tamworth street, La Grange street and Tremont street, between Eliot street and Boylston street.

Respectfully,

G. A. HIBBARD, Mayor.

City of Boston,

Police Department, December 20, 1909.

Hon. George A. Hibbard, Mayor:

Dear Sir,—In answer to the inclosed order passed by the Common Council I beg to say that the records of this department show the following:

The Boston Cab Company has licenses for five (5) carriages in Tremont street in front of the Hotel Touraine.

Angus McEachern has one carriage license in Tremont street, northwest corner of Eliot street in the night time only.

There are no carriages licensed to stand in Tamworth street or La Grange street.

Respectfully,

STEPHEN O'MEARA,

Police Commissioner.

Placed on file.

ONE-SESSION BELL SCHOOLS.

The following was received:

City of Boston,

Office of the Mayor, December 24, 1909.

To the Gentlemen of the Common Council:

I transmit herewith a communication from the School Committee containing a reply to your

Mason Street, December 22, 1909.

To the Honorable the Common Council:
Your communication, under date of December 9, requesting the School Committee, through his Honor the Mayor, to have the one-session bell sounded on all schoolhouses where such bells are located, was duly submitted to the School Board at a meeting held on Monday, December 20, placed on file, and I have been directed to notify you that on November 4, 1909, an order was received from you requesting the removal of all bells from schoolhouses, which request was referred to the Schoolhouse Commission for attention.

There are at the present time but three bells on school buildings, two of which are about to be removed. The arrangements for notifying the public generally of the suspension of school sessions on stormy mornings are very complete and extensive, and there are no facilities for having this signal given on schoolhouses bells.

Respectfully,
THORNTON D. APOLLONIO,
Secretary.

Placed on file.

IMPROVEMENTS, M STREET PLAY-
GROUND.

The following was received:

City of Boston,
Office of the Mayor, December 29, 1909.

To the Gentlemen of the Common Council:
I transmit herewith a communication from the Park Department containing an answer to your orders requesting information as to the amount remaining from the appropriation for apparatus at M Street Playground and an estimate of the cost of bleachers for the same playground.

Respectfully,
G. A. HIBBARD, Mayor.

City of Boston,
Park Department, December 24, 1909.

Hon. George A. Hibbard, Mayor,
City Hall, Boston:
Dear Sir,—The Board has received the inclosed orders of the Common Council requesting information as to the amount of the balance remaining from the appropriation made for apparatus for M Street Playground, and requesting an estimate for bleachers 50 feet long and 6 feet high on the First street side of the playground.

The unexpended balance of the appropriation for apparatus is about \$500, which amount will be required for fencing the children's playground and providing it with apparatus.

A line of bleachers of the dimensions stated would cost about \$250. There are already bleachers with a seating capacity of 600 in this playground, which we think are sufficient for the needs of the playground.

Yours respectfully,
ROBERT S. PEABODY, Chairman.

Placed on file.

SKATING, CASTLE ISLAND.

The following was received:

City of Boston,
Office of the Mayor, December 29, 1909.

To the Gentlemen of the Common Council:
I transmit herewith a communication from the Park Department containing an answer to your order requesting that the inclosure of the fort on Castle Island be flooded for skating purposes.

Respectfully,
G. A. HIBBARD, Mayor.

City of Boston,
Park Department, December 24, 1909.

Hon. George A. Hibbard, Mayor,
City Hall, Boston:
Dear Sir,—The Board has received the inclosed order of the Common Council requesting us to flood the inclosure of the fort on Castle Island for skating purposes.

We estimate the amount necessary to comply with this request to be about \$3,250, for which purpose the department has no money available.

Yours respectfully,
ROBERT S. PEABODY, Chairman.

Placed on file.

CARE OF COURTHOUSE, ETC., EAST
BOSTON.

The following was received:

City of Boston,
Office of the Mayor, December 30, 1909.

To the Gentlemen of the City Council:
It has been decided to locate the new court-house and police station building for East Boston in Central square. It will therefore be necessary to transfer the care and custody of such portion of the square as may be needed to the department which will have charge of the maintenance

of the proposed structure, and I recommend the passage of the accompanying draft of order, which will place the site of the building under the control of the Public Buildings Department.

Respectfully,

G. A. HIBBARD, Mayor.

Ordered, That so much of Central square in East Boston as may be needed for a site for new courthouse and police station building be and hereby is transferred from the care and custody of the Public Grounds Department to the care and custody of the Public Buildings Department.

The message was sent up. The order was passed. Sent up.

SUN HOUSE, L STREET BATH.

The following was received:

City of Boston,

Office of the Mayor, December 30, 1909.

To the Gentlemen of the City Council:

On May 6 of the current year I approved a loan bill covering miscellaneous items, among which was one for "L Street Bath, Addition for Women, \$35,000." At that time it was the intention of the Bath Trustees to extend the buildings along the Strandway. The Board of Park Commissioners, however, refused to assent to the programme, and the entire matter has been held in abeyance.

It has now been decided by the Bath Trustees that they will be able to accomplish what they desire by making an addition to the plant and enlarging it generally. They are also anxious to devote part of this money to the erection of a substantial metal-framed sun house, which will be a permanent addition.

In order to enable the trustees to effect the desired improvements it will be necessary to transfer the appropriation, and I therefore recommend the passage of the appended draft of order providing for this.

Respectfully,

G. A. HIBBARD, Mayor.

Ordered, That the City Auditor be and he hereby is authorized to transfer the sum of \$35,000 appropriated for L Street Bath, addition for women, to an appropriation for L Street Bath, improvements.

The message was sent up. The order was read once and will take its second reading at the next meeting.

SEWER ON PAINE STREET, WARD 23.

The following order, filed with the Clerk by Mr. CARRUTH of Ward 23, was read by direction of the President:

Ordered, That the Superintendent of Streets be requested, through his Honor the Mayor, to construct a house sewer on Paine street, between Walk Hill and Canterbury streets, Ward 23.

Referred to the Mayor.

PAPERS FROM THE BOARD OF ALDERMEN.

The Council voted, on motion of Mr. HACKETT of Ward 21, to consider Nos. 1 to 5, inclusive, together, viz.:

1. Report of Committee on Claims, on petition of Catherine E. Mahoney and others, referred November 7, 1906, for compensation for damage to property at 485 Quincy street, caused by overflow from sewer,—leave to withdraw.

2. Report of same committee, on petition of Timothy J. Cunohan, referred November 25, 1907, for compensation for damage to property at 45 Stanwood street,—leave to withdraw.

3. Report of same committee, on petition of Fannie McClinch, referred February 3, 1908, for compensation for injuries caused by bursting of water main on Geneva avenue November 18, 1907,—leave to withdraw.

4. Report of same committee, on petition of Edward Wren, referred June 14, 1908, for compensation for damage to property at 1072 South street, Ward 23, by men employed in destroying gypsy moths,—leave to withdraw.

5. Report of same committee, on petition of the United States Construction Supply Company, referred October 4, 1909, for compensation for damage to property, caused by flooding in cellar of 323-327 Franklin street,—leave to withdraw.

Severally accepted in concurrence.

6. Mayor's message transmitting a communication from the Superintendent of Streets calling attention to the necessity for repairing the ferryboat "General Sumner," which was recently damaged by fire.

The passage of the following order is recommended in said message.

Ordered, That the City Auditor be authorized to transfer the sum of forty thousand dollars (\$40,000) from the appropriation for Street Department, Lamp Division, to a special appropriation for repairing the ferryboat "General Sumner," recently damaged by fire and water.

The message was placed on file and the order takes its second reading at the next meeting.

7. Ordered, That the Superintendent of Public Grounds be authorized to expend, in

MOTION TO RECONSIDER.

Mr. GOODWIN of Ward 1 moved a reconsideration on No. 7 on the calendar, hoping that the same would not prevail.

Mr. CROCKER of Ward 11—Mr. President, I rise to a point of order.

The PRESIDENT—The gentleman will state his point of order.

Mr. CROCKER—Mr. President, my point of order is that there is not a quorum present, and I ask for a roll call.

The Chair directed the Clerk to call the roll, and 28 members answering to their names the Chair declared the Council adjourned at 8.30 p. m., for want of a quorum.

Present—Allston, Bagley, Ballantyne, Bragan, Brennan (3), Carney, Carruth, Crocker, Fitzgerald, Goodwin, Gordon, Hackett, Hart, Hoague, Jones, Kelly, Krug, McCabe, McGovern, Meins, Moore, Murray, O'Bryan, O'Donnell, Scigliano, Smith (23), Smith (20), Webster—28.

Absent—Arnold, Best, Brennan (17), Brophy, Buckley, Burroughs, Carr, Casey, Collins, Connors, Conway, Cox, Crane, Cronin, Cumming, Dart, Davis, Donovan (19), Donovan (7), Ducey, Gardella, Garrity, Green, Harding, Hoban, Hoey, Howell, Joyce, Kennedy, Kenney, Kinney, Kohler, McCarthy, McKeagney, Morgan, O'Brien, O'Hara, O'Neil, Pendergast, Penhorn, Prescott, Ryan, Spellman, Troy, Warren, Welch—46.

The Council stood adjourned, to meet Thursday, January 6, at 7.45 o'clock p. m.

COMMUNICATION FROM FINANCE COMMISSION.

December 29, 1909.

To the Honorable the Mayor and Board of Aldermen:

GENTLEMEN.—The commission respectfully submits herewith a report upon the Penal Institutions Department.

On November 23, 1909, a former officer of the House of Correction at Deer Island appeared with his counsel before the Finance Commission, gave testimony concerning conditions at Deer Island which agreed substantially with statements then being published daily in the Press, and requested the commission to investigate the conduct of the Penal Institutions Department. The commission caused an investigation to be made by its counsel, who, on December 18, submitted the results of the preliminary investigation, and the commission held public hearings on this subject beginning December 21 and ending on December 27. The facts disclosed in these public hearings show that the interests of the city and of the prisoners have suffered through the inefficiency of the officers, the lack of discipline and the use of the institution as a part of the spoils system.

The head of this institution should have been a good disciplinarian, with experience in prison management. Nevertheless, the Mayor, on March 2, 1908, appointed as Penal Institutions Commissioner a lawyer who had had no experience either in prison management or in any executive office, but who had rendered him political service in the mayoralty election of 1907. The appointee's lack of qualifications for the office is shown by the following extract from his own testimony:

Q. Did you have any training in penal work? A. Never.

Q. None of any kind? A. No.

Q. Had you ever visited any penal

institutions for purposes of study before your appointment? A. No, sir.

Q. None. What was your training fitting you for the position of Penal Commissioner? State, if you please, fully. A. No special training.

Q. How did you happen to be appointed Penal Commissioner, so far as you know? A. You mean by whom was I appointed?

Q. No. What led to your appointment, so far as you know? A. Perhaps my acquaintance with the Mayor.

Q. Well, your acquaintanceship with him in what way? A. I had been engaged with him in the campaign preceding his election.

He also stated that he believed he was being considered for the office of city collector, that he did not know that he was being considered for the office of penal institutions commissioner, and that he never had discussed with the Mayor the subject of his qualifications for the latter office.

The department, not being under the Civil Service law, afforded the politicians an opportunity to procure positions for favorites, and the opportunity was not neglected.

The appointment of the commissioner, made for political reasons and without regard to the qualifications requisite for such an important position, was followed by a large number of appointments, also made for political reasons, without regard to fitness, and in violation of the spirit of the law and of the rules of the institution. Of the forty-six officers in the department, thirty-six have been appointed in the last two years, four being additions to the force and the remainder having filled vacancies. The thirty-six officers thus appointed to care for the large number of inmates of the institution had duties of great importance to perform. It was essential that these appointments should have been made by the master, who is responsible for the conduct of the officers, and that fitness should have been the only consideration governing the selections. In all cases the law, as well as the interests of the city, was, however, disregarded and, in most cases, politics determined the choice.

Under the Revised Laws, chapter 224, section 16, the master of the House of Correction is charged with the duty of appointing all subordinate assistants, employees and officers, and it is provided that he shall be responsible for them. The rules for the government of the House of Correction, adopted by the Penal Institutions Commissioner in May, 1907, provide that: "He (the master) shall appoint all subordinate assistants, employees and officers, for whom he shall be responsible, and at once report the same to the commissioner." Instead of observing the statute and the rule, both the commissioner and the master of the House of Correction testified that they had followed an established custom, under which the appointments, though technically made by the master, were made in reality by the commissioner, the master simply acquiescing in the selections.

Even if the persons thus appointed had been fitted for their duties the discipline of the institution would have been impaired, as the master would not have been actually responsible for the conduct of employees not chosen by him. Fitness, however, was seldom considered and in most cases no inquiry whatever was made respecting the qualifications of appointees. Many appointments were made at the solicitation of the Mayor, two of his secretaries, his stenographer,

members of the Board of Aldermen and other persons interested in politics. The commissioner testified that a large part of his time was devoted to the consideration of such applications. He stated that the Mayor and his assistants had requested the appointments of seven officers for the House of Correction, that six were appointed and that one was rejected as below the physical requirements.

Ten of the thirteen members of the present Board of Aldermen sought appointments for persons in whom they were interested, but, having less influence, only three of their candidates were appointed. The commissioner stated that no inquiry was made as to the qualifications of the six officers appointed on the recommendation of the Mayor's office. One had formerly been a lieutenant in the Boston Police Department and had resigned. The reason for the resignation should have been inquired into. Three of the six have since been discharged, one for failing to return on time after the expiration of his leave of absence, one for having been found with a large quantity of cigarette tobacco and several morphine syringes concealed in his room at the island, and one for trafficking with a prisoner in violation of the rules of the institution. Two others have been found drunk and have been warned, though not suspended. Thus, five of the six appointed on the recommendation of the Mayor's office have proved to be unfit for their positions.

Of the three appointed on the recommendations of aldermen two were discharged for failing to return on time from their leave, and the third, according to the testimony of a fellow-officer, was drunk on the night watch, but has not been removed. Thus it appears that eight of the nine officers appointed on the recommendation of the Mayor's office and members of the Board of Aldermen have been found unworthy of their trusts.

Five other officers, not included in the foregoing description, have been appointed in the last two years, on the recommendations of persons whose names the commissioner could not recollect, and have been found unfit for their duties. One, failing to return after leave, has been discharged. Another, found to have been trafficking with a prisoner, has been retained, as the master states, pending the investigation by this commission. He had been employed as an officer at the State Farm at Bridgewater, also at the State Prison, and had resigned from both positions, from the latter on request of the authorities. The master stated that, after the appointment had been made, he tried but failed to find from the state authorities the reasons for these resignations and the appointee was left in office. The other three have been discharged, the first two for failing to return after leave, the third for bringing a package to a prisoner in violation of the rules. These three had previously been employed by the city at the infirmary on Long Island; two had been discharged for drunkenness, and the third had resigned. These facts were found by this commission without difficulty, and if a serious effort had been made by the officials of the Penal Institutions Department they likewise could have found the facts.

Two appointments made in the last two years to positions on the steamer "Monitor," which conveys prisoners to and from Deer Island, have also been made without regard to efficiency. One is too old to render the required service, the other, formerly a barber, did not have the necessary experience for sea duty. The

Referred to the Committee on Public Improvements by the Chairman.

captain and the mate both state that they would not have appointed either if they had had the selection. One of them was recommended by a secretary of the Mayor, and the appointment of the other was directed by the Mayor himself. The manner in which the latter appointment was made was related by the assistant commissioner. He stated that the Mayor's secretary came to the Penal Institutions Commissioner's office, the commissioners being absent, and said that the Mayor wanted the commissioner to appoint Mr. McKenney as a deckhand on the "Monitor." The assistant commissioner states that thereupon he wrote the commissioner the following letter:

DEAR MR. S.,—The Mayor's Assistant Secretary, Mr. Boudrot, called this p. m., and told me to tell you that the Mayor wished you to send him to-morrow early the name of —

James T. McKenney,
384 Neponset avenue, Ward 24,

to be the extra man on the steamer "Monitor," to begin on June 1 next.

He said this was important.

Very truly,
(Signed) H. S. CARRUTH.

The appointment was made within a few days. Another of the Mayor's secretaries assumed responsibility for the appointment, stating to the commission that he was actuated by motives of charity. No one seems to have seriously considered the question of fitness. It should be noted that though he was employed "temporarily," in order to take the places of the men during the vacation period, he is still in the service, though the vacation period has ended.

The wharfinger was appointed early in 1908, as a reward for political services, the commissioner stating that "he had done some work for the Mayor" in the campaign of 1907, and that he appointed him at the Mayor's suggestion, without inquiry as to his qualifications.

The conditions at the island, as stated by the various witnesses who appeared before the commission, are as follows: There has been a serious lack of discipline, resulting in demoralization both of the officers and of the prisoners. The latter have been able to obtain morphine and cocaine freely, and the use of it has not been curtailed as much as it would have been if the officers had been efficient and the discipline adequate. The commissioner stated that no physical examination for the purpose of discovering marks indicating the use of drugs is made. Nor is any attempt made to segregate the victims of this habit from those who are not similarly afflicted. There has been no attempt to prosecute persons suspected of carrying drugs to prisoners. Two officers found with syringes, used to inject morphine, have been discharged, but notwithstanding this fact, the prisoners have obtained drugs and the implements necessary to inject them. Those known to be addicted to the use of drugs have been allowed to form in groups in the yard during recreation hours, and the opportunity thus afforded to pass drugs to one another and to use them had been freely utilized. One officer received a pawn ticket for a watch from a prisoner who was a chronic morphine user, though he claimed he did not give the prisoner any money for the ticket. The officer sold the ticket to another officer, and the latter redeemed the watch, subsequently pawning it twice, each time under a false name.

Officers have been seen drunk by prisoners on the island, and by others in the city during their leaves of absence. It seems almost inconceivable that officers should be retained who are guilty of the same offence as three-quarters of those who are receiving punishment under their charge. Under such circumstances prisoners must feel contempt for both the law and the institution. The practice of the master is to give officers who have been found drunk a second chance, though he should report such cases to the Penal Institutions Commissioner, and though the latter should remove forthwith an officer thus discovered. Revised Laws, chapter 225, section 13, provides as follows:

"The sheriffs of the several counties and the penal institutions commissioner of the City of Boston shall forthwith remove any officer who has been appointed by them, respectively, to any position of trust or authority in a jail, or house of correction, and who is known to use intoxicating liquor as a beverage."

The master has admitted that in the cases of six officers known by him to have been drunk he has retained them all, having warned five and having suspended only one, the latter punishment being for the third offense. On the master's own admission more than one-eighth of the forty-six officers at the island remain there in violation of the spirit of the law. Other witnesses, some of them officers of the institution, have stated to the commission that officers besides those named by the master have been seen drunk both at the island and in the city.

The law (Acts of 1900, chapter 473, section 2) requiring the segregation of prisoners sentenced for one year and more from those sentenced for less than one year; and of those sentenced for drunkenness from all others; and of those held for non-payment of fines, has not been complied with. There is no such segregation in fact. When the House of Correction at South Boston was merged with the House of Industry at Deer Island in 1900 the prisoners who had committed serious

crimes were thrown into the same institution with those whose offences had been petty and had consisted mostly of intoxication. It is axiomatic that offenders of different grades should be separated and the Legislature, foreseeing the danger of non-separation, passed the statute above cited. The attention of the commissioner was called to the failure to obey the law by a letter from the assistant commissioner dated July 8, 1908, indicating that it was possible at least to put the long-term men in the new and the short-term men in the old prison. The segregation thus recommended has not been effected. Segregation to some extent will be accomplished when the dining room, now approaching completion, is finished. Daily, in the yard, and in the loafers' hall, so called, three times a day, the old and the young, the long-term men and the short-term men, the hardened and the comparatively innocent may tell or listen to stories of crime. Enlightened modern ideas of assisting prisoners to become better men and women have been disregarded. Though many of the prisoners cannot read and some cannot even speak the English language, there is no school upon the island nor is their superabundant leisure filled in any helpful way. Though the institution is meant to be reformatory, it more nearly resembles a school for crime.

The commissioner stated that he believed the system to be wrong, but that no money has been available for the purpose of effecting the segregation required. No money, however, has been asked, and the money that might have been used for this purpose was devoted to other and less worthy purposes. Thus, of the \$50,000 received from the United States Government, which had been retained pending the completion of a satisfactory boundary wall, \$17,000, together with \$5,000 otherwise available, or a total of \$20,000, has already been spent for a concrete, steam-heated piggery, useful doubtless, but hardly of equal importance with the segregation of human beings, about 12,000 of whom are now annually dipped into the atmosphere of this institution.

The real and permanent solution of the problems of segregation and of the expense of maintenance lies in relieving the present congestion at the institution. Such a solution can be worked out under a proper system of co-operation between the judges of the courts and the Penal Institutions Commissioner and the appointment of additional probation officers. Far too many persons are sent to the island for petty offences. Last year 4,807 commitments were made to the island for the nonpayment of fines. Of these 3,470 were for the nonpayment of fines amounting to \$5 or less; 754 for fines of more than \$5 but less than \$10; 454 for fines of more than \$10 but less than \$20, and only 139 for fines of more than \$20. Of the total number committed 4,227 were for first offences. In this single year 8,315 commitments were for drunkenness alone. No effective effort has been made by the Penal Institutions authorities to work out a solution of this serious problem.

There are other serious defects in the management of the institution, some of which cannot be stated in a public document. Three matters not previously referred to should, however, be mentioned. The first is the use of prison labor in the building of a boat for the master, with the knowledge and consent of the commissioner. It has been sought to be justified by the fact that prisoners have escaped and that heretofore there has been no

adequate means of capturing them. The master admits that the title of the boat is in him, and that if he should leave the city's employ he would take the boat with him, unless the city reimbursed him for the amount spent by him for the materials of construction. He did not state, however, that in the event of his taking the boat with him he would pay the city the value of the prison labor used in its construction. The second matter is the excessive cost of food furnished for the master's house. In January, February and March of this year the price paid for whole lambs was eighteen cents per pound, while whole lambs of sufficiently good quality were bought in the same period by the City Hospital for from twelve to thirteen and one-half cents a pound. The third matter relates to the habits of the secretary of the department. Though denied by the secretary and one clerk employed in the office, it seems to the commissioner that the testimony of the commissioner, the assistant commissioner, a clerk in the office and the Mayor's secretary establishes the fact that the secretary of the department is frequently under the influence of liquor. This condition has long been known, but has been tolerated.

The conditions herein described, according to the testimony of the assistant commissioner, have been frequently brought to the attention of the Penal Institutions Commissioner and the Mayor. He stated that he has repeatedly acquainted the Mayor fully with the facts as to non-segregation, mismanagement and lack of discipline.

The responsibility for the evil conditions of the last two years was made clear by the testimony. It was difficult, if not impossible, for the master to maintain discipline over officers who secured their appointments through political influences which they had reason to feel were strong enough to maintain them in the face of their misconduct. The commissioner was not capable of performing his duties, because he lacked the training and qualifications necessary for his position. The responsibility rests primarily with the Mayor, because of his appointment as head of the department, for political reasons, of one who, he must have known, could not properly perform the duties of the office.

The commission recommends:

1. That the department be placed in charge of a proven disciplinarian with knowledge of the humanitarian side of prison work.
2. That the offices of assistant commissioner and secretary be merged.
3. That the department be placed under civil service laws, and that the master appoint and be responsible for his subordinates, as the law directs.
4. That any official once guilty of drunkenness shall be discharged forthwith.
5. That any official who smuggles drugs to the island, or traffics with prisoners, shall be discharged forthwith and be prosecuted in the courts.
6. That by the appointment, if necessary, of more probation officers, and in co-operation with the judges, petty offenders be given a better opportunity to pay their fines before being imprisoned.
7. That with the population thus reduced non-segregation be effected, as the law requires.
8. That prisoners addicted to the use of drugs be kept apart from nonusers.
9. That every opportunity be availed of to give the prisoners serious and hard work.

10. That suitable instruction be provided at the island, and that other measures be adopted to reduce the idleness of the prisoners and to substitute beneficial occupations.

Respectfully submitted,
THE FINANCE COMMISSION,
By JOHN A. SULLIVAN,
Chairman.

CLASS HOURS, MUNICIPAL GYMNASIUMS.

The class hours of the several municipal gymnasiums are as follows:

At the Cabot Street Gymnasium, Roxbury; Ward 16 Gymnasium, Municipal Building, Columbia Road, Dorchester; D Street Gymnasium, Commonwealth Park, South Boston; North Bennet Street Gymnasium, City Proper:

Monday and Thursday for women and girls. Class hours: Mothers' class, 10 to 12 a. m.; school girls, 4 to 6 p. m.; ladies' class, 8 to 10 p. m.

Tuesday and Friday for men. Class hours: 8 to 10 p. m.

Wednesday and Saturday for boys. Class hours: Wednesday, school boys, 4 to 6 p. m.; working boys, 8 to 10 p. m. Saturday, school boys, 10 to 12 a. m. and 4 to 6 p. m.; working boys, 8 to 10 p. m.

Ward 7 Gymnasium, 75 Tyler street, City Proper. Schedule the same as the four gymnasiums above with the exception that Tuesday and Thursday are for women and girls and Monday and Friday for men.

Ward 9 Gymnasium, corner Harrison avenue and Plympton street, city.

Monday and Thursday for women and girls from 10 a. m. to 6 p. m. Class hours: School girls, 4 to 6 p. m.; men, 8 to 10 p. m.

Tuesday and Friday for men all day. Class, 8 to 10 p. m.

Wednesday and Saturday for boys. Hours same as all other gymnasiums.

PUBLIC BUILDINGS LIGHTING CHARGES.

Superintendent of Public Buildings Morrison has just transmitted to the Mayor a record of the electric lighting charges covering the City Hall, Old Court House and Old Probate Building from 1900 to date.

A most extraordinary showing of saving is made. It appears that during the first year of his office holding Mr. Morrison was able to reduce the bills for these buildings from \$12,402.47 to \$11,441.96; this year the bills have totaled \$7,261.12, a net saving of \$5,141.35 over the amount paid in 1907.

The following table gives the figures in detail:

DATE.	City Hall.	Old Court House.	28 Court Square and 30-32 Tremont Street.
1900.....	\$8,161 00	\$4,648 48	\$2,005 13
1901.....	6,802 40	4,181 63	1,625 84
1902.....	10,225 14	4,958 98	1,701 38
1903.....	9,623 22	3,256 52	1,757 84
1904.....	10,419 53	3,976 01	2,245 76
1905.....	7,179 60	3,115 00	1,350 00
1906.....	8,290 30	3,278 00	1,160 00
1907.....	7,687 20	3,437 60	1,277 67
1908.....	6,125 30	3,722 04	1,594 62
1909.....	4,179 69	2,200 83	880 60

STREET CAR HEARING.

Upon the petition of Andrew A. Meyer relative to street car service from Dudley street to the South Station in the City of Boston, the Board of Railroad Commissioners will give a hearing at its office, 20 Beacon street, Boston, on Monday, January 10, 1910, at 10.30 o'clock in the forenoon.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, JANUARY 8, 1910.

No. 2.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week, to insure its publication in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to the watering, cleaning, lighting, and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE HEALTH COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Aldermen, next meeting, January 17.
Common Council meets January 13.
School Committee meets January 17, 7.30 p. m.

Rapid Transit Commission. Stated meetings of the Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Harbor and Land Commissioners. Stated meetings of the Commission are held Mondays and Fridays, 2 p. m.; Wednesdays, 11 a. m.

Monday, January 10.—Railroad Commission, 20 Beacon street. 10.30 a. m. Hearing on car service, Dudley street to South Station.

Bids close Monday, January 17, 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending January 6, 1910:

FIRE DEPARTMENT.

The following-named men now serving on probation have been appointed as permanent members at \$900 per year:

Edward J. Raftus, Thomas P. Rossiter, C. Ambrose Glennon, Dennis J. Begley, John H. Coakley, James J. Kane.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

Susie Littlefield, scrubber, \$5 per week; Ellen Mahoney, laundress, \$16 per month; Bridget Devan, laundress, \$16 per month; Bertha Watts, post graduate nurse, \$20 per month; Agnes Molloy, kitchen woman, \$15 per month; Patrick Sliney, fireman, \$17 per week; John Murray, fireman, \$17 per week; Michael Cattoglia, coal passer, \$12 per week; Jane Kelly, ward attendant, \$5 per week; Alice A. Clough, nurse, \$8.33 per month; Mabel G. Vincent, nurse, \$8.33 per month; Mary G. Kingston, nurse, *re.*, \$12.50 per month; Eliza Morrison, nurse, *re.*, \$12.50 per month; Julia M. O'Connor, nurse, *re.*, \$12.50 per month.

Probationers; no pay:

Julia A. Clark, Elizabeth I. Adam, Frances Devaney, Elizabeth T. McCarthy, Katherine M. McMullen, Mary T. Sugrue, Annie McNamara, Louise A. Martel, Marion M. Pettigrew, Margaret L. Ramey, Mary R. Smith.

The following employees have had increase of wages:

M. Jennie McDonald, nurse, \$12.50 to \$35 per month; David B. Simpson, house porter, \$25 to \$30 per month; Margaret Keating, laundress, \$15 to \$16 per month.

PENAL INSTITUTIONS DEPARTMENT.

Appointment of John H. Limerick as night watchman at the House of Correction, Deer Island, at \$480 per year. This is to fill vacancy caused by the promotion of Joseph A. Conley.

Promotion of Joseph A. Conley as day officer at the House of Correction at a salary of \$600 per year. This is to fill vacancy caused by the removal of Thomas E. Robinson.

Appointment of Clarence J. Barker as watchman at the House of Correction, Deer Island, at \$480 per year. This is to fill vacancy caused by the removal of Jason W. Butters.

SUPPLY DEPARTMENT.

Appointment (routine) of John T. Caulfield as acting Superintendent of Supplies during such time as the superintendent may be absent from the office.

TREASURY DEPARTMENT.

Appointment (routine) of Benjamin S. Turner as acting treasurer for the month of January, during such time as the City Treasurer may be absent from the office.

OVERTIME ALLOWED.

Street Department.

John Dolan, Sewer Division, allowed overtime for injuries received while in the performance of his duties; absent 5 days at \$2.25 per day, \$11.25.

James J. Walsh, Sewer Division, allowed overtime for injuries received while in the performance of his duties; absent 5 days at \$2.25 per day, \$11.25.

Street Department (Highway Division).

Overtime allowed the following employees on account of snow removal:

James C. Gallagher, \$1,200 per year, five days, \$16.43.

Jeffrey Eager, Jr., \$1,000 per year, three days, \$8.22.

CONTRACTS AWARDED.

The following contracts for work and supplies have been awarded. Those awarded without public advertisement are specially indicated. Week ending January 6, 1909:

CHILDREN'S INSTITUTIONS DEPARTMENT.

Not advertised. Contract for rebuilding the top of the runway at Rainsford Island that was damaged by the recent storm, awarded to W. H. Ellis for \$3,300. Permission given on representation that it was an emergency case because of storm havoc.

FIRE DEPARTMENT.

Not advertised. Contract for furnishing aerial insulated cable for the fire alarm branch, awarded to F. M. Ferrin.

Permission to so award was given after representation by the commissioner that owing to the storm the repairs were made necessary.

PENAL INSTITUTIONS DEPARTMENT.

Contract for supplying flour, approximately 500 bbls. delivered on wharf, to this department was awarded to Potter & Wrightington, \$5.27 per bbl.

Other bids were received as follows: James H. Knowles, \$5.37½ per bbl.; Washburn-Crosby Company, \$5.52 per bbl.

STREET DEPARTMENT.

Contract for repairing fender guard and draw pier, Chelsea Bridge North, awarded to George T. Rendle, \$2,045.

Other bids received were as follows: W. H. Ellis, \$2,174.35; Lawler Brothers, \$3,347.50.

ADDITIONS AND ALLOWANCES TO CONTRACTS.

Under the law the Mayor has during the week approved the following additions and allowances to contracts. Copies of these additions and allowances to contracts are on file in the office of the City Clerk.

Godfrey Specialty Company, authorized to make additions to contract of Day Industrial School of \$110.24. Original contract, \$1,800; total additions, \$110.24. Contract as standing, \$1,910.24.

Godfrey Specialty Company, authorized to deduct from the contract of Dorchester High School Addition, for omission of electric lights, bells and telephones and for omission of fire-alarm conduits, wiring, boxes and gongs, \$1,262.57. Original contract, \$5,889.17; total deductions, \$1,262.57. Contract as stands, \$4,626.60.

M. B. Foster Electric Company, authorized to deduct from the contract of Dudley District Elementary School \$493.70. Original contract, \$2,520; total additions, \$33; total deductions, \$493.70. Contract as stands, \$2,059.30.

McLean & Cousens, authorized to do additional painting of pipe covering in boiler and engine room of Longfellow School Addition, \$70. Original contract, \$6,688; total additions, \$70. Contract as stands, \$6,758.

LAND-TAKINGS.

Land-takings are made by the Street Commissioners in conjunction with the Schoolhouse Commissioners for school purposes and by the commissioners in their own right for street construction, and for the construction of sewers or drains. Takings made for schools and streets are made outright. In certain cases though the city only takes a right of way where permission is desired to construct sewers and drains.

Takings made for the construction of streets will be given each week under the caption of "New Street Construction." Other takings will be grouped under general "Land-Takings" caption.

Anne Morgan and Catherine Morgan awarded \$3,650 and \$2,350, respectively, for damages occasioned their estates by the widening and relocation of Hyde Park avenue.

PERMISSION TO CONSTRUCT.

STREET DEPARTMENT.

Permission has been granted to the Superintendent of Streets by the Mayor for the following work in excess of \$1,000 in cost with the department force without competition: House sewers of earthen pipe in Washington street, between Williams street and Greenwood avenue, West Roxbury, the estimated amount being, \$4,132.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

"(Signed) GUY C. EMERSON,
"Superintendent of Streets."

QUITCLAIM DEEDS.

The Mayor approved quitclaim deeds to owners of the following described property, they having paid the city the amounts set forth on account of taxes:

Charles Jenkins, land, easterly side of Aberdeen street, \$17.08.

Charles Jenkins, land, easterly side of Aberdeen street, \$24.28.

Jacob F. Krokyn, land, southwesterly side of Chelsea place, \$11.90.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the month of January:

Jan. 14, Dorchester High School, Miss Adelaide Griggs, contralto, and Frank H. Eaton, flutist.

Jan. 18, Franklin Union Hall, Mrs. V. McNally, mezzo-soprano, and Jacques Benavente, saxophone.

Jan. 20, Charlestown High School, F. Morse Wemple, baritone, and Barthold Silberman, violinist.

Jan. 28, Roxbury High School, Miss Emma Buttrick Noyes, soprano, and Frank H. Eaton, flutist.

The orchestra consists of ten skilled professional musicians of whom William Howard acts as the director. Prof. Louis C. Elson lectures at every concert, explaining and interpreting the program rendered. Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at several of the leading music stores, and at drug stores and other convenient stations in the vicinity of the different halls.

CENSUS EXAMINATIONS.

Supervisors of the Census are appointed by the President, by and with the advice and consent of the Senate.

Applications for the position of enumerator, supervisor's clerk or interpreter should be addressed to the supervisor of the district in which the applicant seeks employment—Mr. Charles F. Gettemy, State House, Boston.

Examinations for the appointment of special agents will be announced later. Application for appointment as special agent should be made to the Director of the Census, Washington, D. C., and not the Civil Service Commission.

DEPARTMENTAL EXPENDITURES.

The full page tabulation of departmental expenses of the City of Boston for the year ending December 31 makes a showing of interest to citizens in general.

It appears that up to January 1 of the current year it has cost \$11,714,633.66 to maintain the city departments, exclusive of the police and school which are not under the control of the Mayor.

This is an increase of approximately \$85,000 over the expense for the same period a year ago. Considering that the City Hospital appropriation was increased \$115,000, the Public Buildings Department \$50,000, for the building of the Curtis Hall Gymnasium and bath, the record still stands.

The actual expenses of all city departments except police and school for the past five years to January 1 of each year is recapitulated below:

To January 1, 1906.....	\$12,226,986 45
To January 1, 1907.....	12,318,126 97
To January 1, 1908.....	12,819,183 79
To January 1, 1909.....	11,628,965 72
To January 1, 1910.....	11,714,633 66

COMPARATIVE TABLE SHOWING DEPARTMENT EXPENDITURES TO JANUARY 1 OF EACH YEAR FOR A FIVE-YEAR PERIOD.

INAUGURAL ADDRESSES.

REPRINTS OF ADDRESSES DELIVERED BY THE MAYORS OF BOSTON AT THEIR
INAUGURATION FROM THE INCORPORATION OF THE CITY.

William H. Whittemore, formerly City Registrar, and a man who delighted especially in the preservation of historical data relating to the city, started in 1890 a compilation of the inaugural addresses of the mayors of Boston. Up to that time they were available only in odd and scattered municipal documents, kept with indifferent care, or in some instances in privately printed documents.

In 1894 he produced the first volume which contained the addresses from Phillips to Bigelow. In 1896 he published a second volume, with the addresses from Chapman to Norcross. The two volumes make not only substantial but interesting reading for all citizens. Because of the fact that the volumes in question are out of print, it is proposed to reprint the addresses in probably weekly installments in the *City Record*.

No. 3.

Mayor Quincy's second address, which was delivered May 1, 1824, was as follows:

Gentlemen of the City Council:

The first impulse of my heart on thus entering, a second time, upon the duties of Chief Magistrate of this city, is to express my deep sense of gratitude for the distinguished support I have received from the suffrages of my fellow citizens. It has been, I am conscious, as much beyond my deserts as beyond my hopes. May these marks of public confidence produce their genuine fruits — truer zeal, greater activity and more entire self-devotion to the interests of the city!

To you, Gentlemen of the Board of Aldermen, who have received such gratifying proofs of the approbation of your fellow citizens, permit me thus publicly to express the greatness of my own obligations. You have shunned no labor. You have evaded no responsibility. You have sought with a single eye and a firm, undeviating purpose the best interests of the city. It is my honor and happiness to have been associated with such men. Whatsoever success has attended the administration of the past year may justly be attributed to the spirit and intelligence which characterized your labors and councils.

The Gentlemen of the last Common Council are also entitled to a public expression of my gratitude for their undeviating personal support, as well as the zeal and fidelity which distinguished their public services.

It is proper, on the present occasion, to speak of the administration of the past year with reference to the principles by which it was actuated. If, in doing this, I enter more into detail than may seem suitable in a general discourse, it is because I deem such an elucidation conformable to the nature of the city government and connected with its success. Whatever there is peculiar in the character of the inhabitants of Boston is chiefly owing to the freedom of its ancient form of government, which had planted and fostered among its people a keen, active, inquisitive spirit, taking an interest in all public affairs and exacting a strict and frequent account from all who have the charge of their concerns. This is a healthy condition of a community, be it a city, state or nation. It indicates the existence of the only true foundation of public pros-

perity, the intelligence and virtue of the people and their consequent capacity to govern themselves. Such a people have a right to expect a particular elucidation of conduct from public functionaries, whose incumbent duty it is to foster on all occasions among their fellow citizens a faithful and inquisitive spirit touching public concerns.

The acts of the administration of the past year had reference to morals, to comfort, and convenience, and ornament. A very brief statement of the chief of these, which had anything novel in their character, will be made, with reference to principle and to expense. If more prominence be given to this last than may be thought necessary, it is because in relation to this discontent is most likely to appear. In the organizing of new systems, and in the early stages of beneficial and even economical arrangements, outlays must occur. These expenditures are inseparable from the first years. The resulting benefit must be expected and averaged among many future years. No obscurity ought to be permitted concerning conduct and views in this respect. In a republic the strength of every administration, in public opinion, ought to be in proportion to the willingness with which it submits to a rigorous accountability. With respect to morals: there existed at the commencement of last year, in one section of the city, an audacious obtrusiveness of vice, notorious and lamentable, setting at defiance not only the decencies of life, but the authority of the laws. Repeated attempts to subdue this combination had failed. An opinion was entertained by some that it was invincible. There were those who recommended a tampering and palliative, rather than eradicating course of measures. Those intrusted with the affairs of the city were of a different temper. The evil was met in the face. In spite of clamor, of threat, of insult, of the certificates of those who were interested to maintain or willing to countenance vice in this quarter, a determined course was pursued. The whole section was put under the ban of authority. All licenses in it were denied — a vigorous police was organized, which, aided by the courts of justice and the House of Correction, effected its purpose. For three months past the daily reports of our city officers have represented that section as peaceable as any other. Those connected with courts of justice, both as ministers and officers, assert that the effect has been plainly discernable in the registers of the jail and of prosecution.

These measures did not originate in any theories, or visions of ideal purity, attainable in the existing state of human society, but in a single sense of duty and respect for the character of the city, proceeding upon the principle that if in great cities the existence of vice is inevitable, that its course should be in secret, like other filth, in drains and in darkness; not obtrusive, not powerful, not prowling publicly in the streets for the innocent and unwary.

The expense by which this effect has been produced has been somewhat less than one thousand dollars. An amount already perhaps saved to the community in the diminution of those prosecutions and of their costs which the continuance of the former unobstructed course

of predominating vice in that section would have occasioned.

The next object of attention of the city government was cleansing the streets. In cities, as well as among individuals, cleanliness has reference to morals as well as to comfort. Sense of dignity and self-respect are essentially connected with purity, physical and moral. And a city is as much elevated as an individual by self-respect.

To remove from our streets whatever might offend the sense or endanger the health was the first duty. To do it as economically as was consistent with doing it well, was the second.

How it has been done, whether satisfactorily as could be expected, in the first year and by incipient operations, our fellow citizens are the judges. As far as the knowledge of the Mayor and the Aldermen has extended, the course pursued has met with unqualified approbation and given entire content.

In respect to economy, there were but two modes — by contract, or by teams and laborers provided and employed by the city. The latter course was adopted, and for several reasons. The value of what was annually taken from the surface of the streets of the city, as well as the quantity, was wholly unknown. There were no data on which to estimate either, and of course no measure by which the amount of contract could be regulated. The streets of the city had been almost from time immemorial the revenue of the farmers in the vicinity, who came at will, took what suited their purposes, and left the rest to accumulate.

It was thought important that the city should undertake the operation necessary to cleansing the streets itself, not because this mode was certainly the most economical, but because it would be certainly the most effectual, and because, by this means the city government would acquaint themselves with the subject in detail, and be the better enabled to meet the farmers hereafter on the ground of contract, should this mode be found expedient.

In order, however, to leave no means of information unsought, contracts were publicly invited by the city government. Of the proposals made, one only included all the operations of scraping, sweeping and carrying away. This person offered to do the whole for one year for \$7,000. All the other proposals expressly declined having anything to do with scraping and sweeping, and confined their offer to the mere carrying away. The lowest of these was \$1,800. When it was found that the city was about to perform the operation on its own account, the same persons fell in their offers from \$1,800 to \$800, and when this was rejected they offered to do it for nothing. And since the city operations have commenced the inquiry now is at what price they can enjoy the privilege. These facts are stated because they strikingly illustrate how important it is to the city that its administration should take subjects of this kind into their own hands, until, by experience, they shall have so become acquainted with them as to render their ultimate measures the result of knowledge, and not of general surmise or opinion.

The general result of the operations may be thus stated. At an expense of about \$4,000, between six and seven thousand tons weight of filth and dirt have been removed from the surface of the streets. All of which have been advantageously used in improving the city property under circumstances and in situations in which these collections were much wanted — on the Common, on the Neck lands and at

South Boston. There can be no question that in these improvements the city will receive the full value of the whole expense. To say nothing of what is really the chief object of the system, that the streets have been kept in a general state of cleanliness satisfactory to the inhabitants. By sale of the collections the next year it is expected that we shall be able to compare directly the cash receipt with the cash expenditure.

The widening of our streets as occasions offered was the next object to which the attention of the city administration was directed, and the one involving the greatest expense. The circumstances of the times and the enterprise of private individuals opened opportunities in this respect unexampled in point of number and importance. If lost they might never occur again, at least not within the lifetime of the youngest of our children. The administration availed themselves of those opportunities as a matter of duty in the actual condition of a city so extremely irregular and inconvenient as is Boston in the original plan and projection of its streets. Important improvements have been made in Lynn, Ship, Thacher and Mill Pond streets; in Hanover, Elm, Brattle, Court and Union streets; in Temple, Lynde, Sumner and Milk streets; in Federal, Orange, Eliot and Warren streets. The expense has been somewhat less than twelve thousand dollars. A considerable cost in comparison with the extent of the land taken, but reasonable and not more than might be expected when considered with reference to the nature of the improvements, for the most part in thick settled parts of the city, where the land taken was very valuable and the improvement proportionably important.

Another object of attention during the past year has been the drains. The ancient system by which these were placed on the footing of private right was expensive and troublesome to individuals, involving proprietors in perpetual disputes with those making new entries, and was particularly objectionable as it respects the city, as that, in a degree, it made our streets the subjects of private right, and as such placed them out of the control of the city authorities.

The principle adopted was to take all new drains into the hands of the city, to divide the expense as equally as possible among those estates immediately benefited, upon principles applicable to the particular nature of this subject, and retain in the city the whole property both as it respects control and assessment. In its first stages such a system must necessarily be expensive, but the result cannot fail to be beneficial, and in a course of years profitable. During the past year the city has built above five thousand feet of drain, 1,000 feet of which is 20-inch barrel drain — of this the city is now sole proprietor. It has already received more than one-half the whole cost from persons whose estates were particularly benefited, and the balance, amounting to about four thousand five hundred dollars, is in a course of gradual, and as it respects the far greater part, certain ultimate collection. Considering the effect which well-constructed drains must have upon the city expenditure in respect of the single article of paving, there can be but one opinion upon the wisdom and economy of this system.

A new mall has been nearly completed on Charles street, and all the missing and dead trees of the old malls, the Common and Fort Hill have been replaced with a care and protection which almost insure success to these ornaments of the city.

The proceedings of the Directors of the House of Industry and the flattering hopes connected with that establishment would require a minuteness of detail not compatible with the present occasion. They will doubtless be made the subject of an early and distinct examination and report of the City Council.

Two objects of very great interest to which the proceedings of last year have reference remain to be elucidated. The purchase of the interest of the proprietors of the Rope Walks, west of the Common, and the projected improvements about Faneuil Hall Market.

The citizens of Boston, in a moment of sympathy and feeling for the sufferings of particular individuals, and without sufficient prospective regard for the future exigencies of the city, had voluntarily given the right of using the land occupied by the Rope Walks to certain grantees for that use. In consequence of the exclusion of the water by the mill dam, a tract of land has been opened either for sale as an object of profit or for use as an object of ornament, with which the rights of these proprietors absolutely interfered. It was thought that no moment could be more favorable than the present to secure a relinquishment of those rights. An agreement of reference has been entered into with those proprietors, and the amount to be paid by the city for such relinquishment has been left to the decision of five of our most intelligent, independent and confidential citizens, with whose decision it cannot be questioned that both parties will have reason to be satisfied, notwithstanding it may happen that their award on the one side may be less, or on the other more, than their respective previous anticipations.

Touching the projected improvements in the vicinity of Faneuil Hall Market, not only the extreme necessities of the city in relation to space for a market have led to this project, but also the particular relations of that vicinity have indicated the wisdom and policy, even at some risk and sacrifice, of bringing together in one compact, efficient and commodious connection, the northern and central sections of our city so as to facilitate the intercourse of business and enterprise between them and bring into market and into use and into improvement parts of the city at present old, sightless, inconvenient and, in comparison with that competency which must result from a judicious arrangement, at present absolutely useless.

Both these measures of the city government, relative to the Rope Walks and to Faneuil Hall Market, will necessarily lead to what, to many of our citizens, is an object of great dread — a city debt.

As this is a subject of considerable importance, and touches a nerve of great sensibility, it ought to be well considered and rightly understood by our fellow-citizens. I shall, therefore, not apologize for making, on this occasion, some observations upon it.

The right to create a debt is a power vested by our charter in the City Council. Now this, like every other power, is to be characterized by its use. This may be wise and prudent or the opposite, according to the objects to which it is applied and the manner and degree of that application. Abstractedly, a debt is no more an object of terror than a sword. Both are very dangerous in the hands of fools or madmen. Both are very safe, innocent and useful in the hands of the wise and prudent.

A debt created for a purpose, like that which probably will be necessary in the

case of the Rope Walks, that of relieving a great property from an accidental embarrassment is no more a just object of dread to a city than a debt created for seed wheat is to a farmer, or than a debt for any object of certain return is to a merchant.

So in the case of Faneuil Hall Market; what possible object of rational apprehension can there be in a debt created for the purpose of purchasing a tract of territory whose value must be increased by the purchase, which if sold cannot fail to excite a great competition, and if retained the incomes of which, so far as respects the market, are wholly within the control of the city authorities? It is possible, indeed, that more may be paid for some estates than abstractly they may be worth. It is possible that great changes may take place in the value of real estate between the time of the commencement and the time of completing such a project. But the reverse is also quite as possible. Providence does not permit man to act upon certainties. The constitution of our nature obliges him, in every condition and connection, to shape his course of conduct by probabilities. His duty is to weigh maturely previous to decision, to consider anxiously both the wisdom of his ends and the proportion of his means. Once decided, in execution he should be as firm and rapid as in council he has been slow and deliberate, cultivating in his own breast and in the breasts of others just confidence in the continuance of the usual analogies and relations of things.

The destinies of the City of Boston are of a nature too plain to be denied or misconceived. The prognostics of its future greatness are written on the face of nature too legibly and too indelibly to be mistaken. These indications are apparent from the location of our city, from its harbor and its relative position among rival towns and cities; above all, from the character of its inhabitants and the singular degree of enterprise and intelligence which are diffused through every class of its citizens. Already capital and population is determined towards it from other places by a certain and irresistible power of attraction. It remains, then, for the citizens of Boston to be true to their own destinies; to be willing to meet wise expenditures and temporary sacrifices, and thus to co-operate with nature and Providence in their apparent tendencies to promote their greatness and prosperity, thereby not only improving the general condition of the city, elevating its character, multiplying its accommodations and strengthening the predilections which exist already in its favor, but also patronizing and finding employment for its laborers and mechanics.

It is true the power of credit, like every other power, is subject to abuse. But to improve the general convenience of the city, to augment its facilities for business, to add to the comfort of its inhabitants, and in this way to augment its resources, are among the most obvious and legitimate uses of that power which, doubtless for these purposes, was intrusted to the City Council.

Having thus explained some of the principal proceedings and sources of extraordinary expense occurring during the past year, I feel myself bound to make some general remarks on the nature of the office I have had the honor to hold, and to which the suffrages of my fellow-citizens have recalled me. It is important that a right apprehension should be formed concerning its duties, its responsibilities, the powers it ought to possess, and what the people have a right to expect

and what they ought to exact from the possessor of it. And I do this the rather because I am sensible that very different opinions exist upon this subject. There are those who consider the office very much in the light of a pagant, destined merely to superintend and direct the general course of administration, to maintain the dignity and to "dispense the hospitalities" of the city, and who deem the office in some measure degraded by having anything of a laborious or working condition connected with it, and I am well aware that the practice in other cities justifies such an opinion. I have not thought, however, gentlemen, that a young and healthy republic, for such the City of Boston is, should seek its precedents or encourage its officers in looking for models among the corrupt and superannuated forms of ancient despotisms. On the contrary, it seemed to me incumbent on the early possessor of this office, in a state of society like that which exists in Massachusetts, and for which this city is pre-eminent, to look at the real character of that office as it is indicated by the expressions of the charter and exists in the nature of things, with little or no regard to the practice of other places or to opinions founded on those practices.

In this view, therefore, my attempt has been to attain a deep and thorough acquaintance with the interests of the inhabitants and of the city, and this not by general surveys, but by a minute, particular and active inspection of their public concerns in all their details.

Although this course has been the occasion of much trouble, and perhaps made me obnoxious to some censure, as being busy and perhaps meddling with matters out of my sphere, yet I have thought it better to expose myself to those imputations than to forego the opportunities such a course of conduct afforded of obtaining a deep and thorough acquaintance with the business and interests of the city, which the charter plainly presupposed and indeed was necessary to fulfill the duties, in a very humble degree, which it made incumbent. And the more experience I have had in the duties of this office, the more I feel obliged, both by precept and example, to press upon my fellow citizens the necessity of considering this as a business office, combining as indispensable requisites great zeal, great activity, great self-devotion, and, as far as possible, a thorough acquaintance with the relations of the people.

Nor is it only necessary that these qualities should at all times be exacted of the Chief Magistrate and that he should be held to a rigid exhibition of them in his official conduct, but, on the other hand, it is also necessary that all the departments should be so arranged as to throw upon him the full weight of all the responsibility which the charter attaches to his office. Whatever has a tendency to weaken that sense of responsibility, above all, whatever enables the executive officer to cast the blame of weak plans or inefficient execution upon others, has a direct tendency to corrupt the executive and to deprive the citizens of a chief benefit contemplated in the charter.

If there be any advantage in the form of a city over that of a town government, it lies in one single word — efficiency. In this point of view all the powers of the city council may be considered as comprehending, also the executive power, of which the mayor is but a branch. For they enact the laws which enable his department to possess that efficiency the charter contemplates. Now efficiency means nothing more than capacity to

carry into effect. Whatever form of organization of any department tends to deprive the executive of the city of the power to carry into effect the laws, or transfers that power to others disconnected from his responsibility, has a direct tendency to encourage the executive in ignorance, inactivity or imbecility, which will inevitably, sooner or later, result just in proportion as the organization enables him to throw the blame of mismanagement upon others or not to hold himself accountable for it.

Within the narrow limits and in relation to the humble objects to which the executive power extends its responsibility should be clear, undivided and incapable of being evaded. On the executive should ultimately devolve the accountability for the efficiency of all the departments, and every organization is defective which enables him to escape from it. Every citizen, in making complaints to this officer, should be certain of finding redress, or of being pointed to the path to obtain it. And as to those general nuisances which offend sense, endanger health or interfere with comfort, his power should enable him to apply a remedy upon the instant, or at least as readily as the nature of the particular subject matter permits, and to effect this, not by reference, not by writing supplicatory letters to independent boards, but personally, by application of means in his own hands, or by agents under his control and for whom he is responsible.

The true theory of the form of government which our fellow citizens have chosen results in a severe responsibility of the executive power, and with it are identified the true interests of the citizens and the real advantages of a city organization. But responsibility implies a co-extensive power as its basis. The one cannot and ought not to exist without the other. The charter makes it the duty of the mayor "to be vigilant and active at all times in causing the laws for the government of the city to be duly executed and put in force." Now how can vigilance and activity be expected in an officer in relation to a great mass of laws, and those of the most critical and important character, the execution of which is formally and expressly transferred to others, with whose execution, if he directly interferes, he takes the risk of giving offence to the nice sense of honor and right of an independent board? The charter makes it his duty "to inspect the conduct of all subordinate officers in the government thereof, and as far as in his power to cause all negligence, carelessness and positive violations of duty to be prosecuted and punished." Now how can he do this when those who execute your laws do not consider themselves as subordinate and are justified in that opinion by the form and circumstances of their organization?

Again the charter plainly implies that the mayor of this city should make himself acquainted thoroughly and intimately with all its great interests, "with its finances, its police, its health, security, cleanliness, comfort and ornament."

Now what encouragement is there to endeavor to fulfill these duties when any of its great interests are so constituted or vested that he has no control over them, nor any power of making any inquisition into their state or conduct except by personal solicitation and request—not denied, indeed, out of politeness and respect, but perhaps granted, not because he has a right from his official relation to claim, but because, on the present occasion, there exists a willingness to give the desired information?

The organization of the executive power by division among independent boards has a direct tendency to corrupt a weak executive officer and to embarrass one of opposite character.

The study of the former will naturally be to get along easily; for this purpose he will yield whatever power another department is disposed to take, for thus his responsibility is diminished, and instead a single definite, decided official action on every occasion, giving security to the citizen regardless of personal consequences, his course will be timid, shuffling and compromising, beginning with the vain design of pleasing everybody and ending with the still vainer of expecting in this way long to maintain either influence or character.

An executive, on the contrary, who is firm and faithful to the constitution of the city will exercise the powers it confers. He will claim the right to inspect all subordinate officers; he will consider every branch of executive power emanating from the city council as subordinate by the charter to the city executive. He will claim of all such an accountability that will enable him to understand every interest of the city in detail. Such a course would, probably, sooner or later, lead to controversies concerning the rights and dignities of independent boards—to heart-burnings and jealousies—perhaps to pamphlets and newspaper attacks, which if he does not answer it will be said that it is because he cannot, and which if he does answer will lead to a reply and that to a rejoinder—and thus the executive of the city, instead of a simple and plain exercise of power, humble and limited in its sphere, yet important to be both efficient and unembarrassed, may be harassed with disputes about the pretensions, authorities and dignities of rival powers, vexatious and unprofitable, terminating in nothing but divisions in the city and inefficiency in the execution of the laws.

I have deemed it my duty to express myself thus distinctly and in a most unqualified manner upon this point, and the rather thus publicly because opinions in this respect are liable to be misrepresented or misunderstood. On such occasions, therefore, I choose to throw myself on the intelligence and virtues of the mass of my fellow citizens whose interests, as I understand them, it is my single desire steadily to pursue, and who, whether they coincide or differ with me in relation to the particular mode of pursuing those interests, will, I have perfect confidence, justly appreciate my motives.

The result of my experience during the past year on this subject is this, that the interests of the city are most deeply connected with such an organization of every branch of executive power as that the ultimate responsibility for the execution should rest upon the mayor, and which he should, therefore, be incapable of denying or evading. That at all times the blame should rest upon him without the power of throwing it off upon others in case of any defect of plan or any inefficiency in execution.

In making these remarks, I trust I shall not be understood as not appreciating as I ought, in common with my fellow citizens, the exertions and the sacrifices of those excellent, intelligent and faithful men who in present and in past times, with so much honor to themselves and advantage to the community, have administered the concerns of independent departments. I yield to none of my fellow citizens in my sense of gratitude and respect to them, both as officers and indi-

THE NEW LEGISLATURE.

CEREMONIES ATTENDING THE INAUGURATION OF THE GOVERNOR AND LIST OF COMMITTEE APPOINTMENTS.

viduals. But the organization of a city is, in the nature of things, essentially different from that of a town. The relation to the city in which I have been placed have compelled me to contemplate and prospectively to realize the certain embarrassments which must result from an organization of the executive department; varying from that simplicity which the charter establishes as likely deeply to effect the efficiency of the system now upon trial and to encourage and sooner or later to introduce both imbecility and inactivity into an office which can alone be beneficial to the city when it is possessed by directly opposite qualities.

I have no apprehension that my fellow citizens will attribute these suggestions to a vulgar and vain wish to extend the powers of an office holden but for a year on the most precarious of all tenures. The efficiency of this new form of government is mainly dependent on its simplicity and on the fact that its responsibility is undivided and cannot be evaded if the departments be organized on charter principles. Much of the benefit of the new system will depend on the spirit which characterizes its commencement. On this account, the individual now possessing the executive power is anxious on the one hand that none of its essential advantages should be lost through any timidity on his part in expressing opinions, the result of his experience, or through any unwillingness to incur any labor or meet any just responsibility. On the other, he has no higher ambition than by a diligent, faithful and laborious fulfillment of every known duty and exercise of every charter right, to set such an example and establish such precedents as will give to this new government a fair impulse and a permanent and happy influence upon the destinies of the inhabitants of this city.

Gentlemen of the City Council:

It is the felicity of all who are called to the government of this city that they serve a people capable of appreciating and willing actively to support faithful and laborious efforts in their service. A people in all times distinguished for uniting love of freedom with respect for authority. May it be your happiness, as it will be your endeavor, to maintain those institutions under which such a people have been elevated to so high a degree of prosperity! Under your auspices may the foundations of the fabric of their greatness be strengthened, its proportions enlarged, its internal accommodations improved! May the spirit of liberty and the spirit of good government continue to walk hand in hand within these venerable walls consecrated by so many precious recollections. And when we shall have passed away and the places which now know us shall know us no more, may those who come after us be compelled to say that the men of this age were as true to the past and the future as to their own times; that, while they had preserved and enjoyed the noble inheritance which had descended to them from their ancestors, they had transmitted it not only unimpaired, but improved to their posterity.

STREET CAR HEARING.

Upon the petition of Andrew A. Meyer relative to street car service from Dudley street to the South Station in the City of Boston, the Board of Railroad Commissioners will give a hearing at its office, 20 Beacon street, Boston, on Monday, January 10, 1910, at 10.30 o'clock in the forenoon.

The Legislature for 1910 was sworn into office on Wednesday, and Governor Draper was inaugurated on Thursday. Apart from the special ceremonies the features of interest to Boston were the addresses of the presiding officers and the appointment of committees.

President Treadway, on assuming the chair in the Senate, spoke as follows:

FELLOW-SENATORS.—No session opens without expectation of important duties to be performed and certainly the session of 1910 will not be an exception. There will be presented for our consideration some matters upon which our decision will be as vital to the welfare of the Commonwealth as any within our recollection. There were referred to various commissions for expert information by the Legislature of 1909 such grave problems as metropolitan improvements; construction of additional subways, tunnels and elevated structures in Boston; consolidation of the Boston Elevated Railway with the West End Street Railway; amending the Constitution to permit the classification of property for purpose of taxation; the question of trolley holdings by railroads; the establishment of the so-called Massachusetts College; the exemption from taxation of property of educational and public institutions, and other matters of great importance wherein the reports authorized last year will come before this Legislature for action.

In addition to these matters there will be the subjects for legislation naturally arising so that the solution of many important questions having to do with the welfare of the state, its wards and individuals—as well as the relationship between the Commonwealth and other states and the nation—will require your most careful consideration. I bespeak that your decision on these and all matters should be based upon individual judgment and not upon any friendly motive towards a fellow-member.

I believe the time of introduction of new business should be shortened by one week in order that committees may promptly have before them all kindred matters for which to assign hearings. This might cause some inconvenience when first adopted but I think future years would prove its value. The early portion of the session is the one wherein there is the least accomplishment, and if a week can be gained in this way prorogation would come just so much earlier. Should inconvenience result this year by a change of this kind we would, nevertheless, have the satisfaction of feeling that we were setting a good precedent for the adoption of rules another year as of course each Legislature makes its own rules, and the date for the admission of business must be determined upon at the beginning of each session.

Joseph Walker on his election as Speaker spoke in part as follows:

We will be confronted this year as usual with a mass of matters, many of which matters will be of great importance. I earnestly request each individual member to see to it that his committee organizes immediately.

One of the privileges of members of the House which is easily abused is the privilege of one member to pair with another member. This privilege should be exer-

cised only in case of sickness or other unavoidable cause of absence. The privilege is frequently misused to give to some one member of the House the practical control of several votes besides his own. Remedies for this evil are suggested each year. It has been suggested that pairing be abolished. This privilege is, however, valuable when properly used and I have come to the conclusion that the only real remedy lies with the members themselves. No man should allow himself to be paired unless he is convinced that the request comes *bona fide* from the member in whose name the pair is requested, and then only if the absent member has an adequate excuse for being away. Many a question of importance has been decided by the illegitimate use of the privilege to pair.

I referred last year, and I intend to refer again this year, to the evil of securing the passage of bills by means of trading votes. The agreement to vote for a man's measure if he will vote for yours is wrong and demoralizing. I believe that the time is fast coming when the people will look upon this evil in its true light,—viz., as a form of bribery, as the giving of a *quid pro quo*. This evil is common in legislative assemblies. Tariff bills and river and harbor bills are illustrations of the extent to which this method of legislation is carried in Washington. It is folly for a great political party to enunciate principles and formulate policies if legislators are to neglect such principles and policies, and, when it comes to practical legislation, resort to secret vote trading. All principle and policy, all regard for the general public interest is lost sight of under the demoralizing influence of such methods of legislation. If we are to have good legislation in the interest of the whole people each proposition must be discussed in the light of the most reliable information and must stand or fall on its own merits.

I trust, therefore, that members of the House this year will not trade votes and will not commit themselves to any proposition until they have heard both sides of the question and have come to a clear conviction of what is in the public interest. I wish in conclusion to remind you that unnecessary legislation is bad legislation. The burden of proof always rests on those who propose legislation.

STANDING COMMITTEES.

The President appointed the standing committees of the Senate as follows:

On the Judiciary.—Messrs. Spalding of Middlesex, Turtle of Berkshire, Evans of Middlesex, Mulligan of Middlesex and Teeling of Suffolk.

On Rules.—The President and Messrs. Spalding of Middlesex, Hultman of Norfolk, Turtle of Berkshire and Teeling of Suffolk.

On Ways and Means.—Messrs. Crosby of Middlesex, Greenwood of Worcester, Hultman of Norfolk, Bennett of Middlesex and White of the Cape.

On Bills in Third Reading.—Messrs. Tolman of Essex, Crosby of Middlesex, Lomasney of Suffolk.

On Engrassed Bills.—Messrs. Rankin of Bristol, Burnham of Suffolk, O'Connor of Suffolk.

The Speaker appointed the standing committees of the House as follows:

Rules.—The Speaker, and Messrs.

Underhill of Somerville, Cushing of Boston, Washburn of Worcester, Rousmaniere of Boston, Haigis of Montague, Warren of Chelsea, Bean of Cambridge, Holt of Methuen, Pope of Leominster and Carmody of Worcester.

Ways and Means.—Messrs. White of Brookline, Breed of Lynn, Bean of Cambridge, Holt of Methuen, Crocker of Boston, Conwell of Somerville, Bond of Greenfield, Fay of Medford, Pope of Leominster, William H. O'Brien of Boston and Conway of Boston.

The Judiciary.—Messrs. Knight of Boston, Saunders of Clinton, Brayton of Fall River, Warren of Chelsea, Mellen of Braintree, Roberts of Boston, Hurd of Salem, Hale of Dover, Turner of Waltham, Riley of Malden and Cummings of Pittsfield.

Elections.—Messrs. Warren of Chelsea, Saunders of Clinton, Mellen of Braintree, Montague of Boston, Callahan of Boston, Mancovitz of Boston and Shaw of Boston.

Bills in the Third Reading.—Messrs. Cox of Boston, Davis of Melrose and Ahearn of Framingham.

Engrossed Bills.—Messrs. Tufts of Waltham, Hobbs of Worcester and Hatton of Charlestown.

Pay Roll.—Messrs. Tetler of Lawrence, Barlow of Lowell, and McCarthy of Boston.

JOINT STANDING COMMITTEES.

The joint standing committees were appointed as follows:

Agriculture.—Messrs. Mellen of Worcester and Hampden, Farley of Franklin and Hampshire and Walsh of Hampden, *of the Senate*; Messrs. Gardner of Westfield, Avery of Charlemont, Kendrick of Fairhaven, Boutwell of Andover, Howard of Easton, Waterhouse of Westminster, Fairbank of Sudbury and R. F. Brown of Milbury, *of the House*.

Banks and Banking.—Messrs. Tinkham of Suffolk, Mulligan of Middlesex and White of the Cape, *of the Senate*; Messrs. C. E. Dow of Boston, Bates of Boston, Doane of Middleborough, Langelier of Quincy, Atkins of Everett, J. Carr of Boston, D. J. McCarthy of Boston and Collins of Boston, *of the House*.

Cities.—Messrs. Burnham of Suffolk, Denny of Worcester, Newhall of Essex and Lomasney of Suffolk, *of the Senate*; Messrs. Montague of Boston, Doyle of New Bedford, Emerson of Boston, P. S. Davis of Beverly, Bliss of Malden, G. L. Dow of Cambridge, Lombard of Springfield, Holmgren of Worcester, Graham of Lawrence, Meade of Brockton and Burke of Milford, *of the House*.

Constitutional Amendments.—Messrs. Mahoney of Hampden, Tolman of Essex and Tinkham of Suffolk, *of the Senate*; Messrs. Wood of Cambridge, Holman of Attleborough, Ham of Boston, Quinn of Swampscott, H. R. Holt of Taunton, Kimball of Salem, Coogan of Boston and Daly of Boston, *of the House*.

Counties.—Messrs. Bennett of Middlesex, Bunting of Essex, and Pickford of Worcester, *of the Senate*; Messrs. Fogg of Newburyport, Upton of Orange, Carleton of Chelsea, Hammarstrom of Worcester, Allen of Manchester, Gowing of North Reading, Ahearn of Framingham and Hickey of Boston, *of the House*.

Drainage.—Messrs. Nason of Essex, Burnham of Suffolk and Meaney of Worcester, *of the Senate*; Messrs. Campbell of Hyde Park, S. V. Crane of Blackstone, Beal of Rockland, Fletcher of Southwick, Booth of Fall River, Killpartrick of Lowell, Lamoureux of Southbridge and Murray of Boston, *of the House*.

Education.—Messrs. Evans of Middlesex, Nash of Plymouth and Tinkham of Suffolk, *of the Senate*; Messrs. Armstrong

of Somerville, Upton of Orange, L. S. Perry of New Bedford, L. Sullivan of Malden, J. B. Brown of Boston, Bellamy of Taunton, J. H. Mellen of Worcester and Barry of Chicopee, *of the House*.

Election Laws.—Messrs. Mulligan of Middlesex, Spalding of Middlesex and Abbott of Suffolk, *of the Senate*; Messrs. Rousmaniere of Boston, Chase of Danvers, Tufts of Waltham, A. S. Davis of Melrose, White of Newton, Messinger of Hopedale, Hatton of Boston and Davies of Holyoke, *of the House*.

Federal Relations.—Messrs. Farley of Franklin and Hampshire, Evans of Middlesex and Rockwood of Norfolk, *of the Senate*; Messrs. C. H. Brown of Medford, W. M. Robinson of Chelsea, Tetler of Lawrence, G. F. Bean of Woburn, J. Carr of Boston, Cumming of Boston, M. F. O'Brien of Boston and Arseneault of Spencer, *of the House*.

Fisheries and Game.—Messrs. Keith of Plymouth, Rankin of Bristol and Lomasney of Suffolk, *of the Senate*; Messrs. H. A. Ellis of Yarmouth, Greene of Oak Bluffs, W. H. Peirce of Prescott, Sharp of Nantucket, W. K. Perry of Marion, Pattee of Falmouth, Gifford of Westport, and Cronin of Boston, *of the House*.

Harbors and Public Lands.—Messrs. Bray of Essex, Newhall of Essex, Rankin of Bristol and O'Connor of Suffolk, *of the Senate*; Messrs. Langelier of Quincy, Moore of Duxbury, Quinn of Swampscott, Swan of Brockton, Elwell of Rockport, A. W. Cushman of Provincetown, Donovan of Boston and Scigliano of Boston, *of the House*.

Insurance.—Messrs. Nash of Plymouth, Turner of Bristol, Harvey of Middlesex and Denny of Worcester, *of the Senate*; Messrs. C. T. Holt of Springfield, Montague of Boston, Holbrook of Stoughton, Doane of Middleborough, Vinson of Boston, E. D. Stone of Ayer, Wells of Haverhill, Cavanaugh of Everett, Sullivan of Boston, Henebery of Worcester and Ducey of Charlestown, *of the House*.

Labor.—Messrs. Ross of Bristol, Mellen of Worcester and Hampden and O'Connor of Suffolk, *of the Senate*; Messrs. F. O. Hardy of Fitchburg, Hall of North Adams, Lewin of New Bedford, Vinson of Boston, E. D. Cushman of Monson, Munroe of Peabody, Parks of Fall River and McCullough of Holyoke, *of the House*.

Legal Affairs.—Messrs. Harvey of Middlesex, Tolman of Essex and Meaney of Worcester, *of the Senate*; Messrs. Ham of Boston, Hobbs of Worcester, Cox of Boston, Priest of Haverhill, Martin Hays of Boston, Cogswell of Lynn, J. J. Hayes of Boston and Mancovitz of Boston, *of the House*.

Libraries.—Messrs. White of the Cape, Bray of Essex and Butler of Suffolk, *of the Senate*; Messrs. Sharp of Nantucket, Cushing of Boston, Washburn of Worcester, Brayton of Fall River, C. C. Mellen of Braintree, Hale of Dover, Brennan of Boston and Noonan of Boston, *of the House*.

The Liquor Law.—Messrs. Pickford of Worcester, Walsh of Hampden and Teeling of Suffolk, *of the Senate*; Messrs. Saunders of Clinton, Doyle of New Bedford, Armstrong of Somerville, Ebsen of Salem, Pattee of Falmouth, Witt of Springfield, O'Neil of Boston and O'Donnell of Boston, *of the House*.

Mercantile Affairs.—Messrs. Rockford of Norfolk, Parker of Suffolk, Tolman of Essex and Mahoney of Hampden, *of the Senate*; Messrs. Bayley of Lexington, Cornack of Lynn, Ebsen of Salem, Penniman of Cambridge, Langtry of Springfield, A. M. Stone of Worcester, H. L. Pierce of Leominster, Sturgis of

Lanesborough, C. F. McCarthy of Marlborough, Tytus of Tyringham and Kelly of Boston, *of the House*.

Metropolitan Affairs.—Messrs. Crosby of Middlesex, Parker of Suffolk, Harvey of Middlesex and Butler of Suffolk, *of the Senate*; Messrs. Cushing of Boston, Keene of Somerville, C. H. Brown of Medford, Rousmaniere of Boston, Thomas of Quincy, Bothfield of Newton, C. L. Carr of Boston, Nickerson of Hull, Callahan of Boston, Shaw of Boston and Ryan of Cambridge, *of the House*.

Military Affairs.—Messrs. Denny of Worcester, Hibbard of Middlesex and Doyle of Suffolk, *of the Senate*; Messrs. Moore of Duxbury, Oliver of Athol, C. T. Holt of Springfield, Chase of Danvers, Witt of Springfield, Edgell of Gardner, Kearns of Lowell and Goode of Boston, *of the House*.

Prisons.—Messrs. Blanchard of Middlesex, Keith of Plymouth and Ross of Bristol, *of the Senate*; Messrs. Waugh of Somerville, Sargent of Merrimac, Hammarstrom of Worcester, Leland of Templeton, Batley of Maynard, Marchand of Lowell, J. H. Mellen of Worcester and Hughes of Adams, *of the House*.

Public Charitable Institutions.—Messrs. Turner of Bristol, Nash of Plymouth and Pickford of Worcester, *of the Senate*; Messrs. Holman of Attleborough, Swann of Brockton, Keefe of Fall River, Kinney of West Bridgewater, Noyes of Lynn, Cliff of Somerville, Hancock of Brockton and McKirdy of Boston, *of the House*.

Public Health.—Messrs. Parker of Suffolk, Ross of Bristol and Doyle of Suffolk, *of the Senate*; Messrs. Oliver of Athol, Hall of North Adams, Smith of Hadley, Arnold of Boston, Montgomery of Northampton, Lanman of Plymouth, Cuff of Lowell and Brophy of Boston, *of the House*.

Public Lighting.—Messrs. Hultman of Norfolk, Abbott of Suffolk, Blanchard of Middlesex and Bray of Essex, *of the Senate*; Messrs. Underhill of Somerville, Holden of Stoneham, Leonard of Boston, Bates of Boston, Dickson of Pittsfield, S. V. Crane of Blackstone, Brigham of Northborough, Ricker of Gloucester, Conley of Lowell, Coffin of West Newbury and Breenkridge of North Adams, *of the House*.

Public Service.—Messrs. Newhall of Essex, Turner of Bristol and Butler of Suffolk, *of the Senate*; Messrs. Keene of Somerville, Barlow of Lowell, Hathaway of New Bedford, G. B. Robinson of East Longmeadow, G. A. Reed of Worcester, Ford of Lynn, Colpoys of Boston and J. J. Reed of Cambridge, *of the House*.

Railroads.—Messrs. Turtle of Berkshire, Greenwood of Worcester, Blanchard of Middlesex and Mahoney of Hampden, *of the Senate*; Messrs. Washburn of Worcester, F. O. Hardy of Fitchburg, Bayley of Lexington, Haigis of Montague, G. F. Bean of Woburn, R. D. Crane of Cambridge, Chapman of Franklin, Moseley of Needham, Carmody of Worcester, Scully of Springfield and Sorenson of Boston, *of the House*.

Roads and Bridges.—Messrs. Hibbard of Middlesex, Farley of Franklin and Hampshire, and Nason of Essex, *of the Senate*; Messrs. Willets of Fall River, Stevens of Dracut, Conant of Worcester, J. A. Halliday of Saugus, Burckel of Lawrence, A. W. Cushman of Provincetown, Tytus of Tyringham and Dugan of Webster, *of the House*.

Street Railways.—Messrs. Abbott of Suffolk, Keith of Plymouth, Bennett of Middlesex and Hibbard of Middlesex, *of the Senate*; Messrs. Wolcott of Milton, Meyers of Cambridge, W. M. Robinson

the Committee on County Accounts, and they all agree that the modern steel cases should be provided at once.

I called to see you to-day regarding this matter, and in your absence talked with your secretary, Mr. White. I also called to see the City Auditor, who informed me that it would be necessary for a transfer to be made for the specific purpose of providing the new fireproof cases, and that it would be necessary for Mr. Morrison, the Superintendent of Public Buildings, to advertise for bids. I have talked with Mr. Morrison about this matter in the past, and I understand that he has received some preliminary estimates of the cost of the work, so that he is familiar with the subject.

Trusting that you will deem it wise and expedient to make an immediate transfer so that the work of reconstruction at the courthouse may not be delayed, I am,

Respectfully yours,
WILLIAM T. A. FITZGERALD,
Register.

Ordered, That the City Auditor be, and he hereby is, authorized to transfer the sum of \$12,000 from the appropriation for Police Department to an appropriation for Registry of Deeds, Fireproof Bookcases, said appropriation to be expended by the Superintendent of Public Buildings.

The message and communication were sent up. The order will take its second reading at the next meeting.

APPROPRIATION FOR EXECUTION OF COURT.

The following was received:

City of Boston,
Office of the Mayor, January 6, 1910.
To the Gentlemen of the City Council:
I transmit herewith a communication from the City Auditor stating that a deficit of \$12,968 exists in the appropriation for Washington Street, West Roxbury.

The Board of Aldermen has already appropriated \$11,000 to meet executions of court issued on account of the widening of this street, and the order is now before the Common Council for action (No. 9, Calendar No. 30). It will therefore be necessary for the Council to amend the order and appropriate an additional \$2,000 to meet the executions recently paid.

Respectfully,
G. A. HIBBARD, Mayor.

City of Boston,
Auditing Department, January 3, 1910.
Hon. George A. Hibbard,
Mayor of the City of Boston:

Sir,—An execution of court amounting to \$2,000 was paid to-day on account of the widening of Washington street, West Roxbury, as a State highway, under a contract of \$12,968 to be provided for in the appropriation for Washington Street, West Roxbury.

Respectfully,
J. ALFRED MITCHELL,
City Auditor.

Ordered, That the sum of two thousand dollars (\$2,000) additional be hereby appropriated, to be expended by the Law Department under the provisions of chapter 574 of the Acts of 1907, on account of Washington street, West Roxbury; and that to meet such appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to the above amount.

The message and communication were sent up. The order will take its second reading at the next meeting.

PETITION REFERRED.

A petition was received from Clarence W. Staratt asking for compensation for injuries received by him on Dudley street, corner of Harrison avenue.

Referred to the Committee on Claims.

ARC LIGHT ON B STREET.

The following order, placed by Mr. WELCH of Ward 13 with the Clerk, was read:

Ordered, That the Superintendent of Streets be requested, through his Honor the Mayor, to place an arc light on B street, opposite Tudor street, Ward 13.

Referred to the Mayor.

PICTURE OF COUNCIL MEMBERS.

Mr. WEBSTER of Ward 25 offered an order—That the City Messenger be authorized to procure a photograph of the members of the Common Council of 1909, and to furnish each member of the Council with one copy thereof; the expense

attending the same to be charged to appropriation for Common Council, Contingent Expenses.
Passed.

ANNUAL DINNER.

Mr. HACKETT of Ward 21 offered an order—That a special committee of five members be appointed to make arrangements for the annual dinner.
Passed.

MUSIC STAND ON BOSTON COMMON.

Mr. HART of Ward 24 offered an order—That of the income available the present year from the Parkman Fund the sum of \$75,000 be hereby appropriated, to be expended by the chairman of the Music Trustees and the Superintendent of Public Grounds jointly, for the erection of a music stand on Boston Common, and the erection of such music stand on Boston Common is hereby authorized.

The order will take its second reading at the next meeting.

HALE SQUARE.

On motion of Mr. HACKETT of Ward 21 the Council took up No. 13 under unfinished business:

13. Ordered, That the name of "Dudley square" be changed to "Hale square" in memory of Edward Everett Hale.

The question came on solving the doubt of the vote of July 29 whereby the above order was declared rejected.

The question came on solving the doubt on the vote whereby the order was declared defeated at the last meeting of the Council on July 29. A rising vote was ordered, and the Council stood divided, 14 in favor and 9 against, and the order was declared passed. Mr. HACKETT moved to reconsider; lost. Sent up.

BOSTON'S TAX RATE.

Warning has already been given that the new Legislature will be called on to meet financial demands which will result in producing a record breaking state tax. There is no matter of greater importance than this, to the people of Boston, inasmuch as they have to pay substantially 38 per cent of such a tax in addition to their own local obligations. For that reason it is important that citizens make themselves acquainted with the proposed expenditures at the State House, in order that proper safeguards may be had.

The relation between an increased state tax and an increased City of Boston tax is not fully appreciated. Yet it is in a large part, because of the increase in the state tax in the last five years that the Boston tax has been going up. In the last five years the state tax has increased from \$1.87 to \$2.40 per thousand.

The matter may perhaps be explained in detail to make the facts more evident.

Boston this year has a tax rate of \$16.50 a thousand. But this money when collected is not all available for City of

TRANSFER TO PLACING OUT DIVISION.

Mr. HARDING of Ward 20, for the Committee on Institutions Department, submitted a report on message of Mayor and order (referred December 9) transferring certain sums from the Parental School Division and the Suffolk School for Boys Division of the Children's Institutions Department to the Placing Out and Office Division of said department, said sums amounting to \$5,000,—that the order ought to pass.

(Councilman FITZGERALD dissents.)

The report was accepted. The order takes its second reading at the next meeting.

CLAIM REPORT.

Mr. GORDON of Ward 9 called up No. 26 on the table, viz.:

26. Report of Committee on Claims, on petition of Dennis F. McKay, (referred October 11, 1909) for compensation for injuries received while washing windows at the Plummer School, East Boston,—leave to withdraw.

Report accepted in concurrence.

Adjourned at 8.37 p.m., on motion of Mr. BROPHY of Ward 2, to meet on Thursday, January 13, at 7.45 o'clock p.m.

CITY OF BOSTON.

Area of city, 42.65 square miles, or 27,300 acres.

Miles of streets, 511.60.

Number of buildings, including tenement houses, 87,327.

Tenement houses, including four or more families, 7,000.

Public parks and playgrounds, 2,507.15 acres.

Boston purposes. Of the amount \$2.40 goes to the state for the state tax. Again \$1.10 is the county tax and goes for county expenses, including those of Chelsea, Winthrop and Revere. Thus the amount of money actually available for the City of Boston is only \$13, which is the real municipal tax.

But even this \$13 is not available for general municipal purposes because the School Committee under the law is entitled to \$3.19 of this amount for school purposes, simply the maintaining of the schools, as all new buildings are erected out of loans. This therefore leaves for the maintenance of the police, the fire, the hospitals, the charity institutions, the street, the engineering and, in fact, all other departments just \$9.81 of the total.

It is interesting to note that while the City of Boston tax of this year was the highest in five years that the amount of money raised for the actual maintenance of departments under the control of the Mayor was the lowest in five years.

The formula used for figuring this out can be best shown by the following five years' comparison table:

	1905.	1906.	1907.	1908.	1909.]
Total tax.....	\$16 00	\$15 90	\$15 90	\$16 50	\$16 50
County.....	\$0 93	\$0 91	\$0 90	\$0 94	\$1 10
State.....	1 87	1 79	1 80	2 22	2 40
City.....	13 20	13 20	13 20	13 34	13 00
City.....	\$13 20	\$13 20	\$13 20	\$13 34	\$13 00
School tax*	2 96	2 96	2 96	3 08	3 48
Tax total available for general city purposes.....	\$10 24	\$10 24	\$10 24	\$10 26	\$9 52

* The increase in school amount is because of legislation and it will be increased ten cents more this new year.

PROCEEDINGS OF SCHOOL COMMITTEE.

Jan. 3, 1910.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5:41 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Ellis, Lee, Magenis and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILDING.

A petition was received from Caroline M. Roundy, under date of Jan. 3, 1910, for a hearing in order that she might present her objections to the taking of premises Nos. 5 and 7 Warrenton street, owned by her, as a part of the site for the proposed High School of Commerce and School Administration Building.

Various representatives of the petitioner appeared, and the Committee agreed to defer action on approving the site selected by the Board of Schoolhouse Commissioners for said building until its next regular meeting, in order that they might present their objections to said Board.

The petition was thereupon placed on file.

The Chairman presented a communication addressed to him by Frederick P. Fish, under date of Dec. 31, 1909, stating that in his opinion the selection of the aforesaid site should be adhered to, and expressing the hope that the School Committee will approve the same.

Placed on file.

DATE OF BEGINNING OF TEACHER'S COMPENSATION.

A communication was received from the Corporation Counsel, under date of Dec. 29, 1909, in response to a request of the Board at the meeting of Dec. 27 (see p. 191), for an expression of opinion as to the date of the beginning of a teacher's compensation, stating that in his opinion her salary should begin on Nov. 29, 1909, inasmuch as she entered upon the duties of her position at that time when she presented herself at the school to begin work, although as a matter of fact the school was not in session on that day on account of the weather.

Placed on file, and the Business Agent directed to pay said teacher from Nov. 29, 1909.

RESIGNATIONS.

The following resignations, reported by the Superintendent, were presented:—

(To Retire from the Service.)

Manual Training—Lillian M. Beckwith, assistant instructor, from Jan. 1, 1910.
Accepted.

(To Accept Promotion in the Service.)

Dwight District—Jennie E. Bailey, assistant, from Jan. 3, 1910.
Accepted.

The following appointments and confirmations by the Superintendent, certified by him as being in accordance with the rules and regulations, were presented:—

SPECIAL ASSISTANTS.

Adams District—Mary E. Flynn, from Oct. 4 to Nov. 2, 1909, inclusive, and from Nov. 4 to 24, 1909, inclusive; Mary E. Flynn, kindergarten, from Nov. 30 to Dec. 7, 1909, inclusive; Mary M. Glennon, Dec. 6, 1909, one-half day; Mary M. Hayes, from Nov. 30 to Dec. 6, 1909, inclusive; Helen M. Jameson, kindergarten, from Dec. 8 to 23, 1909, inclusive.

Christopher Gibson District—Hannah E. McDonough, from Jan. 3, 1910.

George Putnam District—Agnes Keefe, from Nov. 15 to 27, 1909, inclusive.

John A. Andrew District—Emily W. Collins, from Dec. 6 to 8, 1909, inclusive; Anna M. Donohue, from Dec. 14 to 17, 1909, inclusive.

Mary Hemenway District—Agnes Keefe, from Dec. 6, 1909.

Robert G. Shaw District—Estelle R. Kleh, from Dec. 20, 1909.

Wendell Phillips District—Mary M. O'Mara, Oct. 14 and 15, 1909.

Approved.

ON PROBATION.

(From the Eligible List.)

Christopher Gibson District—Agnes R. Hurley, assistant, fourth year; Hannah E. McDonough, assistant; from Jan. 18, 1910.

Edward Everett District—Estelle K. Kennedy, assistant, from Jan. 18, 1910.

Hancock District—Anna M. Muldoon, assistant, from Jan. 18, 1910.

Manual Training—Karin Sellman, assistant instructor, from Jan. 3, 1910.

Laid over.

Not from the Eligible List, but in accordance with the Rules.

(By Promotion.)

Jefferson District—Mary M. Oswald, first assistant, kindergarten, from Jan. 3, 1910.
Laid over.

(Under a License.)

Trade School for Girls—Marie F. Libourel, helper, from Jan. 3, 1910.

Laid over.

FOR CONFIRMATION.

Girls' Latin School—Alice M. Smith, Mary R. Stark, assistants.

Dillaway District—Flora M. Hoyt, assistant, kindergarten.

William E. Russell District—Josephine M. Haney, assistant.

Cookery—Mary W. Cauley, teacher.

Approved.

ATTENDANT IN KINDERGARTEN.

Adams District—(Plummer Kindergarten), Anna B. Lane, from Nov. 30, 1909.

Placed on file.

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence was granted each of the following-named teachers for the terms specified:—

Bennett District—Rose S. Havey, assistant, Dec. 21, 1909, one-half day; Margaret A. Sullivan, assistant, Dec. 23, 1909, one-half day.

Bigelow District—Ella F. Fitzgerald, assistant, from Jan. 3 to May 1, 1910.

Dearborn District—Helen R. Campbell, assistant, Dec. 9, 1909, one-half day.

Hancock District—Anna T. Dinand, assistant, Dec. 17, 1909, one day.

Hyde District—Ellen J. Stuart, assistant, from Jan. 3 to Apr. 1, 1910.

Longfellow District—Edith Irving, assistant, from Dec. 20, 1909, to Apr. 11, 1910.

Martin District—Mary C. Rogers, assistant, Dec. 10, 1909, one-half day.

Minot District—Ida F. Wall, assistant from Dec. 31, 1909, to Feb. 1, 1910, without pay.

Warren District—Katharine L. Roche, first assistant, kindergarten, Dec. 17, 1909, one day.

Washington District—Frances Burnce, assistant, from Jan. 1 to Apr. 1, 1910.

Wells District—Adelaide E. Badger, assistant, Dec. 16, 1909, one-half day.

Music—Leonard B. Marshall, assistant director, Dec. 10, 13, 14, 16, 17, 20, 21, 22, 23, 1909, nine days.

Manual Training—Helen F. Veasey, assistant instructor, Jan. 7, 14, 21, 28, Feb. 4, 11, 18, 25, Mar. 4, 11, 18, 25, 1910, twelve days.

On the report of the Superintendent, leave of absence for study, travel or rest, under the provisions of section 317 of the regulations, was granted each of the following-named teachers for the terms specified:—

South Boston High School—Lillian J. MacRae, first assistant, head of department, from Sept. 1, 1910, to Sept. 1, 1911, for study and travel; Annie G. Merrill, special assistant instructor, from Sept. 1, 1910, to Sept. 1, 1911, for rest; Priscilla Whiton, assistant instructor, from Sept. 1, 1910, to Sept. 1, 1911, for study and travel.

Music—Albert G. Mitchell, assistant director, from Sept. 1, 1910, to Sept. 1, 1911, for study.

MINORS' LICENSES.

A communication was received from the Superintendent, under date of Jan. 3, 1910,

recommending that, in accordance with applications which are on file in his office, minors' licenses be granted as follows:—

To sell newspapers.....577
To black boots.....3
Issue of licenses authorized accordingly.

ACTING MASTER'S ASSISTANT, GILBERT STUART DISTRICT.

A communication was received from the Superintendent, under date of Jan. 3, 1910, reporting that he had designated Edith A. Scanlon to act as master's assistant in the Gilbert Stuart District, during the absence on leave of Caroline F. Melville, from Jan. 1 to Apr. 30, 1910.

Placed on file.

EMPLOYMENT OF AMY L. BURBANK, DORCHESTER HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That the employment in the Dorchester High School, beginning Jan. 3, 1910, of Amy L. Burbank, an assistant in the Hugh O'Brien District, be, and hereby is, authorized for such portion of the school year 1909-1910 as the Superintendent may deem expedient, Miss Burbank to be paid at the same rate as if she were teaching as an assistant in an elementary school.

On motion of the Superintendent, it was ORDERED, That while Amy L. Burbank, because of her service in the Dorchester High School, is absent from her regular position in the Hugh O'Brien District, her place in that district be filled by a temporary teacher.

PAYMENT TO NELLIE S. MORRIS.

On motion of the Superintendent, it was ORDERED, That Nellie S. Morris be paid two dollars (\$2) for four days' service as kindergarten attendant in the Mather District, from Jan. 4 to 8, 1909, inclusive.

TEMPORARY ASSISTANT, SUPERINTENDENT'S OFFICE.

On motion of the Superintendent, it was ORDERED, That an additional temporary assistant be, and hereby is, authorized in the office of the Superintendent, for service in connection with the department of school hygiene.

A communication was received from the Superintendent, under date of Jan. 3, 1910, stating that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Mary A. S. Lynch as a temporary assistant in his office, for service in connection with the department of school hygiene, to date from Dec. 27, 1909.

Placed on file, and the appointment approved.

On motion of the Superintendent, it was ORDERED, That the compensation of Mary A. S. Lynch, temporary assistant in the office of the Superintendent, be, and hereby is, fixed at fifty dollars (\$50) per month.

PAYMENT TO WINTHROP TIRRELL.

On motion of the Superintendent, it was ORDERED, That Winthrop Tirrell, instructor, High School of Commerce, be paid two hundred and forty dollars (\$240), for service in connection with the establishment of the pre-apprentice plan for the summer employment of the pupils of said school.

RETIREMENT OF TEACHER ON PENSION.

The Superintendent offered the following:—

ORDERED, That the following-named teacher be retired on pension in accordance with the provisions of chapter 539 of the acts of 1908, at the rate and from the date stated:—

Hancock District—Teresa M. Gargan, from Dec. 31, 1909, \$180.

Passed, all the members of the Board voting in the affirmative.

TRANSFER OF APPROPRIATION.

A communication was received from the Business Agent, under date of Dec. 31, 1909, stating that acting under authority granted by the School Board on Dec. 6, 1909, he

had transferred the sum of \$29,060.41 from the appropriation for Supplies and Incidentals to the appropriation for Salaries of Instructors.

Placed on file.

APPROPRIATIONS AND EXPENDITURES TO JAN. 1, 1910.

A communication was received from the Business Agent under date of Jan. 1, 1910, submitting a statement showing the appropriations, expenditures and balances for the current financial year up to and including the Jan. 1, 1910, draft.

Placed on file.

APPROPRIATIONS AND EXPENDITURES, SUPPLIES AND INCIDENTALS.

A communication was received from the Business Agent, under date of Dec. 31, 1909, submitting a statement of the appropriations, expenditures and balances for each of the items of the appropriation for supplies and incidentals up to and including the Jan. 1, 1910, draft.

Placed on file.

ELECTRIC LIGHTING, SCHOOL BUILDINGS.

A communication was received from the Business Agent, under date of Jan. 3, 1910, submitting a report and communication from the General Manager of the Municipal Lighting Department of the City of Pasadena, Cal., showing the rates charged by and cost of operation of the municipal lighting plant in that city, and recommending that the attention of the Finance Commission be called to the matter.

Referred to the Finance Commission for its information.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Jan. 3, 1910, submitting a list of temporary appointments, reappointments and transfers of janitors, for periods of ten days or less, and amounts due for such services as follows:—

Bowker Building School—Archibald P. Goodman, reappointed from Jan. 1, 1910; amount due from Dec. 28, 1909, to Jan. 3, 1910, inclusive, \$7.
1446-1448 Columbus-avenue School—Patrick Haverty, reappointed from Jan. 1, 1910; amount due from Dec. 28, 1909, to Jan. 3, 1910, inclusive, \$4.62.

Cook School-house and Portable No. 40—Charles Timmins, amount due from Dec. 26, 1909, to Jan. 3, 1910, inclusive, \$13.36.

Harvard Hill School-house—James E. Johnson, amount due from Dec. 28 to 31, 1909, inclusive, \$6.79.

Hutchings-street Portables Nos. 41, 102, 103 and 105—John Powers, reappointed from Dec. 30, 1909; amount due from Dec. 28, 1909, to Jan. 3, 1910, inclusive, \$9.23.

Joseph Tuckerman School-house—Thomas F. Powell, amount due from Dec. 23 to 31, 1909, inclusive, \$14.07; James E. Johnson, temporarily transferred from Jan. 1, 1910, amount due from Jan. 1 to 3, 1910, inclusive, \$7.04.

Joy-street Portables Nos. 97, 98, 99 and 100—Henry T. Brennan, reappointed from Jan. 4, 1910; amount due from Dec. 28, 1909, to Jan. 3, 1910, inclusive, \$9.23.

Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42—William H. Johnson, temporarily transferred from Dec. 28, 1909; amount due from Dec. 28, 1909, to Jan. 3, 1910, inclusive, \$30.21.

Warren School-house—Thomas F. Powell, temporarily transferred from Jan. 1, 1910; amount due from Jan. 1 to 3, 1910, inclusive, \$8.51.

Placed on file, and the reappointments and transfers approved.

On motion, it was

ORDERED, That for services rendered as acting janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, Joy-street Portables Nos. 97, 98, 99 and 100, from Dec. 25, 1909, to Jan. 3, 1910, inclusive, nine and 23-100 dollars (\$9.23).

To Archibald P. Goodman, Bowker Building School, from Dec. 28, 1909, to Jan. 3, 1910, inclusive, seven dollars (\$7).

To Patrick Haverty, 1446-1448 Columbus-avenue School, from Dec. 28, 1909, to Jan. 3, 1910, inclusive, four and 62-100 dollars (\$4.62).

To James E. Johnson, Harvard Hill School-house, from Dec. 28 to 31, 1909, inclusive, six and 79-100 dollars (\$6.79); Joseph Tuckerman School-house, from Jan. 1 to 3, 1910, inclusive, seven and 4-100 dollars (\$7.04).

To William H. Johnson, Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42, from Dec. 28, 1909, to Jan. 3, 1910, inclusive, thirty and 21-100 dollars (\$30.21).

To Thomas F. Powell, Joseph Tuckerman School-house, from Dec. 26 to 31, 1909, inclusive, fourteen and 7-100 dollars (\$14.07); Warren School-house, from Jan. 1 to 3, 1910, inclusive, eight and 51-100 dollars (\$8.51).

To John Powers, Hutchings-street Portables Nos. 41, 102, 103 and 105, from Dec. 28, 1909, to Jan. 3, 1910, inclusive, nine and 23-100 dollars (\$9.23).

To Charles Timmins, Cook School-house and Portable No. 40, from Dec. 26, 1909, to Jan. 3, 1910, inclusive, thirteen and 36-100 dollars (\$13.36).

AREAS, PIERPONT SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Jan. 3, 1910, submitting a recertification of the areas of the Pierpont School-house, in consequence of the enlargement of the building.

Placed on file, and the Chairman authorized to approve the recertification of the areas of said building, as reported by the Schoolhouse Custodian, to date from Jan. 1, 1910.

JANITORSHIP, 1446-1448 COLUMBUS- AVENUE SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of Jan. 3, 1910, stating that there are no applicants in the service who desire to be transferred to the janitorship of the 1446-1448 Columbus-avenue School, and that as these are but temporary school quarters and pay but \$4.62 per week, it is difficult to get a janitor who will remain in them for any length of time, and recommending that an arrangement be made whereby the janitor of All Saints' Hall adjoining may care for this school, and that the consent of the Civil Service Commission be obtained.

Placed on file, and the Secretary directed to communicate with the Civil Service Commission accordingly.

JANITORSHIP, BOWKER BUILDING SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of Jan. 3, 1910, stating that there are no janitors in the service who desire to be transferred to the janitorship of the Bowker Building School, and recommending that requisition be made upon the Civil Service Commission for the names of candidates eligible to fill this position.

Placed on file, and the Secretary directed to make requisition upon the Civil Service Commission accordingly.

JANITORSHIP, JOSEPH TUCKERMAN SCHOOLHOUSE.

A communication was received from the Schoolhouse Custodian, under date of Jan. 3, 1910, stating that Peter A. Flynn, janitor of the Walnut-street School-house, is the only applicant for transfer to the janitorship of the Joseph Tuckerman School-house, and recommending that he be transferred to this position, to date from Jan. 9, 1910.

Placed on file, and the transfer of Peter A. Flynn to said position approved, from the date stated.

SEX HYGIENE.

A communication was received from the Director of School Hygiene, under date of Jan. 3, 1910, on behalf of the Advisory Committee on School Hygiene, requesting that further time be allowed for consideration and report on the order passed Nov. 1, 1909, asking for a report on the best method of dealing with the subject of hygiene of sex.

Placed on file, and further time granted.

BOUNDARY LINES, HARVARD AND WARREN DISTRICTS.

On motion, it was

ORDERED, That the boundary lines of the Harvard and Warren Elementary School Districts shall hereafter be as follows:—

Harvard District, for Boys and Girls.

Beginning at Prison Point Bridge; thence by the rear of the southerly side of Chapman street to Main street; thence by the centres of Main and Warren streets to Cordis street; thence by the centre of Cordis street to High street; thence by the centres of High, Winthrop and Adams streets to Navy Yard Wall; thence in a southerly direction by Navy Yard Wall to Charles River; thence by the water to the point of beginning.

Warren District, for Boys and Girls.

Beginning at Prison Point Bridge; thence by the centre of Austin street to Chapman street; thence by the rear of the southerly side of Chapman street to Main street; thence by the centres of Main and Warren streets to Cordis street; thence by the centre of Cordis street to High street; thence by the centre of High street to Monument square; thence by Monument square to Bartlett street; thence by the rear of the easterly side of Bartlett street to Green street; thence by the rear of the northerly side of Green street to Bunker Hill street; thence by the centre of Bunker Hill street to Sackville street; thence by the rear of the southerly side of Sackville street in a direct line to the water; thence by the water to a point opposite North Mead street extended; thence by the southerly side of North Mead street, excluding Grant's Court to Bunker Hill street; thence by the centre of Bunker Hill street and the rear of the southerly side of Mead street to Main street; thence by the centre of Main street to a point opposite Mill street; thence by the rear of the northerly side of Mill street to Lutherford avenue; thence by the centre of Lutherford avenue to Chapman street; thence by the rear of the northerly side of Chapman street to Austin street; thence by the centre of Austin street to the point of beginning.

UNEXPENDED BALANCE OF PENSION FUND.

On motion, it was

ORDERED, That of the \$65,043.19 appropriated Feb. 15, 1909, for the payment of pensions to teachers under the provisions of chapter 589 of the acts of 1908, the sum of \$56,968.07 be paid to the treasurer of the permanent pension fund for investment by the Board of Trustees of said fund, in accordance with the provisions of section 4 of said act, said amount, in the opinion of the School Committee, not being needed for the purpose of paying pensions to teachers during the financial year ending Jan. 31, 1910.

NAMING OF SCHOOL-HOUSES.

Dr. Scannell, to whom was referred Oct. 18, 1909, a communication from the Board of Schoolhouse Commissioners, with regard to the naming of certain school-houses, submitted a written report thereon, containing the following recommendations:—

That the new elementary school in the Adams District, situated on Webster street, be named the John Barry School.

That the lower elementary school in the Lewis District, situated on Hutchings street, be named the William Lloyd Garrison School.

That the lower elementary school in the Sherwin-Hyde District, situated on Rugles street, be named the Lafayette School.

That the lower elementary school in the Sherwin-Hyde District, situated on Hunneman street, be named the George T. Angell School.

That the Thetford-street School be named the Robert Swan School.

The report was accepted, and the recommendations laid over.

SALARIES OF TEACHERS.

A communication was received from Charles J. Lincoln, Head-Master of the Dorchester High School, under date of Dec. 23, 1909, as a representative of the teachers of the city, requesting that teachers whose salaries are fixed on a yearly basis payable monthly, and who die before the end of August, shall be entitled to such proportion of the July and August salary as their term of service between the first of the previous September and July 1 bears to the whole term of service between September 1 and July 1.

Referred to the Business Agent for consideration and report.

AUTHORIZED LIST OF TEXT AND SUPPLEMENTARY BOOKS.

The Board took up for consideration the order offered and laid over at the meeting of Dec. 20, 1909 (see p. 184), relative to the authorization of Mintz's New American Citizen as a text-book in the evening elementary schools.

The order passed.

AMENDMENTS TO RULES AND REGULATIONS.

The order offered at the meeting of Dec. 20, 1909 (see p. 184), amending section 144, paragraph 2, of the rules, relative to the removal and restoration of names to the eligible list, was taken up and passed.

The order offered at the meeting of Dec. 20, 1909 (see p. 184), amending section 481, paragraph 2, of the regulations, relative to the admission of pupils over eighteen years of age to day industrial schools, was taken up and passed.

The order offered at the meeting of Dec. 27, 1909 (see p. 189), amending section 133, paragraph VI., of the rules, relative to the elementary school master's certificate, was taken up and passed.

ADJOURNMENT.

The Board adjourned at 6:55 o'clock P. M.
Attest:—

THORNTON D. APOLLONIO,
Secretary.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH:

1910.

- February 7. Civil Engineers, Class 27.
- February 15. Metropolitan Park Policemen, Class 16.
- March 21. Foremen of Laborers, Inspectors of Work, Class 22.
- March 22. Sub-foremen of Laborers, Class 23.
- March 28. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON:

1910.

- February 8. Civil Engineers, Class 27.
- March 21. Foremen of Laborers, Inspectors of Work, Class 22.
- March 22. Sub-foremen of Laborers, Class 23.
- March 28. Prison Watchmen, Class 17.
- March 29. Janitors and Engineers of Public Buildings, Class 24.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth; and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and, when filled out, should be filed in the office of the Commission.

In order to receive a notice to appear at any of the above scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

By order of the

MASSACHUSETTS CIVIL SERVICE COMMISSION,

WARREN P. DUDLEY,
Secretary.

LOCATION OF POLLING PLACES, 1910.

The following have been designated as the polling places in the voting precincts of the several wards of the City of Boston for the city election, 1910:

WARD ONE.

- Prec. 1.—E. Boston High School, Marion street.
- Prec. 2.—Tappan School, Lexington st.
- Prec. 3.—Booth, White, corner Meridan street.
- Prec. 4.—Booth, Reservoir lot, White st.
- Prec. 5.—Emerson School, Prescott st.
- Prec. 6.—James Otis School, Paris st.
- Prec. 7.—Noble School, Princeton st.
- Prec. 8.—Bishop Cheverus School, Pope and Moore sts.
- Prec. 9.—Blackinton School, Leyden st.

WARD TWO.

- Prec. 1.—Lyman School, corner Paris and Gove sts.
- Prec. 2.—Booth, Paris near Meridan st.
- Prec. 3.—Booth, London, corner Sumner street.
- Prec. 4.—Wardroom, Maverick, corner Bremen st.
- Prec. 5.—Booth, Everett, near Orleans st.
- Prec. 6.—Plummer School, Belmont sq.
- Prec. 7.—Booth, Everett, near Lamson st.
- Prec. 8.—Booth, lot, London, near Porter street.

WARD THREE.

- Prec. 1.—Copley School, Bartlett st.
- Prec. 2.—Prescott School, Elm st.
- Prec. 3.—Wardroom, corner Bunker Hill and Lexington sts.
- Prec. 4.—Booth, lot, Lexington, near Bunker Hill st.
- Prec. 5.—Frothingham School, Prospect st.
- Prec. 6.—William H. Kent School, Moulton st.

WARD FOUR.

- Prec. 1.—Booth, Cook, corner Bunker Hill street.
- Prec. 2.—Booth, Bartlett, near Sullivan street.
- Prec. 3.—Booth, Mead, near Main st.
- Prec. 4.—Wardroom, Bunker Hill Grammar School, Baldwin, corner Bunker Hill st.
- Prec. 5.—Booth, playground, Main, near Alford st.
- Prec. 6.—B. F. Tweed School, Cambridge street.

WARD FIVE.

- Prec. 1.—Booth, Wood, near Main st.
- Prec. 2.—Booth, Common, near Park st.
- Prec. 3.—Booth, Wapping, near Chelsea st.
- Prec. 4.—Wardroom, Harvard Grammar Schoolhouse, Prescott st. side.
- Prec. 5.—Booth, Union, near Main st.
- Prec. 6.—Booth, Austin, near Main st.

WARD SIX.

- Prec. 1.—Booth, lot, Battery st., next Police Station No. 8.
- Prec. 2.—Booth, Charter st., opposite Marshall pl.
- Prec. 3.—Christopher Columbus School, Tileston st.
- Prec. 4.—Booth, North sq.
- Prec. 5.—Cushman School, Parmenter st.
- Prec. 6.—Somerset School, Somerset st.
- Prec. 7.—Booth, Stillman, near Endicott street.
- Prec. 8.—North Margin St. School, North Margin st.

WARD SEVEN.

- Prec. 1.—Booth, Winthrop sq., near Franklin st.
- Prec. 2.—School building, No. 63 Warren-ton, near Tremont st.
- Prec. 3.—Booth, Nassau st., near Harrison ave.

Prec. 4.—Booth, junction Shawmut ave. and Tremont st.

Prec. 5.—Booth, Hudson, near Harvard street.

Prec. 6.—Booth, Tyler, near Kneeland st.

WARD EIGHT.

- Prec. 1.—Booth, Minot, corner Lowell st.
- Prec. 2.—Booth, South Margin, near Stan- iford st.
- Prec. 3.—Booth, Hancock, near Derne st.
- Prec. 4.—Mayhew School, Chambers st.
- Prec. 5.—Booth, Chambers, corner Ash- land st.
- Prec. 6.—Wardroom, Blossom, near Cam- bridge st.

WARD NINE.

- Prec. 1.—Booth, Cobb, near Washington street.
- Prec. 2.—Wardroom, Washington, near Dover st.
- Prec. 3.—Andrews School, Genesee st.
- Prec. 4.—Booth, lot, Waltham st., near Harrison ave.
- Prec. 5.—Franklin School, Waltham st.
- Prec. 6.—Booth, Union pk., near Shawmut ave.
- Prec. 7.—Booth, lot, Plympton st., near Harrison ave.

WARD TEN.

- Prec. 1.—City building, 23 Church, near Tremont st.
- Prec. 2.—Booth, Ferdinand, near Win- chester st.
- Prec. 3.—Booth, Chandler, near Berkeley street.
- Prec. 4.—Public Latin School, Warren ave.
- Prec. 5.—Booth, Chandler st., near Colum- bus ave.
- Prec. 6.—Rice Training School, Appleton street.
- Prec. 7.—Booth, Irvington st., near Hunt- ington ave.
- Prec. 8.—Perkins School, St. Botolph st.
- Prec. 9.—Booth, Westland ave., corner Massachusetts ave.

WARD ELEVEN.

- Prec. 1.—Bowdoin Schoolhouse, side en- trance Irving st.
- Prec. 2.—Wendell Phillips School, Phil- lips st.
- Prec. 3.—Booth, West Cedar, corner Pinck- ney st.
- Prec. 4.—Booth, West Cedar, near Chest- nut st.
- Prec. 5.—Booth, Berkeley st., near Com- monwealth ave.
- Prec. 6.—Booth, Arlington, near Newbury street.
- Prec. 7.—Wardroom, Prince Schoolhouse, Exeter, corner Newbury st.
- Prec. 8.—Booth, Fairfield st. and Com- monwealth ave.
- Prec. 9.—Booth, lot, Beacon, near Raleigh st.

WARD TWELVE.

- Prec. 1.—Booth, Worcester, near Tre- mont st.
- Prec. 2.—Booth, Rutland sq., near Colum- bus ave.
- Prec. 3.—Booth, opposite No. 75 West Canton st.
- Prec. 4.—Booth, West Concord, corner Newland st.
- Prec. 5.—Dwight School, West Springfield street.
- Prec. 6.—Booth, East Springfield, corner Washington st.
- Prec. 7.—Joshua Bates School, Harrison avenue.

WARD THIRTEEN.

- Prec. 1.—Booth, lot, West Second, near C street.
- Prec. 2.—Howe School, Fifth st.
- Prec. 3.—Booth, B, corner W. Broadway.

Prec. 4.—Booth, C, near W. Broadway.
 Prec. 5.—Booth, E, near W. Broadway.
 Prec. 6.—Norcross School, D st.
 Prec. 7.—Cyrus Alger School, W. Seventh street.
 Prec. 8.—Booth, W. Eighth, near E st.

WARD FOURTEEN.

Prec. 1.—Booth, W. Third, near Dorchester st.
 Prec. 2.—Choate Burnham School, E. Third st.
 Prec. 3.—Booth, E. Fourth, near Emerson street.
 Prec. 4.—Booth, lot, K, near E. Fifth st.
 Prec. 5.—Tuckerman School, Fourth st.
 Prec. 6.—Booth, lot, E. Sixth, near M st.
 Prec. 7.—Booth, E. Third, near L st.
 Prec. 8.—Benjamin Pope School, O st.

WARD FIFTEEN.

Prec. 1.—John Boyle O'Reilly School, Dorchester st.
 Prec. 2.—Booth, Vale, near Dorchester street.
 Prec. 3.—Booth, E, near W. Fifth st.
 Prec. 4.—Wardroom, Dorchester, corner W. Fourth st.
 Prec. 5.—Booth, Mercer, near Dorchester street.
 Prec. 6.—South Boston High School, Thomas park.
 Prec. 7.—Booth, E. Sixth, near H st.
 Prec. 8.—Booth, E. Seventh, near I st.

WARD SIXTEEN.

Prec. 1.—John A. Andrew School, Dorchester st.
 Prec. 2.—Booth, lot, Dorchester ave., opposite Harvest st.
 Prec. 3.—Roger Clap School, Harvest st.
 Prec. 4.—Booth, lot, Humphreys, opposite Holden st.
 Prec. 5.—Howard Ave. School, Howard avenue.
 Prec. 6.—Booth, Dudley st., corner Monadnock st.
 Prec. 7.—Booth, Dacia near Woodcliff st.

WARD SEVENTEEN.

Prec. 1.—Booth, Thorndike st., near Harrison ave.
 Prec. 2.—Albert Palmer School, Eustis st.
 Prec. 3.—Booth, Winslow, near Dudley st.
 Prec. 4.—Booth, lot, Vine, near Dudley st.
 Prec. 5.—Dearborn School, Ambrose st.
 Prec. 6.—Booth, Farnham st., corner Hampden st.
 Prec. 7.—Booth, Magazine, between George and Eustis sts.
 Prec. 8.—Hugh O'Brien School, Dudley street.
 Prec. 9.—Booth, lot, Moreland, near Dennis st.

WARD EIGHTEEN.

Prec. 1.—Booth, lot, Walpole, near Tremont st.
 Prec. 2.—Lenox, junction Sawyer st.

CITY OF BOSTON.

CITY ELECTION.

City Clerk's office, December 30, 1909.

In accordance with the provisions of chapter 560 of the Acts of 1907, and any amendment thereof, notice is hereby given that meetings of the male citizens of this city, qualified to vote for city officers, will be held in the several polling places designated for the purpose by the Board of Election Commissioners, on

TUESDAY, THE ELEVENTH DAY OF JANUARY, 1910,

and all such citizens will, on said date, in the several precincts in which they are entitled to vote, give in their votes for Mayor, for nine members of the City Council, and for one member of the School Committee.

They will also give in their votes "YES" or "NO" in answer to the following question: "Shall licenses be granted for the sale of intoxicating liquors in this city?"

Notice is also hereby given to such female citizens of this city as are qualified to vote for the purpose to assemble at the same time and places and give in their votes for one member of the School Committee.

The polls at said meetings will be opened at six o'clock a. m., and close at four o'clock p. m.

Attest:

JOHN T. PRESTON,
City Clerk.

(Jan. 8.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING BULKHEAD AND FURNISHING OAK FENDER PILES AT RAINSFORD ISLAND.

The Children's Institutions Trustees of Boston invite bids for repairing wooden bulkheads and furnishing oak fender piles at Rainsford Island, according to plans to be seen at the City Engineer's office, 50 City Hall, Boston, and giving bond of a surety company in \$1,000. Only bids made on forms obtained at his office, City Hall, and signed by bidder, and left at the trustees' office, 30 Tremont street, on or before 12 m., Tuesday, January 11, 1910, with a certified check for \$500, payable to and to be the property of the city if the bid is not carried out, will then and there be publicly opened and read. Duplicate bids, without check, must also be delivered to the City Auditor before the time specified for opening the bids. The trustees reserve the right to reject any or all bids and to give preference to bidders paying the trades unions' rate of wages. The bid should be inclosed in an envelope, sealed and marked "Bid for Repairing Bulkhead, etc., at Rainsford Island."

CHARLES P. PUTNAM,

Chairman.

January 7, 1910.

(Jan. 8.)

CITY OF BOSTON.

USE OF FIREWORKS.

Ordinances of 1909, Chapter 12.

In the Year One Thousand Nine Hundred and Nine.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. It shall be unlawful for any person at any time to discharge or set off anywhere within the city, or to have in his possession for such purpose, any kind of fireworks, except as hereinafter provided.

SECT. 2. In that part of the city formerly Charlestown, on Bunker Hill Day or the day celebrated as such, and anywhere within the city on Independence Day or the day celebrated as such, it shall be lawful for any person to discharge or set off between the hours of 6 a. m. and 7 p. m. any kind of fireworks and between the hours of 7 p. m. and 10 p. m. fireworks for display only, except as hereinafter provided.

SECT. 3. It shall be lawful for any person to discharge or set off on days other than those named in Section 2 fireworks for display only, provided he shall be granted a license for that purpose by the mayor and aldermen, except as hereinafter provided.

SECT. 4. It shall be unlawful for any person at any time to place upon the rail of any street or steam railroad or upon any street any cracker, cap or other explosive with the intent that it shall be discharged or exploded by the passage of any street car, steam car or other vehicle.

SECT. 5. It shall be unlawful for any person at any time to discharge or set off any kind of fireworks within three hundred yards of a hospital or building in which a patriotic concert, exhibition or exercises is in progress.

SECT. 6. It shall be unlawful for any person at any time to discharge or set off anywhere within the city, or to have in his possession for such purpose, any toy pistol, toy gun, toy cannon, detonating cane, blank cartridge, firecracker exceeding six inches in length and one inch in diameter, firecracker of any size containing any explosive more powerful than black gunpowder, torpedo exceeding three-quarters of an inch in diameter, any substance consisting of chlorate of potash and sulphur, or containing picric acid or picrates, or any device for discharging or exploding such substance.

SECT. 7. Any person violating any provision of this ordinance shall be subject to a penalty not exceeding fifty dollars for each offence.

SECT. 8. All ordinances or parts of ordinances inconsistent herewith or contrary hereto are hereby repealed.

In Board of Aldermen, November 29, 1909.

Passed. Sent down for concurrence.
FREDERICK J. BRAND,
Chairman.

In Common Council, December 16, 1909.
Concurred.

GEORGE C. McCABE,
President.

Approved December 24, 1909.

G. A. HIBBARD,
Mayor.

A true copy.
Attest: JOHN T. PRIEST,
City Clerk.

(Jan. 8.)

CITY OF BOSTON.

SALE OF FIREWORKS.

Ordinances of 1909, Chapter 13.

In the Year One thousand Nine Hundred and Nine.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. It shall be unlawful for any person, firm or corporation to sell, offer or expose for sale, to loan or give away to any retail dealer, consumer or user, located within the city, any toy pistol, toy gun, toy cannon, detonating cane, blank cartridge, firecracker exceeding six inches in length and one inch in diameter, firecracker of any size containing any explosive more powerful than black gunpowder, torpedo exceeding three-quarters of an inch in diameter, any substance consisting of chlorate of potash and sulphur or containing picric acid or picrates, or any device for discharging or exploding such substance.

SECT. 2. Any person, firm or corporation violating this ordinance shall be subject to a penalty not exceeding \$50 for each offence, and a separate offence shall be regarded as committed for every day during which such person, firm or corporation shall continue such violation.

In Board of Aldermen, November 29, 1909.

Passed. Sent down for concurrence.
FREDERICK J. BRAND,
Chairman.

In Common Council, December 16, 1909.
Concurred.

GEORGE C. McCABE,
President.

Approved December 24, 1909.

G. A. HIBBARD,
Mayor.

A true copy.
Attest: JOHN T. PRIEST,
City Clerk.

CITY OF BOSTON.

PROPOSALS FOR MILK.

The trustees will receive sealed proposals for a supply of milk for the Hospital Department between February 1, 1910, and May 1, 1910. Proposals for the total supply or for part of the supply, but not less than 400 quarts a day, will be considered. The milk supply is to include delivery at the hospital proper, 818 Harrison avenue, the South Department, 745 Massachusetts avenue, the Relief Station, Haymarket square, the Convalescent Home, 2150 Dorchester avenue, Dorchester, and the East Boston Relief Station, 14 Porter street, East Boston. Each proposal must be accompanied by a properly certified check for one hundred dollars (\$100), and a bond will be required of an approved surety company not exceeding two thousand dollars (\$2,000), as fixed by the trustees, for the faithful performance of the contract. The quantity of milk desired for all departments will vary from 1,148 to 1,488 quarts per day, more or less, according to the requirements of the season and the number of patients. Each receptacle must be clean and particularly free from dents, and have the name of the contractor, the dairy from which the milk comes and "The Boston City Hospital" stamped or otherwise indelibly marked thereon. The milk is to be transported in coolers with a capacity of from twenty to forty quarts. These coolers are to be used exclusively for the Boston City Hospital. The contractor will be required to furnish to the trustees a list of the dairies from which the milk supply for the hospital will be taken. The milk from each dairy must be properly identified. In each case the product and the premises will be subject to the approval of an inspector appointed by the trustees. The contract calls for pure dairy milk, neither skimmed, topped nor watered, and which, when subjected to analysis, shall be shown to have none of its natural constituents removed and nothing added thereto, and be of the quality required by the laws of the Commonwealth. Milk must be delivered at the hospital before 12 o'clock noon on each day, and must not be more than twenty-four hours old. The bid of a proposer who does not receive an invoice of milk on Sunday will not be considered. Price to be per quart. The contractor is to be responsible for the cleanliness of the coolers. Said proposals should be addressed "The Boston City Hospital, Proposals for Milk Supply," and left at the hospital not later than January 13, 1910, at 12 o'clock noon, at which time and place they will be publicly opened. A duplicate copy of the proposal must be filed with the City Auditor on or before the date given above for receiving proposals. The right is reserved to reject any and all proposals. By order of the trustees.

(Jan. 8.) JOHN H. McCOLLOM,
Superintendent.

CITY OF BOSTON.

PROPOSALS FOR BUILDING SANITARY BUILDING.

Proposals on blanks obtained on and after Wednesday, January 12, 1910, at the Engineer's office, Franklin Park, for building a sanitary building on Billings Field, and giving bonds of a surety company therefor in \$2,000, signed by bidder and left before 3 o'clock p. m. of January 21, 1910, at the Park Commissioners' office, 64 Pemberton square, Boston, with a certified check for \$300, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals and to give preference to bidders paying the trades unions' rate of wages.

(Jan. 8.) ROBERT S. PEABODY,
JAMES M. PHINDERGAST,
DANIEL H. COAKLEY,
Commissioners.

CITY OF BOSTON.

PROPOSALS FOR BUILDING GATEWAYS AND GATES.

The Park Commissioners of Boston invite proposals for building gateways and gates on Ward 17 Playground, and giving bond of a surety company therefor in \$500. Only proposals on blanks obtained on and after January 14, 1910, at the engineer's office, Franklin Park, filled out and signed by bidder and left before 3 o'clock p. m. of January 21, 1910, at the office of the commissioners, 64 Pemberton square, Boston, with a certified check for \$200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without the check, must be deposited with the City Auditor previous to the time named for opening the bids. The commissioners reserve the right to reject any or all proposals and to give preference to bidders paying the trades unions' rate of wages.

(Jan. 8.) ROBERT S. PEABODY,
JAMES M. PHINDERGAST,
DANIEL H. COAKLEY,
Commissioners.

CITY OF BOSTON.

PROPOSALS FOR TROLLEY SYSTEM, OR OTHER SUITABLE SYSTEM, FOR CARRYING COAL, LONG ISLAND, BOSTON HARBOR.

The Boston Infirmary Trustees invite proposals for construction and installation of a trolley system, or other suitable system, for transporting coal from the coal sheds to the power house of the Almshouse and Hospital on Long Island, Boston Harbor, and furnishing bond of a surety company satisfactory to the Trustees, proposals to be accompanied by plans and specifications of the system on which the bid is made. Plans showing the grade, and the construction of the coal shed and wharf, will be provided upon application at the office of the Trustees, 28 Court square, Room 3. The proposal should be enclosed in a sealed envelope marked "Proposal for Coal Carrying System, Long Island," and left at the above-named office with certified check for \$100, payable to and to be the property of the city if the proposal is not carried out, before 12 m. on Wednesday, March 2, 1910, at which time and place the bids will be publicly opened and read. Duplicate proposal, without check, should be filed with the City Auditor previous to the time named for opening the bids. The Trustees reserve the right to reject any or all bids.

EDWARD M. GALLAGHER,
Chairman.

(Jan. 15-22-Feb. 5-19.)

CITY OF BOSTON.

PROPOSALS FOR BUILDING TOLLGATE WAY FOOTBRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for building Tollgate Way Footbridge, West Roxbury, and giving bond therefor of a surety company approved by the superintendent in the sum of two thousand dollars (\$2,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be enclosed in an envelope, sealed, marked "Bid for Tollgate Way Footbridge" and left at the said office of the Superintendent of Streets before 12 m. on Monday, January 17, 1910, with certified check for one thousand dollars (\$1,000), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals.

GUY C. EMERSON,
Superintendent of Streets.
Boston, December 31, 1909. (Jan. 8.)

CITY OF BOSTON.

NOTICE TO PHYSICIANS, MIDWIVES AND PARENTS.

Physicians, midwives and parents can obtain blanks for return of births on application at this office, or they will be mailed on request.

REVISED LAWS, CHAPTER 29.
(Extracts from Sections 1, 3 and 6.)

SECTION 1. Each city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

SECT. 3. Physicians and midwives shall, on or before the fifth day of each month, report to the clerk of each city or town a correct list of all children born therein during the preceding month at whose birth they were present. . . . The fee of the physician or midwife shall be 25 cents for each birth so reported.

SECT. 6. Parents, within forty days after the birth of a child, shall cause notice thereof to be given to the clerk of the city or town in which such child is born.

All births in Boston to be reported to this office.

E. W. MCGLENEN, Registrar.
(Jan. 8-15.)

CITY OF BOSTON.

PROPOSAL FOR BUILDING FIRE BOAT.

Proposals for building a fire boat according to plans and specifications which can be obtained at this office, will be opened on Tuesday, January 18, 1910, at 12 o'clock noon, at the office of the Fire Commissioner on Bristol street. Bids should be marked "Proposal for Building Fire Boat," and made in duplicate, one forwarded to the City Auditor at City Hall previous to the time mentioned for opening bids, the other containing a certified check of \$2,000 to the office. The successful bidder will be required to furnish a bond for \$20,000. The right is reserved to reject any and all bids.

SAMUEL D. PARKER,
Fire Commissioner.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, JANUARY 15, 1910.

No. 3.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week, to insure its publication in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to the watering, cleaning, lighting, and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Aldermen, next meeting, January 17.
Common Council meets January 20.
School Committee meets January 17, 7.30 p. m.

Rapid Transit Commission. Stated meetings of the Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Harbor and Land Commissioners. Stated meetings of the Commission are held Mondays and Fridays, 2 p. m.; Wednesdays, 11 a. m.

A hearing will be held in the office of the Board of Health on Thursday, January 27, 1910, at 11 a. m., on the petition of Gordon Dexter for leave to enlarge and occupy a brick building for two additional horses, making a total of five horses, at rear 379 Dorchester avenue, Ward 15.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record*, by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

FIRE DEPARTMENT.

Advertises for proposals for building a fireboat. Proposal forms and plans to be had at office of Fire Commissioner on Bristol street. Bids to be filed at office of same.

Bids close Tuesday, January 18, 12 m.

HOSPITAL DEPARTMENT.

Advertises for proposals for milk for the department. Bids to be filed at the Boston City Hospital.

Bids close Thursday, January 20, 12 m.

INFIRMARY DEPARTMENT.

Advertises for proposals for furnishing about 150,000 pounds of beef for almshouse and hospital, Long Island. Proposal forms to be had at office of department, 28 Court square, Room 3. Bids to be filed at office of same.

Bids close Thursday, January 20, 12 m.

Advertises for proposals for construction of a trolley system for the transportation of coal from the coal sheds to the power house of the almshouse on Long Island. Proposal forms to be had at office of the Trustees, 28 Court square. Bids to be filed at office of same.

Bids close Wednesday, March 2, 12 m.

PARK DEPARTMENT.

Advertises for proposals for building gateways and gates on Ward 17 Playground. Proposal forms to be had at the office of the engineer, Franklin Park. Bids to be filed at office of the commissioners, 64 Pemberton square.

Bids close Friday, January 21, 3 p. m.

Advertises for proposals for building a sanitary building on Billings Field. Proposal forms to be had at the office of the engineer, Franklin Park. Bids to be filed at the office of the commissioners, 64 Pemberton square.

Bids close Friday, January 21, 3 p. m.

PENAL INSTITUTIONS DEPARTMENT.

Advertises for proposals for supplying beef for the House of Correction, Deer Island. Proposal forms to be had at office of commissioner, 32 Tremont street. Bids to be filed at office of same.

Bids close Friday, January 21, 12 m.

Advertises for proposals for supplying mutton, lamb and veal for the House of Correction, Deer Island. Proposal forms to be had at office of commissioner, 32 Tremont street. Bids to be filed at office of same.

Bids close Friday, January 21, 12 m.

Advertises for proposals for supplying fresh fish for House of Correction, Deer Island. Proposal forms to be had at office of commissioner, 32 Tremont street. Bids to be filed at office of same.

Bids close Friday, January 21, 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for building elementary school, Winthrop-Brimmer district. Proposal forms to be had at office of the commissioner, 120 Boylston street. Bids to be filed at office of same.

Bids close Tuesday, January 18, 12 m.

STREET DEPARTMENT.

Advertises for proposals for building a tollgate way footbridge at West Roxbury. Proposal forms to be had at office of Superintendent of Streets. Bids to be filed at office of same.

Bids close Monday, January 17, 12 m.

Advertises for proposals for teaming edgestones and flagging. Contractor to furnish his own proposal. Bids to be filed at office of Superintendent of Streets.

Bids close Monday, January 24, 12 m.

Advertises for proposals for teaming coal from ferry coal pockets to ferryboats. Contractor to furnish his own proposal. Bids to be filed at office of Superintendent of Streets.

Bids close Monday, January 24, 12 m.

Advertises for proposals for furnishing teams. Contractor to furnish his own proposal. Bids to be filed at office of Superintendent of Streets.

Bids close Monday, January 24, 12 m.

Advertises for proposals for cleaning catch-basins. Proposal forms to be had at office of Superintendent of Streets. Bids to be filed at office of same.

Bids close Tuesday, January 25, 12 m.

Advertises for proposals for repairing ferryboat "General Sumner." Proposal forms to be had at office of Superintendent of Streets. Bids to be filed at office of same.

Bids close Tuesday, January 25, 12 m.

Advertises for proposals for the privilege of placing weighing and vending machines in ferry headhouses. Bidder to furnish his own proposal. Bids to be filed at office of Superintendent of Streets.

Bids close Tuesday, January 25, 12 m.

Advertises for proposals for repairing asphalt pavements. Proposal forms to be had at office of Superintendent of Streets. Bids to be filed at office of same.

Bids close Tuesday, January 25, 12 m.

Advertises for proposals for news stand privileges at East Boston ferry headhouses. Bidder to furnish his own proposal. Bids to be filed at office of Superintendent of Streets.

Bids close Tuesday, January 25, 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for hay, grain and straw. Proposal forms to be had at office of Superintendent of Supplies, Room 826, Tremont Building. Bids to be filed at office of same.

Bids close Friday, January 28, 12 m.

Advertises for proposals for coal for public buildings and the several departments not otherwise provided for. Proposal forms to be had at office of department, 826 Tremont Building. Bids to be filed at office of same.

Bids close Monday, January 31, 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending January 13, 1910:

WATER DEPARTMENT.

Increase in pay of Joseph Dunbar, stonecutter, from \$2.50 to \$2.75 per day, to take effect on Friday, January 14, 1910.

CONTRACTS AWARDED.

The following contracts for work and supplies have been awarded. Those awarded without public advertisement are specially indicated. Week ending January 13, 1910:

INFIRMARY DEPARTMENT.

Contract for furnishing sugar to the Long Island Almshouse and Hospital and the Charlestown Almshouse, awarded to the Revere Sugar Refining Company, \$5.05 less 20 cents per 100 pounds.

PERMISSIONS GRANTED.

While the aldermen have certain powers in the granting of licenses and permission to store gasoline and project bay windows, etc., the approval of the Mayor is in all cases necessary to make such permits legal.

The Mayor has during the week approved the following request of this general nature:

FOR USE OF FANEUIL HALL.

Francis M. Ducey, Tuesday, January 11, 1910, evening.

PERMISSION TO CONSTRUCT.

STREET DEPARTMENT.

Permission has been granted to the Superintendent of Streets by the Mayor for the following work in excess of \$1,000 in cost with the department force without competition: A sanitary sewer of 10-inch earthen pipe in Mt. Hope street, between Canterbury street and Mt. Hope Cemetery, West Roxbury, the estimated amount being \$1,942.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary.

"(Signed) GUY C. EMERSON,
"Superintendent of Streets."

INAUGURAL ADDRESSES.

REPRINTS OF ADDRESSES DELIVERED BY THE MAYORS OF BOSTON AT THEIR INAUGURATION FROM THE INCORPORATION OF THE CITY.

William H. Whittemore, formerly City Registrar, and a man who delighted especially in the preservation of historical data relating to the city, started in 1890 a compilation of the inaugural addresses of the mayors of Boston. Up to that time they were available only in odd and scattered municipal documents, kept with indifferent care, or in some instances in privately printed documents.

In 1894 he produced the first volume which contained the addresses from Phillips to Bigelow. In 1896 he published a second volume, with the addresses from Chapman to Norcross. The two volumes make not only substantial but interesting reading for all citizens. Because of the fact that the volumes in question are out of print, it is proposed to reprint the addresses in probably weekly installments in the *City Record*.

Mayor Quincy's second inaugural address, which was delivered May 1, 1825, was as follows:

No. 4.

Gentlemen of the City Council:

I have again to acknowledge my grateful sense of the confidence of my fellow-citizens, expressed by their suffrages; and

to renew assurances of my endeavors to evince my gratitude, by increased zeal, activity and devotion to their interests.

Whatever success has attended the administration of city affairs is chiefly to be attributed to those excellent and faithful men who for the two years past have composed the Board of Aldermen. It is impossible for me to speak too highly of their disinterested and laborious services, or to separate from them, in official relations, without expressing my personal obligations for the uniform respect, confidence and urbanity with which all their proceedings have been characterized, both as it respects myself and each other. Their persevering and firm pursuit of the interests of the city, often under circumstances of great delicacy and difficulty, entitle them to be ranked among its distinguished benefactors.

Nor ought I to permit the occasion to pass without paying a similar tribute to the labors and fidelity of the last Common Council.

It will be expected, perhaps, that on this occasion I should speak of the measures of the last year, and of the success which has attended them; such as the establishment of an auditor's depart-

ment; the new organization of that of health; the connecting the system of scavengers with that of the House of Industry; the farther extension of Faneuil Hall Market, and others of a less obtrusive character. All these have been conducted, as far as I have been informed, generally to the satisfaction of our fellow-citizens, and I know that the detail of results would still further justify that satisfaction.

I prefer, however, to occupy the present moment with inquiries concerning future duty, rather than with illustrations of past success. The charter of the city has made it incumbent on its executive officer to inform himself on all subjects connected with its prosperity and happiness, and to recommend measures for the advancement of both to the City Council. This injunction it has sanctioned with the solemnity of an oath. In obedience to these obligations, thus sacredly enforced, I hasten to a topic, deeply interesting to the prosperity, safety and character of this city, which events and experience press upon the mind with an intense and absorbing interest. I do this the rather because the subject is of high responsibility, touches some interests and more prejudices, and is also of a nature easily to be mistaken and misrepresented. This subject, therefore, is one on which it is the incumbent duty of him who is intrusted with the chief office in this city to form and to express a decided opinion, and to leave no doubt concerning his own path in relation to it, and none concerning his opinion of the duty of others.

What though the development of this opinion may effect that evanescent splendor which is called popularity? Of what value is any popularity which will not bear the hazard of fulfilled duty? Precious as is the possession of the confidence of fellow-citizens, yet even this is more worthless than "the light dust of the balance" in comparison with the infinite consequence of possessing the consciousness of deserving it.

The topic to which I allude relates to the effect, under a city organization, of the existence of independent executive boards, and the consequences of the particular form of constituting those which exist in this city.

The existence of such boards is an anomaly under a city organization; is inconsistent with the theory of, or any known practice under, such a form of government; and seems also incompatible with the attainment of the objects which the people propose to themselves in establishing it.

In every other city the representative body chosen by the people as their city council has the control of every relation of a municipal character, whether it affect economy, protection or general superintendence. If, in any case, it act through the instrumentality of boards, the members of such boards are selected by it, and responsible to it, in like manner as the members of the City Council are, in their turn, responsible for such selection, as well as for all their other acts, to the people.

In all this there is a manifest simplicity calculated to produce harmony and energy. The people who look only to their City Council know who to blame if there be fault. The City Council, on the other hand, when any good is to be effected, is not embarrassed by fears of trenching upon rival authorities, of awakening jealousies or of being troubled with contests about jurisdictions.

The objects a people propose to themselves in forming a city government are efficiency and responsibility. Now, can any have a more obvious tendency to

obstruct or defeat both than an organization which severs from each other naturally allied portions of municipal power and divides them out by very indistinct limits among independent boards? Can anything be better calculated to create discord, jealousies and controversies in a community?

The form of constituting these boards, under our city charter, is still more exceptionable; and, what is very extraordinary, is just as inconsistent with the practice of the ancient town government as it is with the theory of city organization.

Under the town government all the boards, of Firewards, Overseers of the Poor and School Committee, were chosen by the votes of all the inhabitants, in a general ticket. The theory and practice of the town government was that those officers in whose character and adaptation to their office all the citizens had an interest should be chosen by the major voice of all the citizens.

Two consequences obviously flowed from this mode of election: 1st. A concurrence of a majority of all the citizens being requisite for a choice, the candidates were, for the most part, selected from men of high, general character, and from no local or sectional considerations; whereby a very fair proportion of the general talent and respectability of the town was necessarily infused into those boards. 2d. The form of election being by general ticket, previous consultation was had, not only in relation to the adaptation of the candidate for the office, but also of the adaptation of candidates to one another; so that the board might be composed of men agreeable to each other, and thus capable by consentaneousness of views and feelings to produce a similar consentaneousness of system and action.

The necessary effect of this form of election was to enlarge the sphere out of which candidates could be obtained, men being always more willing to undertake an office of a laborious and responsible character when they know previously to their election with whom they are likely to be associated.

These consequences are obvious, and were among the causes of the long and happy organization of those boards under the town government.

These advantages are in a great measure, and some of them wholly, lost under the provisions of our city charter.

Instead of being chosen by all the citizens, by a general ticket, the members are divided among the wards, each choosing its proportion. The fundamental principle of the ancient town government, — that officers in whose character and adaptation all the citizens had an interest should be chosen by the major voice of all, — has thus been abandoned. All the inhabitants of the city have consented to barter the common right they formerly enjoyed, of having a voice in choosing the whole, for the sake of an exclusive right, in wards, of choosing a twelfth part. And the power the whole people of the city once possessed of attaining a certain result, conformably to the general will, has thus been exchanged for the chance of attaining an uncertain result of twelve particular wills, coexisting in that number of wards.

I speak of these consequences with the more freedom because I know they are felt and acknowledged by very many of our most intelligent and patriotic citizens, and because I have been made officially acquainted with the fact that the effect produced by the present mode of electing these officers has been, in many instances, the openly avowed reason of declining to

become candidates by some, and of the resignation of these offices by others.

The nature and extent of this evil is not to be appreciated by any estimate, since every form of organization which tends to render wise, faithful and business men unwilling to serve a community is productive of mischiefs altogether incalculable.

Touching the remedy for these evils the obligations of the city charter compel me to speak distinctly and unequivocally.

Under a city organization there is no mode of selecting such boards, consistent with harmony, efficiency and responsibility, except their election by the City Council.

Every other mode establishes or gives to such board a color to assume the character of independence; and wherever this quality exists, or is assumed, jealousies, rivalries, claims of jurisdiction and contests for authority between it and the City Council are inevitable.

The station I have had the honor for the last two years to hold has compelled me to witness past embarrassments, and to realize those which are to come, in consequence of this unprecedented organization of city power. Between the City Council, the Overseers of the Poor and the School Committee very serious and difficult questions have already arisen, and are yet unsettled. Nor is it possible, in the nature of things, that such controversies should not arise and be productive of bitterness and discord, so long as in the great interests of protection against fire, of education and of support of the poor the right to manage and expend money is claimed by one board, and the right to regulate, appropriate and call to account is vested in another.

As I have no question concerning the remedy, so also I have none concerning the mode in which it ought to be sought. 1st. By an arrangement of the details by the City Council relative to each board, conformably to the subject matter of its power, predicated on the principle of election by that body. 2d. By an application to the Legislature for its sanction of those details and of that principle. 3d. By an ultimate reference of the whole, for the approbation, by general ballot, of our fellow-citizens.

Let it not be objected to such an attempt that it will be construed into "a grasp after more power" by the City Council, and be opposed from jealousy or prejudice. Those who thus object do but little justice to the thoughtful and prescient character of the citizens of this metropolis, at all times as distinguished for justly appreciating the necessities of legitimate power and for a willingness to yield whatever is plainly requisite for a vigorous and responsible action of constituted author-

ities as for a keen perception and quick resistance to tyrannical control.

Grant, however, the attempt should fail, what then? The City Council stand before the public and before heaven with the proud consciousness of fulfilled duty, discharged from all accountability for the inconveniences and embarrassments which cannot fail to flow from the present organization so long as it exists.

For myself, whatever may be the event, I shall have the satisfaction of that internal assurance, which is better than all human approbation, that none of the evils which may occur can be attributed either to the want of anxious precaution or to the shrinking from just responsibility in the executive officer. Nor have I any apprehension that these remarks will be construed into any reflection upon the gentlemen who now hold or who recently have held seats in either of those boards. Many of them are among the most intelligent and patriotic of our fellow-citizens. Some of them I know concur in the general opinions above expressed. The subject has reference to the necessary and obvious effects of a particular organization of our city government, of which I am bound to speak, according to the state of my convictions, with a plainness authorized by the charter and required by the oath it has imposed. These obligations fulfilled, I leave everything else to the candor, the intelligence and virtue of my fellow-citizens, in which I repose an entire confidence.

Gentlemen of the City Council:

The events of the past years of our city organization are full of satisfaction and encouragement. Between the branches and between the members of the City Council there has uniformly existed a harmonious, urbane and conciliatory intercourse. The interests of the city have been studied and pursued with an exclusive eye and a firm, unhesitating step.

Neither the spirit of selfishness nor the spirit of party has ever dared to mingle its unhallowed voice in the debates of either branch of the City Council. These are proud recollections, as it respects the past, and happy auguries, as it respects the future.

May they continue and be multiplied! May the members of the present like those of former City Councils close their labors with the approbation and applause of the multitude of their brethren, as those who have sought with singleness, sincerity and success the interest and honor of the city, the improvement of its accommodations, the enlargement of its resources and the advancement of all the means which constitute a prosperous, happy and virtuous community.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH:

1910.
February 7. Civil Engineers, Class 27.
February 15. Metropolitan Park Policemen, Class 16.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON:

1910.
February 8. Civil Engineers, Class 27.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.
March 29. Janitors and Engineers of Public Buildings, Class 24.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth; and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and, when filled out, should be filed in the office of the Commission.

In order to receive a notice to appear at any of the above scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

By order of the

MASSACHUSETTS CIVIL SERVICE COMMISSION,
WARREN P. DUDLEY,
Secretary.

CITY OF BOSTON.

Area of city, 42.65 square miles, or 27,300 acres.
Miles of streets, 511.60.
Number of buildings, including tenement houses, 87,327.
Tenement houses, including four or more families, 7,000.
Public parks and playgrounds, 2,507.15 acres.

CITY OF BOSTON.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 12 o'clock Friday, January 28, for the hay, grain and straw needed in the different departments for February, 1910. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1, straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The oats must be No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate must be filed, without the check, with the City Auditor. The successful bidder must deposit a certified check for one-quarter the amount of the contract as security that the terms of the contract will be carried out. The proposals will be publicly opened and read on Friday, January 28, at 12 m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
(Jan. 15-22.) Superintendent of Supplies.

CITY OF BOSTON.

PROPOSALS FOR MILK.

The trustees will receive sealed proposals for a supply of milk for the Hospital Department between February 1, 1910, and May 1, 1910. Proposals for the total supply or for part of the supply, but not less than 400 quarts a day, will be considered. The milk supply is to include delivery at the hospital proper, 818 Harrison avenue, the South Department, 745 Massachusetts avenue, the Relief Station, Haymarket square, the Convalescent Home, 2150 Dorchester avenue, Dorchester, and the East Boston Relief Station, 14 Porter street, East Boston. Each proposal must be accompanied by a properly certified check for one hundred dollars (\$100), and a bond will be required of an approved surety company not exceeding two thousand dollars (\$2,000), as fixed by the trustees, for the faithful performance of the contract. The quantity of milk desired for all departments will vary from 1,148 to 1,488 quarts per day, more or less, according to the requirements of the season and the number of patients. Each receptacle must be clean and particularly free from dents, and have the name of the contractor, the dairy from which the milk comes and "The Boston City Hospital" stamped or otherwise indelibly marked thereon. The milk is to be transported in coolers with a capacity of from twenty to forty quarts. These coolers are to be used exclusively for the Boston City Hospital. The contractor will be required to furnish to the trustees a list of the dairies from which the milk supply for the hospital will be taken. The milk from each dairy must be properly identified. In each case the product and the premises will be subject to the approval of an inspector appointed by the trustees. The contract calls for pure dairy milk, neither skimmed, topped nor watered, and which, when subjected to analysis, shall be shown to have none of its natural constituents removed and nothing added thereto, and be of the quality required by the laws of the Commonwealth. Milk must be delivered at the hospital before 12 o'clock noon on each day, and must not be more than twenty-four hours old. The bid of a proposer who does not receive an invoice of milk on Sunday will not be considered. Price to be per quart. The contractor is to be responsible for the cleanliness of the coolers. Said proposals should be addressed "The Boston City Hospital, Proposals for Milk Supply," and left at the hospital not later than January 20, 1910, at 12 o'clock noon, at which time and place they will be publicly opened. A duplicate copy of the proposal must be filed with the City Auditor on or before the date given above for receiving proposals. The right is reserved to reject any and all proposals. By order of the trustees.

JOHN H. McCOLLUM,
(Jan. 15.) Superintendent.

PROPOSALS FOR TEAMING EDGESTONES AND FLAGGING.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for teaming edgestones and flagging from the South End paving yard, 636 Albany street, between February 1, 1910, and January 31, 1911, and delivering same on any street within the city limits when ordered to do so by the superintendent. The successful bidder will furnish a bond of a surety company approved by the superintendent. The contractor will furnish his own proposal and leave same at said office before 12 o'clock m. of Monday, January 24, 1910, with a certified check for \$100, payable to and to be the property of the city if the proposal is not carried out; the proposals will, at said hour and place, be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals. For further information regarding these proposals call at the office of the superintendent. The proposal should be inclosed in an envelope, sealed and marked "Proposal for Teaming Edgestones and Flagging."

GUY C. EMERSON,
Superintendent of Streets
Boston, January 14, 1910. (Jan. 15.)

PROPOSAL FOR BUILDING FIRE BOAT.

Proposals for building a fire boat according to plans and specifications which can be obtained at this office, will be opened on Tuesday, January 18, 1910, at 12 o'clock noon, at the office of the Fire Commissioner on Bristol street. Bids should be marked "Proposal for Building Fire Boat," and made in duplicate, one forwarded to the City Auditor at City Hall previous to the time mentioned for opening bids, the other containing a certified check of \$2,000 to this office. The successful bidder will be required to furnish a bond for \$20,000. The right is reserved to reject any and all bids.

SAMUEL D. PARKER,
(Jan. 15.) Fire Commissioner.

CITY OF BOSTON.

PROPOSALS FOR TROLLEY SYSTEM, OR OTHER SUITABLE SYSTEM, FOR CARRYING COAL, LONG ISLAND, BOSTON HARBOR.

The Boston Infirmity Trustees invite proposals for construction and installation of a trolley system, or other suitable system, for transporting coal from the coal sheds to the power house of the Almshouse and Hospital on Long Island, Boston Harbor, and furnishing bond of a surety company satisfactory to the Trustees, proposals to be accompanied by plans and specifications of the system on which the bid is made. Plans showing the grade, and the construction of the coal shed and wharf, will be provided upon application at the office of the Trustees, 28 Court square, Room 3. The proposal should be enclosed in a sealed envelope marked "Proposal for Coal Carrying System, Long Island," and left at the above-named office with certified check for \$100, payable to and to be the property of the city if the proposal is not carried out, before 12 m. on Wednesday, March 2, 1910, at which time and place the bids will be publicly opened and read. Duplicate proposal, without check, should be filed with the City Auditor previous to the time named for opening the bids. The Trustees reserve the right to reject any or all bids.

EDWARD M. GALLAGHER,
Chairman.

(Jan. 15-22-Feb. 5-19.)

PROPOSALS FOR BUILDING TOLLGATE WAY FOOTBRIDGE.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for building Tollgate Way Footbridge, West Roxbury, and giving bond therefor of a surety company approved by the superintendent in the sum of two thousand dollars (\$2,000), to secure the due performance of the contract and the full protection of the city. Forms of bids may be obtained at the said office of the Superintendent of Streets. Each bid should be inclosed in an envelope, sealed, marked "Bid for Tollgate Way Footbridge" and left at the said office of the Superintendent of Streets before 12 m. on Monday, January 17, 1910, with certified check for one thousand dollars (\$1,000), payable to and to become the property of the city if the bid after acceptance is not carried out. The bids will then and there be publicly opened and read. Bids must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals.

GUY C. EMERSON,
Superintendent of Streets.
Boston, December 31, 1909. (Jan. 15.)

NOTICE TO PHYSICIANS, MIDWIVES AND PARENTS.

Physicians, midwives and parents can obtain blanks for return of births on application at this office, or they will be mailed on request.

REVISED LAWS, CHAPTER 29.

(Extracts from Sections 1, 3 and 6.)

SECTION 1. Each city and town clerk shall receive or obtain and record . . . facts relative to the births . . . in his city or town.

SECTION 3. Physicians and midwives shall, on or before the fifth day of each month, report to the clerk of each city or town a correct list of all children born therein during the preceding month at whose birth they were present. The fee of the physician or midwife shall be 25 cents for each birth so reported.

SECTION 6. Parents, within forty days after the birth of a child, shall cause notice thereof to be given to the clerk of the city or town in which such child is born.

All births in Boston to be reported to this office.

E. W. MCGLENNEN, Registrar.
(Jan. 15.)

PROPOSALS FOR NEWS STAND PRIVILEGES, FERRYHOUSES.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites bids for the news stand privileges at the East Boston Ferry headhouses, between February 1, 1910, and January 31, 1911. The bidder will furnish his own proposal and leave same at said office before 12 o'clock m. of Tuesday, January 25, 1910, with a certified check for \$100, payable to and to be the property of the city if the proposal is not carried out. The proposal will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals. The proposals should be inclosed in an envelope, sealed and marked "Proposal for News Stand Privileges."

GUY C. EMERSON,
Superintendent of Streets.
Boston, January 14, 1910. (Jan. 15.)

CITY OF BOSTON.

PROPOSALS FOR WEIGHING AND VENDING MACHINES IN FERRYBOATS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites bids for the privilege of placing weighing and vending machines in the four headhouses of the Ferry Division, between February 1, 1910, and January 31, 1911, and giving a bond approved by the superintendent. The bidder will furnish his own proposal and submit a price for each machine and the number to be placed in each headhouse, and leave same at said office before 12 o'clock m. of Tuesday, January 25, 1910, with a certified check for \$100, payable to and to be the property of the city if the proposal is not carried out. The bids will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to reject any or all proposals. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Weighing and Vending Machines."

GUY C. EMERSON,
Superintendent of Streets.
Boston, January 14, 1910. (Jan. 15.)

CITY OF BOSTON.

PROPOSALS FOR MUTTON, LAMB AND VEAL.

Sealed proposals are invited to supply the House of Correction, Deer Island, with mutton, lamb and veal for the year ending January 31, 1911. Only bids on forms obtained at the office of the Penal Institutions Commissioner, at 32 Tremont street, signed by bidder, and there left before 12 m. of Friday January 21, 1910, with a certified check for \$500, payable to and to be the property of the city if the bid is accepted and is not carried out, will then and there be publicly opened and read. The official in charge reserves the right to reject any and all bids. The bid should be inclosed in an envelope, sealed, and marked "Bid for Mutton, Lamb and Veal." The contractor will be required to furnish a bond for one thousand (1,000) dollars in a surety company for the faithful carrying out of contract. The bids must be made in duplicate, the duplicate, without check, deposited with City Auditor previous to time for opening bids.

GUY C. EMERSON,
Official in Charge.
(Jan. 15.)

CITY OF BOSTON.

PROPOSALS FOR TEAMING COAL TO FERRYBOATS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for teaming coal from coal pockets at the North or South Ferry and delivering same to ferryboats at North or South Ferry, East Boston side, between February 1, 1910, and January 31, 1911. The contractor shall also remove the ashes and give a bond of a surety company approved by the superintendent. He must also furnish his own proposal and leave same at said office before 12 o'clock m. of Monday, January 24, 1910, with a certified check for \$100, payable to and to be the property of the city if the proposal is not carried out; the proposal will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any and all proposals. For further information regarding these proposals call at the office of the superintendent. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Teaming Coal."

GUY C. EMERSON,
Superintendent of Streets.
Boston, January 14, 1910. (Jan. 15.)

CITY OF BOSTON.

PROPOSALS FOR BEEF.

The Boston Infirmary Department of Boston invites proposals for furnishing about 150,000 pounds of beef for the Boston Almshouse and Hospital, Long Island, Boston Harbor, and giving bond of a surety company for \$5,000. Only proposals obtained at the office of the department, 28 Court square, Room 3, signed by bidder, and left before 12 m. on Thursday, January 20, at said office, with certified check for \$500, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. Duplicate proposal, without check, should be filed with the City Auditor previous to the time named for opening the bids. The trustees reserve the right to reject any or all bids.

EDWARD M. GALLAGHER,
Chairman.
(Jan. 15.)

CITY OF BOSTON.

PROPOSALS FOR COAL.

Contractors are invited to furnish proposals for a supply of whatever hard white ash, broken, egg and stove coal, and also whatever bituminous coal for steam purposes, that may be required for the public buildings, and for the several departments of the City of Boston not otherwise provided for, from February 1, 1910, to May 1, 1910. A certified check for \$1,000, payable to and to be the property of the City of Boston if the proposal is not carried out must be filed with the proposal. A satisfactory bond in the sum stated in the contract will also be required. The bidders must use the form of proposal to be obtained at the office of the Supply Department, 826 Tremont Building, fill out and sign the same, and leave it at the office of the Superintendent of Supplies before 12 o'clock m. of Monday, January 31, 1910, at which time and place said proposals will be publicly opened and read. The proposals and check should be inclosed in an envelope indorsed "Proposals for Coal." The undersigned reserves the right to reject any and all proposals and give preference to bidders paying the trades unions' rate of wages.

J. EDWARD MULLEN,
Superintendent of Supplies.
(Jan. 15-22-29.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING DOUBLE SCREW FERRYBOAT "GENERAL SUMNER."

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing double screw ferryboat "General Sumner," and giving bond therefor of a surety company approved by the superintendent, in the sum of five thousand (5,000) dollars. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Tuesday, January 25, 1910, with a certified check for \$1,000, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor previous to the time named for opening bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Repairing Ferryboat General Sumner."

PROPOSALS FOR BEEF.

Sealed proposals are invited to supply the House of Correction, Deer Island, with beef for the year ending January 31, 1911. Only bids on forms obtained at the office of the Penal Institutions Commissioner, at 32 Tremont street, signed by bidder, and there left before 12 m. of Friday, January 21, 1910, with a certified check for \$1,000, payable to and to be the property of the city if the bid is accepted and is not carried out, will then and there be publicly opened and read. The official in charge reserves the right to reject any and all bids. The bid should be inclosed in an envelope, sealed and marked "Bid for Beef." The contractor will be required to furnish a bond for fifteen hundred (1,500) dollars in a surety company for the faithful carrying out of contract. The bids must be made in duplicate, the duplicate, without check, deposited with City Auditor previous to time for opening bids.

GUY C. EMERSON,
Official in Charge.
(Jan. 15.)

CITY OF BOSTON.

PROPOSALS FOR FRESH FISH.

Sealed proposals are invited to supply the House of Correction, Deer Island, with fresh fish for the year ending January 31, 1911. Only bids on forms obtained at the office of the Penal Institutions Commissioner, at 32 Tremont street, signed by bidder, and there left before 12 m. of Friday, January 21, 1910, with a certified check for \$500, payable to and to be the property of the city if the bid is accepted and is not carried out, will then and there be publicly opened and read. The official in charge reserves the right to reject any and all bids. The bid should be inclosed in an envelope, sealed and marked "Bid for Fresh Fish." The contractor will be required to furnish a bond for one thousand (1,000) dollars in a surety company for the faithful carrying out of contract. The bids must be in duplicate, the duplicate, without check, deposited with City Auditor previous to time for opening bids.

GUY C. EMERSON,
Official in Charge.
(Jan. 15.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING ASPHALT.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing asphalt pavement in any street in Boston, not under guarantee, when ordered to do so by the Superintendent of Streets, between February 1, 1910, and January 31, 1911, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder, and left at said office, before 12 o'clock m. of Tuesday, January 25, 1910, with a certified check for \$500, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The Contractor will furnish his own specification and attach same to the proposal. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposal should be inclosed in an envelope, sealed and marked "Proposal for Repairing Asphalt Pavements."

GUY C. EMERSON,
Superintendent of Streets.
Boston, January 14, 1910. (Jan. 15.)

CITY OF BOSTON.

PROPOSALS FOR FURNISHING TEAMS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for furnishing single and double teams in the following districts: No. 1, South Boston; Nos. 2 and 3, East Boston and Charlestown; No. 4, Brighton; No. 5, West Roxbury; Nos. 6 and 12, Dorchester; No. 7, Roxbury; No. 8, South End; No. 9, Back Bay; No. 10, North and West Ends;—from time to time, as may be needed, between February 1, 1910, and January 31, 1911, and giving bond therefor of a surety company, approved by the superintendent. The contractor will furnish the teams, horses, harnesses, men, etc., and will submit a price for each single and double team, and also a separate price for each extra man that may be needed in the above districts in the following divisions of the Street Department: Paving Division, Sanitary Division, Sewer Division and Street Cleaning Division. The contractor will furnish his own proposal and leave same at said office before 12 o'clock m. of Monday, January 24, 1910, with a certified check for \$300, payable to and to be the property of the city if the proposal is not carried out, and will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any and all proposals. The proposal should be inclosed in an envelope sealed and marked, "Proposal for Furnishing Teams."

LAWS RELATING TO TAXATION.

REPORT OF THE STATE COMMISSION WHO INVESTIGATED THEM.

One of the most important contributions to the new Legislature was a report from a state special commission on taxation composed of ex-Governor J. L. Bates, State Tax Commissioner Trefry and Bank Commissioner A. B. Chapin. It is printed here in full.

RESOLVE TO PROVIDE FOR AN INVESTIGATION OF THE LAWS RELATIVE TO TAXATION.

Resolved, That a commission consisting of the tax commissioner, the bank commissioner and one other person, an expert on the subject of taxation, who shall be appointed by the governor, be authorized to examine carefully the general laws of the commonwealth relating to taxation with a view to ascertaining the advisability of a classification of property for purposes of taxation and as to whether it is necessary and desirable to amend the constitution to permit of such classification. The commission shall serve without compensation, shall have a room in the state house assigned to it, and may employ such clerical and other assistance as may be necessary, and shall be reimbursed for incidental and traveling expenses necessarily incurred. It shall give such public hearings as it deems necessary. The report of said commission shall be printed by the commonwealth and a copy thereof shall be mailed in the month of December, nineteen hundred and nine, to every person elected to the general court for the year nineteen hundred and ten. The total expense under this resolve shall not exceed the sum of twenty-five hundred dollars. *Approved June 19, 1909.*

REPORT OF THE COMMISSION.

I. INTRODUCTORY STATEMENT.

It is pertinent briefly to review the events that led to the creation of the commission. The Commission on Taxation of 1907, reporting in January, 1908, recommended a bill exempting certain classes of intangible personalty from all other taxation, and making them liable to a uniform tax at the rate of three mills on each dollar of the fair cash value. The classes of property included within the provisions of the bill were money, credits and securities now liable to taxation in the hands of the holder. The commission recognized the possibility that the proposed tax might be held to conflict with the requirement of the Constitution of the Commonwealth that assessments, rates and taxes shall be "proportional and reasonable," and, accordingly, advised the Legislature, before enacting the bill, to secure the opinion of the justices of the Supreme Judicial Court on the question of its constitutionality. In case the court should find the proposed law to be unconstitutional, the commission recommended, further, that the constitution be amended in such a way as to permit the Legislature to classify property in a reasonable manner for purposes of taxation.

In accordance with the advice of the commission, the Senate adopted an order, March 23, 1908, requesting the opinion of the justices of the Supreme Judicial Court on the constitutionality of the three-mill tax. In answer to the question submitted the justices handed down an opinion,

April 3, 1908, to the effect that the proposed law would be unconstitutional, on the ground that the tax violated the constitutional requirement of proportionality. After reviewing previous decisions of the court in tax cases the justices found in substance as follows: First, that the right to exempt intangible property as a whole, even if it exists, "does not authorize a partial exemption conditional upon the property exempted paying an arbitrary percentage which is not proportional"; second, that "the mere right to own and hold property such as is referred to in the question cannot be made the subject of an excise tax;" third, that a tax imposing upon the exempted property a rate hardly more than one-fifth of the average in the state would "tend largely to increase the rate upon other classes of property, and thus to make the tax disproportional" and hence unconstitutional.

In 1909 the General Court agreed to an article of amendment to the constitution to permit the classification of property in a reasonable manner for purposes of taxation. This article, under the provisions relating to amendment of the constitution, will be acted upon by the General Court of 1910, and, if again agreed to, will then be submitted to the people for approval and ratification.

The instructions of this commission involve three broad questions:

1. Is it advisable to classify property for purposes of taxation in this state?
2. If so, would it be necessary to amend the constitution in order to permit such classification?
3. And, finally, is it desirable so to amend the constitution?

The commission has given nine public hearings, at which opportunity has been afforded to all persons who expressed the desire to be heard to state their views. At these hearings the arguments for and against the proposed amendment were fully and ably presented. The commission would direct particular attention to the closing argument for the supporters of the amendment, by Prof. Charles J. Bullock, and the final plea for the remonstrants, by Nathan Matthews, Esq., both of which have been printed for distribution.

The commission desire to express their appreciation of the services of Prof. F. Spencer Baldwin, who has acted as secretary of the commission, and whose extensive knowledge of tax legislation and independent research in the field of the commission's inquiry have been of great value.

II. ARGUMENTS FOR THE PROPOSED AMENDMENT.

It is obvious that the burden of proof rests upon the supporters of the proposed amendment. The presumption is clearly in favor of retaining any provision of the original Constitution of the Commonwealth adopted in 1780, which has stood unchanged down to the present time, as is the case with the requirement of proportionality in the tax clause. The advocates of any constitutional change of this character must prove that it is needed, in order to enable the General Court to enact some desirable measure or measures of legislation, and that the advantages to be expected from it are sufficiently substantial to outweigh any

disturbance, inconvenience or injury to be apprehended from it. In the present instance it is incumbent upon the proponents of the amendment to show that it is desirable to classify property for purposes of taxation, and that it is both necessary and desirable to amend the constitution in order to permit classification in the manner provided in the pending amendment.

The case for the amendment is based upon the alleged existence of certain evils in the present system of taxation which may be briefly summarized thus:

(1) The taxation of intangible personalty at regular local rates imposes an exorbitant levy upon this class of property, drives much of it into concealment, invites tax colonization, causes capital to leave the state, imposes an undue share of the tax burden upon real estate, and is demoralizing in its general influence.

(2) The taxation of forest lands at regular local rates leads to deforestation, so far as the tax is not evaded by under-valuation of timber tracts.

(3) The taxation of machinery at regular local rates imposes on manufacturing enterprises a handicap in competition with similar industries in other states.

The main arguments in favor of the amendment resolve themselves, accordingly, into three propositions, which, for convenience of present treatment, may be arranged in the following order:

A. It is needed in order to introduce a satisfactory plan of taxing machinery for the promotion of manufacturing enterprises.

B. It is needed in order to adopt a proper method of taxing forest lands for the encouragement of timber culture.

C. It is needed in order to establish a more equitable, productive and enforceable system of taxing intangible personalty.

A. The Case of Machinery.

No definite programme for the taxation of machinery has been formulated and presented to the commission. The suggestion has been offered that it should be taxed at a special uniform rate throughout the state, lower than the present average rate upon property in general. Rates of \$6, \$8 or \$10 per \$1,000 have been named in this connection. The reasons mentioned in support of the suggestion of a special uniform rate on this class of property are:

(1) The assessment of machinery is extremely difficult to adjust at a fair valuation, chiefly because machinery often depreciates with great rapidity.

(2) This fact of rapid depreciation not only makes fair assessment difficult, but is held also to justify taxation at a lower rate than that imposed upon property that maintains a uniform value for a long period of years.

(3) The manufacturing industries of Massachusetts are hard pressed by competition from outside the state, and need every reasonable encouragement that can be given to them.

(4) The burden placed upon manufacturing industries by the advanced labor code of the Commonwealth furnishes additional reason for special consideration in the adjustment of the tax burden upon machinery.

These reasons do not impress the commission as sufficiently cogent to justify the taxation of machinery at a special rate. Nor is it, as has been intimated, the practice of American states to adopt special methods of taxing machinery. There is no state, so far as can be learned,

that taxes machinery at a fixed uniform rate, and no state that has an exemption statute applying expressly to machinery in general. The nearest approach to such exemption seems to be the law of Delaware, exempting manufacturers' tools. Pennsylvania, however, does not include machinery in the list of property subject to taxation. Manufacturing corporations in that state are taxed locally on their real estate, which sometimes includes machinery, but are exempt from the state franchise tax on capital stock, to the extent of the capital used within the state, with the exception of brewing and distilling companies. Similarly, New York and New Jersey exempt manufacturing corporations from the state franchise tax on capital stock, with certain restrictions. The New York exemption applies to manufacturing corporations having 40 per cent of the capital stock invested in the state, and covers only the amount of capital so invested. The New Jersey exemption applies to manufacturing corporations having 50 per cent of the capital stock invested within the state; the law also permits the deduction of the assessed value of property used for manufacturing purposes in computing the franchise tax on manufacturing corporations subject to it. Alabama, Mississippi, New Mexico and possibly other states, have laws exempting specified classes of manufacturing corporations, under certain conditions, for a limited period of years, not exceeding ten in any case. Further, New Hampshire, Rhode Island and Vermont permit the exemption of manufacturing establishments for ten years, by vote of the town.

It thus appears that the particular suggestion regarding the taxation of machinery at a special uniform rate presented before the commission finds slight support in the tax systems of American states. So far as manufacturing corporations are specially favored or leniently treated in other states, this seems to occur not through the tax legislation, but through the local assessment of their property at less than its full value. It should be observed, finally, that if an undue burden of taxation is really imposed upon manufacturing corporations in this state at the present time, this comes about chiefly not through the local taxation of machinery, but through the state excise tax on corporate excess, which can be altered or reduced without a constitutional amendment. In any event, the case of machinery hardly constitutes sufficient ground for an amendment of the constitution.

B. The Case of Forestry.

The particular plan of forest taxation favored by the representatives of the Massachusetts Forestry Association and by others who appeared before the commission embodies three features:

- (a) The exemption of the growing timber.
- (b) A low annual tax on the land alone.
- (c) A high special tax on the cut timber.

The present method of taxing forest lands at regular local rates is termed burdensome and destructive. It is maintained that this method imposes multiple taxation, since the growing forest is taxed year after year while it is maturing. Such taxation is declared to have the effect of encouraging deforestation of timber-grown lands, of discouraging reforestation of cut land and afforestation of new land, and of inducing undervaluation of forest holdings in order to abate the rigor of the tax law. Exemption is held to be undesirable as a remedy for these alleged evils,

since total exemption for an adequate period would cut off annual local revenues from the tax on timber lands, and would thus disorganize the finances of some towns. The ideal plan of taxing forest holdings is said to be a tax on the yield alone when the timber is cut. Since this method is believed to be impracticable for revenue reasons, in view of the natural desire of the towns to secure annual returns from forest property, it is proposed, as a compromise measure, that the growing timber be exempted, and that a moderate annual tax be imposed upon the land alone and a high special tax on the trees when cut.

There is no tax law of this kind actually in operation in this country to afford guidance in pronouncing upon this new proposal of forest taxation. It should be pointed out, also, that the plea for special taxation of forest lands is based largely on the assumption that the proposed plan would call into existence a valuable industry in this state. It is assumed that the modification of the tax laws in this respect would be sufficient to promote forest culture on a large scale, and thus add an important asset to the economic resources of the Commonwealth. It is extremely doubtful, however, whether any mere change in the tax laws would be adequate to accomplish this object. The development of forest culture upon a large scale could hardly be brought about except through direct state action to establish forest reservations under public control. No individual has a sufficient motive to undertake to grow high forests, on account of the long period that must elapse before returns can be had from the investment. Forestry in a settled country is pre-eminently an industry in which governmental enterprise is required to obtain satisfactory results. The negative encouragement to forest culture held out by a change in the tax system would not in itself bring about the establishment of a flourishing forest industry in the state. The case of forestry, therefore, does not impress the commission as one that can be dealt with satisfactorily by a change in the tax laws, under the proposed constitutional amendment.

C. The Case of Intangible Personality.

The particular measure of taxation in the interest of which the proposed amendment is primarily sought is the 3-mill tax, so called. This plan, which was recommended by the commission of 1907, proposes to exempt certain classes of intangible personality from all other taxation, and to impose on them a uniform tax at the rate of 3 mills on each dollar. The classes of property to which the tax would apply are:

- (a) Money on hand, on deposit or at interest, and other debts due the taxpayer.
- (b) Public stocks and securities now subject to taxation.
- (c) Bonds of domestic and foreign corporations.
- (d) Shares in the capital stock of certain foreign corporations.

1. ALLEGED EVILS OF PRESENT SYSTEM.

The present system of taxing at full local rates the classes of intangible personality named is alleged to result in serious evils. In brief, the complaints are:

- (1) The amount of intangible personality actually reached and assessed is taxed at rates that are in most cases excessive in proportion to the income received from the property.

(2) Consequently, a large amount of intangible personality is concealed in order to evade taxation.

(3) A further result is the colonization of owners of intangible personality in a few towns where rates are low and assessors are accommodating.

(4) A related consequence is the emigration of capital from the state, the system working to the advantage of neighboring states in which investment securities are exempt from taxation.

(5) The burden of taxation is thus divided most unequally between intangible and tangible personality, and between personal estate and real estate, the latter being unduly burdened.

(6) These conditions produce deceit, dishonesty and general demoralization in the relation of the citizen to the tax-paying power.

The root evil here is thus represented to be the excessive rate of taxation now imposed upon intangible personality. Any tax that absorbs from one-third to one-half of the income of the property is regarded as exorbitant. A tax rate of \$17.60 per \$1,000, which is the average throughout the Commonwealth for the year 1909, is equivalent to 35 to 50 per cent of the income received by the holders of investment securities. From securities yielding 5 per cent it takes over 35 per cent of the income; from those yielding 4 per cent it takes 44 per cent of the income; and from those yielding 3½ per cent it takes over 53 per cent of the income. It is declared that no property holder ought to be expected to pay a tax that takes so heavy a proportion of the property income.

The advocates of the 3-mill tax contend that it will cure the foregoing alleged evils. They maintain:

(1) That it will impose upon the classes of intangible personality subject to it a rate of taxation proportionate to the incomes which they yield.

(2) That it will reduce the temptation on the part of owners of money and taxable securities to conceal such property and evade the payment of taxes.

(3) That it will put a stop to the concentration of intangible personality in certain towns.

(4) That it will tend to make residence in this state more attractive for wealthy property holders.

(5) That it will relieve the present inequality in the distribution of the tax burden between personality and realty by bringing a larger amount of the former upon the assessors' lists.

(6) That it will do away with the general demoralization attendant upon the working of the present system.

The theory underlying these claims is that, if the rate of taxation is reduced to \$3 per \$1,000, as contrasted with the present average rate of over \$17 per \$1,000, the holders of intangible personality will come forward and make declaration of their property. It is also reasoned that a tax on intangible personality levied at a moderate uniform rate will be supported generally by public opinion, and that assessors will thus be aided effectively in their efforts to enforce the law.

This reasoning is reinforced by citation of the experience of Pennsylvania and Maryland under a similar system. Since 1879 Pennsylvania has taxed intangible personality at a low uniform rate, which is now \$4 per \$1,000. The total assessment of intangible personality in the state increased from \$145,300,000 in 1885 to \$1,141,800,000 in 1908. Since 1896 Maryland has taxed certain classes of intangible personality at the rate of \$4.60 per \$1,000.

The assessment of intangible personalty in the City of Baltimore increased from \$6,000,000 in 1896 to \$55,000,000 in 1897, and in 1909 the assessment rose to \$158,600,000. The supporters of the 3-mill tax argue that, if the result in Massachusetts were as favorable as in Pennsylvania and Maryland, the 3-mill tax would yield certainly as much revenue as the present high rates, and perhaps even larger returns.

2. EXAMINATION OF ALLEGED EVILS.

The complaints brought against the present system of taxing intangible personalty are, in the opinion of this commission, greatly overdrawn.

(1) The contention that the rate now imposed upon intangible personalty is excessive requires to be qualified by the consideration that no one is obliged to make or to hold an investment in property which he believes to be taxed disproportionately to its income. The alleged injustice to investors inflicted by the present rate on taxable securities has been much exaggerated. In particular, the conventional plea that widows and orphans are treated harshly because they cannot evade this tax, as can the ordinary holders of investment securities, is largely sentimental. Trustees understand the provisions of the tax laws, and can change their investments if that seems desirable in the interest of a reasonable net return on trust funds. No one is victimized by the present system. Holders of taxable securities have no real grievance. The remedy is in their own hands, if they regard the rate of taxation as exorbitant.

(2) It is undoubtedly true that a considerable amount of intangible property escapes taxation. The physical nature of this class of property is such that much of it would be concealed by the holders under any system that attempted to reach it in their hands by means of declaration or doomsday. It is extremely doubtful whether the 3-mill plan would reach such property in any large amount. The only way in which it can be taxed effectively is by levying upon the tangible property which it represents. This state has given up the attempt to tax shares of domestic corporations in the hands of the holders, and has substituted for this ineffective method the excise tax on corporate excess, which taxes such investments at the source. The same principle might well be applied to the taxation of foreign corporations doing business in the state. At present such corporations pay an excise tax of only $\frac{1}{10}$ of 1 per cent on the capital stock. In contrast with Massachusetts, New York imposes an annual franchise tax upon domestic and foreign corporations at the same rate on the capital stock invested within the state, and exempt all shares of stock from taxation in the hands of holders. The adoption of a similar policy in Massachusetts would tax at the source the stocks of foreign corporations doing business in the state, thus removing all ground for complaint that this group of securities escapes taxation, and incidentally placing domestic and foreign corporations on the same competitive level as regards their tax burdens in this state.

(3) It is also true that intangible personalty is concentrated, to a marked degree, in certain towns. But there are other factors besides the influence of low tax rates which have brought about this colonization. The movement has been caused largely by advantages of situation, scenery and other attractions of residence in the favored towns. So far as the difference of local tax rates actually

operates to promote colonization, this inducement can be counteracted by making a further change in the method of distributing the proceeds of the tax on corporate excess. Prior to 1909 the proceeds of this tax, above the amount retained by the state on account of foreign-owned shares, were distributed among the cities and the towns according to the residence of the stockholders. Under the provisions of the amending act of 1908 only one-half of this surplus is now distributed according to the residence of the stockholders, and the other half is divided according to the site of the business. The change has reduced considerably the amount received by favored towns in which personal property has become concentrated, and has increased somewhat the returns accruing to other towns and cities in the state. The distribution of the entire proceeds of this tax, above the amount retained by the state, according to the site of the business,—which is obviously the logical and equitable method, since it apportions the receipts to the communities that have to bear the expense of protecting the property of the corporations,—would further work to the advantage of industrial centers as against wealthy residence communities, and would thus minimize the inducement to tax colonization by helping to equalize rates throughout the state.

(4) It should be borne in mind, in weighing the force of the complaint regarding removal of capital from the state, that while the present system may keep out some capital by taxing foreign securities, it keeps in other capital by exempting domestic stocks from taxation in the hands of the holders. This preferential treatment of the latter invites investment of domestic capital in Massachusetts enterprises. In the opinion of the commission the balance of gain is on the side of the present system.

(5) The assertion that the burden of taxation is divided unevenly between intangible and tangible property is correct. But it is to be observed, on the other hand, that the effect of the proposed remedy—a low tax rate on intangible personalty—would be to distribute the tax burden even more unequally by reducing the revenue from intangible personalty and increasing the rate on tangible property.

(6) The final complaint is a general indictment which does not easily admit of specific proof or disproof. No evidence of the existence of widespread dishonesty and general demoralization has been produced. There is unquestionably some evasion and equivocation on the part of the taxpayers. That, however, is to be expected, to a certain extent, under any system, until human nature shall undergo so complete a revolution that the payment of taxes will be regarded as a privilege rather than a burden.

III. OBJECTIONS TO THE PROPOSED AMENDMENT.

The case in favor of the amendment rests mainly upon the foregoing arguments in support of the 3-mill tax, for the chief purpose of the amendment is to legalize the adoption of this or a similar plan of taxation. The contentions of critics of the present tax system are in part well founded. But whatever the shortcomings of the present system may be, the evils likely to be produced by the proposed remedy would be far worse.

A. Specific Objections to the 3-mill Tax.

Any plan of a low fixed rate on intangible personalty encounters formidable

practical difficulties. The proposed reduction of the rate would affect injuriously the public finances and the domestic industries of the Commonwealth.

1. REDUCTION OF REVENUES.

It is not open to reasonable doubt that the reduction of the tax rate on intangible personalty to less than one-fifth of the present average rate would cause an immediate falling off in revenues. According to estimates of assessors prepared for this commission the total amount of intangible personalty reached for taxation in this state in 1909 is approximately \$422,000,000. The amount of taxes yielded by this property, estimated on the basis of the average rate of \$17.60 throughout the Commonwealth, as computed by the Tax Commissioner, must be placed at \$7,400,000. In order to secure that amount of revenue from a 3-mill tax it would be necessary to reach nearly two and a half billion dollars of intangible personalty. It seems highly improbable that such an amount of intangible personalty would be brought to light through the supposed encouragement to declaration held out by a reduction of the rate, especially in view of the fact that in Pennsylvania, with a population twice as large as that of Massachusetts, only \$1,141,800,000 of intangible personalty is assessed. The inevitable consequence of an experiment with the 3-mill tax must be, at least for many years to come, a heavy increase of the tax burden on other property. The justices of the Supreme Judicial Court remarked, in their opinion on the 3-mill tax: "Predictions resting on the nonenforcement of one law, and the uncertainty whether any similar but less burdensome law would be enforced, are too unreliable to warrant a disregard of a simple rule of proportion embodied in the constitution."

The Maryland and Pennsylvania experience cited in support of the 3-mill plan must be discounted heavily in drawing inferences from it for this state. No such increase of the assessment of intangible personalty as took place there could be expected here, because better methods of assessment have already brought out a large amount of intangible personalty as compared with the results of assessment in those states prior to the adoption of the low rate.

2. DISTURBANCE OF VALUES.

It is clear that the 3-mill tax would have the unfortunate effect of prejudicing domestic investments, to the advantage of foreign. The exemption of the stocks of domestic corporations from direct taxation in the hands of holders has created for this class of securities a favored market, as against foreign securities now subject to taxation at full local rates. The inducement to invest in shares of domestic corporations is especially strong in the case of trustees. If the rate on foreign securities were reduced to 3 mills the advantage now enjoyed by domestic securities would be practically wiped out.

(1) The immediate effect of opening a favorable opportunity for investing trust funds and other domestic capital in foreign securities, under a low tax rate, would unquestionably be to lower the selling values of stocks of Massachusetts corporations. In fact, under existing conditions in the investment market the proposed change would put a premium on foreign investment. The 3-mill tax would thus make it difficult to secure new capital for the needs of domestic undertakings. This depreciation of the shares of domestic corporations would, incidentally, reduce the revenue derived from the excise tax

on corporations, since any reduction of the market value of the capital stock of a corporation lowers the amount of the corporate excess on which the state tax is assessed.

The Tax Commission of 1907 recognized the force of this objection, so far as domestic public service corporations are concerned. As a remedy for the embarrassment to the latter in marketing their securities, to be apprehended from the 3-mill tax, the commission suggested that the conditions imposed by law on the issue of new stock by public service corporations be made more liberal. Legislation modifying the requirements as to stock issues for railroad and street railway companies was enacted by the General Court in 1908, and for gas and electric light companies in 1909. The objection that the 3-mill tax would lower the selling values of domestic stocks applies, however, not only to public service corporations, but also to domestic corporations of every kind. The legislation with reference to the former does not affect in the least the force of this objection in its application to the latter.

(2) The 3-mill tax would have the further disturbing effect of hampering the development of real estate, especially in the City of Boston, not only by inviting capital into other fields of investment, but also through the increase of the tax burden on real estate and the consequent depreciation of values which must follow upon the adoption of this tax.

(3) At the same time the proposed change would tend to advance the rate of mortgage interest, by giving the capital which is now drawn largely into this field of investment, under the exemption of mortgages from taxation, an inviting opportunity to buy practically tax-exempt foreign securities.

All these results, which are clearly to be apprehended from the 3-mill tax, would work disturbance of investment values and injury to domestic enterprises.

3. FURTHER CONSIDERATIONS REGARDING PROPOSED CHANGES IN THE TAX SYSTEM.

In the foregoing discussion of arguments for and against the proposed amendment to permit classification, attention has been given almost wholly to the proposal of the 3-mill tax. This was natural and logical, for the 3-mill tax was the only clearly formulated scheme of classification before the commission. The general question of classification had, of necessity, to be considered in the light of the particular measure of taxation for the enactment of which the enabling amendment was desired.

Suggestions have been offered that some other and higher rate than 3 mills might be chosen, if the plan of a fixed uniform tax on intangible personalty were to be adopted, such as 12 mills, 15 mills, or the average rate through the state computed by the Tax Commissioner for the assessment of the corporate franchise tax. The suggestion of a high uniform rate does not, however, commend itself as offering any marked improvement over the present method of taxation at regular local rates. It might be expected to check tax colonization. But even in this respect its effectiveness could be offset by under-valuation of personalty by local assessors. It would not remove the principal complaint against the existing system, which relates to the excessive rate of taxation, nor would a high uniform rate aid in the least to keep capital from emigrating from the state or to induce capital to

immigrate into the state. It would tend, rather, to exert an opposite effect, and to drive out, and keep out, capital. Finally, it would offer no encouragement to security holders to declare their property. For these reasons any plan for the uniform taxation of intangible personalty at a high rate must be dismissed as inexpedient.

It should be borne in mind, in considering the advisability of any proposed change in the tax system, that, whatever the faults of the prevailing methods may be, business has adjusted itself to the conditions in such a manner as to obviate any grievous hardship. The present system involves, moreover, no active disturbance of values and investments. A change in the system might produce widespread disturbance, and thus create genuine grievances. If the change resulted at the same time in a deficit of revenue and increased rates of taxation on certain classes of property, as would be the case under the operation of the 3-mill tax, the effects upon business enterprise might be extremely injurious. It must be frankly admitted that the present system does have the effect of encouraging investment of Massachusetts capital in domestic enterprises. It can hardly be argued in seriousness that a tax system which threatens to exert a precisely opposite influence, encouraging home capital to seek foreign investment, is preferable and desirable.

B. General Objections to the Abolition of the Requirement of Proportional Taxation.

In addition to the specific objections to the 3-mill tax, there are general reasons of weighty character which bear against the proposal to remove the word "proportional" from the constitution.

1. DANGERS OF SPECIAL TAX LEGISLATION.

(1) It is to be feared that experimentation with special schemes of classification, which passage of the amendment would invite, might produce complication and confusion of the tax system of the state. The provisions of the tax laws might easily, in the course of time, be elaborated into the extreme complexity of a tariff act, with innumerable classes and rates. The situation would be a constant menace to stability of values.

(2) Undoubtedly, furthermore, pressure would be brought to bear upon the Legislature to grant favored rates of taxation to different interests. Already the claims of forestry, machinery and intangible personalty are pressed upon the attention of the Legislature. If the proposed amendment permitting classification without other restriction than that imposed by the vague requirement of "reasonableness" were adopted, the representatives of special interests would come forward from many quarters, each with a plea for legislative favor in the matter of taxation. The constant agitation for change of the tax on corporate excess, which is the most conspicuous example of classification now on the statute books, shows that the apprehension here expressed is not purely fanciful.

(3) Finally, the door would be opened wide to socialistic tax legislation, designed to discriminate against wealth *per se*, and to force artificial redistribution of wealth by a violent exercise of the taxing power. If the word "proportional" were taken out of the constitution there would be no effective check upon discriminative tax-

ation adequate to prevent gradation of rates to points absolutely confiscatory. The protection given by the word "reasonable" in the state constitution, and by the fourteenth amendment of the United States Constitution, can hardly be regarded as affording to the property holder security against punitive and retributive taxation.

2. NEED OF EXISTING RESTRAINT UPON THE TAXING POWER.

The argument has been advanced in this connection that constitutional restraint upon the exercise of the taxing power by the Legislature is unnecessary. It is held that the people can afford to "trust" the Legislature with practically unlimited power to levy upon property at various rates and by different methods, according to any peculiar system that may, for the time, appeal to the legislative mind. This contention that constitutional restrictions are superfluous in reference to taxation, if consistently carried to its logical conclusion, would call for the entire abolition of written constitutions. The taxing power is the most important one intrusted to legislative bodies. If constitutional restriction can be dispensed with here, it can be done away with altogether without menace to the general welfare. This argument in favor of legislative license in the matter of taxation flies in the face of the fundamental principles of American government. The founders of this Commonwealth gave no clearer proof of their political sagacity and foresight than that afforded by the insertion into the organic law of a provision that taxes shall be "reasonable and proportional." This clause stands as a barrier against assaults upon property prompted by the caprice or malice born of the "infatuation of the moment." The retention of the protective restriction is peculiarly imperative at the present time, when fiscal schemes of a socialistic character are pushing their claims in the legislature of many countries.

3. RESTRICTION GENERAL AMONG AMERICAN STATES.

It is pertinent in this connection to call attention to the fact that only a minority of the American states have constitutional provisions that permit the classification of property for purposes of taxation. Only ten states never have had any restrictions upon classification in the constitution; four other states have repealed such restrictions originally put into the constitution. It thus appears that thirty-two states have so far retained in their constitutions provisions that limit the power of the Legislature with respect to the classification of property. The general practice of American states is strongly on the side of the retention of the word "proportional" in the constitution of this Commonwealth.

C. Summary of Objections.

The objections that carry most weight in opposition to the proposed amendment may be summarized as:

A. Specific objections to the 3-mill tax.

B. General objections to the removal of the word "proportional" from the constitution.

The first class of objections may be reduced to two arguments:

1. The 3-mill tax would cause economic disturbance by unsettling values and encouraging capital to seek foreign investment.

2. It would cause financial disturbance by reducing the revenues derived from

intangible personalty and embarrassing the finances of many cities and towns.

The second class of objections may be reduced to the statement of three dangers threatened by the proposed amendment:

(1) The power of classification might be used to introduce a multitude of special taxes, with various rates, thus leading to endless complexity of the tax system, and constantly threatening the stability of values.

(2) The desire to secure legislative favor in the form of reduced taxation would produce constant agitation by various interests pleading for changes in the tax laws.

(3) The passage of the amendment would open the door to the enactment of unjust discriminative measures of taxation designed to penalize wealth.

IV. THE NECESSITY OF AMENDING THE CONSTITUTION TO PERMIT CLASSIFICATION.

The adverse decision reached by the commission with regard to the advisability of classification and the desirability of amending the constitution relieves it of the task of discussing at length the legal question as to whether it would be necessary to amend the constitution in order to classify property for purposes of taxation. That is, the commission finds that it is not desirable to classify property for purposes of taxation, and that it is not advisable to amend the constitution in the proposed manner. The question whether a constitutional amendment is necessary to authorize classification, therefore, becomes unimportant, since classification itself has been pronounced inadvisable. If, however, the Legislature should desire to apply the principle of classification in the tax laws, it would probably be necessary to amend the constitution. The opinion of the Supreme Judicial Court in the 3-mill tax case settles this question of the necessity of amendment, so far as the 3-mill tax is concerned. Furthermore, the trend of previous decisions of this court in tax cases involving interpretation of the word "proportional" leaves little doubt that any other scheme of classification involving taxation of a particular kind of property at a special rate different from that assessed upon property in general would be pronounced unconstitutional. In case the General Court should desire to adopt any particular measure of classification, the scope of the amendment conferring the desired power should, in the opinion of this commission, be restricted to the single purpose in view and not extended so as to permit classification in general.

V. FINDINGS OF THE COMMISSION.

In direct answer to the questions involved in its instructions the commission has reached the following conclusions:

1. That it is not advisable to classify property for purposes of taxation in this Commonwealth, except so far as classification may now be permissible under the excise clause of the constitution.

2. That it would probably be necessary to amend the constitution if the Legislature should desire to apply the principle of classification under the tax clause.

3. That it is not, however, desirable so to amend the constitution.

JOHN L. BATES.
WILLIAM D. T. TREFRY.
ARTHUR B. CHAPIN.

PROCEEDINGS OF BOARD OF ALDERMEN.

Wednesday, January 12, 1910.

Special meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 12.30 p. m., for the purpose of drawing jurors, a quorum being present.

Eight additional grand jurors, Superior Criminal Court, were drawn in accordance with the provisions of chapter 514, Acts of 1894, to appear January 17 (the Mayor not being present), viz.:

Benjamin Rose, Ward 24; Joel E. Dodge, Ward 9; Martin Howard, Ward 12; James F. Sullivan, Ward 16; John F. Dempsey, Ward 20; Robert M. Morton, Ward 23; Axel W. Benson, Ward 25; Thomas S. Riley, Ward 10.

Adjourned at 12.38 p. m.

PROCEEDINGS OF COMMON COUNCIL.

Thursday, January 13, 1910.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7.45 p. m., President McCABE in the chair.

RESCISSION OF LOANS.

Mr. RYAN of Ward 8 called up No. 20, past assignment, viz.:

20. Ordered, That so much of the loan order approved July 26, 1907, appropriating \$40,000 for Mt. Hope Cemetery, enlargement; \$40,000 for Evergreen Cemetery, enlargement; \$6,000 for Dorchester North Burial Ground, stone wall and fence; \$125,000 for Boston Insane Hospital, land and buildings; \$10,000 for Independence square, new walks; \$12,000 for Boston Common parade ground, grading and lockers, be and the same is hereby rescinded.

The question came on the motion of Mr. FITZGERALD to reconsider the vote of November 26 whereby the above order was passed.

The motion to reconsider was lost.

SALE OF STONE CRUSHING PLANT.

The PRESIDENT called up No. 14, unfinished business, viz.:

14. Ordered, That the Superintendent of Streets be and hereby is authorized to sell at public (A) or private sale the stone crushing plant, with equipment thereof, now owned by the City of Boston and located on the Codman street ledge lot in the Dorchester district, and that whatever sum or sums received be credited to the appropriation for Street Department.

The order has the following amendment: At (A) strike out "or private."

The order, as amended, was passed in concurrence.

MUSIC STAND, BOSTON COMMON.

The PRESIDENT called up No. 16, unfinished business, viz.:

16. Ordered, That of the income available the present year from the Parkman Fund the sum of seventy-five thousand dollars be hereby appropriated, to be expended by the chairman of the Music Trustees and the Superintendent of Public Grounds jointly, for the erection of a music stand on Boston Common, and the erection of such music stand on Boston Common is hereby authorized.

The order was passed. Sent up.

DISPOSAL OF REFUSE, ETC.

The PRESIDENT called up No. 17, unfinished business, viz.:

17. An Ordinance to amend chapter 47, section 18, of the Revised Ordinances of 1898. Be it ordained by the City Council of Boston, as follows:

Section 18 of chapter 47 of the Revised Ordinances of 1898 is hereby further amended by inserting after the word "matter," in the third line, the words "or interfere with the receptacles containing same"; and by adding at the end of said section the following: "or place outside of any building or premises for removal any light refuse or rubbish that is likely to be scattered or blown about, unless same is properly packed, bundled or otherwise secured."

The ordinance was passed in concurrence.

TRANSFER OF LAND, DORCHESTER.

The PRESIDENT called up No. 19, past assignment, viz.:

19. Ordered, That the care and custody of the plot of land at the junction of Huntington

and St. James avenues, southwest of Trinity Church, containing 5,380 square feet, more or less, be transferred from the Park Commissioners to the Superintendent of Public Grounds. Passed in concurrence.

EXPENDITURES, MAYOR'S OFFICE.

The President called up No. 23, past assignment, viz.:

23. Mayor's message transmitting a communication from the Auditing Department submitting a statement of the expenditures of the Mayor's office during 1908. (See City Doc. No. 56.)

Placed on file.

PAPERS ON THE TABLE.

The President called up Nos. 24, 25, 26, 27 and 28, viz.:

24. Mayor's message transmitting a communication from the Statistics Department submitting a statement of expenditures for improvements from 1889 to 1909, together with certain other statistical information. Also an extract from the valedictory address of Nathan Matthews, Jr., Mayor of Boston, 1891-92-93-94, which was ordered to be printed in connection with the same. (See City Doc. No. 60.)

25. Mayor's message transmitting a statement from the Statistics Department relative to population, departmental expenditures and city debt. (See City Doc. No. 82.)

26. Mayor's message transmitting information from the Street Department relative to replacing all wooden sewers in the city with water-tight sewers. (See City Doc. No. 137.)

27. Communication from the Corporation Counsel in reference to the nonpayment of taxes on a certain parcel of land on the southwesterly side of Oxford terrace, Ward 10. (See City Doc. No. 138.)

Q. on placing above papers on file.

28. Report of the special committee of the Common Council, appointed to make an investigation of the printing of the report of the Boston Finance Commission. (See City Doc. No. 73.)

Nos. 24, 25, 26 and 27 were severally placed on file. The report of the committee on No. 28 was accepted.

LIGHTING OF STREETS.

Mr. O'BRYAN of Ward 15 offered an order—That the Superintendent of Streets be requested, through his Honor the Mayor, to be more diligent in seeing that the Edison Electric Light Company conform to the terms of their contract in regard to the lighting of streets.

Mr. O'BRIEN of Ward 15—Mr. President, this is the order which I intended to introduce last Thursday, but somebody raised the point of no quorum. I would like to call the attention of the Mayor of the City of Boston to the state of affairs as regards the lighting of our streets. We had a storm almost three weeks ago, and for almost a full week the streets of Boston were in darkness, and even up to the present time there are many streets which are entirely in darkness. The contract which the Edison Light Company had with the city was the contract that we had under investigation. I contend that they do not even pretend to live up to the terms of the contract. I would like to have the Mayor understand what is going on. This present Superintendent of Streets, Mr. Emerson, is very careless about this contract, but I notice that the gas lighting contract he is especially careful about. If a lamplighter happens to have a lamp out he will send an inspector and follow him all over his route, but the Edison Electric Lighting Company can leave whole streets out, endangering the lives of the people in walking the streets. I think this is something very important, and it ought to be called to the attention of the Mayor.

TRIMMING OF TREE, WARD 2.

Mr. BROPHY of Ward 2 offered an order—That the Public Grounds Department be requested, through his Honor the Mayor, to trim the tree in front of 505 Summer street, Ward 2. Referred to the Mayor.

FIREPROOF BOOKCASES, REGISTRY OF DEEDS.

Mr. MURRAY of Ward 3 called up No. 2, unfinished business, viz.:

2. Ordered, That the City Auditor be and he hereby is authorized to transfer the sum of twelve thousand dollars (\$12,000) from the appropriation for "Police Department" to an appropriation for "Registry of Deeds, Fireproof Bookcases"; said appropriation to be expended by the Superintendent of Public Buildings.

The order was passed, yeas 50, nays 0:
Yeas—Allston, Arnold, Bagley, Ballantyne,

Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Cox, Crane, Crocker, Cronin, Cumming, Donovan (7), Fitzgerald, Gardella, Garrity, Goodwin, Gordon, Green, Hackett, Harding, Hart, Hoague, Joyce, Kennedy, Kenney, Krug, McCabe, McKeagney, Meins, Moore, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Neil, Peshorn, Ryan, Scigliano, Smith (20), Spellman, Webster, Welch—50.

Nays—0.

Absent or not voting—Brennan (17), Buckley, Collins, Connors, Conway, Dart, Davis, Donovan (19), Ducey, Hoban, Hoey, Howell, Jones, Kelly, Kinney, Kohler, McCarthy, McGivern, O'Hara, Pendergast, Prescott, Smith (23), Troy, Warren—24.

Mr. GORDON of Ward 9 moved to reconsider; lost. Sent up.

TRANSFERS OF APPROPRIATIONS.

Mr. BROPHY of Ward 2 called up Nos. 1 and 5, unfinished business, viz.:

1. Ordered, That the City Auditor may, with the approval of the Mayor, between January 6, 1910, and January 31, 1910, make transfers from any appropriation to any other appropriation, and apply any of the income and taxes not disposed of, in closing the accounts for the financial year.

5. Ordered, That the City Auditor be authorized to transfer the sum of forty thousand dollars (\$40,000) from the appropriation for Street Department, Lamp Division, to a special appropriation for repairing the ferryboat "General Sumner," recently damaged by fire and water.

The orders were passed in concurrence, yeas 51, nays 1:

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Cox, Crane, Crocker, Cronin, Cumming, Ducey, Fitzgerald, Gardella, Garrity, Goodwin, Gordon, Green, Hackett, Harding, Hart, Joyce, Kennedy, Kenney, Kinney, Krug, McCabe, McCarthy, McKeagney, Meins, Moore, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Neil, Peshorn, Ryan, Scigliano, Smith (20), Spellman, Webster, Welch—51.

Nays—Hoague—1.

Absent or not voting—Brennan (17), Buckley, Collins, Connors, Conway, Dart, Davis, Donovan (19), Donovan (7), Hoban, Hoey, Howell, Jones, Kelly, Kohler, McGivern, O'Hara, Pendergast, Prescott, Smith (23), Troy, Warren—22.

Mr. RYAN of Ward 8 moved to reconsider; lost.

APPROPRIATION FOR CHILDREN'S INSTITUTIONS DEPARTMENT

Mr. SPELLMAN of Ward 7 called up No. 3, unfinished business, viz.:

3. Ordered, That the City Auditor be authorized to transfer the sum of twenty-five hundred dollars (\$2,500) each from the appropriations for Children's Institutions Department, Parental School and Suffolk School for Boys, to the appropriation for Children's Institutions Department, Placing Out and Office Division.

The order was passed in concurrence, yeas 51, nays 0.

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Cox, Crane, Crocker, Cumming, Donovan (7), Ducey, Fitzgerald, Gardella, Garrity, Goodwin, Gordon, Green, Hackett, Harding, Hart, Hoague, Joyce, Kennedy, Kenney, Krug, McCabe, McCarthy, McKeagney, Meins, Moore, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Neil, Peshorn, Ryan, Scigliano, Smith (20), Spellman, Webster, Welch—51.

Nays—0.

Absent or not voting—Brennan (17), Buckley, Collins, Connors, Conway, Cronin, Dart, Davis, Donovan (19), Hoban, Hoey, Howell, Jones, Kelly, Kinney, Kohler, McGivern, O'Hara, Pendergast, Prescott, Smith (23), Troy, Warren—23.

APPROPRIATION FOR LIBRARY BUILDING, WARD 22.

Mr. MORGAN of Ward 22 called up No. 11, unfinished business, viz.:

11. Ordered, That the sum of ten thousand (\$10,000) dollars additional be appropriated, to be expended by the Public Buildings Department for New Library Building, Ward 22; and to meet said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to said amount.

The order was passed in concurrence, yeas 50, nays 3.

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Cox, Crane, Cronin, Cumming, Donovan (7), Ducey, Fitzgerald, Gardella, Garrity, Goodwin, Gordon, Green, Hackett, Harding, Hart, Joyce, Kennedy,

Kenney, Krug, McCabe, McCarthy, McKeagney, Meins, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Neil, Peshorn, Prescott, Ryan, Scigliano, Smith (20), Spellman, Webster, Welch—50.

Nays—Crocker, Hoague, Moore—3.

Absent or not voting—Brennan (17), Buckley, Collins, Connors, Conway, Dart, Davis, Donovan (19), Hoban, Hoey, Howell, Jones, Kelly, Kinney, Kohler, McGivern, O'Hara, Pendergast, Smith (23), Troy, Warren—21.

NEW BATH HOUSE, DEWEY BEACH.

Mr. DUCEY of Ward 4 called up No. 18, past assignment, viz.:

18. Ordered, That the sum of forty-nine thousand nine hundred ninety-nine dollars (\$49,999) be appropriated for the erection of a new bath house at Dewey Beach, Charlestown; and to meet said appropriation the City Treasurer be authorized to issue, from time to time, on request of the Mayor, bonds of the City of Boston to said amount for said purpose.

The question came on motion of Mr. DUCEY to reconsider the vote of December 9 whereby the foregoing order was rejected.

The vote of December 9 rejecting the order was reconsidered, and the question came on the passage of the order.

Mr. CROCKER of Ward 11—Mr. President, I voted against the last measure because it seemed to me it was pretty late in the year to tie up the city by a bond issue when there was a new city government coming in. I shall vote against this for the same reason, and also for the reason that I voted against it before. There might be a third reason suggested, that the order is illegal, inasmuch as it is the same order—practically, if not identically—with the one we failed to pass earlier in the season.

Mr. DUCEY of Ward 4—Mr. President, the circumstances under which this order was presented differ greatly from the circumstances under which No. 11 has reached this body. No. 11 accompanies the message of the Mayor, and No. 18 is an order very similar to one passed earlier in the session. It seems to me that when the same order received about fifty-four votes earlier in the session there is no reason why No. 18, which is virtually the same order, because it differs only two dollars in the total amount, should not pass to-night as well as it did earlier in the session.

The order was rejected, yeas 42, nays 7 (50 votes being necessary).

Yeas—Allston, Bagley, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Crane, Cumming, Donovan (7), Ducey, Fitzgerald, Gardella, Garrity, Goodwin, Gordon, Green, Hackett, Harding, Joyce, Kennedy, Kenney, Krug, McCarthy, McKeagney, Meins, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Neil, Peshorn, Prescott, Scigliano, Smith (20), Spellman, Webster, Welch—42.

Nays—Arnold, Ballantyne, Best, Crocker, Hart, Hoague, Moore—7.

Absent or not voting—Brennan (17), Buckley, Collins, Connors, Conway, Cox, Cronin, Dart, Davis, Donovan (19), Hoban, Hoey, Howell, Jones, Kelly, Kinney, Kohler, McCabe, McGivern, O'Hara, Pendergast, Ryan, Smith (23), Troy, Warren—25.

Sent up.

NEPONSET AND ASHMONT BRIDGES.

On motion of Mr. CRANE of Ward 24, the Council took up Nos. 9 and 10, papers from the Board of Aldermen, viz.:

9. Ordered, That the City Auditor be and he hereby is authorized to transfer the sum of two thousand dollars (\$2,000) from the appropriation for Huntington Avenue Bridge to the appropriation for Neponset Bridge, Rebuilding.

10. Ordered, That the City Auditor be and hereby is authorized to transfer the sum of five hundred dollars from the appropriation for Reserve Fund to the special appropriation for Ashmont Bridge Extension.

The Council refused to pass the orders in concurrence (50 votes being required for passage), yeas 49, nays 0.

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Crane, Crocker, Cronin, Cumming, Donovan (7), Ducey, Fitzgerald, Gardella, Garrity, Goodwin, Gordon, Hackett, Harding, Hoague, Joyce, Kennedy, Kenney, Krug, McCabe, McCarthy, McKeagney, Meins, Moore, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Neil, Peshorn, Prescott, Ryan, Scigliano, Smith (20), Webster, Welch—49.

Nays—0.

Absent or not voting—Brennan (17), Buckley, Collins, Connors, Conway, Cox, Dart, Davis, Donovan (19), Green, Hart, Hoban, Hoey, Howell, Jones, Kelly, Kinney, Kohler, McGivern, O'Hara, Pendergast, Smith (23), Spellman, Troy, Warren—25.

On motion of Mr. CRANE of Ward 24, the rejection of the order was reconsidered and assigned to the next meeting of the Council.

Mr. WELCH of Ward 13 in the chair.

DISCONTINUANCE OF SCHOOL SIGNAL.

Mr. O'NEIL of Ward 2 offered an order—That the Fire Commissioner be requested, through his Honor the Mayor, to inform this City Council the cause for the discontinuing of ringing the one-session signal on all public schools in Boston.

Referred to the Mayor.

ARC LIGHTS, WOOD ISLAND PARK.

Mr. O'NEIL of Ward 2 offered an order—That the Superintendent of Streets be hereby requested, through his Honor the Mayor, to have the arc lights at Wood Island Park lighted during the skating season.

Referred to the Mayor.

Adjourned at 9 p. m., on motion of Mr. CROCKER of Ward 11, to meet on Thursday, January 20, at 7.45 p. m.

PUBLIC BUILDINGS LIGHTING CHARGES.

Superintendent of Public Buildings Morrison has just transmitted to the Mayor a record of the electric lighting charges covering the City Hall, Old Court House and Old Probate Building from 1900 to date.

A most extraordinary showing of saving is made. It appears that during the first year of his office holding Mr. Morrison was able to reduce the bills for these buildings from \$12,402.47 to \$11,441.96; this year the bills have totaled \$7,261.12, a net saving of \$5,141.35 over the amount paid in 1907.

The following table gives the figures in detail:

DATE.	City Hall.	Old Court House.	28 Court Square and 30-32 Tremont Street.
1900.....	\$8,161 00	\$4,648 48	\$2,005 13
1901.....	6,802 40	4,181 63	1,625 84
1902.....	10,225 14	4,958 98	1,701 38
1903.....	9,623 22	3,256 52	1,757 84
1904.....	10,419 53	3,976 01	2,245 76
1905.....	7,179 60	3,115 00	1,350 00
1906.....	8,290 30	3,278 00	1,160 00
1907.....	7,687 20	3,437 60	1,277 67
1908.....	6,125 30	3,722 04	1,594 62
1909.....	4,179 69	2,200 83	880 60

CLASS HOURS, MUNICIPAL GYMNASIUMS.

The class hours of the several municipal gymnasiums are as follows:

At the Cabot Street Gymnasium, Roxbury; Ward 16 Gymnasium, Municipal Building, Columbia Road, Dorchester; D Street Gymnasium, Commonwealth Park, South Boston; North Bennet Street Gymnasium, City Proper:

Monday and Thursday for women and girls. Class hours: Mothers' class, 10 to 12 a. m.; school girls, 4 to 6 p. m.; ladies' class, 8 to 10 p. m.

Tuesday and Friday for men. Class hours: 8 to 10 p. m.

Wednesday and Saturday for boys. Class hours: Wednesday, school boys, 4 to 6 p. m.; working boys, 8 to 10 p. m. Saturday, school boys, 10 to 12 a. m. and 4 to 6 p. m.; working boys, 8 to 10 p. m.

Ward 7 Gymnasium, 75 Tyler street, City Proper. Schedule the same as the four gymnasiums above, with the exception that Tuesday and Thursday are for women and girls and Monday and Friday for men.

Ward 9 Gymnasium, corner Harrison avenue and Plympton street, city.

Monday and Thursday for women and girls from 10 a. m. to 6 p. m. Class hours: School girls, 4 to 6 p. m.; men, 8 to 10 p. m.

Tuesday and Friday for men all day. Class, 8 to 10 p. m.

Wednesday and Saturday for boys. Hours same as all other gymnasiums.

PROCEEDINGS OF SCHOOL COMMITTEE.

Jan. 12, 1910.

A special meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5:37 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Ellis, Lee, Magenis and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers on probation and under a license, as reported by the Superintendent and laid over at the last meeting.

The appointments were approved.

The following appointment by the Superintendent, certified by him as being in accordance with the rules and regulations, was presented:—

SPECIAL ASSISTANT.

Lyman District—Grace M. Quirk, from Nov. 8 to 15, 1909, inclusive.

Approved.

APPOINTMENT OF SPECIAL ASSISTANT REVOKED.

On motion of the Superintendent, it was ORDERED, That the appointment of Grace M. Quirk as special assistant, kindergarten, Lyman District, from Nov. 8 to 15, 1909, inclusive, approved Dec. 6, 1909, be, and hereby is, revoked.

EXPENDITURE FOR LECTURES FOR TEACHERS.

On motion of the Superintendent, it was ORDERED, That the Superintendent be, and hereby is, authorized to expend the sum of seventy-five dollars (\$75) for lectures by Professor P. P. Claxton of the University of Tennessee, on "The Place and Function of the High School" and "The Relations of Elementary Education," to be delivered before the teachers of the Boston public schools during the months of January or February, 1910.

JANITORSHIP, BOWKER BUILDING SCHOOL.

A communication was received from the Secretary, under date of Jan. 7, 1910, stating that pursuant to the action of the Board at the last meeting the Civil Service Commission has certified the following-named persons as eligible for appointment to the position of janitor of the Bowker Building School,—Dennis J. Lenehan, Daniel T. Kelly and Henry J. Mahoney.

Placed on file.

APPROPRIATION, TRADE SCHOOL FOR GIRLS.

A communication was received from the Business Agent, under date of Jan. 8, 1910, stating that the appropriation of \$800 to be expended by the Principal of the Trade School for Girls for the purpose of paying bills for materials which are to enter into products subsequently to be sold, etc., has been exhausted, and recommending that the sum of \$600 be appropriated for the same purpose during the current financial year, as it has been found by experience that that amount will be sufficient.

Placed on file.

On motion, it was ORDERED, That there be allowed and paid to the principal of the Trade School for Girls the sum of six hundred dollars (\$600), this sum being for the purpose of paying bills for materials which are to enter into products to be sold, express charges, car fares, and other small cash transactions, such sum to be accounted for by said principal to the City Auditor through the Business Agent, and the balance at the end of the financial year to be paid over by said principal to the Audi-

tor of the School Committee for transmission to the City Collector.

DATE OF BEGINNING OF TEACHERS' SALARIES.

A communication was received from the Business Agent, under date of Jan. 12, 1910, submitting for decision by the Board, in view of the recent ruling of the Corporation Counsel with reference to the date of the beginning of a teacher's salary, the case of a member of the supervising staff who was appointed to begin service on Jan. 1, 1910, but who actually began on Jan. 3, inasmuch as Jan. 1 was a part of the Christmas vacation, and the case of a teacher who was appointed to begin service on Nov. 29, 1909, on which day the schools were closed on account of stormy weather and the teacher did not report, as under the rules he is not required to, but who actually began service on Nov. 30.

Placed on file, the decision of the Committee being that the salary of the member of the supervising staff referred to in the first instance should begin on Jan. 3, 1910, and that in the second instance the Business Agent should assume in the absence of evidence to the contrary that the teacher is prepared and willing to begin service on the date of appointment, even though the school sessions may be suspended on that day on account of stormy weather.

MECHANIC ARTS HIGH SCHOOL.

A communication was received from Frederick P. Fish, under date of Jan. 10, 1910, transmitting a report of the sub-committee of the Advisory Committee of the Mechanic Arts High School with reference to machine equipment in connection with the proposed revision of the course of study for that school, as requested by the Board at the meeting of Sept. 20, 1909 (see p. 125).

Placed on file, and a copy of the accompanying report ordered to be transmitted to the Board of Schoolhouse Commissioners, with the information that this Board cordially approves of the recommendations contained therein and has taken affirmative action in the transfer of sundry unexpended balances to the account of the Mechanic Arts High School, with the understanding that said recommendations shall be carried into effect.

On motion it was

ORDERED, That the unexpended balance, amounting to \$8,500, of the \$105,000 designated by the Board of Schoolhouse Commissioners under date of Mar. 20, 1908, for additional accommodations in the Dudley District, be, and hereby is, transferred to the account of the Mechanic Arts High School; and that the Board of Schoolhouse Commissioners be requested to concur in the aforesaid transfer.

ORDERED, That the unexpended balance, amounting to \$18,000, of the \$140,000 designated by the Board of Schoolhouse Commissioners under date of Mar. 20, 1908, for additional accommodations in the Blackinton District, be, and hereby is, transferred to the account of the Mechanic Arts High School; and that the Board of Schoolhouse Commissioners be requested to concur in the aforesaid transfer.

TEMPORARY TRUANT OFFICER.

On motion, it was

ORDERED, That Achille Forte is hereby provisionally appointed to the position of truant officer, to date from Jan. 13, 1910, the appointment to continue only until the establishment by the Civil Service Commission of an eligible list of candidates conversant with the Italian language.

PRESENTATION OF OLD SOUTH LEAFLETS.

A communication was received from Albert L. Murdock, under date of Dec. 13, 1909, stating that he desires to present to each of the high schools of the city eight volumes of the Old South Leaflets, published by the Directors of the Old South Work, in addition to the thirty copies of Sanborn's Recollections of Seventy Years which he has already supplied to these schools.

Placed on file, and the Secretary directed to inform Mr. Murdock that his generous offer is accepted, and the thanks and appreciation of the Committee is extended to him.

APPLICATION FOR LEGISLATION FOR EVENING INDUSTRIAL SCHOOL.

On motion, it was ORDERED, That the Chairman is hereby authorized, on behalf of this Board, to petition for appropriate legislation to provide that the Commonwealth shall assume one-fifth of the amount expended between October, 1908 and June, 1909, for the maintenance of an evening industrial school conducted under the direction of the Commission on Industrial Education.

SALARIES OF ASSISTANTS, ADMINISTRATIVE OFFICES.

On motion, it was ORDERED, That the salary of Nellie M. Cronin, assistant in the office of the Secretary, be established at the rate of twelve hundred dollars (\$1,200) per annum, to date from Jan. 1, 1910, and until otherwise ordered.

On motion, it was ORDERED, That the salary of Alice Stevens, assistant in the office of the Secretary, be established at the rate of nine hundred dollars (\$900) per annum, to date from Jan. 1, 1910, and until otherwise ordered.

On motion, it was ORDERED, That Alexander M. Sullivan, assistant in the office of the Business Agent, be placed upon the fourth year of the salary schedule for clerks and stenographers employed in the offices of the School Committee, viz., seven hundred eighty dollars (\$780) per annum, to date from Feb. 1, 1910.

NAMING OF SCHOOL-HOUSES.

The Committee took up for consideration the recommendations submitted by Dr. Scannell at the meeting of Jan. 3, 1910 (see p. 196), relative to the naming of certain school-houses, and by a unanimous vote, it was

ORDERED, That on the completion and occupancy of the new elementary school in the Adams District, situated on Webster street, it be named the Samuel Adams School, and the present Adams School be named the John Barry School.

That the lower elementary school in the Lewis District, situated on Hutchings street, be named the William Lloyd Garrison School.

That the lower elementary school in the Sherwin-Hyde District, situated on Rugles street, be named the Lafayette School.

That the lower elementary school in the Sherwin-Hyde District, situated on Hunne-man street, be named the George T. Angell School.

That the Thetford-street School be named the Robert Swan School.

ADJOURNMENT.

The Board adjourned at 6:55 o'clock P. M.

Attest:—

THORNTON D. APOLLONIO,

Secretary.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the month of January:

Jan. 18, Franklin Union Hall, Mrs. V. McNally, mezzo-soprano, and Jacques Benavente, saxophone.

Jan. 20, Charlestown High School, F. Morse Wemple, baritone, and Barthold Silberman, violinist.

Jan. 28, Roxbury High School, Miss Emma Buttrick Noyes, soprano, and Frank H. Eaton, flutist.

The orchestra consists of ten skilled professional musicians of whom William Howard acts as the director. Prof. Louis C. Elson lectures at every concert, explaining and interpreting the program rendered. Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at several of the leading music stores, and at drug stores and other convenient stations in the vicinity of the different halls.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, JANUARY 22, 1910.

No. 4.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week, to insure its publication in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to the watering, cleaning, lighting, and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Aldermen, next meeting, January 24.
Common Council meets January 27.
School Committee meets January 31, 7.30 p. m.

Rapid Transit Commission. Stated meetings of the Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Harbor and Land Commissioners. Stated meetings of the Commission are held Mondays and Fridays, 2 p. m.; Wednesdays, 11 a. m.

A hearing will be had on the petition of Gordon Dexter, for leave to enlarge and occupy a brick building for two additional horses, making a total of five horses, rear 379 Dorchester avenue, Ward 15, on Thursday, January 27, 1910, at 11 a. m., in the office of the Board of Health, 11 Old Court House.

A hearing will be had on the petition of John W. Douse, for leave to occupy a proposed wooden building for two horses, rear 120 Train street, Dorchester, on Thursday, January 27, 1910, at 11 a. m., in the office of the Board of Health, 11 Old Court House.

A hearing will be had on the petition of Brighton Stock Yards Company, for leave to occupy a proposed wooden building for one hundred horses at 140-150 Market street (rear 550 feet), Ward 25, on Thursday, January 27, 1910, at 11 a. m., in the office of the Board of Health, 11 Old Court House.

A hearing will be had on the petition of James A. Larrabee, for leave to occupy a proposed wooden building for one cow, rear 89 Gladstone street, Ward 1, on Thursday, February 3, 1910, at 11 a. m., in the office of the Board of Health, 11 Old Court House.

A hearing will be had on the petition of Joshua Stanley, for leave to occupy a proposed wooden building for six horses, at 4601 Washington street, Ward 23, on Thursday, February 3, 1910, at 11 a. m., in the office of the Board of Health, 11 Old Court House.

LEGISLATIVE CALENDAR.

It is proposed hereafter to print weekly as accurately as possible the dates of committee hearings in the State House on bills affecting the City of Boston. Citizens anxious to really influence legislation should remember that the first and most valuable opportunity is in the committee room where the measures are being discussed. A great complaint of the past on the part of the legislators has been, that citizens have failed to recognize this fact and only appear after bills have been reported on to the legislature.

In making up this list the idea is to include bills which are apt to affect Boston interests even though the City of Boston may not be named in the title.

AGRICULTURE COMMITTEE. (Room 453.)
January 25, 10.30 a. m. Forestry hearings. Governor's address on forestry. Report of State Forester. Bill on suppression of elm tree beetle.

LEGAL AFFAIRS. (Room 249.)
January 24, 2.30 p. m. To make January 1 a legal holiday.

METROPOLITAN AFFAIRS. (Room 240.)
January 24, 10.30 a. m. That Boston city election be on Tuesday after the first Monday in December; to change the date of Boston city election; to provide that less signatures (than 5,000) will be necessary for nominations for municipal offices in Boston.
January 26, 10.30 a. m. Recommendations in annual report of Boston Finance Commission.

PUBLIC CHARITABLE INSTITUTIONS. (Room 440.)
January 24, 10.30 a. m. Recommendations in annual report of State Board of Charity.

PUBLIC SERVICE. (Room 441.)
January 25, 10.30 a. m. For retirement on pensions of probation officers who are Civil War veterans.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record*, by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

Other bids received were as follows: F. G. Whittaker, \$980; T. H. Hanlon, \$1,079; Holmes Building Company, \$1,096; C. D. Redmond, \$1,120.

ADDITIONS AND ALLOWANCES TO CONTRACTS.

Under the law the Mayor has during the week approved the following additions and allowances to contracts. Copies of these additions and allowances to contracts are on file in the office of the City Clerk.

CHILDREN'S INSTITUTIONS DEPARTMENT.

William Crane authorized to install electric work in Parental School for \$200. Original contract, \$47,336; total additions, \$200; total deductions, \$315.

Contract as stands, \$47,221.

HOSPITAL DEPARTMENT.

Jones & Meehan authorized to make additions to contract on boiler house of \$116.44. Original contract, \$30,636.81; total additions, \$116.44.

Contract as stands, \$30,753.25.

Smith and Lovett Company, authorized to make additions to contract in coal handling apparatus of \$326.20. Original contract, \$4,775; total additions, \$326.20. Contract as stands, \$5,101.20.

Lynch & Woodward authorized to make deductions from contract for steam piping, etc., of \$1,297.48. Original contract, \$36,826; total additions, \$409.53; total deductions, \$1,297.48.

Contract as stands, \$35,938.05.

PUBLIC BUILDINGS DEPARTMENT.

George A. Cahill authorized to make additions to contract of Old State House of \$1,025. Original contract, \$8,562; total additions, \$1,025.

Contract as stands, \$9,587.

SCHOOLHOUSE DEPARTMENT.

Pierce & Cox authorized to make additions to contract of Blackinton District Elementary School of \$174.31. Original contract, \$4,875; total additions, \$174.31; total deductions, \$9.

Contract as stands, \$5,040.31.

STREET DEPARTMENT.

John E. Burns & Co., authorized to perform extra work of furnishing and laying brick block pavement in Linden Park, Vernon, Whittier, Ruggles, Downing, Simmons and Hampshire streets, at an estimated cost of \$1,050.

PERMISSION GRANTED.

While the Aldermen have certain powers in the granting of licenses and permission to store gasoline and project bay windows, etc., the approval of the Mayor is in all cases necessary to make such permits legal.

The Mayor has during the week approved the following requests of this general nature:

FOR USE OF FANEUIL HALL.

R. F. Field, day, December 30, 1909; William C. Wall, noon, December 31, 1909, and January 5, 1910; Women's Trade Union League, evening, January 15, 1910; John F. McDonald, day and evening, January 3, 1910; Francis D. O'Donnell, evening, January 5, 1910; T. F. Callahan, day, January 6, 1910; John J. Gallagher, day and evening, January 1, 1910; Boston Lodge No. 10, B. P. Elks, evening, February 20, 1910; Sons of Veterans, afternoon and evening, February 22, 1910; W. R. F. Whelan, evening, February 21, 1910; Music Trustees, February 23, 1910.

GASOLINE PERMITS.

For keeping and sale of gasoline, permits were issued to P. V. Sullivan, 193 Humboldt avenue, Ward 21; Mattapan Motor Car Company, 6 Oakland place, Ward 24; Suburban Auto Supply Company, 2 Robert street, Ward 23.

Lyde W. Benjamin was granted permission to sink a gasoline tank at rear of 121 School street, Ward 22.

James Welch was granted permission to keep dynamite, exploders, etc., in vacant land at corner of Washington street and Corey road, Ward 25.

STREET DEPARTMENT.

Miles G. Palmer permitted to maintain a portion of the building over the easement taken for Stony brook.

PERMISSION TO CONSTRUCT.

STREET DEPARTMENT.

Permission has been granted to the Superintendent of Streets by the Mayor for the following work in excess of \$1,000 in cost with the department force without competition: A surface drain, of concrete, between Greenwood and Kilton streets, Dorchester district, the estimated amount being \$7,866.

"This work can, in my opinion, be as advantageously done by labor methods as any work now necessary."

"(Signed) GUY C. EMERSON,
"Superintendent of Streets."

LAND-TAKINGS.

Land-takings are made by the Street Commissioners in conjunction with the Schoolhouse Commissioners for school purposes and by the commissioners in their own right for street construction, and for the construction of sewers or drains. Takings made for schools and streets are made outright. In certain cases though the city only takes a right of way where permission is desired to construct sewers and drains.

Takings made for the construction of streets will be given each week under the caption of "New Street Construction." Other takings will be grouped under general "Land-Takings" caption.

STREET LAYING-OUT DEPARTMENT.

Edward M. and George S. Winslow, were awarded damages of \$5,900 and costs occasioned their estate on Knox street by taking made for schoolhouse purposes on advice of Law Department.

STREET DEPARTMENT.

Two parcels of land, owners unknown, were taken for sewerage purposes on Princeton avenue and Long avenue, one containing 2,057 square feet more or less, the other 3,351 square feet more or less.

CIRCULAR FROM THE MAYOR.

MAYOR'S OFFICE,
Boston, January 21, 1910.

To the Heads of Departments:

You are hereby directed to adjust your wage schedules so that all the mechanics in the employ of your department will be paid according to the scale now established by the local unions in their several lines of employment, the said readjustment to take effect from and after this date. You will be particular, however, to see that the men to whom these increases are granted are actually performing the work designated by their ratings, and not to men who may have secured entry into the city's employ on a certain rating, but who are engaged in other work. In cases where a man is employed at this special work for only a portion of each week, attention must be paid to a

proper adjustment, so that he will receive union compensation for such time as he is actually employed at that work.

The elimination of "students" from the pay rolls has now made it possible for the city to effect this general advance in wages without increasing the cost of labor to any appreciable extent, and it is important, I feel, that the city should act liberally in dealing with its faithful employees, thereby setting an example to private employers and other corporations.

Respectfully,
GEORGE A. HIBBARD,
Mayor.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the month of January:

Jan. 28, Roxbury High School, Miss Emma Buttrick Noyes, soprano, and Frank H. Eaton, flutist.

The orchestra consists of ten skilled professional musicians of whom William Howard acts as the director. Prof. Louis C. Elson lectures at every concert, explaining and interpreting the program rendered. Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at several of the leading music stores, and at drug stores and other convenient stations in the vicinity of the different halls.

CLASS HOURS, MUNICIPAL GYMNASIUMS.

The class hours of the several municipal gymnasiums are as follows:

At the Cabot Street Gymnasium, Roxbury; Ward 16 Gymnasium, Municipal Building, Columbia Road, Dorchester; D Street Gymnasium, Commonwealth Park, South Boston; North Bennet Street Gymnasium, City Proper:

Monday and Thursday for women and girls. Class hours: Mothers' class, 10 to 12 a. m.; school girls, 4 to 6 p. m.; ladies' class, 8 to 10 p. m.

Tuesday and Friday for men. Class hours: 8 to 10 p. m.

Wednesday and Saturday for boys. Class hours: Wednesday, school boys, 4 to 6 p. m.; working boys, 8 to 10 p. m. Saturday, school boys, 10 to 12 a. m. and 4 to 6 p. m.; working boys, 8 to 10 p. m.

Ward 7 Gymnasium, 75 Tyler street, City Proper. Schedule the same as the four gymnasiums above with the exception that Tuesday and Thursday are for women and girls and Monday and Friday for men.

Ward 9 Gymnasium, corner Harrison avenue and Plympton street, city.

Monday and Thursday for women and girls from 10 a. m. to 6 p. m. Class hours: School girls, 4 to 6 p. m.; men, 8 to 10 p. m.

Tuesday and Friday for men all day. Class, 8 to 10 p. m.

Wednesday and Saturday for boys. Hours same as all other gymnasiums.

CENSUS EXAMINATIONS.

Supervisors of the Census are appointed by the President, by and with the advice and consent of the Senate.

Applications for the position of enumerator, supervisor's clerk or interpreter should be addressed to the supervisor of the district in which the applicant seeks employment—Mr. Charles F. Gettemy, State House, Boston.

Examinations for the appointment of special agents will be announced later. Application for appointment as special agent should be made to the Director of the Census, Washington, D. C., and not the Civil Service Commission.

PROCEEDINGS OF SCHOOL COMMITTEE.

Jan. 17, 1910.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 4:33 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Ellis, Lee, Magenis and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

DECLINATION OF APPOINTMENT.

A communication was received from the Superintendent, under date of Jan. 17, 1910, reporting that Mary C. Powell, who at the meeting of Dec. 20, 1909, was appointed an assistant in the Lyman District, to date from Dec. 20, 1909, has declined to accept the position.

Placed on file.

On the report of the Superintendent, and under a suspension of the rules, leave of absence without loss of pay, was granted the following-named teacher and principal for the terms specified:—

English High School—Frank O. Carpenter, master, head of department, Jan. 13, 1910, one day.

Horace Mann School—Sarah Fuller, principal, Jan. 14, 1910, one day.

On the report of the Superintendent, leave of absence for study, under the provisions of section 317 of the regulations, was granted each of the following-named teachers for the terms specified:—

Dearborn District—Lucy Hamlin, assistant, from Jan. 17 to Aug. 31, 1910.

Mather District—Elizabeth V. Cloney, assistant, from Feb. 1, 1910, to Feb. 1, 1911.

On motion of the Superintendent, it was ORDERED, That the leave of absence for study and travel, under the provisions of section 317 of the regulations, granted

to Caroline F. Melville, an assistant in the Gilbert Stuart District, from Jan. 1 to Apr. 30, 1910, be, and hereby is, extended to Aug. 31, 1910.

On motion of the Superintendent, it was ORDERED, That the leave of absence granted at the meeting of Jan. 3, 1910, to Helen F. Veasey, assistant instructor in manual training, for Jan. 7, 14, 21, 28, Feb. 4, 11, 18, 25, and Mar. 4, 11, 18, 25, 1910, twelve days, be, and hereby is, rescinded.

ACTING PRINCIPAL, PRE-APPRENTICE SCHOOL IN PRINTING AND BOOKBINDING.

A communication was received from the Superintendent, under date of Jan. 17, 1910, reporting that he had designated Augustus H. Kelley, Master of the Lyman District, to act as principal of the Pre-Apprentice School in Printing and Bookbinding, to date from Jan. 19, 1910, and until the position is otherwise filled in accordance with the rules and regulations.

Placed on file.

ACTING MASTER'S ASSISTANT, GILBERT STUART DISTRICT.

A communication was received from the Superintendent, under date of Jan. 17, 1910, reporting that he had designated Edith A. Scanlon to act as master's assistant in the Gilbert Stuart District, during the absence on leave of Caroline F. Melville, from Apr. 30, 1910, and until the position is otherwise filled in accordance with the rules and regulations.

Placed on file.

MINORS' LICENSES.

A communication was received from the Superintendent, under date of Jan. 17, 1910, recommending that, in accordance with applications which are on file in his office, minors' licenses be granted as follows:—

To sell newspapers.....29

To black boots.....11

To act as pedlars.....1

Issue of licenses authorized accordingly.

TEACHERS' COUNCIL ON PENSIONS.

A communication was received from the Superintendent, under date of Jan. 17, 1910, reporting that the following-named persons have been elected members of the Teachers' Council on Pensions in accordance with the plan adopted by the School Committee on Nov. 8, 1909:—

GROUP 1—Augustine L. Raftier.

GROUP 2—Loea P. Howard, Joshua M. Dill, John F. Eliot.

GROUP 3—Mary C. Mellyn.

GROUP 4—Samuel F. Tower, James E. Downey, Charles L. Reed.

GROUP 5—Mary L. Adams, Elizabeth E. Hough, Rose A. Carrigan.

GROUP 6—George A. Smith, Murray H. Ballou, Arthur A. Lincoln.

GROUP 7—Mary E. Perkins, Lily B. Atherton, Elizabeth G. Melcher.

GROUP 8—Division 1. Ellenette Pillsbury, Caroline E. Gary, Lydia E. Hapenny, Florence M. Glover.

Division 2. Eleanor A. M. Colleton, Katherine A. Kiggen, Lulu A. L. Hill, Isabel R. Haskins.

Division 3. Bridget A. Foley, Adella E. Baldwin, Anna E. Murdock, Clara P. Wardwell.

Division 4. Elizabeth J. Andrews, Caroline M. Kingman, Julia G. Leary, Fannie G. Patten.

Division 5. Katharine A. Cunneiff, Katharine A. Regan, Mary I. Chamberlin, Florence Cahill.

Division 6. Alice M. Barton, Mary A. McCarthy, Annie E. Bancroft, Annie W. Leonard.

Division 7. Elizabeth C. Bonney, Mary Waterman, Mary H. Brick, Mary L. Merrick.

GROUP 9—A. Gertrude Malloch, Elizabeth C. Barry, Lillian B. Poor.

GROUP 10—Florence P. Donelson, Mary C. Mitchell, Celia B. Hallstrom.

Placed on file, and the Secretary directed to notify the delegates of their election, and of the meeting to be held for the organization of the Council and election of officers.

SPECIAL ASSISTANT INSTRUCTOR IN COMMERCIAL BRANCHES, EAST BOSTON HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That a special assistant instructor in commercial branches instead of

a special assistant, be, and hereby is, authorized in the East Boston High School, for the remainder of the school year 1909-1910.

PAYMENT TO SARAH E. RUMRILL.

On motion of the Superintendent, it was ORDERED, That Sarah E. Rumrill, assistant, Dudley District, be paid twenty-three and 40-100 dollars (\$23.40), compensation for nine days on which the schools were not in session during her absence from May 24 to June 23, 1909.

PAYMENT TO NELLIE S. MORRIS.

On motion, it was ORDERED, That the order passed Jan. 3, 1910, relative to the payment of two dollars (\$2) to Nellie S. Morris for four days' service as kindergarten attendant in the Mather District, be, and hereby is, rescinded.

PAYMENT TO EMMA SCHULZ.

On motion of the Superintendent, it was ORDERED, That Emma Schulz be paid two dollars (\$2) for four days' service as kindergarten attendant in the Mather District, from Jan. 4 to 8, 1909, inclusive.

PAYMENT TO THOMAS A. WHALEN.

On motion of the Superintendent, it was ORDERED, That Thomas A. Whalen be paid the sum of twenty-five dollars (\$25), as compensation for services rendered in connection with the establishment of the Pre-Apprentice School in Printing and Bookbinding.

SALARY OF CLERKS ASSIGNED TO DIRECTOR OF SCHOOL HYGIENE.

On motion of the Superintendent, it was ORDERED, That the salary of the clerks in the office of the Superintendent who have been assigned to the Director of School Hygiene be charged to the appropriation for physical education.

AMENDMENT TO REGULATIONS.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows:—

Section 384. Strike out the section and insert in place thereof the following:—

Sect. 384. Principals of districts may, with the approval of the assistant superintendent in charge, decline to admit pupils to the kindergarten when the number in attendance exceeds fifty; and they may decline to admit applicants under seven years of age to the first grade after October 31, or March 31, in each year; but a record shall be kept of all applicants who have been so refused admission.

Laid over.

RESIGNATION AND APPOINTMENT OF ASSISTANTS, SECRETARY'S OFFICE.

A communication was received from the Secretary, under date of Jan. 17, 1910, reporting the resignation of Agnes R. Hurley, an assistant in his office, to date from Jan. 15, 1910, and the transfer of Ellen T. Ryan, an assistant in the office of the Auditor, to fill the resultant vacancy, to date from Jan. 18, 1910, subject to the approval of the Board, said transfer having received the approval of the Auditor.

Placed on file, the resignation accepted, and the transfer approved.

ELECTRIC LIGHTING, SCHOOL BUILDINGS.

A communication was received from the Business Agent, under date of Jan. 15, 1910, stating that the indirect system of lighting class-rooms, as installed in a number of the school buildings, is very inefficient and unsatisfactory, and recommending that the Schoolhouse Commission be requested to remove all indirect lighting fixtures now in the class-rooms and replace them with more effective and satisfactory fixtures.

Placed on file.

On motion, it was ORDERED, That the Schoolhouse Commission be requested to remove all indirect lighting fixtures now installed in class-

rooms and replace them with more efficient fixtures at as early a date as the finances of the department will permit.

STANDARDIZATION OF SCHOOL ACCOUNTS.

A communication was received from the Business Agent, under date of Jan. 17, 1910, stating that a movement toward standardizing the accounts of the school systems of the principal cities of the country has been started at the suggestion of the United States Commissioner of Education, and that it is proposed to hold a meeting of the accountants of five or six of the largest cities at some city in the middle West, such as Kansas City, to form a temporary organization as the basis of a permanent association, and recommending that he be authorized to attend such a meeting in Kansas City, at an expense not to exceed \$150.

Placed on file.

On motion, it was ORDERED, That the Business Agent be authorized to attend a meeting for the temporary organization of the accountants of school systems at Kansas City, at an expense to the City not to exceed one hundred and fifty dollars (\$150).

FOOTBALL.

A communication was received from the Director of School Hygiene, under date of Jan. 15, 1910, in response to the order passed at the meeting of Dec. 23, 1909 (see p. 186), requesting the department of school hygiene to come at an early date with reference to making a full inquiry into the game of football as played by the pupils of the public schools of Boston, to consider the rules and methods of playing said game with reference to the physical safety of the players, and to make recommendations as to a continuance or discontinuance of the game, making a report and various recommendations with regard to this subject.

Laid on the table, and a copy of the report ordered to be transmitted to each member of the Board.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Jan. 17, 1910, submitting a list of temporary appointments, reappointments and transfers of janitors, for periods of ten days or less, and amounts due for such services as follows:—

Bowker Building School—Archibald P. Goodman, reappointed from Jan. 11, 1910; amount due from Jan. 4 to 17, 1910, inclusive, \$14.

Cook School-house and Portable No. 40—Charles Timmins, reappointed from Jan. 5 and from Jan. 15, 1910; amount due from Jan. 4 to 17, 1910, inclusive, \$20.78.

Emerson Primary School-house and Portable No. 55—Edward Hackett, appointed Jan. 10, 1910; amount due from Jan. 10 to 17, 1910, inclusive, \$12.95.

Hutchings-street Portables Nos. 41, 102, 103 and 105—John Powers, reappointed from Jan. 9, 1910; amount due from Jan. 4 to 17, 1910, inclusive, \$18.46.

Joseph Tuckerman School-house—James E. Johnson, amount due from Jan. 4 to 8, 1910, inclusive, \$11.73.

Joy-street Portables Nos. 97, 98, 99 and 100—Henry T. Brennan, reappointed from Jan. 4, 1910; amount due from Jan. 4 to 17, 1910, inclusive, \$18.46.

Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42—William H. Johnson, again temporarily transferred from Jan. 7, 1910; amount due from Jan. 4 to 17, 1910, inclusive, \$60.42.

Walnut-street School-house—James E. Johnson, temporarily transferred from Jan. 9, 1910; amount due from Jan. 9 to 17, 1910, inclusive, \$15.84.

Warren School-house—Thomas F. Powell, again temporarily transferred from Jan. 11, 1910; amount due from Jan. 4 to 17, 1910, inclusive, \$39.70.

Wendell Phillips School-house—Michael E. Colleary, temporarily transferred from Jan. 10, 1910; amount due from Jan. 10 to 17, 1910, inclusive, \$21.71.

Placed on file, and the reappointments and transfers approved.

On motion, it was ORDERED, That for services rendered as acting janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, Joy-street Portables Nos. 97, 98, 99 and 100, from Jan. 4 to 17, 1910, inclusive, eighteen and 46-100 dollars (\$18.46).

To Michael E. Colleary, Wendell Phillips School-house, from Jan. 10 to 17, 1910, inclusive, twenty-one and 71-100 dollars (\$21.71).

To Archibald P. Goodman, Bowker Building School, from Jan. 4 to 17, 1910, inclusive, fourteen dollars (\$14).

To Edward Hackett, Emerson Primary School-house and Portable No. 55, from Jan. 10 to 17, 1910, inclusive, twelve and 96-100 dollars (\$12.96).

To James E. Johnson, Joseph Tuckerman School-house, from Jan. 4 to 8, 1910, inclusive, eleven and 73-100 dollars (\$11.73); Walnut-street School-house, from Jan. 9 to 17, 1910, inclusive, fifteen and 84-100 dollars (\$15.84).

To William H. Johnson, Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42, from Jan. 4 to 17, 1910, inclusive, sixty and 42-100 dollars (\$60.42).

To Thomas F. Powell, Warren School-house, from Jan. 4 to 17, 1910, inclusive, thirty-nine and 70-100 dollars (\$39.70).

To John Powers, Hutchings-street Portables Nos. 41, 102, 103 and 105, from Jan. 4 to 17, 1910, inclusive, eighteen and 46-100 dollars (\$18.46).

To Charles Timmins, Cook School-house and Portable No. 40, from Jan. 4 to 17, 1910, inclusive, twenty and 78-100 dollars (\$20.78).

SALARY OF ASSISTANTS, ELEMENTARY SCHOOLS.

A petition was received from thirteen hundred and ninety-nine assistants in elementary schools that there be included in the budget for 1910 an amount sufficient to provide for an increase in the salaries of the elementary school assistants to a maximum of \$1200 per annum, to be reached in three years, and to make an upward revision of the present salary schedule of all teachers whose maximum salary is now below \$1000.

Laid on the table.

SALARY OF TEACHERS OF BOYS' CLASSES.

Mary E. T. Healy and Mary N. Regan of the Sherwin District, Annie G. Scollard of the Wendell Phillips District, and Antoinette M. Getchell of the Dudley District, representing assistants employed in boys' schools, appeared and were heard in support of an application for increased compensation for such assistants, because of the difficulty and responsibility attached to their work.

Messrs. Edward P. Shute, Master of the Sherwin District, Frederick P. Swan, Master of the Quincy District, and John F. McGrath, Master of the Eliot District, also addressed the Board in support of the foregoing application.

The matter was laid on the table.

COMPENSATION OF JANITORS.

Communications were received from William M. Kendricken, Secretary, Janitors' Association of the Boston Public Schools, under date of Jan. 14, 1910, requesting on behalf of said association that the School Committee include in the budget for the ensuing year a ten per cent increase in the salaries of janitors based on the present schedule; and also requesting that a hearing be granted the Arbitration Committee of said association with reference to extra inside window cleaning, and compensation for use of halls, etc., after hours, for Parents' Association meetings, and for extra work performed and not included in the schedule.

Laid on the table.

NAMING OF SCHOOL-HOUSES.

A communication was received from Myrtle L. Hodge, Regent of General Benjamin Lincoln Chapter, D. A. R., under date of Jan. 13, 1910, requesting on behalf of said chapter that the John Barry School be named the Commodore Barry or Commodore John Barry School.

Laid on the table.

PENSIONS FOR TRUANT OFFICERS.

A petition was received from John T. Hathaway, Chairman of the Committee on

Pensions for Truant Officers, under date of Jan. 10, 1910, requesting that the Legislature be petitioned in the name of the School Committee of the City of Boston for the passage of a bill providing for the retirement and pensioning of truant officers in the public school service of Boston, and transmitting a copy of a proposed bill for approval and endorsement.

Laid on the table.

CONDITION OF STREETS IN DORCHESTER.

A petition was received from Mrs. J. Shufro and thirteen other residents of the Roger Wolcott District, under date of Jan. 8, 1910, calling attention to the condition of the streets in Dorchester, and requesting the cooperation of the School Committee in remedying the matter.

Laid over.

HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILDING.

Mr. Brock, in behalf of himself and Dr. Scannell, to whom was referred at the meeting of Dec. 20, 1909 (see pp. 181, 182) the communication received from the Board of Schoolhouse Commissioners relative to the selection of a site for the High School of Commerce and School Administration Building, made an oral report in favor of said site, whereupon the communication was placed on file and the following order passed:

ORDERED, That the School Committee, in accordance with Chapter 446 of the Acts of 1909 hereby approves of a certain piece or parcel of land situate on Warren street, as bounded and described in a communication addressed to this Board by the Board of Schoolhouse Commissioners under date of Dec. 17, 1909, as a site for a building to be occupied by the High School of Commerce and by the administration offices of the School Committee and of the Board of Schoolhouse Commissioners.

APPROVAL OF PAY ROLLS AND BILLS.

On motion, it was

ORDERED, That the pay rolls and bills, both regular and special, for the month of February, 1910, prepared and certified to by the Business Agent, be approved on behalf of this Board by Mr. Ellis, or in the event of his absence by Dr. Scannell.

ADJOURNMENT.

The Board adjourned at 7:10 o'clock P. M., to meet on Wednesday, Jan. 19, 1910, at 4:30 o'clock P. M.

Attest:—

THORNTON D. APOLLONIO.

Secretary.

Jan. 19, 1910.

An adjourned meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5:09 o'clock P. M., the Chairman presiding.

Present: Messrs. Ellis, Lee and Magenis.

APPLICATIONS FOR LEGISLATION.

On motion, it was

ORDERED, That the Chairman be authorized to present to the Legislature on behalf of this Board petitions and bills as follows:—

1. For further funds to provide additional permanent elementary school accommodations.

2. That the Commonwealth shall assume one-half of the cost of maintaining day and evening industrial schools in the city of Boston, conducted by the School Committee with the approval of the State Board of Education.

3. That the appropriations available for pension purposes be equitably apportioned among the persons entitled to the same.

ADJOURNMENT.

The Board adjourned at 6:30 o'clock P. M. Attest:—

THORNTON D. APOLLONIO.

Secretary.

CITY OF BOSTON.

PROPOSALS FOR REPAIRING ASPHALT.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing asphalt pavement in any street in Boston, not under guarantee, when ordered to do so by the Superintendent of Streets, between February 1, 1910, and January 31, 1911, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder, and left at said office, before 12 o'clock m. of Tuesday, January 25, 1910, with a certified check for \$500, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate without check to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The Contractor will furnish his own specification and attach same to the proposal. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals, and no proposal will be accepted unless a fair, reasonable price is bid for each item. The proposal should be inclosed in an envelope, sealed and marked "Proposal for Repairing Asphalt Pavements."

GUY C. EMERSON,
Superintendent of Streets.

Boston, January 14, 1910. (Jan. 22.)

CITY OF BOSTON.

PROPOSALS FOR CLEANING CATCH-BASINS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for cleaning about 6,000 catch-basins in the following districts: No. 1, South Boston, about 500 basins; No. 2, East Boston, about 500 basins; No. 3, Charlestown, about 500 basins; No. 4, Brighton, about 500 basins; No. 5, West Roxbury, about 500 basins; No. 6, Dorchester, about 1,000 basins; Nos. 7 and 8, Roxbury and city proper, about 1,500 basins; Nos. 9 and 10, city proper, about 1,000 basins; and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Tuesday, January 25, 1910, with a certified check for \$100 for each district, or \$800 for all the districts, payable to and to be the property of the city if the proposal is not carried out, will, at said hour and place, be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals. The proposal should be inclosed in an envelope, sealed and marked "Proposal for Cleaning Catch-basins."

GUY C. EMERSON,
Superintendent of Streets.
Boston, January 14, 1910. (Jan. 22.)

CITY OF BOSTON.

PROPOSALS FOR FURNISHING TEAMS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for furnishing single and double teams in the following districts: No. 1, South Boston; Nos. 2 and 3, East Boston and Charlestown; No. 4, Brighton; No. 5, West Roxbury; Nos. 6 and 12, Dorchester; No. 7, Roxbury; No. 8, South End; No. 9, Back Bay; No. 10, North and West Ends;—from time to time, as may be needed, between February 1, 1910, and January 31, 1911, and giving bond therefor of a surety company, approved by the superintendent. The contractor will furnish the teams, horses, harnesses, men, etc., and will submit a price for each single and double team, and also a separate price for each extra man that may be needed in the above districts in the following divisions of the Street Department: Paving Division, Sanitary Division, Sewer Division and Street Cleaning Division. The contractor will furnish his own proposal and leave same at said office before 12 o'clock m. of Monday, January 24, 1910, with a certified check for \$300, payable to and to be the property of the city if the proposal is not carried out, and will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any and all proposals. The proposal should be inclosed in an envelope sealed and marked, "Proposal for Furnishing Teams."

GUY C. EMERSON,
Superintendent of Streets.
Boston, January 14, 1910. (Jan. 22.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing plumbing system in Elementary School, Winthrop-Brimmer District (Abraham Lincoln School), Ferdinand, Melrose and Fayette streets, Boston, Mass., and giving bond of a surety company therefor in the sum of \$5,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Monday, January 31, 1910, at said office, with a certified check for \$1,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trades unions' rate of wages.

R. CLIPSTON STURGIS,
THOMAS LEAVITT,
EDWARD R. GREGORY,
Commissioners.

(Jan. 22.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for building Elementary School, Lewis District (William Lloyd Garrison), Hutchings and Brookledge streets, Boston, Mass., and giving bond of a surety company therefor in the sum of \$25,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, February 4, 1910, at said office, with a certified check for \$2,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trades unions' rate of wages.

R. CLIPSTON STURGIS,
THOMAS LEAVITT,
EDWARD R. GREGORY,
Commissioners.

(Jan. 22.)

CITY OF BOSTON.

PROPOSALS FOR REPAIRING DOUBLE SCREW FERRYBOAT "GENERAL SUMNER."

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for repairing double screw ferryboat "General Sumner," and giving bond therefor of a surety company approved by the superintendent, in the sum of five thousand (5,000) dollars. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Tuesday, January 25, 1910, with a certified check for \$1,000, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor previous to the time named for opening bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Repairing Ferryboat General Sumner."

GUY C. EMERSON,
Superintendent of Streets.
Boston, January 14, 1910. (Jan. 22.)

CITY OF BOSTON.

PROPOSALS FOR COAL.

Contractors are invited to furnish proposals for a supply of whatever hard white ash, broken, egg and stove coal, and also whatever bituminous coal for steam purposes, that may be required for the public buildings, and for the several departments of the City of Boston not otherwise provided for, from February 1, 1910, to May 1, 1910. A certified check for \$1,000, payable to and to be the property of the City of Boston if the proposal is not carried out must be filed with the proposal. A satisfactory bond in the sum stated in the contract will also be required. The bidders must use the form of proposal to be obtained at the office of the Supply Department, 826 Tremont Building, fill out and sign the same, and leave it at the office of the Superintendent of Supplies before 12 o'clock m. of Monday, January 31, 1910, at which time and place said proposals will be publicly opened and read. The proposals and check should be inclosed in an envelope indorsed "Proposals for Coal." The undersigned reserves the right to reject any and all proposals and give preference to bidders paying the trades unions' rate of wages.

J. EDWARD MULLEN,
Superintendent of Supplies.

(Jan. 22-29.)

CITY OF BOSTON.

PROPOSALS FOR TEAMING COAL TO FERRYBOATS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for teaming coal from coal pockets at the North or South Ferry and delivering same to ferryboats at North or South Ferry, East Boston side, between February 1, 1910, and January 31, 1911. The contractor shall also remove the ashes and give a bond of a surety company approved by the superintendent. He must also furnish his own proposal and leave same at said office before 12 o'clock m. of Monday, January 24, 1910, with a certified check for \$100, payable to and to be the property of the city if the proposal is not carried out; the proposal will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any and all proposals. For further information regarding these proposals call at the office of the superintendent. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Teaming Coal."

GUY C. EMERSON,
Superintendent of Streets.
Boston, January 14, 1910. (Jan. 22.)

CITY OF BOSTON.

PROPOSALS FOR TROLLEY SYSTEM, OR OTHER SUITABLE SYSTEM, FOR CARRYING COAL, LONG ISLAND, BOSTON HARBOR.

The Boston Infirmary Trustees invite proposals for construction and installation of a trolley system, or other suitable system, for transporting coal from the coal sheds to the power house of the Almshouse and Hospital on Long Island, Boston Harbor, and furnishing bond of a surety company satisfactory to the Trustees, proposals to be accompanied by plans and specifications of the system on which the bid is made. Plans showing the grade, and the construction of the coal shed and wharf, will be provided upon application at the office of the Trustees, 28 Court square, Room 3. The proposal should be enclosed in a sealed envelope marked "Proposal for Coal Carrying System, Long Island," and left at the above-named office with certified check for \$100, payable to and to be the property of the city if the proposal is not carried out, before 12 m. on Wednesday, March 2, 1910, at which time and place the bids will be publicly opened and read. Duplicate proposal, without check, should be filed with the City Auditor previous to the time named for opening the bids. The Trustees reserve the right to reject any or all bids.

EDWARD M. GALLAGHER,
Chairman.
(Jan. 22-Feb. 5-19.)

CITY OF BOSTON.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 12 o'clock Friday, January 28, for the hay, grain and straw needed in the different departments for February, 1910. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1, straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The oats must be No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate must be filed, without the check, with the City Auditor. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Friday, January 28, at 12 m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
Superintendent of Supplies.
(Jan. 22.)

CITY OF BOSTON.

Area of city, 42.65 square miles, or 27,300 acres.
Miles of streets, 511.60.
Number of buildings, including tenement houses, 87,327.
Tenement houses, including four or more families, 7,000.
Public parks and playgrounds, 2,507.15 acres.

PROCEEDINGS OF BOARD OF ALDERMEN.

Monday, January 17, 1910.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 3 o'clock p.m., Chairman BRAND presiding. Absent Ald. ATTRIDGE.

The Board voted, on motion of Ald. TIMILTY, to dispense with the reading of the records of the last three meetings.

NOTICE OF APPOINTMENT.

The following was received:

City of Boston,
Office of the Mayor, January 17, 1910.
To the Gentlemen of the Board of Aldermen:
You are hereby notified that I have this day appointed Fred S. Gore (1016 Adams street, Ward 24) Penal Institutions Commissioner, under chapter 449 of the Acts of 1895, and acts in amendment thereof or addition thereto, for the term ending April 30, 1910.

Respectfully,

G. A. HIBBARD, Mayor.

Placed on file.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Board, the Mayor submitted the following appointments:

(1) Albert W. Hersey (4 Wellington court), a Cemetery Trustee for the term ending April 30, 1914.

(2) Andrew J. Condon (27 Welber street, Ward 17), a Constable of the City of Boston for the term ending April 30, 1910.

(3) Walter C. Katzman (257 Main street, Everett), a Weigher of Beef for the term ending April 30, 1910.

(4) For the term ending April 30, 1910, Thomas Gordon (Broadway, Revere, Mass.), Harry L. Orr (35 Dimick street, Somerville), and George E. Thayer (285 Medford street, Somerville), to be Weighers of Coal, Measurers of Wood and Bark, Measurers of Grain, Weighers of Boilers and Heavy Machinery and Weighers of Beef.

Severally laid over, under the law.

SKATING, MARCELLA STREET PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, January 10, 1910.
To the Gentlemen of the Board of Aldermen:
I transmit herewith a communication from the Board of Park Commissioners containing an answer to your request that the Marcella street playground be flooded for skating.

Respectfully,

G. A. HIBBARD, Mayor.

City of Boston,
Board of Commissioners of the
Department of Parks.

January 8, 1910.

Hon. George A. Hibbard, Mayor.

Dear Sir.—Referring to the order of the Board of Aldermen, of December 27, requesting that Marcella Street Playground be flooded for skating, the expense attending the same to be charged to the appropriation for the Park Department, I would say that, on account of the steep grade of Marcella Street Playground, it is not practicable to flood an area of any size for skating purposes. For example, it would require a dike about 400 feet long and 3 feet high to obtain an area of about five-sixths of an acre for flooding. This would cost \$400, and would require removal again in the spring.

Furthermore, the playground is made up almost entirely of ashes from the Sanitary Division, and it would be very difficult to hold water within such an area unless it were well puddled with clay, which would be an additional expense and almost impracticable to construct at this season of the year.

Our Board has declined similar requests to flood this playground in the past for these same reasons.

Yours respectfully,

ROBERT S. PEABODY, Chairman.

Placed on file.

CONDITION OF SOUTH BOSTON BRIDGES.

The following was received:

City of Boston,
Office of the Mayor, January 17, 1910.
To the Gentlemen of the Board of Aldermen:
I transmit herewith a communication from the City Engineer containing an answer to your order requesting an estimate of the cost of putting all bridges to South Boston in safe and suitable condition for the carrying of heavy cars.

Respectfully,

G. A. HIBBARD, Mayor.

City of Boston,
Engineering Department, January 15, 1910.
Hon. George A. Hibbard, Mayor:
Sir,—In compliance with the order of the Board of Aldermen, "That the City Engineer be requested to furnish this Board, at its next session, with an estimate of the cost of putting all bridges to South Boston in safe and suitable condition for the carrying of heavy cars," the following is submitted:

Summer Street Bridge, over Fort Point channel: Strengthening floor system of draw.....	\$16,000
Dorchester Avenue Bridge, over Fort Point channel: New draw and strengthening floor of pile bridge.....	60,000
Broadway Bridge, over Fort Point channel: New draw.....	150,000
Broadway Bridge, over Boston & Albany Railroad: Strengthening floor system.....	20,000
Dover Street Bridge, over Fort Point channel: Strengthening floor system of draw and fixed spans.....	25,000
West Fourth Street Bridge over New York, New Haven & Hartford Railroad: Strengthening floor system.....	27,000
L Street Bridge, over Reserved channel: Strengthening floor system of draw and pile bridge.....	25,000
Total.....	\$323,000

Yours respectfully,

WILLIAM JACKSON, City Engineer.

Placed on file.

SWIMMING POOL, CURTIS HALL.

The following was received:

City of Boston,
Office of the Mayor, January 17, 1910.
To the Gentlemen of the City Council:
It is now deemed desirable to install a swimming pool in the Curtis Hall Building, for the reconstruction of which a transfer of fifty thousand dollars has been made, and an additional appropriation will be required for this purpose. I therefore recommend the passage of the accompanying draft of transfer order appropriating twenty-five thousand dollars, which amount will permit the Public Buildings Department to construct the swimming pool, suitably complete and equip the gymnasium and furnish the building.

Respectfully,

G. A. HIBBARD, Mayor.
Ordered, That the City Auditor be and hereby is authorized to transfer the sum of \$25,000 additional from the appropriation for Public Buildings Department to the special appropriation for Curtis Hall, reconstruction of.
Referred to the Committee on Public Improvements.

HEARINGS AT THREE O'CLOCK.

On petitions of the New England Telephone and Telegraph Company of Massachusetts for leave to erect poles in streets, as follows:

1. Woodward street, Ward 15, two poles.

Objection to the granting of the petition was made by John C. Stendermann, 48 Woodward street.

Recommitted to the Committee on Electric Wires, on motion of the Chairman, with instructions to give a hearing.

2. Holbrook street, between Dane and Centre streets, Ward 23, eight poles.

Objections were made by S. C. Brackett, representing residents of the street.

Ald. COTTON—Mr. Chairman, in view of the large number of objectors, representing more than one-third of the property owners on the street, I move that leave to withdraw be given to the petitioner.

The petitioner was given leave to withdraw.

3. Bernard street, from Talbot avenue southwesterly, Ward 24, seven poles.

No objections.

Recommitted to the Committee on Electric Wires, with instructions to give a hearing, on motion of Ald. CARR.

4. Talbot avenue, from Massasoit avenue westerly, Ward 24, twelve poles.

No objections.

Recommitted to the Committee on Electric Wires, with instructions to give a hearing, on motion of Ald. CARR.

On petitions of the Edison Electric Illuminating Company of Boston for leave to erect poles in streets, as follows:

5. Arklow street, between Ulmer and Walden streets, Ward 22, two poles.

6. Walden street, south of Minden street, Ward 22, two poles.

Objections were made to Nos. 5 and 6.

Ald. COTTON—Mr. Chairman, all but one of the residents on Arklow street are objectors to the granting of the petition, and I move, such

being the case, that the petitioners be given leave to withdraw. I make the same motion on No. 6. The petitioners were given leave to withdraw.

On petitions for leave to project marqueises, etc., viz.:

7. Israel Flink, two bay windows over South Russell street, from building 35 Myrtle street, Ward 11.

No objections. Referred to the Committee on Building Department (Ald.).

8. Boston Mutual Life Insurance Company, a marquee at 75-77 Kilby street, Ward 7.

Harold Williams, Jr., objected to the granting of No. 8.

Referred to the Committee on Building Department on motion of the Chairman, with instructions to give a hearing.

9. Shubert Holding Company (Inc.), a marquee at 263-265 Tremont street, Ward 7.

No objections. Referred to the Committee on Building Department (Ald.).

On petitions for licenses for the use of buildings or structures for explosives or inflammable fluids.

10. George R. Bascom (Inc.), keeping and sale of gasoline at 31-33 Stanhope street, Ward 10.

There were no objections.

Ald. ANDERSON moved a suspension of the rule that leave might be granted.

Ald. CURLEY—Mr. Chairman, there are a number of petitions here that come up for hearing the first time, and it is the intention of the Committee on Licenses to meet during the recess and consider them. We would like to look into this.

No. 10 was referred to the Committee on Licenses with a request to report after the recess.

11. Katharine Abbott, keeping of gasoline at 240 Beacon street, Ward 11.

There were no objections.

Ald. HALE—Mr. Chairman, I move that Nos. 11 to 22 be referred to the Committee on Licenses with a request to report back this afternoon.

The CHAIRMAN—The Chair will state for the benefit of the alderman that it will be necessary to see if there are any objectors present.

No. 11 was referred to the Committee on Licenses.

12. Premier Motor Company of New England, keeping and sale of gasoline at 297 Northampton street, Ward 12.

13. The Texas Company, keeping, storage and sale of petroleum and its products at 258 Southampton street, Ward 17.

14. Catherine M. Breslin, keeping of gasoline rear 25 Charlotte street, Ward 20.

15. Edward B. Muldown, keeping of gasoline at 19 Lindsey street, Ward 20.

16. John G. Godding, keeping of gasoline rear 704 Washington street, Ward 24.

17. E. C. Powers, keeping of gasoline at 301 Fuller street, Ward 24.

No objections. Severally referred to the Committee on Licenses.

18. James H. Bombard, keeping and storage of dynamite, etc., at Quint avenue, Ward 25.

19. Asher G. Coombs, keeping and storage of dynamite, etc., at Washington street, Ward 25.

Not having advertised in accordance with law, the petitioners Nos. 18 and 19 were given leave to withdraw.

20. Rowe Contracting Company, keeping and storage of dynamite, etc., at Chestnut Hill avenue, Ward 25.

No objections. Referred to the Committee on Licenses.

21. A. J. & G. H. McMurtry, keeping and storage of dynamite, etc., rear of 487 Washington street, Ward 25.

Not having advertised in accordance with law, the petitioner was given leave to withdraw.

22. James Marcella, keeping and storage of dynamite, etc., on Allston street, at Summit avenue, Ward 25.

No objections. Referred to the Committee on Licenses.

23. On petition of the West End Street Railway Company for locations for tracks on Washington street near Marvin street and the Dudley Street Station.

Objections to the granting of the petition were made by Stanley M. Bolster for Joseph F. Waterman & Sons (Inc.).

Recommitted to the Committee on Railroads, on motion of the Chairman, with instructions to give a hearing.

24. On petition of the West End Street Railway Company for location for tracks on Warren and Dudley streets.

No objection. Recommitted to the Committee on Railroads.

MOTION FOR COMMITTEE REPORTS.

Ald. CARR—Mr. Chairman, I move that the Committee on Licenses be directed to report back on Nos. 10 to 22, inclusive, except Nos. 18, 19 and 21, after the recess this afternoon. I make that motion because there is no objection to these petitions, and it is getting so late in the year that it would seem advisable to act favorably upon them at this time.

Ald. Carr's motion did not prevail.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Building Department (Ald.).

Petitions for leave to project signs, etc., were received, as follows:

(Signs.)

Library Club, 18 Hull street, Ward 6.
C. Warren Leach, 14 Central street, Ward 6.
W. S. Nickerson, 82 Purchase street, Ward 7.
Habeeb & Joseph, 39 Edinboro street, Ward 7.
Lorenzo Montemorra & Bro. (two), 239 Pleasant street, Ward 7.
Hilliard Bros., 48 India street, Ward 7.
The Ginter Grocery Company, 495 Washington street, Ward 7.
Charles Leibel, 28 Allen street, Ward 8.
Asa P. Rich, 79 Warren street, Ward 21.
Sam Gravina (three), 1946 Washington street, Ward 12.
Charles Laundry Company, 58 Myrtle street, Ward 11.

(Illuminated Signs.)

John C. King & Co., 536 Medford street, Ward 4.
James Campbell & Co., 41 Merrimac street, Ward 6.
Anthony Lento, 10 Tremont row, Ward 6.
Emily Barnhart, 28 Somerset street, Ward 6.
Beacon Theater (Inc.), 47-53 Tremont street, Ward 6.
Jacob Scheinfeldt (three lights), 95 Sudbury street, Ward 6.
John S. Noane Company, 149 Blackstone street, Ward 6.
Louis Witte, 46 Court street, Ward 6.
Louis Green, 821 Washington street, Ward 7.
George Fortin, 384A Washington street, Ward 7.
Bergheim Bros., Columbia street side of building, 91 Bedford street, Ward 7.
George S. Claborn, 132 Summer street, Ward 7.
William H. McInerney, 159 Summer street, Ward 7.
William Layton, 3 Harrison avenue, Ward 7.
S. Nathanson, 119 Summer street, Ward 7.
Aldiano Lunch Company, 136 Bedford street, Ward 7.
Western Union Telegraph Company, 118 Bedford street, Ward 7.
H. Bloomberg, 408 Washington street, Ward 7.
Regal Millinery Company (gas arc lamp), 50 Lowell street, Ward 8.
F. W. Wheeler, 108 Dover street, Ward 9.
Barnes Real Estate Agency, 1185 Washington street, Ward 9.
W. N. Andrews, 488A Tremont street, Ward 9.
Mrs. Louis Colin, 12 Haviland street, Ward 10.
Mutual Loan Company, 2136 Washington street, Ward 17.
F. H. Dike, 49 Fairfield street, Ward 11.
Otis J. Harlow, 147 Court street, Ward 6.
E. J. Lovejoy, 45 Dover street, Ward 9.
Campbell & Co., 41 Merrimac street, Ward 6.
The Western Felt Company, 11 Columbia street, Ward 7.

Electric Wires.

Fire Commissioner, for leave to locate a lamp-post for a fire-alarm box at corner Hanover and Portland streets.
Edison Electric Illuminating Company of Boston, for leave to erect poles, as follows:
Two poles in G street, Ward 15.
One pole in Greenwich park, Ward 12.
The New England Telephone and Telegraph Company of Massachusetts, viz.:
For leave to remove one pole on Huntington avenue, junction Tremont and Francis streets, Ward 19.
For leave to erect and to remove one pole on Thane street, Ward 20.
To erect one pole on Rockland street, Ward 21.
To erect three poles on Bigelow street, Ward 25.
To erect six poles on Hobart street, Ward 25.
To erect three poles on Dunboy street, Ward 25.

Faneuil Hall, Etc.

Petitions for the use of Faneuil Hall, viz.:
Boston Lodge No. 10, Boston Protective Order of Elks, on the evening of February 20.
Sons of Veterans, on the afternoon and evening of February 22.
William R. F. Whelan, the evening of February 21.
The Music Trustees, on the evening of February 23.
Francis M. Ducey, on the evening of January 11.
Women's Trade Union League, on the evening of January 15.

Licenses.

Petitions for permits for children under fifteen years of age to appear at public places of amusement, as follows:
Mrs. W. H. Marden, at Hibernian Hall, Charlestown, on the evening of January 31, 1910.
William A. Riggs, at Mechanics Building, on January 25, 1910.

Police (Ald.).

J. B. Look, to be paid for loss of hens killed by dogs.

John A. Burgess, to be paid for the loss of fowls killed by dogs.

Claims.

L. M. Forde, for compensation for damage to dress of her daughter caused by a barrel on sidewalk on Washington street in front of Gilchrist's store.

Margaret Egan, for a hearing on her claim for compensation for injuries caused by a defect in the highway on Davis street.

Ellen G. Mooney, for compensation for injuries caused by an alleged defect in Grampian way.

Mary McGovern, for compensation for the death of her husband, Charles McGovern caused by injuries which he received while in the employ of the city.

Nellie M. Mahoney, to be paid the amount of a plumber's bill, being expense made necessary by negligence of employees of the city.

Petitions for compensation for damages caused by the bursting of a water main in Tremont street on January 3, 1910, viz.:

N. Y. Coin Operated Machine Company.
Sam S. & Lee Shubert (Inc.).
U. S. Amusement Company.
Wilbur-Shubert Company.
Lillian Ten Eyck, Milissa Ten Eyck, Miss Kerwin and Miss Miller.

Public Improvements.

Communication from N. E. Historic Genealogical Society relative to the old elm on Boston Common.

C. M. Koopman, for a permit for coasting on Anawan avenue, between Park and Beech streets, West Roxbury.

The Chee Kung Hong, for leave to set off fireworks (fire crackers) on Tyler street on January 19, 1910.

Suffolk Real Estate Trust, for leave to construct a coal vault, etc., on the Doane street side of 11-21 Broad street, Ward 6.

ADDITIONAL LAND FOR BOSTON & MAINE RAILROAD.

A petition was received from the Boston & Maine Railroad by Lucius Tuttle, president, asking that the Board of Aldermen prescribe additional land to be taken in Charlestown for the location of tracks.

Referred to the Committee on Railroads.

APPROPRIATION FOR SOCIAL LAW LIBRARY.

A petition was received from the proprietors of the Social Law Library for an appropriation for \$1,000 for said library, as in former years.

Referred by the Chair to the Committee on County Accounts.

ORDERS OF NOTICE.

On the following petitions for leave to project marquees at various locations—orders of notice were passed for hearings thereon on Monday, January 31, at 3 o'clock p. m., when any parties objecting thereto may appear and be heard, viz.:
George R. White, 523-525 Washington street, Ward 7.

Henry W. Lamb, 22 Huntington avenue, Ward 10.
The First National Bank of Boston, 70 Federal street, Ward 7.

On the petition of John W. Douse, for license for the keeping and sale of gasoline at rear of 120 Train street, Dorchester—an order of notice was passed for a hearing thereon on Monday, January 31, at 3 o'clock p. m., when any parties objecting thereto may appear and be heard.

COAL AND COKE LICENSES.

A list of coal and coke licenses granted was received from the Secretary of the Commonwealth.

Placed on file.

NOTICES OF HEARINGS.

Notices were received from the Harbor and Land Commissioners of hearings on January 12 on the petitions of the New York, New Haven & Hartford Railroad for solid filling over Bay Ridge creek and Tenean creek; Acme White Lead and Color Works for bulkhead and filling in harbor at East Boston; Bertelsen & Petersen Engineering Company, for bulkhead and filling in harbor at East Boston; and of hearing on January 19 on petition of the Metropolitan Park Commission to fill solid in Charles river between Cambridge street and Western avenue.

Placed on file.

HEARINGS BEFORE RAILROAD COMMISSIONERS.

Notices of hearings before the Railroad Commissioners were received as follows: Hearing on January 11 on petition of Boston Elevated Rail-

way Company for approval of plans 26885, 26886, 26887 and 26888 Causeway Street Station and elevated structure, etc.; hearing on January 5 on petition of West End Street Railway Company for approval of 294th location and orders extending time on 258th, 262d and 285th locations; hearing on January 20 on petition of New York, New Haven & Hartford Railroad relative to Mount Bowdoin Station.

Placed on file.

APPROVAL OF LOCATION, ETC.

Notice was received from the Railroad Commissioners of approval of 294th location of West End Street Railway Company and orders extending time on 258th, 262d and 285th locations.

Placed on file.

USE OF BUILDING FOR GASOLINE.

In accordance with law notice was received from the White Company, 341 Newbury street, Ward 11, of the use of said building for storage of gasoline, under license granted by the Board of Aldermen, and of intention to use for same purpose for the ensuing year.

Placed on file.

LYING-IN HOSPITAL.

A report was received from the Board of Health on the petition of Margaret Rogers (referred December 27, 1909) for renewal of license for lying-in hospital at 1128 Boylston street—certifying that she is a suitable person and that her premises are suitable for maintaining a lying-in hospital.

Assigned to the next meeting, on motion of Ald. WHELTON.

COST OF WIDENING STREETS.

The following was received:

City of Boston,
Street Laying-Out Department,
January 13, 1910.
To the Honorable the Board of Aldermen:
Dear Sirs,—In response to your request of October 4 last for an estimate of the cost of widening and extending Maverick square to Elbow street, and for an estimate of the cost of laying out and extending Rockland avenue from Woodland avenue to Savin Hill avenue, the Board of Street Commissioners has the honor to submit the following:

The Extension of Maverick Square.	
Land and building damage	\$177,350
Construction	16,015
Total	\$193,365
The Laying Out and Extension of Rockland Avenue.	
Land and grade damages	\$5,500
Construction	11,100
Total	\$16,600

Very respectfully,

J. J. O'CALLAGHAN, Secretary.
Placed on file.

DISAPPROVAL OF GASOLINE STORAGE.

A report was received from the Fire Department on the petition of Edward L. Sturtevant for license for keeping and sale of gasoline in rear of 131-141 Lenox street—disapproving of the same, as the granting of this license would create a serious menace, as the basement is to be used as a garage and a repair shop and the building is occupied above the first floor by thirty-four families.
It was voted that the petitioner have leave to withdraw.

REPORT ON PENAL INSTITUTIONS DEPARTMENT.

The following was received:

Boston, December 29, 1909.
To the Honorable the Mayor and Board of Aldermen:
Gentlemen,—The commission respectfully submits herewith a report upon the Penal Institutions Department.

On November 23, 1909, a former officer of the House of Correction at Deer Island appeared with his counsel before the Finance Commission, gave testimony concerning conditions at Deer Island, which agreed substantially with statements then being published daily in the Press.

and requested the commission to investigate the conduct of the Penal Institutions Department. The commission caused an investigation to be made by its counsel, who, on December 18, submitted the results of the preliminary investigation, and the commission held public hearings on this subject beginning December 21 and ending on December 27. The facts disclosed in these public hearings show that the interests of the city and of the prisoners have suffered through the inefficiency of the officers, the lack of discipline, and the use of the institution as a part of the spoils system.

The head of this institution should have been a good disciplinarian, with experience in prison management. Nevertheless the Mayor, on March 2, 1908 appointed as Penal Institutions Commissioner a lawyer who had had no experience either in prison management or in any executive office, but who had rendered him political service in the mayoralty election of 1907. The appointee's lack of qualifications for the office is shown by the following extract from his own testimony:

"Q. Did you have any training in penal work? A. Never. Q. None of any kind? A. No. Q. Had you ever visited any penal institutions for purposes of study before your appointment? A. No, sir. Q. None. What was your training fitting you for the position of Penal Commissioner? State, if you please, fully. A. No special training. Q. How did you happen to be appointed Penal Commissioner, so far as you know? A. You mean by whom was I appointed? Q. No. What led to your appointment, so far as you know? A. Perhaps my acquaintance with the Mayor. Q. Well, your acquaintanceship with him in what way? A. I had been engaged with him in the campaign preceding his election."

He also stated that he believed he was being considered for the office of City Collector, that he did not know that he was being considered for the office of Penal Institutions Commissioner, and that he never had discussed with the Mayor the subject of his qualifications for the latter office.

The department, not being under the civil service law, afforded the politicians an opportunity to procure positions for favorites, and the opportunity was not neglected.

The appointment of the commissioner, made for political reasons, and without regard to the qualifications requisite for such an important position, was followed by a large number of appointments, also made for political reasons, without regard to fitness, and in violation of the spirit of the law and of the rules of the institution. Of the forty-six officers in the department, thirty-six have been appointed in the last two years, four being additions to the force and the remainder having filled vacancies. The thirty-six officers thus appointed to care for the large number of inmates of the institution had duties of great importance to perform. It was essential that these appointments should have been made by the master, who is responsible for the conduct of the officers, and that fitness should have been the only consideration governing the selections. In all cases the law, as well as the interests of the city, was, however, disregarded, and, in most cases, politics determined the choice.

Under the Revised Laws, chapter 224, section 16, the master of the House of Correction is charged with the duty of appointing all subordinate assistants, employees and officers, and it is provided that he shall be responsible for them. The rules for the government of the House of Correction, adopted by the Penal Institutions Commissioner in May, 1907, provide that: "He (the master) shall appoint all subordinate assistants, employees and officers, for whom he shall be responsible, and at once report the same to the commissioner." Instead of observing the statute and the rule, both the commissioner and the master of the House of Correction testified that they had followed an established custom, under which the appointments, though technically made by the master, were made in reality by the commissioner, the master simply acquiescing in the selection.

Even if the persons thus appointed had been fitted for the duties, the discipline of the institution would have been impaired, as the master would not have been actually responsible for the conduct of employees not chosen by him. Fitness, however, was seldom considered, and in most cases no inquiry whatever was made respecting the qualifications of appointees. Many appointments were made at the solicitation of the Mayor, two of his secretaries, his stenographer, members of the Board of Aldermen and other persons interested in politics. The commissioner testified that a large part of his time was devoted to the consideration of such applications. He stated that the Mayor and his assistants had requested the appointments of seven officers for the House of Correction, that six were appointed, and that one was rejected as below the physical requirements.

Ten of the thirteen members of the present Board of Aldermen sought appointments for persons in whom they were interested, but, having less influence, only three of their candidates were appointed. The commissioner stated that no inquiry was made as to the qualifications of the six officers appointed on the recommendation of the Mayor's office. One had formerly been

a lieutenant in the Boston Police Department and had resigned. The reason for the resignation should have been inquired into. Three of the six have since been discharged, one for failing to return on time after the expiration of his leave of absence, one for having been found with a large quantity of cigarette tobacco and several morphine syringes concealed in his room at the island, and one for trafficking with a prisoner in violation of the rules of the institution. Two others have been found drunk and have been warned, though not suspended. Thus, five of the six appointed on the recommendation of the Mayor's office have proved to be unfit for their positions.

Of the three appointed on the recommendations of aldermen, two were discharged for failing to return on time from their leave, and the third, according to the testimony of a fellow officer, was drunk on the night watch, but has not been removed. Thus it appears that eight of the nine officers appointed on the recommendation of the Mayor's office and members of the Board of Aldermen have been found unworthy of their trusts.

Five other officers, not included in the foregoing description, have been appointed in the last two years, on the recommendations of persons whose names the commissioner could not recollect, and have been found unfit for their duties. One, failing to return after leave, has been discharged. Another, found to have been trafficking with a prisoner, has been retained, as the master states, pending the investigation by this commission. He had been employed as an officer at the State Farm at Bridgewater, also at the State Prison, and had resigned from both positions, from the latter on request of the authorities. The master stated that, after the appointment had been made, he tried but failed to find from the state authorities the reasons for these resignations and the appointee was left in office. The other three have been discharged, the first two for failing to return after leave, the third for bringing a package to a prisoner in violation of the rules. These three had previously been employed by the city at the infirmary on Long Island; two had been discharged for drunkenness, and the third had resigned. These facts were found by this commission without difficulty, and if a serious effort had been made by the officials of the Penal Institutions Department they likewise could have found the facts.

Two appointments made in the last two years to positions on the steamer "Monitor," which conveys prisoners to and from Deer Island, have also been made without regard to efficiency. One is too old to render the required service, the other, formerly a barber, did not have the necessary experience for sea duty. The captain and the mate both state that they would not have appointed either if they had had the selection. One of them was recommended by a secretary of the Mayor, and the appointment of the other was directed by the Mayor himself. The manner in which the latter appointment was made was related by the assistant commissioner. He stated that the Mayor's secretary came to the Penal Institutions Commissioner's office, the commissioner being absent, and said that the Mayor wanted the commissioner to appoint Mr. McKenney as a deckhand on the "Monitor." The assistant commissioner states that thereupon he wrote the commissioner the following letter:

Dear Mr. S.: The Mayor's assistant secretary, Mr. Boudrot, called this p. m. and told me to tell you that the Mayor wished you to send him to-morrow early the name of James T. McKenney, 384 Neponset avenue, Ward 24, to be the extra man on the steamer "Monitor," to begin on June 1st next. He said this was important.

Very truly,

(Signed) H. S. CARRUTH.

The appointment was made within a few days. Another of the Mayor's secretaries assumed responsibility for the appointment, stating to the commission that he was actuated by motives of charity. No one seems to have seriously considered the question of fitness. It should be noted that though he was employed "temporarily," in order to take the places of the men during the vacation period, he is still in the service though the vacation period has ended.

The wharfinger was appointed early in 1908, as a reward for political services, the commissioner stating that "he had done some work for the Mayor" in the campaign of 1907, and that he appointed him at the Mayor's suggestion, without inquiry as to his qualifications.

The conditions at the island, as stated by the various witnesses who appeared before the commission, are as follows: There has been a serious lack of discipline resulting in demoralization both of the officers and of the prisoners. The latter have been able to obtain morphine and cocaine freely, and the use of it has not been curtailed as much as it would have been if the officers had been efficient and the discipline adequate. The commissioner stated that no physical examination for the purpose of discovering marks indicating the use of drugs is made. Nor is any attempt made to segregate the victims of this habit from those who are not similarly afflicted. There has been no attempt to prosecute persons suspected of carrying drugs to

prisoners. Two officers found with syringes, used to inject morphine, have been discharged, but notwithstanding this fact the prisoners have obtained drugs and the implements necessary to inject them. Those known to be addicted to the use of drugs have been allowed to form in groups in the yard during recreation hours, and the opportunity thus afforded to pass drugs to one another and to use them has been freely utilized. One officer received a pawn ticket for a watch from a prisoner who was a chronic morphine user, though he claimed he did not give the prisoner any money for the ticket. The officer sold the ticket to another officer and the latter redeemed the watch, subsequently pawning it twice, each time under a false name.

Officers have been seen drunk by prisoners on the island and by others in the city during their leaves of absence. It seems almost inconceivable that officers should be retained who are guilty of the same offence as three-quarters of those who are receiving punishment under their charge. Under such circumstances prisoners must feel contempt for both the law and the institution. The practice of the master is to give officers who have been found drunk a second chance, though he should report such cases to the Penal Institutions Commissioner, and though the latter should remove forthwith an officer thus discovered. Revised Laws, chapter 225, section 13, provides as follows:

"The sheriffs of the several counties and the penal institutions commissioner of the City of Boston shall forthwith remove any officer who has been appointed by them, respectively, to any position of trust or authority in a jail, or house of correction, and who is known to use intoxicating liquor as a beverage."

The master has admitted that in the cases of six officers known by him to have been drunk he has retained them all, having warned five, and having suspended only one, the latter punishment being for the third offence. On the master's own admission, more than one-eighth of the forty-six officers at the island remain there in violation of the spirit of the law. Other witnesses, some of them officers of the institution, have stated to the commission that officers besides those named by the master have been seen drunk both at the island and in the city.

The law (Acts of 1900, chapter 473, section 2) requiring the segregation of prisoners sentenced for one year and more from those sentenced for less than one year, and of those sentenced for drunkenness from all others, and of those held for nonpayment of fines, has not been complied with. There is no segregation in fact. When the House of Correction at South Boston was merged with the House of Industry at Deer Island in 1900, the prisoners who had committed serious crimes were thrown into the same institution with those whose offences had been petty and had consisted mostly of intoxication. It is axiomatic that offenders of different grades should be separated, and the Legislature, foreseeing the danger of nonseparation, passed the statute above cited. The attention of the commissioner was called to the failure to obey the law by a letter from the assistant commissioner, dated July 8, 1908, indicating that it was possible at least to put the long-term men in the new and the short-term men in the old prison. The segregation thus recommended has not been effected. Segregation to some extent will be accomplished when the dining room, now approaching completion, is finished. Daily, in the yard, and in the loafer's hall, so called, three times a day, the old and the young, the long-term men and the short-term men, the hardened and the comparatively innocent may tell or listen to stories of crime. Enlightened modern ideas of assisting prisoners to become better men and women have been disregarded. Though many of the prisoners cannot read, and some cannot even speak the English language, there is no school upon the island, nor is their superabundant leisure filled in any helpful way. Though the institution was meant to be reformatory, it more nearly resembles a school for crime.

The commissioner stated that he believed the system to be wrong, but that no money has been available for the purpose of effecting the segregation required. No money, however, has been asked, and the money that might have been used for this purpose was devoted to other and less worthy purposes. Thus, of the \$50,000 received from the United States Government, which had been retained pending the completion of a satisfactory boundary wall, \$17,000, together with \$3,000 otherwise available, or a total of \$20,000, has already been spent for a concrete, steam-heated piggery, useful doubtless, but hardly of equal importance with the segregation of human beings, about 12,000 of whom are now annually dipped into the atmosphere of this institution.

The real and permanent solution of the problems of segregation and of the expense of maintenance lies in relieving the present congestion at the institution. Such a solution can be worked out under a proper system of co-operation between the judges of the courts and the Penal Institutions Commissioner and the appointment of additional probation officers. Far too many persons are sent to the island for petty offences. Last year 4,807 commitments were made to the island for the nonpayment of fines.

Of these, 3,470 were for the nonpayment of fines amounting to \$5 or less; 754 for fines of more than \$5, but less than \$10; 454 for fines of more than \$10 but less than \$20; and only 129 for fines of more than \$20. Of the total number committed 4,227 were for first offences. In this single year 8,315 commitments were for drunkenness alone. No effective effort has been made by the penal institutions authorities to work out a solution of this serious problem.

There are other serious defects in the management of the institution, some of which cannot be stated in a public document. Three matters not previously referred to should, however, be mentioned. The first is the use of prison labor in the building of a boat for the master, with the knowledge and consent of the commissioner. It has been sought to be justified by the fact that prisoners have escaped, and that heretofore there has been no adequate means of capturing them. The master admits that the title of the boat is in him, and that if he should leave the city's employ he would take the boat with him, unless the city reimbursed him for the amount spent by him for the materials of construction. He did not state, however, that in the event of his taking the boat with him he would pay the city the value of the prison labor used in its construction. The second matter is the excessive cost of food furnished for the master's house. In January, February and March of this year the price paid for whole lambs was eighteen cents per pound, while whole lambs of sufficiently good quality were bought in the same period by the City Hospital for from twelve to thirteen and one-half cents a pound. The third matter relates to the habits of the secretary of the department. Though denied by the secretary and one clerk employed in the office, it seems to the commission that the testimony of the commissioner, the assistant commissioner, a clerk in the office and the Mayor's secretary establishes the fact that the secretary of the department is frequently under the influence of liquor. This condition has long been known, but has been tolerated.

The conditions herein described, according to the testimony of the assistant commissioner, have been frequently brought to the attention of the Penal Institutions Commissioner and the Mayor. He stated that he has repeatedly acquainted the Mayor fully with the facts as to nonsegregation, mismanagement and lack of discipline.

The responsibility for the evil conditions of the last two years was made clear by the testimony. It was difficult, if not impossible, for the master to maintain discipline over officers who secured their appointments through political influences, which they had reason to feel were strong enough to maintain in the face of their misconduct. The commissioner was not capable of performing his duties, because he lacked the training and qualifications necessary for his position. The responsibility rests primarily with the Mayor, because of his appointment as head of the department, for political reasons, of one who, he must have known, could not properly perform the duties of the office.

The commission recommends:

1. That the department be placed in charge of a proven disciplinarian with knowledge of the humanitarian side of prison work.
2. That the offices of assistant commissioner and secretary be merged.
3. That the department be placed under civil service laws; and that the master appoint and be responsible for his subordinates as the law directs.
4. That any official once guilty of drunkenness shall be discharged forthwith.
5. That any official who smuggles drugs to the island, or traffics with prisoners, shall be discharged forthwith and be prosecuted in the courts.
6. That by the appointment, if necessary, of more probation officers, and in co-operation with the judges, petty offenders be given a better opportunity to pay their fines before being imprisoned.
7. That with the population thus reduced proper segregation be effected, as the law requires.
8. That prisoners addicted to the use of drugs be kept apart from nonusers.
9. That every opportunity be availed of to give the prisoners serious and hard work.
10. That suitable instruction be provided at the island, and that other measures be adopted to reduce the idleness of the prisoners and to substitute beneficial occupations.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN,
Chairman.

Placed on file.

PAPERS FROM THE COMMON COUNCIL.

25. Message of the Mayor recommending the passage of the following:

Ordered, That so much of Central square in East Boston as may be needed for a site for new courthouse and police station building be and hereby is transferred from the care and custody of the Public Grounds Department to the care and custody of the Public Buildings Department.

The message was placed on file and the order passed in concurrence.

26. Message of the Mayor recommending the passage of the following:

Ordered, That the City Auditor may, with the approval of the Mayor, between January 6, 1910, and January 31, 1910, make transfers from any appropriation to any other appropriation, and apply any of the income and taxes not disposed of, in closing the accounts for the financial year.

The message was placed on file and the order passed in concurrence; yeas 11, nays 0.

27. Message of the Mayor recommending the passage of the following:

Ordered, That the City Auditor be and he hereby is authorized to transfer the sum of twelve thousand dollars (\$12,000) from the appropriation for "Police Department" to an appropriation for "Registry of Deeds, Fireproof Bookcases"; said appropriation to be expended by the Superintendent of Public Buildings.

The question came on the passage of the order in concurrence.

The order was passed in concurrence, yeas 10, nays 0.

28. Ordered, That of the income available the present year from the Parkman Fund the sum of seventy-five thousand dollars be hereby appropriated, to be expended by the chairman of the Music Trustees and the Superintendent of Public Grounds jointly, for the erection of a music stand on Boston Common, and the erection of such music stand on Boston Common is hereby authorized.

Referred to the Committee on Public Improvements.

29. Ordered, That the name of "Dudley square" be changed to "Hale square" in memory of Edward Everett Hale.

Referred to the Committee on Public Improvements.

CONFIRMATION OF APPOINTMENTS.

Chairman BRAND called up unfinished business, Nos. 30 and 31, viz.:

Action on appointments submitted by the Mayor December 27, viz.:

30. Henry A. Madden, to be a Weigher of Coal, a Mesurer of Wood and Bark, a Mesurer of Grain, a Weigher of Boilers and Heavy Machinery and a Weigher of Beef for the term ending April 30, 1910.

31. Henry Stockley, to be a Weigher of Beef for the term ending April 30, 1910.

The question came on confirmation. Committee, Ald. Timilty and Anderson. Whole number of ballots cast 10; yeas 10, and the appointments were confirmed.

PROJECTIONS, ETC.

Ald. BALLANTYNE, for the Committee on Building Department (Ald.), submitted the following:

(1) Reports on petitions for signs (severally referred to-day) at various locations—that leave be granted, viz.:

- Library Club, 18 Hull street, Ward 6.
- C. Warren Leach, 14 Central street, Ward 6.
- W. S. Nickerson, 82 Purchase street, Ward 7.
- Habeeb & Joseph, 39 Edinboro street, Ward 7.
- Lorenzo Montemorra & Bro. (two), 239 Pleasant street, Ward 7.
- Hilliard Bros., 48 India street, Ward 7.
- The Ginter Grocery Company, 495 Washington street, Ward 7.
- Charles Leibel, 28 Allen street, Ward 8.
- Asa P. Rich, 79 Warren street, Ward 21.
- Sam Gravina (three), 1946 Washington street, Ward 12.

Reports severally accepted; leave granted on usual conditions.

(2) Reports on petitions (severally referred to-day) for illuminating signs at various locations—that leave be granted, viz.:

- John C. King & Co., 536 Medford street, Ward 4.
- James Campbell & Co., 41 Merrimac street, Ward 6.
- Anthony Lento, 10 Tremont row, Ward 6.
- Emily Barnwart, 28 Somerset street, Ward 6.
- Beacon Theater (Inc.), 47-53 Tremont street, Ward 6.
- Jacob Scheinfeldt (three lights), 95 Sudbury street, Ward 6.
- John S. Noane Company, 149 Blackstone street, Ward 6.
- Louis Witte, 46 Court street, Ward 6.
- Louis Green, 821 Washington street, Ward 7.
- George Fortin, 384A Washington street, Ward 7.
- Bergheim Bros., Columbia street side of building 91 Bedford street, Ward 7.
- George S. Claborn, 132 Summer street, Ward 7.
- William H. McInerney, 159 Summer street, Ward 7.

- F. W. Wheeler, 108 Dover street, Ward 9.
- Barnes Real Estate Agency 1185 Washington street, Ward 9.
- W. N. Andrews, 488A Tremont street, Ward 9.

Mrs. Louis Colin, 12 Haviland street, Ward 10.

Mutual Loan Company, 2136 Washington street, Ward 17.

F. H. Dike, 49 Fairfield street, Ward 11.

Charles Laundry Company, 58 Myrtle street, Ward 11.

Otis J. Harlow, 147 Court street, Ward 6.

E. J. Lovejoy, 45 Dover street, Ward 9.

Campbell & Co., 41 Merrimac street, Ward 6.

The Western Felt Company, 11 Columbia street, Ward 7.

Reports severally accepted; leave granted on the usual conditions.

(3) Reports on petitions (referred December 27, 1909) for leave to project marquees—that leave be granted, viz.:

Beacon Theater (Inc.), 47-53 Tremont street, Ward 6.

Ralph B. Williams, trustee, 11-19 Chauncy street, Ward 7.

Shubert Holding Company (Inc.) (referred to-day), 263-265 Tremont street, Ward 7.

Reports accepted; leave granted on the usual conditions.

(4) Report on petition of Samuel Barkin (recommitted December 27, 1909) for leave to project three bay windows from building 601 Saratoga street, corner Swift street, two over Swift street and one over said corner,—that the petitioner have leave to withdraw.

The report was accepted and the petitioner was given leave to withdraw.

Later in the session Ald. GIBLIN said:

Mr. Chairman, as I was out of the room when the reports of the Committee on Building Department were considered I ask to reconsider the action on the petition of Samuel Barkin for bay windows on Saratoga and Swift streets, that I may get a vote on the matter here in the Board.

Reconsideration was declared lost. Ald. GIBLIN doubted the vote and asked for the yeas and nays.

Reconsideration was refused, yeas 5, nays 6:

Yeas—Ald. Curley, Giblin, O'Hare, Timilty, Whelton—5.

Nays—Ald. Anderson, Ballantyne, Brand, Carr, Cotton, Hale—6.

(5) Report on petition of estate of John C. Haynes (recommitted December 27, 1909) for leave to project a marquee at 146 Summer street, Ward 7—that the petitioner have leave to withdraw.

(Ald. BALLANTYNE dissents from the report and recommends that the petition be granted.)

The question came on accepting the report.

The Board voted to grant leave to the petitioner.

ELECTRIC WIRES.

Ald. BALLANTYNE, for the Committee on Electric Wires, submitted the following:

(1) Reports on petitions (severally referred today) for leave to erect and remove poles in various locations—recommending the passage of orders of notice for hearings thereon on Monday, January 24, at 3 o'clock p. m., when any parties objecting thereto may appear and be heard, viz.:

Edison Electric Illuminating Company of Boston, to erect one pole in Greenwich park, Ward 12.

The same company, to erect two poles in G street, Ward 15.

The Fire Commissioner, to locate a lamp-post for a fire-alarm box at corner Hanover and Portland streets.

The New England Telephone and Telegraph Company of Massachusetts, to erect one pole in Rockland street, Ward 21.

The same company, to erect three poles in Bigelow street, Ward 25.

The same company, to erect six poles in Hobart street, Ward 25.

The same company, to erect three poles in Dunboy street, Ward 25.

Reports severally accepted; orders of notice passed.

(2) Report on petition of Howard Manufacturing Company (referred December 6), for leave to maintain two wires for transmission of electricity over Monument street, Charlestown—that the petitioner have leave to withdraw.

Accepted.

(3) Reports on petitions (severally referred in 1909) for removal of poles and revocation of rights, etc.—that no further action is necessary, viz.:

Elizabeth Jelly, for removal of a pole of the Edison Electric Illuminating Company of Boston at 258-260 Bennington street, Ward 1.

Order relative to removal of a telegraph pole opposite Trinity Baptist Church, Trenton street, Ward 1.

Order revoking all rights, privileges and permits granted to the Massachusetts Telephone and Telegraph Company under an order of the Board of Aldermen, passed December 12, 1898.

Reports severally accepted.

(4) Reports on petitions of the New England Telephone and Telegraph Company (severally referred December 27, 1909) for leave to erect and remove poles at various locations—recommending the passage of the following:

(a) Ordered, That permission be granted the New England Telephone and Telegraph Company of Massachusetts to place and maintain poles for the support of wires at points

designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by F. T. Crockett; said poles to be located as follows: Centre street, Ward 23, at Broughton road, one pole, 40 feet by 14 inches; sidewalk, 8 feet wide; plan dated December 13, 1909.

Ordered, That permission be granted to said company to remove one pole from Centre street, as shown by black cross on said plan.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said pole on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating and removing said pole to be completed within ninety days from the date of the passage of this order.

(b) Ordered, That permission be granted the New England Telephone and Telegraph Company of Massachusetts to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by F. T. Crockett; said poles to be located as follows:

Tonawanda street, Ward 20, east from Greenbrier street, one pole, 40 feet by 14 inches; sidewalk, 8 feet wide; plan dated December 11, 1909.

Ordered, That permission be granted to said company to remove one pole on Tonawanda street, as shown by black cross on said plan.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said pole on the conditions specified in chapter 3 of section 16 of the Ordinances of 1908.

The work of locating and removing said pole to be completed within ninety days from the date of the passage of this order.

Reports accepted; orders passed.

STATE AID.

Ald. CARR, for the Committee on State Aid, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of January.

Report accepted; order passed.

CLAIMS.

Ald. CARR, for the Committee on Claims, submitted the following:

(1) Report on petition of William J. Mulaney (referred 1908) for damage to property 93 Barry street, Ward 20, caused by sewer construction—that the petitioner have leave to withdraw.

Accepted. Sent down.

(2) Reports on petitions (severally referred in 1909) for compensation for injuries to property, etc.—that the petitioners be given leave to withdraw.

Catherine and Nellie F. Ahearn, for damages by the flooding of cellars at 7-9 Ellery street, South Boston.

John J. Maher, for damage to garden at 426 Bowdoin street, Dorchester, caused by stopping up of catch-basin.

Bernard Gaffney, for injury caused by a limb falling from a tree in Central Square Park, East Boston.

Elizabeth Tudor, for damages to estate 208 Beacon street caused by the backing up of sewage.

Mary J. Knight and Alice McDonald, for damage to clothing by employees in spraying trees.

Grace A. Donnelly, for injuries caused by an alleged defect in Winter street (as suit has been entered and the case settled).

Patrick J. Dalton, for damages caused by his horse stepping into a defective manhole cover.

Isabel MacLellan, for damage to clothing by oil sprinkler of the city.

Benjamin F. Badger, for damage to automobile by a wagon of the Sanitary Division.

P. E. Murray, Jr., for injuries to a horse by an alleged defect in Roxbury street, near Shawmut avenue.

James C. Brenner, for injuries caused by an alleged defect on Second street, South Boston.

Moteus and Anna Zinkievitz, to be repaid the amount of tax erroneously paid by them on estate 10 Waverly street, Ward 25.

W. C. Merrill, for damage to coat by projecting wire in Fort Hill square.

Edward Mahan, for injuries caused by an alleged defect at 35 Houghton street, Dorchester.

Morris Goldman, for damages to property at 109 Hampden street by overflow of sewage.

Addie E. Howard, for injuries caused by an alleged defect in Tremont street mall near the subway entrance.

Sarah L. Jones, for injuries caused by an alleged defect in front of 24 Birch street (at her own request).

Joseph Meyerson, for damages caused by overflow of sewer at 37-39 Marshfield street (as the case has already been settled).

Accepted. Sent down.

RAILROADS.

Ald. ANDERSON, for the Committee on Railroads, submitted the following:

(1) Report on the petition of the Old Colony Street Railway Company (recommitted December 13, 1909) for locations for tracks, etc., on Hyde Park avenue and Walk Hill street—that the petitioner be given leave to withdraw.

The report was accepted.

(2) Report on the petition of the Boston & Maine Railroad (referred to-day) for taking of land in Charlestown for railroad purposes—recommending the passage of an order of notice for a hearing on January 31 at 3 o'clock p. m.

Report accepted, order passed.

RELEASE OF DEED.

Ald. COTTON, for the Committee on Public Lands, submitted a report on the petition of Arthur W. Cole (referred 1909) for release in conditions in deed of land on Northampton street—recommending the passage of the following:

Ordered, That his Honor the Mayor be and he hereby is authorized in the name and behalf of the city, for a nominal consideration, and in a manner satisfactory to the Law Department, to release the land on Northampton street described in its deed to Stephen H. Tarbell, dated September 29, 1880, recorded with Suffolk Deeds, Lib. 1511, fol. 587, from the conditions as set forth in said deed as follows:

"The premises are hereby conveyed subject to the conditions that they are to be used only for the purposes of dwelling houses, private stables or stores, and that the front line of any buildings thereon shall be placed on a line parallel with said Northampton street."

The question came on accepting the report and passing the order.

The order was passed, yeas 8, nays 3:

Yeas—Ald. Anderson, Ballantyne, Brand, Carr, Cotton, Curley, Giblin, Hale—8.

Nays—Ald. O'Hare, Timilty, Whelton—3.

Sent down.

USE OF FANEUIL HALL.

Ald. CARR, for the Committee on Faneuil Hall, etc., submitted reports on petitions (severally referred to-day) for the use of Faneuil Hall—that leave be granted, viz.:

Boston Lodge No. 10, Boston Protective Order of Elks, on the evening of February 20.

Sons of Veterans, on the afternoon and evening of February 22.

William R. F. Whelan, the evening of February 21.

The Music Trustees, on the evening of February 23.

Francis M. Ducey, on the evening of January 11.

Women's Trade Union League, on the evening of January 15.

Reports severally accepted; leave granted on the usual conditions.

COASTING IN EAST BOSTON.

Ald. GIBLIN offered an order—That coasting be allowed during the present winter, under such restrictions as the Police Commissioner may deem proper to impose, in the following-named streets in East Boston:

Sumner street, between McCormick square and Jeffries Point; Lamson street, between Sumner and Maverick streets; Brooks street, between Lexington and Saratoga streets; Putnam street, between Lexington and Saratoga streets; Glendon, Homer, Horace, Pope and Breed streets.

Passed.

PHOTOGRAPHS OF MEMBERS, ETC.

Ald. TIMILTY offered an order—That the Clerk of Committees be authorized to procure a combination group photograph of the members and officers of the Board of Aldermen of 1909 and to furnish each member with one framed copy thereof; the expense not to exceed \$350; to be charged to Board of Aldermen, Contingent Fund.

Passed.

"MAINE" MEMORIAL EXERCISES IN SCHOOLS.

Ald. CURLEY offered an order—That the School Committee be requested, through his Honor the Mayor, to have memorial exercises in the public schools of this city in commemoration of the anniversary of the destruction of the battleship "Maine" in Havana harbor.

The order was declared passed. Ald. ANDERSON doubted the vote and asked for the yeas and nays.

The order was passed, yeas 7, nays 4:

Yeas—Ald. Brand, Curley, Giblin, Hale, O'Hare, Timilty, Whelton—7.

Nays—Ald. Anderson, Ballantyne, Carr, Cotton—4.

Sent down.

HALF-MASTING OF FLAG, IN MEMORY OF "MAINE."

Ald. CURLEY offered an order—That the City Messenger be directed to cause the city flags to be displayed at half-mast on February 15, 1910, in commemoration of the anniversary of the destruction of the battleship "Maine" in Havana harbor; the expense attending the same to be charged to the appropriation for City Messenger Department.

The order was read a second time, and the question came on its passage.

The order was passed, yeas 11, nays 0.

Sent down.

CARE OF CITY HALL.

Ald. CURLEY offered the following:

City of Boston.

In the Year Nineteen Hundred and Nine.

An Ordinance

To Amend section 1 of chapter 12 and section 1 of chapter 32 of the Revised Ordinances of 1898.

Be it ordained by the City Council of Boston, as follows:

Section 1 of chapter 12 of the Revised Ordinances of 1898 is hereby amended by striking out all of said section and substituting therefor the following:

There shall be elected annually, by concurrent vote of the two branches of the City Council, a City Messenger, for the term of one year beginning with the first day of May in the year of his election; said City Messenger shall have charge of the City Messenger Department; shall have the care, custody and distribution of all documents, pamphlets and books printed for the City Council, or either branch thereof; shall attend all meetings of the Board of Aldermen and of the Common Council, and shall perform all services required of him by the Mayor, by either branch of the City Council, or by any committee; said City Messenger shall have the disposition of any regular or special detail of police assigned for the protection of City Hall or for the preservation of order therein.

Section 1 of chapter 32 of the Revised Ordinances of 1898 is hereby amended by striking out the words "shall have the care and control of the steam apparatus in the City Hall" in the thirteenth and fourteenth lines thereof, and by inserting in place thereof the following:

Shall have the general custody and care, subject to the direction of the Mayor, of the City Hall building, including the elevators, and of the flags, ropes and stakes used on City Hall and the public grounds; shall in suitable weather display the national colors upon the City Hall on every day except Sunday, and upon the public grounds on Franklin's Birthday, January 17; Lincoln's Birthday, February 12; Washington's Birthday, February 22; Evacuation Day, March 17; Patriots' Day, April 19; Grant's Birthday, April 27; Memorial Day, May 30; the Anniversary of the Adoption of the National Colors, June 14; Bunker Hill Day, June 17; Independence Day, July 4; Labor Day, first Monday in September; and on the Anniversary of the Settlement of Boston, September 17; and whenever any of the above-named days fall on Sunday, shall display the colors on the following day.

Referred to the Committee on Public Improvements.

LICENSES.

Ald. CURLEY, for the Committee on Licenses, submitted the following:

(1) Reports recommending that minor's licenses be granted to 485 newsboys, 27 boot-blacks and 11 vendors.

Reports severally accepted; licenses granted on usual conditions.

(2) Reports on petitions (referred to-day) for permits for children under fifteen years of age to appear at public places of amusement—that permits be granted, viz.:

Mrs. W. H. Marden, for children to appear at Hibernian Hall, Charlestown, on the evening of January 31.

William A. Riggs, for permit for children to appear at Mechanics Building on January 25.

Reports accepted; permits granted on usual conditions.

(3) Reports on petitions (severally referred December 27) for licenses to keep gasoline, etc., and sell the same at various locations—that licenses be granted, viz.:

P. V. Sullivan, rear 193 Humboldt avenue, Ward 21.

Suburban Auto Supply Company, 2 Roberts street, corner Belgrade avenue, Ward 23.

Lyde W. Benjamin, rear 121 School street, Ward 22 (to sink gasoline tank).

Mattapan Motor Car Company, 6 Oakland place, Ward 24.

James Welch, corner Washington street and Corey road, Ward 25 (to keep dynamite, etc., on vacant land).

Reports severally accepted; licenses granted on the usual conditions.

(4) Reports on petitions (severally referred to-day) for licenses to keep gasoline, etc., and

sell the same at various locations—that licenses be granted, viz.:

10. George R. Bascom (Inc.), keeping and sale of gasoline at 31-33 Stanhope street, Ward 10.

11. Katherine Abbott, keeping of gasoline at 240 Beacon street, Ward 11.

12. Premier Motor Company of New England, keeping and sale of gasoline at 297 Northampton street, Ward 12.

13. The Texas Company, keeping, storage and sale of petroleum and its products at 258 South-ampton street, Ward 17.

14. Catherine M. Breslin, keeping of gasoline, rear 25 Charlotte street, Ward 20.

15. Edward B. Muldown, keeping of gasoline, 19 Lindsey street, Ward 20.

16. John G. Godding, keeping of gasoline, rear 704 Washington street, Ward 24.

17. E. C. Powers, keeping of gasoline at 301 Fuller street, Ward 24.

20. Rowe Contracting Company, keeping and storage of dynamite, etc., at Chestnut Hill avenue, Ward 25.

22. James Marcello, keeping and storage of dynamite, etc., on Allston street, at Summit avenue, Ward 25.

Reports severally accepted; licenses granted on the usual conditions.

PUBLIC IMPROVEMENTS.

Ald. BALLANTYNE, for the Committee on Public Improvements, submitted the following:

(1) Report on petition of Suffolk Real Estate Trust (referred to-day) for leave to construct an area, etc.—recommending the passage of the following:

Ordered, That the Superintendent of Streets be authorized to issue a permit to Suffolk Real Estate Trust to construct, maintain and use a coal vault with patent sidewalk covers and two coal-hole openings under and in the sidewalk on the Doane street side of estate 11-21 Broad street, Ward 6, of the dimensions as shown on a plan dated January 8, 1910, on file in the Permit Office of the Street Department; the work to be completed according to the terms and conditions expressed in the ordinances of the city relating thereto.

Report accepted; order passed.

(2) Report on message and order (referred to-day) that the City Auditor be authorized to transfer the sum of \$25,000 additional from the appropriation for Public Buildings Department to the special appropriation for Curtis Hall, reconstruction of—that the order ought to pass.

The report was accepted and the order passed, yeas 9, nays none.

Sent down.

(3) Report on petition of The Chee Kung Hong (referred to-day) for leave to set off fire-crackers on Tyler street, January 19, 1910—that leave be granted.

Report accepted; leave granted on usual conditions.

(4) Report on petition of C. M. Koopman (referred to-day) for permit for coasting on Anawan avenue, between Park and Beech streets, West Roxbury—that leave be granted under such restrictions as the Police Commissioner may impose.

Report accepted; leave granted as above recommended.

(5) Reports on petitions—that the petitioners have leave to withdraw, viz.:

Jennie E. Thain *et al.* (referred November 22), for compensation for damage to estates 691-695 Walk Hill street by change of grade.

Flora A. Underwood (referred October 11), for compensation for damages to estate 6 High street, Dorchester, by change of grade of said street.

The Henry H. Tuttle Company (referred May 3), for leave to place brass letters in sidewalk at 159 Tremont street, Ward 7.

Reports accepted; said petitioners given leave to withdraw.

(6) Reports on ordinances, orders, etc., that the same be indefinitely postponed, viz.:

Ordinance (referred October 25) reducing number of assessors in Assessing Department.

Order (referred March 1) that the Boston Consolidated Gas Company employ none but union engineers and firemen.

Communication and order (referred October 25) revoking permit to the Boston Terminal Refrigerating Company to lay, maintain and use iron pipe under and across Marginal street.

Order (referred May 10) that the Mayor petition the Legislature for the appointment of a commission to consider the erection of a new City Hall in Park square.

Order (referred April 26) that the City Hospital Trustees be requested not to enforce their rule relative to employees appearing on the streets in uniform.

Order (referred June 14) closing Faneuil Hall Market on holidays.

Preambles and resolve (referred December 27) concerning condition of the streets in Boston.

Order (referred March 15) that flag pole be erected in Sheridan square, Roxbury.

Order (referred October 4) that open square at junction of Bunker Hill, Medford, Main and Mishawum streets be named Babcock square.

Order (referred March 1) that the Street

Commissioners extend Curtis street from Saratoga street to Bennington street.

Order (referred March 15) that the Street Commissioners accept Farnham street, Roxbury.

Order (referred to-day) changing the name of Dudley square to Hale square.

Order (referred to-day) appropriating \$75,000 from the available income of the Parkman Fund to the erection of a music stand on Boston Common.

The question came on the acceptance of the reports and indefinite postponement of the orders.

Ald. WHELTON—Mr. Chairman, I would like a division of the question, particularly as to the placing of the bandstand on the Common and the naming of Hale square. On those two I ask that the roll be called.

The other reports were accepted collectively, and the reports in regard to the bandstand and Hale square were accepted, yeas 10, nays 1, Ald. Whelton voting nay.

(7) Reports on communications, messages, orders, etc., that the same be placed on file, viz.:

Message and communications (referred December 6) relative to expenditures of Parkman Fund.

Order (referred October 18) concerning distribution of Parkman Fund income.

Message and communication from Park Commissioners (referred July 26) relative to improvements at Charlesbank.

Order (referred November 8) to appropriate \$80,000 for an aquarium at Marine Park.

Order (referred June 14) to expend \$200,000 for enlargement of Orchard Park, Roxbury.

Message and orders (referred September 27) concerning expenditure of Parkman Fund income.

Order (referred October 25) that the Committee on Appropriations give hearings and report concerning distribution of Parkman Fund income.

Order (referred October 18) to expend \$50,000 of Parkman Fund income for music pavilion on Boston Common.

Order (referred December 27) to expend \$40,000 for statue or monument to George F. Parkman, said amount to come from Parkman Fund income.

Order (referred October 4) discharging special committee on investigation of charges against New England Sanitary Product Company.

Order (referred December 6) for \$26,000 for monument to Spanish War veterans.

Petition of Blanchard & Co., (Inc.) *et al.* (referred November 29) in favor of granting petition of Telepost Company of Massachusetts.

Resolution (referred December 6) relative to hospital physicians being employed by corporations.

Order (referred October 4) that amount appropriated for the enlargement and extension of the women's section of the L Street Bath House be used for the extension and improvement of the L Street Bath House.

Message and order (referred December 27) relative to new courthouse and police station site being transferred from the Public Grounds Department to the Public Buildings Department.

Communication (referred to-day) from the New England Historic Genealogical Society relative to the old elm on Boston Common.

Message (referred December 27) transmitting list of property exempt from taxation.

Message and communication (referred September 27) relative to crossings of Boston Elevated Railway Company at Columbia road.

Message and communication from Corporation Counsel (referred September 27) as to right to sublet conduits in public streets.

Message and order (referred November 8) rescinding certain loans.

The reports were accepted and the above papers were placed on file.

(8) Report on report of the Committee on Electric Wires (referred November 22) granting permission to the New England Telephone and Telegraph Company of Massachusetts to erect and remove one pole on Newburg street, Ward 23.

Report accepted; order passed.

(9) Reports on reports of Committee on Electric Wires (referred November 22) giving permission to Edison Electric Illuminating Company of Boston to erect twenty-one poles in Baker street, Ward 23, and to erect thirty-four poles in La Grange street, Ward 23—that the same be accepted and the orders passed.

Report accepted; said orders as reported passed.

(10) Report on veto message of the Mayor (referred December 27) vetoing permit to Andrew Ronald to keep and sell gasoline at Floyd street, corner Lucerne street, Ward 24—recommending that the veto be sustained.

The report was accepted, and the question came on granting the permit, notwithstanding the objections of the Mayor. The Clerk called the roll, and the first vote stood as follows:

Yeas—Ald. Anderson, Ballantyne, Brand, Carr, Cotton, Hale, O'Hare, Whelton—8.

Nays—Ald. Curley, Giblin, Timilty—3.

Ald. COTTON—Mr. Chairman, I ask a reconsideration of the vote just taken on the ground that I believe there is a misunderstanding on the part of some who voted.

Reconsideration prevailed, and at request of Ald. CURLEY the Mayor's veto message was read.

The Board refused to grant the permit over the Mayor's veto, yeas 0, nays 10.

(11) Report on the message of the Mayor vetoing the order to release restrictions on certain land at the corner of Harrison avenue and Massachusetts avenue—recommending that the veto be sustained.

Report accepted, and the Board refused to pass the order over the Mayor's veto, yeas 0, nays 11.

PLAYGROUND, EAST BOSTON.

Ald. GIBLIN, offered an order—That the Board of Park Commissioners be requested to acquire the land at Condor and Meridian streets, in the East Boston district, now leased to the City of Boston, and also the adjacent land and flats adjacent to the Meridian Street Bridge, the same to be used for playground purposes by the Park Department; the expense thus incurred to be charged to the appropriation for Park Department.

Referred to the Committee on Finance.

MUSIC STAND, BOSTON COMMON.

Ald. ANDERSON called up No. 33, special assignment, viz.:

33. Report of Committee on Public Improvements recommending the passage of the following:

Ordered, That the Music Trustees be authorized to expend not exceeding \$75,000 out of the income of the George F. Parkman Fund for the erection of a music stand on Boston Common, and to carry out the other recommendations contained in the communication of the chairman to Mayor Hibbard, dated December 2, 1909.

Indefinitely postponed, on motion of Ald. ANDERSON.

ACCEPTANCE OF LEVANT STREET.

Ald. GIBLIN offered an order—That the Board of Street Commissioners be requested to accept and lay out Levant street, from Geneva avenue, to Topliff street, Ward 20.

Passed. Sent down.

DEDICATION OF PHILLIPS BROOKS STATUE.

Ald. HALE offered an order—That the Police Commissioner be authorized to close to travel the sidewalk on Copley square and Boylston street, adjoining Trinity Church on Saturday, January 22, 1910, between the hours of 1.30 and 4, p. m., on the occasion of the exercises attendant upon the dedication of the statue of Phillips Brooks; and the City Messenger is authorized to rope off said sidewalk, the expense attending the same to be charged to the appropriation for City Messenger Department.

Passed.

USE OF CITY LAND.

Ald. ANDERSON called up special assignment No. 36, viz.:

36. Report of the Committee on Public Lands, recommending the passage of the following:

Ordered, That his Honor the Mayor be requested to consult with the various heads of city and county departments, especially the Penal Commissioner, Pauper Trustees and Children's Trustees, in regard to the possible beneficial use by some department of the land owned by the City of Boston on New Boston street, in Wilmington and Woburn, and, further, that his Honor the Mayor be requested to report to the City Council the result of such consultation.

Report accepted; order passed. Sent down.

LAMPS; ETC., CHARLES RIVER EMBANKMENT.

Ald. COTTON called up special assignment No. 32, viz.:

32. Ordered, That the Charles River Basin Commission and the Metropolitan Park Commission be requested to place and maintain lamps along the Charles river embankment from Cambridge street to Massachusetts avenue; also to place benches along said embankment and iron ladders therefrom to the water's edge.

Passed.

PAYMENTS TO MESSRS. MATTHEWS.

Ald. ANDERSON called up special assignment No. 35, viz.:

35. Message of Mayor transmitting communication from Statistics Department giving list, of payments by the city to Nathan Matthews, Sr. and Nathan Matthews, Jr. (Doc. 158).

Ald. ANDERSON moved that the document be placed on file.

Ald. CURLEY—Mr. Chairman, I do not feel that this matter should be disposed of until such time as we receive from the City Auditor the

information requested at the last meeting of the Board, that is, a list of estates benefited in consequence of certain street widenings that took place in the time of Nathan Matthews, Sr., so that the two might be furnished as one document.

Ald. ANDERSON Mr. Chairman, I would call the gentleman's attention to the fact that this is already printed as Document 158. It would seem that when the new communication comes we may treat that in a similar manner.

Ald. CURLEY Mr. Chairman, I quite agree with the alderman.

The message was ordered placed on file.

GENERAL RECONSIDERATION.

On motion of Ald. CARR the Board refused a general reconsideration of all action taken to-day.

Adjourned, on motion of Ald. WHELTON, at 6.37 p.m., to meet on Monday, January 24, at 3 p.m.

PROCEEDINGS OF COMMON COUNCIL.

Thursday, January 20, 1910.

Regular meeting of the Common Council, held in the Council Chamber, at 7.45 p.m., President McCABE presiding.

ORDERS FILED WITH THE CLERK.

The Clerk, by direction of the President, read the following orders, filed with him by the members:

NEXT MEETING.

Mr. GORDON of Ward 9 offered an order That when this Council adjourn it be to meet on January 27, 1910, at 4 p.m.

Passed.

FIRE ALARMS AND SIGNAL, WARD 25.

Mr. WARREN of Ward 25 offered an order That the Fire Commissioner be requested, through his Honor the Mayor, to resume the striking of fire alarms and the new signal on the bells of Ward 25.

Referred to the Mayor.

Mr. DUCY of Ward 4 in the chair.

REPLY TO ORDER ASKED FOR.

Mr. KELLY of Ward 13 offered an order—That the Street Commissioners be requested, through his Honor the Mayor, to reply to the order of June 3, 1909, asking whether any arrangement can be made to give the right of way and authority to exceed the speed limit to physicians and surgeons using vehicles in the discharge of the duties of their profession.

Referred to the Mayor.

CARRYING OF FIREARMS.

Mr. KELLY of Ward 13 offered an order—That the District Attorney be requested, through his Honor the Mayor, to enforce the law in relation to persons carrying concealed weapons, and to have offenders punished by a fine of \$250, or by imprisonment in a county jail for not more than one year, or both.

Referred to the Mayor.

CATCH-BASIN, WARD 13.

Mr. KELLY of Ward 13 offered an order—That the Superintendent of Streets be requested, through his Honor the Mayor, to have a catch-basin placed at the corner of C and Baxter streets; also one at the corner of a vacant lot at the end of Eighth street, Ward 13.

Referred to the Mayor.

ENLARGING OF SCHOOL YARD, WARD 13.

Mr. KELLY of Ward 13 offered an order—That the School Committee be requested, through his Honor the Mayor, to have the yards in the Norcross and Mather Schools enlarged so as to give the children who attend said schools more breathing space during recess.

Referred to the Mayor.

CLEANING OF CROSSWALKS.

Mr. KELLY of Ward 13 offered an order—That the Superintendent of Streets be requested, through his Honor the Mayor, to have the crosswalks cleaned on the main streets in the congested parts of the city after each snow storm.

Referred to the Mayor.

INFORMATION FROM CITY AUDITOR.

Mr. KELLY of Ward 13 offered an order—That the City Auditor be requested, through his Honor the Mayor, to send to this body a separate report covering the past three or five years, and giving an estimate as to how much money the City of Boston has received from street railways, including street car license fees, franchise taxes, and taxes on tangible and personal property.

Referred to the Mayor.

PAPERS FROM THE BOARD OF ALDERMEN.

1. Notice of indefinite postponement of the following orders:

Order passed February 18, 1909, for the extension of Curtis street, Ward 1.

Order passed March 11, 1909, authorizing the City Messenger to erect a flag pole in Sheridan square, Roxbury.

Order passed March 11, 1909, for the acceptance of Farnham street, Roxbury, as a public way.

Order passed September 30, 1909, to name junction of Bunker Hill, Medford, Main and Mishawum streets Babcock square.

Order passed October 1, 1909, directing the Committee on Appropriations to give hearings relative to the distribution of the income of the Parkman Fund.

Order passed January 13, 1910, appropriating from the income from the Parkman Fund \$75,000 for a music stand on Boston Common.

Order passed January 6, 1910, changing the name of Dudley square to Hale square.

Placed on file.

The Council voted on motion of Mr. HACKETT of Ward 21, to consider Nos. 2 to 20, collectively, viz.:

2. Report of Committee on Claims, on petition of Grace A. Donnelly, referred May 17, 1909, for compensation for injuries caused by an alleged defect in Winter street,—leave to withdraw, for the reason that suit has been entered and the case settled.

3. Report of same committee, on petition of Bernard Gaffney, referred July 12, 1909, for compensation for injuries caused by a limb falling from a tree in Central Square Park, East Boston,—leave to withdraw.

4. Report of same committee, on petition of Mary J. Knight and Alice McDonald, referred July 26, 1909, for damage to clothing by employees in spraying trees,—leave to withdraw.

5. Report of same committee, on petition of John J. Maher, referred July 26, 1909, for compensation for damage to garden at 426 Bowdoin street, Dorchester, caused by stopping up of catch-basin,—leave to withdraw.

6. Report of same committee, on petition of Isabel MacLennan, referred July 26, 1909, for compensation for damage to clothing by oil sprinkler of the city,—leave to withdraw.

7. Report of same committee, on petition of W. C. Merrill, referred July 26, 1909, for compensation for damage to coat by projecting wire in Fort Hill square,—leave to withdraw.

8. Report of same committee, on petition of Benjamin F. Badger, referred September 13, 1909, for compensation for damage to automobile by a wagon of the Sanitary Division,—leave to withdraw.

9. Report of same committee, on petition of William J. Mullaney, referred September 14, 1908, for compensation for damage to property 93 Barry street, Ward 20, caused by sewer construction,—leave to withdraw.

10. Report of same committee, on petition of Elizabeth Tudor, referred November 8, 1909, to be paid for damages to estate 208 Beacon street, caused by the backing up of sewage,—leave to withdraw.

11. Report of same committee, on petition of P. E. Murray, Jr., referred November 8, 1909, for compensation for injuries to a horse by an alleged defect in Roxbury street, near Shawmut avenue, November 3, 1909,—leave to withdraw.

12. Report of same committee, on petition of Catherine and Nellie F. Ahern, referred November 22, 1909, for compensation for damages by the flooding of cellars at 7-9 Ellery street, South Boston,—leave to withdraw.

13. Report of same committee, on petition of James C. Brenner, referred November 22, 1909, for compensation for injuries caused by an alleged defect on Second street, South Boston, December 13, 1906,—leave to withdraw.

14. Report of same committee, on petition of Patrick J. Dalton, referred November 22, 1909, for compensation for damages caused by his horse stepping into a defective manhole cover,—leave to withdraw.

15. Report of same committee, on petition of Addie E. Howard, referred November 22, 1909, for compensation for injuries caused by an alleged defect in Tremont street mall, near the subway entrance,—leave to withdraw.

16. Report of same committee, on petition of Sarah L. Jones, referred November 22, 1909, for compensation for injuries caused by an alleged defect in front of 24 Birch street,—leave to withdraw at her own request.

17. Report of same committee, on petition of Joseph Myerson, referred December 6, 1909, for

compensation for damages caused by overflow of sewer at 37-39 Marshfield street,—leave to withdraw, for the reason that the case has already been settled.

18. Report of same committee on petition of Morris Goldman, referred December 6, 1909, for compensation for damages to property at 109 Hampden street by overflow of sewage,—leave to withdraw.

19. Report of same committee, on petition of Edward Mahan, referred December 6, 1909, for compensation for injuries caused by an alleged defect at 35 Houghton street, Dorchester,—leave to withdraw.

20. Report of same committee, on petition of Moteus and Anna Zinekiewicz, referred December 6, 1909, to be repaid the amount of tax erroneously paid by them on estate 10 Waverly street, Ward 25,—leave to withdraw.

Reports severally accepted in concurrence.

21. Report of Committee on Public Lands, on petition of Arthur W. Cole, referred April 26, 1909, for release of conditions in deed of land on Northampton street,—recommending the passage of the following order:

Ordered, That his Honor the Mayor be and he hereby is authorized in the name and behalf of the city, for a nominal consideration and in a manner satisfactory to the Law Department, to release the land on Northampton street described in its deed to Stephen H. Tarbell, dated September 29, 1880, recorded with Suffolk Deeds, Lib. 1511, fol. 587, from the conditions set forth in said deed, as follows:

"The premises are hereby conveyed subject to the conditions that they are to be used only for the purposes of dwelling houses, private stables or stores, and that the front line of any buildings thereon shall be placed on a line parallel with said Northampton street."

Report accepted; order passed in concurrence.

22. Report of Committee on Public Lands, recommending the passage of the following order in place of the one referred March 22, 1909, for the sale of the land mentioned:

Ordered, That his Honor the Mayor be requested to consult with the various heads of city and county departments, especially the Penal Commissioner, Pauper Trustees and Children's Trustees, in regard to the possible beneficial use by some department of the land owned by the City of Boston on New Boston street, in Wilmington and Woburn, and further, that his Honor the Mayor be requested to report to the City Council the result of such consultation.

Report accepted; order passed in concurrence.

23. Ordered, That the School Committee be requested, through his Honor the Mayor, to have memorial exercises in the public schools of this city in commemoration of the anniversary of the destruction of the battleship "Maine" in Havana harbor.

Passed in concurrence.

24. Ordered, That the City Messenger be directed to cause the city flags to be displayed at half-mast on February 15, 1910, in commemoration of the anniversary of the destruction of the battleship "Maine" in Havana harbor, the expense attending the same to be charged to the appropriation for City Messenger Department.

Passed in concurrence.

25. Ordered, That the Board of Street Commissioners be requested to accept and lay out Levant street, from Geneva avenue to Topliff street, Ward 20.

Passed in concurrence.

When No. 25 was under consideration, Mr. HARDING of Ward 20 said:

Mr. President, I rise to a point of order. I do not care to take away from Ald. Curley any credit that he desires to give to the Spanish War Veterans on the anniversary of the destruction of the battleship "Maine," but that order was referred to the City Messenger Department, which will not exist on the day on which the anniversary falls in May.

The CHAIR—The Chair will say, for the information of the Councilman, that that matter has already been acted upon.

26. Mayor's message recommending the passage of the following order for the installation of a swimming pool in the Curtis Hall Building:

Ordered That the City Auditor be and hereby is authorized to transfer the sum of twenty-five thousand dollars additional from the appropriation for Public Buildings Department to the special appropriation for Curtis Hall, reconstruction of.

The message was placed on file and the order takes its second reading at the next meeting.

CONDITIONS IN LOT, WARD 13.

Mr. KELLY of Ward 13 offered an order—That the Board of Health be requested, through his Honor the Mayor, to make an investigation and report on conditions existing in the vacant lot at Old Colony avenue, Ward 13, Baxter and Eighth streets, South Boston, said report to be made to this body at its next meeting if possible.

The order was referred to the Mayor.

DESKS AND CHAIRS FOR MEMBERS.

Mr. KELLY of Ward 13 offered an order—That each member of the Boston City Council of the year 1909 be given his desk and chair as

a remembrance of the last body that served under the old charter, and each member of the body be charged a small compensation for the same.

The order was read a second time, and the question came on its passage.

The PRESIDENT—The question comes on the passage of the order.

Passed.

ABOLITION OF GRADE CROSSINGS.

Mr. CARR of Ward 4 offered an order—That the Corporation Counsel, through his Honor the Mayor, be requested to take proper measures to have the grade crossings abolished at Charlestown Neck, as conditions that prevail are a serious menace to public safety.

The order was referred to the Mayor.

GAS LAMP, CHARLESTOWN.

Mr. CARR for Mr. Carney of Ward 5 offered an order—That the Superintendent of Streets be requested, through his Honor the Mayor, to erect and maintain a gas lamp on Park street in the vicinity of No. 49, Ward 5, Charlestown.

Referred to the Mayor.

NAMING OF SQUARE, CHARLESTOWN.

Mr. CARR of Ward 4 offered an order—That the space at the junction of Bunker Hill, Medford, Mishawum and Main streets be named Babcock square.

The order was read a second time, and the question came on its passage.

The order was passed. Sent up.

BATH HOUSE, DEWEY BEACH CHARLESTOWN.

Mr. DUCEY of Ward 4 offered an order—That the sum of \$49,998 be, and the same hereby is appropriated for the erection of a new bath house at Dewey Beach, Charlestown, and to meet said appropriation the City Treasurer be hereby authorized to issue, on the requests of the Mayor, bonds of the City of Boston to the said amount, for said purpose.

Adjourned at 9.05 p. m., on motion of Mr. KINNEY of Ward 10, to meet on Thursday, January 27, at 4 p. m.

CITY RECORD.

The *City Record* is published by the City of Boston in compliance with the requirements of Chapter 486 of the Acts and Resolves of 1909. Section 29 of that chapter provided for it in the following language:

SECTION 29. Within ninety days after the passage of this act and thereafter there shall be published at least once a week and distributed and sold under the direction of the mayor and on terms to be fixed by the city council and approved by the mayor a paper to be known as the *City Record*. All advertising, whether required by law or not, with reference to the purchase or taking of land, contracts for work, materials, or supplies, the sale of bonds, or the sale of property for non-payment of taxes shall appear exclusively in said paper; a list of all contracts of one thousand dollars or more, as awarded, with the names of bidders, and the amount of the bids; appointments by the mayor; and changes in the number and compensation of employees in each department, shall be published in the *City Record*. The proceedings of the city council and school committee, together with all communications from the mayor, shall be published in the *City Record*.

The City Council further sanctioned it by providing an appropriation of \$3,000 for the expenses in connection with the publication of the *City Record* and by the adoption of the following ordinance which was approved by the Mayor:

AN ORDINANCE ESTABLISHING THE "CITY RECORD."

Be it ordained by the City Council of Boston, as follows:

SECTION 1. Section 2 of chapter 37 of the Revised Ordinances of 1898 is hereby amended so as to read as follows: Said board shall publish once a week an official gazette of the city, to be designated the *City Record*. Said publication shall contain matters set forth in sections 29 and 30 of chapter 486 of the Acts of 1909 and such other matters as may be directed by the mayor. Said publication shall be distributed and sold under the direction of the mayor, the price of single copies being 5 cents and the yearly subscription price, one dollar, payable in advance. The price to be paid by the departments for advertising in said publication shall be fixed by the city auditor, with the approval of the mayor, and the sum so received shall be used to defray the expense of said publication.

RESULT OF VOTE CAST AT CITY ELECTION, JANUARY 11, 1910.

WARDS.

INAUGURAL ADDRESSES.

REPRINTS OF ADDRESSES DELIVERED BY THE MAYORS OF BOSTON AT THEIR INAUGURATION FROM THE INCORPORATION OF THE CITY.

William H. Whittemore, formerly City Registrar, and a man who delighted especially in the preservation of historical data relating to the city, started in 1890 a compilation of the inaugural addresses of the mayors of Boston. Up to that time they were available only in odd and scattered municipal documents, kept with indifferent care, or in some instances in privately printed documents.

In 1894 he produced the first volume which contained the addresses from Phillips to Bigelow. In 1896 he published a second volume, with the addresses from Chapman to Norcross. The two volumes make not only substantial but interesting reading for all citizens. Because of the fact that the volumes in question are out of print, it is proposed to reprint the addresses in probably weekly installments in the *City Record*.

Mayor Quincy's address, which was delivered to the City Council January 2, 1826, was as follows:

No. 5.

Gentlemen of the City Council:

To express gratitude for this renewed instance of the confidence of my fellow citizens, and to repeat assurances of a zeal and fidelity in their service in some degree proportionate to that confidence, are natural and suitable on the present occasion. It cannot be expected that he who sustains the complicated relation of chief magistrate of this city, let his endeavors be what they may, should at all times satisfy the often conflicting passions and interests always, necessarily, existing in so great a community. Much less can it be expected from the individual who, through the indulgence of his fellow citizens, is now permitted to enjoy that distinction. In all cases, however, of doubt and difficulty that individual will rest confidently for support, even with those who differ with him in opinion, on the consciousness, which he trusts his general course of conduct will impress, that every act of his official conduct, whether acceptable or otherwise, proceeds from a single regard to the honor of the city and to the happiness and best interests of its inhabitants.

It is with great delight, gentlemen, that I must here pay a tribute justly due to the wisdom and public spirit of all our former city councils. Their harmony in relation to objects of public improvement, their vigilance in maintaining the checks of our city charter and the reciprocal co-operation of the branches and members in advancing the general interests of the city without local party, or selfish considerations, are facts at once exemplary and encouraging, the results of which are apparent in our streets, in our public buildings, in the augmented value of our city lands and in the increasing satisfaction of our fellow citizens with their new form of government.

The unquestionable evidence derived from our recent census has fulfilled the expectations of the most sanguine, and has put beyond question that the increase of this city during the five years past has been, to say the least, not inferior to that of any of our maritime cities on the previous, actual basis of its population.

This fact may be considered as conclusive on its future prospects. For if, at a

time when universal peace among European nations has changed and limited the field of commercial enterprise, on which the greatness of this city was once supposed, in a manner, altogether to depend, it appears that, notwithstanding this change and limitation, its growth instead of being diminished is increasing with a rapidity equal to that of the most favored of our commercial cities, it follows, conclusively, that our greatness is not altogether dependent upon foreign commerce, and also that the enterprise, capital and intelligence of our citizens, determined inwards and active upon agriculture, manufactures and in our coasting trade, are producing results even more auspicious than our foreign commerce in its most prosperous state ever effected, than which, to the patriot's heart and hope, no facts of a mere physical character can be more encouraging or delightful.

Similar grounds for satisfaction will be found in comparing the increasing results of the aggregates of our valuation and the decreasing results of the ratio of our taxes. During the five years from 1821 to 1825, inclusive, it appears by the assessors' records that the whole aggregate of real and personal property in this city increased from twenty million three hundred thousand dollars to twenty-six million two hundred thousand, making a regular annual increase of about one million two hundred thousand dollars, of which increased capital, it will appear, by comparing the aggregate of 1821 with that of 1825, that four million five hundred thousand have been invested in real and one million five hundred thousand in personal estate.

During this period, it is true, as is inevitable in a progressive state of society, increasing daily not only in numbers but in municipal exigencies and requisitions for expenditures on account of improvements, the amount of our taxes have increased in the aggregate. Yet at the same time, owing to the increased aggregates of our valuation, the ratio of assessment has diminished. Thus if the ratios of assessment of the five years immediately preceding 1820 be compared with the five years from 1820, inclusive, it will be found that the average of the annual ratios of the former was eight dollars and twenty-five cents on the thousand dollars, and that the average of the annual ratios of the latter was only seven dollars and eighty cents. The ratio of the present year will be seven dollars.

A further illustration of our general prosperity is deducible from the fact that notwithstanding the amount of our taxes has increased with the increasing wealth and population of the city yet the ratio of uncollected taxes has, in every successive year since the existence of our city government, been diminishing.

I have been thus precise and distinct upon this point because discontent at any existing state of things is most likely to appear in the form of complaints relative to taxes. Now it is obviously impossible, in the nature of things, that the assessment of taxes in any great community should exactly proportion the burden to the ability of each individual to bear it. Some will unavoidably be taxed more and others less than their precise proportion. It cannot, therefore, but happen, even under the best form and ratio of taxation,

that there must be some who can complain with reason, as there will always be many who will complain without reason. With respect to the community itself, however, as the best criterion it can possibly have of its progressive prosperity is a regular increase of its population, accompanied by a regular increase of its wealth, so when the aggregate of its wealth increases, and at the same time the ratio of its assessments actually diminishes, it has the best evidence, the nature of things admits, that its general expenditures are not greater than the actual state of its condition and progress requires. But in such case, however, as particular expenditures may be unwise or extravagant, it is still its duty, even under such circumstances, to exact from its agents a rigid accountability.

Touching the expenditures of the past year, it is not known that any of them require a particular explanation on the present occasion. In general, I apprehend, they have been satisfactory to our fellow citizens, so far as respects their objects. And they well understand that it is, probably, in the nature of things, impossible to conduct all the details of public expenditure with that precise economy which an individual applies to his private concerns. I am not, however, aware that there have been any such during the past year which cannot, under the circumstances of each case, be satisfactorily explained by the particular agents.

In connection with this subject, it is impossible for me not to notice the happy effects produced by the establishment of the office of Auditor of Accounts, which, carried into operation by the exemplary industry and ability of that officer and by the indefatigable fidelity of the Committee of Accounts, has introduced an order, simplicity and correctness into that department not only highly creditable to the city but also facilitating in the highest possible degree particular inquiries and general knowledge relative to the state of our financial concerns.

Among the objects to which the attention of the City Council will be drawn the ensuing year is that of a sufficient and never-failing supply for our city of pure river or pond water, which shall be adequate for all purposes of protection against fire and for all culinary and other domestic purposes, and capable of being introduced into every house in the city. I deem it my duty to state unequivocally that this object ought never to be lost sight of by the City Council until effected upon a scale proportionate to its convenience and our urgent necessities. Physicians of the first respectability have urged this topic upon me, in my official capacity, on the ground of health, in addition to all the other obvious comforts and advantages to be anticipated from an adequate supply of such water. "The spring water of Boston they assert to be generally harsh, owing to its being impregnated with various saline substances; and that this impregnation impairs its excellence as an article of drink and essentially diminishes its salubrity. In the course of their practice they say they have noticed many diseases to be relieved and cured by an exchange of the common spring water for soft water of the aqueduct or distilled water. Hence they have been led to the opinion that many complaints of obscure origin owe their existence to the qualities of the common spring water of Boston." "The introduction of an ample supply of pure water would, therefore, they apprehend, contribute much to the health of the place and prove one of the greatest blessings which could be bestowed on this city."

I am induced to bring this subject before the City Council on the present occasion thus distinctly, from having been informed that citizens among us of the highest respectability, both in point of talents and property, seriously contemplate an association for the purpose of supplying this city with water and of making application to the Legislature for an act of incorporation for that object. An attempt which, if made, I trust will be met by the City Council with the most decided and strenuous opposition, and with a corresponding spirit and determination to effect this great object solely on the account and with the resources of the city. On this topic I deem it my duty to declare explicitly my opinion that in such a project the city ought to consent to no copartnership.

If there be any privilege, which a city ought to reserve exclusively in its own hands and under its own control, it is that of supplying itself with water.

No private capitalists will engage in such an enterprise without at least a rational expectation of profit. To this, either an exclusive right or a privilege of the nature of, or equivalent to, an exclusive right is essential. There are so many ways in which water may be desirable, and in such a variety of quantities, for use, comfort and pleasure that it is impossible to provide, by any prospective provisions, in any charter granted to individuals, for all the cases, uses and quantities which the ever-increasing wants of the population of a great city in the course of years may require. Besides, it being an article of the first necessity, and on its free use so much of health as well as of comfort depends, every city should reserve in its own power the means, unrestrained, of encouraging its use by reducing as fast as possible the cost of obtaining it, not only to the poor but to all classes of the community. This can never be the case when the right is in the hands of individuals, with anything like the facility and speed as when it is under the entire control of the city.

In addition to these considerations, the right to break up the streets, which that of supplying the city with water implies, ought never to be intrusted to private hands who, through cupidity or regard to a false economy, may have an interest not to execute the works upon a sufficiently extensive scale, with permanent materials, thereby increasing the inconvenience and expense which the exercise of the power of breaking up the streets necessarily induces.

A letter to me from the superintendent of the Philadelphia Water Works (Joseph S. Lewis, Esq.), a gentleman among those chiefly employed in their original construction, dated the twenty-first of December last, is so full upon this point that I cannot refrain from quoting a considerable portion of it.

"Your object should be to have enough and to spare, and the calculation should be formed on 150 gallons for each family, which will afford a supply for washing the streets, waste by leakage, etc., and the experience of this city (Philadelphia) fully justifies in saying that it is not too much, although in London a less quantity is made to answer; and owing to rivalships amongst the several companies, the inhabitants have enough for drink and for culinary and other family purposes. Yet none is to be seen in use in cleaning the gutters, washing the pavements and various methods of consumption, absolutely essential to existence and comfort in our climate in three or four hot months of the year. Scarcely a fire happens to any magnitude

in London without complaints of a deficiency of water, and I have in my possession a paper containing an account of a meeting of the Common Council of London convened for the express purpose of inquiring into the cause, which it does not require much consideration to discover.

"It is from the fatal error of suffering interested individuals to have the supply of an article of the most indispensable nature, and without which health and comfort cannot be enjoyed. Expense is not to be regarded. If a company can supply your city they will expect to profit by it, and this profit might as well be saved by your corporation. On the other hand, if it be a losing business, individuals should not suffer by forwarding a great public object, and if they do, the citizens will feel it by a pinched and partial supply.

"This city (Philadelphia) has expended vast sums of money out of its own resources, and if more were required more would be cheerfully accorded. There is no one thing in which all are so much united, and I firmly believe that if a question was submitted to the citizens to sell to a company who would pay back the whole cost with interest, that not a tenth of the population would agree to it. The increased security from fire, the abundant supply for washing the streets, the copious streams afforded for baths, for cleanliness, and in short many other advantages, are such and so well appreciated that no money could purchase the surrender of the works.

"The whole cost of the waterworks, including the pipes for distribution, previous to the erection of the new waterworks, was \$1,138,857, without adding interest. Yet such was the eagerness for a more abundant supply that a unanimous sanction was given to the new plan, which has happily succeeded, of raising the water by water power, the cost of which may be put down, including the river rights, at..... \$450,000
And in addition to this, iron pipes are substituted for those of wood, the cost of which, thus far, may be called..... 150,000

Amounting in the whole to.. \$600,000

"This sum added to that before mentioned, with the interest paid, will amount to more than two millions of dollars.

"I have said thus much to hold out an inducement to your city to persevere in obtaining a supply, and have held out our example to show that cost is not to be regarded by us in so essential a matter. We have been pioneers for our sister cities, who may now practically obtain a supply of water without paying for the cost of our experiments."

Other facts and documents connected with this subject will be hereafter communicated should the City Council deem it expedient to take it seriously into consideration.

Two occasions have occurred during the past year which made it necessary for the Mayor to examine with great attention the powers conferred on him by the city charter in relation to the suppression of riots and similar unlawful assemblies, so as to be enabled to justify before a legal tribunal the extreme resort which in such cases he might, possibly, think requisite. After consultation with the best legal advisers it was deemed most safe for the Mayor to act in the capacity of justice of the peace throughout the Commonwealth, which he happened to hold; inasmuch as the powers of the Mayor, as expressed in

the city charter, are of the most general character, and no legislative or judicial construction has ever occurred in relation to them. The duty of the Mayor, as expressed in the city charter, is to take care that all laws for the government of the city are executed. Riots, routs and unlawful assemblies are cognizable only under the laws of the Commonwealth. By these laws the course of proceedings and the persons intrusted with their execution are expressly pointed out, and among them the Mayor of the city is not included.

In general it may be observed that an undefined and exaggerated notion of the powers of the Mayor has led our fellow citizens to expect a much greater exercise of authority in many cases than the terms of the city charter justify. It is, however, certain, that, in respect of riots, the Mayor, by the mere virtue of his office, does not possess even the power of a justice of the peace.

It was solely, therefore, and avowedly in virtue of a commission of the peace, and not in virtue of his office of Mayor, that the first riotous assembly was met and dispersed by that officer.

Such being the relations of his power it, is obviously in every occurring case his duty to decide upon his responsibility, whether the particular disturbance is of a nature to justify him in compromising the unquestionable rights and duties of his office in a case of a doubtful character by his personal presence, or whether in the free exercise of his discretion he should leave their remedy to the prescribed executive agents of the Commonwealth, who can act without any censure from an apprehended, illegal assumption of power.

If a case has occurred, or should hereafter occur, in which any persons should, in defiance of the moral sense and general feeling of the public, adopt any measures which would, naturally and almost unavoidably, lead to disorder and disturbances, they could not reasonably invoke the aid of the authorities of the city so long as the invited evil was confined to themselves only; but it is a question of very serious moment with the inhabitants of a city so distinguished for its religious and moral character, whether further checks ought not to be provided to prevent that,—which has been merely tolerated,—from becoming the source of disturbances, of danger and of disgrace to the citizens and their government.

It is my duty only to call your attention to the subject, and I shall cheerfully acquiesce in your decision.

If the Mayor is to be made responsible to act in all such cases, his powers ought to be accurately defined and his duties prescribed by law. The powers of the Mayor are sufficient for all municipal purposes, and it is as much his duty to abstain from assuming to exercise powers not vested in him by his office as it is to exercise those powers with which he is intrusted.

Gentlemen of the City Council:

The harmony which hitherto has, without interruption, been maintained between the departments, members and branches of our city government is among the auspicious auguries of the future greatness and happiness of this community. It will be your and my endeavor to maintain and increase this happy mutual understanding and respect. But difficult questions concerning duties, made complex and uncertain by the interfering passions, interests and prejudices, existing in all great combinations of men, must necessarily occur. On occasions of this character

those will be most sure to find the correct rule of truth and duty who seek it with a sense of strict subordination to those moral and religious sanctions under which the wisdom of our fathers laid the foundations of the prosperity of this people.

RAINSFORD ISLAND INSTITUTION.

The Children's Institutions Trustees are working on the problem of the Suffolk School for boys on Rainsford Island. The plant is in poor shape and the buildings in certain instances are a reproach to the city.

This is not because of any niggardliness on the part of the city itself, for all the administrations for a number of years back have been willing to provide the necessary money once they were assured that a positive course was decided on.

The problem at Rainsford Island is something more than the putting up of new buildings. It is the belief of many that the island itself is unsuited for the purposes for which it is used, that it is too small, too barren in soil, and lacking in opportunities to give the boys the training they need.

Under these conditions there is a natural diffidence about starting a new plant which may cost three or four hundred thousand dollars which after being erected may be abandoned on the grounds that the conditions are unsatisfactory.

The island appeals to many of the officers because in the first instance it really eliminates escapes. It is admitted that while no doubt the City of Boston could purchase an area of land on the mainland where farming and other activities could be carried on with more profit, that the holding of sentenced boys under such conditions, would be made an extraordinary task.

It has lately been suggested that the southerly end of Long Island might be made available for the erection of a new institution. There is a large area now not used at all, part of which was formerly utilized for the Randage Fund excursions. It is so far away from the almshouse and hospital that as far as contact went, the institutions would be as if on different islands.

Yet the policy has of late been so strict against any possible intermixing of these two classes there is grave question but what serious objection might be raised no matter how complete the separation.

Meanwhile, that an injustice is being done the boys because of present housing conditions is admitted by all, so that the time is not far distant when irrespective of the question as to whether a mistake may or may not be made, a decision will have to be reached.

RELEASE OF LAND RESTRICTIONS.

The passage through the city government, at intervals of orders relieving certain property owners, of the restrictions on their property compelling a set back from the street, calls attention to a state of affairs which deserves greater consideration than it has been given in the past.

On Boylston street, and throughout a number of the streets and avenues in the south end, notably Massachusetts avenue and Columbus avenue, the titles as passed in the first instance, provided for a set back of the building line.

This restriction was imposed when it was believed that the sections in question

would always continue as a residential neighborhood. The Boston planners of that time were seeking to maintain the tone of the locality, and the houses now existing in the sections are evidence of their success.

But conditions have been gradually changing, and now business is creeping in. Where shop business has failed to make its entry the demands of the time are calling for apartment houses which will shelter four and five and ten families rather than the one which originally was cared for.

The loss of land occasioned by the set back, has operated in some instances to decrease the availability of the sites for store purposes and in the case of apartment houses to block the erection of buildings containing suites of the proper floor area.

As a result of this condition the habit has grown up of seeking from the city, which originally owned a large part of the land, a release from the restrictions for individual cases. The ability of the city government to give such releases is questionable but those who have secured them, have been willing to take the chance. The result of this haphazard releasing has been most unfortunate for the city. It is especially pronounced on Columbus avenue, where little store excrescences have been built to the sidewalk line at intervals spoiling the effect of the street.

The time has now come when in the opinion of many the subject of these restrictions should be taken up and handled in a general comprehensive plan. First there is but little doubt but what an actual payment should be demanded where the city was the original owner. When the sale was made originally, because of the restrictions, there was a natural abatement in the price, and if now that the land has increased, this additional space is to be given for building purposes the new owners should pay for it.

In all this though, it is well to bear in mind that there are few if any streets in Boston which are too wide, and that once restrictions are released if future demands should be made for the widening of the streets that it would cost an extraordinary amount of money to restore the streets to their original condition.

That phase and it has been brought up in connection with Boylston street, between Church and Copley square, must of course be settled. The real point at the present time, is to impress the public with the damage which has already been wrought, by the present haphazard distribution of this very valuable privilege.

CITY HALL REARRANGEMENT.

The substitution of a single chamber of nine members for the present City Council, consisting of eighty-eight, with an upper and lower chamber, has made possible a rearrangement of the accommodations in City Hall. There are now two assembly chambers and only one will be required for the conduct of business.

The first question to be decided is, which chamber shall be given over to the use of the new body. On the second floor there is the present Aldermanic Chamber which accommodates thirteen, and has openings to the office of the City Clerk. On the fourth floor is the Council Chamber, which accommodated seventy-five, with retiring rooms on both sides and a suite of offices now occupied by the President of the Council and the Clerk of that body.

It has been suggested that this second

chamber in many ways would prove the most desirable. In the first place, the adjoining rooms could easily be cut into offices, so each member would have a private workroom. It would also provide more space for the spectators who could be accommodated in the gallery.

One advantage of this removal would be that it would relieve the congestion on the second floor, and give to the executive department a room where public hearings might be held. At the present time, when the demand is made on the Mayor for a public hearing the only place which he has available is his own private office. It is a restricted office at the best, and while the hearing is being held all other business has to be suspended. If the Aldermanic Chamber were abandoned though he would have right at hand a place where such hearings could be held in dignity and without the interruptions suggested.

Whatever may be the decision of the new City Council, it is positive that more space will have to be given to the executive department. The amount of work transacted is steadily increasing and there is not room now for the proper storing of the office records. Meanwhile the executive clerks are obliged to carry on their labors practically in the heart of a public office.

NEW CIVIL SERVICE RULES.

Pursuant to the authority conferred by section 6 of chapter 19 of the Revised Laws, the Civil Service Commissioners have prepared the following amendments and alterations of the Civil Service Rules:

AMENDMENTS TO CIVIL SERVICE RULES.

First.—The following is adopted as section 3 of Civil Service Rule 31:

3. In case a provisional appointee shall have served continuously for eighteen months from date of appointment authorized by the commission, and for at least six months after notice received by the commission of the last increase of pay or change of his duties, and in case no suitable eligible list, in the opinion of the commission, shall have been established after open competitive examination within such period of time, the commission shall authorize the appointing officer to make such appointment permanent if he shall file with it a certificate in such form as it shall prescribe to the effect that the provisional appointee is duly qualified for the position, that his services have been entirely satisfactory, and that the best interests of the city or of the Commonwealth will be served by such permanent appointment. No transfer will be allowed of a person so appointed except upon consent of the commission and under the provisions of the civil service rules relating to transfers.

Second.—Sections 3, 4 and 5 of said Rule 31 are hereby renumbered and shall hereafter be Sections 4, 5 and 6, respectively.

Prepared and respectfully submitted to the Governor and Council for approval.

(Signed) CHARLES WARREN,
FRANK FOX-CROFT,
ELMER L. CURTISS,
Civil Service Commission.

January 7, 1910.

Approved in council, January 13, 1910.

(Signed) E. F. HAMLIN,
Executive Secretary.

A true copy. Attest:

WARREN P. DUDLEY,
Secretary, Civil Service Commission.

January 17, 1910.

In accordance with the provisions of section 8 of chapter 19 of the Revised Laws, notice is hereby given that the foregoing amendments to the Civil Service Rules will take effect on the first day of April, 1910.

By order of the Civil Service Commission,
WARREN P. DUDLEY,
Secretary.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, JANUARY 29, 1910.

No. 5.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week, to insure its publication in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to the watering, cleaning, lighting, and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Aldermen, next meeting, January 31.
School Committee meets January 31, 7.30 p. m.

Rapid Transit Commission. Stated meetings of the Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Harbor and Land Commissioners. Stated meetings of the Commission are held Mondays and Fridays, 2 p. m.; Wednesdays, 11 a. m.

A hearing will be had on the petition of James A. Larrabee, for leave to occupy a proposed wooden building for one cow, rear 89 Gladstone street, Ward 1, on Thursday, February 3, 1910, at 11 a. m., in the office of the Board of Health, 11 Old Court House.

A hearing will be had on the petition of Joshua Stanley, for leave to occupy a proposed wooden building for six horses, at 4601 Washington street, Ward 23, on Thursday, February 3, 1910, at 11 a. m., in the office of the Board of Health, 11 Old Court House.

LEGISLATIVE CALENDAR.

It is proposed hereafter to print weekly as accurately as possible the dates of committee hearings in the State House on bills affecting the City of Boston. Citizens anxious to really influence legislation should remember that the first and most valuable opportunity is in the committee room where the measures are being discussed. A great complaint of the past on the part of the legislators has been, that citizens have failed to recognize this fact and only appear after bills have been reported on to the legislature.

In making up this list the idea is to include bills which are apt to affect Boston interests even though the City of Boston may not be named in the title:

CITIES. (Room 240.)

February 3, 10.30 a. m. For two weeks vacation for city employees.

EDUCATION. (Room 441.)

February 3, 10.30 a. m. On retirement of masters and teachers; on tuition of children outside their own towns.

LEGAL AFFAIRS. (Room 249.)

January 31, 2.30 p. m. On collection of unpaid water bills.

METROPOLITAN AFFAIRS. (Room 240.)

January 31, 10.30 a. m. Report of Special Commission on Metropolitan Improvements.

February 4, 10.30 a. m. On restoring tree growth, Boston Harbor.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record*, by the following departments. The attention of contractors and others is specially called

to the closing time for the receipt of such proposals. This will be published weekly.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending January 27, 1910:

AUDITING DEPARTMENT.

Appointment (routine) of Julien C. Haynes as acting auditor for two weeks, during such time as the City Auditor may be absent from the office.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

At a meeting of the Trustees of the Boston Consumptives' Hospital held on Friday afternoon, November 12, 1909, it was voted subject to the approval of the Mayor to create three positions of nurse for the Boston Consumptives' Hospital, at \$40 a month each. This action received the Mayor's approval, and Miss Anna E. F. Walsh, 149 Hillside street, Roxbury, and Mary J. McKenzie, 149 Hillside street, Roxbury, were appointed to fill two of these positions, having entered service on November 9, 1909. Miss McKenzie resigned on December 22, 1909. Miss Gwynette Gardiner, 16 Rosewood street, Mattapan, was appointed to fill the third position, having reported for duty on November 20, 1909.

At this meeting (November 12, 1909) it was also voted, subject to the approval of the Mayor, to create the position of orderly at a salary of \$35 a month. This action received the Mayor's approval, and Mr. John H. Crowley, 215 West Canton street, Boston, was appointed to fill this position, having reported for duty on November 11, 1909.

Mr. Fred S. Leach resigned as orderly on January 8, 1910, and Mr. Herbert M. Donnell, 578 River street, Mattapan, was appointed to fill the vacancy caused by said resignation, having entered service on January 10, 1910.

Miss Sarah Moore resigned as cook on December 29, 1909, and Miss Christine Campbell, 315 Columbus avenue, Boston, was appointed to fill the vacancy caused by said resignation, having entered service on January 1, 1910.

Miss Margaret Kelley resigned as maid at the day camp on January 13, 1910, and

Miss Mary Gallagher, 58 Broadway, Cambridgeport, was appointed in her place, having entered service on January 14, 1910.

At this meeting (November 12, 1909) it was also voted, subject to the approval of the Mayor, to create the position of hospital interne at a salary of \$25 a month. This action received the Mayor's approval on December 13, 1909, and Mr. Raymond Bliss, 235 Belmont street, Belmont, was appointed to fill this position, having entered service on January 15, 1910.

Mr. Patrick Flaherty resigned as farmer at Mattapan on December 13, 1909, and Mr. John Shiel, 1221 Morton street, Dorchester, certified by the Civil Service Commission, was appointed in this capacity. Mr. Shiel reported for duty on January 18, 1910.

FIRE DEPARTMENT.

Appointment of Joseph H. Forbush and Bartholomew M. Flaherty as linemen for a period of about two months at a salary of \$3 per day, six days per week.

Increase allowed: William J. Hurley, clerk in repair shop, from \$900 to \$1,000.

Increase allowed: Walter L. Finigan, clerk in repair shop, from \$700 to \$900.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week.

Winnie Burns, supply kitchen woman, \$5 per week; James Carr, center orderly, \$20 per month; Catherine I. Cunningham, graduate special nurse, \$15 per week; Esther L. Kenney, graduate special nurse, \$15 per week; Lucetta J. Gross, graduate special nurse, \$15 per week; Edith Grau, head nurse, \$35 per month; Annie T. Ryan, nurse, *re.*, \$5 per month; Mary Hayes, scrubber, \$5 per week; Olga Strout, laundress, \$16 per month; Annie Busch, laundress, \$16 per month; Martin Hart, house porter, \$25 per month; David Thompson, house porter, \$25 per month; Sarah Oakes, ward helper, \$5 per week; James W. Hackett, whitewasher and house cleaner, \$1.50 per day; Samuel Clark, house cleaner, \$1 per day.

The following employees have had increase of wages:

Guy F. Blood, orderly, \$25 to \$30 per month; James J. Sugrue, orderly, \$25 to \$30 per month; Michael T. McGowan, orderly, \$30 to \$35 per month; Floyd E. Malone, orderly, \$30 to \$35 per month; Alexander G. J. Fyfe, kitchen man, \$25 to \$30 per month; Anna B. O'Brien, nurse, \$8.33 to \$12.50 per month.

OVERSEERS OF THE POOR DEPARTMENT.

Appointment of Joseph T. Dizel as temporary clerk at a salary of \$50 per month.

PENAL INSTITUTIONS DEPARTMENT.

Appointment (routine) of William A. Boudrot as acting commissioner during such time as the commissioner may be absent from the office.

PUBLIC BUILDINGS DEPARTMENT.

Transfers: The following persons have been transferred from the City Messenger Department to this department:

Daniel J. Sheehan, chief janitor; Hugh W. J. McLaughlin, assistant chief janitor; Atlas Skinner, assistant janitor; Patrick H. Kelly, assistant janitor; William T. Dunn, assistant janitor; George T. Perry, assistant janitor; James E. McDonough, assistant janitor; David Welch, assistant janitor; Theodore Jennings, elevator attendant; Edward J. Hickey, elevator attendant; James A. Rahell, assistant janitor; Frederick T. Glenn, furniture

polisher; Ellen Hines, Elizabeth Doherty, Mary Meehan, Mary Isaacs, Mary Whelton, Ellen O'Brien, Barbara Curley, Julia Bowman, Mary Sullivan and Ellen McBride, floor washers.

OVERTIME ALLOWED.

Street Department.

The following men are allowed overtime for extra work on account of snow removal:

Jeffrey Eager, Jr., \$1,000 per year, two and one-quarter days, \$6.17; J. Francis Chickey, \$800 per year, two days, \$4.38; Thomas M. Lannon, \$800 per year, three days, \$6.57; Henry J. McGuiness, \$800 per year, two days, \$4.38; James C. Gallagher, \$1,200 per year, three and one-half days, \$11.51; George R. Starkey, \$800 per year, two and one-half days, \$5.48.

CONTRACTS AWARDED.

The following contracts for work and supplies have been awarded. Those awarded without public advertisement are specially indicated. Week ending January 27, 1910:

STREET DEPARTMENT.

Contract for building Tollgate Way Footbridge, West Roxbury, awarded to the Boston Bridge Works, Inc., \$5,865.

Other bid received was as follows: William H. Ellis, \$5,866.

ADDITIONS AND ALLOWANCES TO CONTRACTS.

Under the law the Mayor has during the week approved the following additions and allowances to contracts. Copies of these additions and allowances to contracts are on file in the office of the City Clerk.

BATH DEPARTMENT.

Edward C. Kelly, authorized to add for carpenter work, uncovering beams and taking up floors and furnishing and installing iron girders in the Cabot Street Bath House, \$233.33. Original contract, \$1,867; total additions, \$233.33. Contract as standing, \$2,100.33.

PERMISSIONS GRANTED.

While the aldermen have certain powers in the granting of licenses and permission to store gasoline and project bay windows, etc., the approval of the Mayor is in all cases necessary to make such permits legal.

The Mayor has during the week approved the following requests of this general nature:

FOR USE OF FANTUCCI HALL.

C. F. Riordan, evening, February 15, 1910; Socialist Labor Party, afternoon, April 24, 1910; Republican State Committee, noon, November 7, 1910; Boston American, evening, January 22, 1910.

GASOLINE PERMITS.

For keeping of gasoline a permit was issued to E. C. Powers, 301 Fuller street, Ward 24.

For keeping and storage of gasoline a permit was issued to Edward B. Muldoon, 19 Lindsey street, Dorchester.

For keeping, storage and use of dynamite for blasting purposes a permit was issued to John J. Bonity, 220 South Huntington avenue, Ward 22.

RAILROAD COMMISSION HEARING.

Upon the petition of the Boston Elevated Railway Company for approval of the placing of weighing and vending machines in the several stations of the Washington Street Tunnel in Boston, the Board will give a hearing at its office, 20 Beacon street, Boston, on Thursday, February 3, 1910, at 10.30 o'clock in the forenoon.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH:

1910.
February 7. Civil Engineers, Class 27.
February 15. Metropolitan Park Policemen, Class 16.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON:

1910.
February 8. Civil Engineers, Class 27.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.
March 29. Janitors and Engineers of Public Buildings, Class 24.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth; and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and, when filled out, should be filed in the office of the Commission.

In order to receive a notice to appear at any of the above scheduled examinations, an applicant should have his application on

file at least ten days before the date set for holding the examination.

By order of the
MASSACHUSETTS CIVIL SERVICE COMMISSION,
WARREN P. DUDLEY,
Secretary.

NEW CIVIL SERVICE RULES.

Pursuant to the authority conferred by section 6 of chapter 19 of the Revised Laws, the Civil Service Commissioners have prepared the following amendments and alterations of the Civil Service Rules:

AMENDMENTS TO CIVIL SERVICE RULES.

First.—The following is adopted as section 3 of Civil Service Rule 31:

3. In case a provisional appointee shall have served continuously for eighteen months from date of appointment authorized by the commission, and for at least six months after notice received by the commission of the last increase of pay or change of his duties, and in case no suitable eligible list, in the opinion of the commission, shall have been established after open competitive examination within such period of time, the commission shall authorize the appointing officer to make such appointment permanent if he shall file with it a certificate in such form as it shall prescribe to the effect that the provisional appointee is duly qualified for the position, that his services have been entirely satisfactory, and that the best interests of the city or of the Commonwealth will be served by such permanent appointment. No transfer will be allowed of a person so appointed except upon consent of the commission and under the provisions of the civil service rules relating to transfers.

Second.—Sections 3, 4 and 5 of said Rule 31 are hereby renumbered and shall hereafter be Sections 4, 5 and 6, respectively.

Prepared and respectfully submitted to the Governor and Council for approval.

(Signed) CHARLES WARREN,
FRANK FOXCROFT,
ELMER L. CURTISS,
Civil Service Commission.

January 7, 1910.

Approved in council, January 13, 1910.

(Signed) E. F. HAMLIN,
Executive Secretary.

A true copy. Attest:

WARREN P. DUDLEY,
Secretary, Civil Service Commission.

January 17, 1910.

In accordance with the provisions of section 8 of chapter 19 of the Revised Laws, notice is hereby given that the foregoing amendments to the Civil Service Rules will take effect on the first day of April, 1910.

By order of the Civil Service Commission,
WARREN P. DUDLEY, Secretary.

CITY OF BOSTON.

PROPOSALS FOR CLEANING SEWERS.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for cleaning sewers in the following streets, viz.: Buckingham street, between Dartmouth street and Columbus avenue, City Proper; Chadwick street, between Hampden street and Yeoman street and Yeoman street, between Albany and Chadwick street, Roxbury; Webber street, between Harrison avenue and Albany street, Roxbury; Hyde Park avenue, between Forest Hills square and Walk Hill street, West Roxbury; Poplar street, between Washington street and Clarendon park, West Roxbury; Florence street from No. 121 to Sherwood street, West Roxbury; Stony Brook Valley sewer from Boylston street, about 1,500 feet northerly, West Roxbury, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder and left at said office before 12 o'clock m. of Monday, February 7, 1910, with a certified check for \$300, payable to and to be the property of the city if the proposal is not carried out, will, at said hour and place, be publicly opened and read. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the unions' rate of wages, and the right to reject any or all proposals. The proposal should be inclosed in an envelope, sealed and marked "Proposal for Cleaning Sewers."

GUY C. EMERSON,
Superintendent of Streets.

Boston, January 28, 1910.

(Jan. 29.)

CITY OF BOSTON.

PROPOSALS FOR PLUMBING.

The trustees of the Consumptives' Hospital of Boston invite bids for "Plumbing of the Women's Cottage Ward Building at the Consumptives' Hospital, River Street, Mattapan, Boston," and giving bond of a surety company in an amount satisfactory to the trustees. Only bids made on form obtained at the office of the architects, Maginnis & Walsh, 902 Colonial Building, Boston, signed by the bidder and left at the office of the trustees, 926 Tremont Building, before 12 o'clock m., Wednesday, February 9, 1910, with a certified check for \$200, payable to and to be the property of the city if bid is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor before the time specified for opening the bids. The trustees reserve the right to reject any or all proposals and to give preference to bidders paying the trades unions' rate of wages. The proposal should be inclosed in an envelope, sealed and marked "Bid for Plumbing of the Women's Cottage Ward Building at the Consumptives' Hospital."

EDWARD F. MCSWEENEY,
Chairman Board of Trustees.

(Jan. 29-Feb. 5.)

CITY OF BOSTON.

PROPOSALS FOR HEATING.

(Jan. 29.)

CITY OF BOSTON.

PROPOSALS FOR THE PURCHASE OF STONE CRUSHING PLANT.

The Superintendent of Streets of the City of Boston, Office 47 City Hall, invites proposals for the purchase of the stone crushing plant, including drills, plates and all the parts, now the property of the city, and located on Codman street, Dorchester. The bidder will furnish his own proposal and leave same at the office of the Superintendent of Streets before 12 o'clock m. of Monday, February 7, 1910, with a certified check for ten (10) per cent of the total amount bid, payable to and to be the property of the city if the proposal is not carried out. The bid will at said hour and place be publicly opened and read. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any and all proposals. Further information regarding these proposals may be obtained at the office of the Superintendent. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Purchasing Codman Street Stone Crushing Plant."

GUY C. EMERSON,
Superintendent of Streets.

Boston, January 28, 1910. (Jan. 29.)

CITY OF BOSTON.

PROPOSALS FOR TROLLEY SYSTEM, OR OTHER SUITABLE SYSTEM, FOR CARRYING COAL, LONG ISLAND, BOSTON HARBOR.

The Boston Infirmary Trustees invite proposals for construction and installation of a trolley system, or other suitable system, for transporting coal from the coal sheds to the power house of the Almshouse and Hospital on Long Island, Boston Harbor, and furnishing bond of a surety company satisfactory to the Trustees, proposals to be accompanied by plans and specifications of the system on which the bid is made. Plans showing the grade, and the construction of the coal shed and wharf, will be provided upon application at the office of the Trustees, 28 Court square, Room 3. The proposal should be inclosed in a sealed envelope marked "Proposal for Coal Carrying System, Long Island," and left at the above-named office with certified check for \$100, payable to and to be the property of the city if the proposal is not carried out, before 12 m. on Wednesday, March 2, 1910, at which time and place the bids will be publicly opened and read. Duplicate proposal, without check, should be filed with the City Auditor previous to the time named for opening the bids. The Trustees reserve the right to reject any of all bids.

EDWARD M. GALLAGHER,
Chairman.

(Jan. 22-Feb. 5-19.)

PROCEEDINGS OF BOARD OF ALDERMEN.

Monday, January 24, 1910.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 3 o'clock p. m., Chairman BRAND presiding and all the members present.

The Board voted, on motion of Ald. ANDERSON, to dispense with the reading of the records of the last meeting.

McCaragle, Ward 8; Harry D. Heath, Ward 24; Richard Nason, Ward 14; George H. Schwab, Ward 5; William E. Linton, Ward 14; William F. Duggan, Ward 17; Charles F. Guilhop, Ward 20; S. Fred Towle, Ward 12; Edward Beateay, Ward 20; Charles F. Cowley, Ward 1; Andrew Nickelson, Ward 24; Arthur J. Richmond, Ward 11; Edward A. Burroughs, Ward 15; Henry S. Pike, Ward 4; Alfred L. Varney, Ward 24; William F. Quinn, Ward 8; Alexander Hunter, Ward 25; John Lee, Ward 25; James E. Larivee, Ward 20; Henry A. Eichorn, Ward 17; Charles Allgaier, Ward 19; Frank W. Hunt, Ward 11; Thomas L. Sherman, Ward 20; Charles H. McGarry, Ward 4; Daniel J. O'Connor, Ward 15; Gustav Martin, Ward 11; James C. McClay, Ward 15; Jeremiah J. Mahoney, Ward 15.

Second Session—Frederick A. Brennan, Ward 3; Charles F. Walton, Ward 25; Thomas Maxwell, Ward 3; William A. Hall, Ward 20; Frederick L. Greim, Ward 23; James H. Brady, Ward 24; Clifford W. Reed, Ward 24; William O. McFee, Ward 14; Richard Dermody, Ward 10; William W. Churchill, Ward 11; John J. Hallahan, Ward 8; William G. French, Ward 23; Frank E. Stearns, Ward 25; Philip Cabot, Ward 11; Frank E. Shedd, Ward 20; Frank H. Sawyer, Ward 8; Patrick Collins, Ward 17; Colin F. MacKinnon, Ward 24; John Hanson, Ward 18; Valentine G. Ryan, Ward 13; John Mahoney, Ward 18; Louis A. Aspinwall, Ward 25; William E. Manning, Ward 14; William J. McGee, Ward 20; Charles P. Mahoney, Ward 22; Stephen McGlone, Ward 21; Thomas L. Timmins, Ward 1; Louis Bedford, Ward 11; Andrew Thanisch, Ward 22; James B. Winston, Ward 2; Edwin H. Wright, Ward 20; Herman M. Funke, Ward 24; Edward P. Osborn, Ward 24; Walter A. Munier, Ward 24; Frederick Miller, Ward 3.

Third Session—Arthur E. Blanchard, Ward 20; Daniel J. O'Neill, Ward 12; Arthur E. Barter, Ward 23; William H. Fogg, Ward 24; John E. O'Brien, Ward 5; Thomas Grady, Ward 12; Adrian E. Borden, Ward 20; James F. McGrath, Ward 17; Charles A. Richardson, Ward 1; Harris Poorvu, Ward 6; Jeremiah F. Sullivan, Ward 16; Fred W. Sproul, Ward 25; William J. Walsh, Ward 2; Thomas R. Steer, Ward 11; Daniel J. Sullivan, Ward 24; Richard Pinksohn, Ward 25; Haskell V. Campbell, Ward 22; Frank LePlant, Ward 17; Samuel H. Eaton, Ward 19; James J. Talbot, Ward 4; Thomas J. Doherty, Ward 9; Wilbur A. Morse, Ward 23; Charles H. Castor, Ward 8; Patrick Gibbons, Ward 19; Maurice A. Frank, Ward 19; Noble E. Hill, Ward 17; James J. Haines, Ward 17; Thomas F. Jenkins, Ward 20; Richard F. Dalton, Ward 16; Thomas J. Mortimer, Ward 1; Anders R. Lofgren, Ward 23; John Casey, Ward 3; Elmore C. Ayer, Ward 24; Francis P. Sharkey, Ward 20; Arthur E. Morrill, Ward 20.

Fourth Session—George F. Jordan, Ward 24; Thomas F. Reardon, Ward 19; Erving E. Stevens, Ward 21; Richard F. Murphy, Ward 5; William A. Mills, Ward 2; Daniel S. Geraughty, Ward 9; Edward Quinn, Ward 15; John H. Hart, Ward 1; Henry Hampe, Ward 21; Bernard Wise, Ward 20; David C. Percival, Jr., Ward 11; John R. Waters, Ward 25; Patrick F. Burns, Ward 19; William F. Johnson, Ward 12; John J. McCarthy, Ward 2; John Groves, Ward 8; William J. Woodburn, Ward 15; Frederick Freeman, Ward 13; Michael J. Connory, Ward 17; Herbert E. Homer, Ward 24; Michael E. Shaughnessy, Ward 8; Joseph F. Guinnessy, Ward 22; John R. Gray, Ward 1; Phineas Elton, Ward 24; Christian Rausch, Ward 1; Robert W. Bartlett, Ward 6; Daniel P. Conroy, Ward 23; George Knarr, Ward 18; Andrew B. Johnson, Ward 14; Charles E. Seaverns, Ward 22; W. Forest Johnson, Ward 3; Leo A. W. Malm, Ward 19; James Sheedy, Ward 1; William Bell, Ward 1; James G. Waters, Ward 15.

Fifth Session—Ernst G. W. Kraushaar, Ward 22; Samuel Shaw, Ward 12; Henry F. Montague, Ward 10; Edward F. Keefe, Ward 3; George P. Hardeastle, Ward 21; William H. O'Connor, Ward 2; Michael V. Collins, Ward 25; Robert J. Ware, Ward 14; John S. Foster, Ward 18; Fred Sawyer, Ward 21; James D. Blyn, Ward 19; William J. Handrahan, Ward 14; John H. McCaffrey, Ward 14; Patrick Coughie, Ward 5; James Hefferin, Ward 25; William Tucker, Ward 3; James J. Atwood, Ward 23; Henry T. Bowen, Ward 25; Thomas A. McQuade, Ward 20; August A. Nylund, Ward 20; Jacob H. Rittenberg, Ward 20; William Norton, Ward 6; John E. Jacobson, Ward 10; Harris Koritz, Ward 24; David W. McKinney, Ward 23; Edward M. Schofield, Ward 20; Hubert L. Barker, Ward 10; Wallace E. Bruce, Ward 23; John J. Connell, Ward 14; E. Carter Seaver, Ward 23; William F. Sawyer, Ward 18; James H. Burns, Ward 11; P. Joseph Lyons, Ward 12; Merchant E. Philbrick, Ward 10; John J. Sullivan, Ward 13.

Sixth Session—Thomas Collins, Ward 20; Michael G. Flynn, Ward 11; James Farrell, Ward 19; Allen Ainslie, Ward 11; William C. Draper, Ward 4; Eben S. Tracy, Ward 24; William W. Cross, Ward 19; Jeremiah J. Sullivan, Ward 15; Jeremiah Harrington, Ward 17; Harry C. Brooks, Ward 21; Samuel Lipman, Ward 9; Louis J. Clark, Ward 21; Lawrence C. Kammerer, Ward 15; John Kelly, Ward 24; Edward J. O'Brien, Ward 20; Michael J. Cleary, Ward 17; Squire S. Rogers, Ward 22; Thomas J. McGowan, Ward 13; F. Pithias Elms, Ward 24; Fred A. Jackson, Ward 17; John B. Curry, Ward 25; Charles E. Holbrow, Ward 25; John J. Fay, Ward 11; William H. Stevens, Ward 7; Frederick F. Stiles, Ward 12; James H. Croft, Ward 15; Timothy J. Bowen, Ward 18; Patrick F. Anderson, Ward 17; Frank L. Given, Ward 18; Thomas J. Flynn, Ward 20; Arthur F. Kiernan, Ward 1; George M. Devonshire, Ward 17; Jefferson B. Johnson, Ward 12; Daniel F. Hennessy, Ward 13; Parkman B. Haven, Ward 11.

Seventh Session—James J. Murphy, Ward 16; Dominick Gibbons, Ward 4; Arthur F. Leonard, Ward 19; Charles H. Woodsum, Ward 20; Andrew J. McGlinchy, Ward 6; S. Bayard Thompson, Ward 12; Charles S. Bostwick, Ward 17; Alonzo T. Randall, Ward 21; Alfred R. Beck, Ward 21; Benjamin Cohen, Ward 2; Harry M. Fletcher, Ward 25; Willard Johnson, Ward 18; Frank X. Boivin, Ward 17; Louis V. Goodspeed, Ward 24; George F. S. Muldoon, Ward 25; George A. Borofski, Ward 20; Louis Freedman, Ward 9; Patrick F. Ryan, Ward 4; James F. Brennan, Ward 13; James A. Laidlaw, Ward 16; Orlando C. Allen, Ward 25; John H. Boles, Ward 3; August W. Buchner, Ward 22; John F. Goodwin, Ward 16; William B. Stevens, Ward 11; Erwin S. Wester, Ward 22; John J. H. Lampard, Ward 20; John M. Fiske, Ward 9; Thomas S. Murphy, Ward 19; George A. Ross, Ward 9; Stephen McParland, Ward 7; Eugene Molnar, Ward 22; Charles W. Franklin, Ward 17; Herbert S. Potter, Ward 11; John T. Hart, Ward 8.

HEARINGS AT THREE O'CLOCK.

1. On petition of the Fire Commissioner for leave to erect a post for a fire-alarm box, corner of Hanover and Portland streets, Ward 6.
No objections. Recommended to the Committee on Electric Wires.

On petitions of the Edison Illuminating Company of Boston for leave to erect poles in streets, as follows:

2. G street, Ward 15, two poles.
Objections to the granting of the petition were made by Dennis W. Hickey, Laura Hayford and M. Southard, all of G street.

Recommended to the Committee on Electric Wires, on motion of the Chairman, with instructions to give a hearing.

3. Greenwich park, Ward 12, one pole.
Objections to the granting of the petition were made by Mrs. Mary E. Doherty, 150 St. Botolph street, and Mrs. Jane Whitaker, 36 Greenwich park.

Recommended to the Committee on Electric Wires, on motion of the Chairman, with instructions to give a hearing.

On petitions of the New England Telephone and Telegraph Company of Massachusetts for leave to erect poles in streets, as follows:

4. Rockland street, Ward 21, one pole.
No objections. Recommended to the Committee on Electric Wires.

5. Dunboy street, Ward 25, three poles.
Objections to the granting of the petition were made by George T. Elliot and S. T. Hammond, both of Dunboy street.

Recommended to the Committee on Electric Wires, on motion of the Chairman, with instructions to give a hearing.

6. Hobart street, Ward 25, six poles.
Objection to the granting of the petition was made by William D. Quigley of Hobart street.

Recommended to the Committee on Electric Wires, on motion of the Chairman, with instructions to give a hearing.

7. Bigelow street, Ward 25, three poles.
No objections. Recommended to the Committee on Electric Wires.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Building Department (Ald.).

Petitions for leave to project signs, etc., were received as follows:

(Signs.)

Joseph Mondello, 112 Portland street, Ward 6.

The T. E. Proctor estate (a steel beam), over Purchase street, from building 383-391 Atlantic avenue.

R. W. Hart *et al.*, 65 Beverly street, Ward 8.
Asa F. Rich, 79 West Concord street, Ward 12.
Samuel Chipman (two), at 1208 Harrison avenue, Ward 17.

Mrs. A. Gibson, 56 Roxbury street, Ward 18.
Frank De Luca (two), 141 Stoughton street, Ward 20.

(Illuminated Signs.)

D. H. Stubbs, 43 Washington street, Ward 6.
Joseph Shonovitz, 42½ Hanover street, Ward 6.
David J. Ingraham, 13 Winter street, Ward 7.
Anthony Merenda, 574 Tremont street, Ward 9.

T. B. Light (two gas arc lights), 1625-1627 Washington street, Ward 12.

Faneuil Hall, Etc.

Petitions for the use of Faneuil Hall, viz.:
Boston American, January 22, 1910, evening.
Socialist Labor Party, April 24, afternoon.
Republican State Committee, November 7, at noon.

C. F. Riordan, February 15.

Police (Ald.).

Annie A. Shaw, to be paid for the loss of fowls killed by dogs.

Railroads.

Boston Wharf Company, for location for tracks across Congress street, Ward 13.

Claims.

Margaret Murphy, for Nellie M. Murphy (a minor), for compensation for injuries to said Nellie M. caused by an alleged defect in the sidewalk at 6 Broadway, South Boston.

Public Improvements.

Estate of Eben D. Jordan, for leave to construct sidewalk light covers on Tennyson street side of the motor mart, Ward 10.

George A. Fuller Company, for leave to erect guy posts, one in Warren avenue and two in Tremont street, Ward 10.

Bernard W. Marcus, for leave to erect guy posts, two in Astor street and one in Bickerstaff street, Ward 10.

J. J. and P. M. Ahern, for leave to move a building from 161 Freeport street to 60 Greenwich park, Ward 20.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Board, the Mayor submitted the following appointments, viz.:

(1) William P. Twomey (1870 Washington street, Ward 12), a Constable of the City of Boston for the term ending April 30, 1910.

(2) Joseph F. Sullivan (24 Maverick square, Ward 2), Weigher of Vessels and Ballast for the term ending April 30, 1910.

(3) Patrick Shea (453 East Sixth street, Ward 15), a Weigher of Coal and a Gauger of Liquid Measures for the term ending April 30, 1910.

The appointments were declared laid over under the law.

The CHAIRMAN—No. 8 on the calendar the Clerk will read.

The Clerk read No. 8 on the calendar, paper from the Common Council, as follows:

8. Ordered, That the square at the junction of Bunker Hill, Medford, Mishawum and Main streets be named Babcock square.

The CHAIRMAN—The question comes on the passage of the order in concurrence.

Ald. COTTON—Mr. Chairman, I move reference of the order to the Committee on Public Improvements.

The order was referred to the Committee on Public Improvements.

The CHAIRMAN—The Clerk will read the order.

Chairman BRAND offered an order—That the Board of Street Commissioners, with the approval of the Mayor, be authorized to lease to the Trustees of Boston College in Boston, for a term of ten years, and for a nominal consideration and subject to such further terms and conditions as said Board may deem advisable, a strip of land owned by the City of Boston, extending from Norfolk avenue to Massachusetts avenue in said Boston, the same to be used with the land on each side of said strip of land for an athletic field.

The question came on giving the order a second reading.

Ald. COTTON—Mr. Chairman, I move that this order be referred to the Committee on Public Improvements.

The order was declared referred to the Committee on Public Improvements.

The CHAIRMAN—Ald. Attridge submits an order, which the Clerk will read.

Ald. ATTRIDGE offered an order—That there be allowed and paid to the City Registry Department the sum of \$750, the same being to enable the City Registrar to pay the fees due to persons who make returns as required by law; to be accounted for by vouchers filed with the City Auditor, and to be charged to the appropriation for Registry Department.

Passed; sent down.

Later in the session Ald. GIBLIN said:

Mr. Chairman, I rise to a question of personal privilege, simply to set myself right on a little matter that is before the Board. I wish to read the following:

City of Boston,

Office of the Mayor, February 11, 1909.

To the Gentlemen of the Common Council:

I transmit herewith a communication from the Corporation Counsel containing a reply to your order requesting information in regard to the duties of the Committee on Vessels and Ballast.

Respectfully,

G. A. HIBBARD, Mayor.

Law Department,
Boston, February 10, 1909.

Hon. George A. Hibbard, Mayor,
City Hall, Boston:

Dear Sir,—I am requested by the Common Council to inform that body through you what constitutes the duties of the Committee on Vessels and Ballast.

By chapter 308 of the Acts of 1848, the City Council of Boston was authorized to establish ordinances and regulations respecting the weighing and marking of lighters, and other vessels employed in the transportation of stones, gravel, sand or other ballast, and for the inspection and weighing of such ballast within the City of Boston, including the appointment and compensation of weighers, markers, inspectors, or other officers necessary to carry such ordinances and regulations into effect.

I suppose this committee must have been instituted about this time, and its duties probably were to see that the inspectors, weighers and markers did their duty concerning vessels and ballast.

By the amended City Charter of 1885, all executive duties were taken away from the City Council or either branch thereof, and since that time this committee has no duties to perform that I am aware of.

Yours respectfully,

THOMAS M. BABSON, Corporation Counsel.

My contention and argument, that I was not allowed to proceed with, are that the two appointments were illegal, the appointments sent in by his Honor the Mayor. That was my reason for asking to have them referred to the Committee on Public Improvements.

The CHAIRMAN—The Chair understood the reference to Public Improvements to be action taken on the appointments.

DUMPING OF SNOW.

Ald. ANDERSON offered an order—That the Superintendent of Streets be requested, through his Honor the Mayor, to direct the Street Cleaning Department not to permit the dumping of snow from one residential street into another residential street.

Passed.

CLERK HIRE.

A communication was received from W. T. A. Fitzgerald, Register of Deeds, in accordance with the provisions of section 23 of chapter 22 of the Revised Laws, certifying that persons have been employed in his office from December 20 to January 24, and that work had been performed to the amount of \$3,517.65.

Referred to the Committee on County Accounts.

CERTIFICATION OF ELECTION.

Communications were received from the Board of Election Commissioners certifying that by the records of the votes cast in this city at the municipal election, held on the 11th inst., the following-named persons were duly elected to the offices set forth, viz.:

For Mayor—John F. Fitzgerald, 39 Welles avenue.

For City Council—Three years, Walter L. Collins, 445 Washington street; Matthew Hale, 50 River street; John J. Attridge, 118 Malden street.

For City Council—Two years, Thomas J. Kenny, 296 West Fifth street; Walter Ballantyne, 224 Dudley street; James M. Curley, 105 Mt. Pleasant avenue.

For City Council—One year, Frederick J. Brand, 4 Melville avenue; Daniel J. McDonald, 28 Marion street; Timothy J. Buckley, 7 Lawrence street.

Certification of the vote cast at the municipal election, held on the 11th inst., in the City of Boston, upon the question: "Shall licenses be granted for the sale of intoxicating liquors in this city?" was as follows:

Yes, 54,094; No, 26,972.

Placed on file.

PROJECTIONS, ETC.

Ald. BALLANTYNE, for the Committee on Building Department (Ald.) submitted the following:

(1) Reports on petitions (severally referred to-day) for leave to project signs at various locations—that leave be granted, viz.:

Joseph Mondello, 112 Portland street, Ward 6.

Gustavus Nelson, 24 Pleasant street, Ward 7.

The T. E. Proctor Estate (a steel beam), over Purchase street, from building 383-391 Atlantic avenue.

R. W. Hart *et al.*, 65 Beverly street, Ward 8.

Asa F. Rich, 79 West Concord street, Ward 12.

Samuel Chipman (two), at 1208 Harrison avenue, Ward 17.

Mrs. A. Gibson, 56 Roxbury street, Ward 18.

Frank De Luca (two), 141 Stoughton street, Ward 20.

Reports severally accepted; leave granted on usual conditions.

(2) Reports on petitions (severally referred to-day) for leave to project illuminated signs at various locations—that leave be granted, viz.:

D. H. Stubbs, 43 Washington street, Ward 6.

Joseph Shlonovitz, 424 Hanover street, Ward 6.

David J. Ingraham, 13 Winter street, Ward 7.

Anthony Merenda, 574 Tremont street, Ward 9.

T. B. Light (two gas arc lights), 1625-1627 Washington street, Ward 12.

Reports severally accepted; leave granted on usual conditions.

(3) Report on petition of Israel Flink (referred January 17) for leave to project two bay windows from building 35 Myrtle street, over South Russell street, Ward 11—that leave be granted.

Report accepted; leave granted on usual conditions.

(4) Report on petition of J. Arthur Gustowski (recommitted December 27) for leave to project one bay window from building rear 662-664 Saratoga street, over Curtis street, Ward 1—that the petitioner have leave to withdraw.

(Ald. GIBLIN dissents from the above report.)

The report was declared not accepted.

Ald. COTTON doubted the vote and asked for a roll call.

The Board voted to refer the matter to the Committee on Public Improvements.

ELECTRIC WIRES.

Ald. BALLANTYNE, for the Committee on Electric Wires, submitted the following:

(1) Reports on petitions of the New England Telephone and Telegraph Company of Massachusetts, for leave to erect poles—that the petitioners have leave to withdraw, viz.:

On petition (referred October 18, 1909) to erect six poles in Milton avenue, Ward 24.

On petition (referred November 29, 1909) to erect one pole in Bentley street, Ward 25.

Accepted.

(2) Report on petition of the New England Telephone and Telegraph Company of Massachusetts (referred January 17) for leave to remove one pole on Huntington avenue—recommending the passage of the following:

Ordered, That permission be granted to the New England Telephone and Telegraph Company of Massachusetts to remove one pole from Huntington avenue, at the junction of Tremont and Francis streets, Ward 19, as shown by black dot on plan dated December 28, 1909, and filed in the office of the Superintendent of Streets.

Report accepted; order passed.

(3) Report on petition of the New England Telephone and Telegraph Company of Massachusetts (referred January 17) for leave to erect and remove one pole on Harvard street—recommending the passage of the following:

Ordered, That permission be granted to the New England Telephone and Telegraph Company of Massachusetts to place and maintain

poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by F. T. Crockett; said poles to be located as follows:

Harvard street, Ward 20, corner Thane street, one pole, 40 feet by 14 inches; sidewalk, 7 feet; plan dated December 28, 1909.

Ordered, That permission be granted to said company to remove one pole from Harvard street, as shown by black cross on said plan.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the street for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating and removing said poles to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed.

LICENSES.

Ald. CURLEY, for the Committee on Licenses, submitted the following:

(1) Reports on petitions recommending that minors' licenses be granted to 210 newsboys, 8 bootblacks and 3 vendors.

Reports severally accepted; licenses granted on usual conditions.

(2) Reports on petitions for leave to keep gasoline, explosives, etc.—that licenses be granted, viz.:

E. C. Powers (referred January 17), to keep gasoline at 301 Fuller street, Ward 24.

Edward B. Muldown (referred January 17), to bury gasoline tank, at 19 Lindsey street, Dorchester.

John F. Beatty (referred April 26, 1909), to keep, store and use dynamite for blasting purposes, at 220 Huntington avenue, Ward 22.

The question came on accepting the reports and granting the licenses.

Reports accepted; licenses granted.

PAYMENT FOR LOSS OF FOWLS.

Ald. CURLEY, for the Committee on Police (Ald.), submitted the following:

(1) Report on petition of J. B. Look (referred January 17) for loss of fowl killed by dogs—recommending the passage of the following:

Ordered, That there be allowed and paid to J. B. Look the sum of four dollars in compensation for the loss of four hens killed by dogs December 31, 1909; said sum to be paid from the income from dog licenses.

Report accepted; order passed.

(2) Report on petition of John A. Burgess (referred January 17) for payment for loss of fowls killed by dogs—recommending the passage of the following:

Ordered, That there be allowed and paid to John A. Burgess the sum of nine dollars in compensation for the loss of nine hens killed by dogs on December 31, 1909; said sum to be paid from the income from dog licenses.

Report accepted; order passed.

(3) Report on petition of Annie A. Shaw (referred to-day) for loss of fowls killed by dogs—recommending the passage of the following:

Ordered, That there be allowed and paid to Annie A. Shaw the sum of four dollars in compensation for the loss of four hens killed by dogs January 17, 1910; said sum to be paid from the income from dog licenses.

Report accepted; order passed.

RAILROADS.

Ald. ANDERSON, for the Committee on Railroads, submitted a report on the petition of Boston Wharf Company (referred to-day) for location for track across Congress street, Ward 13—that an order of notice be passed for a hearing thereon on Monday, January 31, at 3 o'clock p. m., when any parties objecting thereto may appear and be heard.

Report accepted; order of notice passed.

USE OF FANEUIL HALL.

Ald. ATTRIDGE, for the Committee on Faneuil Hall, etc., submitted reports on petitions (severally referred to-day) for the use of Faneuil Hall—that leave be granted, viz.:

Boston American, evening of January 22.

Republican State Committee, November 7, at noon.

Socialist Labor party, afternoon of April 24.

C. F. Riordan, February 15.

Reports severally accepted; leave granted on the usual conditions.

MAYOR'S CONTINGENT EXPENSES.

1891-1894.

Ald. CURLEY offered an order—That the City Auditor be requested to furnish this Board at its next session with an itemized and detailed

statement of all bills paid and expenditures made for whatever purpose from the Contingent Fund of the Mayor's office in the years 1891, 1892, 1893 and 1894.
Passed.

CHARGE OF BATH DEPARTMENT.

Ald. CURLEY submitted the following:

City of Boston.

In the Year Nineteen Hundred and Ten.

An Ordinance

Relative to the Bath Department.

Be it ordained by the City Council of Boston, as follows:

Section 1. The bath department shall be under the charge of the bath commissioner, who shall have the care and custody of all bath houses, whether for all-the-year-round use or floating bath houses in salt water for summer use, bathing beaches, swimming pools and gymnasia, now or hereafter provided by the city.

Section 2. Section one of chapter 2 of the Revised Ordinances of 1898 is hereby amended in line forty-two by adding the words, "a bath commissioner"; and by striking out in line fifty-three of said section the words "the bath trustees."

Section 3. Section five of chapter three of the Revised Ordinances of 1898 is hereby amended by adding in the last line the words, "the bath commissioner, three thousand dollars."

The CHAIRMAN—The ordinance will be referred to the Committee on Public Improvements.

Reconsideration was declared carried. Ald. GIBLIN doubted the vote and asked for the yeas and nays.

Reconsideration was refused, yeas 3, nays 8:

Yeas—Ald. Curley, Timilty, Whelton—3.

Nays—Ald. Anderson, Attridge, Ballantyne, Carr, Cotton, Giblin, Hale, O'Hare—8.

ABOLITION OF GRADE CROSSINGS, OLD COLONY RAILROAD.

Ald. CURLEY offered the following:

Resolved, That the Board of Aldermen of the City of Boston, acting as County Commissioners, is opposed to any change in the plan entitled "Plans for the Abolition of Grade Crossings of the Old Colony Railroad in the City of Boston, Mass.," now on file in Nos. 1621, 2596 and 2722, Equity, in the clerk's office of the Superior Court for Suffolk County, Massachusetts, together with the Report of the Commissioners; and is particularly opposed to such modification as will tend to confine the ebb and flow of the tide, or in any way interfere with the water bed, in Tenean creek, Dorchester District, such as would result from the construction of a conduit instead of the bridge, which is represented on said plans.

The resolution was read a second time and the question came on its adoption.

The resolution was referred to the Committee on Public Improvements.

PHOTOGRAPHS OF CAMBRIDGE BRIDGE.

Ald. WHELTON offered an order—That the City Engineer be authorized to procure for the members of the Board of Aldermen suitable photographs of Cambridge Bridge, the expense attending the same to be charged to the appropriation for Contingent Expenses, Board of Aldermen, and not to exceed \$200.

Referred to the Committee on Public Improvements.

CONFIRMATION OF APPOINTMENTS.

Ald. CURLEY called up No. 9, unfinished business, viz.:

Action on appointments submitted by the Mayor January 17, 1910, viz.:

9. Albert W. Hersey, to be a Cemetery Trustee for the term ending April 30, 1914.

The question came on confirmation. Committee—Ald. Curley and Anderson. Whole number of votes, 11; yeas 10, nays 1, and the appointment was confirmed.

Ald. COTTON called up Nos. 10, 11 and 12, unfinished business, viz.:

10. Andrew J. Condon, to be a Constable for the term ending April 30, 1910.

11. Walter C. Katzman, to be a Weigher of Beef for the term ending April 30, 1910.

12. Thomas Gordon, Harry L. Orr and George E. Thayer, to be Weighers of Coal, Measurers of Wood and Bark, Measurers of Grain, Weighers of Boilers and Heavy Machinery and Weighers of Beef for the term ending April 30, 1910.

The question came on confirmation. Committee—Ald. Cotton and Timilty. Whole number of votes 12; yeas 12, and the several appointments were confirmed.

\$2.50 PER DAY FOR CITY MEN.

Ald. GIBLIN offered an order—That his Honor the Mayor be requested to take the necessary steps to have established at \$2.50 per day the wages of all laborers and mechanics employed by the city who now receive less than said sum.

The order was ordered to a second reading. Ald. ANDERSON calling for the yeas and nays, yeas 12, nays none. The order was passed; sent down.

WIDENING OF NORFOLK STREET.

Ald. CARR offered an order—That the sum of \$150,000 be hereby appropriated for the widening of Norfolk street between Codman square and Dorr's Bridge, Ward 24; and that to meet the said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to said amount.

Referred to the Committee on Finance.

The question came on reconsideration.

Reconsideration was declared lost. Ald. HALE doubted the vote and asked for the yeas and nays.

Reconsideration prevailed, yeas 11, nays 1, Ald. ANDERSON voting nay.

Ald. CURLEY—Mr. Chairman, I desire at this time to call up No. 13 on the calendar, and I move that when the vote is taken it be by roll call.

The CHAIRMAN—The question comes on the passage of No. 13 on the calendar.

No. 13, a special assignment, was as follows:

13. Petition of Margaret Rogers for renewal of license for lying-in hospital at 1128 Boylston street. Said petition is accompanied by a certificate from the Board of Health that the petitioner is a suitable person and that her premises are suitable for maintaining a lying-in hospital.

The result of the roll call was as follows:

Yeas—Ald. Anderson, Attridge, Brand, Curley, O'Hare, Timilty, Whelton—7.

Nays—0.

The CHAIRMAN—As there was no objection made to Ald. Curley's calling up No. 13, the Chair put the question. Seven members having voted in the affirmative and none in the negative, it is a vote, and the order is passed.

APPROPRIATION FOR FIREBOAT.

The following was received:

City of Boston.

Office of the Mayor, January 24, 1910.

To the Gentlemen of the City Council:

The Fire Commissioner has asked that the loan appropriation for new fireboat be increased from \$55,000 to \$60,000, and that the unexpended balances for fireboat No. 47 and for landing for fireboat and quarters for men be transferred to this same appropriation, giving as reasons therefor that the lowest bid received on the new boat is \$54,500, and that it will be necessary to provide for architect's fee and other incidentals.

The conditions warrant the transfer and additional loan of \$5,000 requested by the commissioner for this purpose, and I recommend the passage of the accompanying drafts of orders providing for the same.

Respectfully,

G. A. HIBBARD, Mayor.

Fire Department, Bristol Street,

Boston, January 22, 1910.

Hon. George A. Hibbard,

Mayor.

Sir—I respectfully ask that the loan of \$55,000 for the new fireboat be increased to \$60,000 and that the unexpended balance for the fireboat No. 47 and also the unexpended balance for the landing for fireboat and quarters for the men be transferred to this loan. My reason for this request is that the lowest bid received for the new boat is \$54,500. In addition there will be the architect's fee, those for inspection and advertising as well as equipment.

Yours respectfully,

S. D. PARKER,

Commissioner.

Ordered, That the sum of \$5,000 additional be hereby appropriated to be expended by the Fire Department for new fireboat; and that to meet such appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to the above amount.

Ordered, That the City Auditor be authorized to transfer the unexpended balance of the appropriation for Fireboat 47, amounting to \$2,374.99 and the unexpended balance of the appropriation for landing for fireboat and quarters for men amounting to \$199.49 to the appropriation for new fireboat.

The orders were read a second time, and the question came on their passage.

Both orders were passed, yeas 10, nays 1, Ald. CARR voting nay.

PUBLIC IMPROVEMENTS.

Ald. BALLANTYNE, for the Committee on Public Improvements, submitted the following:

(1) Report on the petition of J. J. and P. M. Ahern (referred to-day) for leave to move a wooden building—recommending the passage of the following:

Ordered, That the Superintendent of Streets be authorized to issue a permit to J. J. and P. M. Ahern to move a wooden building, pitch roof, 20 feet in length by 20 feet in width by 24 feet in height, from No. 161 Freeport street through said street and Greenwich place to lot No. 60 Greenwich place, Ward 20, on the terms and conditions expressed in the ordinance of the city relating thereto.

Report accepted; order passed.

(2) Reports on petitions (severally referred to-day) for leave to erect guy posts in certain streets and to construct sidewalk light covers—recommending the passage of orders authorizing the Superintendent of Streets to issue permits as hereinafter specified, the work to be completed on or before February 5, according to the terms and conditions expressed in the ordinances of the city relating thereto, viz.:

Bernard W. Magnus, to erect, maintain and use guy posts with the necessary ropes and wires attached in and over the following locations: Two posts in Astor street, within 60 feet from Bickerstaff street; one post in Bickerstaff street, 60 feet from Astor street, Ward 10, for use during the building of a stone foundation at Bickerstaff and Astor streets.

George A. Fuller Company, to erect, maintain and use guy posts with the necessary ropes and wires attached as follows: One post in Warren avenue, east side, near Chandler street; two posts in Tremont street, west side, between Clarendon and Berkeley streets, Ward 10, for use during the construction of a theater building on Tremont street.

Estate of Eben D. Jordan, to place, maintain and use patent sidewalk light covers over the area at present existing in and under the sidewalk on the Tennyson street side of the building known as the Motor Mart, as shown on a plan dated January 19, 1910, and placed on file in the Permit Office of the Street Department.

Reports severally accepted; orders passed.

(3) Report on message of Mayor and communication from Superintendent of Streets (referred December 6, 1909), with preambles and order that rights in land lying between Birch street and Belgrade avenue are no longer required for public purposes, and abandoning said rights—that the order ought to pass.

Report accepted; order passed, yeas 11, nays 0. Sent down.

(4) Report on petition of the Edison Electric Illuminating Company of Boston and order (referred November 22, 1909), that said company be given leave to erect three poles in Kemp street, Ward 16—that the order ought to pass.

Report accepted; order passed.

(5) Report on order (referred December 13) that an annuity of \$300 be allowed and paid to Mary Akery, widow of James B. Akery, late a member of the Boston Fire Department, as long as she remains unmarried—that the order ought to pass.

Report accepted; order passed. Sent down.

(6) Report on petition of the Chee Kung Hong (referred January 17) for leave to set off firecrackers on Tyler street January 19—that leave be granted.

Report accepted; leave granted on usual conditions.

(7) Reports on messages of the Mayor (referred today) appointing William P. Twomey as constable of the city for the term ending April 30, 1910, and Joseph F. Sullivan, weigher of vessels and ballast for the term ending April 30, 1910—that the same be returned to the Board for action.

Report accepted; appointments laid over under the law.

(8) Report on ordinance (referred January 17) transferring custody of City Hall to the Public Buildings Department—that the same be indefinitely postponed.

Report accepted; ordinance indefinitely postponed.

(9) Report on order (referred July 12, 1909) that the Street Commissioners be requested to use a sufficient part of their loan of \$300,000 for the widening and construction of Geneva avenue from Columbia road to Bowdoin street in Ward 20—that no action is necessary.

Accepted.

(10) Report on resolves (referred today) that the Board of Aldermen acting as County Commissioners is opposed to modification of plans for abolition of grade crossings of the Old Colony Railroad, etc.—recommending the passage of the following new draft.

Resolved, that the Board of Aldermen of the City of Boston, acting as County Commissioners, is opposed to such modification in the plan, already adopted for the abolition of grade crossings of the Old Colony Railroad through Dorchester as will tend to confine the ebb and flow of the tide, or in any way interfere with the water bed, in Tenean creek, Dorchester district, such as would result from the construction of a conduit instead of the bridge.

Resolved, that the City Clerk be directed to forward a copy of these resolutions to the Harbor and Land Commission.

Report accepted; resolutions passed in new draft.

(11) Report on petition of J. Arthur Gustowski (referred to-day) for leave to project one bay window from building rear 662 664

Saratoga street, over Curtis street, Ward 1—that leave be granted.

Report accepted; leave granted on the usual conditions.

(12) Report on order (referred, April 5, 1909) for the appointment of a joint special committee on Memorial Day—that the same be indefinitely postponed.

Report accepted; order indefinitely postponed.

(13) Report on order (referred to-day) that the Board of Street Commissioners with the approval of the Mayor be authorized to lease to the Trustees of Boston College, in Boston, for the term of ten years, and for a nominal consideration, and subject to such further terms and conditions as said Board may deem advisable, a strip of land owned by the City of Boston, extending from Norfolk avenue to Massachusetts avenue, in said Boston, the same to be used with the land on each side of said strip of land for an athletic field—recommending reference of the same to the Board of Street Commissioners.

Report accepted; said reference ordered.

(14) Report on message, communication and order (referred September 27) for loan of \$30,000 for new boat for Infirmary Department—that the same be placed on file.

Accepted.

COUNTY ACCOUNTS.

Ald. COTTON, for the Committee on County Accounts, submitted a report on the statement of W. T. A. Fitzgerald, Register of Deeds (referred to-day), certifying that certain persons have been employed in his office from December 20, 1909, to January 24, 1910, and that work had been performed to the amount of \$3,517.65—that the same be approved.

Report accepted; pay roll approved and ordered paid.

RIFLE RANGE SITE.

Chairman BRAND submitted the following:

Supplementary Report of the Committee on Public Lands.

Subject: Rifle Range.

Boston, January 24, 1910.

As a member of the Committee on Public Lands, believing that the result of the investigation of the purchase of land for a "rifle range" is of such importance that it should be a matter of public record, I therefore submit this supplementary report to the one made by the chairman of the committee to this Board. I am prompted to do this for the reason that for lack of a quorum the committee did not consider the report as a whole before it was submitted to this Board, and I feel that the report previously made does not represent the sentiment of the whole committee, inasmuch as the responsibility is not placed for the fraud perpetrated upon the city in the purchase of this land.

The committee held several public hearings and called before it a number of persons interested in the purchase of the land, and found upon investigation that the land was purchased in part of it, at least by an inspector of small arms practice of the Massachusetts State Militia. The purchase was made in the latter part of the year 1901, and in his haste he paid the sum of \$3,350 for ninety-seven acres, which in turn were deeded to John Howard Sullivan, a man who had no interest in the land whatever, who did not know from whom it was purchased or to whom it was to be sold, and who was used simply as a "straw" man. He, in turn, deeded it to the City of Boston on January 9, 1902, for \$25,000. What was paid for the balance of eight and thirty one-hundredths acres which made up the total of one hundred five and three-tenths acres the committee was unable to learn.

The committee found that the check of the City of Boston was paid to John Howard Sullivan, who, in turn, indorsed it and paid it over to one Henry Goodnough, now dead. Who the money then went to, or how it was divided, the committee is unable to trace.

While the committee found that the sum of \$3,350 had been paid for the land, under the circumstances it is fair to presume that had anyone purchased this land for their own personal use they would not have paid even the sum that was paid through haste to secure it for sale to the City of Boston for more than twenty times its value. It is reasonable, therefore, to suppose that the real value of the land is not reflected in its original purchase price, but, on the contrary, that it was not worth more than from \$1,000 to \$1,500.

To give the transaction a further plausible appearance, the assessed valuation of the land was soon thereafter raised to \$7,850, as follows:

On the land in Wilmington..... \$2,850
On the land in Woburn..... 5,000

Making a total of..... \$7,850

Since your Committee on Public Lands has investigated the matter, however, we have

succeeded in getting a reduction in the assessed valuation, through the Superintendent of Public Buildings, Mr. George W. Morrison, as follows:

On the land in Wilmington to..... \$1,425
On the land in Woburn to..... 2,000

Making a total of..... \$3,425

for the present assessed valuation, and even at this point it is believed to be assessed for from two to three times its real value.

In the light of the facts brought out by the committee in its investigation, there is no doubt but that a barefaced, unscrupulous fraud has been perpetrated upon the City of Boston by the payment of \$25,000 for this almost worthless piece of land for a rifle range, and the responsibility should be placed upon the shoulders of the persons who participated in, and were the active agents in, carrying through this deal.

I therefore, recommend that the accompanying order should be passed.

FREDERICK J. BRAND.

For the Committee on Public Lands.

Ordered, That all evidence, stenographic reports and findings of the Committee on Public Lands pertaining to the investigation of the so-called rifle range in Woburn and Wilmington be placed in the hands of the District Attorney for further investigation and prosecution of the persons who participated in the fraud on the City of Boston, in selling it a comparatively worthless piece of land, situated in Woburn and Wilmington, for the sum of twenty-five thousand (25,000) dollars.

The CHAIRMAN—The question is on accepting the report and passing the order.

Ald. COTTON—Mr. Chairman, I move that the report be accepted, but that the order be indefinitely postponed. I think there is information in the report that makes it interesting, and perhaps of some value. In regard to the order I feel that it should not pass. The order assumes that a fraud was committed on the city in the sale to it of this land in Woburn and Wilmington for rifle purposes. If that is a fact, it is also a fact that the crime under the statutes has been outlawed, since the sale was on January 7, 1902. Section 52 of chapter 218 of the Revised Laws of 1902 reads as follows:

"An indictment for murder may be found at any time after the death of the person who is alleged to have been murdered. An indictment for any other crime shall be found and filed within six years after the crime has been committed."

The District Attorney's office will, in my opinion, take no action in this matter—first, for the reason that there are no specific charges. My understanding of the matter is that the District Attorney's office will investigate no matter in the absence of specific charges. The District Attorney's office will not investigate this matter for the added reason that it is outlawed under the laws of Massachusetts. In April an order was referred to the Committee on Public Lands involving the sale of this property by the city. At that hearing evidence was admitted by me which related to the question of the alleged fraud upon the city by this sale. I would have been justified, in my opinion, in ruling out all that evidence on the ground that it was irrelevant to the order that was presented, but I admitted that evidence, not in order to give political capital to any member of the committee, but for the sole reason that I hoped during the inquiry that facts would be disclosed which might deter people from attempting fraud of this nature upon the city in the future. I therefore hope that this order will not prevail but that it will be indefinitely postponed.

The report was accepted.

The order was indefinitely postponed, Ald. Cotton asking for the yeas and nays; yeas 9, nays 3. Ald. Attridge, Brand and Hale voting nay.

GENERAL RECONSIDERATION.

On motion of Ald. CARR, the Board refused a general reconsideration of all action taken to-day.

Adjourned, on motion of Ald. CARR, at 7.02 p. m., to meet on Monday, January 31, at 3 o'clock p. m.

PROCEEDINGS OF COMMON COUNCIL.

Thursday, January 27, 1910.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 4 o'clock p. m., President McCABE in the Chair and a quorum present.

CONDITION OF CHELSEA DRAW.

The following was received:

City of Boston,

Office of the Mayor, January 27, 1910.

To the Gentlemen of the Common Council:

I transmit herewith a communication from the Superintendent of Streets containing an answer

to your order requesting information as to what steps are being taken to put Chelsea South draw in proper condition for public use.

Respectfully,

G. A. HIBBARD, Mayor.

Street Department, January 25, 1910.

To the Honorable the Mayor:

In accordance with the request contained in the inclosed order of the Common Council you are respectfully informed that necessary repairs are made from time to time on Chelsea South draw as needed. No general strengthening is practicable with the present structure.

Very respectfully,

GUY C. EMERSON,
Superintendent of Streets.

Placed on file.

RENOVATION OF WARDROOM.

The following was received:

City of Boston,

Office of the Mayor, January 27, 1910.

To the Gentlemen of the City Council:

The trustees of the Bath Department have concluded that it will not be possible to complete the renovation of the Blossom Street Wardroom building for less than \$25,000. The City Council has already authorized expenditures amounting to \$15,000 for this purpose, and it will therefore be necessary to provide \$10,000 additional before the work can be taken up. I transmit herewith a draft of order appropriating the sum needed, the passage of which I recommend.

Respectfully,

G. A. HIBBARD, Mayor.

Ordered, That the City Auditor be authorized to transfer the sum of \$10,000 additional from the appropriation for "Reserve Fund" to the appropriation for "Gymnasium, Ward Building, Ward 8."

The message was sent up. The rule was suspended on motion of Mr. BURROUGHS of Ward 8, and the order was passed, yeas 59, nays, 0.

Yeas—Allston, Arnold, Bagley, Bulantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Connors, Cox, Crane, Cronin, Cumming, Davis, Donovan (19), Ducey, Fitzgerald, Garrity, Goodwin, Gordon, Green, Hackett, Hart, Hoague, Hoey, Jones, Joyce, Kelly, Kennedy, Kenney, Kinney, Kohler, Krug, McCabe, McCarthy, McKeagney, Meins, Moore, Murray, O'Brien, O'Donnell, O'Hara, O'Neil, Pendergast, Penshorn, Prescott, Scigliano, Smith (23), Smith (20), Spellman, Warren, Webster, Welch—58.

Absent or not voting—Brennan (17), Buckley, Collins, Conway, Crocker, Dart, Donovan (7), Gardella, Harding, Hoban, Howell, McGovern, Morgan, O'Bryan, Ryan, Troy—16.

Mr. HACKETT of Ward 21 moved to reconsider; lost. Sent up.

PAPERS FROM THE BOARD OF ALDERMEN.

1. Ordered, That there be allowed and paid to the City Registry Department the sum of seven hundred fifty dollars (\$750), the same being to enable the City Registrar to pay the fees due to persons who make returns as required by law, to be accounted for by vouchers filed with the City Auditor, and to be charged to the appropriation for Registry Department.

Passed in concurrence.

2. Ordered, That his Honor the Mayor be requested to take the necessary steps to have established at \$2.50 per day the wages of all laborers and mechanics employed by the city who now receive less than said sum.

Passed in concurrence.

3. Ordered, That an annuity of three hundred (300) dollars be allowed and paid, as long as she remains unmarried, to Mary Akery, widow of James B. Akery, late a member of the Boston Fire Department, who died from injuries received while in the discharge of his duties as a member of said department; the amount paid under the authority of this order to be charged to the appropriation for Fire Department.

Passed in concurrence.

4. Mayor's message inclosing a communication from the Superintendent of Streets and a notice from that official to the City Council, to the effect that rights in land lying between Birch street and Belgrade avenue are no longer required for public purposes, for which the said rights were acquired.

The passage of the following preambles and order is recommended in said message:

Whereas, The Board of Aldermen, by an order passed July 13, 1891, approved by the Mayor July 17, 1891, made a dedication of a strip of land, 14 feet in width, from Emily E. Shepard and Henry A. Wood, between Birch street and Brandon street (now Belgrade avenue), West Roxbury, for the improvement of the Rosindale branch of Stony brook;

Whereas, The Superintendent of Streets, now having charge of said strip of land, has notified the City Council that certain portions of said strip of land are no longer required for public purposes;

Ordered, That his Honor the Mayor be and he is hereby authorized in the name and behalf of the city and in accordance with the provisions of chapter 25, section 50, of the Revised Laws of Massachusetts, to execute a deed conveying to said Emily E. Shepard and Henry A. Wood two parcels of land, containing about 264 square feet and about 211 square feet, respectively, being portions of the 14-foot strip of land taken for the improvement of the Roslindale branch of Stony brook as above, and shown in red color and marked "discontinued" on a plan marked City of Boston, Plan No. 222, Sewerage Works, Belgrade avenue, West Roxbury, October 25, 1909, William Jackson, City Engineer, and deposited in the office of the Street Department, Sewer Division; the consideration of said conveyance to be a release by said Emily E. Shepard and Henry A. Wood to the city of two triangular strips of land, containing about 115 square feet and about 51 square feet, respectively, to be taken by the Board of Street Commissioners for sewerage purposes, as shown on said plan and a release of all damages on account of said taking.

The message was placed on file and the preamble and order were passed in concurrence, yeas 58, nays 0.

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Connors, Cox, Crane, Cronin, Cumming, Davis, Donovan (19), Ducey, Fitzgerald, Garrity, Goodwin, Gordon, Green, Hackett, Hart, Hoague, Hoey, Jones, Joyce, Kelly, Kennedy, Kenney, Kinney, Kohler, Krug, McCabe, McCarthy, McKeagney, Meins, Moore, Murray, O'Brien, O'Donnell, O'Hara, O'Neil, Pendergast, Peshorn, Prescott, Ryan, Scigliano, Smith (23), Smith (20), Spellman, Warren, Webster, Welch—58.

Absent or not voting—Brennan (17), Buckley, Casey, Collins, Conway, Crocker, Dart, Donovan (7), Gardella, Harding, Hoban, Howell, McGovern, Morgan, O'Bryan, Troy—16.

5. Mayor's message relative to providing additional funds for the new fireboat and recommending the passage of the following orders providing for the same:

Ordered, That the sum of five thousand dollars (\$5,000) additional be hereby appropriated, to be expended by the Fire Department for new fireboat; and that to meet such appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to the above amount.

Ordered, That the City Auditor be authorized to transfer the unexpended balance of the appropriation for Fireboat No. 47, amounting to \$2,374.99, and the unexpended balance of the appropriation for landing for fireboat and quarters for men, amounting to \$199.49, to the appropriation for new fireboat.

The message was placed on file and the orders take their second reading at the next meeting.

RECONSTRUCTION OF CURTIS HALL.

The PRESIDENT called up No. 6, unfinished business, viz.:

6. Ordered, That the City Auditor be and hereby is authorized to transfer the sum of twenty-five thousand dollars additional from the appropriation for Public Buildings Department to the special appropriation for Curtis Hall, reconstruction of.

The order was passed, yeas 54, nays 0.

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Connors, Cox, Crane, Crocker, Cumming, Davis, Donovan (19), Ducey, Garrity, Goodwin, Gordon, Hackett, Hart, Hoague, Hoey, Joyce, Kelly, Kennedy, Kenney, Kinney, Kohler, Krug, McCabe, McCarthy, McKeagney, Meins, Moore, Murray, O'Brien, O'Donnell, O'Hara, O'Neil, Pendergast, Peshorn, Prescott, Ryan, Scigliano, Smith (23), Smith (20), Warren, Webster, Welch—54.

Nays—0.

Absent or not voting—Brennan (17), Buckley, Casey, Collins, Conway, Cronin, Dart, Donovan (7), Fitzgerald, Gardella, Green, Harding, Hoban, Howell, Jones, McGovern, Morgan, O'Bryan, Spellman, Troy—20.

Later in the session Mr. CARRUTH of Ward 23 moved to reconsider; lost. Sent up.

TRANSFERS FOR BATH, ETC.

The PRESIDENT called up Nos. 7 and 8, unfinished business, viz.:

7. Ordered, That the City Auditor be and hereby is authorized to transfer the sum of thirty-five thousand dollars (\$35,000) appropriated for L Street Bath, addition for women, to an appropriation for L Street Bath, improvements.

8. Ordered, That the City Auditor be authorized to transfer the sum of one hundred thirty-five dollars and twenty-three cents (\$135.23) from the Reserve Fund to an appropriation for Boston Insane Hospital, execution of court.

The orders were passed, yeas 56, nays 0.

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Connors, Cox, Crane, Crocker, Cronin, Cumming, Davis,

Donovan (19), Ducey, Fitzgerald, Garrity, Goodwin, Gordon, Hackett, Hart, Hoague, Jones, Joyce, Kelly, Kennedy, Kenney, Kinney, Kohler, Krug, McCabe, McCarthy, McKeagney, Meins, Moore, Murray, O'Brien, O'Donnell, O'Neil, Pendergast, Peshorn, Prescott, Ryan, Scigliano, Smith (23), Smith (20), Warren, Webster, Welch—56.

Nays—0.

Absent or not voting—Brennan (17), Buckley, Collins, Conway, Dart, Donovan (7), Gardella, Green, Harding, Hoban, Hoey, Howell, McGovern, Morgan, O'Bryan, O'Hara, Spellman, Troy—18.

Sent up.

TRANSFERS OF MONEY, ETC.

Mr. JOYCE of Ward 17—Mr. President, I call up No. 10.

No. 10, unfinished business, was as follows:

10. Ordered, That the City Auditor be authorized to transfer the sum of twenty-five hundred dollars (\$2,500) from the appropriation for Reserve Fund to the appropriation for Institutions Registration Department.

The PRESIDENT—The Chair will inform the Council that if there is no objection he is going to call up Nos. 9, 10 and 12 together. As the City Auditor has sufficient authority to provide for those matters, the Chair will, if there is no objection, declare the orders indefinitely postponed. Nos. 9 and 12, unfinished business, were as follows:

9. Ordered, That the City Auditor be authorized to transfer the sum of fourteen hundred seventy-seven dollars forty-four cents (\$1,477.44) from the appropriation for city interest to the appropriation for county interest.

12. Ordered, That the sum of two thousand dollars (\$2,000) additional be hereby appropriated, to be expended by the Law Department under the provisions of chapter 574 of the Acts of 1907, on account of Washington street, West Roxbury; and that to meet such appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to the above amount.

Nos. 9, 10 and 12 were indefinitely postponed.

APPROPRIATION FOR WASHINGTON STREET, WEST ROXBURY.

The PRESIDENT called up No. 11, unfinished business, viz.:

11. Ordered, That the sum of (A) twenty five thousand dollars (\$25,000) additional be hereby appropriated, to be expended by the Law Department under the provisions of chapter 574 of the Acts of 1907, on account of Washington street, West Roxbury; and that to meet such appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to the above amount.

The order is amended at (A) by striking out "twenty-five thousand dollars (\$25,000)" and inserting in place thereof "eleven thousand dollars (\$11,000)."

Mr. GORDON of Ward 9—Mr. President, I would like to inquire the purpose of the amendment.

The PRESIDENT—The Chair understands that they found that \$11,000 would do, instead of \$25,000.

The order was passed, yeas 56, nays 0.

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Collins, Connors, Cox, Crane, Crocker, Cronin, Cumming, Dart, Davis, Donovan (19), Ducey, Fitzgerald, Garrity, Goodwin, Gordon, Hackett, Hart, Hoague, Jones, Joyce, Kelly, Kennedy, Kinney, Kohler, Krug, McCabe, McCarthy, Meins, Moore, Morgan, Murray, O'Brien, O'Donnell, O'Hara, Pendergast, Peshorn, Ryan, Scigliano, Smith (23), Smith (20), Warren, Webster, Welch—56.

Nays—0.

Absent or not voting—Brennan (17), Buckley, Conway, Donovan (7), Gardella, Green, Harding, Hoban, Hoey, Howell, Kenney, McGovern, McKeagney, O'Bryan, O'Neil, Prescott, Spellman, Troy—18.

Sent up.

WIDENING OF GENEVA AVENUE.

Mr. CUMMING of Ward 20 called up No. 13, unfinished business, viz.:

13. Ordered, That the sum of fifty thousand dollars be hereby appropriated for the widening of Geneva avenue from Bowdoin street to Columbia road; and that to meet the said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to said amount.

Passed in concurrence, yeas 58, nays 3.

Yeas—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (17), Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Collins, Connors, Cox, Crane, Cronin, Cumming, Dart, Davis, Donovan (19), Ducey, Fitzgerald, Garrity, Goodwin, Gordon, Hackett, Hart, Hoague, Jones, Joyce, Kelly, Kennedy, Kenney, Kinney, Kohler, Krug, McCarthy, Meins, Morgan, Murray,

O'Brien, O'Bryan, O'Donnell, O'Hara, O'Neil, Pendergast, Peshorn, Prescott, Ryan, Scigliano, Smith (23), Smith (20), Warren, Webster, Welch—58.

Nays—Crocker, Harding, Moore—3.

Absent or not voting—Buckley, Conway, Donovan (7), Gardella, Green, Hoban, Hoey, Howell, McCabe, McGovern, McKeagney, Spellman, Troy—13.

Mr. HARDING first voted "yes," but before the result was announced changed his vote, saying:

Mr. President, inasmuch as the Street Commissioners have already constructed the street, I want to change my vote from yes to no.

BATH HOUSE, DEWEY BEACH.

The PRESIDENT called up No. 14, unfinished business, viz.:

14. Ordered, That the sum of forty-nine thousand nine hundred ninety-eight dollars (\$49,998) be and the same hereby is appropriated for the erection of a new bath house at Dewey Beach, Charlestown; and to meet said appropriation the City Treasurer be authorized to issue, on request of the Mayor, bonds of the City of Boston to said amount for said purpose.

Passed, yeas 58, nays 6.

Yeas—Allston, Arnold, Bagley, Bragan, Brennan (17), Brennan (3), Brophy, Burroughs, Carney, Carr, Carruth, Casey, Collins, Connors, Cox, Crane, Cronin, Cumming, Dart, Davis, Donovan (19), Ducey, Fitzgerald, Garrity, Goodwin, Gordon, Hackett, Hart, Hoey, Jones, Joyce, Kelly, Kennedy, Kenney, Kinney, Kohler, Krug, McCabe, McCarthy, McKeagney, Meins, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Hara, O'Neil, Pendergast, Peshorn, Prescott, Ryan, Scigliano, Smith (23), Smith (20), Warren, Webster, Welch—58.

Nays—Ballantyne, Best, Crocker, Harding, Hoague, Moore—6.

Absent or not voting—Buckley, Conway, Donovan (7), Gardella, Green, Hoban, Howell, McGovern, Spellman, Troy—10.

Mr. DUCHEY moved to reconsider; lost. Sent up.

LEASE OF LAND TO BOSTON COLLEGE.

Mr. JOYCE of Ward 17 offered an order—That the Board of Street Commissioners, with the approval of the Mayor, be authorized to lease to the Trustees of Boston College, in Boston, for a term of ten years, and for a nominal consideration, and subject to such further terms and conditions as said Board may deem advisable, a strip of land owned by the City of Boston extending from Norfolk avenue to Massachusetts avenue, in said Boston, the same to be used with the land on each side of said strip of land for an athletic field.

Passed. Sent up.

DESKS AND CHAIRS FOR MEMBERS.

Mr. GOODWIN of Ward 1, called up the following:

15. Ordered, That each member of the Boston City Council of the year 1909 be given his desk and chair as a remembrance of the last body that served under the old charter, and each member of the body be charged a small compensation for the same.

The question came on the motion (notice filed by Mr. Morgan) to reconsider the vote of January 20, 1910, whereby the foregoing order was passed.

Mr. GOODWIN—Mr. President, I hope reconsideration will prevail, because of the fact that this order as it now stands is ineffective, inasmuch as it does not provide for any particular department, or give authority to any particular department, to sell to the members of the Council these desks and chairs. I understand that Mr. Kelly has a substitute order which he desires to present.

Mr. KELLY offered the following order as a substitute:

Ordered, that the Superintendent of Public Buildings be authorized to sell, for a nominal sum, to each member of the Common Council of the year 1909 his desk and chair as a memento of the last Common Council; the amount received to be paid into the City treasury.

The question came on the adoption of the substitute.

Mr. ARNOLD of Ward 12—Mr. President—Mr. MORGAN—Mr. President, I rise to a point of order.

Mr. ARNOLD—Mr. President, I want to—Mr. MORGAN—Mr. President, I rise to a point of order.

The PRESIDENT—The gentleman will state his point of order.

Mr. MORGAN—My point of order is that the gentleman who is speaking is not in his right chair.

The PRESIDENT—The point of order is not well taken.

Mr. ARNOLD—Mr. President, I want simply to move that the word "desk," be removed from this substitute order, and that the order includes chairs only.

The question came on the adoption of Mr. Arnold's amendment, which was declared rejected.

The question then came on the substitute order offered by Mr. Kelly, which was adopted and passed.

The PRESIDENT—Mr. Kelly of Ward 13 moves reconsideration hoping the same will not prevail.

Mr. KELLY—Mr. President, no. (Laughter.) The PRESIDENT—The Chair will state it is not in order to move a second reconsideration.

MINUTES AND DOCUMENTS FOR MEMBERS.

Mr. GOODWIN of Ward 1 offered an order—That the City Messenger be authorized to cause a sufficient number of the City Council Minutes of 1909 to be bound in the usual manner, and to furnish each member of the City Council of 1909, each new member of the City Council of 1910, and each of the heads of the several city departments, with one copy of the same; the expense thus incurred to be charged to the appropriation for City Council Proceedings.

Passed. Sent up.

Mr. GOODWIN offered an order—That the City Messenger be authorized to furnish each member of the City Council of 1909, and each of the heads of the several city departments, with one set each of the city documents for 1909, when completed and bound.

Passed. Sent up.

ELECTION OF MANAGERS, OLD SOUTH ASSOCIATION.

Mr. GOODWIN of Ward 1 offered an order—That the clerk be instructed to cast one ballot for managers of the Old South Association in Boston, viz.:

From the Board of Aldermen, Frederick J. Brand.

From the Common Council, George C. McCabe. The order was passed, the clerk cast the ballot, and Frederick J. Brand and George C. McCabe were declared elected.

Notice sent up.

ARRANGEMENTS FOR FINAL SESSION.

Mr. MEINS of Ward 21 offered an order—That a special committee of three members of the Common Council be appointed to make arrangements for the final session of this body.

Mr. MEINS—Mr. President, it would seem fitting that at the final session of this Council to be held next week in this chamber, the meeting be observed by something of a special nature, if possible. It has been suggested by some of the members that it would be quite appropriate and graceful to invite the ex-presidents of this body and such others as may have attained eminence in the councils of the nation, state or city to be present at that time and address the body at its final session. If this special committee is appointed, I suppose it will be incumbent upon them to act upon this opinion that prevails among the members and carry this suggestion into effect. I hope the order will pass.

The order was passed.

NAMES INSCRIBED UPON PORTRAITS, ETC.

Mr. HACKETT of Ward 21 offered an order—That the City Messenger be directed to cause names and terms of office to be inscribed upon the portraits in the offices of the president and clerk, which are not now so inscribed; the expense attending the same to be charged to the appropriation for Common Council, contingent expenses.

Passed.—

CHILDREN'S PLAYGROUND, WARD 12.

Mr. DAVIS of Ward 12 offered an order—That the sum of \$24,999 be and the same hereby is appropriated for the laying out of a children's playground in Ward 12, and to meet said appropriation the City Treasurer be authorized to issue, on request of the Mayor, bonds of the City of Boston to said amount for said purpose.

Mr. DAVIS—Mr. President, with reference to that order I might say that early last year both the Common Council and the Board of Aldermen passed a similar order, an order for \$125,000, for that same purpose, but his Honor the Mayor saw fit at that time to veto it. Every other order, with one exception, submitted by the Finance Committee, has passed both bodies and been approved in the Mayor's office, and I feel that at this time the Mayor may have changed his mind since then, and has seen the need of a playground in the location from which I come. I move suspension of the rule, in order that the order may go on its passage now.

Mr. CROCKER of Ward 11—Mr. President, I do not know as this body wants to consider matters very carefully to-night, as we are more or less in a genial humor, but it seems to me that it is pretty late in the session to pass \$24,000 loan

orders. The time to consider such a loan order is when you can look over the whole field and see where the city can afford to spend the money, and we can't do that to-night and we are not going to. Whether we pass or don't pass this order to-night, it is merely a matter of chance. I strongly urge the members not to vote for this or any other loan order to-night.

Mr. DAVIS—Mr. President, I might say that earlier in the year the committee on Finance, appointed by this body investigated the matter of a playground in Ward 12 very thoroughly, and it was on their recommendation that the order was cut from \$50,000, as originally presented by me to \$25,000. The committee made a rigid investigation of affairs in the ward and found it was a needed thing for the children of that congested district. I think the matter has been threshed out thoroughly, and the only reason why the order was not passed before, was that the Mayor at that time intended to make other arrangements, but to my knowledge those other arrangements have not been carried out.

The order was passed under a suspension of the rules, yeas 54, nays 6:

Yeas—Allston, Arnold, Bagley, Bragan, Brennan (17), Brennan (3), Brophy, Burroughs, Carr, Carruth, Collins, Connors, Cox, Crane, Cronin, Dart, Davis, Donovan (19), Ducey, Fitzgerald, Garrity, Goodwin, Gordon, Hackett, Harding, Hart, Hoey, Jones, Joyce, Kelly, Kennedy, Kenney, Kinney, Kohler, Krug, McCarthy, McKeagney, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Hara, O'Neil, Pendergast, Penhonor, Prescott, Ryan, Scigliano, Smith (23), Smith (20), Warren, Webster, Welch—54.

Nays—Ballantyne, Best, Crocker, Cumming, Hoague, Moore—6.

Absent and not voting—Buckley, Carney, Casey, Conway, Donovan (7), Gardella, Green, Hoban, Howell, McCabe, McGivern, Meins, Spellman, Troy—14.

Mr. DAVIS moved to reconsider. Lost. Sent up.

UNFINISHED COMMITTEE MATTERS.

Mr. CRANE of Ward 24 offered an order—That all matters of an unfinished nature in the hands of committees of this City Council or of either branch thereof be referred to the next City Council.

Mr. DUCEY of Ward 4—Mr. President, I understand that there is to be another meeting of this Common Council next Thursday evening, and I think that order might well be assigned to the next meeting. I make that motion.

HIRING OF PLAYGROUND, MATTAPAN.

Mr. CRANE of Ward 24 offered an order—That the Superintendent of Public Grounds be authorized to hire for playground purposes the Woodman-Jones estate on River street, Mattapan, the expense, not to exceed one hundred and ninety-nine dollars (\$199), to be charged to the appropriation for Public Grounds Department.

Passed; sent up.

REPAIRS ON BRIDGES.

Mr. CRANE of Ward 24 called up Nos. 16 and 17, past assignments, viz.:

16. Ordered, That the City Auditor be and he hereby is authorized to transfer the sum of two thousand dollars (\$2,000) from the appropriation for Huntington Avenue Bridge to the appropriation for Neponset Bridge, rebuilding.

17. Ordered, That the City Auditor be and hereby is authorized to transfer the sum of five hundred dollars from the appropriation for Reserve Fund to the special appropriation for Ashmont Bridge extension.

The question came on the motion of Mr. Crane to reconsider the vote of January 13, 1910, whereby the above orders were rejected.

The votes whereby the orders were rejected were reconsidered and the orders were passed, yeas 61, nays 0.

Yeas—Allston, Arnold, Bagley, Ballantyne, Bragan, Brennan (17), Brennan (3), Brophy, Burroughs, Carr, Carruth, Collins, Connors, Cox, Crane, Crocker, Cronin, Cumming, Dart, Davis, Donovan (19), Ducey, Fitzgerald, Garrity, Goodwin, Gordon, Hackett, Harding, Hart, Hoague, Hoey, Jones, Joyce, Kelly, Kennedy, Kenney, Kinney, Kohler, Krug, McCabe, McCarthy, McKeagney, Meins, Moore, Morgan, Murray, O'Brien, O'Bryan, O'Donnell, O'Hara, O'Neil, Pendergast, Penhonor, Prescott, Ryan, Scigliano, Smith (23), Smith (20), Warren, Webster, Welch—61.

Absent or not voting—Best, Buckley, Carney, Casey, Conway, Donovan (7), Gardella, Green, Hoban, Howell, McGivern, Spellman, Troy—13. Sent up.

DECORATION OF COUNCIL CHAMBER.

Mr. GORDON of Ward 9 offered an order—That the Superintendent of Public Grounds be requested, through his Honor the Mayor, to

decorate the Common Council chamber for their last meeting, to be held on February 3, 1910.

Referred to the Mayor.

NEXT MEETING.

Mr. CARR of Ward 4 offered an order—That when this Council adjourn it be to meet again on Thursday, February 3, 1910, at 7.45 p. m.

Passed.

Mr. CARR of Ward 4—Mr. President and members of the Council, all things have an ending, and since this Council is about to pass out of existence, since we are now reaching the close of the meeting, the principal purpose of which is to say good things to each other, I believe that on me falls the greatest honor of the year. Your committee which was appointed to get up the annual dinner selected me to perform a very pleasing duty; and, Mr. President, on behalf of the members of the Common Council it gives me great pleasure to present to you this little token of their esteem [presenting a diamond ring to President McCabe], hoping that your future may be as bright as it is, and that when you look at it you will recall pleasant memories of the Common Council of 1909. (Applause.)

President McCABE said: Fellow members of the Common Council,—I thank you most sincerely for your gift and for your kind words of appreciation. They have afforded me great pleasure, a pleasure that I feel I do not deserve. When I was elected to serve my second term in the Common Council I had no idea of becoming your presiding officer. On taking the Chair, I had a feeling of uneasiness and distrust. But your loyalty and cordial co-operation soon dispelled every such feeling and made my duties one of the pleasantest tasks of my life. Elected after a bitter deadlock, obliged to no person for my election, I was in a position to deal fairly and impartially with all. So to do has been my constant aim; and if at any time I have slighted anyone my action was due entirely to over-zealousness rather than to any intention to act unfairly. As I look back over the past year, I feel that our affairs were attended to in a businesslike manner and with despatch, and that we are leaving behind us a record of which we may all feel justly proud. We are in no small measure indebted to the City Messenger, the Clerk of Committees, the official stenographers and their assistants for their attentive assistance, and I desire at this time to thank them all for their kind treatment of us. Particularly do I feel my personal indebtedness to the Clerk of the Common Council (applause) for the very able service that he and his assistant have rendered me, and I would thank them very sincerely for their ever-ready aid and assistance. Within two weeks the present City Council will be no more. A newly elected body will soon assume the duties and responsibilities which are now ours. While many of us contemplate the retirement of our Council with regret, yet none of us but wishes the new body the best success. To the new the old extend its best wishes for a successful administration. As I recall our work together, I take a great personal satisfaction out of the thought that I have tried to do what is right. I hope that I have tried to do what is right. I hope that I have not been found wanting very often. While arguments in our Chamber have often been warm, you have never failed of courtesy to the Chair, you have always kindly accepted my rulings. For your disposition towards me, I most sincerely thank you. With many hearty thanks and good wishes to all of you, I retire as the last President of the last Common Council of our City of Boston. (Applause.)

LOAN FOR FLOATING HOSPITAL.

Mr. CASEY of Ward 14 called up past assignment, viz.:

18. Ordered (offered by Mr. KELLY), That the sum of fifty thousand (\$50,000) dollars be hereby appropriated, to be expended by the City Hospital Trustees for the purpose of establishing a floating hospital; and that to meet said appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to said amount for said purpose.

Mr. KELLY of Ward 13 in the Chair.

The order was declared ordered to a second reading, and the question came on its passage. The Clerk started to call the roll. Before the roll call was completed Mr. CASEY of Ward 14 said:

Mr. President, I rise to a point of order. Rule 20 says that the members sitting in their seats shall answer when their names are called.

The PRESIDENT—The point of order is well taken. I hope the members, whose names are called will please rise. (Laughter.)

The result of the roll call was as follows:

Yeas—Casey, Collins, Kelly, McCarthy, Webster—5.

Nays—Hoague, Moore, Morgan, Prescott, Smith (20), Welch—6.

Absent or not voting—Allston, Arnold, Bagley, Ballantyne, Best, Bragan, Brennan (17), Brennan

(3). Brophy, Buckley, Burroughs, Carney, Carr, Carruth, Connors, Conway, Cox, Crane, Crocker, Cronin, Cumming, Dart, Davis, Donovan (19), Donovan (7), Ducey, Fitzgerald, Gardella, Garrity, Goodwin, Gordon, Green, Hackett, Harding, Hart, Hoban, Hoey, Howell, Jones, Joyce, Kennedy, Kenney, Kinney, Kohler, Krug, McCabe, McGivern, McKeagney, Meins, Murray, O'Brien, O'Bryan, O'Donnell, O'Hara, O'Neil, Pendergast, Penshorn, Ryan, Scigliano, Smith (23), Spellman, Troy, Warren—63.

Before the result was announced a large number of members addressed the Chair. (Laughter.)

The CHAIR—The Council will be in order. Five members having voted in the affirmative, six in the negative, it is not a vote.

Adjourned at 6.26 p. m. to meet on Thursday, February 3, at 7.45 p. m.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the month of January:

Jan. 28, Roxbury High School, Miss Emma Buttrick Noyes, soprano, and Frank H. Eaton, flutist.

The orchestra consists of ten skilled professional musicians of whom William Howard acts as the director. Prof. Louis C. Elson lectures at every concert, explaining and interpreting the program rendered. Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at several of the leading music stores, and at drug stores and other convenient stations in the vicinity of the different halls.

CLASS HOURS, MUNICIPAL GYMNASIUMS.

The class hours of the several municipal gymnasiums are as follows:

At the Cabot Street Gymnasium, Roxbury; Ward 16 Gymnasium, Municipal Building, Columbia Road, Dorchester; D Street Gymnasium, Commonwealth Park, South Boston; North Bennet Street Gymnasium, City Proper:

Monday and Thursday for women and girls. Class hours: Mothers' class, 10 to 12 a. m.; school girls, 4 to 6 p. m.; ladies' class, 8 to 10 p. m.

Tuesday and Friday for men. Class hours: 8 to 10 p. m.

Wednesday and Saturday for boys. Class hours: Wednesday, school boys, 4 to 6 p. m.; working boys, 8 to 10 p. m. Saturday, school boys, 10 to 12 a. m. and 4 to 6 p. m.; working boys, 8 to 10 p. m.

Ward 7 Gymnasium, 75 Tyler street, City Proper. Schedule the same as the four gymnasiums above with the exception that Tuesday and Thursday are for women and girls and Monday and Friday for men.

Ward 9 Gymnasium, corner Harrison avenue and Plympton street, city.

Monday and Thursday for women and girls from 10 a. m. to 6 p. m. Class hours: School girls, 4 to 6 p. m.; men, 8 to 10 p. m.

Tuesday and Friday for men all day. Class. 8 to 10 p. m.

Wednesday and Saturday for boys. Hours same as all other gymnasiums.

CENSUS EXAMINATIONS.

Supervisors of the Census are appointed by the President, by and with the advice and consent of the Senate.

Applications for the position of enumerator, supervisor's clerk or interpreter should be addressed to the supervisor of the district in which the applicant seeks employment—Mr. Charles F. Gettemy, State House, Boston.

Examinations for the appointment of special agents will be announced later. Application for appointment as special agent should be made to the Director of the Census, Washington, D. C., and not the Civil Service Commission.

CITY RECORD.

The *City Record* is published by the City of Boston in compliance with the requirements of Chapter 486 of the Acts and Resolves of 1909. Section 29 of that chapter provided for it in the following language:

SECTION 29. Within ninety days after the passage of this act and thereafter there shall be published at least once a week and distributed and sold under the direction of the mayor and on terms to be fixed by the city council and approved by the mayor a paper to be known as the *City Record*. All advertising, whether required by law or not, with reference to the purchase or taking of land, contracts for work, materials, or supplies, the sale of bonds, or the sale of property for non-payment of taxes shall appear exclusively in said paper; a list of all contracts of one thousand dollars or more, as awarded, with the names of bidders, and the amount of the bids; appointments by the mayor; and changes in the number and compensation of employees in each department, shall be published in the *City Record*. The proceedings of the city council and school committee, together with all communications from the mayor, shall be published in the *City Record*.

The City Council further sanctioned it by providing an appropriation of \$3,000 for the expenses in connection with the publication of the *City Record* and by the adoption of the following ordinance which was approved by the Mayor:

AN ORDINANCE ESTABLISHING THE "CITY RECORD."

Be it ordained by the City Council of Boston, as follows:

SECTION 1. Section 2 of chapter 37 of the Revised Ordinances of 1898 is hereby amended so as to read as follows: Said board shall publish once a week an official gazette of the city, to be

designated the *City Record*. Said publication shall contain matters set forth in sections 29 and 30 of chapter 486 of the Acts of 1909 and such other matters as may be directed by the mayor. Said publication shall be distributed and sold under the direction of the mayor, the price of single copies being 5 cents and the yearly subscription price, one dollar, payable in advance. The price to be paid by the departments for advertising in said publication shall be fixed by the city auditor, with the approval of the mayor, and the sum so received shall be used to defray the expense of said publication.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, FEBRUARY 5, 1910.

No. 6.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

BY SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week, to insure its publication in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to the watering, cleaning, lighting, and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street for information as to the construction and repair of school buildings.

MUNICIPAL CALENDAR.

Inauguration, Faneuil Hall, 10.30 a. m.,
February 7.
School Committee meets February 7,
7.30 p. m.

Rapid Transit Commission. Stated meetings of the Commission are held Tuesday and Thursday of each week at 10.30 a. m.

Harbor and Land Commissioners. Stated meetings of the Commission are held Mondays and Fridays, 2 p. m.; Wednesdays, 11 a. m.

Increase allowed: Fidelia Fisk, clerk and stenographer, from \$832 per year to \$940 per year.

HOSPITAL DEPARTMENT.

Appointments: Laura Bemis, nurse, \$12.50 per month; Maud J. Robinson, nurse, \$8.33 per month; Annie S. Borden, graduate special nurse, \$15 per week; Mary Doyle, chamber maid, \$15 per month; Joseph A. Jenkins, house porter, \$25 per month; Celia Hill, ward maid, \$12 per month; William Galloway, orderly, \$25 per month.

Increases: Thomas L. Welsh, orderly, \$30 to \$35 per month; Emma H. Humble, nurse, \$8.33 to \$12.50 per month; Elizabeth C. Quinn, nurse, \$8.33 to \$12.50 per month; Mabel H. Arnold, nurse, \$5 to \$8.33 per month; Emily G. Donovan, nurse, \$5 to \$8.33 per month; Della M. Currier, night supervisor of nurses, \$45 to \$55 per month.

REGISTRY DEPARTMENT.

Transfer of Miss Alice M. McCarty to this department as clerk with compensation of \$800 per annum.

STREET LAYING-OUT DEPARTMENT.

Transfers of the following employees from other departments, to take effect February 7, 1910:

Thomas J. Hurley, assistant clerk of committees, to the position of clerk. Salary, \$2,000 per year.

William G. Dolan and Lawrence J. Kelly, constables in the Clerk of Committees Department. Salaries, each \$1,200 per year.

Timothy Mooney, assistant city messenger, to the position of messenger. Salary, \$1,500.

James Celeste, messenger in the office of the Clerk of the Common Council, to a similar position in this department. Salary, \$800 per year.

WATER DEPARTMENT.

Transfer of Thomas W. Kane, inspector, \$3 per day, from the Street Department, Civil Service Commission assenting.

Increase in wages of Thomas Donovan, foreman, from \$3 per day to \$1,200 per year.

Increase in wages of Arthur E. Gaygin, clerk, from \$800 per year to \$1,000 per year; the Civil Service Commission having certified that he is eligible to receive said compensation.

Transfer of Fred A. Robinson, assistant city messenger, to the position of messenger. Salary, \$1,200.

OVERTIME ALLOWED.

Engineering Department.

Joseph Hews, inspector, at \$5 per day, two days' overtime on account of work done at Neponset Bridge rebuilding.

Street Department (Sanitary Division).

Walter H. Rowe, clerk, Districts 8-9, at \$3 per day; Sunday, January 30, 1910, time and a half.

Street Department (Sewer Division).

Carl S. Drake, assistant engineer, junior grade, at \$4 per day, 1 day extra time.

Mark E. Pitman, Jr., engineer, at \$3 per day, 1 day extra time.

PERMISSIONS GRANTED.

Permits for the use of Faneuil Hall, granted January 31, 1910, viz.:

The "No Meat Club," on the evening of January 29.

John F. Fitzgerald, on the morning of February 7.

Minute Men of '61, on the afternoon of April 15.

Licenses granted on January 31, 1910, on petitions, as follows:

Katherine Abbott, for license for the keeping of gasoline at 240 Beacon street, Ward 11.

Maxwell-Briscoe Boston Company, for license for the keeping and sale of gasoline at 100 Massachusetts avenue, Ward 11.

Fred Edwards, for license for the keeping and sale of gasoline at 530 Columbia road, Ward 16.

Rowe Contracting Company, for the keeping and storage of dynamite, etc., at Chestnut Hill avenue, Ward 25.

John G. Godding, for a license for the keeping of gasoline in rear of 704 Washington street, Ward 25.

Catherine M. Breslin, for a license for the keeping of gasoline in rear of 25 Charlotte street, Ward 20.

PERMISSIONS TO CONSTRUCT.

Permission has been granted to the Superintendent of Streets by the Mayor for the following works in excess of \$1,000 in cost with the department force, without competition, for the reasons severally set forth:

To build about 530 linear feet 10-inch pipe sanitary sewer in Berry street, between Canterbury and Sutton streets, West Roxbury District, the estimated amount being \$1,977.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary."

"GUY C. EMERSON,
"Superintendent of Streets."

Permission has been granted to the Superintendent of Streets by the Mayor to extend the contract of the Rising Sun Street Lighting Company for lighting the streets, parks and alleys of the City of Boston from February 1, 1910, to July 31, 1910, inclusive, contractor to furnish gas, the estimated amount being \$42,000.

"The extension of this contract is necessary in order to allow more time for the adequate investigation of methods of street lighting by gas."

"GUY C. EMERSON,
"Superintendent of Streets."

CONTRACTS AWARDED.

The following contracts for work and supplies have been awarded. Those awarded without public advertisement are specially indicated.

PARK DEPARTMENT.

Contract for building a sanitary building on Charlestown Playground, awarded to P. G. Rice Company, \$5,800.

* Received after bids were closed.

CITY OF BOSTON.

PROPOSALS FOR HEATING.

The trustees of the Consumptives' Hospital of Boston invite bids for "Heating of Women's Cottage Ward Building at the Consumptives' Hospital, River Street, Mattapan, Boston," and giving bond of a surety company in an amount satisfactory to the trustees. Only bids made on form obtained at the office of the engineers, Hollis French & Allen Hubbard, Room 534, 85 Beach street, Boston, signed by the bidder and left at the office of the trustees, 926 Tremont Building, before 12 o'clock m., Wednesday, February 9, 1910, with a certified check for \$150, payable to and to be the property of the city if bid is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor before the time specified for opening the bids. The trustees reserve the right to reject any or all proposals and to give preference to bidders paying the trades unions' rate of wages. The proposals should be enclosed in an envelope, sealed and marked "Bid for Heating of Women's Cottage Ward Building at the Consumptives' Hospital."

EDWARD F. MCSWEENEY,
Chairman Board of Trustees.

(Feb. 5.)

CITY OF BOSTON.

PROPOSALS FOR COAL.

Contractors are invited to furnish proposals for a supply of whatever hard white ash, broken, egg and stove coal, and also whatever bituminous coal for steam purposes, that may be required for the public buildings, and for the several departments of the City of Boston not otherwise provided for, from February 1, 1910, to May 1, 1910. A certified check for \$1,000, payable to and to be the property of the City of Boston if the proposal is not carried out must be filed with the proposal. A satisfactory bond in the sum stated in the contract will also be required. The bidders must use the form of proposal to be obtained at the office of the Supply Department, 826 Tremont Building, fill out and sign the same, and leave it at the office of the Superintendent of Supplies before 12 o'clock m. of Monday, January 31, 1910, at which time and place said proposals will be publicly opened and read. The proposals and check should be enclosed in an envelope indorsed "Proposals for Coal." The undersigned reserves the right to reject any and all proposals and give preference to bidders paying the trades unions' rate of wages.

J. EDWARD MULLEN,
Superintendent of Supplies.

(Feb. 5.)

CITY OF BOSTON.

PROPOSALS FOR MILK.

The Trustees of the Consumptives' Hospital of Boston invite bids for a supply of milk for the Hospital Out-Patient Department and for patients in their homes until May 1, 1910, and giving bond of a surety company in \$500. The quantity of milk will vary according to the number of patients and will be about 400 quarts daily, more or less. The contract calls for pure dairy milk, neither skimmed, topped nor in any other way deprived of its natural proportion of cream. Only proposals made on form obtained at the office of the Trustees, 926 Tremont Building, signed by the bidder and left at the office of the Trustees before 12 o'clock m., February 10, 1910, with a certified check for one hundred (100) dollars, payable to and to be the property of the city if the bid is not carried out, will at said hour and place be publicly opened and read. The proposal must be made in duplicate, duplicate without check to be deposited with the City Auditor before the time specified for opening the bids. The Trustees reserve the right to reject any and all proposals. The bids should be enclosed in an envelope, sealed and marked "Proposals for Milk Supply."

EDWARD F. MCSWEENEY,
Chairman.

(Feb. 5.)

CITY OF BOSTON.

PROPOSALS FOR CEMENT.

Supply Department, City of Boston, invites proposals for furnishing 1,000 barrels, more or less, of Portland cement, to be delivered as wanted on Vila street extension, between Riverway and Longwood avenue, Roxbury. The bidder must use the form to be obtained at Room 826, Tremont Building, and furnish a bond or certified check for \$500 as surety for fulfilling the contract, and leave the same at said office on or before 12 m., Thursday, February 10, at which time the proposals will be publicly opened and read. The bidder must state in his bid the name of the cement that he proposes to furnish. A bid in duplicate must be filed, without the check, with the City Auditor before 12 o'clock, February 10. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
Superintendent of Supplies.

(Feb. 5.)

* Frozen.

† Fresh.

The bid of F. E. Harding Company on fish is not accompanied by the check for \$500 required.

The several bids have been taken under advisement.

Boston, January 31, 1910.

To the Mayor of the City of Boston:

DEAR SIR,—The inclosed contract with F. J. O'Hara & Co. for furnishing this department with fresh fish for the ensuing year is forwarded herewith for your approval.

In the matter of awarding the contract for beef and mutton, bids for which were received at this office on the 21st inst., I believe after considering the prices submitted and the present condition of the meat market, together with the agitation which is now going on throughout the country, that it is wise to withhold the contract on meat. I have made temporary arrangements with those firms who submitted the lowest bids to supply us for the next two weeks, or until we decide whether

or not it would be to the advantage of the city to advertise again.

Yours respectfully,

FRED S. GORE, Commissioner.

A contract for supplying the department with fish with F. J. O'Hara & Co. was approved by the Mayor.

PUBLIC BUILDINGS DEPARTMENT.

Contract for the erection of the new library building on the lot with the old Curtis Hall Building, awarded to Antony Varnerin, \$22,962.

Other bids received were as follows: McGahey & O'Connor, \$23,397; John F. Griffin & Co., \$23,397; John F. Griffin & Co., \$23,949; Coburn & Waters, \$23,982; John E. Locatelli & Co., \$25,785; W. A. & H. A. Root, \$27,410; William Crane, \$27,862; Mack & Moore, \$27,900; Christopher F. Brown, \$28,383; James D. McLellan, \$28,494; Norwood & Ramsdell, \$28,726; Walter A. Wentworth Company, \$29,819; McNeil Bros., \$29,877; C. H. Belledu, \$30,948; Woodbury & Leighton Company, \$34,950; Jones & Meehan, \$35,286.

CITY OF BOSTON.

HOUSE DIRT AND OTHER REFUSE.

Ordinances of 1909, Chapter 14.

In the Year One Thousand Nine Hundred and Nine.

Be it ordained by the City Council of Boston, as follows:

Section eighteen of chapter forty-seven of the Revised Ordinances of 1898 is hereby further amended by inserting after the word "matter" in the third line the words "or interfere with the receptacles containing same," and by adding, at the end of said section, the following: "or place outside of any building or premises for removal any light refuse or rubbish that is likely to be scattered or blown about unless same is properly packed, bundled or otherwise secured."

In Board of Aldermen, July 12, 1909.

Passed. Sent down for concurrence.

FREDERICK J. BRAND,

Chairman.

In Common Council, January 13, 1910.
Concurred.GEORGE C. McCABE,
President.

Approved, January 22, 1910.

G. A. HIBBARD,
Mayor.

CITY OF BOSTON.

PROPOSALS FOR IRON AND COMPOSITION CASTINGS.

The Water Commissioner of the City of Boston invites proposals for furnishing 1,300,000 pounds of Iron Castings under one contract, and 53,000 pounds of Composition Castings under another contract, and giving bond of a surety company doing business in Massachusetts in five thousand (\$5,000) dollars on the first contract, and in twenty five hundred (2,500) dollars on the second contract. Only proposals obtained at the office, City Hall, signed by the bidder, and there left before 12 o'clock noon, of Monday, February 14, 1910, with a certified check for five hundred (500) dollars for each contract, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. Sealed duplicate bids, without check, must also be delivered to the City Auditor before the time above specified for opening the bids. The commissioner reserves the right to reject any or all proposals, and to give preference to bidders paying the trades unions' rate of wages.

WILLIAM E. HANNAN,

Water Commissioner.
(Feb. 5.)

CITY OF BOSTON.

PROPOSALS FOR BANK GRAVEL AND SAND.

The Supply Department of the City of Boston, invites proposals for furnishing Bank Gravel and Sand, between March 1, 1910, and February 1, 1911, according to the office copy of the contract, which may be seen at the office of the Superintendent of Supplies, Room 826, Tremont Building, Boston, Mass. The bidder must use the form to be obtained at said office, furnish a bond of \$2,000 with a surety company authorized to do business in Massachusetts as surety for faithfully doing the work, and leave at said office on or before 12 m. of Monday, February 14, a certified check for \$500, which is to be the property of the city if the bidder fails to carry out his proposal. The proposal will be publicly opened and read at the above-named time and place, and the undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages, and to reject any and all proposals. A bid in duplicate, without the check, must be filed with the City Auditor.

J. EDWARD MULLEN,

Superintendent of Supplies.
(Feb. 5-12.)

CITY OF BOSTON.

PROPOSALS FOR SPRUCE LUMBER.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 826, Tremont Building, for 60,000 feet B. M. spruce lumber, 55,000 feet B. M. spruce lumber for sheathing, to be delivered on Vila street extension, between Riverway and Longwood avenue, Roxbury, as per specifications contained in form of proposal which must be used and can be obtained at above office. The bidder must leave his proposal and a certified check for \$500, which is to be the property of the City of Boston if the bidder fails to carry out his proposal, at the above office on or before 11 o'clock, Thursday, February 10, at which time and place the bids will be publicly opened and read. The successful bidder must furnish a bond by a surety company authorized to do business in Massachusetts for one-fourth of the amount of contract. The superintendent reserves the right to reject any or all bids.

J. EDWARD MULLEN,

Superintendent of Supplies.
(Feb. 5.)

CITY OF BOSTON.

PROPOSALS FOR IRON CASTINGS.

The Supply Department of the City of Boston invites proposals for furnishing iron castings such as manhole and catch-basin frames and covers, lamp-hole frames and covers, catch-basin grates, tide gates, iron inlets, traps, regulator castings and such other castings as may be required between March 1, 1910, and February 1, 1911, according to plans and contract, a copy of which may be seen at the office of the Supply Department, Room 826, Tremont Building. The bidder must use the form to be obtained at said office, furnish a bond of \$2,000 with a surety company authorized to do business in Massachusetts as surety for faithful performance of the work. Bids with a certified check for \$500 must be left at the office of Superintendent of Supplies, Room 826, Tremont Building, before Tuesday, February 15, at 12 m., at which time and place the proposals will be opened and read publicly. A bid in duplicate, without a check, must be filed with the City Auditor prior to 12 m. The superintendent reserves the right to accept or reject any or all of the proposals.

J. EDWARD MULLEN,
Superintendent of Supplies.
(Feb. 5-12.)

CITY OF BOSTON.

PROPOSALS FOR STATIONERY REQUIRED BY THE PUBLIC SCHOOLS.

The School Committee invites bids, to be received on or before Tuesday, February 15, for furnishing and delivering in good order to Mason street, any time after April 1, 1910, and before April 25, 1910, stationery as per schedule, copies of which will be furnished bidders by the Auditor of the School Committee. The successful bidder must deposit a surety bond or a certified check for \$300, payable to the City of Boston, which check shall be the property of the city unless the bidder carries out his agreement in accordance with the specifications. Bids must be made in duplicate, one to be sent to the Auditor of the School Committee, and the other to the City Auditor, City Hall. The School Committee reserves the right to reject any or all bids, or to accept such as may be deemed best for the interests of the city, and bids are to be made on these conditions.

WILLIAM J. PORTER,

Auditor of the School Committee.
(Feb. 5.)

CITY OF BOSTON.

PROPOSALS FOR PLUMBING.

The trustees of the Consumptives' Hospital of Boston invite bids for "Plumbing of the Women's Cottage Ward Building at the Consumptives' Hospital, River street, Mattapan, Boston," and giving bond of a surety company in an amount satisfactory to the trustees. Only bids made on form obtained at the office of the architects, Maginnis & Walsh, 902 Colonial Building, Boston, signed by the bidder and left at the office of the trustees, 926 Tremont Building, before 12 o'clock m., Wednesday, February 9, 1910, with a certified check for \$200, payable to and to be the property of the city if bid is not carried out, will then and there be publicly opened and read. The proposal must be made in duplicate, the duplicate, without check, to be deposited with the City Auditor before the time specified for opening the bids. The trustees reserve the right to reject any or all proposals and to give preference to bidders paying the trades unions' rate of wages. The proposal should be inclosed in an envelope, sealed and marked "Bid for Plumbing of the Women's Cottage Ward Building at the Consumptives' Hospital."

EDWARD F. MCSWEENEY,
Chairman Board of Trustees.

(Feb. 5.)

CITY OF BOSTON.

REPORT OF FINANCE COMMISSION TO GENERAL COURT.

BOSTON, January 31, 1910.

To the Honorable the Senate and House of Representatives in General Court assembled:

The Finance Commission, as required by section 18, chapter 486 of the Acts of 1909, respectfully submits the following report:

On the twenty-third day of June, 1909, John A. Sullivan, Charles P. Curtis, Francis N. Balch, John F. Moors, and Geoffrey B. Lehy were appointed and confirmed as members of the Boston Finance Commission, to exercise the powers and perform the duties provided in sections 17 to 21, both inclusive, of chapter 486 of the Acts of 1909, and chapter 562 of the Acts of 1908, Mr. Sullivan being designated as chairman, and the appointees being named for five, four, three, two and one year terms respectively. The members of the commission organized on June 24, 1909, and established headquarters at rooms 410-413 Tremont Building, Boston.

An appropriation of \$18,000 was made by the City Council, of which approximately \$12,000 will have been expended by January 31, 1910.

From the date of organization to January 15, 1910, the commission has held 56 meetings, conducted 108 hearings on various subjects, examined 212 witnesses, and published 12 reports and communications, which are contained in an appendix hereto, marked "A."

In the first seven months of its term the commission has been able to make a general survey of the field of city government, and to note the reforms effected in the last two and one-half years. Believing that sufficient care has not been taken heretofore to check up the improvements accomplished against the reforms suggested, the commission has prepared, and will publish in the first volume of its reports, a compilation of the recommendations of the former Finance Commission, together with a brief statement of the action taken with respect to each of such recommendations. It appears that, in many respects, the character of the administration of the city's affairs has been improved.

I. PROGRESSIVE FEATURES.

A. The City Debt.

The most important change to be noted is that the rapid increase of the city's debt has been checked. In the twelve years from January 31, 1895, to January 31, 1907, the city's net debt, including its share of the metropolitan debt and of the state debt, rose from \$42,025,948.10 to \$111,848,735.06, an increase of 166 per cent, or nearly \$70,000,000. Exclusive of the metropolitan, state and rapid transit debts, there was an increase in the city's net debt of \$19,910,047.97 from January 31, 1895, to January 31, 1906, and the increase would have been \$32,440,047.97 if \$12,530,000 of debt had not been cancelled in the year 1901-02 with money received from the sale of the city's water works to the state. In the two years from January 31, 1906, to January 31, 1908, the increase, exclusive of the three classes of debts aforesaid, was \$1,506,926.72, while in the year and eleven months from January 31, 1908, to December 31, 1909, there has been a decrease of \$1,812,809.88, of which \$1,000,000 is due to the fact that the city applied to the reduction of its debt the money received from the sale of the insane hospital property. Further allowance should be made on account of the loans issued in January, 1910; but after making

these allowances the encouraging fact still remains that, excluding the rapid transit loans, there has been an actual decrease in the city's debt in the last two years, which is the first decrease since 1901-02, when the water loans were reduced as above stated.

In these two years no money has been borrowed for current expenses, or for purposes not the legitimate subject of loans. The extravagant practice of borrowing money for the extension of water mains, which had been in existence for several years prior to 1907-08, was sought to be continued in that year, the Mayor having requested the City Council to authorize a loan of \$300,000 for that purpose. The City Council, however, on the recommendation of the former Finance Commission that no loan exceeding \$75,000 be authorized for that purpose in that year, and that in the future no loans for the extension of water mains be authorized, declined to authorize the loan for any part of the \$300,000 in question. (See Finance Commission Reports, Volume I., page 24.) Since that date no loans for this purpose have been voted, the necessary money having been provided by taxes.

The practice of borrowing money for "street improvements" has been abandoned and the money needed for this purpose has been provided from taxes.

In the last two years there has been less frequent resort to the practice of borrowing money outside the debt limit than in previous years. Thus in ten years from 1898-99 to 1907-08, inclusive, the amount of money borrowed outside of the debt limit, exclusive of rapid transit purposes, was \$29,527,100, an average of \$2,952,710 a year, while in the year 1908-09 the amount so borrowed was \$760,700, and in the year 1909-10 only \$317,100.

B. Contract Methods.

There has been a vast improvement in the method of awarding contracts. The practice of evading the law by awarding contracts for \$2,000 or more, without advertisement for bids, has been abandoned. Under chapter 418, section 4 of the Acts of 1890, all contracts of the City of Boston for \$2,000 or more are required to be advertised unless the Mayor in writing authorizes the award without advertisement. In 1892-03 and 1895-06, 81 per cent of the number of such contracts were awarded after public advertisement. In all the other years between 1890 and 1908 the percentage has been less. On and after September 9, 1909, by virtue of section 30, chapter 486 of the Acts of 1909, all contracts for \$1,000 and upwards are required to be advertised, and as the limit has thus been changed the computation as to contracts for \$2,000 or more should be carried only to September 9, 1909. Between February 1, 1908, and September 9, 1909, 90.8 per cent in number and 95.2 per cent in amount of such contracts have been awarded after advertisement, which is the highest percentage in any year since 1890. In 1906-07 and 1907-08 the number advertised was 46 per cent and 48 per cent respectively.*

From January 1, 1906, to January 31,

* The amounts involved do not furnish as safe a guide as the number of contracts awarded in determining whether the administration is using the city's contracts to reward political supporters, as such favorites are not, as a rule, equipped adequately with plant or means to undertake large works, and, consequently, receive only the smaller contracts. Wherever political considerations influence the award of contracts they are generally given out in large numbers for relatively small amounts, so as to secure the support of the largest possible number of contractors.

1908, \$1,473,663, out of a total of \$5,046,730, or 29.2 per cent, were awarded without advertisement. Whereas, from February 1, 1908, to September 9, 1909, only \$200,406, out of a total of \$4,213,602, or 4.8 per cent, were awarded without advertisement.

In the three departments in which the practice of awarding gift contracts to favorites prevailed most extensively in former years,—the Street, Water and Supply Departments,—practically all contracts in the last two years were awarded after public advertisements for bids. A comparison of the record of these three departments in the period between January 1, 1906 and January 31, 1908, with the record of the period between January 31, 1908, and September 9, 1909, shows that in the former period 189 such contracts were made of which 66, or 34.8 per cent, were advertised. In the latter period 196 such contracts were made, 183 of which, or 93.3 per cent, were advertised. In the former period, the total amount of such contracts was \$2,027,326 of which \$846,096, or only 41.7 per cent, were advertised. In the latter period, the amount of such contracts was \$2,120,820, of which \$2,043,260, or 96.3 per cent, were advertised. In other words, though the number and amount of contracts awarded was substantially the same in the two periods in question, nearly three times the number and more than twice the amount of such contracts were advertised in 1908 and 1909 than in the two preceding years.

Tables showing the percentage in number of contracts for \$2,000 or more, awarded after advertisement in the period between 1885 and 1909, the number and amount of such contracts in all the departments for the last four years, and the number and amount in the Street, Water and Supply Departments in the last four years, are contained in an appendix hereto, marked "B."

The contracts of the Supply Department have been made with more regard to economy than in preceding years. Thus, flagstones were purchased at 33 cents a square foot in 1908, and 34 cents in 1909, as against 67 cents in 1907. Greater care has been taken also in respect to coal purchases, and the city's interests have been better protected as to prices, weights and quality than in former years. The abandonment of the city's stone crushing operations and the purchase in the open market of the stone needed have been the means of saving large sums of money. The average cost of stone at the city crushers, exclusive of the cost of carting, but including interest and depreciation charges, was \$1.60 a ton from 1897 to 1905 inclusive, \$2.85 in 1906, and \$3.24 in 1907. Allowing 40 cents a ton for carting to the job, the prices in 1906 and 1907 were \$3.25 and \$3.64 respectively, whereas the average prices of stone delivered on the job in 1908 and 1909 were \$1.39 and \$1.16½ respectively. If the cost per ton in 1908 and 1909 had been the same as in 1907, the city would have expended for crushed stone in the last two years \$250,251.52 more than it actually paid.

C.—Land Purchases.

There has been no scandal in connection with land purchases; and no attempt has been made to revive the negotiations for the unnecessary land for Evergreen Cemetery, or the excessively costly land for Mt. Hope Cemetery, for both of which projects loans were authorized in 1907. Two land purchases in 1909 which were called to the attention of the commission were investi-

gated, the results showing that the interests of the city had been adequately protected. The city acquired from February 1, 1908, to December 1, 1909, fifty parcels of land at a cost of \$427,424.74, and the average assessed value of this land for the three years preceding was \$410,839.24, the excess above such assessed value being \$16,585.50, or about 4 per cent.

D.—Departmental Methods.

The methods of the city departments continue to show a marked improvement over those of 1907-08, although the record of 1908-09 has not been consistently maintained during the past year. In thirteen departments investigated by the former Finance Commission,—the Weights and Measures, Water, Collecting, Health, Fire, Cemetery, Schoolhouse, Assessing, Supply, Public Buildings, Printing, Street and Infirmary Departments,—taken as a whole, there has been in the last two years an increase in efficiency accompanied by a reduction in the total expenditures. The expenditures in 1907-08 were \$9,326,904.12, as against \$8,822,589.28 in 1908-09, an excess of \$504,314.84, or about 5.7 per cent.* The expenditures of these departments † for the first eleven months of 1907-08, 1908-09 and 1909-10, respectively, were \$8,351,241.11, \$7,323,543.60 and \$7,329,442.69, and the savings indicated in the figures of the two latter years have been made not on account of a decrease, but in the face of an actual increase, in the total amount of service rendered.

The most notable improvement has been made in the Street Department. The contract system has been greatly extended and the department force considerably reduced. The efficiency of the force has also shown a marked increase; and the loss on day labor, as compared with contract work, though large, is not so great as it has been. Thus, the cost of resurfacing macadam roads by day labor, which was \$1.07 a square yard in 1905-06, \$1.19 in 1906-07, and 95 cents in 1907-08, was reduced to 63.9 cents in 1908-09. In 1907-08 it cost \$373,036.50 to resurface 392,670 square yards, while in 1908-09 it cost only \$259,713.88 for 406,438 square yards, or in the latter year \$113,322.62 less for 13,768 square yards more. If the prices of 1907-08 had obtained in 1908-09, it would have cost the city about \$126,000 more than it actually paid. The total cost of maintenance over the entire area of macadam roads, including street cleaning by the Paving Division, was 11 cents per square yard in 1905-06 and 1906-07, 8 cents in 1907-08, and 5.3 cents in 1908-09.

The contracts for laying and repairing asphalt pavements have been made in 1908-09 and in 1909-10 at prices far less than those which obtained in former years. Thus, prior to 1908-09, the uniform price for laying or repairing asphalt, or bitulithic pavements, was \$2.50 a square yard for surface and binder. The contracts were awarded without competition, the city officials maintaining that competition could not be secured as the asphalt business was controlled by a trust, and the bitulithic pavements by a company which had a patent process. In the last two years, however, bids have been solicited by public advertisement, competition has been secured, and the cost has been greatly reduced. The price for laying the pavement ranged from \$1.84 to \$2 a square yard in 1908-09, and \$1.50 to \$2.20 in 1909-10. In these two years 22,574

square yards were laid at a cost of \$38,407.75, the average cost being \$1.70 a square yard, or 80 cents less than the former price; and the city has saved in the last two years on this item alone the sum of \$18,059.20. In the ten years from 1898-99 to 1907-08, inclusive, 327,286 yards were laid at a uniform price of \$2.50 a square yard, or an excess of 80 cents a square yard over the average prices of 1908-09 and 1909-10. If genuine competition had been secured in the ten years prior to 1908-09, as undoubtedly it could have been, prices as low as the average of the last two years could have been obtained and a loss of \$261,828.80 on this item would have been prevented.

The repairing of asphalt pavements was likewise said to be in the control of the trust and the contracts were also awarded without competition at the uniform price of \$2.50 a square yard. But in the last two years public advertisement secured bids at lower prices and the work was let in 1908-09 at \$1.73 and in 1909-10 at \$1.62 a square yard with resulting large savings to the city.

The abandonment of the city's stone crushing operations has effected a large saving, as previously stated.

The work of cleaning catch-basins, which in 1907-08 and in preceding years was done partly by day labor and partly by contract, was done by contract to a larger extent in 1908-09, and entirely by contract in 1909-10, with excellent results. In 1906-07 the cost of cleaning 7,922 basins, including the cost of examination and location, was \$62,653.82, or \$7.90 each; in 1907-08 8,630 cost \$60,993.05, or \$7.06 each; but in 1908-09 9,253 cost only \$46,052.57, or \$4.97 each, and in 1909-10 6,488 cost only \$29,879.79, or \$4.60 each. The saving in the last two years, as compared with the prices in 1907-08, was \$35,199.10.

The cost of teaming has likewise been greatly reduced, partly because of the adoption of the system of hiring teams by contract after public advertisement for bids, and partly because of the discontinuance of the wasteful practice of furnishing and carting materials to city contractors. The cost, exclusive of snow removal, was \$391,982 in 1907-08, \$278,829.02 in 1908-09, and \$116,355.77 in 1909-10. Much of the loss on the teaming account in 1907-08, and in preceding years, was due to the practice of hiring teams without competition, at excessive prices, from individuals who had political influence with the administration.

Many other improvements in the administration of the Street Department are worthy of mention, but the foregoing will serve as illustrations of the efficiency and economy which have been obtained under the present superintendent, who, though hampered at times by outside interference and always by the inefficiency of the old men in the service, has succeeded in accomplishing notable reforms.

II. FAILURES IN ADMINISTRATION.

The foregoing summary shows that many improvements in administration have been made, but side by side with notable achievements there have been serious failures.

The expenditure for the Mayor's office, instead of being an example for the heads of departments, have indicated a disregard for economy.

The large appropriations of the year 1909-10, and the resulting high tax rate were caused partly by the meritorious practice of paying for "street improvements" and other current expenses out of taxes instead of loans, but mainly by

the retention of unnecessary employees and the maintenance of an extravagant scale of salaries. (See Finance Commission Report, August 23, 1909.) A much larger saving than any which has been effected could have been made if the superfluous employees had been removed, and the excessive salaries had been reduced to a proper figure. Some employees in the lower grades, principally laborers, have been discharged, but practically no salaries have been reduced, while some have been unjustifiably increased. Many who were discharged have been reinstated, and some reductions in salary have been followed by restorations. The reduction in the number of city and county employees in the last two years is not a substantial one, as is shown by the following table:

Number of Persons Employed on April 30, of Each of the Following Years.

YEAR.	City.	County.	Total.
1905-06	12,558	536	13,094
1906-07	12,949	550	13,499
1907-08	13,174	579	13,753
1908-09	13,108	571	13,679
1909-10	12,645	577	13,222

From this it appears that in 1908-09 there were only 74 employees less than in 1907-08. In 1909-10 there were 531 less than in 1907-08 and 457 less than in 1908-09.

There has been a saving in the pay rolls of some of the departments in the last two years, as compared with those of 1907-08, but the total saving cannot be definitely ascertained until the close of the fiscal year. Whatever savings may have been made can be accounted for as follows:

1. By the discharge of some of the superfluous employees in the lower grades, such as laborers, mechanics, inspectors, etc., due in part to a creditable, though insufficient, extension of the contract system.

2. By the discharge or reduction in salary of a few in the higher grades.

The results are far below the reasonable expectations of those interested in reducing the city's expenditures. No good reason can be given for the failure to adopt the former Finance Commission's recommendations as to reductions in salaries in the Assessing, Collecting, Treasury, City Clerk, Clerk of Common Council, Clerk of Committees, City Messenger, Soldiers' Relief, Weights and Measures and other departments.*

Unnecessary appointments have also been made, as for example those of the two additional assessors, which, in effect, were nothing more nor less than deliberate gifts of \$8,000 a year of the city's money. Moreover, the Mayor's office has frequently interfered with the conduct of the departments in the making of appointments to subordinate offices, and in at least one case, that of the Penal Institutions Department, with demonstrated pernicious results.

III. THE CHARTER AMENDMENTS AS AN AID TO EFFICIENT ADMINISTRATION.

The commission believes that great progress towards efficient and economical government is within the possibilities of the near future. It does not recommend that impracticable standards of conduct be

*See Finance Commission's Report Vol. I, pp. 212, 334, 349.

*The expenses due to the abolition of grade crossings, which were \$371,249.91 in 1907-08, and \$62,913.59 in 1908-09, have not been included.
† Excluding grade crossing expenses.

established for the city departments, but only such as can and ought to be attained. With the longer terms of the Mayor and City Council will come larger opportunity to make a closer study of municipal affairs than former mayors and city councils have enjoyed, and an improvement in administration should result. The increased powers of the Mayor with respect to appointments and to the control of the city's finances, with the resulting increase in executive responsibility should be accompanied by a corresponding gain in efficiency and economy. The duties of the council have been reduced so as to leave the members more time for the performance of their most important work,—the consideration of appropriations and loans,—and there will no longer be any excuse for neglecting to frame the municipal budget with as much care and intelligence as the president and directors of a private corporation give to the study of its financial operations.

The aim of the city government should be not only to make permanent the improvements of the last two years, but to make further advances in economy and efficiency. All loans should be subjected to the closest scrutiny, both as to propriety and necessity. The high standards now established in the award of contracts should be jealously maintained. The first attempt to break down the competitive system may be regarded as the certain sign of the approach of corruption.

The manner in which the city's contracts and purchases are made affords one of the best tests of the character of an administration. If a large part of the city's business is transacted on verbal orders, or non-competitive contracts, and comparatively little on contracts awarded after public advertisement for bids, favoritism, fraud and excessive prices will be the inevitable result. Under contracts given by favor, it has been found to by the rule that defective work is done or inferior materials are supplied. Different results cannot be expected, for the system which admits favoritism in the award of a contract will not be likely to deny other favors in its performance. On the other hand, when the contract is awarded to the lowest bidder, after public advertisement, the city receives lower prices, and favoritism, with its demoralizing consequences, is excluded. The practice of awarding contracts without competition, for political or personal considerations, is an essential part of the spoils system by means of which its beneficiaries are enabled to divert from legitimate public uses large portions of the public funds. The wide extent of the practice has been shown in the public hearings and printed reports of the former Finance Commission, relating to the purchase of various materials and to certain contracts for construction work. (Finance Commission Reports, Vol. I., pp. 83-106, 129, 198, 209, 222-227, 228-234, 259, 374, 453-483, 499-504, 512.)

The law intended that the Mayor should protect the city's interests in the award of such contracts, by providing that public advertisement shall not be dispensed with except upon his approval in writing; but this provision had been virtually nullified for several years prior to 1908-09 by the practice of authorizing the waiver of advertisement for insufficient reasons, or for no reasons except political ones.

The recent amendments of the city charter, changing the amount of contracts required to be advertised from \$2,000 to \$1,000, make possible even greater improvement in this branch of the public

business than has been made in the last two years. If the spirit, as well as the letter, of the law is respected, the field of competition now open will be further enlarged, and the city will obtain corresponding benefits. If, however, only the forms of law are respected, and department heads are either permitted or directed to request authority to dispense with public advertisement for bids, and such authority is granted upon insufficient grounds, the spoils system will have returned with its favoritism, fraud, and resulting heavy financial loss to the city. The practice of assigning false reasons for avoiding public competition should not be tolerated: nor should a return to the practice of making "split" contracts so as to bring the amount below the statutory figure be permitted.

IV. RECOMMENDATIONS FOR LEGISLATION.

In pursuance of authority given by sections 18 and 21 of chapter 486 of the Acts of 1909, and section 6, chapter 18 of the Revised Laws, the Finance Commission, on January 5, 1910, submitted to the General Court a summary of recommendations for legislation affecting the City of Boston. The recommendations are as follows:

1. That hereafter, in the Collecting Treasury and Penal Institutions Departments of the City of Boston, all appointments except the heads of departments, and in the Penal Institutions Department physicians and nurses, be made under and subject to the laws of the Commonwealth relating to the civil service.

2. That all appointments hereafter made in Suffolk County by the clerks of the several courts, the Register of Deeds, the Register of Probate, the Custodian of the Suffolk County Court House, the master of the jail, and by the clerks of the police, district and municipal courts of the City of Boston, be made under and subject to the laws of the Commonwealth relating to the civil service.

3. That the heads of the various departments of the City of Boston be authorized to establish, subject to the approval of the Mayor, reasonable fees or charges for the issuance of permits, licenses and other privileges, including the making of openings in streets and sidewalks, and for the making of inspections required by law. Said authority should be given in addition to the authority now given to the Mayor and the City Council under section 28 of chapter 486 of the Acts of 1909, to fix by ordinance the terms, by way of cash payment, rent or otherwise, upon which permits or licenses for the storing of gasoline, or oil or other inflammable substances, or explosive compounds, and the construction or use of coal holes, vaults, bay windows and marquees in, under or over public ways, shall be issued.

4. That the Superintendent of Streets be authorized to require persons or corporations who desire permits to make openings in streets or sidewalks to deposit with the treasurer of the City of Boston a sum fixed by said Superintendent of Streets, subject to the approval of the Mayor, which shall be sufficient to indemnify the city from loss caused by the settling of said streets or sidewalks after they have been first restored by said persons or corporations making said openings, due to the inability of said persons or corporations to restore said streets or sidewalks to as good order and condition as they were in prior to said opening, or due to the defective manner in which the restoration was made by said person or corporation. If, within two-years from

the date when the person or corporation opening said streets or sidewalks completes the work of restoring the same, no repairs have been begun by the city on said streets or sidewalks for the purpose of restoring the same to as good order and condition as they were in prior to said opening, the amount so deposited, with such interest as has accumulated, shall be returned to said person or corporation. If the amount of said deposit is more than the reasonable cost to the city of doing said work of repairs, the excess with interest as aforesaid shall be paid to said person or corporation. If the amount so ordered to be paid as deposit, or the amount retained by the city as the reasonable cost of the work of repairs as aforesaid, shall be deemed to be excessive by the person or corporation required to make the deposit, said person or corporation shall have the right to apply for relief to a justice of the Superior Court sitting in equity in Suffolk County. Said justice shall have authority to issue a decree requiring said Superintendent of Streets to issue said permit upon payment of a sum deemed by said justice to be reasonable; or to return to said person or corporation the amount held in excess of the amount determined by said justice to be the reasonable cost of making said repairs, with interest as aforesaid. The Superintendent of Streets shall be authorized to withhold the permit for the opening of said streets and sidewalks until the sum fixed by him, or subsequently determined by said justice to be reasonable, shall have been paid by the person or corporation requesting such permit.

5. That the fees for recording deeds and other instruments in the registry of deeds for Suffolk County be increased so as to make said registry self-supporting. The Register of Deeds of Suffolk County should be authorized to fix the fees at an amount estimated by him to yield annually in the aggregate a sum sufficient to maintain the department without expense to the City of Boston; and any surplus remaining at the end of the year, above the amount expended for the maintenance of the department, should then be turned over to the collector of the City of Boston, to be used for general county purposes.

6. That the City of Boston be relieved of maintaining, at its sole expense, the various Suffolk County institutions; and that the expense of maintaining Suffolk County courts, jails, houses of correction, other county offices and necessary public buildings for the use of Suffolk County be apportioned between the cities of Boston and Chelsea and the towns of Revere and Winthrop on the basis of population or valuation or in some other equitable manner.

7. That money paid into Suffolk County courts by litigants be placed at interest by the clerks of said courts to the credit of the County of Suffolk; and that said interest, unless otherwise directed by the court, shall, on the thirty-first day of January in each year after the payment of the principal fund to the party in litigation decided to be entitled thereto, be turned over to the collector of the City of Boston, to be used for general county purposes.

8. That section 1 of chapter 271 of the Acts of 1909 be amended, by inserting after the word "year," in line 11 of said section, the following words:

Said officials shall, on or before the first day of March in each year, transmit to the mayor of the City of Boston a written report stating the amount of the receipts and expenditures of their several offices for the year ending on the first day of February preceding; and such statement of

receipts and expenditures shall be classified and arranged in such form and manner as the auditor of the City of Boston shall approve.

9. That chapter 276 of the Acts of 1894, requiring the appointment of assistant assessors in the City of Boston equally from both political parties, be repealed; and that chapter 279 of the Acts of 1903 (police listing act) be amended so as to require the Police Department to submit to the Assessing Department a list of polls taken by said Police Department, said list to serve the assessors of the City of Boston as a basis for the assessment of poll taxes; and that an act be passed authorizing the assessors in the City of Boston to require any person requesting an abatement of poll tax on the ground of nonresidence in Boston to produce a receipt for the payment of poll tax for the year in question to the city or town in the Commonwealth in which he claims residence; or, if such person resides outside the Commonwealth, a statement under oath, signed by him, declaring that he actually resided outside the Commonwealth in the place named by him on the first day of April in the year in which the assessment for poll tax was levied upon him by the assessors of the City of Boston.

10. That the Schoolhouse Commission of the City of Boston be composed of three members, to be appointed subject to the provisions of chapter 486 of the Acts of 1909, the chairman of which shall receive a salary of not less than \$5,000 a year. The other members of said commission shall receive no compensation.

11. That hereafter in the City of Boston the amounts determined by the Commissioner of Soldiers' Relief to be paid to applicants for state aid, military aid and soldiers' relief shall not be required to be submitted to the City Council for its approval; and that a board of unpaid trustees, to consist of three members, shall be appointed by the Mayor of the City of Boston, subject to the provisions of chapter 486 of the Acts of 1909, said Board to have general supervision over the Soldiers' Relief Department of the City of Boston.

12. That hereafter the Auditor of Accounts for the Commonwealth be required to publish in his annual report a statement showing the amounts of each class of the metropolitan debts as measured by the assessments levied for such purposes upon cities and towns within the metropolitan district for the preceding year, which debts are to be paid by said cities and towns.

The reasons for the recommendations are as follows:

I. EXTENSION OF CIVIL SERVICE TO THE COLLECTING, TREASURY AND PENAL INSTITUTIONS DEPARTMENTS.

The Collecting Department, in recent years, has been used to pay the political debts of the administration for the time being, incompetents having frequently been employed and the expenses of the department having thereby increased inordinately. The appointment of unnecessary employees caused the department expenses to increase from \$134,983 in 1906-07 to \$159,867 in 1907-08. If the appointments had been required to be made from the civil service list there would have been no certainty that the favorites of the administration would be certified for appointment, and the motive for increasing the force would have been absent, or at least not so strong. It seems likely that the civil service list will furnish better material than can ordinarily be found in the ranks of the active political

workers, from which, in the absence of civil service requirements, the appointments would inevitably be made.

The Treasury Department has been used to a far less extent for political purposes, but it has not wholly escaped the taint of the spoils system.

There is no valid reason for exempting the employees of either of these departments from the provisions of the civil service laws. Theoretically, the collector and the treasurer have been free to select their employees, but, in practice, persons have been frequently been appointed through political influence, who would not have been appointed if the department heads were actually permitted to make the selections.

The employees of the Auditing Department, one of the most efficient in the city, are under civil service rules, and the other two financial departments, — the collecting and the treasury, — would be materially improved if they were also placed under civil service.

In the case of the Penal Institutions Department, the commission believes that no better proof of the need of the application of the civil service rules can be afforded than was presented in the investigation of the department last December. It was then shown that the Mayor, the subordinates in his office, and ten of the thirteen members of the Board of Aldermen were active in soliciting appointments for their political and personal friends; that many of the appointments were made by the Penal Institutions Commissioner as a result of such solicitation, in violation both of the law and of the rule adopted by himself; and that many thus appointed were retained after having been known to commit flagrant offences against the rules of the department. The master of the institution is required by law to make the appointments, and the law holds him responsible for such, but the evidence showed that in this particular he was in reality a mere figurehead. As the commission stated in its report upon the department, published December 29, 1909, "In all cases the law, as well as the interests of the city, was, however, disregarded, and in most cases politics determined the choice. The result of this practice was found in the lack of discipline over the officers, and consequent demoralization of the institution.

The commission believes that the need of the immediate application of the civil service laws to this department is most urgent. The department was exempted from the operation of the civil service laws in the belief that more competent employees would be procured if the appointing power were not restrained by the limitations of the civil service. But in fact the subordinate positions have often been given as rewards for political services to men who have failed to succeed in other occupations. Thus, the very need of more than ordinary skill and integrity has led to the establishment of a practice under which unusually poorly equipped employees have been appointed, with resulting harm to a part of the community which the legislature sought to protect.

II. THE EXTENSION OF THE CIVIL SERVICE LAWS TO THE SUFFOLK COUNTY OFFICES.

County administration is usually scrutinized less by the public than that of either the state or of the cities and towns within the Commonwealth. The result is that politics have played a large part in the making of appointments, and many abuses have crept into the service. This seems to be inevitable under a system of

choosing officials by popular vote. A number of instances could be cited to show that politics have governed the selection of employees by some of the Suffolk County officials, but it is needless to enumerate them, for it is a well recognized fact that political obligations are often discharged in this manner. In one county office, until within the last two years, it was the custom to make appointments equally from the two leading political parties, and to a considerable extent the persons thus appointed have controlled the conventions of both parties held for the purpose of nominating county officers. Though many good appointments have been made, even under such unfavorable circumstances, it is certain that, on the whole, the appointments have not been as good as if politics had not so frequently influenced the choice. Nearly all the employees of the city departments are under civil service, though there is not such urgent need of keeping some of the city departments up to the high grade of intelligence and efficiency that is required in the county offices, for the latter are branches of the administration of justice. There has been an increasing demand of late years to keep the Suffolk County offices out of politics because of their relation to the courts, and there is no more effective way to do so than by giving such appointments the protection of the civil service laws.

III. AUTHORITY TO ESTABLISH REASONABLE FEES OR CHARGES FOR CERTAIN KINDS OF SERVICE.

There are many kinds of service rendered by the various departments of the city for which no fees are charged, the cost of such service being borne by the taxpayers generally. Where such service relates to the business operations of individuals, it would seem more equitable to make the particular business bear the cost than to impose it upon the whole body of taxpayers. For example, those engaged in erecting buildings can well afford to pay a nominal fee for the issuance of permits, yet the Building Department, which cost \$101,731 to maintain in 1908-09, produced a revenue of only \$505.75. It issued 16,499 permits and made 75,327 inspections of various kinds. It would seem entirely just to impose a larger share of the burden of maintaining this office upon those who utilize its services. In Denver, Indianapolis, Los Angeles, and other cities in the United States, the building departments receive enough in fees to make them self-supporting.

The experience of the city since the passage of chapter 584 of the Acts of 1907 shows the folly of the former system of allowing those who utilize the public service to escape the payment of all charges. Prior to the passage of this act the Street Department collected nothing for sidewalk privileges, but the Street Commissioners have since collected \$57,261.46.

In many cities of the United States, for various services which are given without cost in the City of Boston fees are charged and are not regarded as a hardship. It is highly important that in such a tax-burdened city as Boston more revenue should be obtained from sources other than taxes, wherever it is possible to obtain such revenue with justice both to the citizen and the municipality.

IV. STREET OPENINGS.

A nominal charge should be made for permits for the opening of streets by individuals and corporations. Such openings, though necessary, cause great public inconvenience and are almost invariably

attended with loss on the part of the city. The Superintendent of Streets states that in the last two years the City of Boston lost not less than \$400,000 through the failure of individuals and corporations to restore streets and sidewalks to as good order and condition as they were before opening. In some cases the loss was due to the neglect of the person making the restoration, but in other cases, though the work was done carefully, a loss nevertheless was suffered by the city. In the latter cases the damage was caused by the settling of the street after the restoration had been made, the settling being inevitable, owing to the fact that the backfilling cannot be tamped down as hard as the surface of the street was prior to the opening. The traffic upon the street so restored invariably causes a depression in that part of the surface where the opening has been made. The result is that the entire surface of the street is weakened, the crust breaks down, and irregularities appear. No matter how carefully the restoration is made, in the vast majority of cases a deterioration of the street is inevitable. The openings are made for private profit, and there seems to be no reason why the beneficiaries should not save the city harmless from all loss resulting from the performance of the work. It is recommended, therefore, that the Superintendent of Streets be given authority to require those who desire to open streets or sidewalks to deposit with the treasurer of the City of Boston a sum which shall be sufficient to protect the city against loss due to the settling of the streets or sidewalks after they have been restored. If the city does not begin to make repairs within two years from the time the work of restoration has been completed, the amount held as deposit, with such interest as has accumulated, should be returned. If, however, the city begins the repairs within two years, it should keep enough of the deposit to pay the cost of such repairs, and after their completion should return the surplus. The rights of the individual, or corporation, making the opening could be protected by giving a right of appeal to the court from the order of the superintendent fixing the amount of the deposit, or from his decision as to the amount to be retained by the city as the reasonable cost of repairs.

If this recommendation is adopted, it is probable that fewer street openings will be made, and thus much inconvenience now suffered by the public will be avoided.

V. INCREASE OF RECORDING FEES IN THE REGISTRY OF DEEDS OF SUFFOLK COUNTY.

The expenditures of the Registry of Deeds in Suffolk County increased from \$41,451 in 1896 to \$59,276 in 1908, or 43 per cent, the receipts from the recording of fees increasing meanwhile from \$28,361 to \$35,891, or 26.5 per cent. In these twelve years the net cost to the county has increased from \$13,090 to \$23,385, or nearly double. The commission believes that while the recording of instruments avoids litigation which would arise in the absence of a recording system, the principal benefits of the system are received by the individuals who record the instruments, and as the service is essentially one for the security of such individuals there is no reason why they should not bear the entire expense of the registry. If the fees are increased so as to make the registry self-supporting, the burden now borne by the City of Boston will be distributed in small portions upon the thousands of persons who avail themselves of the benefits of the

registry. The increased cost in each individual case would be very slight. To illustrate: in the year 1908 the total number of instruments recorded was 47,098, and, as already stated, the expenditures were \$59,276 and the receipts \$35,891. If the cost of recording instruments had been increased 65 per cent, the revenue received would have been \$59,220, or about the sum which it cost to maintain the department in that year. This percentage of increase would make the cost of recording the ordinary deed and mortgage about \$1.10 and \$2.10, respectively, as against the present cost of 65 cents and \$1.25, respectively.

VI. EQUALIZING THE BURDEN OF SUFFOLK COUNTY ADMINISTRATION.

At present the City of Boston pays the entire expense of maintaining the various Suffolk County institutions, the City of Chelsea and the towns of Revere and Winthrop being exempt. The reason for placing the entire expense upon the City of Boston is no longer operative, and the discrimination should not be allowed to exist any longer. (See Finance Commission's Reports, Volume I., page 434.) The Legislature should devise means of apportioning the expense equitably between the cities and towns in the County of Suffolk, either on the basis of population or valuation, or in some other equitable manner. The injustice of the present situation becomes more apparent when it is considered that Boston not only pays the entire expense of the county, but that it is also deprived of a considerable part of the receipts of the courts which have jurisdiction over Chelsea, Revere, and Winthrop. Thus, for example, under the provisions of the Revised Laws, chapter 221, section 2, the fines imposed in police and district courts go to the city or town in which the offence is committed. The Chelsea Police Court, which has jurisdiction over offences committed in Chelsea and Revere, pays to the City of Chelsea and the Town of Revere fines received from persons who have committed offences in these places, respectively. The East Boston District Court, which has jurisdiction over persons who commit offences in the Town of Winthrop, pays over to that town the amount received as fines for offences committed therein. Thus, in the five years 1903 to 1907 inclusive, there has been paid to Chelsea, Revere, and Winthrop, respectively, by the district courts of Chelsea and East Boston, \$21,478.24, \$8,178.10 and \$1,615.01, or a total of \$31,271.35. This is the result of the application of a general law to a peculiar situation, perhaps not known to the Legislature which passed the general law.

The injustice of the system is further shown by the fact that Boston also pays for the maintenance at the jail of persons sentenced from Chelsea, Revere and Winthrop, as well as the expenses of their courts, together with the expenses of all the courts in the City of Boston, and the Registry of Deeds and of Probate; to all of which the residents of Chelsea, Revere and Winthrop have access. It is an anomalous system which gives the citizens of Chelsea, Revere, and Winthrop equal rights with the citizens of Boston in electing officials to the various Suffolk County offices, while the citizens of Boston alone bear the expense of maintaining such offices. Representation without taxation is just as indefensible as taxation without representation.

The Legislature of last year rejected the petition of the Mayor of the City of Boston for an equitable apportionment

of Suffolk County expenses. The fire of 1908 was then urged as entitling Chelsea to the exemption, and the flood of last year may now be urged as a further reason for the continuance of the exemption. Moreover, it may be urged that the Town of Winthrop has recently suffered from a severe storm, and that it should also be exempted until such time as it may recover the loss sustained. If such claims are recognized, Boston will be compelled to bear forever the expenses of county administration, for it will be easy to make similar claims in the future. The Finance Commission believes that the law should be amended at once so that the cost of Suffolk County administration may be distributed equitably. The City of Chelsea, as shown by the report of its commission for the year 1908, has made great progress under the most difficult circumstances, and it ought not to be difficult now for Chelsea or for Revere or Winthrop to pay their just share of the expenses of a system from which they receive large benefits.

VII. PROVISION FOR MAKING THE INTEREST OF MONEY PAID INTO SUFFOLK COUNTY COURTS AVAILABLE FOR THE USE OF SUFFOLK COUNTY.

The clerk of the Superior Court of Suffolk County has on deposit money paid into court by litigants which has accumulated interest to the amount of \$3,225.15, which neither he nor the County of Suffolk can use. In cases where the principal fund is paid to the litigant held to be entitled thereto, and in which the court makes no order disposing of the interest which has accrued, the clerk cannot use the interest, nor can he turn it over to the treasurer of the City of Boston for the uses of the county. It is believed that the salary paid to the clerk was intended to exclude all fees or other emoluments, and that he would not, therefore, be entitled to the interest of the aforesaid sums. There is no law under which said interest becomes the property of Suffolk County.

The commission believes that a law should be enacted which would make such interest payable to the treasurer of Suffolk County for general county purposes, whenever it is not ordered by the court to be paid to the litigant entitled to the principal fund.

VIII. REPORTS OF RECEIPTS AND EXPENDITURES BY SUFFOLK COUNTY OFFICIALS.

On the recommendation of the former Finance Commission, the Legislature, in 1909 (chapter 271, section 1), required the officials of Suffolk County to present annually to the auditor of the City of Boston, on the first day of February in each year, estimates of the expenses of their respective offices for the ensuing year. The commission also recommended that said officers be required to submit to the auditor written reports of the receipts and expenditures for the preceding year, but probably through some oversight there was an omission to provide for such reports. The reports are as essential as the estimates for the guidance of the Mayor and City Council in framing appropriation bills for county offices, and it would complete the financial scheme if such reports were made. The commission believes that in the past the financial affairs of the county have not been given sufficient study by the city government, and it is hoped that, by means of a complete system of estimates and reports, a proper study of county appropriations may be made.

IX. VARIOUS CHANGES IN THE LAW RELATING TO THE ASSESSING DEPARTMENT.

In the City of Boston assistant assessors of all grades are required by section 1, chapter 276, of the Acts of 1894, to be appointed in equal numbers from the two leading political parties. This law was passed in the belief that equality of political representation would restrict the opportunities for fraud in connection with the voting lists, the assessors then having the duty of enumerating polls for voting purposes. In 1903, by chapter 279 of the acts of that year, the police listing act was passed, under which the duty of preparing a list of voters was transferred from the Assessing to the Police Department; and section 18 of the act expressly repealed so much of section 15 of chapter 11 of the Revised Laws as is contained in lines 14 to 22, both inclusive, which provides that in Boston two assessors, or two assistant assessors, not being of the same political party, shall together visit every building and verify the lists of persons liable to be assessed for a poll tax and of the women voters. The list thus taken under said section 15, and used as the basis of the voting list, was no longer necessary after the passage of the police listing act, but the practice still exists of having two assistant assessors of different political parties make the house-to-house visits together. The result is that two lists of persons liable for poll taxes are now taken, one by the Police Department and one by the Assessing Department, the former being used for voting purposes, and the latter for tax purposes. Substantially the same service is rendered by both departments, and the expense of this duplication is considerable. Thus, the police listing in 1908-09 cost \$25,736.61, and the expense of the Assessing Department for taking the list of polls was approximately the same amount.

The commission recommends that chapter 276 of the Acts of 1894, requiring equal political representation in the assistant assessors, be repealed, as it has outlived the reason for its enactment, has frequently resulted in the appointment of assessors of insufficient qualifications, and has been productive of unwarranted expense. The commission also recommends the passage of an act requiring the Police Department to submit to the Assessing Department a list of polls taken by the Police Department, such list to serve the assessors as a basis for the assessment of poll taxes. This would render unnecessary the continuance of the second assistant assessors, forty-six in number, who receive annually \$9,200; fifteen first assistant assessors, who receive an annual compensation of \$15,000, and fifteen street clerks, who receive annually \$3,000, making a total annual saving of \$27,200. Owing to the brief time devoted by the Police Department to the taking of the list of polls—seven days—undoubtedly mistakes are made, and therefore, the list as taken by the Police Department could not safely be used as the final list in the assessment of poll taxes. Therefore the assessors should be authorized to revise and perfect the list for the purposes of taxation. They should also be given authority to require persons requesting an abatement of poll tax, on the ground of nonresidence, to produce a receipt for the payment of poll tax from the city or town in which such person claims residence; or, if such person resides outside the Commonwealth, a statement under oath signed by him declaring that he actually resided outside the Commonwealth, in the place named by him, on the first day of April in the year in which the assessment for a poll tax was levied

upon him in the City of Boston. This would greatly reduce the time which the assessors might otherwise be obliged to devote to hearings on petitions for the abatement of poll taxes, and it would also reduce the expenses of such hearings.

X. REORGANIZATION OF THE SCHOOLHOUSE COMMISSION.

The Schoolhouse Commission at present consists of three paid members, the chairman of which receives \$4,000 a year, the other members \$3,500 each. Since the passage of the law in 1901 (chapter 473) which created the Schoolhouse Commission, the appointees chosen to serve with the chairman have been, with possibly three exceptions, lacking in qualifications requisite for the office. It is believed that the service of the associate members has frequently hampered rather than assisted the chairman in the performance of his duties, and that as a result the city has not received the quality of service to which it was entitled.

The commission believes that if a board of three were created to consist of one executive, at a salary of not less than \$5,000 a year, and two other members who should receive no compensation, and who would have no executive powers, the work of the department would be conducted with more efficiency and at less expense than it has been since the creation of the commission. Such reorganization would concentrate responsibility in the executive, leaving him free to adopt or to reject the recommendations of the associate members, and thus tend to establish a uniform policy in the department. The experience of the Fire Commission and the Water Commission, both executive boards, all members having equal power and responsibility, was such that it led to their abandonment. In executive boards of more than one member the results invariably seem to be diffusion of responsibility, lack of efficiency and increase of expenditures. The experiment of concentrating responsibility and power in a single executive has been generally attended with good results, and the commission believes that a similar arrangement will likewise prove successful in the case of the Schoolhouse Commission.

XI. INCREASING THE RESPONSIBILITY OF THE COMMISSIONER OF SOLDIERS' RELIEF.

The new City Council, under the charter amendments of 1909, will have the power formerly exercised by the Board of Aldermen with respect to the recommendations of the Commissioner of Soldiers' Relief for the payment of sums as state aid, military aid and soldiers' relief. The division of responsibility between the commissioner and the Board of Aldermen has often resulted in an increase in the amounts paid to beneficiaries. The commissioner stated to the Finance Commission that in only one case has the amount recommended by him been lowered by the aldermen, but that in many cases the amounts have been increased. As the investigation made by the commissioner is less casual than any investigation that can be made by the City Council, owing to the pressure of its other duties, it would seem wise policy to give the commissioner the right to determine the amounts to be paid, subject to the approval of an unpaid board of trustees, which should have general supervision over the department. It may be urged that in the absence of such a check as has been afforded by the Board of Aldermen the expenditures of the department will increase, but the answer is that experi-

ence has shown that increased expenditures have resulted from the action of the Board of Aldermen, and that some of the increases have been made for political reasons. A board of trustees, being less liable to political pressure, would more effectively restrain extravagance.

XII. PUBLICATION BY THE AUDITOR OF ACCOUNTS OF THE COMMONWEALTH OF THE AMOUNTS OF EACH CLASS OF METROPOLITAN DEBTS.

It is important that the cities and towns within the metropolitan district should know the amount of their total indebtedness for all purposes, as such knowledge would be of great value in passing upon each new proposal for an increase in the debt. At present it is impossible to discover from the reports of the auditors of such cities and towns the total amount of their indebtedness, because of the fact that no computation is made of their share of the metropolitan debts. Thus, in the reports of the auditor of the City of Boston, the net debt of the city on January 31, 1907, appeared to be \$68,821,359.41, whereas the actual debt, including the city's share of the metropolitan and state debts, was \$111,848,735.06, the city's share of the metropolitan debt then being \$37,967,986.92, and its share of the general state debt being \$5,059,388.73. This underestimate of the city's debt not only prevents the citizens from realizing the total indebtedness of the city, but the error is duplicated in the reports of the United States Census Bureau, and thus misinformation is spread throughout the country. In order to remedy this defect the Auditor of Accounts for the Commonwealth should publish in his annual report a statement showing the share of the cities and towns in the metropolitan district of each class of metropolitan debt as measured by the assessments levied for such purposes for the preceding year. It is hoped that the publication of the actual debt thus computed will have a potent effect in checking the increase of unnecessary debts in the City of Boston and elsewhere.

APPENDIX A.

OFFICIAL COMMUNICATIONS.

COMMUNICATION TO THE MAYOR AND CITY COUNCIL IN RELATION TO THE APPOINTMENT OF TWO ADDITIONAL PRINCIPAL ASSESSORS.

BOSTON, June 26, 1909.

To the Honorable the Mayor and City Council:

GENTLEMEN,—In three communications to the Mayor and City Council, dated respectively February 29, 1908, July 9, 1908, and November 7, 1908, the former Finance Commission recommended that the board of principal assessors be reduced in number from nine to five. (See Finance Commission reports, Vol. I., pages 213, 336 and 450.)

The City Council did not adopt the recommendation and the number as fixed by the city ordinances remains unchanged.

On February 29, 1908, the office of one of the principal assessors became vacant on request of the Mayor, and on April 30,

1908, the term of another expired and no successor has been appointed in either case. The city has thus been enabled to save at the rate of \$8,000 per annum, and the work of the Assessing Department has been performed without any perceptible diminution of efficiency.

On June 14, 1909, the Mayor sent to the Board of Aldermen for confirmation the names of two persons whom he appointed to fill the vacancies, but the Board declined to confirm the appointments and voted instead to amend the ordinances so as to reduce the number of assessors from nine to seven. This action now awaits concurrence or rejection by the Common Council.

The commission is informed that the principal assessors have not asked that the two vacancies be filled, and there is no reason to believe that the interests of the city will suffer if they are left unfilled. On the other hand, the financial condition of the city requires that no unnecessary appointments be made.

The appointments in question are objectionable on other grounds. The commission is informed that in the present case the principal assessors were not asked to present a list of those of the first assistant assessors whose experience and ability might make them eligible for promotion to the higher positions. One of the difficulties in procuring the highest type of public servants is the general recognition of the fact that advancement in the city service has depended more upon political influence than upon merit. Promotion has been denied to employees in the lower grades who, though ambitious and worthy, lacked the political influence necessary to secure the higher places, while outsiders who possessed political influence, but lacked qualifications, have been favored by appointment. The results in such cases are disastrous because the favorite becomes a clog upon the efficiency of the department, and the experienced subordinate, finding that merit avails nothing, either loses hope and consequently sinks to the dead level of inferiority of those about him who are without ambition, or leaves the public service to enter private employment where worth is certain of appreciation.

The commission recommends that the appointments be withdrawn by the Mayor.

Respectfully submitted,

THE FINANCE COMMISSION,
by
JOHN A. SULLIVAN,
Chairman.

COMMUNICATION TO THE MAYOR IN RELATION TO THE "CITY RECORD."

BOSTON, July 15, 1909.

Hon. George A. Hibbard, Mayor:

SIR,—In response to your request for advice concerning the material proper to be printed in the *City Record*, now to be established under Acts of 1909, chapter 486, the commission respectfully submits the following:

Section 29 of the act specifically provides that: "All advertising, whether required by law or not, with reference to the purchase or taking of land, contracts for work, materials or supplies, the sale of bonds, or the sale of property for non-payment of taxes shall appear exclusively in said paper; a list of all contracts of \$1,000 or more, as awarded, with the names of bidders, and the amount of the bids; appointments by the Mayor; and changes in the number and compensations of employees in each department, shall be

published in the *City Record*. The proceedings of the City Council and School Committee, together with all communications from the Mayor, shall be published in the *City Record*."

This matter alone will be of considerable bulk, and, in the opinion of the commission, should be added to cautiously and only as urgent demands arise. The corresponding organ of the City of New York is a warning of the ease with which such a publication may be swelled to unwieldy proportions and thus conceal essential information.

The *City Record* should thus contain the important acts of the Mayor, the City Council, the School Committee and the several departments, and especially such as affect the finances of the city. These facts should be presented in intelligible form and in brief compass.

Matters to be printed in the *Record*, besides those provided in the act, should include the following:

The annual budget and all subsequent appropriations, loans and transfers.

Lists of assessments for construction of streets and sewers, giving amounts, names of persons and street and number.

A list of abatements of taxes and rates, giving amounts, names of owners and location of property.

Changes in the ordinances.

Traffic regulations.

Changes of the names of streets, parks, public squares, etc.

Reports and communications of the Finance Commission and of special committees on matters of public interest.

Vital, social and commercial statistics and reports of speeches in the City Council should be excluded.

By establishing a system of co-operation between the several department heads and the editor of the *City Record*, the work should be made so simple that one person could perform it, and the commission therefore recommends that it be placed in charge of one person at a salary not to exceed one thousand dollars a year.

Respectfully submitted,

THE FINANCE COMMISSION,
by
JOHN A. SULLIVAN,
Chairman.

COMMUNICATION TO THE MAYOR IN RELATION TO THE PROPOSED CON- TRACT FOR STREET LIGHTING.

BOSTON, July 21, 1909.

Hon. George A. Hibbard, Mayor:

SIR,—In the course of its investigation of the bids submitted on June 28 last by the Greater Boston Illuminating Company and the Rising Sun Street Lighting Company for lighting with gas the streets, parks and alleys of the city for five years from September 15, 1909, the commission began to entertain doubts as to the power of the city to make the five-year contract in the period between July 11, 1909, when section 16 of chapter 486 of the Acts of 1909 goes into effect, and the first Monday of February, 1910, when section 6 of the said act takes effect. These sections are as follows:

SECTION 16.

No official of said city, except in case of extreme emergency involving the health or safety of the people or their property, shall expend intentionally in any fiscal year any sum in excess of the appropriations duly made in accordance with law, nor involve the city in any contract for the future payment of money in excess of such appropriation, except as provided in section 6 of this act. Any official who shall violate the provisions of this section shall be punished by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or both.

SECTION 6.

No contract for lighting the public streets, parks, or alleys, or for the collection, removal, or disposal of refuse, extending over a period of more than one year from the date thereof, shall be valid without the approval of the mayor and the city council after a public hearing held by the city council, of which at least seven days' notice shall have been given in the *City Record*.

On July 15, 1909, the commission requested the opinion of the Corporation Counsel on this question, and on July 20, 1909, the following reply was received:

CITY OF BOSTON,
LAW DEPARTMENT, 73 TREMONT STREET,
BOSTON, July 19, 1909.

BOSTON FINANCE COMMISSION,
410-413 Tremont Building, Boston, Mass.:
DEAR SIRS,—Yours of the 15th inst. concerning contracts made after July 11, 1909, was duly received.

Although I do not think the Legislature intended to change the law, yet I think it has done so by the clause in section 16 of chapter 486, which prohibits involving the city in any contracts for the future payment of money in excess of appropriations except as provided in section 6 of this act.

Until some change is made in this law all continuing contracts to be paid out of annual appropriations will have to be made to expire the first day of February of the year next ensuing. It might be provided as in leases that the city or head of the department might have the privilege of renewal, but I think that is as far as the head of the department could go in a contract to be paid for out of annual appropriations.

In your communication you speak of a period of more than one year. Under this section it would be as unlawful after the first day of February to lease an office for a year, or to contract for a year's supply of milk or ice, as it would be to make a twenty-year contract for lighting the streets.

Yours truly,

THOMAS M. BABSON,
Corporation Counsel.

The above communication shows that there is no necessity for continuing the investigation, already begun by the commission, of the particular bids under consideration. As the present contract will expire on September 15, 1909, and no new contract for a period beyond the present fiscal year can be made before the first Monday in February, 1910, it will be necessary for the city to make a temporary arrangement with some company for the lighting of the streets with small lamps during the interval between September 15, 1909, and the first day of February, 1910.

Under section 6 of the terms and conditions annexed to the contract for lighting the streets by electricity, approved May 7, 1909, the city has the right to demand of the Edison Electric Illuminating Company,—subject to certain restrictions,—the installation of such additional lamps as it may need. The Corporation Counsel states that the furnishing of such additional lamps is not within the prohibition of section 16 of chapter 486 of the Acts of the year 1909.

The Superintendent of Streets states that it is thus possible to procure about 5,000 additional incandescent electric lamps at a cost of \$22.31 per lamp per year. While this price is more than the bid of the Greater Boston Illuminating Company (\$20.49), it is less than that of the rival bidder, the Rising Sun Street Lighting Company (\$23.60). In the opinion of the Superintendent of Streets, the electric lamp is superior, all things considered, to either of the gas lamps proposed to be installed. If such an arrangement were made it would provide for about 5,000 of the 12,000 lamps contemplated in the gas lighting contract, for which bids were made by the Greater Boston Illuminating Company and the Rising Sun Street Lighting Company, and the remaining 7,000 lamps could be furnished up to February 1, 1910, by one of the gas lighting companies.

There are various other ways of providing for the 12,000 lamps. The city can, if necessary, purchase and install out of this year's appropriation for the Lamp Department about 7,000 lamps; and it can employ directly the labor necessary to light, extinguish and care for the lamps, or, what is more desirable in the opinion of the commission, it can make a contract for the furnishing of such labor for the balance of the fiscal year. The Rising Sun Street Lighting Company, which now provides and cares for the 12,000 lamps, may be willing to make satisfactory terms with the city for the continuance of its service after the expiration of its contract on the fifteenth of September next, and up to the first of February, 1910. It is possible that the gas company may be willing to contract directly with the city for the furnishing, lighting and care of the lamps, as well as for the supply of gas for the period in question. Some other company may also make a bid.

The commission recommends that the Superintendent of Streets negotiate with all available bidders.

Respectfully submitted,

THE FINANCE COMMISSION,

by

JOHN A. SULLIVAN,

Chairman.

COMMUNICATION TO THE MAYOR IN RELATION TO LAYING WATER PIPE TO SPECTACLE ISLAND IN BOSTON HARBOR.

BOSTON, July 31, 1909.

Hon. George A. Hibbard, Mayor :

Sir,—On July 12, 1909, the Water Commissioner, by public advertisement, solicited bids for the laying of 4,200 linear feet of 4-inch water pipe with flexible joints, 70 feet of 4-inch standard pipe, and for the excavation of 20 cubic yards of rock, the pipes to be supplied and delivered by the city and to be laid by the contractor in a channel to be dredged under water between Long Island and Spectacle Island, in Boston Harbor, the object being to furnish water to the occupants of Spectacle Island. The estimate of the City Engineer's Department was \$13,000. Three bids were received, the lowest being \$14,540. If the contract is awarded, to the \$14,540 should be added the cost of the pipes, \$2,321.40, thus making the total cost to the city \$16,861.40, exclusive of office expenses and inspection. The bids were opened on July 22, 1909. On the same day the Finance Commission, having requested information with regard to these bids, the Water Commissioner addressed a letter to the commission submitting the bids and requesting its advice.

The question to be considered is whether the water pipe should be laid at the expense of the city for the benefit of the occupants of the island.

The commission has heard the petitioners for the service,—the New England Sanitary Product Company, the N. Ward Company and the Continental Export Company,—and also several former and present officials of the city. The City Engineer believes that the entire expense should be borne by the city. He regards the request of the petitioners as analogous to that of the people in a suburban section of the city, and believes that the city is under the same obligation to bear the expenses in the former as in the latter case. The Water Commissioner, being of the same opinion, had not only advertised for bids but had actually bought the pipe. These views are contrary to those of two

former Water Commissioners, one of whom held the office under Mayor Collins and the other under Mayor Fitzgerald. Both stated that there was no analogy between the laying of pipes in the streets for the benefit of a suburban district and the laying of pipes under the water of Boston Harbor, at public expense, for the benefit of a few manufacturers. The commission believes that the case in question is not analogous to the laying of pipes in private ways which have been laid out by the Street Commissioners and which will eventually be accepted by the city and thus become public streets; for, in such a case, the city is merely anticipating and making provision for its future needs. The case is more nearly analogous to one in which the pipe is laid in a private estate a long distance away from the main in the public street. In such a case the laying of the pipe is paid for by the water taker.

On December 24, 1901, and again on January 14, 1907, similar petitions for the laying of the pipe at the city's expense had been filed, but without success. Consequently, on August 11, 1908, the New England Sanitary Product Company, the N. Ward Company and the Continental Export Company made a contract with the Lead Lined Iron Pipe Company for the furnishing and laying of the pipe at their own expense. They agreed to pay for the work \$10,400, and a further sum, not exceeding \$1,500 for extraordinary repairs, if such were found to be necessary within three years from the completion of the job.

On March 11, 1909, they filed a new petition with the Water Commissioner, requesting that the pipe be laid at the city's expense, and on the same day notified the contractor that owing to delays they regarded the contract as at an end. The contractor, however, claims that the work was practically completed, and is now awaiting a test. If this petition is granted, and they are not held liable under the contract, they will be relieved of expense which in August last they had estimated at over \$10,000; and the city will incur an expense of nearly \$17,000.

It is the established policy of the city to require water takers in similar cases to lay and maintain pipes at their own expense. Even the United States Government has not been favored by making it an exception to this rule. It has laid and maintained water pipes at its expense from Gallops Island to Lovell's Island, and from Gallops Island to George's Island, and it pays the city the regular meter rates for the water used.

The only apparent exception to the rule is the case of Thompson's Island, to which water pipes were extended at the city's expense in 1892. The work was done for the benefit of the Boston Asylum and Farm for Indigent Boys,—a private charitable institution—upon the agreement of the institution's officials to pay annually for five years to the city for the water furnished an amount equal to five per cent on the estimated cost of the extension (\$7,015).

The City Engineer cites the Thompson's Island case as a precedent for laying pipes to Spectacle Island, but the commission believes that the expenditure by the city in that case was not justifiable. The fact that the City Engineer cites it as a precedent shows the necessity of proceeding with extreme caution in similar cases.

When the petitioners began business on the island the city entered into no obligation to supply them with water, and the disadvantages of the situation must

have been fully known to them. It will be expensive for them to lay the pipes, but this is a contingency which they should have had in mind when they entered upon the island.

There appears to be danger that the contemplated action of the city authorities may, owing to the uncertain tenure of the New England Sanitary Product Company, involve the city in considerable loss. This company, which is the largest consumer of water and would become the principal beneficiary of the installation, has a contract with the city which expires on January 1, 1912. Its manager informed the commission that if the contract is not renewed the company will cease to do business upon the island, and that the Continental Export Company, which is subsidiary to it, will also go out of business simultaneously. In this event, in less than two and one-half years, by reason of the withdrawal of the principal consumers, the city's investment may become practically worthless.

As the New England Sanitary Product Company will be the largest consumer of the city's water and consequently the greatest beneficiary from the proposed work, the commission deems it pertinent to refer to the past transactions between the city and the company. On November 22, 1897, the Street Department invited bids for the erection of a plant for the cremation of garbage on Spectacle Island, the site to be furnished at the city's expense. The lowest bid was that of the New England Sanitary Product Company, and the contract was awarded to it on December 24, 1897. Though the contract specifically provided that the business must be carried on at Spectacle Island, on February 8, 1898—less than seven weeks from the award of the contract—the Mayor, without inviting the other bidders to bid again, annulled the contract of December 24, 1897, and made a new contract for the same compensation and length of term, but allowing the company to locate at the Calf Pasture in Dorchester on a site furnished by the city. The company was thus enabled to save the extra expense of transacting its business on the island.

This change ultimately cost the city \$140,000. On November 8, 1901, the city, under pressure from citizens who were suffering from the nuisance resulting from the operation of the plant, agreed with the company that the plant should be removed from Dorchester; that it should be located, as originally contemplated, on Spectacle Island, and that the city should pay the company \$140,000 for the buildings and appurtenances which would remain after its removal. The property thus acquired has since then been of no practical use to the city. The \$140,000 which was raised by loan to buy this useless property would have been saved if the company had been compelled to locate on Spectacle Island, as provided in the original contract of December 24, 1897. Moreover, the city, without the safeguard of competition, extended the contract which was to expire on June 1, 1908, to January 1, 1912; increased the annual compensation from \$47,400 to \$52,400; and, at the same time, guaranteed to the lessor the payment of the company's rent of \$10,000 a year for such time as the company should treat the city's garbage on the island.

The granting of special favors to business interests has been a potent factor in creating the present deplorable condition of the city's finances. The commission believes that to grant the petition in question would be to confer a special

favor which would involve the city in a large and unwarranted expense. It therefore recommends that the petition be denied.

Respectfully submitted,
THE FINANCE COMMISSION,
by
JOHN A. SULLIVAN,
Chairman.

COMMUNICATION TO THE MAYOR AND CITY COUNCIL IN RELATION TO THE TAX RATE AND THE APPROPRIATIONS OF THE YEAR 1909-10, SIXTEEN DOLLARS AND FIFTY CENTS.

BOSTON, August 23, 1909.

To the Honorable the Mayor and City Council:

GENTLEMEN,—The recently declared tax rate of \$16.50 on the thousand has led the commission to examine the appropriations, expenditures and methods of administration which have made the rate inevitable.

The increase in the present year, over the preceding year of \$20,379,290 in the assessors' valuation of property would have permitted a reduction of about twenty-five cents in the tax rate if the appropriations and state taxes and assessments for this year had not been increased. There was an increase of \$137,455.23 in the state taxes and assessments and of \$224,194.49 in the appropriations of the School Committee, a total of \$361,649.72, for which the Mayor and City Council are not responsible, but which operate to increase the tax rate. It should be noted, however, that the amount of estimated revenue and cash on hand at the beginning of the present year exceeded that of last year by \$368,567.44, which more than offset the increases in the state taxes and assessments and in the School Committee appropriations. The cause for the increase in the tax rate must, therefore, be sought in the appropriations of the City Council for the present year.

The total estimates of the amounts required for the year, as furnished by the departments, together with those made by the Mayor in the cases where department estimates were not submitted, were \$18,842,504.95. The Mayor reduced the total estimates to \$18,097,624, and sent the revised list to the City Council, but the latter appropriated \$19,150,677, or within \$296,845.27 of the maximum allowed by law. The Mayor vetoed several items, thereby reducing the bill by \$507,678.50; but a number of items were passed over the veto, and the bill as finally approved carried \$18,696,703.50. Appropriations amounting to \$40,500 have been made since the passage of the original bill, making the total sum appropriated from taxes \$18,737,203.50. The appropriation for the Water Department brings the total up to \$19,776,563.50, which is larger than any appropriation previously made by any City Council in the history of the city.

The appropriations for the last five years are as follows:

APPROPRIATIONS.	
1909-10	\$19,776,563 50
1908-09	19,358,156 00
1907-08	19,301,868 00
1906-07	18,462,470 00
1905-06	18,174,956 00

Thus it appears that the appropriations of this year were \$418,407.50, \$474,695.50, \$1,314,093.50 and \$1,601,607.50 larger than those of the four preceding years respectively.

This result cannot be explained by the

increase in the expenses of new departments or by the increased payments on account of debt.

In order to find a common basis for comparisons there have been excluded from the following table the items not occurring in each of the last five years* and also the payments on account of debt as they are not within the control of the City Council.

The appropriations of the present year are thus shown still to exceed those of the four preceding years by \$532,470.50, \$145,422.50, \$764,123.50, \$1,166,484.50, respectively.

APPROPRIATIONS.	
1909-10	\$14,093,373 50
1908-09	13,560,903 00
1907-08	13,947,951 00
1906-07	13,329,250 00
1905-06	12,926,889 00

Even after making an allowance of \$165,000 for the rebuilding of Curtis Hall and for the improvements at the City Hospital, as items which in other years would have been provided for by loans, thereby reducing the appropriations from taxes and revenue, the appropriations of 1909-10 exceed those of last year by \$367,470.50, and are only \$19,577.50 less than those of 1907-08. There is a normal increase from year to year in the expenditures of the Fire and Police departments which, so far as the commission knows, is legitimate, and the increase in these items of \$82,417.50 in the appropriations of the present year over last year and of \$264,766.50 over 1907-08 should be taken into account in making a comparison. If these amounts are deducted the appropriations of this year will exceed those of last year by \$285,053, and will be within \$284,344 of those of 1907-08, which was the most wasteful year in the history of the city.

These increased appropriations have been made notwithstanding the enormous debt of the city and the urgent need of retrenchment. The growth of the debt and annual expenditures of the city in recent years has been shown in a report of the former Finance Commission, dated November 29, 1907 (Vol. 1, page 110). It was there stated that the net debt of the city on January 31, 1907, as shown in the auditor's books, was \$68,821,359.41; and that including its share of the metropolitan debt and of the general state debt the real net indebtedness of the city was then \$111,848,735.06. It was further stated that this debt amounted to 8½ per cent of the assessors' valuation of property subject to taxation; that it was, in effect, an underlying lien on all real estate of practically 10 per cent of its market value; and that this condition was principally due to the financial operations of the preceding twelve years. In that period the population had increased 22½ per cent, the valuation 38 per cent, the ordinary departmental expenditures 55 per cent, and the debt 166 per cent, the per capita debt in 1907 being \$183.43.

The conditions in 1907 led to a general investigation which showed the need of radical remedies. In the year 1908-09 an effort to improve conditions was begun, and notable and salutary reforms were inaugurated. Departmental extravagance has been partially checked by the reduction of certain pay rolls by the more economical purchase of materials and supplies and by the establishment of better contract methods; the expensive and illegal practice of borrowing money for cur-

rent expenses has been discontinued; the appropriations for the extension of water mains and for street improvements have been met from taxes instead of loans; and the loans for sewerage works in 1908-09 and 1909-10, and for the separate system of drainage in 1909-10, instead of being outside the debt limit, as in recent years, have been made within the debt limit. The advantage of borrowing inside the debt limit is that it reduces the borrowing capacity, thereby tending to confine the exercise of the borrowing power to legitimate objects and to keep down the total indebtedness of the city. The payment of current expenses wholly from taxes is also an important step towards economy, as it prevents an increase in interest payments of the city and an impairment of the city's capital. It also prevents the injustice of making future generations pay for work the benefits of which they will not have received. The policy of paying from taxes rather than from loans has been properly carried to the extent of rebuilding Curtis Hall and improving the steam heating plant at the City Hospital. Reforms of this nature improve the financial condition of the city, although they have the effect of temporarily increasing the tax rate, and thus subject the administration to undeserved criticism for what is really praiseworthy service.

In the present year, however, owing to the disregard by the City Council of the financial condition of the city, the extravagance of certain department heads and the failure of the Mayor to continue the work of reform, there has been, on the whole, a retrogression. To these causes, rather than to the changed policy respecting loans, are due the increase in this year's appropriations and the continuance of the high tax rate.

Though the Mayor and City Council had an opportunity to profit from the disclosures of a board clothed with ample powers for investigation and aided by competent attorneys, engineers and accountants, they have failed to appreciate the gravity of the financial condition of the city. If they had made the proper reductions in certain departments the legitimate increases in others could have been met, and thus, notwithstanding the increases in the appropriations of the School Committee and in the state taxes and assessments, the tax rate would have been reduced. The recommendations of the former Finance Commission as to reductions in numbers or compensation, or both, in the Assessing, Treasury, City Clerk, City Messenger, Clerk of Committees, Collecting, Registry and Weights and Measures departments, if carried out, would have permitted a reduction in the appropriations of about \$115,000; and the recommendations of Metcalf & Eddy and Samuel Whinery, the engineers employed to investigate the Water and Street departments, if fully carried out, would have led to a still greater reduction. The Superintendent of Streets states that an annual saving of about \$675,000, in addition to that which he has already affected, could be made in the Paving, Sewer and Sanitary divisions of the Street Department if the contract system were substituted for city labor wherever practicable.

The responsibility for unnecessary expenditures as distinguished from appropriations rests primarily with the Mayor, for even if the City Council passes extravagant appropriation bills he should be able to control the heads of departments, and thus keep the expenditures within reasonable limits. Through the efforts of the present Mayor the extravagance, which in recent years had been increasing,

* Excluded: Consumptives' Hospital, Finance Commission, Epileptics, care of, Insane Hospital, Codification of Statutes, Street Improvements.

was checked in the year 1908-09. The resulting improvements justified the expectation that further and greater economies would be effected in the succeeding year, but the facts as shown by the investigation thus far made disclose a lessening of executive vigilance and a corresponding growth of extravagance. In many cases reductions in compensation have been followed by restorations, and discharges by reinstatements, while new and unnecessary appointments have been made and unjustifiable increases in compensation granted. On January 4, 1909, the Mayor in a message to the City Council, submitting the annual estimates of the departments, emphasized the need of economy, but the investigations of the commission have shown that his office, during the present year, has sought to procure positions for favored individuals in various departments. Such interference increases the expenses of the city and tends to demoralize the entire service.

There seems to be a widespread belief that the punishment of those found guilty of defrauding the city means the practical elimination of "graft," and that it leaves nothing further to be done in order to provide honest and economical government. In reality, the financial burdens resulting from criminal practices are insignificant in comparison with those caused by extravagant methods of administration. Not only is the taxpayer's burden increased by inefficiency and wastefulness in the city government, but the commercial growth and prosperity of the city are also impaired. The application of strict business principles throughout all the departments of the city is imperatively required, and should be enforced immediately by the Mayor.

The commission recommends:

1. That all salaries, needlessly raised, be reduced.
2. That all unnecessary appointments be revoked.
3. That action upon pending requests for increases in salary be postponed until the superfluous employees are removed and the excessive salaries reduced to a proper basis.
4. That the executive departments be relieved of pressure from the Mayor's office in the appointment of subordinates.

Respectfully submitted,

THE FINANCE COMMISSION,

by

JOHN A. SULLIVAN,

Chairman.

COMMUNICATION TO THE MAYOR IN RELATION TO THE EXPENDITURES OF THE YEAR 1909-10.

BOSTON, September 8, 1909.

Hon. George A. Hibbard, Mayor:

SIR,—The commission has received your Honor's communication of September 7, 1909, containing an analysis of expenditures for the first seven months of the year, and a comparison of the same with the expenditures for similar periods in previous years. The commission believes that the figures therein are in no way inconsistent either with the figures or the comments of the commission in its communication of August 23, 1909.

The commission quoted figures showing the appropriations for several years, and discussed in detail the appropriations of the present fiscal year and their effect upon the tax rate.

Your Honor, on the other hand, as already stated, quoted figures showing the expenditures for seven months of the cur-

rent year and for the corresponding periods of previous years.

No comparison of the expenditures of this and previous years was made by the commission, as it believed that the expenditures for the first seven months in the year, owing to the fluctuations in the work of the departments, could not safely be taken as a criterion of the expenditures for the entire year.

Respectfully submitted,

THE FINANCE COMMISSION,

by

JOHN A. SULLIVAN,

Chairman.

COMMUNICATION TO THE MAYOR IN RELATION TO CONTRACTS FOR THE CONSTRUCTION OF A SEWER IN NORTH MARKET STREET AND OF THE STONY BROOK CONDUIT.

BOSTON, September 21, 1909.

Hon. George A. Hibbard, Mayor:

SIR,—On September 11, 1909, your Honor requested the advice of the commission as to the award of two contracts; one for the construction of a sewer in North Market street, between Commercial street and Faneuil Hall square; the other for the construction of the Stony brook conduit (Section No. 6) in the Arborway and in private land, West Roxbury.

Since the receipt of your Honor's communication the commission has been informed by the Superintendent of Streets that he intends to award the Stony brook contract to the lowest bidder. Further comment, therefore, in this case seems unnecessary.

The Superintendent of Streets has awarded the North Market street contract to the second lowest bidder and this action now awaits your Honor's approval. The question is whether the facts of this case are of such a character as to make it an exception to the general rule, that all contracts should be awarded to the lowest bidder who is competent and financially responsible.

The lowest bid was for \$12,338.50, and the second lowest for \$13,762.—a difference of \$1,423.50.

Because of the immense traffic on North Market street it is necessary to provide for doing the work with the least possible interruption, and accordingly it was planned to construct an artificial floor of such strength as to permit safe travel over this surface, while workman underneath make the necessary excavation and construct the sewer.

In the advertisement for bids the following clause was inserted.

It is the purpose of the Superintendent not to award this contract to any bidder who does not furnish evidence satisfactory to the superintendent that he has ability and experience in this class of work, and that he has sufficient capital and plant to enable him to prosecute the same successfully and to complete it within the time named in the contract.

This was fair notice to those who had little or no experience in such work that their bids would be rejected.

The Superintendent of Streets states that, owing to the exceptional congestion of traffic on this street, the competition was intended to have been limited to the most skilful and experienced contractors available, and that the award should be given to the lowest bidder in this select class. The opinion of the Superintendent of Streets is shared by the Chief Engineer and the Deputy Superintendent of the Sewer Division, both of whom state that the work should be performed by one who

has had experience in subway construction or work of a similar character, and that they believe the city's interests require that the contract be given to the second lowest bidder.

Considering the unusual conditions existing in this case, which make it necessary to take extraordinary precautions to insure public safety and to provide for the rapid performance of the work, the commission is not prepared to say that the Superintendent of Streets was not justified in awarding the contract to the second lowest bidder.

Respectfully submitted,

THE FINANCE COMMISSION,

by

JOHN A. SULLIVAN,

Chairman.

COMMUNICATION TO THE BOARD OF ALDERMEN IN RELATION TO THE APPOINTMENT OF TWO ADDITIONAL PRINCIPAL ASSESSORS.

BOSTON, October 21, 1909.

To the Honorable the Board of Aldermen:

GENTLEMEN.—On the 26th of June last the commission in a communication to the Mayor and City Council called attention to the loss the city would sustain if the two vacancies in the Board of Assessors were filled by the confirmation of the appointments then pending. Confirmation was then refused, but the names of the same appointees have been sent to your honorable Board twice since, on each occasion failing of confirmation.

The commission believes that there is now no more necessity for the appointment of two additional assessors than there was last year, when the Mayor removed two members of the board, assigning in the letters of removal as a reason therefor that there was an unnecessary number of principal assessors.

Recently it has been stated publicly, though not officially, that the validity of the acts of the assessors in 1908 and 1909 was likely to be questioned on the ground that the Board was incomplete as it consisted of seven members only, whereas the ordinance provides that there shall be nine. It has also been stated that decisions of the Board with reference to the taxation of property have been made upon a vote of four to three. The commission has examined the records of the Board of Assessors from February 26, 1908, the date when the first of the two assessors was removed, to the present date, and has found that at least five members of the Board have attended each of its meetings. The secretary to the Board stated that no action in connection with the assessment of taxes has been taken upon a vote of less than five members; that, in fact, each such vote has been unanimous, and that there are no records of dissenting votes at any of these meetings.

The Revised Laws, chapter 8, section 4, paragraph 5, provide as follows:

Words purporting to give a joint authority to three or more public officers or other persons shall be construed as giving such authority to a majority of such officers or persons.

In the opinion of the Corporation Counsel, under this statute the work of the Board of Assessors may legally be performed by five members,—five being a majority of the number provided by the ordinance. Under these circumstances the validity of the assessment of taxes in 1908 and 1909 cannot be successfully challenged; nor can the appointment of two additional assessors be justified, either upon the ground of alleged illegality in the

past acts of the present Board, due to the fact that there were two vacancies therein, or on the ground of anticipated irregularities in its future work due to the same cause.

The confirmation of the appointments would cause the city a loss of \$8,000 a year, and as the work of the department can be as well performed without two additional members, the commission respectfully renews its recommendation that the appointments be not confirmed, and that the ordinance be amended so as to reduce the number of assessors from nine to seven.

Respectfully submitted,

THE FINANCE COMMISSION,
by
JOHN A. SULLIVAN,
Chairman.

COMMUNICATION TO THE MAYOR AND CITY COUNCIL IN RELATION TO A NEW BUILDING FOR THE EAST BOSTON DISTRICT COURT AND POLICE STATION.

BOSTON, October 28, 1909.

To the Honorable the Mayor and City Council:

GENTLEMEN,—In the loan bill which was approved May 6, 1909, there is an item of \$80,000 which was intended to provide a new building for the East Boston District Court and police station. The present police station building, at the junction of Paris and Meridian streets, is old, the police quarters are too small and the prisoners' cells are in an unsanitary condition. The court is held in rooms in the old East Boston High School, now used as a primary school, at the junction of these streets and opposite the police station, and has not sufficient space for the proper transaction of its large and increasing business. The practice of taking prisoners across the street from the police station to the court and back again, in full view of the children who attend school in the same building with the court, and of children of other schools in the vicinity, has been the ground of just criticism and furnishes reason for housing the police and the court in the same building. These were sufficient reasons for seeking to provide for the erection of a new building for the court and police, and it was proper to provide for these needs by loan.

The following facts show, however, that the means intended to secure the necessary objects were not carefully considered and were certain to cause the city serious financial loss. No provision was made in the loan order for the purchase of land, the intention being to demolish the schoolhouse and on its site to erect the police and court building. The present school cannot be torn down, however, nor can the land on which it stands be used as planned, without the consent of the School Committee, which controls the building and land. Yet, prior to the passage of the loan order, the School Committee was not consulted as to its willingness to surrender the property, or as to its financial ability to provide a suitable new site and building to accommodate the 244 children who attend the school. No representative of the School Committee or of the Schoolhouse Department was heard by the Committee on Finance of the City Council on this vital feature of the case. The loan was passed and approved, either on the assumption that the School Committee would surrender the property and make an appropriation for a new school and site or in ignorance of the rights of the School Committee in the premises. The duty of providing for the school chil-

dren was as important as that of providing for the police station and court, but the minutes of the Board of Aldermen and of the Common Council show that there was no debate as to the manner of providing a new school for these children. Thus, it appears that the Mayor and the City Council joined in authorizing a loan for a building to be erected on land which was not within their control, without asking the consent of the School Committee, although it would have been clear on reflection that the object of the loan would be defeated if the consent were not obtained. As such consent has not been given the result is that the bonds authorized have not been issued, the building operations have not been begun, and the legitimate needs of the East Boston district remain unsatisfied.

In this ill-considered project the loan order fixed the amount at \$80,000 without waiting for an official estimate of cost from the Superintendent of Public Buildings. In fact, the first plan prepared by the architect who has been appointed involves an expenditure of \$93,000, and the second plan \$138,000. The first plan has been abandoned, and the second, if adopted, will involve the city in an expense of \$58,000 more than is available under the loan order. It seems necessary again to point out the danger of undertaking public works with insufficient appropriations, in view of the fact that the Mayor, as shown by his letter to the School Committee, dated October 4, 1909, is now urging it to exchange the school property for the police station property in order to begin the work with the present appropriation.

The original plan would involve the abandonment or destruction of the police station, the destruction of the schoolhouse and the erection on its site of the police and court building. This would make it necessary for the School Committee to procure the erection of a new school either on the police station lot or on a new site; and as the police station lot is not suitable for school purposes a new site would be necessary. Thus it is apparent that if the original plan is executed two buildings will be destroyed and two new buildings erected in their stead.

The natural solution of the problem, however, would be to tear down the present police station and erect in its place a new police station and court. At the request of the Finance Commission an architect of high standing has examined the police station site and has reported that a building on this site as large as that contemplated for the schoolhouse lot can be erected at the same or even less cost. By this simple plan the demolition of only one building and the construction of a single new one in its place would be required, whereas, as already stated, the plan contemplated in the loan order would require that two buildings be destroyed and two new buildings erected. One of these buildings, the schoolhouse, is in a good state of repair as the result of recent expensive improvements, and is now, taking the school funds into consideration, meeting the public needs in a manner satisfactory to the School Committee and the Schoolhouse Commission. Its destruction would be sheer loss. Moreover, if the school site is abandoned a new one will have to be obtained, and it is conservatively estimated that it will cost \$30,000. The Schoolhouse Commission would not erect a building smaller than a twelve-room one and the estimated cost of such is \$82,000, thus making the total cost \$112,000. If the School Committee should exchange lots

as proposed it would have to sell the police station lot for approximately its assessed value, which is \$9,100, and if the proceeds are credited to the enterprise its net cost to the city will still be about \$100,000 more than the cost of the simpler plan of erecting a police and court building on the present police station lot and allowing the present school building to stand.

For this additional cost of about \$100,000 the school authorities would have, it is true, a new primary school building instead of the present one, but they have not asked for it, and even if their financial resources enable them to procure it the city should not be compelled to stand the large loss resulting from the land transactions involved, and the destruction of a building which is good for many more years of service and in which at moderate cost additional school rooms can be provided in the present court quarters when they are abandoned.

If it is deemed unwise to put a stable or garage in the basement of the police and court building, the two parcels of land on Havre street adjoining the rear of the present building could be acquired for this purpose. These lots are assessed for \$6,400, and if they cannot be acquired by purchase at 25 per cent above the assessed valuation they can be taken by eminent domain after the first Monday in February, 1910, at a cost probably not exceeding \$8,000.

In the opinion of the commission the order authorizing the loan should be rescinded, and the entire project abandoned until such time as the Mayor, in consultation with the School Committee, the Schoolhouse Department, the Police Commissioner and the Public Buildings Commissioner, shall thoroughly canvass the situation and frame a plan which will meet the needs of the East Boston district without unnecessary cost to the city.

Respectfully submitted,

THE FINANCE COMMISSION,
by
JOHN A. SULLIVAN,
Chairman.

COMMUNICATION TO THE MAYOR IN RELATION TO THE ACTIVITY OF CITY EMPLOYEES IN CIRCULATING PETITIONS FOR SIGNATURES FOR CANDIDATES FOR POLITICAL OFFICE.

BOSTON, November 5, 1909.

Hon. George A. Hibbard, Mayor:

SIR,—The commission respectfully requests your Honor to call the attention of the heads of departments to section 26 of chapter 3 of the Revised Ordinances of 1898, which provides that "no salaried officer or employee of the city, not elected by popular vote, shall be an officer of any political caucus, or a member of any political committee or convention . . ." Under this ordinance it would seem to be illegal for any officer or employee of the city, except such as have been elected by popular vote, to serve as members of political committees in the interest of any candidate for office. Such political activity not only violates the ordinance but also tends to demoralize the public service, and, therefore, should be prohibited by executive order upon pain of discharge.

The commission also recommends that the heads of departments be requested to notify all their employees not to circulate petitions for signatures in the interest of any candidate for office during the hours

in which the city is entitled to their services, as the public funds should not be used for campaign purposes.

Respectfully submitted,

THE FINANCE COMMISSION,

by

JOHN A. SULLIVAN,
Chairman.

COMMUNICATION TO THE MAYOR IN
RELATION TO THE CONTRACT FOR
COAL FOR THE FERRY AND SEWER
DIVISIONS.

BOSTON, November 24, 1909.

Hon. George A. Hibbard, Mayor:

SIR,—The Finance Commission respectfully submits herewith a report on the contract for 20,000 tons of coal for the use of the Ferry and Sewer divisions which was made by the city through the Supply Department in April, 1909.

The commission having learned from sources independent of the Supply Department that the coal delivered was below the contract requirements as to quality, began an investigation which has shown that the city has suffered a substantial loss on the coal already delivered. The expert employed by the city to analyze coal has estimated this loss at about \$3,700. If the delivery of similar coal had not been checked the loss on the entire quantity would have been about \$10,000.

No loss need have been sustained if the facts as to the city's coal purchases in recent years, set forth in the reports of the former Finance Commission, had been given due consideration and the provisions of the improved form of contract and specifications had been strictly observed. The report of the former Finance Commission, dated November 14, 1908, showed that favoritism in the award of coal contracts had been growing rapidly, the number of such contracts amounting to \$2,000 or more which were let without public advertisement for bids having increased from 17 per cent in 1905 to 58 per cent in 1906, and that, owing partly to such favoritism and partly to official negligence and incompetency, the city had been cheated systematically through false bills of lading, short weights and the delivery of inferior coal. (F. C. Rep. Vol. 1, pp. 455-463.) Thus many reputable coal dealers had been discouraged from competing with men who could afford to underbid, because they knew they would not be compelled to deliver coal of the quality which their contracts called for. In 1908 and 1909, through the re-establishment of public competition, the adoption of a new form of contract and specifications and a system of chemical tests, far better results as to quantity, quality and price have been secured. In no case, under contracts made in these two years, has any evidence of short weights or false bills of lading been found; and in only one case known to the commission has coal of other than the stipulated quality been delivered. The record of the last two years shows that a great improvement in methods and results has been made. Since the present superintendent took charge of the Supply Department all coal contracts have been awarded by him after public advertisement, and the city has, on the whole, received good coal at fair prices. But that the city has not in every case been fully protected, even under the new system, is shown by the following facts:

On April 2, 1909, the Supply Department, by public advertisement, solicited bids for 32,200 tons, more or less, of semi-bituminous steaming coal for the

use of several city departments. In response to this advertisement bids were submitted by various concerns, some for a part of and others for the entire quantity needed. For the 20,000 tons required for the Ferry and Sewer divisions four concerns submitted bids on what is known as plan No. 1, which provides for Big Vein George's Creek Cumberland coal mined in Maryland, or Pocahontas coal, or New River coal, each of the best quality, with certain minimum tests for ash, and for heat efficiency as measured by British thermal units. The essential provisions of the specifications under plan No. 1 are described in an appendix hereto marked "A." The contract was awarded to the lowest bidder, and the contractor agreed to furnish Pocahontas coal of the best quality, at a price of \$3.22 for the Ferry and \$3.27 for the Sewer Division, delivered in the bins.

The duty of seeing that the contract was drawn so as to protect the city's interests, and of compelling performance according to its terms, was upon the then assistant superintendent of the Supply Department, who, on May 17, 1909, became superintendent. The Superintendent of Streets, then acting temporarily as Superintendent of Supplies, made the award, and when the contract was brought to him for execution signed it as a matter of routine, assuming that it had been properly prepared by the officials of the Supply Department. This assumption proved incorrect, and although the exacting nature of the regular duties of the Superintendent of Streets and the temporary character of his position as head of the Supply Department partially excuse him, he is not wholly blameless. It is clear, nevertheless, that the responsibility for the initial error rests chiefly upon the assistant superintendent of the Supply Department, who was charged with the duty of preparing the contract and was presumed to be specially qualified for such work. He is solely responsible for the neglect to compel the delivery of coal of the stipulated quality, as all the deliveries have been made since he became superintendent of the department.

The notice to bidders, which is made a part of the contract, contains an important provision requiring the contractors to state "the name of the coal, the name or other designation of the coal bed, or seam, and the name and location of the mine or mines from which the coal or coals are to come." The benefit of this provision was lost. In the company's proposal the statement was made that the coal was to be furnished "from Pocahontas mines, Weyanoke Coal and Coke Company, Giatto, West Virginia; the Atlas Pocahontas Company, Welch, West Virginia; Henrietta Coal Company, Welch, West Virginia." This is a list of companies, but not of mines or seams, as required by the contract. The lack of this information has deprived the city of a valuable aid in securing coal of the stipulated quality. If the mines and coal beds, or seams, had been named as required, the city officials could have ascertained the quality of coal therein produced, and if they found it to be inferior they could have withheld the award of the contract until the mines, and the beds or seams therein, known to produce first-class coal, were specifically named. But since in the proposal, which became a part of the contract, the only designation is of the companies which mine or deal in coal, the contractor was given an opportunity to deliver coal procured from the companies named, which they might obtain from any mines within the Pocahontas field. The results of this error proved costly to the city.

Five cargoes of coal have been delivered, all of which were far below the requirements of the contract. The first barely escaped the penalty provided in the contract for falling below the minimum limits. The second cargo was penalized five cents a ton, the third thirteen cents, the fourth seven cents, and the fifth two cents on that delivered at the Ferry, and twelve cents on that delivered at the Sewer Division. The deviation from the standard is not accurately measured by these penalties, as the contract called for coal of the "best quality," which, in the opinion of the city's chemist, is worth about fifty-six cents a ton more than that which the city received. All the coal thus far received has been far below that which the company itself regarded as Pocahontas coal of the best quality. The company stated it to be its intention to deliver coal of 14,600 British thermal units and 3.67 per cent of ash, but the city chemist's analyses of the coal delivered show an average of 13,910 British thermal units and 10.23 per cent of ash.

A table of the analyses is furnished in an appendix hereto marked "B."

On the last two cargoes the company procured analyses by its own chemists, which varied from those of the city's chemist, but the analyses of the company's chemists furnished conclusive evidence that the coal was not of the best quality as provided in the contract. This is shown by a comparison of the tests made by the three chemists, with the analyses furnished by the company with its proposal. These are set forth in appendix "C," hereto annexed. As the company's chemists do not agree in their analyses of the fourth cargo, and as both are at variance with those of the city's chemist, it is probable that the differences in results are due to differences in the methods of taking samples. The commission believes that the city's chemist acted in entire good faith, and employed technical methods of sampling not less reliable than those employed by the company's chemists. The contract states that the determination of the city's chemist shall be final.

While coal of the quality indicated by the most favorable of the analyses made by the company's chemist, namely, ash, 7.87 per cent, and British thermal units 14,568, is of good commercial quality, that it is not the best is shown by other analyses of Pocahontas coal. The commission has received a letter from the Paymaster General of the United States Navy, dated October 25, 1909, which states that there are hundreds of analyses of Pocahontas coal on file in that department, which show an average of 14,800 British thermal units, and of 4.50 per cent ash. Still another comparison is afforded by the result of 149 analyses of Pocahontas coal, including much not of the best quality, taken from thirty-seven mines, which show an average of 6.24 per cent of ash. Sixty-four of the 149 analyses average 5.03 per cent, and twenty-seven of the sixty-four show less than 5 per cent. Further evidence on this point could be given, but it seems unnecessary, as the president of the company admitted to the commission that the coal was below the standard required by the contract. He stated, however, that this was due to improper handling at the mines, for which he claimed his company was not responsible.

In one other important particular the contract was not observed. A large portion of the coal came from mines other than those of the three companies named in the contractor's proposal. Thus there

were received from mines not authorized by the contract 333 tons of the first cargo of 2,128 tons; 1,511 of the 1,971 tons of the second cargo; 782 of the 1,180 tons of the third cargo; and 302 of the 1,025 tons of the fourth cargo;—a total of 2,928 tons, or nearly one-half of the 6,304 tons thus delivered. On the fifth cargo of 1,996 tons, 845 came from mines not named in the contract, but as only one-half of the cargo was delivered to the city, the balance having been delivered to a private concern, it is impossible to state what part of the 845 tons from the unauthorized mines was delivered to the city.

If the Superintendent of the Supply Department had consulted the city's chemist when the bids were submitted, he would have been informed that the city could not expect to receive from the districts indicated in the proposal the kind of coal required. The neglect to designate the beds, or seams, from which the coal was to be taken would have been pointed out, the omission would have been supplied, and loss would thereby have been prevented. Such advice should be sought in every case where coal is offered under Plan No. 1. Only Pocahontas, New River and Georges Creek coals can be purchased thereunder; and as, on account of their reputation for excellence, they command a higher price than other coals, it is important to have the mines and beds, or seams, designated, in order that the city may have a means of ascertaining whether the coal therein produced is of the best quality in fact. The superintendent did not, however, avail himself of the expert service which was at hand. He stated to the commission that he believed it was important to describe the mine, but that the contract did not call for a designation of the coal bed, or seam. When the provision in the contract requiring this designation was pointed out to him, he stated that he thought it was complied with by the designation of the three coal companies. A proper inspection would have shown this not to be the fact. When he was shown that coal had been delivered from mines not authorized by the contract, he stated that he had not known it, and that if he had he would have refused to accept the coal. When asked why he did not seek to learn the origin of the coal, he stated that he knew of no means except by visiting the mines. When shown a list published by the Norfolk & Western Railroad Company, containing the locations of mines within the Pocahontas field, he said he did not know that such a list was in existence. When asked if he had attempted to procure this information from the company, he stated that he had not done so prior to September 8, 1909, on which date, upon request of the city's chemist, he wrote the company asking for such information. He did not know that he had a right to require this information to be furnished, although in the first paragraph of the specifications it is provided that "the contractor shall furnish bills of lading, invoices, freight and way bills, or any other similar information that may be required by the city." If he had availed himself of this provision, he could have obtained the exact locations of the mines from which coal was shipped.

The superintendent had full knowledge of the fact that the coal was not of the quality required by the contract. On June 19, 1909, the city's chemist wrote to him stating that the first delivery of coal, while just above the minimum limits of the specifications, fell far short of the analysis furnished by the company, and came "dangerously near incurring a penalty." Four other letters were sent

to him by the chemist, two on September 13, 1909, declaring in substance that the second and third deliveries were far below the standard required by the contract, and two on November 1, 1909, declaring that his analysis of the fourth and fifth deliveries showed the coal to be neither the kind nor the quality stipulated for. The superintendent stated that upon the third delivery he requested the city's chemist to condemn the coal, but this the chemist denies, stating that his only duty was to analyze the coal and report his findings.

Notwithstanding these frequently repeated warnings, the Corporation Counsel was not consulted as to the city's legal rights under the contract, and no steps were taken to safeguard the city's interests until November 3, 1909, after an investigation had been begun by the commission. The superintendent stated to the commission that he had decided not to accept any more coal unless the company guaranteed to furnish the quality required by the contract. The commission, on the following day, heard the statements of the president and the treasurer of the coal company, and of the Superintendent of the Supply Department, and, as a result of a conference, the coal company agreed to amend the original contract in several particulars, the most important of which is the guarantee that the remainder of the coal to be furnished under the contract shall be of the best quality, and to be taken from a selected list of mines in the Pocahontas Flat Top field, with ash not exceeding 7 per cent, and British thermal units not less than 14,200 a pound. The amendment has been drawn and has been adopted by the city and by the company. This is the best remedy for the present situation, as the city probably could not recover damages on account of the quality of the coal already accepted after inspection by its agent; and even if the contract could be canceled now, it would not be advantageous to do it, as the price of coal has advanced about fifty cents a ton over the price fixed by the contract, and the 12,700 tons yet to be delivered would cost the city in the open market about \$6,000 more than it would be obliged to pay under the present arrangement.

The changes in the contract and specifications recommended below have been suggested by the chemist, as a result of his experience in testing coals for the city under the existing specifications.

The commission recommends:

1. That the contract and specifications for coal purchased under Plan No. 1 be modified, so as to raise the standard now provided and to make it possible for the city to reject coal which, under the present form of contract, it may be obliged to accept. The minimum limits, both as to calorific value and ash, should be changed, the former increased and the latter lowered; and the penalties now provided for deviation from standard should be increased.

2. That in purchases of coal under Plan No. 1 the city insist upon compliance with the provisions of the contract as to the name of the mine and the bed or seam, and as to the right on each delivery to demand full information showing the mine and the bed or seam, and the shipping point. Provision should also be made to exclude coals from districts generally recognized as producing an inferior quality.

3. That under Plan No. 1 no Pocahontas coal should be accepted that is not produced in the mines of the Pocahontas Flat Top coal field, as described in the list furnished by the Norfolk & Western Railroad Company, and such coal should be

limited to that produced from the No. 3 Nelson or Pocahontas seam within the said field.

4. That before a contract is awarded under Plan No. 1 the city's chemist should be consulted as to the quality of coal produced in the mines named in the proposals of bidders, and after inspection of the coal delivered his recommendations and criticism, if any, should be carefully considered. Such recommendations and criticism should in every case be attached to the city's copy of the contract, and be preserved as part of the record of the transaction.

5. That accompanying all shipments of coal under Plan No. 1 the contractor shall furnish to the city copies of the railroad weight slips, showing the number of the mine from which the coal is taken, the number of the car, the waybill weight and the name of the shipping point.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN, Chairman.

APPENDIX A.

Plan No. 1 requires the delivery of the best quality of three kinds of semi-bituminous steaming coal—Big Vein Georges Creek Cumberland coal, mined in Maryland, New River coal, or Pocahontas coal.

The contractor shall furnish with his bid an analysis indicating as closely as possible the kind of coal he proposes to deliver.

The minimum limits of the coal are:

(a.) Ash, 9 per cent on a dry basis.

(b.) Calorific value of 13,800 British thermal units a pound, as delivered.

Coal having more than 9 per cent of ash on a dry basis, and less than 13,800 B. T. U. a pound, may be either rejected by the city or accepted at a reduced price corresponding with its inferior quality, as shown by the following schedule:

(a.) Two (2) cents a ton for every fifty (50) B. T. U. a pound of coal as delivered that the calorific value of the coal falls below 13,800 B. T. U. a pound.

(b.) Two and one-half (2½) cents a ton for every half of one (0.5) per cent of ash, on a basis of dry coal in excess of nine (9) per cent of ash.

Coal exceeding these limits commands no premium, but is paid for at the contract price.

The continued delivery of inferior coal approaching the limits set in these specifications shall be considered sufficient ground for the cancellation of the contract by the city.

APPENDIX B.

COMMUNICATION TO THE MAYOR AND BOARD OF ALDERMEN IN RELATION TO THE PENAL INSTITUTIONS DEPARTMENT.

BOSTON, December 29, 1909.

To the Honorable the Mayor and Board of Aldermen:

GENTLEMEN,—The commission respectfully submits herewith a report upon the Penal Institutions Department.

On November 23, 1909, a former officer of the House of Correction at Deer Island appeared with his counsel before the Finance Commission, gave testimony concerning conditions at Deer Island which agreed substantially with statements then being published daily in the Press, and requested the commission to investigate the conduct of the Penal Institutions Department. The commission caused an investigation to be made by its counsel, who, on December 18, submitted the results of the preliminary investigation, and the commission held public hearings on this subject beginning December 21 and ending on December 27. The facts disclosed in these public hearings show that the interests of the city and of the prisoners have suffered through the inefficiency of the officers, the lack of discipline, and the use of the institution as a part of the spoils system.

The head of this institution should have been a good disciplinarian, with experience in prison management. Nevertheless, the Mayor, on March 2, 1908, appointed as Penal Institutions Commissioner a lawyer, who had had no experience either in prison management or in any executive office, but who had rendered him political service in the mayoralty election of 1907. The appointee's lack of qualifications for the office is shown by the following extract from his own testimony:

Q. Did you have any training in penal work?

A. Never.

Q. None of any kind?

A. No.

Q. Had you ever visited any penal institutions for purposes of study before your appointment?

A. No, sir.

Q. None. What was your training fitting you for the position of penal commissioner? State, if you please, fully.

A. No special training.

Q. How did you happen to be appointed penal commissioner, so far as you know?

A. You mean by whom was I appointed?

Q. No. What led to your appointment, so far as you know?

A. Perhaps my acquaintance with the Mayor.

Q. Well, your acquaintanceship with him in what way?

A. I had been engaged with him in the campaign preceding his election.

He also stated that he believed he was being considered for the office of City Collector, that he did not know that he was being considered for the office of Penal Institutions Commissioner, and that he never had discussed with the Mayor the subject of his qualifications for the latter office.

The department, not being under the civil service law, afforded the politicians an opportunity to procure positions for favorites, and the opportunity was not neglected.

The appointment of the commissioner, made for political reasons, and without regard to the qualifications requisite for such an important position, was followed by a large number of appointments, also made for political reasons, without regard to fitness, and in violation of the spirit of the law and of the rules of the institution. Of the forty-six officers in the department, thirty-six have been appointed in the last two years, four being additions to the force and the remainder having filled vacancies. The thirty-six officers thus appointed to care for the large number of inmates of the institution had duties of great importance to perform. It was essential that these appointments should have been made by the master, who is responsible for the conduct of the officers, and that fitness should have been the only consideration governing the selections. In all cases the law, as well as the interests of the city, was however disregarded, and, in most cases, politics determined the choice.

Under the Revised Laws, chapter 224, section 16, the Master of the House of Correction is charged with the duty of appointing all subordinate assistants, employees and officers, and it is provided that he shall be responsible for them. The rules for the government of the House of Correction, adopted by the Penal Institutions Commissioner in May, 1907, provide that: "He (the master) shall appoint all subordinate assistants, employees and officers, for whom he shall be responsible, and at once report the same to the commissioner." Instead of observing the statute and the rule, both the commissioner and the Master of the House of Correction testified that they had followed an established custom, under which the appointments, though technically made by the master, were made in reality by the commissioner, the master simply acquiescing in the selections.

Even if the persons thus appointed had

been fitted for their duties the discipline of the institution would have been impaired, as the master would not have been actually responsible for the conduct of employees not chosen by him. Fitness, however, was seldom considered, and in most cases no inquiry whatever was made respecting the qualifications of appointees. Many appointments were made at the solicitation of the Mayor, two of his secretaries, his stenographer, members of the Board of Aldermen and other persons interested in politics. The commissioner testified that a large part of his time was devoted to the consideration of such applications. He stated that the Mayor and his assistants had requested the appointments of seven officers for the House of Correction, that six were appointed and that one was rejected as below the physical requirements.

Ten of the thirteen members of the present Board of Aldermen sought appointments for persons in whom they were interested, but, having less influence, only three of their candidates were appointed. The commissioner stated that no inquiry was made as to the qualifications of the six officers appointed on the recommendation of the Mayor's office. One had formerly been a lieutenant in the Boston Police Department and had resigned. The reason for the resignation should have been inquired into. Three of the six have since been discharged, one for failing to return on time after the expiration of his leave of absence; one for having been found with a large quantity of cigarette tobacco and several morphine syringes concealed in his room at the island; and one for trafficking with a prisoner in violation of the rules of the institution. Two others have been found drunk and have been warned, though not suspended. Thus five of the six appointed on the recommendation of the mayor's office have proved to be unfit for their positions.

Of the three appointed on the recommendations of aldermen, two were discharged for failing to return on time from their leave, and the third, according to the testimony of a fellow officer, was drunk on the night watch, but has not been removed. Thus it appears that eight of the nine officers appointed on the recommendation of the Mayor's office and members of the Board of Aldermen have been found unworthy of their trusts.

Five other officers, not included in the foregoing description, have been appointed in the last two years on the recommendations of persons whose names the commissioner could not recollect, and have been found unfit for their duties. One, failing to return after leave, has been discharged. Another, found to have been trafficking with a prisoner, has been retained, as the master states, pending the investigation by this commission. He had been employed as an officer at the State Farm at Bridgewater, also at the State Prison, and had resigned from both positions; from the latter on request of the authorities. The master stated that, after the appointment had been made, he tried but failed to find from the state authorities the reasons for these resignations, and the appointee was left in office. The other three have been discharged, the first two for failing to return after leave, the third for bringing a package to a prisoner in violation of the rules. These three had previously been employed by the city at the infirmary on Long Island; two had been discharged for drunkenness, and the third had resigned. These facts were found by this commission without difficulty, and if a serious effort had been made by the officials of the Penal Institutions Department, they likewise could have found the facts.

Two appointments, made in the last two years to positions on the steamer "Monitor," which conveys prisoners to and from Deer Island, have also been made without regard to efficiency. One is too old to render the required service, the other, formerly a barber, did not have the necessary experience for sea duty. The captain and the mate both state that they would not have appointed either if they had had the selection. One of them was recommended by a secretary of the mayor, and the appointment of the other was directed by the Mayor himself. The manner in which the latter appointment was made was related by the assistant commissioner. He states that the Mayor's secretary came to the Penal Institutions Commissioner's office, the commissioner being absent, and said that the Mayor wanted the commissioner to appoint Mr. McKenney as a deckhand on the "Monitor." The assistant commissioner states that thereupon he wrote the commissioner the following letter:

DEAR MR. S.—The Mayor's assistant secretary, Mr. Boudrot, called this p. m. and told me to tell you that the Mayor wished you to send him to-morrow early the name of

James T. McKenney, 384 Neponset avenue, Ward 24, to be the extra man on the "Monitor," to begin on June 1 next. He said this was important.

Very truly,
H. S. CARRUTH.

The appointment was made within a few days. Another of the Mayor's secretaries assumed responsibility for the appointment, stating to the commissioner that he was actuated by motives of charity. No one seems to have seriously considered the question of fitness. It should be noted that though he was employed "temporarily," in order to take the places of the men during the vacation period, he is still in the service, though the vacation period has ended.

The wharfinger was appointed early in 1908 as a reward for political services, the commissioner stating that "he had done some work for the Mayor" in the campaign of 1907, and that he appointed him at the Mayor's suggestion, without inquiry as to his qualifications.

The conditions at the island, as stated by the various witnesses who appeared before the commission, are as follows: There has been a serious lack of discipline resulting in demoralization both of the officers and of the prisoners. The latter have been able to obtain morphine and cocaine freely, and the use of it has not been curtailed as much as it would have been if the officers had been efficient and the discipline adequate. The commissioner stated that no physical examination for purpose of discovering marks indicating the use of drugs is made, nor is any attempt made to segregate the victims of this habit from those who are not similarly afflicted. There has been no attempt to prosecute persons suspected of carrying drugs to prisoners. Two officers, found with syringes, used to inject morphine, have been discharged, but notwithstanding this fact the prisoners have obtained drugs and the implements necessary to inject them. Those known to be addicted to the use of drugs have been allowed to form in groups in the yard during recreation hours, and the opportunity thus afforded to pass drugs to one another and to use them has been freely utilized. One officer received a pawn ticket for a watch from a prisoner who was a chronic morphine user, though he claimed he did not give the prisoner any money for the ticket.

The officer sold the ticket to another officer, and the latter redeemed the watch, subsequently pawning it twice, each time under a false name.

Officers have been seen drunk by prisoners on the island and by others in the city during their leaves of absence. It seems almost inconceivable that officers should be retained who are guilty of the same offence as three-quarters of those who are receiving punishment under their charge. Under such circumstances prisoners must feel contempt for both the law and the institution. The practice of the master is to give officers who have been found drunk a second chance, though he should report such cases to the Penal Institutions Commissioner, and though the latter should remove forthwith an officer thus discovered. Revised Laws, chapter 225, section 13 provides as follows:

"The sheriffs of the several counties and the Penal Institutions Commissioner of the City of Boston shall forthwith remove any officer who has been appointed by them, respectively, to any position of trust or authority in a jail, or house of correction, and who is known to use intoxicating liquor as a beverage."

The master has admitted that in the cases of six officers known by him to have been drunk, he has retained them all, having warned five, and having suspended only one, the latter punishment being for the third offence. On the master's own admission, more than one-eighth of the forty-six officers at the island remain there in violation of the spirit of the law. Other witnesses, some of them officers of the institution, have stated to the commission that officers besides those named by the master have been seen drunk both at the island and in the city.

The law (Acts of 1900, chapter 473, section 2), requiring the segregation of prisoners sentenced for one year and more from those sentenced for less than one year, and of those sentenced for drunkenness from all others, and of those held for nonpayment of fines, has not been complied with. There is no segregation in fact. When the House of Correction at South Boston was merged with the House of Industry at Deer Island in 1900, the prisoners who had committed serious crimes were thrown into the same institution with those whose offences had been petty and had consisted mostly of intoxication. It is axiomatic that offenders of different grades should be separated, and the Legislature, foreseeing the danger of non-segregation, passed the statute above cited. The attention of the commissioner was called to the failure to obey the law by a letter from the assistant commissioner, dated July 8, 1908, indicating that it was possible at least to put the long-term men in the new and the short-term men in the old prison. The segregation thus recommended has not been effected. Segregation to some extent will be accomplished when the dining room, now approaching completion, is finished. Daily, in the yard, and in the loafers' hall, so called, three times a day, the old and the young, the long-term men and the short-term men, the hardened and the comparatively innocent, may tell or listen to stories of crime. Enlightened modern ideas of assisting prisoners to become better men and women have been disregarded. Though many of the prisoners cannot read, and some cannot even speak the English language, there is no school upon the island, nor is their superabundant leisure filled in any helpful way. Though the institution was meant to be reformatory, it more nearly resembles a school for crime.

The commissioner stated that he

believed the system to be wrong, but that no money has been available for the purpose of effecting the segregation required. No money, however, has been asked, and the money that might have been used for this purpose was devoted to other and less worthy purposes. Thus of the \$50,000 received from the United States Government, which had been retained pending the completion of a satisfactory boundary wall, \$17,000, together with \$3,000 otherwise available, or a total of \$20,000, has already been spent for a concrete, steam-heated piggery, useful doubtless, but hardly of equal importance with the segregation of human beings, about 12,000 of whom are now annually dipped into the atmosphere of this institution.

The real and permanent solution of the problems of segregation and of the expense of maintenance lies in relieving the present congestion at the institution. Such a solution can be worked out under a proper system of co-operation between the judges of the courts and the Penal Institutions Commissioner and the appointment of additional probation officers. Far too many persons are sent to the island for petty offences. Last year 4,807 commitments were made to the island for the nonpayment of fines. Of these 3,470 were for the nonpayment of fines amounting to \$5 or less; 754 for fines of more than \$5 but less than \$10; 454 for fines of more than \$10 but less than \$20; and only 129 for fines of more than \$20. Of the total number committed 4,227 were for first offences. In this single year 8,315 commitments were for drunkenness alone. No effective effort has been made by the Penal Institutions authorities to work out a solution of this serious problem.

There are other serious defects in the management of the institution, some of which cannot be stated in a public document. Three matters not previously referred to should, however, be mentioned. The first is the use of prison labor in the building of a boat for the master, with the knowledge and consent of the commissioner. It has been sought to be justified by the fact that prisoners have escaped, and that heretofore there has been no adequate means of capturing them. The master admits that the title of the boat is in him, and that if he should leave the city's employ he would take the boat with him, unless the city reimbursed him for the amount spent by him for the materials of construction. He did not state, however, that in the event of his taking the boat with him he would pay the city the value of the prison labor used in its construction. The second matter is the excessive cost of food furnished for the master's house. In January, February and March of this year the price paid for whole lambs was eighteen cents per pound, while whole lambs of sufficiently good quality were bought in the same period by the City Hospital for from twelve to thirteen and one-half cents a pound. The third matter relates to the habits of the secretary of the department. Though denied by the secretary and one clerk employed in the office, it seems to the commission that the testimony of the commissioner, the assistant commissioner, a clerk in the office and the Mayor's secretary establishes the fact that the secretary of the department is frequently under the influence of liquor. This condition has long been known, but has been tolerated.

The conditions herein described, according to the testimony of the assistant commissioner, have been frequently brought to the attention of the Penal Institutions

Commissioner and the Mayor. He stated that he has repeatedly acquainted the Mayor fully with the facts as to non-segregation, mismanagement, and lack of discipline.

The responsibility for the evil conditions of the last two years was made clear by the testimony. It was difficult, if not impossible, for the master to maintain discipline over officers who secured their appointments through political influences, which they had reason to feel were strong enough to maintain them in the face of their misconduct. The commissioner was not capable of performing his duties, because he lacked the training and qualifications necessary for his position. The responsibility rests primarily with the Mayor, because of his appointment as head of the department, for political reasons, of one who, he must have known, could not properly perform the duties of the office.

The commission recommends:—

1. That the department be placed in charge of a proven disciplinarian with knowledge of the humanitarian side of prison work.

2. That the offices of assistant commissioner and secretary be merged.

3. That the department be placed under civil service laws; and that the master appoint, and be responsible for, his subordinates as the law directs.

4. That any official once guilty of drunkenness shall be discharged forthwith.

5. That any official who smuggles drugs to the island, or traffics with prisoners, shall be discharged forthwith and be prosecuted in the courts.

6. That by the appointment, if necessary, of more probation officers, and in co-operation with the judges, petty offenders be given a better opportunity to pay their fines before being imprisoned.

7. That with the population thus reduced, proper segregation be effected, as the law requires.

8. That prisoners addicted to the use of drugs be kept apart from nonusers.

9. That every opportunity be availed of to give the prisoners serious and hard work.

10. That suitable instruction be provided at the island, and that other

measures be adopted to reduce the idleness of the prisoners and to substitute beneficial occupations.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN A. SULLIVAN, *Chairman*.

NEW CIVIL SERVICE RULES.

Pursuant to the authority conferred by section 6 of chapter 19 of the Revised Laws, the Civil Service Commissioners have prepared the following amendments and alterations of the Civil Service Rules:

AMENDMENTS TO CIVIL SERVICE RULES.

First.—The following is adopted as section 3 of Civil Service Rule 31:

3. In case a provisional appointee shall have served continuously for eighteen months from date of appointment authorized by the commission, and for at least six months after notice received by the commission of the last increase of pay or change of his duties, and in case no suitable eligible list, in the opinion of the commission, shall have been established after open competitive examination within such period of time, the commission shall authorize the appointing officer to make such appointment permanent if he shall file with it a certificate in such form as it shall prescribe to the effect that the provisional appointee is duly qualified for the position, that his services have been entirely satisfactory, and that the best interests of the city or of the Commonwealth will be served by such permanent appointment. No transfer will be allowed of a person so appointed except upon consent of the commission and under the provisions of the civil service rules relating to transfers.

Second.—Sections 3, 4 and 5 of said Rule 31 are hereby renumbered and shall hereafter be Sections 4, 5 and 6, respectively.

Prepared and respectfully submitted to the Governor and Council for approval.

(Signed) CHARLES WARREN,
FRANK FOXCROFT,
ELMER L. CURTISS,
Civil Service Commission.

January 7, 1910.

Approved in council, January 13, 1910

(Signed) E. F. HAMLIN,
Executive Secretary.

A true copy. Attest:

WARREN P. DUDLEY,
Secretary, Civil Service Commission.

January 17, 1910.

In accordance with the provisions of section 8 of chapter 19 of the Revised Laws, notice is hereby given that the foregoing amendments to the Civil Service Rules will take effect on the first day of April, 1910.

By order of the Civil Service Commission,
WARREN P. DUDLEY, *Secretary.*

ADDITIONS AND ALLOWANCES TO CONTRACTS.

Under the law the Mayor has during the week approved the following additions and allowances to contracts. Copies of these additions and allowances to contracts are on file in the office of the City Clerk.

BATH DEPARTMENT.

Mack & Moore, authorized to omit piling and wall drain on East Boston Gymnasium.

Contract price, \$64,650; total deductions, \$1,115; amount of contract, \$63,535.

Mack & Moore, authorized to make change in contract of East Boston Gymnasium. Substitute "Spanish Red Tile" for "Interlocking Spanish Red Tile."

Contract price, \$64,650; total deductions, \$1,198; amount of contract, \$63,452.

PROCEEDINGS OF BOARD OF ALDERMEN.

Monday, January 31, 1910.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at three o'clock p. m., Chairman BRAND presiding. Absent—Ald. ATTRIDGE and WHELTON.

The Board voted, on motion of Ald. TIMILTY, to dispense with the reading of the records of the last meeting.

COASTING ORDER — VETO.

The following was received:

City of Boston,
Office of the Mayor, January 25, 1910.
To the Gentlemen of the Board of Aldermen:
I return herewith, without my approval, vote of your Board permitting coasting on Anawan avenue, between Park street and Beech street, West Roxbury, for the reason that the police officials are of opinion that considerable danger would be entailed if this permission were granted.

Respectfully,
G. A. HIBBARD, Mayor.

The vote whereby the order was passed was reconsidered and the question came on its passage, the objections of his Honor the Mayor to the contrary notwithstanding.

The Board refused to pass the order over the Mayor's veto, yeas 0, nays 9.

APPEARANCE OF CHILDREN — VETO.

The following was received:

City of Boston,
Office of the Mayor, January 26, 1910.
To the Gentlemen of the Board of Aldermen:
I return herewith, without my approval, votes of your Board granting permission to Mrs. W. H. Marden and William A. Riggs to allow children to appear at Hibernian Hall and Mechanics Hall respectively.

The Supreme Court has recently handed down a decision to the effect that the law relating to the employment of children under fourteen years of age applies to children appearing in theatrical performances as well as to those employed in mercantile establishments. As the Massachusetts district police are charged with the enforcement of this law, it has been considered necessary to obtain the opinion of the chief of this department upon all applications of this nature, and in both these instances he has signified his disapproval of the permission being given.

Respectfully,
G. A. HIBBARD, Mayor.

Referred to the Committee on Public Improvements, on motion of Ald. ANDERSON.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Building Department (Ald.).

Petitions for leave to project signs, etc., were received, as follows:

Signs.

R. Farland, 100 Utica street, Ward 7.
Frank Trosten, 92 Poplar street, Ward 8.
Yamanaka & Co., Clarendon street, at Copley Hall (temporarily).
The William Lawrence Real Estate Trust (an iron box), 65 Devonshire street, Ward 6.
James F. Murphy, 411-415 Broadway, Ward 13.

Illuminated Signs.

A. Dublin, 834 Washington street, Ward 7.
Cohen & Grover, 70 Court street, Ward 6.
Cohen & Grover (an arc light), 70 Court street, Ward 6.
Six Little Tailors, 177 Washington street, Ward 7.
Duren & Kendall, 30 Summer street, Ward 7.
William H. Lynch & Co., 363 Atlantic avenue, Ward 7.
Standard Motor Car Company of Massachusetts, 244 Pleasant street, Ward 10.
American Simplex Company, 261 Dartmouth street, Ward 11.
J. H. Goldstein, 566A Columbia road, Ward 16.
J. Woodward & Sons, 1075 Columbus avenue, Ward 19.
Ephraim C. Benson, 3096 Washington street, Ward 22.
S. A. Beckhard, 123 Summer street, Ward 7.

Faneuil Hall, Etc.

Petitions for the use of Faneuil Hall, viz.:
"The No Meat Club," January 29, evening.
John F. Fitzgerald, February 7, morning.
Minute Men of '61, April 15, afternoon.

Public Improvements.

Chin Company, for leave to set off small fire crackers in front of 82 Harrison avenue on January 29.

Metropolitan Contracting Company, for leave to stretch guy wires and ropes across Summer street, Ward 13.

F. C. Alexander, for leave to stretch guy ropes across Melcher street, Ward 13.

HEARINGS AT THREE O'CLOCK.

1. On petition of John W. Douse for a license for the keeping and sale of gasoline at rear 120 Train street, Ward 24.

No objections. Referred to the Committee on Licenses.

On petitions for leave to project marquees, viz.:
2. The First National Bank of Boston, at 70 Federal street, Ward 7.

No objections. Referred to the Committee on Building Department (Ald.).

3. George R. White, at 523-525 Washington street, Ward 7.

No objections.

4. Henry W. Lamb, at 22 Huntington avenue, Ward 10.

No objections. Referred to the Committee on Building Department (Ald.) with instructions to report back to-day, on motion of Ald. GIBLIN.

5. On petition of the Boston Wharf Company for a location for track across Congress street, Ward 13.

No objections. Recommended to the Committee on Railroads.

No objections. Recommended to the Committee on Railroads.

PAPERS FROM THE COMMON COUNCIL.

7. Notice of the indefinite postponement by the Common Council on January 27, 1910, of the order passed by the Board of Aldermen December 13, 1909, authorizing a transfer of \$2,500 from the appropriation for Reserve Fund to the appropriation for Institutions Registration Department.

Placed on file.

8. Notice of the election on the part of the Common Council of Frederick J. Brand from the Board of Aldermen and George C. McCabe from the Common Council, to be managers of the Old South Association in Boston.

Ald. COTTON—Mr. Chairman, I move that the persons named in No. 8 be elected managers in concurrence with the Common Council.

Ald. ANDERSON asked for a roll call, and Frederick J. Brand and George C. McCabe were elected managers of the Old South Association in Boston, in concurrence with the Common Council, yeas 10, nays none.

9. Message of the Mayor recommending the passage of the following:

Ordered, That the City Auditor be authorized to transfer the sum of ten thousand dollars additional from the appropriation for Reserve Fund to the appropriation for Gymnasium, Ward Building, Ward 8.

The message was placed on file and the order was passed in concurrence, yeas 10, nays none.

10. Message of the Mayor recommending the passage of the following:

Ordered, That the City Auditor be and he hereby is authorized to transfer the sum of thirty-five thousand dollars (\$35,000) appropriated for L Street Bath, addition for women, to an appropriation for L Street Bath, improvements.

The message was placed on file and the order was referred to the Committee on Public Improvements, on motion of Ald. COTTON.

11. Message of the Mayor, recommending the passage of the following: Ordered, That the City Auditor be and hereby is authorized to transfer the sum of five hundred dollars from the appropriation for Reserve Fund to the special appropriation for Ashmont Bridge Extension.

The message was placed on file and the order was passed in concurrence, yeas 10, nays 0.

12. Message of the Mayor recommending the passage of the following: Ordered, That the City Auditor be and he hereby is authorized to transfer the sum of two thousand dollars (\$2,000) from the appropriation for the Huntington Avenue Bridge to the appropriation for Neponset Bridge, rebuilding.

The message was placed on file and the question came on the passage of the order.

Ald. BALLANTYNE—Mr. Chairman, I move reference to the Committee on Public Improvements.

The motion to refer was withdrawn, and the order was passed in concurrence, yeas 10, nays 0.

13. Ordered, That the sum of \$24,999 be and the same hereby is appropriated for the laying out of a children's playground in Ward 12, and to meet said appropriation the City Treasurer be authorized to issue, on request of the Mayor, bonds of the City of Boston to said amount for said purpose.

Ald. COTTON—Mr. Chairman, I move this order be referred to the Committee on Public Improvements.

The motion to refer to the next city government was lost, yeas 2, nays 7.

Yeas—Ald. Carr, Cotton—2.
Nays—Ald. Ballantyne, Brand, Curley, Giblin, Hale, O'Hare, Timilty—7.

The question came on the passage of the order in concurrence.

Ald. BALLANTYNE moved reference of the order to the Committee on Public Improvements: declared carried. Ald. CURLEY doubted the vote and asked for the yeas and nays. The order was referred to the Committee on Public Improvements, yeas 5, nays 4:

Yeas—Ald. Ballantyne, Brand, Carr, Hale Timilty—5.

Nays—Ald. Cotton, Curley, Giblin, O'Hare—4. (See later in session.)

14. Ordered, That the sum of forty-nine thousand nine hundred ninety-eight dollars (\$49,998) be and the same hereby is appropriated for the erection of a new bath house at Dewey Beach, Charlestown, and to meet said appropriation the City Treasurer be authorized to issue, on request of the Mayor, bonds of the City of Boston to said amount for said purpose.

The question came on the passage of the order in concurrence.

Ald. COTTON'S motion to refer to the next city government was declared lost. Ald. COTTON doubted the vote, and asked for the yeas and nays. The order was referred to the next city government, yeas 6, nays 3:

Yeas—Ald. Anderson, Brand, Carr, Cotton, Hale, Timilty—6.

Nays—Ald. Curley, Giblin, O'Hare—3.

15. Ordered, That the Board of Street Commissioners, with the approval of the Mayor, be authorized to lease to the trustees of Boston College in Boston, for a term of ten years, and for a nominal consideration, and subject to such further terms and conditions as said Board may deem advisable, a strip of land owned by the City of Boston, extending from Norfolk avenue to Massachusetts avenue in said Boston, the same to be used, with the land on each side of said strip of land, for an athletic field.

Ald. Cotton's motion to refer to the Committee on Public Improvements was carried.

16. Ordered, That the Superintendent of Public Grounds be authorized to hire for playground purposes the Woodman-Jones estate on River street, Mattapan, the expense, not to exceed one hundred and ninety-nine dollars (\$199), to be charged to the appropriation for Public Grounds Department.

17. Ordered, That the City Messenger be authorized to furnish each member of the City Council of 1909, and each of the heads of the several city departments, with one set each of the city documents for 1909, when completed and bound.

18. Ordered, That the City Messenger be authorized to cause a sufficient number of the City Council Minutes of 1909 to be bound in the usual manner, and to furnish each member of the City Council of 1909, each new member of the City Council of 1910, and each of the heads of the several city departments with one copy of the same, the expense thus incurred to be charged to the appropriation for City Council proceedings.

Severally passed in concurrence.

19. Ordered, That the Superintendent of Public Buildings be authorized to sell for a nominal sum to each member of the Common Council of the year 1909 his desk and chair as a memento of the last Common Council, and the amount received to be paid into the city treasury.

The question came on the passage of the order in concurrence, and Ald. CARR asked for the yeas and nays.

The order was referred to the Committee on Public Improvements, yeas 8, nays 2, Ald. Carr and Cotton voting nay.

CONFIRMATION OF APPOINTMENTS.

The CHAIRMAN—Unless there is objection, the Chair will call up Nos. 20, 21 and 22 together.

Ald. TIMILTY—I object. I move that Nos. 20 and 21 be taken up together.

The motion was carried and Nos. 20 and 21 were taken up as follows:

Action on appointment submitted by the Mayor January 24, 1910, viz.:

20. William P. Twomey, to be a Constable of the City of Boston for the term ending April 30, 1910.

21. Patrick Shea, to be a Weigher of Coal and a Gauger of Liquid Measures for the term ending April 30, 1910.

The question came on confirmation. Committee, Ald. Timilty and Cotton. Whole number of ballots cast 10, yeas 10, and the appointments were confirmed.

REJECTION OF APPOINTMENT.

The CHAIRMAN called up No. 22, unfinished business, viz.:

22. Joseph F. Sullivan, to be a Weigher of Vessels and Ballast for the term ending April 30, 1910.

The question came on confirmation. Committee—Ald. Hale and Giblin. Whole number of ballots cast 10: yeas 5, nays 5, and the appointment was rejected.

Before the vote was announced on the appointment Ald. GIBLIN said:

Mr. Chairman, a week ago I opposed the appointment of a Weigher of Vessels and Ballast for the simple reason that I felt it was illegal. I

find a nefarious game of politics is being played in my district by a certain cunning individual. An attempt is being made to put me in wrong with good friends of mine and, therefore, while I feel the appointment is illegal, I have cast my ballot to-day in favor of confirmation, hoping that the Law Department will settle the rest.

PAYMENT TO MRS. AKERLY.

Ald. COTTON called up No. 23, past assignment, viz.:

23. Ordered, That there be allowed and paid to Mary Akerly, widow of James B. Akerly, a member of the Fire Department, who was killed December 11, 1909, while in performance of his duty, the sum of \$3,000, and that said sum be transferred from the Fire Department to a special appropriation for that purpose.

Ald. ANDERSON—Mr. Chairman, I move that No. 23 be indefinitely postponed, for the reason we have already taken action on this matter.

The motion was carried, and the order indefinitely postponed.

RAILROADS.

Ald. ANDERSON, for the Committee on Railroads, submitted the following:

(1) Report on petition of the Boston & Maine Railroad (recommitted to-day), that the Board of Aldermen, acting as County Commissioners, prescribe the limits within which certain land in Charlestown may be taken for additional tracks—recommending the passage of the following:

Whereas, The Boston & Maine Railroad, a corporation duly established under the laws of the Commonwealth, has represented to this Board, acting as County Commissioners, that it requires additional land for one or more new tracks adjacent to other land owned by it.

Whereas, This Board, acting as County Commissioners, did on Monday, January 31, after due notice to the owners of the said land, give a hearing in accordance with section 78 of part II. of chapter 463 of the Acts of the year 1906; now, therefore, be it

Ordered, That the limits within which the Boston & Maine Railroad may take land in Charlestown for one or more new tracks adjacent to other land occupied by said railroad be prescribed as follows:

Beginning on the location of the said railroad at other land of said railroad, thence running north 29° 34' 14" east by said land of the railroad twenty-seven (27) feet to land of Garrett J. O'Riordan *et al.*; thence turning and running south 60° 25' 46" east by said last named land two hundred (200) feet to other land of the railroad; thence turning and running south 29° 34' 14" west by said land of the railroad twenty-seven (27) feet to said location; thence turning and running north 60° 25' 46" west by said location two hundred (200) feet to the point of beginning; said parcel containing fifty-four hundred (5400) square feet. Reserving to said Garrett J. O'Riordan *et al.* the right to pass and repass over and across the above described land by means of an extension of the existing private crossing. All as shown on plan filed in the office of the City Clerk and dated January, 1910.

Report accepted; preambles and order passed.

(2) Report on petition of the American Sugar Refining Company (recommitted December 13, 1909) for leave to relocate track on Granite and First streets—recommending the passage of the following:

Ordered, That permission be granted to the American Sugar Refining Company to relocate a single curve track on Granite and First streets at the easterly corner of said streets as shown on a plan made by dated November 5, 1909, and deposited in the office of the Superintendent of Streets.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles, shall be under the direction and to the satisfaction of the Superintendent of Streets, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the City Clerk in accordance with the provisions of statute law; otherwise it shall be null and void.

The whole work authorized to be done under the provisions of this order shall be completed within one year from the date of the passage of this order.

The question came on accepting the report and passing the order.

Ald. GIBLIN moved reference to the next city government.

The motion to refer to the next city government was lost.

The report was accepted and the order passed. Ald. GIBLIN doubted the vote and asked for the yeas and nays.

Report accepted, order passed, yeas 9, nays 1, Ald. Giblin voting nay.

(3) Report on petition of the West End Street Railway Company (recommitted Janu-

ary 17) for locations for tracks on Warren and Dudley streets—recommending the passage of the following:

Ordered, That in addition to the rights heretofore granted to the West End Street Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an alteration of its existing locations as follows: On Warren street, Roxbury District, from a point near Harrison avenue to the northerly side of Dudley street, relocation of the westerly of the existing tracks.

A relocation of the double curved tracks at the westerly corner of Dudley and Warren streets; an alteration of the northerly of the existing curved tracks at the northerly corner of Dudley and Warren streets; an alteration of the existing double tracks on Dudley street crossing Warren street; together with all the necessary curves, crossovers, switches and connections; said tracks and alterations being shown by lines on a plan made by A. L. Plimpton, dated December 15, 1909, and deposited in the office of the Superintendent of Streets.

And the consent of the Board of Aldermen is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Superintendent of Streets, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles, shall be under the direction and to the satisfaction of the Superintendent of Streets, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the City Clerk in accordance with the provisions of statute law; otherwise it shall be null and void.

The whole work authorized to be done under the provisions of this order shall be completed within one year from the date of the passage of this order.

Report accepted; order passed.

(4) Report on petition of the West End Street Railway Company (recommitted January 17) for location of tracks on Washington street, near Marvin street and the Dudley Street Station—recommending the passage of the following:

Ordered, That in addition to the rights heretofore granted to the West End Street Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an alteration of location as follows:

Double tracks on Washington street, from a point near Marvin street, northeasterly thereof, together with alteration of one of the curved tracks entering Dudley Street Station from the northeast; together with all necessary curves, crossovers, switches and connections, as shown by red lines on a plan made by A. L. Plimpton, dated December 14, 1909, and deposited in the office of the Superintendent of Streets.

And the consent of the Board of Aldermen is granted to said company to establish and maintain the overhead trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Superintendent of Streets, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles, shall be under the direction and to the satisfaction of the Superintendent of Streets, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the City Clerk in accordance with the provisions of statute law; otherwise it shall be null and void.

The whole work authorized to be done under the provisions of this order shall be completed within one year from the date of the passage of this order.

Report accepted; order passed.

(5) Report on petition of the Old Colony Street Railway Company (recommitted December 13, 1909) for a curved track at north corner of Washington and Grove streets—recommending the passage of the following:

Ordered, That in addition to the rights heretofore granted to the Old Colony Street Railway Company for locations for tracks in the streets of the City of Boston, said company shall have the right to construct, maintain and use an addition to its existing locations as follows: A single curved track at the northerly corner of Washington and Grove streets, West Roxbury, connecting

the existing single track on Grove street with the easterly of the existing tracks on Washington street; together with all necessary curves, crossovers, switches and connections; said tracks being shown by red lines on a plan made by A. L. Plimpton, dated November 8, 1909, and deposited in the office of the Superintendent of Streets.

And the consent of the Board of Aldermen is granted to said company to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said location, and to erect, maintain and use iron poles, not less than twenty feet in height, at places indicated by red dots or circles on the aforesaid plan, or at such other places, to be shown by blue dots or circles on said plan, as may be approved by the Superintendent of Streets, and to place on said poles such wires and other appliances as the Commissioner of Wires shall approve.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles, shall be under the direction and to the satisfaction of the Superintendent of Streets, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the City Clerk in accordance with the provisions of statute law; otherwise it shall be null and void.

The whole work authorized to be done under the provisions of this order shall be completed within one year from the date of the passage of this order.

Report accepted; order passed.

(6) Report on petition of the Boston Wharf Company (recommitted) to construct, maintain and use single railroad track to be operated by steam power for the transportation of freight, etc.—recommending the passage of the following:

Ordered, That permission be granted to the Boston Wharf Company to construct, maintain and use a single railroad track to be operated by steam power for the transportation of freight for private use, crossing Congress street at grade, from No. 382 to No. 389, as shown on a plan made by M. D. Safford, dated January 22, 1910, and deposited in the office of the Superintendent of Streets.

The right to lay down the tracks located by this order is upon condition that the whole work of laying the same, the form of rail to be used, and the kind and quality of material used in paving said tracks, and the kind and locations of poles, shall be under the direction and to the satisfaction of the Superintendent of Streets, and shall be approved by him. Also upon condition that said railway company shall accept this order, and shall file such acceptance with the City Clerk in accordance with the provisions of statute law; otherwise it shall be null and void.

The whole work authorized to be done under the provisions of this order shall be completed within one year from the date of the passage of this order.

Report accepted; order passed.

COAL AND COKE LICENSES.

A list of coal and coke licenses granted by the Secretary of the Commonwealth was received. Placed on file.

NOTICE OF HEARING.

Notice was received from the Harbor and Land Commissioners of a hearing January 26 on a petition of Edith A. Richards for leave to extend wharf on Mystic river adjoining Medford street.

Placed on file.

ACCEPTANCE OF LOCATIONS.

Notices were received from the West End Street Railway Company of acceptance of order extending time on 258th location; acceptance of order extending time on 262d location; acceptance of order extending time on 285th location; acceptance of 294th location, relocation of tracks on Leverett street.

Placed on file.

LICENSES.

Ald. CURLEY, for the Committee on Licenses, submitted the following:

(1) Reports on petitions recommending that minors' licenses be granted to 156 newsboys, 21 bootblacks and 4 vendors.

Reports accepted; licenses granted on usual conditions.

(2) Reports on petitions (severally referred January 17) for licenses for keeping of gasoline at various locations—that leave be granted, viz.:

Catherine M. Bush, rear 25 Charlotte street, Ward 20.

Katherine Abbott, 240 Beacon street, Ward 11.

John G. Godding, rear 704 Washington street, Ward 25.

(3) Reports on petitions for licenses for keeping and sale of gasoline at various locations—that licenses be granted, viz.:

Maxwell-Briscoe Boston Company (referred December 27), 100 Massachusetts avenue, Ward 11.

Fred Edwards (referred December 13), 530 Columbia road, Ward 16.

(4) Report on petition of Rowe Contracting Company (referred January 17) for license for keeping and storing of dynamite and exploders at Chestnut Hill avenue, Ward 25—that leave be granted.

(5) Report on petition of Louis F. Buff (recommitted to-day) for license to keep gasoline at 233 Chestnut avenue, Ward 22—that the petitioner have leave to withdraw.

The question came on accepting the report.

Ald. BALLANTYNE—Mr. Chairman, I move you, sir, that further consideration of these matters be assigned to the next meeting of the Board.

The CHAIRMAN—Does Ald. Ballantyne still press his motion?

Ald. BALLANTYNE—Mr. Chairman, I still press my motion.

Ald. Ballantyne's motion was declared lost. Ald. BALLANTYNE doubted the vote and asked for the yeas and nays.

Ald. Ballantyne's motion to assign the matters reported on in No. 6 to the next meeting of the Board was carried, yeas 5, nays 4.

Yeas—Ald. Anderson, Ballantyne, Carr, Cotton Hale—5.

Nays—Ald. Brand, Curley, Giblin, Timilty—4.

ELECTRIC WIRES.

Ald. BALLANTYNE, for the Committee on Electric Wires, submitted the following:

(1) Reports on petitions of the New England Telephone and Telegraph Company of Massachusetts (severally recommitted January 24) for leave to erect poles in various streets—that the petitioners be given leave to withdraw, viz.:

To erect three poles on Bigelow street, Ward 25.

To erect six poles on Hobart street, Ward 25.

To erect three poles on Dunboy street, Ward 25.

Accepted.

(2) Report on petition of the Fire Commissioner (recommitted January 24) for leave to erect lamp-post for fire-alarm box—recommending the passage of the following:

Ordered, That permission be granted the Fire Commissioner to place and maintain a lamp-post for the support of a fire-alarm box at point designated by a white dot on a plan deposited in the office of the Superintendent of Streets, made by H. D. Cabot, said post to be located as follows:

Hanover street, corner of Portland street, one post; plan dated December 30, 1909.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said post on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating said post to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed.

(3) Report on petition of the Edison Electric Illuminating Company of Boston (recommitted January 24) for leave to erect pole in Greenwich park—recommending the passage of the following:

Ordered, That permission be granted the Edison Electric Illuminating Company of Boston to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by W. H. Cole; said poles to be located as follows:

Greenwich park, Ward 12, near Carleton street, one pole, 50 feet by 15 inches; sidewalk, 8 feet wide; plan dated January 13, 1910.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating said poles to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed.

(4) Report on petition of the New England Telephone and Telegraph Company of Massachusetts (recommitted January 24) for leave to erect pole in Rockland street—recommending the passage of the following:

Ordered, That permission be granted the New England Telephone and Telegraph Company of Massachusetts to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by F. T. Crockett, said poles to be located as follows:

Rockland street, Ward 21, west from Walnut avenue, one pole, 40 feet by 14 inches; sidewalk, 5 feet wide; plan dated December 7, 1909.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating said poles to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed.

(5) Report on petition of the New England Telephone and Telegraph Company of Massachusetts (referred January 17) for leave to erect two poles in Woodward street—recommending the passage of the following:

Ordered, That permission be granted the New England Telephone and Telegraph Company of Massachusetts to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by F. T. Crockett, said poles to be located as follows:

Woodward street, Ward 15, north from Dorchester street, two poles, 40 feet by 14 inches; sidewalk, 5 feet wide; plan dated December 7, 1909.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908, the work of locating said poles to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed.

(6) Report on petition of the New England Telephone and Telegraph Company of Massachusetts (recommitted November 8, 1909) for poles on Old Colony avenue—recommending the passage of the following:

Ordered, That permission be granted the New England Telephone and Telegraph Company of Massachusetts to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by F. T. Crockett, said poles to be located as follows:

Old Colony avenue, Ward 15, from Dorchester street, one pole, 40 feet by 14 inches; sidewalk, 20 feet wide; plan dated October 16, 1909.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating said poles to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed.

On motion of Ald. BALLANTYNE the matter was declared assigned to the next meeting of the Board. Ald. ANDERSON doubted the vote and asked for the yeas and nays.

Assignment prevailed, yeas 8, nays 2, Ald. Anderson and Cotton voting nay.

(7) Report on petition of the Edison Electric Illuminating Company of Boston (recommitted November 8, 1909) for poles on Old Colony avenue—recommending the passage of the following:

Ordered, That permission be granted the Edison Electric Illuminating Company of Boston to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by G. A. Fuller, said poles to be located as follows:

Old Colony avenue, Wards 15 and 13, between Dorchester avenue and Dorchester street, nineteen poles, 50 feet by 15 inches; sidewalk, 12 feet wide; plan dated October 6, 1909.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying the streets for placing and maintaining said poles on the conditions specified in chapter 3, section 16, of the Ordinances of 1908.

The work of locating said poles to be completed within ninety days from the date of the passage of this order.

The question came on accepting the report and passing the order.

The matter was assigned to the next meeting of the Board.

INSPECTION OF PRISONS.

Ald. BALLANTYNE, for the Committee on Prisons, submitted the following:

The special committee of the Board of Aldermen, appointed in accordance with the provisions of section 1 of chapter 224 of the Revised Laws, to inspect the prisons in the County of Suffolk, having attended to that duty, submits the following report:

The four institutions coming under the jurisdiction of the committee, viz., the House of Correction at Deer Island, the Parental School for Truants at West Roxbury, the Charles Street Jail and the Suffolk School for Boys at Rainsford Island were all carefully inspected as to the discipline, cleanliness, health and proper treatment of the inmates and in these respects everything was found perfectly satisfactory. In each institution visited, the inmates were questioned by the members of the committee and given an opportunity to make complaints with regard to the food, bedding or conduct of the officers towards them. There was but one complaint—one person confined in the Charles Street Jail believed that anyone held there awaiting trial for any length of time should be given a chance for outdoor exercise at least once a week. He himself had been confined about three months and does not know when his case will be reached, owing to the fact that the principal government witness is now in Europe. The sheriff, who is the keeper of the jail, told the committee that it

would be impossible for him to make such an arrangement on account of the few officers under him. Added to that would be the danger of the escape of a prisoner convicted of a felony, who was being held pending a decision of the Supreme Court on his exceptions. Under all the circumstances the committee is unable to recommend any change in the present rules.

Charles Street Jail.

The recommendations of last year's committee have been carried out. This year's committee offers for the consideration of the City Council of 1910 the following as most necessary improvements at the county jail: The old part, occupied by the men, should be properly lighted. The gas fixtures half a century in use, with the poor quality of gas coming through them, are wholly inadequate, not to say dangerous. The sheriff asks for an appropriation of fifteen hundred (\$1500) dollars for wiring and placing fixtures for electricity. The committee is of opinion that the bathing system now in use should be entirely remodeled, and showers used instead of bath tubs.

Parental School.

The new school and administration building has been started, but it will not meet the wants of the trustees as they originally planned. An additional appropriation of \$35,000 is recommended for the completion of this building. We also recommend an appropriation of \$17,000 for a new stable, and repeat the recommendation of last year's committee for a sum sufficient to build a coal pocket next to the heating plant. This institution is doing good work, and its trustees are unselfishly giving of their time, and should be given fair consideration in the matter of appropriations by the City Council.

Deer Island.

The committee recommends the erection of a new building to contain fifty cells for the purpose of confining refractory prisoners and those addicted to the use of drugs. In this way only can the question of segregation be settled. Of its benefit to the institution there can be no question. The new dining room, recommended by the committee of 1908, is completed and in use, and has amply justified its erection in saving of time and in economy. The so-called observation cases, persons suffering from delirium tremens, are still sent to this institution in spite of the recommendation of last year's committee that the proper place to handle them was at the City Hospital. This is a matter which will have to be attended to. The incoming City Council should do it. The wharf at Eastern avenue should be repaired at once; it is in an unsafe condition.

The Suffolk School for Boys.

This institution at Rainsford Island is receiving its usual scant attention of the city authorities in the matter of appropriations. This committee renews the almost time-worn recommendations for the construction of a bulkhead for the making of land of that space between the wharf and the land where the old white cottage is situated. If the City Council will visit the place, the need for a new administration building and the tearing down of the rookery, now used for a playroom, will be so apparent that this committee makes its recommendation in this form.

Annexed will be found the reports of those in charge of the various institutions, as required by law.

For the Committee,

WALTER BALLANTYNE,
Chairman.

Report accepted and ordered printed as a city document.

PROJECTIONS, ETC.

Ald. BALLANTYNE, for the Committee on Building Department (Ald.), submitted the following:

(1) Reports on petitions for signs (severally referred to-day)—that leave be granted, viz.:

James F. Murphy, 411-415 Broadway, Ward 13.

R. Farland, 100 Utica street, Ward 7.

Frank Trosten, 92 Poplar street, Ward 8.

Yamanaka & Co., Clarendon street, at Copley Hall (temporarily).

The William Lawrence Real Estate Trust (an iron box), 65 Devonshire street, Ward 6.

Reports accepted; leave granted on usual conditions.

(2) Reports on petitions for illuminated signs (severally referred to-day)—that leave be granted, viz.:

A. Dublin, 834 Washington street, Ward 7.

Cohen & Grover, 70 Court street, Ward 6.

Cohen & Grover (an arc light), 70 Court street, Ward 6.

Six Little Tailors, 177 Washington street, Ward 7.

Duren & Kendall, 30 Summer street, Ward 7.

William H. Lynch & Co., 363 Atlantic avenue, Ward 7.

Standard Motor Car Company of Massachusetts, 244 Pleasant street, Ward 10.

American Simplex Company, 261 Dartmouth street, Ward 11.

J. H. Goldstein, 566A Columbia road, Ward 16.

J. Woodward & Sons, 1075 Columbus avenue, Ward 19.

Ephraim C. Benson, 3096 Washington street, Ward 22.

S. A. Beckhard, 123 Summer street, Ward 7. Reports accepted; leave granted on usual conditions.

(3) Report on petition of the First National Bank of Boston (referred to-day) for leave to project a marquee at 70 Federal street, Ward 7—that leave be granted.

Report accepted; leave granted on usual conditions.

(4) Reports on petitions (referred to-day) for leave to project marquees at various locations—that leave be granted, viz.:

George R. White, marquee, 523-525 Washington street, Ward 7.

Henry W. Lamb, marquee, 22 Huntington avenue, Ward 10.

Reports accepted; leave granted on usual conditions.

(5) Report on petition of Boston Mutual Life Insurance Company (referred January 17, 1910) for leave to project a marquee at 75-77 Kilby street—that the petitioner have leave to withdraw.

Accepted.

(6) Reports on petitions for leave to project bay window and illuminated sign—that no further action is necessary, viz.:

Guy A. Clifford (referred May 17, 1909), to project one bay window over Howard avenue, from building 27B Woodward Park street, Ward 16.

O. B. Gilman (referred April 5, 1909), to project an illuminated sign at 205 Tremont street, Ward 7.

Accepted.

USE OF FANEUIL HALL.

Ald. CARR, for the Committee on Faneuil Hall, submitted reports on petitions (severally referred to-day) for the use of Faneuil Hall—that leave be granted, viz.:

Minute Men of '61, afternoon of April 15.

John F. Fitzgerald, morning of February 7.

The No Meat Club, evening of January 29.

Reports severally accepted; leave granted on usual conditions.

RESOLUTIONS CONCERNING PARIS DISASTER.

Chairman BRAND offered the following:

Whereas, The capital city of our ancient friend and ally, our sister republic, France, is struggling with death, disaster and other evils caused by flood and famine; and

Whereas, The bond between the two nations causes the sympathy of every patriotic American to go out to the people of the race and land which aided us in our struggle for liberty; and

Whereas, We view with disquietude and apprehension the threatened destruction of the fairest city in Europe and the sufferings of its residents; therefore be it

Resolved, That the Board of Aldermen of the City of Boston, in behalf of the people of the city, hereby extends its condolence and sympathy to the citizens and residents of Paris, and its earnest hope that further danger may be averted and the city spared further destruction and suffering.

Resolved, That the City Clerk be instructed to forward a copy of these preambles and resolutions to the American Ambassador at Paris, with a request that it be sent by him to the proper French official.

Passed by unanimous vote.

CATCH-BASIN, MILTON AVENUE.

Ald. CARR offered an order—That the Superintendent of Streets, through his Honor the Mayor, be requested by this body to construct a catch-basin on the westerly side of Milton avenue between Evans street and Armandine street, in Ward 24, at a proper location to carry off the surplus water which accumulates in that neighborhood.

Passed.

PUBLIC IMPROVEMENTS.

Ald. BALLANTYNE, for the Committee on Public Improvements, submitted the following:

(1) Reports on petitions (referred to-day) for leave to stretch guy ropes across streets in Ward 13—that the Superintendent of Streets be authorized to issue permits as hereinafter specified, to stretch and use guy ropes over certain streets, the work to be completed on or before February 5, 1910, according to the terms and conditions expressed in the ordinances of the city relating thereto, viz.:

Metropolitan Contracting Company, to stretch, maintain and use guy wires and ropes over and across Summer street, between D and E streets, Ward 13, for use during the construction of a stone foundation.

F. C. Alexander, to extend, maintain and use guy ropes over and across Melcher street, at Necco street, Ward 13, for use during the erection of a building at said location.

Reports accepted; orders passed.

(2) Report on petition of Chin Company

(referred to-day) for leave to set off small fire crackers in front of 82 Harrison avenue on January 29—that leave be granted.

Report accepted; leave granted on usual conditions.

(3) Report on order (referred January 24) that the City Engineer provide the aldermen with photographs of the Cambridge Bridge—that the order ought not to pass.

Report accepted; order rejected.

(4) Report on order (referred to-day) that the Superintendent of Public Buildings be authorized to sell for a nominal sum to each member of the Common Council of the year 1909 his desk and chair—that the order ought not to pass.

Report accepted; order rejected.

(5) Report on order (referred to-day) for loan of \$24,999 for the laying out of a children's playground in Ward 12—that the order ought to pass.

The report was accepted and the question came on the passage of the order which was rejected, yeas 4, nays 5, viz.:

Yeas—Ald. Ballantyne, Curley, Hale, O'Hare

Nays—Ald. Anderson, Brand, Carr, Cotton, Timilty—5.

(6) Report on order (referred December 27) that there be allowed and paid to Mary C. Akery, widow of James B. Akery, a member of the Fire Department, the sum of \$3,000—that the same be indefinitely postponed.

Report accepted; order indefinitely postponed.

(7) Report on ordinance (referred January 24) placing the Bath Department under the charge of a Bath Commissioner—that the ordinance be indefinitely postponed.

Report accepted; ordinance indefinitely postponed.

(8) Report on order (referred January 24), that the square at the junction of Bunker Hill, Medford, Mishawam and Main streets be named Babcock square—that the order be indefinitely postponed.

Report accepted; order indefinitely postponed.

(9) Report on order (referred to-day) that the Street Commissioners lease land owned by the City of Boston, extending from Norfolk avenue to Massachusetts avenue, to the trustees of Boston College—that the order ought to pass.

Report accepted; order passed in concurrence.

(10) Reports on veto of the Mayor (referred to-day) disapproving of permits to William A. Riggs for children under fifteen years of age to appear at Mechanics Building on January 25, and for permit to Mrs. W. H. Marden for children under fifteen years of age to appear at Hibernian Hall, Charlestown, on evening of January 31, 1910—returning the same to the Board of Aldermen for action.

The report was accepted, and the question came on granting permits, the objection of the Mayor to the contrary notwithstanding.

The Board refused to grant the permits, yeas 0, nays 9.

(11) Report on petition of the Telepost Company of Massachusetts (recommitted November 29) for leave to lay iron pipe for telegraph wires in Leverett and other streets—recommending the passage of the following:

Ordered, That permission be granted to the Telepost Company of Massachusetts to lay, maintain and use a 3-inch iron conduit, with telegraph wires inclosed therein, and the necessary man-holes under and along the following named streets in the City of Boston:

Beginning at a point in Leverett street at the end of a conduit now being built across said bridge and assigned by the Charles River Basin Commissioners, thence along Leverett, Minot, Wall, Causeway, Merrimac and Friend streets to a man-hole in Faneuil Hall square, as shown on a preliminary plan, dated November 29, 1909, and filed in the Permit Office of the Street Department.

The Superintendent of Streets shall indicate and issue permits for opening said streets, and the same shall not be disturbed until a plan approved by him, and showing the locations of said pipes and man-holes, has been filed in said Permit Office.

The work of laying said pipes, wires and man-holes to be done under the supervision of the Wire Commissioner, and under the terms and conditions expressed in the Ordinances of the City of Boston.

The question came on accepting the report and passing the order.

Ald. O'HARE—Mr. Chairman, I move that the order be assigned to the next meeting, and that the Superintendent of Streets be requested to attend the meeting of the Board and give such information as the Board may require of him in relation to the granting of that franchise.

Ald. O'Hare's motion was declared lost. Ald. BALLANTYNE doubted the vote and asked for the yeas and nays.

Ald. O'Hare's motion, that the order be assigned to the next meeting and that the Superintendent of Streets be requested to attend the meeting and to give such information as the Board may require of him, in relation to the granting of the franchise, was carried, yeas 10, nays 0.

Ald. GIBLIN—Mr. Chairman, I offer a motion that this be indefinitely postponed—a good way out of it.

The CHAIRMAN—The motion is out of order, as the matter has been assigned to the next meeting.

BOSTON WHARF COMPANY TRACK.

Ald. CURLEY moved a reconsideration of the vote on Boston Wharf tracks.

Reconsideration prevailed.

Ald. CURLEY—Mr. Chairman, at this time I move that further consideration of this matter be assigned to the next meeting of this Board.

Ald. ANDERSON doubted the vote on reconsideration and asked for the yeas and nays.

Reconsideration was refused, yeas 4, nays 6:

Yeas—Ald. Curley, Giblin, O'Hare, Timilty—4. Nays—Ald. Anderson, Ballantyne, Brand, Carr, Cotton, Hale—6.

PAVING SOUTHAMPTON STREET.

Ald. CURLEY offered an order—That his Honor the Mayor be requested to direct the Superintendent of Streets to pave Southampton street.

Passed.

NEXT MEETING.

Chairman BRAND offered an order—That when this Board adjourns it be to meet on Saturday, February 5, 1910, at 12 o'clock noon.

Ald. CURLEY—Mr. Chairman, I would like to ask the City Clerk if sufficient time would intervene in the event of the Board meeting on Saturday to allow of action on any matters pending before this Board.

The CHAIRMAN—The City Clerk informs the Chair that the Mayor will be Mayor, the chief executive of the city, until 10.30 o'clock on Monday morning, February 7.

The order was passed.

REPLACING OF STREET SIGN.

Ald. COTTON offered an order—That his Honor the Mayor be requested to direct the Superintendent of Streets to have the Pickering avenue street sign on Walnut avenue, Roxbury, replaced and maintained as in years past.

Passed.

REPAIR OF STREETS WARD 23.

Ald. CURLEY offered an order—That his Honor the Mayor be requested to direct the Superintendent of Streets to repair and put in safe condition for public travel the following named streets in Ward 23:

Hemlock street, Auburn street, Bellevue avenue, Dudley avenue, Havey street and Roslindale avenue.

Passed.

WAGES, ETC., AMBULANCE DRIVERS.

Ald. CURLEY offered an order—That his Honor the Mayor be requested to direct the trustees of the City Hospital to make an investigation and report on the wages and hours of labor of ambulance drivers as compared with other employees of said department.

Passed.

GENERAL RECONSIDERATION.

Ald. CARR moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned, at 6.53 p. m., on motion of Ald. CARR, to meet on Saturday, at 12 o'clock noon.

PROCEEDINGS OF COMMON COUNCIL.

February 3, 1910.

Final meeting of the Common Council, held in the Council Chamber, City Hall, at 7.45 p. m., President McCABE in the chair.

ORDER FILED WITH THE CLERK.

The Clerk, by direction of the President, read an order filed with him by Mr. Brophy of Ward 2: Ordered, That the Superintendent of Streets be requested, through His Honor the Mayor, to put Cottage street, near Cottage Street Bridge, Ward 2, in proper condition for travel.

Referred to the Mayor.

PAPER FROM THE BOARD OF ALDERMEN

1. Notice of indefinite postponement of order (January 20, 1910) to name as Babcock square the junction of Bunker Hill, Medford, Mishawam

and Main streets; of rejection of order (January 27, 1910) for a loan of \$24,999 for children's playground in Ward 12, and of rejection of order (January 27, 1910) concerning the sale to members of the Common Council of their desks and chairs.

Placed on file.

NEW FIREBOAT.

The Council proceeded to take up No. 2, unfinished business, viz.:

2. Ordered, That the sum of five thousand dollars (\$5,000) additional be hereby appropriated, to be expended by the Fire Department for new fireboat; and that to meet such appropriation the City Treasurer be hereby authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to the above amount.

Ordered, That the City Auditor be authorized to transfer the unexpended balance of the appropriation for Fireboat No. 47, amounting to \$2,374.99, and the unexpended balance of the appropriation for landing for fireboat and quarters for men, amounting to \$199.49, to the appropriation for new fireboat.

The orders were rejected, yeas 47, nays 3 (50 votes being required).

Yeas—Allston, Arnold, Bagley, Ballantyne, Bragan, Brophy, Burroughs, Carney, Carr, Caruth, Casey, Cox, Crane, Cronin, Dart, Ducey, Fitzgerald, Goodwin, Gordon, Hackett, Hart, Howell, Jones, Joyce, Kelly, Kennedy, Kenney, Kinney, Krug, McCabe, McCarthy, McGivern, Meins, Morgan, Murray, O'Bryan, O'Donnell, O'Hara, Peshorn, Prescott, Ryan, Scigliano, Smith (23), Smith (20), Spellman, Troy, Welch—47.

Nays—Crocker, Cumming, Moore—3.

Absent or not voting—Best, Brennan (17), Brennan (3), Buckley, Collins, Connors, Conway, Davis, Donovan (19), Donovan (7), Gardella, Garrity, Green, Harding, Hoague, Hoban, Hoey, Kohler, McKeagney, O'Brien, O'Neil, Pendergast, Warren, Webster—24.

The vote whereby the orders were rejected was reconsidered on motion of Mr. DUCHEY of Ward 4, and reconsideration was assigned to 8.45 p. m.

UNFINISHED BUSINESS OF CITY COUNCIL.

The Council proceeded to take up No. 3, assignment, viz.:

3. Ordered, That all matters of an unfinished nature in the hands of committees of this City Council or of either branch thereof be referred to the next City Council.

Further assigned until nine o'clock, on motion of Mr. GOODWIN of Ward 1.

TRANSFER OF BUILDING.

The Council proceeded to take up No. 4, past assignment, viz.:

4. Ordered, That the old Winthrop Schoolhouse, commonly known as the Armory Building, in Charlestown, be hereby transferred from the care and custody of the Public Buildings Department to that of the Bath Department.

Indefinitely postponed, on motion of Mr. DART.

PAPERS ON THE TABLE.

The Council proceeded to take up papers on the table, Nos. 5 and 6, viz.:

5. Report in part of the special committee of the Common Council, appointed to make an investigation of the subject of public lighting. (See City Document No. 122.)

Report accepted.

6. An Ordinance concerning term of office and salary of the Superintendent of Printing. Be it ordained by the City Council of Boston, as follows:

Section 1. Chapter two of the Revised Ordinances of 1898 is hereby amended in section 1 by striking out in the twenty-first line thereof the words "the superintendent of printing" and by inserting the words "the superintendent of printing" after the words "the wire commissioner" in the same section.

Section 2. Section five of chapter three of the Revised Ordinances of 1898 is hereby amended by striking out after the words "the superintendent of printing" the words "three thousand," and inserting in place thereof the words "five thousand."

Indefinitely postponed on motion of Mr. Crane of Ward 24.

PUBLIC LIGHTING.

Mr. GOODWIN of Ward 1, for the Special Committee on Public Lighting, submitted the following:

Having made its report on the legality of the contract of the Edison Company, under date of July 1, 1909, the committee turned its attention to the terms of the contract. Is the price charged a fair one? The collection of comparative statistics was naturally the first step. This

proved to be a work of considerable difficulty, often attended with unintelligible and unsatisfactory results. Figures of recent years are in the majority of cases grossly partial to the lighting companies. There is, moreover, a more than general disposition on the part of the electrical profession, if we may use the term, to keep the layman in ignorance by a profuse use of technical language totally unwarranted in the present stages of electrical knowledge.

Surely the time has arrived when the electrical expert, the student, the lawyer, the business man and the directors of civic corporations may discuss in a common, understandable tongue a matter of such general and individual importance.

The committee availed itself of the inexhaustible courtesy and ability of Doctor Hartwell, secretary of our own Statistics Department, and communicated with every city in the United States of a population of more than 200,000 inhabitants.

At this point the committee wishes to make a confession for the benefit of future investigators, since it is easily evident that it will be a long time before the last word may be said on this subject.

The committee adopted with confidence the idea, which emanated from some eminent gentlemen in the community, that any amount of investigation could be made by a liberal use of pen, ink, paper and the United States mails. The committee's confidence has been shattered. In some cases our letters elicited incomplete, unintelligible replies, resulting in multiplied correspondence, and this, despite the fact that Doctor Hartwell had framed a most ingenious and complete blank form which called for the shortest and most decisive answers. The future investigator must get his information and figures at first hand if he is to obtain the best results. The committee may make this statement with perfect security, since none of its members is likely to participate in that bug-a-boo of the taxpayers, a "junket."

The figures obtained by correspondence were turned over to Mr. Moore of the committee, who collated and tabulated them. They are submitted (C) and speak for themselves. Stripped of all technical verbiage, they show that the City of Boston pays more for its street lighting than any other large city in the United States. Compare these figures with those contained in an advertisement of the Edison Company. (D.)

The overcharge is at least \$30 a year per lamp, and on the total number of street arcs in use this overcharge amounts to approximately \$100,000 a year, or \$500,000 on the five-year contract recently signed with the Edison Company.

For ten years prior to the present contract the city has paid for its street arcs about \$124 a year per light. We find that in comparison with the prices paid by other cities under nearly similar conditions the City of Boston has been overcharged from \$30 to \$50 per light. Based upon an average of the number of lights burned annually during this period we feel that we are well within bounds when we say that the city has paid at least \$1,300,000 in excess of what would have given the companies a liberal return on their investment.

Make any analysis you choose of these figures, you will be faced with an inevitable "Why?"

If the City of St. Louis can get a 6.6 ampere magnetite lamp for \$50 a year why should the City of Boston pay \$103 for the same lamp?

Electrical technicalities, seaboard and inland situations, fuel statistics, underground constructions, plant and taxation figures,—all utterly fail to give a satisfactory answer.

We believe that this can be demonstrated even to a layman.

The high price of coal due to the cost of transportation has frequently been advanced by the Edison Company. The Edison Company sold last year 62,177,318 kilowatt hours of electricity. They paid \$346,660.06 for coal at the rate of \$3.64 a ton. That is, their coal cost them .005575 per kilowatt hour sold, or at the rate of \$10.67 per arc per year for a 500-watt lamp burning 3,828 hours a year. From various sources we find that the cost of transportation of coal by water from Baltimore and the cost of unloading do not amount to over eighty cents a ton. (See report of the investigations of the Merchants Association as to coal transportation.) Hence the difference between the cost per arc per year for this cause could not possibly be over \$3.

Baltimore pays \$67.49 per light; we pay \$103.54.

Another excuse is the amount of underground construction in Boston. Other cities have this to contend with. In some the proportion of underground construction is greater than ours. The report from Washington states that they have 94 per cent of their conduits underground. We have a little more than 50 per cent. The proportion would be much less if we took into consideration the whole metropolitan district supplied by the company. This would not be unfair, inasmuch as the municipal schedule offered to all the cities and towns covered by the Edison Company must be based upon this district, and our present contract is merely a copy of the terms of that schedule.

Washington pays \$85; we pay \$103.54.

Furthermore, in many cities a separate bid is made for lamps fed from underground conduits.

In not a single case that we know of is the price for these lights as high, by \$10, as the price we pay for our magnetites, in which no difference is made in the price for underground or overhead feed. For lights fed from underground conduits Cincinnati pays \$72; New Orleans, \$85; Pittsburg, \$90; and Baltimore, where the city owns the conduits, \$57. In Hartford, where one of the most recent contracts has been made, the price for overhead lamps is \$60; for underground, \$64; making a difference of only \$4 for underground construction.

The whole history of the street lighting problem in Boston shows that we have been paying exorbitant prices. We are compelled to believe that the only explanation for this is that the men upon whom it has devolved in the past, to protect the city's interests were either negligent or were unable to cope with the trained intelligence opposed to them. Contracts are approved, signed and sealed, and the city is delivered into the hands of the corporation for a term of years. Subsequently, the Mayor who approved the contract appears in the role of arbitrator and finds that the company cannot afford to reduce its price. Occasional rumblings, too plain to be disregarded, call public attention to existing conditions.

There were recently, symptoms of a disagreement between the gas people and the electric light people, which gave promise of an opportunity for the plain people. The Finance Commission had the matter thrust upon them. But that body, whose exclusive duty it was to look out for the city's interests, found itself divided between the warring interests of the gas people and the electric light people, and reported that the question was one which it had not been able to settle owing to limited time. One of its members went to Europe to study the lighting question for the benefit of his colleagues. Another member made a report which was suppressed, but which we are enabled to give in the appendix to this report, together with a stenographic transcript of the testimony of an expert electrical engineer, L. W. E. Kimball, before said Commission. (E, F.)

Very curiously, the electric light corporation was represented before the Finance Commission, but in his case, it was expressly stipulated by the representative that no stenographic notes should be made of his statements, a proposition to which the Finance Commission considerably agreed.

This was a matter involving the expenditure of more than a half a million dollars of the city's money each year, but the time was limited.

Again, just before the present contract was signed the Chamber of Commerce became interested in the matter. There was great activity. The newspapers were filled with stories. Experts were employed. Reports were made. Much correspondence passed between the Chamber of Commerce, the newspapers and the Mayor. There were even suggestions of some slight irregularities. In the meantime, hints were thrown out of the formation of a rival syndicate which was to materially lower the cost of street lighting. Notwithstanding all the agitation the contract was signed. The activity of the Chamber of Commerce suddenly ceased.

Contrast, if you please, this action with the conduct of the public-spirited men of St. Louis, who raised the sum of \$30,000 with which they provided and equipped 520 electric lights for the business districts and presented them to their city. Whereupon the lighting company, not to be outdone, agreed to light the said lamps for \$50 each per year, although their \$50-a-year contract does not go into effect until September 1, 1910. (G.)

But the city's difficulties in this matter do not all come from its vociferous and deedless citizens or the lighting corporation.

The Corporation Counsel told the Committee that under the old arbitration clause the city had practically no show. The arbitrators included one man representing the city, one man representing the company and a third man supposedly unbiased. The city could only ask for arbitration once in two and one-half years, and then the arbitrators must be unanimous in their decision. This contract was drawn by the Law Department of the city. The Corporation Counsel told us that the question of price and cost was none of his business. His only duty was to see that the contract was legally drawn. Early in the sessions of the committee this matter of the arbitration clause was considered by us and its palpable unfairness discussed. In the best of good faith, and, as we believe, strictly within our rights, we addressed a letter to his Honor the Mayor warning him of the necessity of closely guarding that section of the contract. The Mayor referred our communication to the Corporation Counsel, who, replying to the Mayor, disposed of our suggestion as useless and of no moment.

The learned Corporation Counsel informed his Honor that we were violating the provisions of law as contained in the city charter by interfering in the making of a contract. Now, as a matter of fact, the wording of law is "take part in . . . the making of contracts." When, at a subsequent session of the committee, this was called to the attention of the Corporation Counsel, he informed the committee that the words "take part" and "interfering" were synonymous. It

seems to us peculiar that any citizen or body of citizens might write on this subject to the newspapers or to the Mayor, as the Chamber of Commerce did, but the chosen representatives of the people were debarred from making any suggestions because the Statute of 1885 prevented them from "interfering" in the making of a contract. To fully present these facts, we append the entire correspondence. (H.)

The Corporation Counsel told the committee that he had changed the clause that allowed the city at any time, and without the knowledge of the company, to employ an expert to test the current supplied in order to see if the city was getting the amount guaranteed by the contract.

Under the present contract the city must notify the company in writing and they employ the expert. We have no intention of questioning the honesty of the company, but we do maintain that the clause as it now reads is of no value to the city. The reason given by the Corporation Counsel was that it would save the expense of a possible lawsuit occasioned by the employment by the city of an incompetent expert. The old contract lasted for fifteen years. During that time there was no such lawsuit.

The Corporation Counsel gave us further interesting information. He told us that no contract could be made unless the money was in sight. But the appropriation for the Lamp Division was for one year only. How, then, could a contract be made for five years? This was staggering, until it was discovered that the contract was made "subject to appropriations."

The language of the statute on this matter is as follows: "No expenditure shall be made nor liability incurred for any purpose beyond the appropriation duly made therefor." The position of the contract seems to be, that it is to continue from year to year, but to expire by its own terms at all events in five years, or at the end of any year before the expiration of that time, in which the city does not make the necessary appropriation. The legality of the contract on this ground is an interesting question of law, on which the Corporation Counsel has passed, inasmuch as he has approved of the five-year term. The money for the five succeeding years, then, must be in sight, although the appropriation has not been made.

The question of public building lighting is but a repetition of the street lighting prices.

For a number of years the Edison Company made a flat rate of 10 cents a kilowatt hour to the city. The average price which the company received for all its current was only 7 cents, and it sold current to other customers at considerably less than 2 cents per kilowatt hour.

In contrast to this we call your attention to the city of San Francisco which pays only 3½ cents per kilowatt hour for its public building lighting, while the average price received by the company for all its current is only 4½ cents per kilowatt hour. Chicago pays 3½ cents; St. Louis, 3½ cents; Providence, 3½ cents; Washington, New Orleans, Indianapolis and Baltimore pay 6 cents per kilowatt hour.

That the city is better lighted at a less cost than under the contract made in 1894 by Mayor Matthews, and extended by Mayor Quincy in 1899, should not give us the impression that any substantial victory has been gained. The mere fact that the company is using an improved lamp, giving more light for the same amount of current, is not an adequate excuse for charging for that current a price which is still excessive. It merely indicates a policy on the part of the company to appropriate the advantages accruing from the use of improved apparatus, without giving its customer a corresponding benefit in the rate.

Keep this in mind: St. Louis, \$50 a year; Boston, \$103.54 a year for the same lamp.

In conclusion, we reiterate the statement made in our preliminary report, that the present contract is illegal, because not authorized by the Board of Aldermen, and voidable because, as the Corporation Counsel says, the money for more than one year is not in sight.

We believe that the time has come for the City of Boston to do as any other business institution would do, and that is to devise some business-like, comprehensive and scientific manner of spending the vast sum which is now annually devoted to the lighting of its city streets and public buildings.

The new City Council has an opportunity which it should not neglect. We particularly call the matter to the attention of the incoming Mayor, reminding him that it was under his administration, in 1906, that the skilful work of the city's arbitrator, Samuel Hudson, Esq., then Assistant Corporation Counsel, obtained for the city its first reduction in price. Mr. Hudson's letter, with its recommendations, which appears in the appendix, (I.) may well bear fruit in the immediate future.

CHARLES T. HARDING,
FRANK A. GOODWIN,
GEORGE C. McCABE,
JOHN BALLANTYNE,
CHARLES H. MOORE.

Mr. GOODWIN moved that the reading of the report be dispensed with and that it be printed as a city document.

The report was accepted and ordered printed as a city document.

CLAIMS.

Mr. HACKETT of Ward 21, for the Committee on Claims, submitted a list of all claims upon which action has been taken during the municipal year 1909, and respectfully recommend that the same be printed as a city document.

Report accepted. Ordered printed as a city document on motion of Mr. HACKETT.

DISPOSITION OF COUNCIL MATTERS.

Mr. RYAN of Ward 8 offered an order—That all matters of an unfinished nature in the hands of the Special and Standing Committees of the Common Council be placed on file.

Passed.

Mr. RYAN offered an order—That all matters in the hands of the Joint Standing and Special Committees of the City Council, except the Committee on Claims be placed on file.

Passed. Sent up.

THANKS TO SUPERINTENDENT OF PUBLIC GROUNDS.

Mr. RYAN offered an order—That the Common Council, through its clerk, extend its thanks to the Superintendent of Public Grounds and his assistant, for the loan of plants and the decoration of the Council Chamber.

Passed.

PRINTING OF CLOSING PROCEEDINGS.

Mr. RYAN offered an order—That the closing proceedings of the Common Council, including the addresses of the invited guests, be printed as a city document.

Passed.

REVOCATION OF PERMIT.

Mr. JOYCE of Ward 7 offered an order—That the Board of Health be requested, through his Honor the Mayor, to revoke the permit granted in 1908 for the killing of chickens and fowl on Mall street, Ward 17.

Referred to the Mayor.

THANKS TO POLICEMEN.

Mr. SMITH of Ward 20 offered an order—That the Common Council hereby express its appreciation of the long, faithful and satisfactory attendance at its meetings of Officer Edward McHugh and Officer James A. Gateley.

Mr. HACKETT of Ward 21 moved that when the vote be taken it be taken by an unanimous rising vote.

The order was passed unanimously.

MORE CARS, BUNKER HILL STREET.

Mr. DUCEY of Ward 4 offered an order—That the Boston Elevated Railway Company be requested, through his Honor the Mayor, to run more cars over Bunker Hill street, Charlestown.

Referred to the Mayor.

NEXT MEETING.

Mr. CARR of Ward 4 offered an order—That when we adjourn it be to meet subject to the call of the Chair.

Mr. CARR of Ward 4—Mr. President, in introducing that order, my idea is that it seems to be the prevailing sentiment among the members of the Council of 1909 to form a permanent organization, and therefore it is, I presume, the duty of the President of the council of 1909 to call them together at some near date. I sincerely hope that that order will pass.

The PRESIDENT—The Chair will state that he intends to call the members together promptly after this meeting, and the Chair will rule the order out of order.

THANKS TO COUNCIL ATTACHES.

Mr. KELLY of Ward 13 offered an order—That the thanks of the Common Council of the City of Boston for the year 1909 be and they hereby are extended to the President of the Common Council, the Clerk's messenger, the City Messenger and his assistant, the Clerk of Committees and his assistants, also to the official stenographer and to the newspaper reporters for their courteous and gracious treatment towards every member of this body.

Mr. KELLY—Mr. President, I also desire to state at this time that the Common Council is going out of existence, I think to-night, and I would say this much, that I desire at this time to thank each and every member of this organization for their kindness which they had in giving me while being a member of this body. Although I would say this much, Mr. President and members of the Council and visitors, that I am not

what you would call a politician, but I am simply stating this as a servant of the people whom I represent. I desire to state at this time that I want to thank you one and all, which I forgot when I introduced that order, that is, the members of this body, and I hope that when the time comes that we all may meet and organize ourselves (laughter) as the Council of 1909. I thank you. (Applause.)

The order was passed by unanimous rising vote.

PROTECTION OF PUPILS' PROPERTY.

Mr. HACKETT of Ward 21 offered an order—That the School Committee be requested to devise better means for the protection of clothing and valuables of the pupils at the Girls' Normal School.

Referred to the Mayor.

REMOVAL OF FENCE, O STREET.

Mr. CASEY of Ward 14 offered an order—That the Superintendent of Streets be requested, through his Honor the Mayor, to have fence removed at O street near First street.

Referred to the Mayor.

After appropriate closing exercises the Council adjourned *sine die* at 10.47 p. m. on motion of Mr. RYAN of Ward 8.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the month of February:

Feb. 9, Chapman School, East Boston, Mrs. Mary W. Mullen, soprano; Taffey Mauch, cornetist.
Feb. 11, Dorchester High School, Mrs. Gertrude Holt, soprano; Jacques Benavente, saxophonist.
Feb. 15, West Roxbury High School, Miss May Belle Dadmum, soprano.
Feb. 18, Roxbury High School, Mr. Robert Seaman, baritone.
Feb. 23, Faneuil Hall, Mr. J. B. Forrest, tenor.
Feb. 24, South Boston High School, Miss Mary Tracy, soprano.

The orchestra consists of ten skilled professional musicians of whom William Howard acts as the director. Prof. Louis C. Elson lectures at every concert, explaining and interpreting the program rendered. Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at several of the leading music stores, and at drug stores and other convenient stations in the vicinity of the different halls.

CLASS HOURS, MUNICIPAL GYMNASIUMS.

The class hours of the several municipal gymnasiums are as follows:

At the Cabot Street Gymnasium, Roxbury; Ward 16 Gymnasium, Municipal Building, Columbia Road, Dorchester; D Street Gymnasium, Commonwealth Park, South Boston; North Bennet Street Gymnasium, City Proper:

Monday and Thursday for women and girls. Class hours: Mothers' class, 10 to 12 a. m.; school girls, 4 to 6 p. m.; ladies' class, 8 to 10 p. m.

Tuesday and Friday for men. Class hours: 8 to 10 p. m.

Wednesday and Saturday for boys. Class hours: Wednesday, school boys, 4 to 6 p. m.; working boys, 8 to 10 p. m. Saturday, school boys, 10 to 12 a. m. and 4 to 6 p. m.; working boys, 8 to 10 p. m.

Ward 7 Gymnasium, 75 Tyler street, City Proper. Schedule the same as the four gymnasiums above with the exception that Tuesday and Thursday are for women and girls and Monday and Friday for men.

Ward 9 Gymnasium, corner Harrison avenue and Plympton street, city.

Monday and Thursday for women and girls from 10 a. m. to 6 p. m. Class hours: School girls, 4 to 6 p. m.; men, 8 to 10 p. m.

Tuesday and Friday for men all day. Class. 8 to 10 p. m.

Wednesday and Saturday for boys. Hours same as all other gymnasiums.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, FEBRUARY 12, 1910.

No. 7.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail
matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been
established for such advertisements as under
the law must be printed in the *City Record*.
Advertising and other copy must be in hand
by Thursday of each week, to insure its publica-
tion in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27,
City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure of
such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE SUPERINTENDENT OF STREETS,
Room 44, City Hall, for information as to
the watering, cleaning, lighting, and repair-
ing of streets, the construction and care
of sewers and catch-basins, the operation
of the ferries, the maintenance of bridges
and drawbridges and the removal of ashes
and offal.

TO THE BOARD OF HEALTH, Room 11,
Old Court House (rear of City Hall), for
information relative to the inspection of
milk, vinegar, meat, fish and vegetables,
the issuance of permits for stables, slaugh-
ter houses, etc., smoke nuisances, the
existence of contagious diseases or public
health nuisances.

TO THE WATER COMMISSIONER, Room
58, City Hall, for information relative to
the supplying or metering of water and
the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC
GROUNDS, 154 East Cottage street, for
information as to the care of the Common,
Public Garden, and the small parks
throughout the city other than play-
grounds, and the extermination of the
gypsy moth and the charges made for the
same.

TO THE PARK COMMISSIONERS, Pine-
bank, Jamaica Plain, for information as to
Franklin Park and Field, Commonwealth
avenue, the Back Bay Fens, Marine Park
and playgrounds in general throughout
the city.

TO THE SCHOOL COMMITTEE, Mason
street, for information relative to the
operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS,
120 Boylston street, for information as to
the construction and repair of school
buildings.

TO THE BOARD OF STREET COM-
MISSIONERS, Room 41, City Hall, for informa-
tion relative to the laying-out, relocation,
widening and discontinuance of high-
ways; the taking of real property for
municipal purposes; the assessments of
betterments for streets and sewers; the
plotting of undeveloped areas for streets
and the opening of private ways; the
granting of licenses for the storage or
sale of merchandise in public streets;
the regulation of street traffic; the mak-
ing of specific repairs in public streets;
the naming of public streets; the planting
and removal of trees in public ways; the
issuing of licenses for the storage of
gasolene, oil and other inflammable sub-
stances or explosive compounds; the use
of the public ways for any permanent or
temporary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marqueses,
bay windows, coal holes and vaults.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, Feb-
ruary 14, 3 p. m.

Meeting of School Committee, Monday,
February 14, 5.30 p. m.

Meetings of the Boston Transit Commis-
sion are held on Tuesday and Thursday
of each week at 10.30 a. m.

LEGISLATIVE CALENDAR.

Committee hearings will be held at the
State House during the coming week on
bills affecting Boston, as follows:

CITIES. (Room 240.)

February 15, 2.45 p. m. Private ways
in Boston.

February 15, 2.45 p. m. That trustees
of Boston's new hospital may hire
beds, etc.

February 15, 2.45 p. m. That Boston
may pay sum to widow of Josiah M.
Kagan.

EDUCATION. (Room 441.)

February 17, 10.30 a. m. That state
pay for Boston Evening Industrial
School.

JUDICIARY, JOINT. (Room 227.)

February 14, 3 p. m. February 15,
10.30 a. m. and 3 p. m. Report of
commission on delays in civil actions.

February 17, 3 p. m. On appeals from
findings of Boston Police Commission
or trial board of Police Department.

LEGAL AFFAIRS. (Room 249.)

February 14, 10.30 a. m. On minors
in street trades.

February 14, 3 p. m. On construction
of signs and billboards.

February 14, 3 p. m. On granting
licenses and on police regulations in
Boston.

February 16, 3 p. m. For old age
pension system.

February 16, 3 p. m. That cities and
towns may establish co-operative
pension systems for their employees.

February 16, 3 p. m. That cities and
towns may license hawkers and
peddlers.

LIQUOR LAW. (Room 440.)

February 14, 10.30 a. m. On granting
licenses for sale.

February 14, 10.30 a. m. That liquor
be not sold where groceries, etc., are
sold.

February 16, 10.30 a. m. That licenses
be granted in Boston according to
population of districts.

February 16, 10.30 a. m. For a state
liquor commission.

February 16, 10.30 a. m. On granting
licenses in Boston.

February 18, 10.30 a. m. On licenses
for sale of liquor.

February 18, 10.30 a. m. Recommenda-
tions in annual report of Boston's
Licensing Board.

MERCANTILE AFFAIRS. (Room 431.)

February 16, 10.30 a. m. For sealing
certain bottles, etc., other than glass.

February 16, 10.30 a. m. On inspecting
and sealing weights and measures.

METROPOLITAN AFFAIRS. (Room 240.)

February 14, 10.30 a. m. For more
members of Boston City Council.

February 16, 10.30 a. m. For Metro-
politan Commission to improve har-
bor, dock and railroad facilities of
the state.

February 16, 10.30 a. m. On a federa-
tion of cities and towns in the metro-
politan district.

February 18, 10.30 a. m. For better
freight and passenger service in Bos-
ton, Quincy, Milton and Hyde Park.

February 18, 10.30 a. m. For comple-
tion of Furnace Brook Parkway in
Quincy, etc.

February 18, 10.30 a. m. That Boston
may use Franklin Park for a historical
pageant.

MILITARY AFFAIRS. (Room 453.)

February 16, 10.30 a. m. For compen-
sation to municipal employees when
doing military duty.

February 16, 10.30 a. m. For a second-
class armory in East Boston.

PRISONS. (Room 425.)

February 15, 10.30 a. m. That prison
made goods be so labeled.

February 15, 10.30 a. m. On marking
goods made in penal institutions.

PUBLIC HEALTH. (Room 436.)

February 15, 10.30 a. m. That boards
of health may give free vaccination.

February 17, 10.30 a. m. That cities
and towns may establish homes for
consumptives.

February 17, 3 p. m. On powers of
boards of health on drainage, etc., of
stables.

February 17, 3 p. m. For better sani-
tary conditions in police station
houses, etc.

PUBLIC SERVICE. (Room 441.)

February 15, 10 a. m. For more salary
for Suffolk County probate judges.

February 16, 10.30 a. m. For fixing
salaries of justice and clerks of
Charlestown municipal court.

February 17, 10.30 a. m. On employment of veterans.

February 18, 10 a. m. For retiring judges of Boston municipal court.

February 18, 10 a. m. That constables and court officers be pensioned.

ROADS AND BRIDGES. (Room 426.)

February 16, 10.30 a. m. For new bridge over Neponset river, between Boston and Quincy.

February 16, 10.30 a. m. For state highway from Columbia road to Neponset Bridge, Boston.

STREET RAILWAYS. (Room 429.)

February 17, 10.30 a. m. On granting locations to street railway companies.

TAXATION. (Room 436.)

February 18, 10.30 a. m. On collecting taxes otherwise not collectible.

February 18, 10.30 a. m. To fix the legal residence of voters and taxpayers May 1.

PUBLIC HEARINGS.

The Mayor and City Council will hold meetings, at eight o'clock in the evening, at the locations and on the dates below specified, for the purpose of hearing the residents of these districts as to the necessities which should be provided for in the appropriation bill for 1910-11:

MONDAY, FEBRUARY 14.

City Hall (for Wards 6, 7, 8, 9, 10, 11, 12).

TUESDAY, FEBRUARY 15.

West Roxbury High School.

WEDNESDAY, FEBRUARY 16.

Brighton High School.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record*, by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

INFIRMARY DEPARTMENT.

Advertises for proposals for construction of a trolley system for the transportation of coal from the coal sheds to the power house of the almshouse on Long Island. Proposal forms to be had at office of the trustees, 28 Court square. Bids to be filed at office of same.

Bids close Wednesday, March 2, 12 m.

PENAL INSTITUTIONS DEPARTMENT.

Advertises for proposals for supplying 300 barrels flour for House of Correction, Deer Island. Proposal forms and sample of grade to be had at office of commissioner, 32 Tremont street. Bids to be filed at office of same.

Bids close Wednesday, March 2, 12 m.

Advertises for proposals to supply the House of Correction with beef for year ending January 31, 1911. Proposal forms may be obtained at the office of the Penal Institutions Commissioner, 32 Tremont street.

Bids close Thursday, February 17, 12 m.

Advertises for proposals to supply the House of Correction with mutton, lamb and veal for year ending January 31, 1911. Proposal forms may be obtained at the office of the Penal Institutions Commissioner, 32 Tremont street.

Bids close Thursday, February 17, 12 m.

SCHOOL COMMITTEE.

Advertises for proposals for furnishing stationery as per schedule, to be had of Auditor of the School Committee. Bids to be filed with the auditor.

Bids close Friday, April 15.

STREET DEPARTMENT.

The Sewer Division advertises for proposals for furnishing and driving piles in Vila Street extension. Proposal forms to be had at the office of the Superintendent of Streets. Bids to be filed at the office of the superintendent.

Bids close Monday, February 21, 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for furnishing crushed stone and stone dust. Proposal forms to be had at office of superintendent, 826 Tremont Building. Bids to be filed at office of same.

Bids close Monday, February 14, 12 m.

Advertises for proposals for furnishing bank gravel and sand. Proposal forms to be had at office of superintendent, 826 Tremont Building. Bids to be filed at office of same.

Bids close Monday, February 14, 12 m.

Advertises for proposals for furnishing iron castings, such as frames for man-holes, catch-basins, etc. Proposal forms to be had at office of superintendent, 826 Tremont Building. Bids to be filed at office of same.

Bids close Tuesday, February 15, 12 m.

WATER DEPARTMENT.

Advertises for proposals for teaming water pipes and materials in and between Boston and Brookline. Proposal forms to be had at office of commissioner, City Hall. Bids to be filed at office of same.

Bids close Monday, February 14, 12 m.

Advertises for proposals for furnishing iron and composition castings. Proposal forms to be had at office of commissioner, City Hall. Bids to be filed at office of same.

Bids close Monday, February 14, 12 m.

APPOINTMENT.

On February 7, 1910, Mayor Fitzgerald appointed James A. Gallivan, 353 West Fourth street, Ward 13, Street Commissioner.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending February 10, 1910:

AUDITING DEPARTMENT.

Julien C. Haynes has been designated to serve as acting City Auditor at such times as the City Auditor may be absent during the four weeks commencing February 7, 1910.

FIRE DEPARTMENT.

Retirement of Dr. George W. Stimpson, veterinary surgeon, on pension of \$1,000 per annum, after forty-three years' service.

Probationary appointments of John J. Degan, John P. Foley, William J. Griffin, Cornelius J. Murphy, Patrick J. McLaughlin, Malcolm McIntosh as members of the department at a salary of \$720 per annum.

Appointment of William J. Martin as an assistant operator in the fire-alarm branch at a salary of \$1,200 per annum, to fill a vacancy.

HOSPITAL DEPARTMENT.

The following persons have been employed at the City Hospital during the past week:

Harold M. Foster, center orderly, \$20 per month; Albert Singer, center orderly, \$20 per month; Charles O. Johnson, ward porter, \$30 per month; Lillian Calnen, ward maid, \$12 per month; Margaret Kelly, ward maid, \$15 per month; Lena Ernberg, laundress, \$16 per month; Flora Macauley, graduate special nurse, \$15 per week; Katherine Cramer, nurse, re., \$12.50 per month; Katherine King, scrubber, re., \$5 per week; Delia O'Connell, chamber maid, \$15 per month.

The following employees have had an increase of wages:

James G. Robertshaw, orderly, \$25 to \$30 per month; Karl Wainwright, orderly, \$30 to \$35 per month; Anna Ballentyne, laundress, \$30 to \$34.17 per month; Alice L. Eastman, nurse, \$8.33 to \$12.50 per month; Mary G. Ramsay, nurse, \$8.33 to \$12.50 per month; Edith A. Grau, head nurse, \$35 to \$40 per month.

TREASURY DEPARTMENT.

Benjamin S. Turner has been designated to serve as acting City Treasurer at such times as the City Treasurer may be absent during the four weeks commencing February 7, 1910.

OVERTIME ALLOWED.

The following employees of the Finance Commission have been allowed overtime for the week ending February 3:

Katharine R. Walsh, \$18 a week, for 2 3-7 days, \$7.28.

James A. Gallivan, \$6 a week, for 1 day, \$1.

CITY COUNCIL ORDERS.

On February 8 Mayor Fitzgerald approved the following orders passed by the City Council at its meeting on February 7, viz.:

That Edward J. Leary be appointed temporarily to fulfill the ordinary duties of a sergeant-at-arms and City Messenger and such other duties as the City Council may impose upon him, to be compensated at the rate of \$2,500 a year.

That Frank X. Chisholm be appointed temporarily to fulfill the ordinary duties of a secretary and such other duties as the City Council may impose upon him, to be compensated at the rate of \$1,800 a year.

That John F. Dever be appointed temporarily to fulfill the ordinary duties of a Clerk of Committees and librarian and such other duties as the City Council may impose upon him, to be compensated at the rate of \$2,500 a year.

Orders authorizing the payment, in advance of the appropriation bill, of the pay rolls for clerical assistance in the various county offices

STREET OPENINGS AFTER NOVEMBER 15.

The Superintendent of Streets has certified that public necessity and convenience require that the construction of sewerage works in the following locations be done after November 15, 1909, and Mayor Fitzgerald has given written consent thereto:

CITY PROPER.

North Market st., between Commercial st. and Faneuil Hall sq., entering Commercial st.

EAST BOSTON.

Leyden st., from Breed st. 1,200 feet west-
erly.
Porter st., between a point 60 feet south-
east of Frankfort st. and a point 35
feet southeast of Cottage st.

BRIGHTON.

Market st., between Henshaw and Wash-
ington sts.
Chestnut Hill ave., between Washington
and Dighton sts.
Salt Creek brook, under the Boston &
Albany Railroad, near Ashford st.

Contract for furnishing oats in the Roxbury district awarded to W. P. Whittemore Company at 56½ cents per bushel.

Other bids received were as follows: Landy Brothers, 59 cents.

STREET DEPARTMENT.

Contract for cleaning sewers in various streets was awarded to Richard A. Nagel, the proposals for doing the work being as follows:

	RICHARD A. NAGEL.		HARRIS C. PORTER, JR.	
	Per linear foot.	Time of completion.	Per linear foot.	Time of completion.
Chadwick street....	\$0 11	Feb. 12, 1910	\$0 18	April 1, 1910
Weber street.....	10½	Feb. 11, 1910	11	April 1, 1910
Stony brook valley	12	Feb. 17, 1910	18	April 15, 1910
Hyde Park avenue	10	Feb. 14, 1910	18	April 1, 1910
Poplar street.....	10½	Feb. 17, 1910	18	April 1, 1910
Florence street...	09½	Feb. 18, 1910	11	April 15, 1910
St. Stephen street.	11	Feb. 17, 1910	18	April 1, 1910

PETITIONS FILED WITH THE STREET COMMISSIONERS.

The following petitions have been filed in the office of the Street Commissioners under the provisions of section 28 of chapter 486 of the Acts of the year 1909: Continental Garage, for keeping and sale of gasoline, rear 11 Charles street, Ward 20.

Alfonso Guida, wooden signs at 474A Commercial street, Ward 6.

The Tourbellott Specialty Company, a sign at 8 Franklin street, Ward 25.

Henry L. Kemmo, illuminated sign at 155 Federal street, Ward 7.

Barney & Pond Company, illuminated sign at 633 Washington street, Ward 7.

New England Telephone and Telegraph Company, for leave to erect two poles, Shepard street, Ward 25.

New England Telephone and Telegraph Company, for leave to remove sixteen poles from Hyde Park avenue, Ward 23.

New England Telephone and Telegraph Company, for leave to erect and remove one pole on E street, Ward 13.

Trustees of the estate of Benjamin Adams, for leave to project a marquee from building 5-23 Doane street.

Massachusetts General Hospital, for leave to lay a 4-inch pipe under and across Charles street to connect with the Charles River Basin.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the week ending February 19:

Feb. 15, Lowell School, Centre street, corner Mozart street, Jamaica Plain, Miss May Belle G. Dindman, soprano, Mr. William Howard, violinist.
Feb. 18, Roxbury High School, Warren street; Mr. Robert Seaton, baritone; Mr. Luther March, cornetist.

An important feature of these concerts are lectures by Professor Louis C. Elson, who explains and interprets the programme rendered.

Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at the leading music stores and at drug stores and other places in the vicinity of the different halls.

PERMISSION TO CONSTRUCT.

Permission has been granted by the Mayor to the Superintendent of Streets for the following work in excess of \$1,000 in cost with the department force without competition: House sewers of 12-inch and 10-inch earthen pipe in Washington street, between Williams street and Greenwood avenue, West Roxbury, the estimated amount being \$4,132.

"This work can, in my opinion, be as advantageously done by day labor methods as any work now necessary."

(Signed) GUY C. EMERSON,
"Superintendent of Streets."

In addition to the above, permission was granted to have this work done after November 15, 1909.

CITY FINANCES.

Cash on hand at end of year 1909-10:
For city purposes \$955,388 68
For school purposes 12,711 10
Total \$968,099 78

Amount credited to Water Department from taxes 1909-10 to make good deficit in income \$218,563 49

CITY OF BOSTON.

Area of city, 42.65 square miles, or 27,300 acres.
Miles of streets, 511.60.
Number of buildings, including tenement houses, 97,327.
Tenement houses, including four or more families, 7,000.
Public parks and playgrounds, 2,507.15 acres

DISTRICT MEETINGS.

On Tuesday evening Mayor John F. Fitzgerald and the nine members of the City Council visited East Boston to attend a meeting of citizens at the East Boston High School. The meeting, which was the first of a series of eight announced in the daily papers, was in effect a public hearing on the needs of that particular district, similar to those which are held by legislative committees; but the informal character of the proceedings suggested rather the atmosphere of an old-fashioned town meeting. That the plan satisfied a genuine need was evident from the enthusiastic response made by the citizens themselves and the uniformly favorable comments which appeared in the various organs of public opinion. It has been pointed out that the absence of local representation in the reduced City Council presents certain disadvantages, which may be in part overcome by personal visits to the different districts. There will be less danger of over-representation for any one section of the city if all sections alike are permitted to present their wants and grievances directly to the Mayor and Council. The experience will also be a broadening one for the public officials themselves, especially if, as proposed, the hearings are continued at stated intervals throughout the year. Apart from the value of the suggestions received, which is considerable, a keener sense of responsibility is sure to be awakened when the people and their representatives meet face to face and discuss seriously the achievements, opportunities or shortcomings of the administration in power.

A schedule of the meetings as arranged, with a list of the more important subjects presented for consideration at those already held, follows:

- TUESDAY, FEBRUARY 8.
East Boston High School.
- WEDNESDAY, FEBRUARY 9.
Dorchester High School.
- THURSDAY, FEBRUARY 10.
Charlestown High School.
- FRIDAY, FEBRUARY 11.
South Boston High School.
- SATURDAY, FEBRUARY 12.
Vine Street Church (for Wards 17, 18, 19, 21).
- MONDAY, FEBRUARY 14.
City Hall (for Wards 6, 7, 8, 9, 10, 11, 12).
- TUESDAY, FEBRUARY 15.
West Roxbury High School.
- WEDNESDAY, FEBRUARY 16.
Brighton High School.

EAST BOSTON.
(February 8, 1910.)

EAST BOSTON IMPROVEMENT ASSOCIATION REQUESTS.

- (PRESENTED BY MR. FRANK C. WOOD.)
1. New Meridian Street Bridge to Chelsea.
 2. Additional appropriation for site of new municipal building.
 3. Continuation of time of running boat at North Ferry for teaming, from 6 p. m. to 7 p. m.
 4. Laying out Prescott street to Wood Island Park.
 5. Playground in Chapman School District.
 6. Playground in Lyman School District.
 7. Continuation of Condor street to connect with Shelby street at foot of Lexington street.
 8. Footbridge from Cowper street to point near Wood Island Park.
 9. Resolution asking that contracts made hereafter be let, as far as possible, to residents of Boston, and that the contractors be obliged to live up to same.
 10. Removal of fence at Devonshire street entrance to Washington Street Subway, so that

the East Boston people can get north without payment of another fare.

11. Electrification of steam roads coming into Boston.

(BY MR. THOMAS J. GIBLIN.)

12. Public use of gymnasium and baths in High School building.
13. New Courthouse.
14. Better water supply.
15. Site for girls' high school and public park.

CITIZENS TRADE ASSOCIATION REQUESTS.

(PRESENTED BY MR. JAMES E. MAGUIRE.)

1. Removal of fence at Devonshire Street Station.
2. That ferries be considered the same as highways and bridges, and not as money-making institutions.
3. Boulevard assessment unjust.
4. Proposition to plant trees and remove telegraph poles at space along edge of boulevard.
5. Repairs of streets possibly required in Orient Heights section; general condition of streets good.
6. More sewers at Orient Heights.
7. Correct bad condition of Chelsea creek.
8. Urge Boston & Albany to make railroad connections with Commonwealth dock proposition.
9. Have Meridian Street Bridge high enough to avoid grade crossing.
10. Have Boston & Albany build on private land and avoid grade crossing.
11. Get location for proposed new courthouse and have sightly plans for same.
12. Proposed Boston & Eastern Railroad location and stations referred to.
13. Crystallize through City Council complaints against public service corporations.

(PRESENTED BY MR. NORMAN E. McNAUGHTON.)
Blue print showing proposed development of flats.

ORIENT HEIGHTS IMPROVEMENT ASSOCIATION REQUESTS.

(PRESENTED BY MR. ALFRED J. BEATON.)

1. Resurface boulevard from Saratoga street to the bridge.
2. Fix up Gladstone, Antrim, Boardman and Leyden streets.
3. Afford better fire protection to Orient Heights.
4. Remove fence at Devonshire Street Station.

FIRST SECTION REQUESTS)

(PRESENTED BY HON. WILLIAM J. DONOVAN.)

1. Afford better fire protection to First Section, through larger water mains.
2. Also consider enlarged use of ferries in relation to fire protection and otherwise.

REV. CHARLES A. JACKSON.

1. New courthouse and police station.
2. Open schoolhouses at night for children's study.
3. Consider means to prevent tuberculosis in tenement sections.

MR. JOSEPH J. MURLEY.

1. Remove fence at Devonshire Street Station.
2. Afford better street railway facilities for getting to Wood Island Park, and have a new gymnasium building in the park.
3. Construct new Meridian Street Bridge.
4. Improve streets, particularly at Orient Heights.

MR. HORACE B. BUTLER.

Improve ferry, especially considering desirability of new single terminal on East Boston side, plans for which have been previously suggested.

REP. THEODORE SORENSON.

1. Remove fence at Devonshire Street Station.
2. Consider some way of mitigating exorbitant boulevard assessments.
3. Provide ambulance for East Boston Relief Station. (If not already provided; it has not been in evidence.)
4. Abolish Orient Heights grade crossing.

MR. WILLIAM J. FITZGERALD.

1. Free ferries desirable.
2. Have one or more public landings, where people will have access to the water front.
3. Consider advisability of cleaning streets by flushing, or something of the sort.
4. Location for new courthouse suggested by East Boston Improvement Association (near Columbia Trust Company, owned by Mrs. Sullivan Trust Estate), a good one.
5. Have better system of collecting refuse.

MR. MICHAEL J. CUNNINGHAM.

Have public dumps on marsh lands.

MR. JOHN BRANT.

Endorses Mr. Cunningham's suggestion.

REP. MICHAEL J. BROPHY.

Favors new police station and courthouse; ~~school~~ playground. First District; public library.

MR. FRANK A. GOODWIN.

1. Improved ball ground at Wood Island Park from Parkman fund.
2. Help along bill of \$90,000 before Legislature for additional metropolitan water supply.

MR. VINCENZO BONZAGNI.

Provide better access to Wood Island Park.

MR. GEORGE MURPHY.

Provide better system for collecting garbage and ashes; maternity ward for Relief Hospital; more policemen and firemen; more up-to-date books for the public library.

DISCUSSION AS TO RELATIVE MERITS OF OIL AND WATER ON STREETS.

For Water.—Mr. Dennis A. O'Neil and Mr. John S. Murphy.

For Oil.—Mr. Logan A. McLean.

Mr. James E. Fitzgerald simply thought if oil was to be used, certain of the boulevards should have a soft place for light travel set aside; Mr. Henry F. Howard suggested that the streets might be more thoroughly cleaned before the oil was applied, and Mr. Joseph J. Murley raised a question as to whether a better grade of oil could be obtained. Mr. Guy C. Emerson, Superintendent of Streets, stated that where canvases had been made all over the city in practically all cases the people had favored the use of the oil, adding that it made no difference to his department whether oil or water was used. The department simply wished to please the people.

After passing a vote of thanks to the Mayor and City Council, the meeting adjourned at 10:30 o'clock p. m.

DORCHESTER.

(February 9, 1910.)

HARVARD IMPROVEMENT ASSOCIATION REQUESTS.

(PRESENTED BY MESSRS. THOMAS C. BACHELDER, WILLIAM D. MCKESSICK AND ALPHEUS SANFORD.)

1. Acceptance of Greenwood street between Harvard and Elmo streets. Assessed valuation, \$249,300; and in addition homestead of Mr. Greenwood, assessed, \$21,400. Estimated cost, \$8,400.
2. Acceptance of Wales street between Harvard street and Talbot avenue, a distance of about 535 feet.
3. Acceptance of Kingsdale street between Wales street and Talbot avenue, a distance of about 290 feet. The lower end of this street was recently, September 15, 1909, extended and accepted as far as proposed Wales street extension.
4. Continuous granolithic or brick sidewalk on entire length of Harvard street from Washington street to Blue Hill avenue.
5. Resurfacing and putting into first-class order Harvard street, especially between Blue Hill avenue and Harvard Street Bridge.
6. Resurfacing and putting into first-class order Talbot avenue, especially between Blue Hill avenue and railroad bridge.
7. Better protection against fire. We have now steam fire engine at Harvard street near Washington street and a ladder house on Washington street near Grove Hall. These are from one-half to one mile away from our district, which is now completely covered with wooden buildings.
8. The opening for uses intended of the locker building on Franklin Field.

ASHMONT IMPROVEMENT ASSOCIATION REQUESTS.

(MR. MICHAEL B. MARTIN, President.)

1. The fixing up of Welles avenue.
2. Evening high school for Dorchester.
3. General use of the high school gymnasium by young men of the district.
4. Taking care of the ashes in the Dorchester district in a better way.
5. City yard in the neighborhood of Tenean Beach (Mr. Hunt being willing to dispose of land to the city "at its own price").

SAVIN HILL IMPROVEMENT ASSOCIATION REQUESTS.

(PRESENTED BY DR. M. F. ROGERS, Chairman, AND MR. WILLIAM SMITH, JR.)

1. Extension of Rockland avenue to Savin Hill avenue; a straight approach to the park; land not yet built upon; means of reaching top of hill in case of fire; in winter time Grampian way is impassible for many days.
2. Playground.—Grading, so that the boys may use it; apparatus for play; shelter for

women and children. This playground draws from all of North Dorchester; women bring babies in summer; no place for shelter from sun or rain; entrance to playground could be greatly improved at small expense.

3. Reforesting the park. Brush and dead wood having been cut off, the hill now presents a bare and barren appearance; should have trees planted and walks graded. Mr. Smith suggested bathhouse building for boys.

(PRESENTED BY MR. F. W. MERRICK.)

1. Electrification of steam roads as the only means of obviating congestion.

LOWER MILLS CITIZENS ASSOCIATION REQUESTS.

(PRESENTED BY MR. ALBERT P. HAYCKE.)

1. Sidewalks.
2. Widening of streets (River, Morton, Washington.)
3. Boulevard, after widening of River street, to connect with Blue Hill avenue, and also a playground, baseball field and open air gymnasium on the side.
4. Bridge at Medway street; Fire Department afraid to cross present bridge.
5. Transportation from Lower Mills into tunnel on Washington street.
6. Catch-basins.
7. Grading of streets that need grading.
8. Sidewalks.
9. Public bath house.
10. Post office.

MEETING HOUSE HILL ASSOCIATION REQUESTS.

(PRESENTED BY MESSRS. RICHARD E. JOHNSON AND CHARLES LOGUE.)

1. Dorchester subway.
2. Mt. Ida playground.
3. Convenience stations.
4. New engine house (ladder 7 and engine 17 being poorly housed).
5. Garbage and ashes—abolition of contract system.
6. Sanitary Department for Dorchester.
7. Coleman street, acceptance, laying out and construction from Hendry to Quincy streets.
8. Geneva avenue; push work at earliest opportunity.
9. Hamilton street extension, easterly side of Bowdoin street, extending to Ditson street, giving direct approach to and from Field's corner.
10. Holiday street, acceptance, laying out and construction from Toplift to Bowdoin street, every lot upon this street being built upon.
11. Homes avenue, acceptance and construction.
12. Levant street, acceptance from Toplift street to Geneva avenue.
13. Street cleaning—should be done at regular periods, not haphazard "or in response to vigorous kicks from an indignant public."
14. New primary school, vicinity of Quincy street and Columbia road.

Mr. Logue laid considerable stress on the Mt. Ida playground and employment of citizens in collection of garbage until the Sanitary Division is established.

OLD COLONY AVENUE ASSOCIATION REQUESTS.

(PRESENTED BY MR. JAMES H. STARK.)

For action as soon as possible in regard to Old Colony avenue.

NEPONSET IMPROVEMENT ASSOCIATION REQUESTS.

(PRESENTED BY MR. JAMES H. FARNEY.)

1. Enlargement of bath house, Tenean Beach (now moved by storm), and fresh water at bath house for drinking and shower bath purposes.
2. Place sand on Tenean Beach.
3. Improve surface of baseball field.
4. Place few loads of dirt in school yard.
5. Change present system of collecting garbage.

HARRISON SQUARE IMPROVEMENT ASSOCIATION REQUESTS.

(PRESENTED BY MR. LOUIS M. CLARK.)

1. Bill before the Legislature now to prevent elevation of New York, New Haven & Hartford Railroad tracks through district; want Mayor and City Council to support the object of that bill.
2. Have a better system of collecting garbage.
3. Electrify the steam roads.
4. Put through Old Colony boulevard which, with cars running through the center, will serve the purposes of a subway and be much less expensive.

Mr. Clark said he could not present the needs of the district in detail at this hearing, but asked for another one.

NORTH DORCHESTER IMPROVEMENT ASSOCIATION REQUESTS.

(PRESENTED BY REPRESENTATIVE KELLY.)

1. Put McKenzie Beach Bath House in sanitary condition and have more fresh water there.

2. New street, south side Columbia road from Buttonwood street to Crescent avenue, giving people a chance to ride on the New York, New Haven & Hartford Railroad trains, avoiding congestion on street cars.

3. Improved system of collecting ashes and garbage.

WEST DORCHESTER IMPROVEMENT ASSOCIATION REQUESTS.

(PRESENTED BY MR. H. B. SMITH.)

1. Improved hospital service in Dorchester.
2. Fix up Masters street, where there is a pool that causes a nuisance.

UNITED IMPROVEMENT LEAGUE REQUESTS.

(PRESENTED BY JUDGE MICHAEL H. SULLIVAN, President.)

1. More rigid building inspection.
2. A better system of removing garbage and ashes.
3. Inspection of the garbage receptacles.
4. More fire apparatus, perhaps somewhere about Glenway street.
5. New method of celebrating June 17 and Fourth of July, perhaps by pageant.

LOCKER BUILDING, FRANKLIN FIELD.

(REFERRED TO BY HARVARD IMPROVEMENT ASSOCIATION.)

Mayor Fitzgerald asked the reason why the building had not been opened for use, and Mr. J. C. Clark, President of the Harvard Improvement Association, said the excuse was there was not sufficient money.

Mr. Joseph A. Cahalan said he had found, upon investigation, that the locker building was practically ready for occupancy, except for the concreting of the basement. In connection with the locker building Mr. Cahalan also suggested an outdoor gymnasium at Franklin Field.

MR. JOHN H. CASEY (LETTER).

Favors Wales street extension.

MR. P. F. BURKE.

1. Denounced present contract system of removing ashes and garbage.
2. Favors more sidewalks. Compel owners to put sidewalks in front of vacant property. Mr. Burke thinks the law to that end is now sufficient.

MR. CORNELIUS J. DESMOND.

1. Have Norfolk street done, commencing at Codman square and running out to Mattapan square.

2. Fix Mascot street. (Mr. Desmond here presented a petition of the property owners, citizens and residents upon Mascot street, Ward 24, Precinct 9, for the laying out and construction of Mascot street from Norfolk street to Mountain avenue as a public way.)

3. Favored oiling the streets—"because you won't be troubled by mosquitoes when that oil is around."

4. Criticized method of cleaning certain streets—not cleaned often enough.

5. Doesn't like present method of collecting ashes or garbage, and thinks that at least citizens, men who talk English, should be employed and should get decent wages.

6. In contracts on streets information should be accessible, so that citizens may know what they are getting.

7. All new sidewalks should be granolithic and as much attention should be paid to condition of sidewalks as of the middle of the streets.

8. Condition of streets and sidewalks should be kept up; otherwise property depreciates in value.

9. Have a bigger tax rate, \$20 if necessary, and make the fellows who ought to pay, pay.

10. Do away with "private ways."

MR. J. MITCHEL GALVIN.

1. Electrify the suburban steam railroads.
2. Accept and fix up Southern avenue, where the John Greenleaf Whittier School is.

MR. CHARLES A. UFFORD.

1. Mr. Ufford stated that he had introduced the following bills in the Legislature:

House Bill 48, accompanying petition of Charles A. Ufford for legislation to provide for improving passenger and freight transportation in the cities of Boston and Quincy and the towns of Milton and Hyde park.

House Bill 49, accompanying petition of Mr. Ufford for legislation to provide for improving passenger and freight transportation in the cities of Boston and Quincy and the towns of Milton and Hyde Park.

These bills have been referred to the Committee on Metropolitan Affairs and Mr. Ufford said he would like the help in the matter of the Mayor and City Council.

MR. E. J. COSTELLO.

New bridge, Medway street, Neponset, in interest of proper fire protection.

MR. CHARLES W. BROWN.

1. Remove at once and burn brown-tail moth webs from trees and shrubs.

2. Lay sidewalks, especially on following streets: Harvard, from Washington to Blue Hill avenue, both sides; Waterlow, both sides; Millet, Talbot avenue to Athelwold street, both sides; Talbot avenue, Washington street to the railroad bridge; Washington street, Park street to Grove Hall, both sides; Algonquin street, both sides; School street, east side, (order signed during Mayor Fitzgerald's last term); Athelwold street, both sides.

3. Gas lights needed on following dark streets: Faxon street, Washington to Carmen, private way used as public thoroughfare; Kilton street, from brick block to wooden dwelling houses from Washington street to Harvard street (order passed for same several years ago, —should be in Lamp Department).

4. Accept and construct Kilton street, from Park street to Talbot avenue (petition in Street Commissioners' office several years).

5. Shelters for skaters, properly heated in winter, along Talbot avenue and the speedway on Franklin Field; field should also be suitably lighted in winter and properly policed at all times.

6. Police and Fire Departments should cooperate so that one or two policemen shall always be on duty at each fire engine house in suburban sections, subject to emergency calls.

7. Make provision for removal of garden rakings during summer months.

8. Establish sanitary service to keep streets in respectable condition.

DR. W. D. FULLER.

Lay out Harvard avenue.

MR. A. J. GERRY.

Oil streets more extensively, as a sanitary measure.

MR. P. J. McDONALD.

1. Make Chelsea, Revere and Winthrop pay their share of the county tax.

2. Attend to Neponset Bridge, for which Quincy and the towns south of us should pay their proportionate part of cost of building and maintenance.

3. Playground near Hancock street and Upham's corner.

MR. TREFRY.

Fix up Ballou avenue.

MR. JOHN DALY.

Fix up playground at Field's corner.

MR. SCANNELL.

1. Highway conditions in Mattapan district poor; calling attention especially to Norfolk street and West Selden street, which latter should be made a thoroughfare.

2. Called attention to cars standing in line from Norfolk Street Bridge to Blue Hill avenue.

It was decided, at suggestion of Mayor Fitzgerald, that a meeting be held later at which the formation of a large general Dorchester Association should be considered, for the interests of the whole section.

On motion of Judge Sullivan a unanimous rising vote of thanks to the Mayor and the City Council was passed.

Adjourned at 11 o'clock p. m.

CHARLESTOWN.

(February 10, 1910.)

CHARLESTOWN IMPROVEMENT ASSOCIATION REQUESTS.

(PRESENTED BY MR. AUGUSTUS A. FALES, REV. FR. JOHN W. McMAHON, REV. PHILIP W. SPRAGUE AND MR. PATRICK J. KYLE.)

1. Playground, Ward 5.

2. Library (Rev. Mr. Sprague favoring a large central building and Fr. McMahon small distributed buildings).

3. New municipal building (consensus of opinion among all speakers of the evening that it should be a new building rather than the old building remodeled, that it would not be much more expensive and would be much better in every way, and that the building should contain baths, police and court accommodations, etc.).

COUNCILLOR WILLIAM F. MURRAY.

Favored new municipal building in Monument square, companion building to high school, which should contain baths, library, police and court accommodations.

SENATOR RICHARD S. TEELING.

1. Generally supported recommendations of the Improvement Association, and considered that perhaps the most important thing this year was an all-the-year-around bath in each ward.

2. Properly equip the playgrounds Charlestown already has, and fix up Dewey Beach.

HON. ARTHUR HARRINGTON.

1. Favors the recommendations of the Improvement Association for playground and municipal building, and believes the library accommodations should be provided at once, so that other things could then be started, as the library requests had "jammed" everything. Believes in separate libraries.
2. Replace present asphalt surface in front of St. Mary's Church with wood block paving. Will cost \$1,700, \$270 of the amount to be charged to the Boston Elevated road.
3. In matter of oiling or watering streets, claimed that a request made on the Superintendent of Streets last year for a canvass of the citizens' wishes had been ignored.
4. Provide all-the-year-around bath house and gymnasium.

BROADER USE OF SCHOOL BUILDINGS.

Mayor Fitzgerald suggested that, the city having such expensive buildings as this and other high schools, in the interests of the public it might be well to have a broader use of them, as they were unoccupied, practically, a large part of the time; and later in the evening, at suggestion of the Mayor, a vote was passed that, at times in the future, under proper regulations and after conference with the School Committee, there be public meetings in the hall of the Charlestown High School to consider matters affecting the interests of the district, at which perhaps the councilmen from the district might preside, and at which all citizens interested in the welfare of the community would be invited to be present. It was voted to hold the first such meeting, if possible, on the first Thursday of March.

It was also voted, at the Mayor's suggestion, on motion of Dr. Francis P. Silva, by almost unanimous vote, that an attempt be made to have the gymnasium and baths in the building open to the general public at proper times and under such proper regulations as the School Committee might provide. (A Mr. Reardon said he thought the accommodations were too small.)

HON. DAVID B. SHAW.

1. Seconded the recommendations of the Improvement Association.
2. All-the-year baths and gymnasium.
3. Hospital and relief accommodations.
4. Pave Medford street, which is in a deplorable condition.
5. Fix sewers at Park, Henley and Warren street section, they being in a deplorable condition.
6. Deplored loss of beautiful trees that used to be on the Monument grounds; referred to the desirability of planting trees as conducive to health, and quoted a suggestion of Mr. Olmsted, that the most attractive thing that could be done for the approach to Charlestown would be to plant trees from City square to the Monument, and care for them.
7. Mystic Playground should be enlarged, as was promised and not done years ago, and there should be a permanent floating bath in that vicinity.
8. There is already a good deal of money available in loans and appropriations for Charlestown improvements, although some has been taken away.

If all the things needed by Charlestown could not be done, particular stress should be laid upon a new central municipal building, with baths and other comforts.

SCHOOL ACCOMMODATIONS.

Mayor Fitzgerald suggested that the School Committee is considering raising additional money through the Legislature to provide more school accommodations; stated that he had seen a reference in the papers to conditions in the Prescott district, and wanted to know what the district needed in the way of new school accommodations.

Mr. Fales thought there should be a new Prescott School.

Representative Joseph E. Donovan thought the greatest need of Charlestown was a new Prescott School, although he also favored the recommendations of previous speakers.

Mr. Michael Tierney referred to the lack of accommodations, crowding of children and hiring of outside places.

REPRESENTATIVE JAMES A. HATTON.

1. The grade crossings, which were ordered abolished seventeen years ago, should be abolished.
2. Most necessary appropriation is for Ward 5 playground, and the playgrounds in Wards 3 and 4 are not properly equipped.
3. Fix up Dewey Beach.
4. Petitions to use the gymnasium and baths in the high school building, although almost unanimously representing the wishes of Charlestown citizens, have been turned down by the School Committee.

MR. THOMAS McCULLOUGH.

Provide drinking fountain on the Training Field; suggestion seconded by Father McMahon.

MR. JEREMIAH P. O'RIORDEN.

1. Chelsea street—widen and put in good condition.
2. Pay attention generally to Charlestown water front.
3. Provide better hospital facilities.
4. Provide library and new municipal building.

MR. PATRICK B. CARR.

1. Widen Chelsea street.
2. Remove grade crossings—which the City Council can have done, under an opinion of the Corporation Counsel, through the courts.
3. Sell certain parts of land not used by the city, except to procure rentals—such as old Winthrop School, merely used as a ward room and by a colored company of the militia; land corner Lyndebero and Essex streets; land on Rutherford avenue; old public library and courthouse; old fire station on Winthrop street (erecting new engine house).
4. Erect on old common at Sullivan square building for a courthouse, rest of the building to be used for some other public purposes.
5. Pave Medford street.
6. Provide a better system of disposing of refuse.

REPRESENTATIVE HAYES.

1. Remove elevated structure along Main street.
2. Where money by appropriation or loan is received for Charlestown see that it is spent here.
3. Fix up Dewey beach.
4. Widen Rutherford avenue five or ten feet for teaming.

EX-COUNCILMAN MULLEN.

Tunnel Bunker Hill.

REPRESENTATIVE FRANCIS M. DUCEY.

1. Provide better car service on surface cars; requests to roads continually ignored.
2. Playground for Ward 5.
3. Fix up Dewey Beach, for which the speaker had repeatedly got an order for \$50,000 through the Common Council of 1909, which had been blocked by the Board of Aldermen.

MR. BENJAMIN J. A. GREEN.

Mr. Green, foreman of the Street Watering Department, explained the difficulties and causes of delay in his work in Charlestown—shortness of men and horses, long hauls, etc., and taking his help away from the district.

REPRESENTATIVE WILLIAM J. MURRAY.

1. A one-track system for cars on Chelsea street, under an agreement with the road, may obviate the necessity of widening the street, which will cost \$200,000.
2. Improve conditions on Chelsea Bridge; dangerous at present, and traffic is delayed.

COUNCILMEN BUCKLEY AND McDONALD.

Councilmen Buckley and McDonald addressed the meeting, assuring those present that they would do all they could for Charlestown in the lines indicated by the speakers, although they warned those present that the interests of the whole city would have to be considered by the Mayor and City Council.

At suggestion of Rev. Philo W. Sprague, a unanimous rising vote of thanks was extended to the Mayor and City Council for attendance at this meeting.

Adjourned at 11 o'clock p. m.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH:

- 1910.
- February 15. Metropolitan Park Policemen, Class 16.
- March 21. Foremen of Laborers, Inspectors of Work, Class 22.
- March 22. Sub-foremen of Laborers, Class 23.
- March 28. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON:

- 1910.
- March 21. Foremen of Laborers, Inspectors of Work, Class 22.
- March 22. Sub-foremen of Laborers, Class 23.
- March 28. Prison Watchmen, Class 17.
- March 29. Janitors and Engineers of Public Buildings, Class 24.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth; and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and, when filled out, should be filed in the office of the Commission.

In order to receive a notice to appear at any of the above scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

By order of the
MASSACHUSETTS CIVIL SERVICE COMMISSION,
WARREN P. DUDLEY,
Secretary.

REBUILDING OF CURTIS HALL.

The Curtis Hall building which was occupied by the Library Department as a branch library and also contained a large hall used for public meetings, etc., was badly damaged by fire on the night of December 14, 1908.

With a view to more fully meeting the requirements of the district, the structure now in process of erection is to be equipped as a gymnasium, with shower baths, swimming pools, etc., to be maintained by the Bath Department, in accordance with plans made last year when \$75,000 was transferred from the Public Buildings Department to a special appropriation for this purpose.

As no provision could be made for housing the branch library in the old building, it was decided to erect a new building for this purpose on the Curtis Hall lot, and an appropriation was made for this purpose. A contract has already been awarded for the erection of this building.

CLASS HOURS, MUNICIPAL GYMNASIUMS.

The class hours of the several municipal gymnasiums are as follows:

At the Cabot Street Gymnasium, Roxbury; Ward 16 Gymnasium, Municipal Building, Columbia Road, Dorchester; D Street Gymnasium, Commonwealth Park, South Boston; North Bennet Street Gymnasium, City Proper:

Monday and Thursday for women and girls. Class hours: Mothers' class, 10 to 12 a. m.; school girls, 4 to 6 p. m.; ladies' class, 8 to 10 p. m. Tuesday and Friday for men. Class hours: 8 to 10 p. m.

Wednesday and Saturday for boys. Class hours: Wednesday, school boys, 4 to 6 p. m.; working boys, 8 to 10 p. m. Saturday, school boys, 10 to 12 a. m. and 4 to 6 p. m.; working boys, 8 to 10 p. m.

Ward 7 Gymnasium, 75 Tyler street, City Proper. Schedule the same as the four gymnasiums above with the exception that Tuesday and Thursday are for women and girls and Monday and Friday for men.

Ward 9 Gymnasium, corner Harrison avenue and Plympton street, city.

Monday and Thursday for women and girls from 10 a. m. to 6 p. m. Class hours: School girls, 4 to 6 p. m.; men, 8 to 10 p. m.

Tuesday and Friday for men all day. Class. 8 to 10 p. m.

Wednesday and Saturday for boys. Hours same as all other gymnasiums.

INAUGURAL ADDRESS OF MAYOR FITZGERALD.

DELIVERED TO THE CITY COUNCIL IN FANEUIL HALL, FEBRUARY 7, 1910.

INTRODUCTION.

Eighty-eight years ago the first Mayor of Boston took his oath of office in Faneuil Hall. The number of citizens whose suffrages conferred this high distinction upon him was scarcely greater than the number of those assembled to-day to witness the installation of his latest successor. In the meantime Boston has overflowed its original boundaries; its tall buildings rise higher than the hills of old Trimountain; its tunnels and subways promise to rival the catacombs of ancient Rome. It speaks well for our sense of reverence that, amid all these transformations, this ancient landmark has been preserved, revealing in its simple outlines and modest dimensions the taste and conception of a bygone day.

For if Faneuil Hall in its exterior aspect serves as a reminder of inevitable flux and change, it appeals to the mind far more potently as an emblem of civic constancy. Within this temple, every true Bostonian feels, night and day, as on some immutable altar, the flame of liberty is kept burning. To its doors millions have resorted, assured that the very atmosphere of the shrine would lend a peculiar efficacy to their espousal of noble causes. From this platform a thousand guests, tribunes and liberators from foreign lands, have recited their tales of oppression, and passed on fortified by the eager sympathy of the people of Boston. Here, too, our own spokesmen of humanity have challenged tyrants and pleaded for the voiceless slave. What a stately galaxy they form,—Otis, Hancock, the Adamses, father and son, Webster, Sumner, Wilson, Andrew, and, not the least beloved, Wendell Phillips, whose public career began with an apostrophe to these historic portraits, among which his own likeness is now thought worthy to hang.

They are serious figures, these portraits of the great citizens of Boston. There are few glittering uniforms among them. Their uplifted hands clasp no deadly implements of war. Theirs was the higher courage, the more heroic sacrifice of daily lives absorbed in beneficent tasks and dedicated to everlasting principles. Though their lips are silent, their influence lives, and in the hour of trial we instinctively turn to them for inspiration and example. Let us, therefore, before we pass to our own immediate problems, salute these illustrious figures,—guardians of the sacred fire, presiding elders of the city's invisible council, whose names constitute a roll of perpetual honor inscribed in the heart of every loyal citizen of Boston.

It has seemed fitting that our first step, under an untried charter, should be to repair for inspiration to this shrine of our ancient civic faith. Here, if anywhere, the mood of solemn responsibility should descend upon us, and our oath of office become something more than an empty form. These silent witnesses on the walls, those fluted pillars,—enduring replicas of the early Bulfinch design,—the gilded balcony clock, purchased sixty years ago by the pennies of Boston's school children, all the sacred memorials around us, hallow the scene and lend support to our good resolutions. The presence of a large and representative gathering of our fellow citizens adds to the impressiveness of the occasion and testifies to the widespread interest taken in the administra-

tion of the city government at this turning point in the history of Boston.

THE NEW CHARTER.

The inauguration of the first city government under the amended charter not only marks an epoch in the history of Boston but an important departure in municipal government in America. For the first time since Boston became a great city, our citizens have nominated and elected their Mayor and City Council without the intervention of national party organizations; they have held a municipal election from which party issues, influences and designations were excluded not only by law but in practice. No other American city of anything like the size of Boston has ever tried such a radical electoral experiment.

It is not our part, as the first officials elected under the new system, to declare at this time whether its first trial was a success or a failure; but it will be our duty, by our performance of the respective official duties now placed in our hands, to enable the people to judge intelligently whether the nonpartisan system commends itself by its fruits. They can fairly expect us to be constantly mindful of the fact that no obligations to political organizations or to party leaders can now be urged as standing in the way of such performance of official duty as will best promote the interests of all the citizens of Boston. If we are able to prove that the exclusion of the national parties makes for better and more efficient municipal government, Boston may lead the way in the path of municipal progress in this country.

Under the party system of municipal government financial and administrative defects and abuses had in the course of years grown up at City Hall. While these were no worse than similar conditions and practices then and still existing in other cities of the Commonwealth, they affected the expenditure of larger sums of money and a public demand developed for the introduction of improved methods in connection with our finances and expenditures. The city government of the year 1907 is entitled to the credit of being the first to take action, supported by a liberal appropriation from the city treasury, for securing an effective inquiry into conditions long known to exist in our municipal administration, with a view to the application of proper legislative remedies. The fact that the action of the city in this matter was subsequently supplemented by the Legislature, through granting the commission appointed by the city broader powers than the city was itself able to confer, in no way detracts from the credit due the city government of that year for initiating the movement which has now resulted in what is conceded to be a great improvement in our municipal conditions.

Whatever views the citizens of Boston have entertained as to the merits of the various new features now incorporated into the charter, the plain duty that now lies before us is to give each and all of the new provisions a fair trial, according to the intent of the Legislature. Unless some obvious errors or deficiencies require immediate remedy, we should postpone efforts to secure further legislative changes at least until the new machinery of our government has been in operation for a

year. Municipal government advances by experiment, and so far as the ideas contained in the charter amendment act are novel and untried, at least in a city as large as Boston, they should be regarded as theories deliberately adopted by the Legislature, demanding a long enough trial to enable an intelligent opinion to be formed as to their practical results. However much any of us may regret that the voters of Boston were not allowed a larger part in the framing or the adoption of the charter amendments, it is now our duty to bow to the authority of the law and try to make the whole charter work for the good of the citizens of Boston who have elected us to represent them.

CONCENTRATION OF POWER.

In another respect also is the change in our city government which takes place to-day a unique one. No other great American city has ever elected such a small number of officials to exercise all of its municipal powers. The legislative powers of the city, formerly divided between two branches of the City Council consisting of thirteen and of seventy-five members respectively, are now concentrated in the hands of nine councilmen, elected at large. This may fairly be said to place in commission the legislative power of the city, which is chiefly that of passing ordinances and making appropriations of money; it is not, however, the so-called commission form of government which is being adopted by many western and southern cities of much smaller size than Boston. The essence of the commission form of government is the uniting of executive and legislative powers in the same hands,—the same officials who make the municipal appropriations also being responsible for the administration of the departments which spend them. Our charter amendments, wisely as I believe, not only preserve but still further emphasize the distinction between these two branches of municipal government.

Many of our citizens, probably a considerable majority of them, have distrusted or feared such a great concentration of power as is involved in reducing the number of municipal officials chosen by the people of Boston to fifteen men,—a Mayor, a City Council of nine and a School Committee of five. Whatever our individual opinions may be as to the desirability or permanency of such a policy, with the entire elimination of ward or district representation, it is now our clear duty to give the people of Boston the best results which the new municipal machinery can produce.

SUMMARY OF CHANGES.

The changes which the amended charter makes in the organization of the legislative branch of our city government, and in the method of nominating and electing its members, are now well understood. Our citizens are less familiar with the important changes which go into effect to-day in the respective powers of the Mayor and of the City Council, in the regulation of the finances of the city, and in the administration of the municipal business. It seems an appropriate occasion to lay before the City Council and the public a brief summary of the more important of these changes.

In several important respects the powers and responsibilities of the Mayor are materially enlarged; in some others the Mayor and the heads of departments, constituting the executive and administrative government, are subject to restrictions and limitations not imposed upon them in the past. The powers

heretofore vested in the City Council are materially enlarged in respect to the reorganization and consolidation of departments; but the new City Council loses the power possessed by the Board of Aldermen of confirming or rejecting the Mayor's nominations, also the power formerly vested in that body of acting upon petitions for various locations and permits. Two new authorities directly representing the state government are now introduced into the machinery of our city government,—the Finance Commission and the Civil Service Commission,—the former body having only advisory powers, the latter body having very important discretionary powers, heretofore given only to the upper chamber of a legislative body.

The share of the executive in the legislative power of the city is increased in two important respects,—one of them negative in character, the other positive. The veto power of the Mayor is made absolute, the former right of the City Council, almost universally enjoyed by legislative bodies, of re-passing a measure by a two-thirds vote over the veto of the executive, being now taken away. The Mayor must, therefore, in future share the responsibility for the passage of every order, appropriation or loan, without exception. The Mayor is also given the sole legal power to originate every appropriation to be met out of taxes or revenue, and the City Council has no power to increase any item of such an appropriation without his consent; but the affirmative action of the City Council is required before any appropriation of money can be made. The Mayor is now absolutely responsible for the budget covering the maintenance expenditures of the city departments; but the City Council retains final power to decline to pass, or to reduce, any item of which it does not approve.

Although the City Council is thus deprived of some of its former powers, it is given a share in the exercise of one function which has hitherto been reserved wholly to the executive. The Mayor can no longer authorize any contract for street lighting, or for the collection, removal or disposal of refuse, extending over a period of more than one year unless approved by the City Council after a public hearing. To this limited extent the City Council is given a voice, outside of its power over appropriations, in the control of administrative business of the city. The City Council is also given the new right, which may prove of much practical importance, of requiring the Mayor, either personally or through the head of a department, to attend a meeting of the council and answer questions of which notice has been given in advance relative to any matter coming within its jurisdiction.

APPOINTMENTS BY THE MAYOR.

An important change is made as to the appointing power of the Mayor. Heretofore his appointments have been subject to confirmation by the Board of Aldermen, in the cases where any approval was provided for; but the Legislature has, within recent years, excepted many positions from this requirement. The Mayor was not obliged to do anything except name his appointee. Now the Mayor is obliged, in the first place, to sign a certificate declaring that he makes the appointment "solely in the interest of the city"; this clearly excludes such partisan or personal considerations as have in the past often influenced appointments at City Hall, under all administrations. But this is only one requirement; the

Mayor must also certify that his appointee is either "a recognized expert in the work which will devolve upon him," or that he is "specially fitted by education, training or experience to perform the duties" of the office for which he is named.

And this is only the preliminary step. Before the appointment so made by the Mayor can take effect, the name of the proposed appointee must be forwarded to the Civil Service Commission and that body "must make a careful inquiry into the qualifications of the nominee" to determine whether he is a "competent person, with the requisite qualifications." A majority of the commission must certify that such inquiry has been made, and that their opinion agrees with the statement in the Mayor's certificate, namely, that the appointee is either a "recognized expert" or "qualified by education, training or experience" for the office in question, and that they "approve the appointment." The law does not even require affirmative action by the commission, as it is provided that the mere failure to file this certificate of approval within thirty days renders null and void the appointment which the Mayor has attempted to make.

By this provision the charter imposes upon the Civil Service Commission a more specific and exacting duty than was imposed upon the Board of Aldermen in its exercise of the power of confirming or rejecting the Mayor's appointments. The members of the commission cannot merely vote yes or no, as the aldermen could, upon the Mayor's appointments; they are compelled to inquire into competency and qualifications, not indeed by means of an examination of the same kind as that held for the making up of eligible lists, but under rules established by them and approved by the Governor and Council. Such rules have already been approved, and they provide among other things for an inquiry into character, as well as into qualifications, and for the furnishing to the commission of all information or papers in the possession of the Mayor relating to the appointee.

It should be noted that the above provision applies alike to salaried and to unsalaried positions. No one can now be appointed a member of an unpaid municipal board, such as the City Hospital Trustees or the Library Trustees, without obtaining the approval of the Civil Service Commission. This ought not to mean in practice that no one can be appointed to serve the city without pay in such a capacity who is not already specially informed in respect to the work to be under his charge. Such a requirement would have excluded from the service of the city many men whose unselfish work has been of the greatest value to the community. The theory under which certain lines of city work are administered by unpaid boards is that men of successful experience in the professions or in business are fitted to supervise and direct the operation of important departments, through qualified, salaried subordinates, without having to be experts themselves in the lines of work under their charge. It would be unfortunate if any interpretation should be put upon the charter so narrow that it would exclude from original appointment men and women of the type now serving on some of our most important municipal boards.

CONTRACTS.

The amended charter also imposes important limitations upon the powers hitherto given to the executive officials of the city in respect to the awarding of

contracts without advertisement. Contracts involving the expenditure of \$1,000, instead of \$2,000 as formerly, must be advertised by the head of the department, unless the Mayor gives written authority to do otherwise. The important additional requirement is also now imposed that this authority cannot be given unless the head of the department furnishes the Mayor with a signed statement "giving in detail the reasons for not inviting bids by advertisement," and this statement must be published in the *City Record*. The practical effect of these new provisions will be to make advertising for bids the fixed practice of the city as to all contracts involving the expenditure of \$1,000 or more, with rare exceptions in cases where the reasons for a departure from the rule are so obvious that their force is not likely to be questioned. This will establish a practice for the city widely different from that which has prevailed at City Hall since the adoption of the amended charter of 1885, and wholly at variance with that of great private corporations, which rarely advertise their contracts,—a practice not followed by the State of Massachusetts or by most of its cities. Whether this policy will give satisfactory results to the citizens of Boston experience alone will determine. The discretion of heads of departments to accept such bid as may seem to them best for the city, whether the lowest bid or not, remains unchanged.

FINANCIAL POWERS OF THE MAYOR.

There is an impression that all or most of the current expenditures of the city fall directly under the control of the Mayor. The truth is that, even under the new charter, his effective financial jurisdiction is still limited to departments expending only a fraction of the total amount raised by taxation. He has no control over the requirements for interest and sinking funds, amounting to 16.9 per cent of the total expenditures. The expenditures for school purposes, which have doubled in fifteen years, amount to 14.2 per cent, and are likely to increase this year to more than 15 per cent. Those for the Police Department amount to 7.4 per cent. Both these departments are managed by public officials not responsible to the Mayor. The efficiency of the Fire Department, which requires 5.4 per cent of the entire expenditure, can not well be reduced. These four items alone, namely, debt requirements, education and protection of life and property, consume 43.9 per cent of the total yearly expenditures. The state tax and metropolitan assessments consumed in 1908 an additional 17.3 per cent, and the county tax 5.4 per cent, leaving only 33.4 per cent of all current expenditures, outside of the Fire Department, under the personal authority of the Mayor. Of this 33.4 per cent, 3.5 per cent is devoted to libraries and recreation, 3.6 per cent to lighting and engineering, 6 per cent to charities and correction, 4.5 per cent to general government, 5.1 per cent to miscellaneous purposes. The Street Department, exclusive of the Lamp Division, spends only 10.7 per cent of the total. So that the most radical retrenchment in this department, which has been made the object of special attack, could not materially reduce the total of the yearly expenditures of the city. Those who speak lightly of saving millions of dollars have evidently only the vaguest conception of the true situation.

FINANCIAL STATUS OF THE CITY.

Among the causes of the recent civic awakening, evidences of which are seen on

all sides, one claims particular consideration. The financial obligations of the city have recently been painted in alarming colors. Far-reaching extravagance and corruption have been charged, and the public mind, or a portion of it, has become saturated with apprehension and suspicion on this score. It is my duty, first of all, to address myself to this grave subject and to substitute a clear understanding of the real situation for the exaggerated impressions which have obtained a wide circulation and credence.

In considering the expenditures and the debt of Boston we must discard once for all the per capita basis of calculation. Boston is not a village or a provincial town. It is at once the capital and the market of Massachusetts and the chief seaport of all New England. Its wealth exceeds that of any city of equal population in the United States, if not in the world. It owes to its children the highest type of education, and to its adult citizens every modern facility and convenience. It harbors a huge nonresident population by day and throughout the evening. Its streets are worn by the wheels of an enormous traffic, and it absorbs the intemperance and the crime, as well as the trade and recreation, of a wide encircling area. In a word, all the intensified life of a great modern metropolis, ministering to an actual population almost double the number of its inhabitants, is exhibited here, and this circumstance, which is doubtless one source of our exceptional wealth, must in the nature of things affect our scale of expenditures. To measure these on any other basis than that of the city's valuation is to adopt a standard which would never be applied to any individual, business corporation, or nation.

TAXATION AND DEBT.

The touchstones of financial integrity are the tax rate and the ratio to valuation of current expenditures and of debt. In the study of municipal statistics recently issued by the State Bureau of Labor Statistics, it appeared that the tax rate of Boston during 1906, which happened to be the first year of my last administration, was lower than that of any other city in the state, except Springfield. The rate of current expenditures—which covers, substantially, the cost of the city departments,—was absolutely the lowest in the state. The city debt rate was lower than that of ten other cities, and even when the metropolitan debt is included, it was only slightly greater than the average for the forty cities and towns in the metropolitan district. It will be said that our tax rate, whatever the comparison with other cities may show, has been increasing from year to year, and that a comparison of our present debt with the debt of fifteen years ago offers food for sober reflection. But I submit that any such retrospective view must take into account the causes of recent increases and recognize their operation over a far wider field than the political boundaries of Boston. The truth is that the State of Massachusetts, and many of her cities, have embarked upon large schemes of public improvement which have necessitated liberal expenditures of the public money. No city in the Commonwealth has more than doubled its current expenditures in eight years, and more than quintupled its debt in sixteen years, but this is the record of the Commonwealth itself. The tax rate of Boston rises and falls with the state tax. The debt of Boston is in large part a debt created by special enactments of the Commonwealth, outside the statutory debt limit, and much of it under methods of

metropolitan apportionment which we have always maintained to be unjust.

Ten years ago the rate for the state tax assessed upon Boston was 61 cents; in 1909 it was \$2.42. The county tax rate increased in the same period from 95 cents to \$1.11, while the tax rate for city purposes actually decreased from \$13.10 to \$13.05. These figures, owing to a slight change in the basis of computation, are somewhat too favorable to the city, but the relation between these three items is substantially as shown by them. In other words, practically the whole of the increase in the tax rate of Boston has been due to the increased expenditures of the state, and not to those of the city departments. The expenditures of the latter have merely kept pace with the rise in valuations.

The net city debt, with our share of the net metropolitan debt added, is at present \$107,773,547.69, or about 8 per cent of the valuation of the city. Of this total, \$29,249,933.61 is debt incurred within the debt limit, \$42,096,038.97 represents debt incurred outside of the debt limit, every dollar of it requiring a special act of the Legislature, and \$36,427,575.11 is the city's share of the metropolitan debt. The city debt, exclusive of metropolitan indebtedness, is \$71,345,972.58. The figures and the percentages are large but not staggering. The city of New York, for example, is allowed by law to incur a debt, exclusive of transit obligations, amounting to 10 per cent of its real estate valuation.* If the rapid transit debt of Boston, which is expected to extinguish itself through the rental charged to the transportation company, be deducted, our debt, independent of metropolitan obligations, is only a little more than 5 per cent of our real estate valuation, or one-half the limit set by New York.

The assets of the city, consisting largely of public improvements for which the debt was contracted, must be taken into account in a statement of its liabilities. In cities like Baltimore and St. Louis, which have small indebtedness, the assets are, as we might expect, correspondingly slender. A city cannot own parks, waterworks, schoolhouses, hospitals, boulevards and other agencies of progress without paying for them; but, on the other hand, if it has invested in these public utilities, it is absurd not to include them among its tangible resources.

For all this, the present indebtedness of the city is a serious reality which I would lay before you for earnest consideration to-day. There is one way, and only one to check its growth. If our citizens could refrain from demanding loans outside the debt limit, except for improvements that are absolutely necessary and of a productive character, the debt would increase more slowly than in the past. If we could reduce the annual borrowings to an amount equal to the annual growth of the sinking funds, the city debt would at once become stationary. Efforts in this direction will be assisted by a recent act of the Legislature which forbids loans outside the debt limit except for certain specified purposes. Some such radical step must obviously precede the positive reduction of the debt, which has been called for by many critics, who, however, seldom favor us with specific directions as to how this result is to be accomplished. Fundamentally, it rests with the people of Boston. If they desire loans for municipal purposes beyond the limit fixed by the growth of valuations of property, then the total debt, which has already passed the hun-

dred million dollar mark, must continue to increase faster than our ability to bear its charges.

STATE AND METROPOLITAN CHARGES.

I have already glanced at the rapid rate of increase in the debt and expenditure of the Commonwealth, an increase far exceeding that which has taken place in Boston. Our interest in this subject is direct, since, as I have shown, the rise in the Boston tax rate is due almost wholly to the rapid increase of the state tax. The responsibility for this condition should be placed where it belongs, and, now that the city has recently made an effort to retrench, the attention of economists might well be directed for a time to the financial extravagance of the Commonwealth.

Besides the tax rate, there are other impositions and burdens which the city is obliged to bear as a result of its relation to the Commonwealth and to the metropolitan district. For two years I advocated before the Legislature measures embodying a redistribution of the corporation tax. Tardy and imperfect justice has at last been done, and during the year 1909 the receipts of the city from this source increased approximately a hundred and fifty thousand dollars as the result of the adoption of a new method of distribution. This method gives a partial recognition to the principle that the tax should be returned to the city or town where the corporation does business, and not wholly to places where stockholders happen to reside. But it goes only half way, leaving 50 per cent of the tax to be distributed under the old system. That system favors a small group of residential towns, largely unproductive as far as the industries of the Commonwealth are concerned, and deprives not only Boston but most of the large industrial centers of revenues which they can ill afford to lose. This is only one phase of the larger problem of the taxation of personal property, more and more of which seeks those favored rural retreats in which the charms of delightful landscape and exclusive society are enhanced by a low tax rate and accommodating assessors. How men of high standing in the community can evade their civic obligations, and proclaim that the responsibility rests upon the public officials to outwit them in their ingenious devices for evasion, is a subject for moralists to consider. The taxpayer of ordinary means, whose property usually stands in full view, has no such opportunity and makes no special study of the fine art of circumventing the law. Fortunately some of this concealed property has recently been brought to light, and Boston last year benefited considerably as a result of these disclosures. I shall make every effort to further these profitable investigations.

The city supports a separate Normal School at a large annual expense, yet pays its proportionate share, a sum amounting in 1908 to about \$138,000, of the cost of the ten state normal schools. The automobile tax is added to the State Highway Fund, practically none of which is expended for the benefit of Boston, although its park roads and boulevards are crowded with motor vehicles and the city is under a heavy additional expense for maintenance in consequence. The city is also taxed for state highways in distant counties, but its own highways are built from the proceeds of local taxation. Nearly the whole of the county tax is assessed upon Boston, although few will be found to dispute the proposition that Chelsea,

Revere and Winthrop should in justice be charged with their share of this burden.

The heavy burden of the metropolitan charges, and the unjust apportionment of them among the different communities that make up the metropolitan district, have been the constant theme of my predecessors in office, but at present there seems to be no immediate prospect of alleviation or redress. Boston is thus charged with an indebtedness of more than \$36,000,000, or 64 per cent of the total metropolitan debt. She provides a magnificent park system,—including the Common and the Public Garden, Marine and Franklin Parks, Jamaica Pond and the Fens,—which is freely used by visitors from the entire metropolitan area. The cost of the Boston park system is 86 per cent of the entire cost of municipal parks in the metropolitan area; yet Boston is also obliged to pay five-eighths of the cost of the metropolitan parks, including the cost of sea walls and bridges in the outlying towns. This excessive charge, which includes the cost of maintenance as well as of construction, makes heavy inroads upon our annual tax levy.

SPECIAL FINANCIAL BURDENS.

Besides these direct impositions, there is an indirect drain upon the resources of the city, due to its situation at the center of a populous metropolitan district. The Boston Police Department serves to a great degree as a metropolitan force, which is, however, wholly supported by Boston. In 1908 38 per cent of all the arrests made in Boston, and about 48 per cent of all the arrests for intemperance, were of nonresidents. Thirty years ago the proportions were about one-half these figures. As a result the city is under an additional expense amounting to several hundred thousand dollars annually. Its police force must be maintained at a strength able to cope with this great influx of nonresident inebriates and offenders, while at the same time the necessity of concentrating the patrolmen in the downtown stations renders it difficult at times to provide adequate protection for the outlying residential districts. Station houses have to be built on a larger scale to care for the twenty thousand nonresident inebriates who are locked up annually in their cells. The dockets of the minor courts are crowded with these cases, and the county expenses, nearly all of which are borne by Boston, are correspondingly inflated. Finally, these unfortunates are sent in large numbers to our House of Correction, and there supported during the period of their confinement at the expense of the people of Boston. At the present time there are no fewer than three hundred and thirty-eight nonresident prisoners in that institution, and the cost of supporting them is more than \$1,000 a week. The cost of station houses, court accommodations and employees, and of the extra patrolmen required by these conditions, can scarcely be computed with precision, but it would surely be several times that figure.

The Boston Fire Department incidentally affords protection to several of the adjoining municipalities. The bulk of the apparatus is located within striking distance of several surrounding cities and these naturally rely upon the well manned and splendidly equipped Boston force as an auxiliary to their own departments. Cambridge and Somerville are, in fact, nearer the business district where the Boston apparatus is necessarily concentrated than are the remoter sections of Dorchester and West Roxbury.

The recent additions to the County Courthouse remind us that the volume of business transacted in Suffolk County is out of all proportion to its relative population. For one reason or another attorneys prefer to bring their cases here, and the attendant expense is, once more, charged upon the taxpayers of Boston. It is high time that Boston should get some relief in this matter.

I need not speak at length of the use made by an army of nonresidents of our public baths and gymnasiums and of our public library; or of the 73,000 metropolitan nonresidents who earn their livelihoods in Boston. Enough has been said to establish my position that in its relation not only to the state, but to the surrounding cities and towns, Boston bears many financial burdens which are not properly her own. The nonresident taxpayer who laments his inability to shape the governmental policies of this city, while enjoying the comfortable tax rate of Brookline, may reflect that the corporation tax of Boston, diverted from its proper channels, has contributed to keep his local tax rate low, and that Boston in other ways makes a considerable return for such benefits as he may confer by conducting his business within her borders.

METROPOLITAN IMPROVEMENTS.

The report of the Metropolitan Improvements Commission, made to the Legislature of last year and now referred to a quadruple joint board, consisting of the Railroad, Harbor and Land, Transit and Metropolitan Park Commissions, is a very important public document. It affords a comprehensive basis for further investigation and for practical action which should not longer be delayed. The fact that the City of Boston was directly represented upon this commission, two of its five members having been appointed by me as Mayor in 1907, should give our city government a special interest in the outcome of its work.

The quadruple board in its preliminary report to the present Legislature has already made one recommendation of great importance. It has asked that the opinion of the Supreme Court be taken as to the limits within which land-takings in connection with a public improvement must be confined in order to be constitutional. The present law only permits the taking of those estates of which some part at least falls within the lines of a proposed improvement, such for instance as the widening of a street. If the Court should give an opinion that estates could be taken, under proper conditions, even if wholly outside of the area of the proposed improvement, such an enlargement of its powers would be likely to prove of much practical value to the City of Boston.

It has been possible to carry through great and expensive street improvements in some other cities, of which the widening of the Strand in London is the most notable example, only through the power of the municipality to take all of the property which would be enhanced in value by the improvement. Experience has shown that it is impossible for the city to obtain the benefit of such increased value by means of a benefit assessment, and the statute now limits such assessment to one-half of the actual benefit. If the city can obtain the right to realize the whole enhanced value of real estate directly benefited by a public improvement, so that this amount can be applied toward meeting the cost of the improvement, much can be done which is now financially impossible.

The work of the quadruple joint board

cannot fail to further emphasize the unique advantages of our water front and harbor. The model which the Board has prepared of a proposed development of the Commonwealth pier at South Boston for steamship traffic, both for passengers and freight, brings out these advantages in a striking manner. It shows how at a moderate expense this pier can be developed to afford better facilities for the separate handling of passengers and freight, on different levels, with direct transfer to and from trains, than can be found anywhere in this country. Everything possible should be done to further develop Boston as a port for transatlantic passengers.

In connection with the fuller development of our water front it is well worth while to endeavor to obtain from Congress the legislation which would be necessary to enable us to establish here such a free port as has contributed so greatly to the commercial development of Hamburg. No city in this country possesses such facilities and advantages as Boston can offer for the establishment of a large bonded area on the water front in which goods can be manufactured, warehoused and transhipped free from all tariff restrictions.

METROPOLITAN COUNCIL.

Believing that all the metropolitan cities and towns have certain interests in common, I favored in 1906 a bill designed to create a metropolitan council, composed of the mayors and chairmen of the Boards of Selectmen within the metropolitan area. I still advocate the creation of such a body and believe it could accomplish much good, especially in maintaining a close watch upon legislation and uniting the members of the General Court from the metropolitan district upon issues affecting the district as a whole. Legislation based upon the report of the Metropolitan Improvements Commission—especially bills relating to the great questions of terminal improvements and circumferential thoroughfares—might occupy a conspicuous place in the deliberations of such a council.

PUBLIC HEALTH.

The conservation of material resources and the prevention of their waste and exhaustion is now commanding national recognition and adoption, and federal and state legislation is carrying this policy into effect. The conservation of our human resources, of the lives, health and well-being of the people, is at least as urgent a need, and a large part of this work comes within the province of the municipal government. The protection of the public health and well-being through modern methods of sanitation is now recognized as one of the most important functions of every great city. To say nothing of human suffering, the enormous waste and loss which is involved in the failure of the community to fully apply the safeguards which science has now taught us is more and more commanding recognition. We are learning the lesson that most of the suffering of humanity is preventable; and men, women and children are at least as well worth protecting as minerals, forests and streams.

The committee of one hundred on national vitality, appointed by President Roosevelt and widely recognized as an expert body, has found that on the average about 4 per cent of the population is more or less disabled by sickness and that about one-half of this sickness can be prevented by proper action on the part of the public health authorities. On this basis no less than 24,000 of the people of

Boston are disabled by sickness, and if one-half of this sickness is preventable, 12,000 of our people can be saved from the burden of expense, the misery and the danger of death which disease brings with it. Statistics show that more than 50,000 men, women and children now living in Boston will probably die of tuberculosis alone unless sweeping preventive measures are taken. Many thousand more will die of typhoid, influenza and other diseases, the death rate from which can be considerably reduced by prompt and efficient methods of health protection. If within the next generation we can reduce the number of deaths in this city from preventable diseases by one-half, this will extend from ten to twenty years the term of life of 30,000 to 40,000 of the people of Boston. This is, indeed, an end worth striving for, and it calls for our earnest efforts to place the public health activities of Boston in advance of those of any other city in the United States. We should no longer remain behind New York and Cleveland, to say nothing of the cities of Europe.

The record of Boston in establishing and organizing under my former administration the Consumptives' Hospital Department, now recognized as leading this line of work in the whole world, is an earnest of what we can accomplish in this larger field. Our Health Department should be so reorganized and strengthened that it will take a front rank in efficient and wide usefulness to the community, and if this requires a larger appropriation than in the past it should be freely provided, as our public money cannot be spent for a more useful purpose.

TREATMENT OF TUBERCULOSIS.

In this connection I desire to call attention to the great need of a comprehensive investigation, by an expert commission, to determine the proper spheres of the state and of its cities and towns respectively in relation to the protection of the public health, and to fix a basis of financial contribution more equitable than that now in force. The recent public recognition of the problem of tuberculosis, and the provisions now made by the state and by Boston and a few other cities for dealing with it in hospitals, emphasizes the urgent need of a change in the present situation, and I am heartily in sympathy with the attitude of my predecessor in calling this matter to the attention of the Governor. A great financial injustice is now done to Boston, as well as to the other cities which are providing for the erection and maintenance of such hospitals. The Consumptives' Hospital Trustees ask for an appropriation of \$210,000 to support the work of their department during the current financial year; beside providing this large sum out of the city treasury we are also required to pay Boston's share, amounting to 36 per cent, of the expense of building and maintaining the three state hospitals for consumptives provided for by the Legislature of 1907, after the establishment of our Consumptives' Hospital Department. Beside the building appropriation of \$315,000, the annual expense of maintaining the 450 beds in these hospitals, on the basis of \$12 a week for each patient, will be \$280,000 a year, and Boston's share of this expenditure will be \$100,000.

But it is not merely from a financial standpoint that injustice is thus done to Boston. We have a larger interest in the establishment of a sound and definite policy of dealing with the tuberculosis problem in this Commonwealth, to be followed both by the state itself and by its

municipalities, which will, through harmony of action on lines approved by the highest authorities all over the world, really promise the ultimate eradication of this scourge. An encouraging feature of the fight against tuberculosis is the fact that cleanliness and wholesome living are the chief curative agencies employed. Better sanitation in the home and the workshop will diminish not only consumption but many other diseases and thus raise the social and economic condition of great numbers of people. The economic importance of health and the vast economic loss occasioned by preventable disease is now so fully recognized by the wage-earners that the Boston Central Labor Union has recently appointed a special committee to deal with this subject. This is certainly a most encouraging step and a gratifying demonstration of the fact that the advanced and enlightened policy now established by the City of Boston is receiving the recognition and support of the great mass of the people. But the adoption of a common policy by the state and by the City of Boston is essential for the accomplishment of the largest results.

Boston has adopted the policy, indorsed by the highest authorities upon tuberculosis, of devoting her hospital accommodations, necessarily limited to a comparatively small number of beds, to the use of advanced cases. This policy has the great merit of relieving the family of the patient from the burden of caring in the home for the most desperate and pathetic class of cases and of removing the worse sources of infection, which otherwise spread the disease to other members of the household. If this policy is the sound one, and I believe that it is, it should also be adopted by the state in respect to the beds in the three new state hospitals; if it is not the sound one, this should be demonstrated by proper authority in order that our department may change its practice. But we should remember that it is quite impossible to provide hospital accommodations for all who are sufferers from this disease; the practical question is merely whether the patient in an advanced state should be left in the household,—often in a crowded tenement,—in order that the hospital accommodation may be occupied by the incipient patient, who can be greatly helped and generally cured by following a proper regime under medical direction in the home. An expert commission appointed by the Governor could do a very valuable service at the present time in the way of co-ordinating the efforts of the state with those of Boston and other cities and laying out a consistent policy, the ultimate cost and results of which could be predicted in advance, instead of allowing a makeshift and uncertain policy to be developed from year to year.

Such a commission should also deal with the very important question of securing the proper enforcement of the health laws of the state in all the cities and towns of the Commonwealth. Municipalities are now required by law to provide proper facilities for isolating all persons suffering from diseases dangerous to the public health, and the State Board of Health, in accordance with the authority vested in it by law, has declared tuberculosis to be such a disease. But Boston and a few other cities are the only municipalities which have made any provision for obeying the law, at their own expense, while the others are allowed to violate the law with impunity and to look to the state to provide accommodations for their consumptives. Yet the best authorities

on public health recognize that effective treatment must begin in the home, which is under the control of the local health authority, while direct state action looks rather to the treatment of a limited number of cases in distant hospitals than to the prevention or cure of disease before the stage of hospital treatment is reached.

RAPID TRANSIT.

I have strongly favored the improvement and extension of transit facilities within the city, particularly the construction of subway or tunnel connections to the South Station, South Boston and Dorchester. The report which the joint board consisting of the Railroad Commission and the Boston Transit Commission has recently made to the Legislature distinctly favors a subway connection between the Park Street Station and the South Station and recommends preliminary action looking toward its construction, and this or some like project I shall heartily support. In spite of the unfavorable report of this joint board upon proposed subway extensions to South Boston and Dorchester, I believe that the need of such extensions is so great, and that they will have such an effect in increasing the taxable value of property in those districts, that some way should be found to secure their construction. The people of these sections are entitled to as good facilities of rapid transit as the people of Cambridge, who have secured both a subway and an elevated line.

While Boston was a pioneer in subway construction, other great cities, notably New York, have now far surpassed us in their investments to secure rapid transit, even allowing for the difference in population and valuation. None of our municipal investments have been better warranted than the \$15,000,000 which we have thus far expended in subway construction. Even if it should be shown that it is impossible to secure immediately a full rental return from the additional subways which the needs of our population require, this should not be allowed to stand in the way of their construction, if the effect in increasing taxable values, in addition to the greater public convenience, can reasonably be expected to make the municipal investment a good one in the long run.

The recent completion of the Washington Street Tunnel has resulted in a substantial increase of values along the surface line which it follows, and there is little room for doubt that future subways will operate to the great advantage of property owners, particularly in the vicinity of the stations. No betterments have ever been assessed for the cost of subway construction, the entire charge falling upon the city and the transportation company,—that is to say, ultimately upon the traffic that passes through the tunnels. The injustice of this becomes more apparent when we observe that the enormous rise in land values along Washington street has not been accompanied by corresponding improvements in the buildings that front on that thoroughfare. Many owners of this property have merely accepted the rise in values, due to the growth of a great commercial city around them, without contributing anything to this rise. Visitors to Boston and all intelligent students of its problems have been impressed with the curious fact that our busiest and most central thoroughfare, on which the volume of daily business mounts into the millions, is still lined with old buildings whose tenacity of life does more credit to the thrift than to the enterprise of their owners.

The elevated structure along Washington street and through Charlestown is admitted to be an injury to property in those important districts. The development of underground transportation should render it unnecessary to resort to this form of construction in the future, and opens the question whether it may not prove possible, upon terms fair to all interests involved, to remove the present unsightly structures.

I believe it should be feasible to do in Boston what has been done in other cities. The elevated structures, at least along Washington street, should be removed and the subways extended. Equitable assessments, adjusted to the consequent rise in values, should be levied upon the adjoining property; many of the owners, I am assured, would be glad to contribute their share to the cost of this great improvement.

PENSIONS FOR CITY EMPLOYEES.

I have repeatedly favored the establishment, alike in the interest of true economy and of humanity, of a modern pension system for our municipal employees, at least as comprehensive and adequate as those now adopted by many great private corporations. Cities have no legal right to establish such a system until authorized by state legislation, and mayors of Boston have in vain endeavored for more than ten years to obtain the passage of a permissive act for this purpose. Those who have complained the most loudly of the loss to the city occasioned by the carrying of aged employees upon its pay rolls have only recently come to recognize that this loss will continue until such time as some fair method is devised of relieving the city service of those whom age or misfortune has rendered inefficient.

Fortunately there is now a more intelligent interest in the subject, and many taxpayers are recognizing that upon economic grounds alone Boston would be warranted in following the example of some of our greatest commercial organizations. The able and elaborate report of the state commission on old age pensions, recently submitted to the Legislature, should now pave the way for securing favorable action upon this matter at the present session. This report recommends a carefully considered scheme of municipal pensions, applicable to all the cities of the state and subject to adoption in each city by popular vote. The plan provides elaborately for compulsory old age insurance for municipal employees, on a contributory and co-operative basis; it is worked out in a very fair and practical manner, the fundamental provision being that equal contributions shall be made by the employee and by the city treasury.

It is greatly to be hoped that the report of this commission will lead the Legislature to take favorable action upon the bill which it recommends, and I shall ask the City Council to co-operate with me in urging its passage. I believe that all who have investigated this important subject are now agreed that the adoption of such a measure is a necessary preliminary to establishing the service of the city upon a proper basis of efficiency. Municipal pensions upon such a basis would represent not an unearned gratuity to the employee but in part compulsory self-insurance, in part a special contribution by way of deferred wages for long and faithful service. The establishment of such a full municipal pension system by the City of Boston would also give a powerful impetus to the extension of the compulsory insurance idea in its various beneficent applications,—an idea which has contributed largely to the

wonderful organization and efficiency of modern industrial Germany.

INDEPENDENT RAILROAD CONNECTIONS.

The railroad problem is a vital one to Massachusetts and to Boston. Through the action of the Legislature of last year the Boston & Maine Railroad has now come under the control and management of the New York, New Haven & Hartford Railroad, and these now constitute one system to all intents and purposes. It seems to me that a full realization of the advantages which it was claimed that this practical consolidation would bring to New England requires the construction of a new and independent line of railroad across the state of New York, connecting the Boston & Maine system with the Great Lakes at Buffalo. This project deserves far more encouragement than it has hitherto received from our business men and public authorities, and the City of Boston has a great interest in its success. The application for the necessary authority to construct such a connecting line, once rejected, has recently been renewed before the Public Utilities Commission of New York, for the second district, and it should receive all of the support which we can give to it. Nothing would so effectively strengthen our railroad situation and protect us against unjust discriminations as the possession of a connection with the west independent of existing trunk lines.

THE PARKMAN FUND.

An opportunity to add many features of interest to our park system, without cost to the taxpayers, has been afforded by the munificent bequest of \$5,000,000 made to the city under the will of the late George Francis Parkman. This far-sighted lover of Boston has added luster to a family name already distinguished in our annals by associating it for all time with the improvement of those open spaces which afford to multitudes of city residents their only means of direct contact with nature. The aggregate income of this fund will probably amount to \$2,000,000 in the next ten years. With such a sum it should be possible to provide many improvements and attractions long recognized as appropriate features of our parks and public grounds. An aquarium at Marine Park seems to me one of the most obviously desirable of such features; this would give instruction and entertainment to many, offering vivid illustrations of that ocean life with which this seaport is so associated and which affords the foundation of the fisheries in which our people have been engaged from the earliest colonial days. A zoological garden might well be added at Franklin Park or some other suitable location, with other features included in the original plans for that beautiful recreation ground as drawn by Mr. Olmsted. The special memorial to the donor should, in my opinion, be placed on the Common, which doubtless endeared itself to the citizen who dwelt beside it for so many years and enjoyed from his window the daily prospect of its shaded walks and refreshing lawns. The question of precedence in the making of suggestions as to the application of the income of this fund is less vital than the preparation of a unified plan, governed by expert knowledge, good taste and the broadest interests of the community, and, above all, by the expressed intention of our worthy benefactor.

NOTABLE IMPROVEMENTS.

The notable improvements made in this city during the last five years, both

through public and private action, are most encouraging. The erection by Eben D. Jordan, one of the leading merchants, of a splendid opera house, worthy of the rank of this city as a musical center, should strengthen our faith in the greatness of Boston's future. The expansion of our Chamber of Commerce into one of the strongest business organizations in the country, the notable additions to our transit facilities, the completion of the Charles River Basin, the successful organization of the 1915 movement, the great improvements projected in the report of the Metropolitan Improvements Commission, the opening of the new Art Museum,—all these things are full of encouragement. I shall always be glad to work with any and all organizations which are aiming to improve the economic and social conditions of our people, to bring more industries, trade and commerce to Boston, or to realize the great public improvements which we still urgently need.

PUBLIC UTILITIES COMMISSION.

I have suggested the desirability of adopting in this state the plan introduced in New York, on the recommendation of Governor Hughes, in respect to the supervision and regulation of public service corporations. Under this plan all such corporations come under the jurisdiction of a single tribunal within a given territory, and the state is divided into two districts, one of which includes the metropolitan area and the other the rest of the state. This plan seems to me to promise important advantages to the public in comparison with the system existing in this state, under which the metropolitan district and the rural parts of the state come under the same commission and the various public service corporations come under the jurisdiction of different commissions. The New York plan has the merit of simplicity and greater concentration of the power of regulation, and it seems to offer the public more convenient opportunities for the presentation and redress of any just grievances with respect to rates or service. The New York system has the further advantage of securing the undivided services and attention of the members of the commission, through the payment of adequate salaries. The relations of public service corporations to our people are of such great and growing importance that we are entitled to the benefit of the best and most effective method of public supervision and regulation which has been anywhere worked out and approved by results.

INDUSTRIAL CONDITIONS.

Although his official duties have a prior claim upon the attention of the chief executive, there is no interest in the city and no phase of its life, which does not overlap at some point the sphere of his legitimate activity. I am particularly concerned to note the slow rate of increase of the manufacturing industries of Boston. Only 34,033 men are reported as employed in manufacturing industries in this city, as against 15,627 in Lynn, 11,305 in Brockton, and 16,892 in Worcester,—cities whose combined populations amount to only a fraction of ours; and the average yearly wage is less in Boston's manufacturing industries than in those of Lynn and Brockton. It is true we employ a great army of middle-men and distributors, but an increase of productive industries would give occupation to thousands now regularly or intermittently idle. Such men naturally seek positions in the city departments and increase the pressure for municipal employment.

In this connection I would point out that the entire number of persons employed by the city at salaries above \$1,000, excluding heads of departments, deputies and superintendents, but including clerks, tellers, bookkeepers, cashiers, stenographers and the like, is only 277. Many large business concerns in this part of the country employ a greater force at more attractive salaries, and with a better prospect of permanent tenure and promotion. The realization of this fact should encourage applicants for positions not to confine their efforts to so limited a field.

One remedy for the stagnation of industry in Boston is the adoption of a more practical system of education, aiming to prepare the pupil directly for his work in after life, and by so doing to improve his prospect of securing lucrative employment. The new High School of Commerce, the School of Practical Arts, the Mechanic Arts High School, the proposed vocational bureau, all recognize the mutual needs of the pupils and of the society into which they are to fit as productive factors. The reorganized State Board of Education is now introducing industrial and vocational training into the public school system of the Commonwealth, and a few years will see marked developments in this new line of educational work. I have advocated, and will continue to promote to the best of my ability, all agencies of this character, believing that they tend not only to reduce the great evil of unemployment, but to raise the standard of skilled labor and enhance its dignity and reward. They should also do much to create a new atmosphere among the youth of the city, since they impart to young men the practical knowledge which brings power and confidence. With a keener interest in the pursuits of commerce and a more marked ambition to carve out independent careers, no generation has ever enjoyed a fairer opportunity than that which is about to take its place in the industrial life of Boston.

At the other extreme of industrial organization I find an unfortunate attitude on the part of those to whom we should naturally look for leadership. Local capital has sought outlets in distant speculation and neglected enterprises nearer home which in many instances would offer safer returns. The recent report of the Metropolitan Improvements Commission well declares: "The promoters and managers of New England industries have been too prone in the past to turn their backs upon the signal opportunities presented by the water front of Boston Bay. . . . The European ports in which there has been in the past twenty-five years such unparalleled industrial as well as commercial development could hardly duplicate, either in the number or the excellence of their sites for ideal manufacturing conditions, the areas which are comprised within this very water front of metropolitan Boston. In the main harbor alone there are many available sites for industrial districts which, with both water and rail connections, might rival in extent the celebrated Bush Terminal of Brooklyn." No words of mine could heighten this picture of opportunity unimproved—of cheap, available sites, accessible to rail and tide water, neglected by local capital.

CONCLUSION.

The world is growing better, not worse. The spirit of the times is virile and hopeful. We have witnessed great calamities in recent years. The very existence of

great cities has been threatened, yet at each new visitation mankind has rallied to the relief of the sufferers, and the circles of human brotherhood have been widened. The individual life is becoming richer and more complex. We have greater physical powers, broader intellectual interests, a wider range of spiritual satisfactions. All over the earth, as well as here in the heart of New England, the functions of governments are becoming more and more comprehensive. Who can seriously doubt that these extensions of public activity are the very index of progress when it is among the most enlightened nations that we see the movement at its height? It is to the credit of Boston, and no occasion for alarm, that her government leads the other great cities of the globe in many humane undertakings and emulates them in all.

With so many problems awaiting settlement, so many opportunities opening before us, it is agreed on all sides that the next four years will embrace a critical period in the history of Boston. No man, unassisted, can solve all of these problems with their technical difficulties, or even collect the data on which proper solutions must be based. I appeal, therefore, for co-operation in this great undertaking to all public-spirited citizens who appreciate the difficulty as well as the importance of the task that confronts me. I appeal to the Press, which has done so much to create these new conditions in Boston, to treat with fair consideration those who are now charged with the official responsibility of reducing theory to practice. I appeal to you, gentlemen of the City

Council, holding equally with myself a direct commission from all the people of our city, to continue to exercise your functions in the spirit which, I know, animates all of you to-day; let us endeavor to agree whenever we can, to differ only when we must. I appeal to the heads of all our city departments, and through them to the 13,000 city employees of every rank, reminding them that the obligation rests upon them to give to a generous employer a just return in quantity and quality of service rendered. I count confidently upon harmonious relations with the members of the School Board, whose problems are interwoven with the welfare of future generations. I would assure all the civic associations, now happily springing up in many quarters, that their goal is mine, and that we can achieve it more readily by united than by divided efforts. I appeal finally through you, my hearers of to-day, to the entire citizenship of Boston, and I ask them, regardless of past differences, to co-operate with the city government which they have elected under the new charter. It should not need a catastrophe, such as flood, fire or earthquake, to obliterate the barriers of prejudice here in Boston, or to heal the wounds of political strife. The mere vision of our noble city and the recollection of its glorious past should suffice to unite us. Let us then all draw together and the dawn of a greater prosperity will soon regild her seal. The prayer that forms its motto will be answered. We can scarcely ask more than that God should continue to be to us as He was to our fathers.

APPENDIX.

CITY AND COUNTY DEBT, JANUARY 31, 1910.

	Gross Debt.	Sinking Funds, etc.	Net Debt.
City debt	\$86,967,206 00	\$32,984,540 63	\$53,982,665 37
County debt	3,591,000 00	1,287,375 66	2,303,624 34
Cochituate water debt)	3,696,500 00	3,205,159 65	491,340 35
	\$94,254,706 00	\$37,477,075 94	\$56,777,630 06

Right to borrow		\$3,774,045 71

* Includes \$228,000 issued by the Commonwealth under chapter 534 of the Acts of 1906.

Before we leave I wish to say just a word for those who are in charge of the ceremonies this morning. The crush at the door, which caused such confusion, and, I know, annoyance to so many hundreds of people, was simply unavoidable, as I believe every one of you realizes, in a place like Faneuil Hall, situated as it is in the crowded business section of the city and with such a small entrance. This is town meeting day, and I hope each one of you realizes the fact that there are 600,000 people, each one of whom has the same right to enter here as every other person in the city. Perhaps they would all have liked to come here this morning, and hundreds journeyed here without tickets, as well as those with tickets. We simply did the best we could in the matter and we hope that, if there was any crushing and any annoyance, you will forgive it in the spirit in which all true Bostonians do forgive and look upon the lighter side of life. I thank you.

PROCEEDINGS OF CITY COUNCIL.

INAUGURAL EXERCISES OF MAYOR AND CITY COUNCIL.

Monday, February 7, 1910.

Meeting of the Mayor and City Council of 1910 in Faneuil Hall.

The members-elect of the City Council met in the Ancient and Honorable Armory, at Faneuil Hall, at 10.15 a. m., and proceeded at 10.34 a. m., under escort of the City Messenger, to Faneuil Hall, where they took seats on the platform.

Coun. BALLANTYNE, senior member-elect, called the meeting to order at 10.35 a. m., saying:

Ladies and gentlemen, we are assembled here this morning for the purpose of inauguration of the City Council of the city government for the year 1910. The Chair awaits a motion.

Coun. BRAND—Mr. Chairman, I move you that a committee of two be appointed to escort the Mayor-elect to the hall.

The motion was carried and Coun. Curley and Brand were appointed said committee. The committee retired at 10.37 a. m. and presently returned and reported that they had performed the duty assigned, and that the Mayor and suite would be presently in attendance.

The Mayor-elect, Hon. John F. Fitzgerald, accompanied by ex-Mayors George A. Hibbard, Josiah Quincy, Thomas N. Hart and Samuel A. Green, Chief Justice Knowlton of the Supreme Judicial Court, Sheriff Seavey, the chaplain, Rev. Father Leo J. Knappe, his Grace Archbishop O'Connell, foreign consuls in the city, the heads of departments and other guests, entered Faneuil Hall at 10.47 a. m., amid great applause.

At request of Chairman BALLANTYNE City Clerk Priest read the return of the Election Commissioners, giving the roll of Mayor and City Council-elect, as follows:

Board of Election Commissioners,
Old Court House, Court Square,
Boston, January 22, 1910.

John T. Priest, Esq.

City Clerk:

Sir,—We certify that as appears by the records of the votes cast in this city at the municipal election held on the eleventh instant the following named persons were duly elected to the offices set forth below respectively:

For Mayor.

John F. Fitzgerald, 39 Welles avenue.

For City Council (Three Years).

Walter L. Collins, 445 Washington street.
Matthew Hale, 50 River street.
John J. Attridge, 118 Malden street.

For City Council (Two Years).

Thomas J. Kenny, 296 West Fifth street.
Walter Ballantyne, 224 Dudley street.
James M. Curley, 105 Mt. Pleasant avenue.

For City Council (One Year).

Frederick J. Brand, 4 Melville avenue.
Daniel J. McDonald, 28 Marion street.
Timothy J. Buckley, 7 Lawrence street.

JOHN M. MINTON,
MELANCTHON W. BURLIN,
ALPHEUS SANFORD,
EDWARD A. McLAUGHLIN,
Board of Election Commissioners.

At request of Chairman BALLANTYNE the City Clerk called the roll of the councilmen-elect and ascertained that they were all present.

Chairman BALLANTYNE—I will now request the chaplain, Rev. Leo J. Knappe, to lead us in prayer.

The prayer by Rev. Father Leo J. Knappe was as follows:

In the name of the Father, and of the Son, and of the Holy Ghost. Amen. Our Father who art in heaven, the God of knowledge, counsel, truth and justice, we adore Thee, we praise Thee, we humbly confess Thy holy name. Reverently we acknowledge Thy supreme dominion over us, for Thou art the creator of heaven and earth and of all that dwell therein. Thou hast made us not sufficient unto ourselves but dependent upon our fellows for the pursuit of life, liberty and happiness. Our needs reveal the operation of Thy holy law and purpose. Thou lookest well to the end and directest the means. Thou wert the sole author of society; Thou, too, the author of the institutions which preserve it. Authority is the unifying principle of society, subordinating the well-being of the individual to the will of all, directing and controlling the inclinations of men, promoting and restraining their varied interests, and rightly constituted authority comes from Thee alone. O God of Sabbath, the people may determine their form of government and may select their ruler, but it is Thou, O God of principalities and powers, who dost preside over the destinies of nations, who dost invest the chosen one with power to rule, so that obedience to his just mandates is obedience to Thee, and disobedience a violation of Thy eternal law. For he that resisteth the power resisteth Thy ordinances. Yet if authority comes from Thee, it must be exercised for the ends Thou hast intended. Thou hast given power to no man against Thyself; Thy will must ever reign supreme. To secure its observance Thou hast imbedded deep in the soul of man the unseen monitor, the small voice that whispers from within. For public and for private life Thou hast but one standard of judgment. Thy laws of rectitude and charity, honesty and integrity are equally binding upon those who sit in the seats of the mighty and those who tread the paths of the lowly. Great, therefore, and sacred is the trust committed to those whom the people choose to rule in city, state or nation. Thou, O Lord, wilt examine the works and search out the thoughts of those who bear rule over Thy children and who have not judged rightly nor kept the law of justice, nor walked according to Thy holy will. For as much, then, as public office is of so exalted dignity and of so great responsibility to Thee and Thy people, for as much, too, as we have in remembrance the blindness, the inconstancy and weakness of all flesh, in this solemn moment of spiritual recollection, we know no act more fitting than in devout simplicity to heed the counsel of St. Paul and make supplications, intercessions and prayers for those about to be placed in high station, that we may lead quiet and peaceable lives. O Almighty and Eternal God, the giver of every good gift, in whom we live and move and have our being, we beseech Thee give to Thy servant, our Mayor-elect, the abundance of Thy grace, according as in Thy wisdom Thou shalt deem expedient for the just governments of our native and beloved city. Be near with Thy support, that he who humbly acknowledges the need of Thy gracious help, may discharge faithfully, diligently and courageously the arduous duties of the momentous office which the suffrages of the people have intrusted to his keeping. Grant to our chief executive that illumination from on high which is needful for direction, that prudence and judgment, which will enable him to discover the right solution of every pressing problem. Inspire him with noble aims and steadfast purposes, that he may ever labor for the greatest good of the greatest number, while still endowed with those qualities of heart that yield a ready sympathy and care for each as well as all. So shall his efficient service prove the pride and joy of all who dwell or have an interest in our honored city. Heavenly Father, include in Thy blessing we pray Thee, all those who are associated in council with his Honor the Mayor, that they may bring to the discharge of their manifold duties the discernment of all that will promote our common interests, our public health, our industry and commerce, our education and, above all, virtue in every form, for virtue respecteth law and order and exalteth a city as well as a nation. Virtue abideth by Thy commands and thus breaketh no law. O God of goodness and love, we beg Thee let Thy blessing rest upon us all. Look with gracious eye upon our city, so fair, so rich in nature's gifts, so hallowed by tradition. Make us deeply grateful for the priceless heritage which has come down to us from a glorious past, for the civil and religious privileges we now enjoy. Let it be our aim to improve our advantages and thus transmit them with increase to those who come after us. Teach us our duties and let the fear of Thy holy name, which is the beginning of wisdom, regulate all our civic, social and domestic concerns. Profoundly do we bewail the evils which from time to time become manifest in our social life. May we never fail in our vigilance and co-operation in every movement to correct them. The cry of our hearts is for life and prosperity, contentment and peace with Thee and one another. O grant, then, that all the bitterness and strife yet remaining may be laid aside. Let us abound

rather in faith and hope for the future and be filled with sweetest charity, each looking not to his personal ends, but to the unlimited common good. Let us learn to bear one another's burdens and so fulfill the perfect law of Christ. To this end and to all ends for which in this solemn hour we offer our petitions, O Lord, Prince of Peace and lover of concord, direct, we implore Thee, our actions with Thy holy inspiration and carry them on with Thy gracious assistance, that every endeavor, every work of ours begun through Thee, may by Thee be continued and happily ended, through Christ our Lord. Amen. May the blessing of God the Father, and of the Son, and of the Holy Ghost descend upon us all and remain always. Amen.

Chairman BALLANTYNE—The Chair will now request the Honorable the Chief Justice of the Supreme Court of Massachusetts to administer the oath of office to the Mayor-elect.

Chief Justice Knowlton, at 11.08 p. m., administered the oath of office to Mayor-elect Fitzgerald.

At 11.12 a. m. Mayor Fitzgerald administered the oath of office to the members of the City Council.

Chief Justice Knowlton and suite retired at 11.14 a. m.

Chairman BALLANTYNE—Mayor Fitzgerald will now deliver his inaugural address.

The Mayor, Hon. John F. Fitzgerald, delivered his inaugural address which is printed on page 120 of this issue.

At the close of the Mayor's address the audience joined in singing "America."

Chairman BALLANTYNE—Ladies and gentlemen, the purpose for which we assembled here this morning having been accomplished, this meeting is now dissolved.

MEETING OF THE CITY COUNCIL.

The meeting of the City Council was called together by Coun. BALLANTYNE, senior member-elect, in the City Council Chamber, City Hall, at 1.30 o'clock p. m.

Chairman BALLANTYNE, in calling to order, said:

The Council will be in order. The Clerk will call the roll to ascertain whether a quorum is in attendance.

City Clerk Priest called the roll, and all the members of the City Council for 1910 were found to be present.

Chairman BALLANTYNE—A quorum is in attendance and the Chair awaits the pleasure of the Council.

Coun. BRAND offered an order—That this Board proceed to the election of a chairman according to law.

The order was passed.

Chairman BALLANTYNE—The Clerk will call the roll, and each member, as his name is called, will announce aloud for whom he votes.

Coun. CURLEY—Mr. Chairman, before the vote is taken I would like to make a brief statement, inasmuch as certain newspapers have stated that I would be a candidate for chairman of this Board. Inasmuch as the combination with which I was allied was unsuccessful in electing a majority of its members, or the men who made up the combination, I desire at this time to state that I am not a candidate for chairmanship of this Board and consequently do not desire the votes of any of the members elected.

Chairman BALLANTYNE—The Clerk will call the roll, and each councilman, as his name is called, will express his choice for president.

The members announced their choice for president as follows:

For Daniel J. McDonald—Coun. Attridge.
For Walter Ballantyne—Coun. Ballantyne and Hale.
For Frederick J. Brand—Coun. Brand.
For James M. Curley—Coun. Buckley.
For Thomas J. Kenny—Coun. Collins.
For Timothy J. Buckley—Coun. Curley.
For Walter L. Collins—Coun. Kenny.
For John J. Attridge—Coun. McDonald.
And there was no choice.

Coun. CURLEY—Mr. Chairman, I move you, sir, that until otherwise ordered the rules of the old Board of Aldermen, with the exception of Rule 32, be the rules to govern this body.

Coun. BRAND seconded the motion.

Coun. HALE—Mr. Chairman, I would like to amend that motion by substituting for the old rules of the Board of Aldermen the old rules of the Board of Aldermen as amended by City Clerk Priest, which he did at our request at the last meeting.

Coun. CURLEY—Mr. Chairman, I was not aware that the City Clerk was doing business for the new City Council. I supposed that we were going to do it for ourselves. If the City Clerk has drafted rules to govern the new City Council it is news for me. Did I understand Councilman Hale to say that the City Clerk did this for us?

Coun. HALE—No.

Coun. CURLEY—He did it for you?

Coun. HALE—Individually.

Coun. CURLEY—Mr. Chairman, I would say that my purpose in moving the adoption of the rules of the old Board, with the exception of rule

32, is in order that we may have some sensible method of procedure. Rule 32 is the rule which reads as follows:

"The foregoing rules shall not be altered, amended, suspended or repealed, at any time, except by the votes of two-thirds of the members of the Board of Aldermen present and voting thereon."

So that if we adopt the old rules with the exception of rule 32, a majority of the Board can at any time substitute any rules they wish. We can adopt the rules of the old Board now, with that exception, and later, if some member has rules that he feels will be better for the government of the body, we will have the right to adopt them by majority vote. But the rules that Mr. Priest may have in his possession are Greek to some members of the body, and some of us have not studied Greek. So I feel that it will be better to adopt something with which we are familiar, and at the same time we will have the option of changing any or all of the rules later, as we see fit. Therefore, I insist on my motion.

Coun. HALE—Mr. Chairman, I shall be glad to withdraw my motion.

Coun. Curley's motion, to adopt the rules of the last Board of Aldermen, with the exception of rule 32, until otherwise ordered, was declared carried.

Coun. BRAND offered the following:

Ordered, That a special committee of three members of this Council be appointed to prepare rules and orders for the government of this Council for the present year.

Passed.

Later in the day Chairman BALLANTYNE announced the appointment of the following Committee on Rules:

Coun. Ballantyne, Collins and Curley.

Coun. CURLEY offered the following:

An Ordinance

Concerning the Clerk of Committees.

Be it ordained by the City Council of Boston, as follows:

Section 1. There shall be elected annually by vote of the City Council a clerk of committees to serve for the remainder of the municipal year in which he is elected, and until his successor is elected and qualified.

Sect. 2. Said clerk of committees shall act as clerk of all committees of the City Council; shall keep proper records of the proceedings and votes of each committee; shall notify the members of committees of the meetings thereof at least twenty-four hours before the time set for such meetings, unless otherwise directed by vote of the committee; and shall perform such other duties and services for said committees or for the City Council as may, from time to time, be required of him.

Sect. 3. Said clerk of committees shall have charge of the library formerly known as the City Hall Reference Library; shall keep in said library a copy of each of the publications issued by the city and by every board and department thereof; and shall, so far as possible, complete the said library by obtaining copies of publications formerly issued by the city.

Sect. 4. Said clerk shall issue the licenses and badges to minors licensed by the City Council, and shall see that such minors conform to the terms and conditions of their licenses.

Sect. 5. Said clerk shall have the care, custody and, subject to the direction of the City Council or its committees, the distribution of all documents, pamphlets, printed proceedings and books printed for the City Council.

Sect. 6. Said clerk shall appoint an assistant clerk, who shall assist him in the performance of the duties of his office and discharge the duties of the clerk when that officer is absent or when there is a vacancy in the office; and shall employ such subordinates as may be necessary to properly perform the duties of his office.

Sect. 7. Said clerk shall have charge of the clerk of committees department, which is hereby established.

Chairman BALLANTYNE—The ordinance will be referred to the Committee on Ordinances, when appointed.

Coun. CURLEY—Mr. Chairman, I would most respectfully move a reconsideration of that reference. I would say, in speaking to the motion to reconsider, that certain branches of the city service which have been in existence since the charter of 1822 were wiped out automatically in consequence of Plan 2, the amended city charter, and this ordinance is introduced with a view to providing the new City Council with a Clerk of Committees who is familiar with the duties of that office. In all probability if the ordinance is adopted the man who has filled that office for more than fourteen years will still continue to minister to the Board. Under the charter, of course, his position terminated at ten o'clock to-day. It strikes me that in all fairness the proper mode of procedure would be to adopt the ordinance, in order that the Board may be properly served by a Clerk of Committees who is familiar with the duties. I recognize the fact that the customary mode of procedure here is to move reference to committees, but where no committee exists at the present time, and where it is always within the power of the Board—not by a two-thirds but by a majority vote—to amend an ordinance, I believe the adoption of this ordinance at this time would in no way work

injury. It can certainly be remedied at any time within the discretion of a majority of the members of the Board. So I sincerely trust that reconsideration will prevail. We have no means of knowing when a committee on ordinances may be appointed or of when they may act in the event of their being appointed.

Coun. KENNEY—Mr. Chairman, I don't quite understand that ordinance. May I ask to have it read again?

(The ordinance was read.)

Reconsideration of the reference was declared lost. Coun. CURLEY doubted the vote and asked for a rising vote.

Reconsideration was lost, 3 to 6.

Coun. HALE offered the following:

Ordered—That Edward J. Leary be appointed temporarily to fulfill the ordinary duties of a sergeant-at-arms and City Messenger, and such other duties as the City Council may impose upon him, to be compensated at the rate of \$2,500 a year.

Ordered, That Frank X. Chisholm be appointed temporarily to fulfill the ordinary duties of a secretary and such other duties as the City Council may impose upon him, to be compensated at the rate of \$1,800 a year.

Ordered, That John F. Dever be appointed temporarily to fulfill the ordinary duties of a Clerk of Committees and librarian and such other duties as the City Council may impose upon him, to be compensated at the rate of \$2,500 a year.

Coun. Curley's amendment was declared lost. Coun. CURLEY doubted the vote and asked for the yeas and nays. The amendment was lost, yeas 3, nays 6.

Yeas—Coun. Brand, Buckley, Curley—3.

Nays—Coun. Attridge, Ballantyne, Collins, Hale, Kenny, McDonald—6.

The order in relation to Edward J. Leary as originally introduced by Coun. Hale was passed.

The order as originally offered was passed, yeas 6, nays 3.

Yeas—Coun. Attridge, Ballantyne, Collins, Hale, Kenny, McDonald—6.

Nays—Coun. Brand, Buckley, Curley—3.

Coun. BRAND—Mr. Chairman, I move a reconsideration of the vote just taken, hoping the same will prevail, and if it does prevail I shall move to amend the order so as to increase the salary to \$3,000.

Reconsideration was declared lost. Coun. BRAND doubted the vote and asked for the yeas and nays.

Reconsideration was lost, yeas 3, nays 6.

Yeas—Coun. Brand, Buckley, Curley—3.

Nays—Coun. Attridge, Ballantyne, Collins, Hale, Kenny, McDonald—6.

The question came on the passage of the order relating to the appointment of John F. Dever temporarily as Clerk of Committees.

Coun. Curley's amendment to increase the amount from \$2,500 to \$3,500 was declared rejected. Coun. CURLEY doubted the vote and asked for the yeas and nays.

The amendment was rejected, yeas 3, nays 6.

Yeas—Coun. Brand, Buckley, Curley—3.

Nays—Coun. Attridge, Ballantyne, Collins, Hale, Kenny, McDonald—6.

The order as offered was passed.

The order to appoint Frank X. Chisholm Clerk of the Board temporarily, etc., was passed.

Coun. HALE offered the following:

Ordered, That there be allowed and paid for clerical assistance in the office of the Register of Probate and Insolvency until April 1, 1910, at the rate of \$16,000 per annum.

Ordered, That there be allowed and paid for clerical assistance in the office of the Clerk of the Superior Court, Criminal Session, until April 1, 1910, at the rate of \$15,000 per annum.

Ordered, That there be allowed and paid for clerical assistance in the office of the Clerk of the Superior Court, Civil Session, until April 1, 1910, at the rate of \$30,500 per annum.

Ordered, That there be allowed and paid for clerical assistance in the office of the Clerk of the Supreme Judicial Court, until April 1, 1910, at the rate of \$8,300 per annum.

Ordered, That the City Treasurer be authorized to expend for clerk hire on account of the County of Suffolk until April 1, 1910, at the rate of \$800 per annum.

Ordered, That the City Collector be authorized to expend for clerk hire on account of the County of Suffolk until April 1, 1910, at the rate of \$700 per annum.

Ordered, That the judges of the Probate Court be authorized to expend for messenger and uniforms until April 1, 1910, at the rate of \$1,600 per annum.

Ordered, That the amounts paid under authority of the foregoing orders be charged to the County of Suffolk.

Coun. HALE—Mr. Chairman, I would like to say that in these orders there are no cuts. These are simply the same orders that we passed unanimously last year in order to enable the County departments to continue their business until we have passed the appropriation bill.

(The order was passed.)

Coun. BRAND offered an order—That Monday of each week, at 3 o'clock p. m., be the day and hour when regular meetings of this Council shall be held, until otherwise ordered.

Passed.

Coun. KENNY presented petitions of the

South Boston Citizens Association relative to (1) transit in South Boston, (2) a municipal building in South Boston, and (3) improvement of the existing parks and playgrounds in South Boston.

Severally referred to the Committee on Public Improvements, when appointed.

Coun. BRAND—Mr. Chairman, I move you, sir, that we now proceed to the election of a president of this Council under the law.

Coun. HALE—Mr. Chairman, I would like to say a word on that motion. One of the things that was objected to most seriously by the public last year and two years ago was the deadlocks that occurred in the Board of Aldermen in electing a presiding officer. I think that under this new charter we ought to turn over a new leaf and elect a president the first day. On the first ballot we have had, under the simple device of swapping votes, every man in this room voted for himself, with one exception. I think it is disgraceful for a new body of nine men, now attempting to organize in order to run the city government of Boston, to come in here and not be willing to sink their personal ambition, uniting on some man. I would like to enter my protest against that attitude now.

Coun. McDONALD—Mr. Chairman, I, too, think we ought to get together to-day and elect a chairman. That was my opinion two weeks ago, ever since we were elected. I have been telling everybody that we ought to at least elect a chairman the first day. We all know how the Board of Aldermen was criticised in past years because a chairman was not elected. We should get together and select somebody, no matter who he is, to preside over this body so that we may give the people of Boston what we promised them—a good administration for the year 1910.

Coun. BUCKLEY—I, too, feel like the other speakers, that we ought to get together and elect a president of this body for the coming year. It seems to me that the gentlemen themselves are in fault for not combining on some man, so that the city's business may be facilitated. If the responsibility is anybody's it is theirs.

Coun. HALE—Mr. Chairman, I am surprised that either Coun. Curley or Coun. Buckley object when we do come in here to have something settled in City Hall. They have just been objecting because we settled things before we came in here.

Coun. CURLEY—Mr. Chairman, I would say that it is not the fault of either Coun. Curley or Coun. Buckley that you did not settle it; that you went out of your way Sunday afternoon to try to settle it at the City Club—the same old institution, the rum club, the club whose proceeds from the sale of liquor last year exceeded those of any bar room in Boston. It is a nice institution to carry on the city's business in. I want to say that I am rather surprised that you didn't settle it. You settled about every matter of state there and in all probability if it had been possible you would have settled this there. I want to say that I stand ready to vote on the chairmanship to-day. Personally I would like to see Coun. Buckley made chairman, because in the last campaign, with the exception of myself—who am not a candidate—he is the only man who was friendly disposed to the man who is now Mayor. If it is your desire that there be a business administration and that the hands of the Mayor be unhampered, what is the objection to Buckley as chairman? He was in sympathy with Fitzgerald before election and the prospects are that he will be in sympathy with him for the balance of the year. His is a one-year term. I don't see any objection to making him chairman and I am ready to vote for him now.

Coun. BRAND'S motion that the Council proceed to the election of a president was carried. The Clerk called the roll, and the members announced their choice as follows:

For Daniel J. McDonald—Coun. Attridge.
For Walter Ballantyne—Coun. Ballantyne and Hale.

For Frederick J. Brand—Coun. Brand.
For James M. Curley—Coun. Buckley.
For Thomas J. Kenney—Coun. Collins.
For Timothy J. Buckley—Coun. Curley.
For Walter L. Collins—Coun. Kenny.
For John J. Attridge—Coun. McDonald.
And there was no choice.

On motion of Coun. Brand the Board voted to proceed to another ballot for president of the Council, and the Clerk called the roll, with the following result:

For Daniel J. McDonald—Coun. Attridge.
For Walter Ballantyne—Coun. Ballantyne and Hale.

For Matthew Hale—Coun. Brand.
For James M. Curley—Coun. Buckley.
For Thomas J. Kenney—Coun. Collins and Curley.

For Walter L. Collins—Coun. Kenny.
For John J. Attridge—Coun. McDonald.
And there was no choice.

Coun. BRAND—Mr. Chairman, as the hour is getting late and we have none of us had our lunch, I move that we now adjourn.

The motion to adjourn was declared carried. Coun. CURLEY doubted the vote and asked for the yeas and nays.

The Council voted to adjourn, yeas 7, nays 2. Coun. Curley and Buckley voting nay.

Adjourned at 2.20 p. m., to meet on Monday, February 14, at 3 p. m.

PROCEEDINGS OF BOARD OF ALDERMEN.

Saturday, February 5, 1910.

Final meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at twelve o'clock noon. Chairman BRAND presiding. Absent—Ald. Timilty and Whelton.
The Board voted, on motion of Ald. AT-TRIDGE, to dispense with the reading of the records of the last meeting.

JURORS DRAWN.

Three additional grand jurors were drawn for the United States Circuit Court, to appear February 22, in accordance with the provisions of chapter 514, Acts of 1894 (the Mayor being absent), viz.:

Walter B. Snow, Ward 20; Frederick Cantor, Ward 13; Robert J. Dunkle, Ward 22.

CONVEYANCE OF LAND—VETO.

The following was received:

City of Boston,
Office of the Mayor, February 4, 1910.
To the Gentlemen of the City Council:
I return herewith without my approval order (passed January 24-27, 1910) authorizing the execution of a deed conveying certain land taken in 1891 for the improvement of the Rosindale branch of Stony brook, the consideration being that other land be conveyed to the city.
The Law Department has advised me that the persons who petitioned for the transfer (Emily E. Shepard and Henry A. Wood) have requested that the matter be held in abeyance.

Respectfully,

G. A. HIBBARD, Mayor.

The vote whereby the order was passed was reconsidered and the question came on passing it, the objections of the Mayor to the contrary notwithstanding.

The Board refused to pass the order over the Mayor's veto, yeas 0, nays 8.

PETITIONS REFERRED.

The following petitions for signs were received and referred to the Committee on Building Department (Ald.):

Sam Meyerowitz, 17 Cooper street, Ward 6.
J. Rosengard (flag sign), 410 Washington street, Ward 7.
W. H. Woolodsky Company, 117B Warren street, Ward 21.
Hugh J. McMackin (two signs), 26 Portland street, Ward 6.
A. C. Briggs, 85 Purchase street, Ward 7.
W. H. Lynch & Co., 22 Purchase street, Ward 7.
William Morris (Inc.), American Music Hall, Washington street, Ward 7.
Standard Motor Car Company of Massachusetts, 224 Pleasant street, Ward 10.
Max Hebenstrit, 121 Roxbury street, Ward 18.
John Prescott, 532 Dorchester avenue, Ward 15.
Harring & Teele (gas arc lamp), 345 Washington street, Ward 7.

PAPERS FROM THE COMMON COUNCIL.

1. Notice from the Common Council of its failure to concur with the Board of Aldermen in the passage of the order of January 24, 1910, relative to a loan of \$5,000 and a transfer of \$199.49 for new fireboat.

Placed on file.

2. Notice from the Common Council of indefinite postponement of ordinance concerning term of office and salary of the Superintendent of Printing.

Placed on file.

3. Report of the Committee on Claims, submitting a list of all claims upon which action has been taken during the year 1909.

Report accepted and ordered printed as a city document.

4. Ordered. That all matters in the hands of the joint standing and special committees of the City Council, except the Committee on Claims, be placed on file.

Passed in concurrence.

LAND-TAKING.

A copy of plan and description of certain land in Allston and East Boston taken by the Boston & Albany Railroad Company for railroad purposes was received and placed on file.

FIREMEN'S RELIEF FUND.

A copy of the vote relative to the custody of the Boston Firemen's Relief Fund was received. Placed on file.

NOTICE OF HEARING.

Notice was received from the Metropolitan Park Commissioners of a hearing on April 5 before the Supreme Judicial Court on petition of said Park Commissioners for the appointment of a special committee to determine the amounts to be paid by the various cities and towns on account of the metropolitan parks.

Placed on file.

LICENSES.

Ald. BALLANTYNE, for the Committee on Licenses, submitted reports recommending that minor's licenses be granted to 63 newsboys, 11 bootblacks and 1 vendor.

Reports severally accepted; licenses granted on the usual conditions.

RECESS TAKEN.

The Board voted at 12.25 o'clock p. m., on motion of Ald. HALE, to take a recess subject to the call of the Chairman.

The members of the Board reassembled in the Aldermanic Chamber and were called to order by the Chairman at 1.21 p. m.

PUBLIC IMPROVEMENTS.

Ald. BALLANTYNE, for the Committee on Public Improvements, submitted a report on message and order (referred January 31) transferring \$35,000 from appropriation for L Street Bath, addition for women, to an appropriation for L Street Bath, improvements—that the same be referred to the next city government.

Report accepted; said reference ordered.

PROJECTIONS, ETC.

Ald. BALLANTYNE, for the Committee on Building Department (Ald.), submitted the following:

(1) Reports on petitions (severally referred today) for signs at various locations—that leave be granted, viz.:

Sam Meyerowitz, 17 Cooper street, Ward 6.
J. Rosengard (flag sign), 410 Washington street, Ward 7.

W. H. Woolodsky Company, 117B Warren street, Ward 21.

Hugh J. McMackin (two signs), 26 Portland street, Ward 6.

Reports severally accepted; leave granted on usual conditions.

(2) Reports on petitions (severally referred today) for illuminated signs at various locations—that leave be granted, viz.:

A. C. Briggs, 25 Purchase street, Ward 7.
W. H. Lynch & Co., 22 Purchase street, Ward 7.

William Morris (Inc.), American Music Hall, Washington street, Ward 7.

Standard Motor Car Company of Massachusetts, 224 Pleasant street, Ward 10.

Max Hebenstrit, 121 Roxbury street, Ward 18.

John Prescott, 532 Dorchester avenue, Ward 15.

Harring & Teele (gas arc lamp), 345 Washington street, Ward 7.

Reports severally accepted; leave granted on usual conditions.

GASOLINE LICENSES, ETC.

On motion of Ald. CURLEY the Board took up special assignment, viz.:

5. Report of the Committee on Licenses (Ald. Curley dissenting), recommending that no action be taken on the following petitions for licenses for the keeping, sale and storage of gasoline, dynamite, petroleum and its products, for the reason that there does not appear on said petitions any report from the Fire Commissioner, viz.:

John W. Douse, at rear 120 Train street, Ward 24.

James Marcello, on Allston street, at Summit avenue, Ward 25.

George R. Bascom Company (Inc.), at 31-33 Stanhope street, Ward 10.

The Texas Company, at 258 Southampton street, Ward 17.

Premier Motor Company of New England, at 297 Northampton street, Ward 12.

Ald. CURLEY moves as a substitute for the report of the committee that licenses be granted on the usual conditions.

Ald. Curley's substitute motion was carried.

TELEPHONE POLE, OLD COLONY AVENUE.

On motion of Ald. CURLEY the Board took up special assignment, viz.:

7. Report of the Committee on Electric Wires, recommending the passage of an order granting permission to the New England Telephone and Telegraph Company of Massachusetts

to erect one pole on Old Colony avenue, near Dorchester street, Ward 15.

The question came on accepting the report and passing the order.

*Ald. O'HARE moved that the company be given leave to withdraw; declared lost.

Ald. O'HARE doubted the vote and asked for the yeas and nays.

Leave to withdraw was granted, yeas 5, nays 3:

Yeas—Ald. Anderson, Attridge, Curley, Giblin, O'Hare—5.

Nays—Ald. Carr, Cotton, Hale—3.

ELECTRIC POLES ON OLD COLONY AVENUE.

On motion of Ald. O'HARE the Board took up special assignment, viz.:

8. Report of the Committee on Electric Wires, recommending the passage of an order granting permission to the Edison Electric Illuminating Company of Boston to erect nineteen poles on Old Colony avenue, between Dorchester avenue and Dorchester street, Wards 13 and 15.

Ald. O'HARE moved that the company be given leave to withdraw; declared lost.

Ald. O'HARE doubted the vote and asked for the yeas and nays.

The company was given leave to withdraw, yeas 6, nays 3:

Yeas—Ald. Anderson, Attridge, Brand, Curley, Giblin, O'Hare—6.

Nays—Ald. Carr, Cotton, Hale—3.

PERMIT FOR TELEPOST COMPANY.

Ald. ANDERSON—Mr. Chairman, I understood the Chair to call up No. 6.

The CHAIRMAN—The alderman understood incorrectly. If Ald. Anderson wishes to call up No. 6 the Chair will consider it. Ald. Anderson calls up No. 6.

Ald. ANDERSON—I do not call up No. 6, Mr. Chairman.

Ald. ATTRIDGE called up No. 6, special assignment, viz.:

6. Report of the Committee on Public Improvements on petition of the Telepost Company, recommending the passage of the following:

Ordered. That permission be granted to the Telepost Company of Massachusetts to lay, maintain and use a 3-inch iron conduit, with telegraph wires inclosed therein, and the necessary manholes under and along the following named streets in the City of Boston:

Beginning at a point in Leverett street at the end of a conduit now being built across said bridge and assigned by the Charles River Basin Commissioners; thence along Leverett, Minot, Wall, Causeway, Merrimac and Friend streets to a manhole in Faneuil Hall square, as shown on a preliminary plan, dated November 29, 1909, and filed in the Permit Office of the Street Department.

The Superintendent of Streets shall indicate and issue permits for opening said streets, and the same shall not be disturbed until a plan approved by him, and showing the locations of said pipes and manholes, has been filed in said Permit Office, the work of laying said pipes, wires and manholes to be done under the supervision of the Wire Commissioner and under the terms and conditions expressed in the ordinances of the City of Boston.

The question came on accepting the report and passing the order.

Ald. O'HARE—Mr. Chairman, I move reference to the next city government.

Ald. O'Hare's motion to refer to the next city government was declared lost.

Ald. O'HARE doubted the vote and asked for the yeas and nays. The motion to refer was lost, yeas 2, nays 6:

Yeas—Ald. Attridge, O'Hare—2.

Nays—Ald. Anderson, Ballantyne, Brand, Carr, Cotton, Hale—6.

The report was accepted and the order declared passed. Ald. O'HARE doubted the vote and asked for the yeas and nays.

The report was accepted and the order passed, yeas 7, nays 2:

Yeas—Ald. Anderson, Ballantyne, Brand, Carr, Cotton, Giblin, Hale—7.

Nays—Ald. Attridge, O'Hare—2.

Ald. ATTRIDGE offered an order—That all matters in the hands of standing and special committees of the Board of Aldermen be placed on file.

Passed.

CLOSING PROCEEDINGS.

Ald. CURLEY offered the following: Resolved, That the thanks of this Board be extended to Frederick J. Brand for the able manner in which he has presided over the meetings of this body for the municipal year 1909.

The resolution was adopted by a unanimous rising vote.

Ald. CURLEY—Mr. Chairman, I would at this time most respectfully move that the thanks of this body be extended to those officers, whose duties have been to assist the Board of Aldermen in the discharge of its duties—the Clerk of Committees and his assistants, the City Clerk and his

assistants, the clerk of the Board, Mr. Chisholm, the official stenographer, Mr. Harnden, the representatives of the Press, and to Edward J. Leary, the City Messenger. In behalf of the Board I extend to all these gentlemen wishes for continued success and good health.

The motion was passed by a unanimous rising vote.

Ald. CARR—Mr. Chairman, I move that when this last Board of Aldermen adjourns it be without day.

Ald. Carr's motion was carried.

GENERAL RECONSIDERATION.

On motion of Ald. ANDERSON the Board refused a general reconsideration of action on all matters considered to-day.

LOAN FOR NEW FERRYBOATS.

Ald. GIBLIN offered an order—That the next City Council be hereby requested to provide, at the earliest possible date, a loan of \$250,000 for the construction of two new ferryboats for the East Boston Ferry.

Passed.

WORK ON CITY BOATS.

Ald. GIBLIN offered the following: Resolved, That it is the opinion of the Board of Aldermen that all ship work or boat building contracted for by the City of Boston should be awarded, as far as possible, to Boston parties, and that the work should be done at union hours and union rates in union shops.

Ad-pse.

Ald. CARR—Mr. Chairman, I move that the Board do now adjourn.

The CHAIRMAN—If there is no other business to come before the Board, Ald. CARR moves to adjourn.

The Board adjourned, *suo die*, at 2.24 p. m.

BOOSTING CITIES.

The keenest kind of competition has developed between various cities throughout the country in the way of attracting industries. No matter what the advantages of a place may be, it is necessary to get out and hustle if the town or city is to get recognition.

Spokane, Wash., spent \$60,000 last year in booming that city. The statistics given out as a result prove that the money was well invested.

St. Paul, Minn., has a publicity bureau conducted by the municipality for the sole purpose of keeping the name of that city before the public. The bureau is supported by the city through appropriation.

The business men of Williamsport, Penn., do not hesitate to raise large sums of money to bring industries to that city. "In one hour," says the manager of the Williamsport Board of Trade, "the members of the Board subscribed \$140,000, which secured the location of the largest and finest dye works in the world." To secure the removal of the Sweets Steel Company from Syracuse, N. Y., to Williamsport it was necessary to raise \$150,000 and it was done without hesitation.

Cincinnati Board of Trade began work with a secretary and \$5,000. It learned that twenty-one firms were about to move away from that city. The Board of Trade ascertained the reason for their removal and worked to overcome the objections, with the result that all but one of these concerns remained. The Board has done a great work in presenting reasons why Cincinnati is a good place in which to locate.

Newark, N. J., is working out a plan whereby that city can be well advertised throughout the country. In Trenton the same work is going on, and the same is true of Atlantic City.

Des Moines will spend \$350,000 during the next three years in systematic advertising.—*City Hall*.

BEAUTY PLANS FOR SEATTLE.

Seattle has joined the cities—many in number—that are taking initial steps for comprehensive development along the lines of modern city planning. For many years there has been a desire on the part of leading citizens of Seattle to secure the creation of a commission which should undertake to do this work with the advice and counsel of expert city planners. There has recently been effected an organization which has drafted a resolution, and which has passed the City Council, to be submitted to the voters as a charter amendment, providing for a commission whose duty it will be to prepare a plan. The commission is to be known as "The Municipal Plans Commission," and is to be composed of twenty-one members, whose duty it shall be to procure plans for the arrangement of the city with a view to such extension as may meet probable future demands. These plans shall take into consideration the extension of the city and city works into adjacent territory; improvement and changes in public utilities; lines of transportation by service underground and water; the location, width and grades of arterial highways necessary for the best treatment of the city; the development of the water front; the location of buildings and municipal decorations; and such further extensions of or additions to the park and boulevard system of the city as may be found advisable. Three members of the commission are to be selected from the City Council, one each from the Board of Public Works, the County Commissioners, the Board of Education, the Park Commission, and the other members are to be appointed by the Mayor. The resolution very wisely provides for a tax levy to be made in 1910 of one-fourth mill.—*Denver Municipal Facts*.

CITY OF BOSTON.

PROPOSALS FOR MUTTON, LAMB AND VEAL.

Sealed proposals are invited to supply the House of Correction, Deer Island, with mutton, lamb and veal for the year ending January 31, 1911. Only bids on forms obtained at the office of the Penal Institutions Commissioner, at 32 Tremont street, signed by bidder, and there left before 12 m. of Thursday, February 17, 1910, with a certified check for \$500, payable to and to be the property of the city if the bid is accepted and is not carried out, will then and there be publicly opened and read. The official in charge reserves the right to reject any and all bids. The bid should be inclosed in an envelope, sealed and marked "Bid for Mutton, Lamb and Veal." The contractor will be required to furnish a bond for one thousand (1,000) dollars in a surety company for the faithful carrying out of contract. The bids must be made in duplicate, the duplicate, without check, deposited with City Auditor previous to time for opening bids.

FRED S. GORE,

(Feb. 12.)

Commissioner.

CITY OF BOSTON.

PROPOSALS FOR CRUSHED STONE.

Supply Department of the City of Boston Room 826, Tremont Building, invites proposals for furnishing crushed stone and stone dust for the year ending February 1, 1911. The bidder must use the form to be obtained at said office, furnish a bond of \$2,000 with a surety company authorized to do business in Massachusetts as surety for faithfully doing the work, and leave at said office on or before 12 m. of Monday, February 14, his bid and a certified check for \$500, which is to be the property of the city if the bidder fails to carry out his proposal. A bid in duplicate, without a check, must be filed with the City Auditor. The proposal will be publicly opened and read at the above-named time and place, and the undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages, and to reject any and all proposals.

J. EDWARD MULLEN,

(Feb. 12.)

Superintendent of Supplies.

CITY OF BOSTON.

PROPOSALS FOR IRON CASTINGS.

The Supply Department of the City of Boston invites proposals for furnishing iron castings such as manhole and catch-basin frames and covers, lamp-hole frames and covers, catch-basin grates, tide gates, iron inlets, traps, regulator castings and such other castings as may be required between March 1, 1910, and February 1, 1911, according to plans and contract, a copy of which may be seen at the office of the Supply Department, Room 826, Tremont Building. The bidder must use the form to be obtained at said office, furnish a bond of \$2,000 with a surety company authorized to do business in Massachusetts as surety for faithful performance of the work. Bids with a certified check for \$500 must be left at the office of Superintendent of Supplies, Room 826, Tremont Building, before Tuesday, February 15, at 12 m., at which time and place the proposals will be opened and read publicly. A bid in duplicate, without a check, must be filed with the City Auditor prior to 12 m. The superintendent reserves the right to accept or reject any or all of the proposals.

J. EDWARD MULLEN,

(Feb. 12.)

Superintendent of Supplies.

CITY OF BOSTON.

PROPOSALS FOR BANK GRAVEL AND SAND.

The Supply Department of the City of Boston invites proposals for furnishing bank gravel and sand, between March 1, 1910, and February 1, 1911, according to the office copy of the contract, which may be seen at the office of the Superintendent of Supplies, Room 826, Tremont Building, Boston, Mass. The bidder must use the form to be obtained at said office, furnish a bond of \$2,000 with a surety company authorized to do business in Massachusetts as surety for faithfully doing the work, and leave at said office on or before 12 m. of Monday, February 14, a certified check for \$500, which is to be the property of the city if the bidder fails to carry out his proposal. The proposal will be publicly opened and read at the above-named time and place, and the undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages, and to reject any and all proposals. A bid in duplicate, without the check, must be filed with the City Auditor.

J. EDWARD MULLEN,

(Feb. 12.)

Superintendent of Supplies.

CITY OF BOSTON.

PROPOSALS FOR BEEF.

Sealed proposals are invited to supply the House of Correction, Deer Island, with beef for the year ending January 31, 1911. Only bids on forms obtained at the office of the Penal Institutions Commissioner, at 32 Tremont street, signed by bidder, and there left before 12 m. of Thursday, February 17, 1910, with a certified check for \$1,000, payable to and to be the property of the city if the bid is accepted and is not carried out, will then and there be publicly opened and read. The official in charge reserves the right to reject any and all bids. The bid should be inclosed in an envelope, sealed and marked "Bid for Beef." The contractor will be required to furnish a bond for fifteen hundred (1,500) dollars in a surety company for the faithful carrying out of contract. The bids must be made in duplicate, the duplicate, without check, deposited with City Auditor previous to time for opening bids.

FRED S. GORE,

(Feb. 12.)

Commissioner.

CITY OF BOSTON.

PROPOSALS FOR FURNISHING AND DRIVING PILES.

The Superintendent of Streets of the City of Boston, office 47 City Hall, invites proposals for furnishing and driving spruce piles for sewerage works in Vila street extension, between the Fenway and Longwood avenue, Roxbury, and giving bond therefor of a surety company approved by the superintendent. Only proposals obtained at said office, filled out, signed by the bidder, and left at said office before 12 o'clock m. of Monday, February 21, 1910, with a certified check for \$300, payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The undersigned reserves the right to give preference to the proposals of bidders agreeing to pay the trades unions' rate of wages and the right to reject any or all proposals. The proposals should be inclosed in an envelope, sealed and marked "Proposal for File Driving in Vila Street Extension."

GUY C. EMERSON,

Superintendent of Streets.

Boston, February 11, 1910.

(Feb. 12.)

PROCEEDINGS OF SCHOOL COMMITTEE.

Feb. 7, 1910.

The meeting for the organization of the School Committee of the City of Boston for the current municipal year was held in the School Committee Chamber, Mason-Street Building, on Monday, Feb. 7, 1910, being the first Monday in said month, at 5:40 o'clock P.M.

The Board was called to order by Mr. George E. Brock, the senior member.

MEMBER-ELECT OF SCHOOL COMMITTEE.

The following communication was received:—

Board of Election Commissioners,
Boston, Jan. 22, 1910.
Thornton D. Apollonio, Esq.,
Secretary, School Committee.

Sir: We hereby certify that as appears by the records of the votes cast for Member of the School Committee at the Municipal Election held on the eleventh instant in the City of Boston the following-named was duly elected for the term of three years: David A. Ellis, 12 Keswick Street.

John M. Minton,
Melancthon W. Burlen,
Alpheus Sanford,
Edward A. McLaughlin,

Board of Election Commissioners.
Placed on file.

All the members of the Board, viz., Messrs. George E. Brock, David A. Ellis, Joseph Lee, James P. Magenis, and David D. Scannell, were present.

ELECTION OF CHAIRMAN.

The Acting Chairman stated that the first business in order was the election of a Chairman, and directed the Secretary to call the roll.

The members as their names were called respectively stated that they voted as follows:—

For DAVID A. ELLIS: Messrs. Brock, Lee, Magenis and Scannell—4.

For GEORGE E. BROCK: Mr. Ellis—1.
The Acting Chairman declared Mr. David A. Ellis duly elected as Chairman of the Board.

Mr. Ellis assumed the Chair.

RULES AND REGULATIONS INVOLVING EXPENDITURE OF MONEY ADOPTED.

On motion, it was ORDERED, That the Rules of the School Committee and the Regulations of the Public Schools of last year, which involve the expenditure of money, be adopted for the present year until otherwise ordered.

RULES AND REGULATIONS NOT INVOLVING EXPENDITURE OF MONEY ADOPTED.

On motion, it was ORDERED, That the Rules of the School Committee and the Regulations of the Public Schools of last year, which do not involve the expenditure of money, be adopted for the present year until otherwise ordered.

RULES FOR JANITORS, ENGINEERS AND MATRONS AND REGULATIONS GOVERNING THE USE OF SCHOOL BUILDINGS ADOPTED.

On motion, it was ORDERED, That the Rules for Janitors, Engineers and Matrons of the Public Schools and Regulations Governing the Use of School Buildings, of last year, be adopted for the present year until otherwise ordered.

ELECTION OF TREASURER.

The Board proceeded to the election of a Treasurer of the Corporation.

The Secretary called the roll, and the members as their names were called respectively stated that they voted as follows:—

For GEORGE E. BROCK: Messrs. Ellis, Lee, Magenis and Scannell—4.

For JAMES P. MAGENIS: Mr. Brock—1.

The Chairman declared Mr. George E. Brock duly elected as Treasurer of the Corporation.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers on probation and under a license, as reported by the Superintendent and laid over at the meeting of Jan. 17, 1910.

The appointments were approved.

MEMORIAL EXERCISES, DESTRUCTION OF BATTLESHIP MAINE.

The following communication was received:—

City of Boston, In Board of Aldermen,
Jan. 17, 1910.

ORDERED, That the School Committee be requested, through His Honor the Mayor, to have memorial exercises in the public schools of this city in commemoration of the anniversary of the destruction of the battleship "Maine" in Havana Harbor.

Passed. Sent down for concurrence. Jan 20 came up concurred.

A true copy.

Attest: W. J. Doyle,

Asst. City Clerk.
Office of the Mayor, Feb. 3, 1910. Referred to the School Committee.
Placed on file.

PROTECTION OF PUPILS' CLOTHING, NORMAL SCHOOL.

The following communication was received:—

City of Boston, In Common Council,
Feb. 3, 1910.

ORDERED, That the School Committee be requested to devise better means for the protection of clothing and valuables of the pupils at the Girls' Normal School.

In Common Council, Feb. 3, 1910.

Referred to His Honor the Mayor.

A true copy.

Attest: Joseph O'Kane,

Clerk of the Common Council.
Office of the Mayor, Feb. 4, 1910.

Referred to the School Committee for such action as may be considered best.

Referred to the Board of Schoolhouse Commissioners for attention, and the Superintendent requested to take up with the principals of the various schools the consideration of administrative measures to provide for adequate protection of the property of school children from theft.

REMOVAL OF CLASSES FROM BOWKER BUILDING SCHOOL.

A communication was received from the Board of Schoolhouse Commissioners, under date of Jan. 20, 1910, stating that the classes in the Bowker Building School had been moved to the hall of the Adams School-house, preparatory to moving the former building and erecting a new elementary school-house on the site.

Placed on file.

ACCOMMODATIONS IN DRAKE AND PARKMAN SCHOOL-HOUSES.

A communication was received from the Board of Schoolhouse Commissioners, under date of Feb. 1, 1910, stating that at the request of the School Board the plumbing in the Drake and Parkman School-houses was altered last summer to make both buildings available as mixed schools, and calling attention to the fact that they are still occupied as before the changes in the plumbing were made, one by boys and the other by girls.

Placed on file.

ELECTRIC PLANT, ABRAHAM LINCOLN SCHOOL-HOUSE.

A communication was received from the Board of Schoolhouse Commissioners, under date of Jan. 22, 1910, in response to the request of the Board at the meeting of Dec. 6, 1909, stating that it would appear from an estimate made by the electrical engineer of said commission of the cost of installing gas engines in the Abraham Lincoln School-house for an independent electric plant, that it would not be an economical measure to install and operate such a plant.

Placed on file, and the Board of Schoolhouse Commissioners requested to furnish this Board with details of the estimate on which the report of said Commission is based.

RETIREMENTS.

The following retirements of teachers, because of marriage, on Aug. 31, 1909, were reported by the Superintendent:—

Girls' High School—Esther L. Sanborn, assistant.

Longfellow District—Henrietta F. Johnson, assistant.

Placed on file.

RESIGNATIONS.

The following resignations, reported by the Superintendent, were presented:—

(To Retire from the Service.)

Charlestown High School—Maud M. Cunningham, assistant, Feb. 7, 1910.

Wells District—Lillian C. Burbank, assistant, Sept. 20, 1909.

Manual Training—Joseph F. Carter, assistant instructor, Sept. 1, 1909.

Accepted.

The following appointments, confirmations and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, were presented:—

SPECIAL ASSISTANTS.

Comins District—Mary F. Powers, kindergarten, from Feb. 1, 1910.

Dearborn District—Mary Fitzgerald, kindergarten, from Jan. 24, 1910; Agnes R. Malloy, kindergarten, from Dec. 1, 1909.

George Putnam District—Mary L. Carey, kindergarten, from Feb. 1, 1910.

Horace Mann School—Helen P. Gorman, from Feb. 1, 1910.

Hugh O'Brien District—Loretta W. Dinn, kindergarten, from Feb. 1, 1910.

Lyman District—Gertrude M. Denehy, from Sept. 27 to Oct. 1, 1909, five days; Elizabeth J. Mahoney, from Dec. 1 to 10, 1909, inclusive; Grace M. Quirk, from Dec. 1, 1909.

Prescott District—Marguerite V. Brickley, from Jan. 17, 1910.

Quincy District—Sarah G. Doherty, from Feb. 1, 1910.

Thomas Gardner District—Agnes Keefe, from Jan. 31 to Feb. 18, 1910, inclusive; Grace M. Warren, from Jan. 19, 1910.

Wendell Phillips District—Mary C. Culhane, from Feb. 1 to 18, 1910, inclusive.

Winthrop District—Helen M. Jameson, kindergarten, from Jan. 31, 1910.

Approved.

TEMPORARY TEACHERS.

Bennett District—Annie W. Hawks, kindergarten, from Jan. 20 to 28, 1910, inclusive; Fanny B. Hayden, kindergarten, from Jan. 31, 1910.

Prescott District—Aloise M. Owen, from Jan. 18 to Feb. 1, 1910.

Placed on file.

ON PROBATION.

(From the Eligible List.)

High School of Commerce—William J. Sands, instructor, from Mar. 1, 1910.

Thomas Gardner District—Agnes Keefe, assistant, from Feb. 21, 1910.

Wendell Phillips District—Mary C. Culhane, assistant, from Feb. 21, 1910.

Laid over.

Not from the Eligible List, but in accordance with the Rules.

(By Promotion.)

George Putnam District—M. Alice Costello, first assistant, kindergarten, from Feb. 21, 1910.

Laid over.

FOR CONFIRMATION.

Charles Sumner District—Alice M. Flanagan, assistant.
 Comins District—Elizabeth M. Quigley, Claire F. Sullivan, assistants.
 Dwight District—Grace G. Colman, assistant.
 Lyman District—Myrtie A. Adams, assistant.
 Oliver Wendell Holmes District—Josephine A. Merrick, assistant.
 Rice District—Archer M. Nickerson, sub-master.
 Warren District—Helen T. Carmody, assistant; Marie A. Robbins, assistant, kindergarten.
 Assistant Nurse—Mary G. Kenny.
 School Hygiene—Fred L. O'Brien, M. Joseph Redding, assistant instructors in athletics.
 Approved.

EVENING SCHOOLS.

Term of 1909-1910.

Eliot School—Mary L. Greenlaw, assistant, from Jan. 24, 1910.
 Approved.

TRANSFERS.

Christopher Gibson District—Edith M. Sandsbury, assistant, to the same position in the Oliver Wendell Holmes District, from Jan. 3, 1910.
 Minot District—Ida F. Wall, assistant, to the same position in the Oliver Wendell Holmes District, from Jan. 31, 1910.
 Placed on file.

EMERGENCY LIST.

Assistant Nurse—Bessie Burpee.
 Approved.

ATTENDANTS IN KINDERGARTENS.

Hancock District—(Paul Revere Kindergarten), Concetta Zizza, from Feb. 1, 1910.
 John J. Andrew District—(Chapel Kindergarten), Josephine W. Barnes, from Jan. 24, 1910.
 Longfellow District—(Longfellow Kindergarten), Dorothy Bisnaw, from Jan. 31, 1910.
 Mary Hemenway District—(Harris Kindergarten), Beatrice Cowan, from Jan. 31, 1910.
 Phillips Brooks District—(Hull Kindergarten), Sadie Bloomberg, from Jan. 4, 1910.
 Quincy District—(Andrews Kindergarten), Anna Rosenberg, mornings, from Jan. 19, 1910.
 Thomas N. Hart District—(Benjamin Dean Kindergarten), Martha McClenaghan, from Jan. 17, 1910.
 Placed on file.

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence was granted each of the following-named teachers for the terms specified:—

Public Lat'n School—Selah Howell, master, from Jan. 1 to Sept. 1, 1910.
 Dorchester High School—Edith S. Cushing, assistant, Jan. 14, 1910, one day.
 English High School—Frank E. Lakey, instructor, Nov. 30 and Dec. 14, 1909, one and one-half days.
 High School of Commerce—James E. Downey, master, head of a department, Jan. 13, 1910, one day.
 High School of Practical Arts—Margaret L. Ryan, clerical assistant, Jan. 19, 1910, one day.
 South Boston High School—Florence M. Young, special assistant instructor in physical training, from Jan. 1 to April 1, 1910.

 Trade School for Girls—Agnes Opdyke, vocational assistant, from Jan. 1 to March 21, 1910.
 Adams District—Mary M. Hayes, assistant, Jan. 12, 1910, one-half day; May H. Sears, assistant, from Jan. 24 to 28, 1910, four and one-half days.
 Bigelow District—Gerardine I. Donoghue, assistant, Jan. 13, 1910, one-half day; Louise C. Keyes, assistant, Jan. 26, 1910, one-half day.
 Bowditch District—Eliza D. Bean, assistant, Jan. 5, 1910, one day; Helen J. Gormley, assistant, Jan. 26 to 31, 1910, two days; Amy Hutchins, master's assistant, from Jan. 24 to 31, 1910, six days.
 Bunker Hill District—Mary E. Flanders, assistant, from Feb. 1 to June 1, 1910.
 Charles Sumner District—Josie E. Evans, assistant, Jan. 7, 1910, one-half day; Mary

E. Lynch, assistant, Jan. 12, 1910, one-half day; Bertha L. Palmer, assistant, Jan. 24, 1910, one day.

Christopher Gibson District—Florence A. Dunbar, assistant, Jan. 12, 1910, one-half day.

Dearborn District—Mary L. Gaylord, assistant, Jan. 31, 1910, one day; Kate A. Nason, assistant, from Jan. 3 to April 1, 1910.

Dillaway District—Katherine Keenan, assistant, Jan. 21, 1910, one day.

Dwight District—E. Adelaide Child, assistant, from Jan. 25 to 27, 1910, two and one-half days; Mabel E. Latta, assistant, Jan. 14, 1910, one day; Sara Mock, assistant, from Jan. 3 to 8, 1910, five days.

Eliot District—Katharine G. Sutliff, assistant, Dec. 23, 1909, one day; Theresa Curré, assistant, Jan. 20, 1910, one-half day.

Everett District—Minnie T. Varney, assistant, from Jan. 21 to May 21, 1910.

Francis Parkman District—Josephine A. Flayton, assistant, from Feb. 1 to 3, 1910, two days.

Franklin District—Elsie A. Burrage, assistant kindergarten, from Jan. 4 to 18, 1910, ten days; Helen E. MacFarlane, assistant, Jan. 13, 1910, one day; Mary J. Rogers, assistant, from Jan. 24 to 28, 1910, five days.

Frederic W. Lincoln District—Edna F. Henderson, assistant, from Jan. 3 to 12, 1910, eight days.

Frothingham District—Theresa E. Haves, assistant, Jan. 3 and 12, 1910, two days; Elizabeth L. McCarthy, assistant, Jan. 26, 1910, one-half day.

Gaston District—Caroline M. Kingman, assistant, Jan. 24, 1910, one-half day.

Hancock District—Helen L. Goddard, assistant, from Jan. 3 to March 7, 1910.

Harvard District—Grace M. Broaders, assistant, Jan. 18, 1910, one day.

Henry L. Pierce District—Elizabeth R. Brady, assistant, Jan. 6, 7 and 26, 1910, three days.

Hugh O'Brien District—Edwin I. Beal, sub-master, Jan. 17, 18 and 19, 1910, two and one-half days; Alice Church, assistant, Jan. 17, 18 and 19, 1910, three days; Mary F. MacGoldrick, assistant, Jan. 28, 1910, one-half day.

Hyde District—Grace M. Clark, assistant, from Jan. 10 to April 1, 1910; Ida F. Taylor, assistant, from Jan. 17 to Feb. 28, 1910.

Longfellow District—Elizabeth A. Keenan, assistant, Jan. 20, 1910, one-half day.

Ethel L. Sawyer, assistant, from Jan. 10 to 21, 1910, ten days; Elnora Standish, assistant, Jan. 24, 1910, one day.

Lyman District—Emma B. Harvey, master's assistant, from Feb. 7 to March 7, 1910.
 Mary E. Keenan, assistant, Jan. 28, 1910, one day; Grace S. Mansfield, first assistant, kindergarten, Jan. 21, 1910, one day; Louise G. Sullivan, assistant, Jan. 21, 1910, one day.

Mary Hemenway District—Mary E. Marron, assistant, from Dec. 20 to 22, 1909, two days.

Mather District—Ella J. Costello, assistant, Jan. 24, 1910, one-half day; Annie MacKenzie, assistant, from Feb. 1 to March 1, 1910.

Norcross District—Mary E. Downing, assistant, Jan. 26, 1910, one day.

Oliver Hazard Perry District—Mary E. Dee, assistant, Jan. 13, 1910, one day; Frances G. Keyes, assistant, Jan. 26, 1910, one-half day.

Phillips Brooks District—Catherine J. Sullivan, assistant, from Jan. 17 to 24, 1910, five days.

Quincy District—Lavina M. Grimes, assistant, from Jan. 11 to 14, 1910, four days; Gertrude P. Tobin, assistant, Jan. 7, 1910, one day.

Shurtleff District—Alice G. Dolbeare, first assistant in charge, from Jan. 10 to May 1, 1910; Katharine S. Haskell, assistant, kindergarten, from Jan. 7 to 24, 1910, eleven days.

Thomas Gardner District—Mary E. O'Neill, assistant, from Jan. 26 to Feb. 1, 1910, four days.

Thomas N. Hart District—Elizabeth S. Tash, assistant, kindergarten, from Jan. 4 to 28, 1910, nineteen days.

Warren District—Dora Weisman, assistant, kindergarten, from Jan. 19 to Feb. 9, 1910.

Washington District—Katherine L. King, first assistant, primary school, Jan. 13, 1910, one day; Alice H. O'Connell, assistant, Jan. 19, 1910, one-half day; M. Gertrude Rehbock, assistant, Jan. 24 and 25, 1910, two days; Leonora E. Taft, assistant, Jan. 28, 1910, one-half day.

Washington Allston District—Emma F. Martin, first assistant in charge, from Jan. 3 to 28, 1910; Fannie B. Sanderson, assistant, Jan. 17, 1910, one-half day; Eleanor L. Sullivan, assistant, Jan. 6, 1910, one-half day.

Wendell Phillips District—Julia E. Sulli-

van, assistant, Jan. 26, 1910, one-half day.
 William E. Russell District—Mary C. Sullivan, assistant, from Jan. 4 to 14, 1910, eight and one-half days.

Winthrop District—Elizabeth M. McDermott, assistant, Jan. 17, 1910, one-half day; Mary E. Noonan, first assistant in charge, Jan. 27, 1910, one day.

Assistant Nurse—Mary Callaghan, Jan. 6, 1910, one-half day.

Cookery—Grace D. Batchelder, teacher of cookery, Jan. 17, 1910, one-half day.

Manual Training—Mary C. Barstow, assistant instructor, Jan. 21, 1910, one-half day; Sheba E. Berry, assistant instructor, Jan. 20, 1910, one day.

On the report of the Superintendent, leave of absence for study or travel, under the provisions of section 317 of the regulations, was granted each of the following-named teachers for the terms specified:—

Longfellow District—Edith Irving, assistant, from Feb. 1, 1910, to Feb. 1, 1911, for study.

Quincy District—Mary Burkhardt, assistant, from Sept. 10, 1910, to Sept. 1, 1911, for study and travel.

Manual Training—Solvi Greve, assistant instructor, from Sept. 1, 1910, to Aug. 31, 1911, for study and travel.

On motion of the Superintendent, it was ORDERED, That the Superintendent be, and hereby is, authorized to grant leave of absence, without loss of pay, to teachers in the service who attended the examinations of the Board of Superintendents from Jan. 31 to Feb. 3, 1910, inclusive.

MINORS' LICENSES.

A communication was received from the Superintendent, under date of Feb. 7, 1910, recommending that, in accordance with applications which are on file in his office, minors' licenses be granted as follows:—

To sell newspapers.....251
 To black boots.....3
 To act as pedler.....1

Issue of licenses authorized accordingly.

ACTING MASTER'S ASSISTANT, LYMAN DISTRICT.

A communication was received from the Superintendent, under date of Feb. 7, 1910, reporting that he had designated Julia A. Logan to act as master's assistant in the Lyman District, during the absence on leave of Emma B. Harvey, from Feb. 7 to March 7, 1910.
 Placed on file.

ASSIGNMENT OF TEACHERS TO FRANKLIN PARK SCHOOL.

A communication was received from the Superintendent, under date of Feb. 7, 1910, reporting the following assignment of teachers of the Oliver Wendell Holmes District to serve in the Franklin Park School, to the ranks and from the dates stated:

Helen M. Mead, first assistant in charge, from Dec. 1, 1909.

Corinna Barry, assistant, from Dec. 7, 1909.

Nellie M. Durgin, assistant, from Dec. 14, 1909.

Edith M. Sandsbury, Iola D. Yates, assistants, from Jan. 3, 1910.

Placed on file.

TEACHER OF AFTERNOON INDUSTRIAL CLASS, CHARLESTOWN HIGH SCHOOL.

A communication was received from the Superintendent, under date of Feb. 7, 1910, reporting that, subject to the approval of the Board, he had appointed Philip Goodrich, junior-master in the Charlestown High School, as teacher of the afternoon class in industrial training in said school, to date from Dec. 2, 1909.

Placed on file, and the appointment approved.

ADDITIONAL INSTRUCTOR, HIGH SCHOOL OF COMMERCE.

The Superintendent offered the following:—

ORDERED, That an additional instructor, in excess of the number allowed by the regulations, be, and hereby is, allowed

in the High School of Commerce for the remainder of the present term.

Passed under a suspension of the rules.

CONTINUATION SCHOOLS.

A communication was received from the Superintendent, under date of Feb. 7, 1910, stating that he has given consideration to the problem of continuation schools, and is of the opinion that progress can be made only by assigning some one to the work who can give it his full time, and recommending that W. Stanwood Field, sub-master in the Lewis District, be assigned to this work for the remainder of the present school year at his present salary.

Placed on file, and it was ORDERED, That the Superintendent be, and hereby is, authorized to assign W. Stanwood Field, sub-master in the Lewis District, during the remainder of the present school year to investigate and report practicable plans for the establishment of continuation schools.

HEALTH DAY.

A communication was received from the Superintendent, under date of Feb. 7, 1910, submitting, in accordance with the recommendation of the Director of School Hygiene, an accompanying order relative to the designation of a day to be observed as Health Day in the Boston public schools during the current term.

Placed on file, and it was

ORDERED, That Thursday, May 12, 1910, be observed as Health Day in the Boston public schools, and that the Superintendent be, and hereby is, authorized to arrange such a program for that day as he may deem expedient for the purpose of presenting in a special manner the value and importance of conserving health.

COURSE FOR NURSES IN SCHOOL FOR SOCIAL WORKERS.

A communication was received from the Superintendent, under date of Feb. 7, 1910, transmitting a report received from the Director of School Hygiene, with reference to granting permission to nurses to attend a course of instruction in the School for Social Workers, and recommending the passage of an accompanying order.

Placed on file, and it was

ORDERED, That the Director of School Hygiene be, and hereby is, allowed to grant permission to such school nurses as desire to attend a course of lectures by Jeffrey R. Brackett, on Tuesday afternoons from Feb. 8 to Apr. 5, 1910, the expense for tuition in each case to be paid by the City.

USE OF IRVINGTON-STREET ARMORY FOR MILITARY DRILL.

On motion of the Superintendent, it was

ORDERED, That the Schoolhouse Commission be, and hereby is, requested to procure the use of the State Armory on Irvington Street for three periods each week from Feb. 8 to Apr. 1, 1910, on days to be specified by the Director of School Hygiene, for the purpose of regular high school drills, the expense of the same to be charged to the account of rents of hired school accommodations.

DATES OF GRADUATIONS.

A communication was received from the Superintendent, under date of Feb. 7, 1910, stating that in accordance with the regulations the graduation exercises for elementary schools have been fixed for Tuesday, June 28, 1910, and for high schools Monday, Tuesday and Wednesday, June 27, 28 and 29, 1910, but owing to the fact that many of the teachers in the service will be employed in rendering assistance in connection with the coming convention of the National Education Association, the Board of Superintendents recommends that the dates of graduation be moved forward so that the elementary school graduations may be held on Friday, June 24, 1910, and the high school graduations may be held on Thursday, Friday and Saturday, June 23, 24 and 25, 1910.

Placed on file.

The Superintendent offered the following:

ORDERED, That the graduation exercises in the high and elementary schools at the close of the current term be held on such dates subsequent to June 22 as the Board of Superintendents may determine.

Passed under a suspension of the rules.

COMMITTEE ON VOCATIONAL ADVICE.

A communication was received from the Superintendent, under date of Feb. 7, 1910, submitting a report of the Committee on Vocational Advice, appointed in June, 1909, for the purpose of counseling graduating classes in selecting wisely the most appropriate employment and of helping them to secure it, suggesting the preparation of a card system to contain the records of all members of the high schools and of the graduating classes of the elementary schools, the preparation of a booklet containing a careful description of the various specialized high schools of Boston, the authorization of an appropriation of \$800 to be expended for speakers, and the placing upon the list of approved supplementary reading a limited number of books pertinent to this subject.

Laid on the table.

ANNUAL MEETING, DEPARTMENT OF SUPERINTENDENCE, INDIANAPOLIS.

On motion, it was

ORDERED, That there be allowed and paid to the Superintendent of Schools the sum of seven hundred dollars (\$700) for the purpose of paying the expenses of the Board of Superintendents and the Director of School Hygiene for attending the meeting of the Department of Superintendence of the National Education Association to be held in Indianapolis during the month of March, 1910; vouchers showing the details of the expenditure under this order to be filed by the Superintendent with the Business Agent in due course, and any unexpended balance of the amount thus allowed to be refunded by him.

APPOINTMENT OF NORMAL GRADUATES.

A communication was received from the Superintendent, under date of Feb. 7, 1910, calling attention to the conditions with reference to the appointment of teachers in the Boston Public Schools, and particularly with reference to the effect of the eligible list upon the appointment of Normal School graduates.

During the three years since the eligible lists have been in operation, the proportion of Normal graduates appointed to elementary school positions has increased. This increase has been due in part to a deliberate intention to favor the appointment of Normal graduates, but to a greater extent to the fact that under the eligible list only those Normal graduates who have shown ability as teachers have been able to secure appointment. There has accordingly been a growing confidence among the principals in the ability of Normal graduates to fill successfully the positions to which they are appointed. As a result of these appointments, the number of Normal graduates awaiting appointment has been reduced so low that it is nearly impossible to secure a sufficient number of teachers to act as substitutes. It seems evident, therefore, that in the future, graduates from the Normal School will be appointed to permanent positions much sooner after graduation than has hitherto been possible.

The time seems opportune, therefore, to put into operation the extension of the Normal School course that has been previously discussed, and he would recommend that the Board of Superintendents be requested to report as to the advisability of extending the Normal School course, under some plan that will provide for at least a half year of teaching in the school's actual class-room conditions, the Normal pupils to be paid for such teaching.

Under such a plan, the rating of the current class in each year would be based to a much larger extent upon ability to teach than is now possible. It would affect unfavorably the first twelve or eighteen members of the class by delaying for six months or more their permanent appointment. To the other members of the class it would be an advantage by giving them an opportunity to secure a rating based more largely upon teaching ability than it now is, and at the same time assuring them of a regular income during their last year in the Normal School.

Placed on file.

On motion of the Superintendent, it was ORDERED, That the Board of Superintendents be, and hereby is, directed to report as to the advisability of extending the Normal School course so as to provide at

least a half year of teaching in the schools under actual class-room conditions, and that said Board be, and hereby is, further directed to specify the plan by which said extension should be conducted.

CENTRAL CLERICAL HIGH SCHOOL.

A communication was received from the Superintendent, under date of Feb. 7, 1910, recommending the establishment of a Central Clerical High School, in order to make the present instruction in commercial branches in high schools more effective.

The requirements for admission to this high school should be one or more years of high school instruction as may be later determined, said instruction to be devoted to sound training in subjects essential to success in clerical lines. He would recommend that the Central Clerical High School be in session from 9 until 5 o'clock during twelve months in the year, and that no fixed general course be established, but that each pupil be given highly specialized work in the lines chosen and be advanced as rapidly as his ability permits. Graduation from the school should depend upon the attainment of a high degree of proficiency in certain specified subjects and not upon length of attendance.

He is of the opinion that such a school will enable many pupils now studying bookkeeping and stenography in the general high schools to secure a degree of proficiency that will aid them to obtain positions of greater importance and at higher salaries than they could otherwise secure. The establishment of such a school will also tend to relieve to some extent the present overcrowding in high schools, and it is probable that the saving in the cost of instructing these pupils in high schools will in a large measure, if not entirely, counterbalance the cost of the new school.

Placed on file.

On motion, it was

ORDERED, That a Central Clerical High School be, and hereby is, established, to begin on July 11, 1910, and that the Board of Superintendents be, and hereby is, directed to report to the School Committee a plan for the organization of said school.

FIRE PROTECTION.

A communication was received from the Superintendent, under date of Feb. 7, 1910, transmitting a report received from William C. Crawford and George S. Burgess suggesting means of securing better fire protection in school buildings.

Laid on the table, and a copy ordered to be sent to each member of the Board, and to the Board of Schoolhouse Commissioners for its consideration.

AMENDMENT TO REGULATIONS.

The Superintendent offered the following:

ORDERED, That the regulations be amended as follows:—

Section 209. Strike out the section, and substitute in place thereof the following:—

Sect. 209. Patriotic exercises shall be held in all the schools during the last sessions preceding the twenty-second of February and the thirtieth of May, and on the twelfth day of February, unless that day falls on a Saturday or Sunday, in which case the exercises shall be held during the last session preceding.

Laid over.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows:—

Section 214. Strike out the section, and insert in place thereof the following:—

Sect. 214. A child who is a member of a household in which a person is ill with smallpox, diphtheria, scarlet fever, measles, whooping cough, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid, shall not attend any public school, including evening and summer schools, during such illness until the teacher of the school has been furnished with a certificate from the Board of Health, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed.

Laid over.

The Superintendent offered the following:—

ORDERED, That the regulations be amended as follows:—

Section 215. Strike out the section and insert in place thereof the following:—

Sect. 215. 1. When pupils are absent from school on account of sickness, and whenever the principal or teacher has reason to believe that contagious disease exists in any household, he shall be authorized to exclude any pupils from school, including evening and summer schools, until the cases can be properly investigated.

2. If a principal or a teacher has any reason to believe that a pupil attending school has visited a household where, at the time of such visit, smallpox, diphtheria, scarlet fever, or measles existed, he shall, where the disease was smallpox, diphtheria, or scarlet fever, suspend such pupil from school, including evening and summer schools, for a period of two weeks, and, where the disease was measles, for a period of one week, next following such visit.

Laid over.

SALARIES OF PHYSICAL TRAINING TEACHERS.

A petition was received from Sara L. Shaw, and twelve other physical training teachers, that the salary of special instructors of physical training be established as follows,—first year \$900, annual increase \$72, and maximum \$1548, present teachers being placed upon the salary to which their years of service entitle them; and that the salary of special assistant instructors of physical training be established as follows,—first year \$756, annual increase of \$72, and maximum \$1188, present teachers being placed upon the salary to which their years of service entitle them.

The Chairman announced that in accordance with the wishes of the petitioners the Board was prepared to proceed with a hearing in this matter. There appeared and were heard on the subject Mary Hubbard, Edith E. Sears, Laura S. Plummer and Albert P. Walker. No other persons desiring to be heard, the hearing was declared closed.

The petition was laid on the table pending further consideration.

RECESS.

The Board took a recess at 6:40 o'clock P. M.

The members of the Board re-assembled in the School Committee Chamber at 9:20 o'clock P. M., and were called to order by the Chairman.

INDEPENDENT LIGHTING PLANT. HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILD- ING.

On motion, it was

ORDERED. That the Board of Schoolhouse Commissioners be requested to prepare the plans for the new building to be occupied by the High School of Commerce, the School Committee and the Board of Schoolhouse Commissioners, with a view to the installation of an independent lighting plant therein.

CONDITION OF SOUTHERN AVENUE, DORCHESTER.

A communication was received from Assistant Superintendent Rafter, under date of Feb. 4, 1910, transmitting communications from the Principal of the Henry L. Pierce District and the First Assistant in Charge of the John Greenleaf Whittier School, with reference to the condition of Southern avenue in Dorchester, on which Street said school is located.

Placed on file.

On motion, it was

ORDERED. That the Street Commissioners be requested to accept Southern avenue, located in that part of Dorchester called Dorchester Centre, and running from Washington to Bernard streets, which, in its unaccepted condition, is unfit for travel by the five hundred school children who are obliged to traverse it four times daily.

APPOINTMENT OF TELEPHONE OPERATOR.

A communication was received from the Secretary, under date of Jan. 29, 1910,

reporting that, subject to the approval of the Board, he had appointed Helen G. O'Neil as telephone operator in the Mason-street Building, to date from Dec. 23, 1909.

Placed on file, and the appointment approved.

On motion, it was

ORDERED. That the compensation of Helen G. O'Neil, telephone operator in the Mason-street Building, be fixed at the rate of four hundred sixty-eight dollars (\$468) per annum, to date from Dec. 23, 1909.

APPOINTMENT OF ASSISTANT, AUDITOR'S OFFICE.

A communication was received from the Auditor, under date of Jan. 17, 1910, reporting that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he had appointed Nellie M. Barry as an assistant in his office, to date from Jan. 17, 1910, to fill the vacancy caused by the transfer of Ellen T. Ryan to the office of the Secretary.

Placed on file, and the appointment approved.

TRANSFERS OF APPROPRIATIONS.

A communication was received from the Business Agent, under date of Jan. 31, 1910, stating that, at his order and authority granted by the Board on Dec. 6, 1909, he had transferred the sum of \$2,037.14 from the appropriation for Supplies and Incidentals and the sum of \$2,800.67 from the appropriation for Salaries of Officers to the appropriation for Salaries of Janitors.

Placed on file.

APPROPRIATIONS AND EXPENDITURES, 1909-1910.

A communication was received from the Business Agent, under date of Jan. 31, 1910, submitting a statement showing the final appropriations, the total expenditures and the balances for the financial year 1909-1910.

Placed on file.

RE-ENTRY OF TEACHERS TO SERVICE.

A communication was received from the Business Agent, under date of Jan. 28, 1910, submitting data on the cost of putting into effect an amendment to the regulations to provide that members of the supervising staff and teachers who re-enter the service may be appointed to positions of the same rank and to the same year of service in their rank that they held at the date of their retirement.

Placed on file.

ELECTRIC LIGHTING, MECHANIC ARTS HIGH SCHOOL-HOUSE.

A communication was received from the Business Agent, under date of Jan. 28, 1910, with reference to consumption of electricity in the Mechanic Arts High School-house, with particular reference to the lighting of the new Extension, which contains twenty rooms, and recommending that a change be made in the switchboard at that school which would enable the two electric generators already installed to carry all the current needed, and that a contract for auxiliary electric current, not to exceed two kilowatts, be made with the Edison Electric Illuminating Company.

Placed on file.

On motion, it was

ORDERED. That the Auditor be instructed to notify the Edison Electric Illuminating Company to discontinue their service for lighting in the Mechanic Arts High School-house upon the completion of the switchboard connections by the Schoolhouse Commission which will make possible the generation of electric current for lighting by the plant now in that building, and that he be authorized to contract with the above Company for auxiliary electric service not to exceed two kilowatts for the above building.

On motion, it was

ORDERED. That the Schoolhouse Commission be requested to make the necessary switchboard connections at the Mechanic Arts High School-house so that electric current for lighting may be generated by the existing electric plant in that building.

TUNGSTEN LAMPS, EVENING SCHOOLS.

A communication was received from the Business Agent, under date of Feb. 4, 1910, recommending that all evening schools not so equipped be supplied with Tungsten lamps, at a probable cost of about \$4,000, and expressing the opinion that the lamps should be purchased as early as possible in the financial year so that the saving in current consumed would appear in the same financial year as that in which the expenditure for lamps was made.

Placed on file.

On motion, it was

ORDERED. That the Auditor be instructed to expend a sum not exceeding four thousand dollars (\$4000) for high efficiency metallic filament electric lamps, to be installed in such buildings as the Business Agent may elect, the sum so expended to be charged to the appropriation for Fuel and Light.

DEATH OF A JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1910, reporting the death on Feb. 1, 1910, of Callahan T. Hogan, janitor of the Florence-street School-house.

Placed on file.

JANITORSHIP, BOWKER BUILDING SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of Jan. 17, 1910, stating that, inasmuch as the Bowker Building is to be discontinued for school use, it is unnecessary for him to recommend the appointment of any of the applicants certified by the Civil Service Commission as eligible for the janitorship of this building.

Placed on file, and the Secretary directed to request the cancellation of the certification made by the Civil Service Commission in this connection.

JANITORSHIP, 104 ELM-STREET SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of Jan. 17, 1910, stating that premises No. 104 Elm street, Charlestown, have been opened for school purposes, that this is a three-story tenement house which has been remodelled to suit the requirements of the Schoolhouse Commission, and that the salary schedule for janitors does not provide for this type of building, and recommending, therefore, that the salary of the janitor be established at the rate of \$4.62 per week, and that Edward Sullivan, Jr., janitor of the Prescott School-house, be also appointed to the janitorship of this building to date from Jan. 14, 1910.

Placed on file, and the appointment of Edward Sullivan, Jr., to said position approved, from the date stated.

On motion, it was

ORDERED. That the salary of the janitor of the 104 Elm-street School be established at the rate of four and 62-100 dollars (\$4.62) per week, to date from Jan. 14, 1910, and until otherwise ordered.

SALARY OF JANITOR, BEECH-STREET PORTABLE NO. 12.

A communication was received from the Schoolhouse Custodian, under date of Jan. 17, 1910, recommending that the compensation of the janitor of the Beech-street Portable No. 12 be fixed at the rate of \$2.31 per week, to date from Jan. 14, 1910, in view of the large amount of additional work required in connection with this building as compared with other portables.

Placed on file, and it was

ORDERED. That the salary of the janitor of the Beech-street Portable No. 12 be established at the rate of two and 31-100 dollars (\$2.31) per week, to date from Jan. 14, 1910, and until otherwise ordered.

JANITORSHIP, 1446-1448 COLUMBUS AVENUE SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of Jan.

17, 1910, stating that, as the Civil Service Commission has consented to the provisional appointment of Patrick Havery, janitor of All Saints' Hall, to the janitorship of the 1446-1448 Columbus-avenue School, he would recommend that he be appointed to this position, to date from Jan. 4, 1910.

Placed on file, and the provisional appointment of Patrick Havery to said position approved, from the date stated.

JANITORSHIP, COOK SCHOOL-HOUSE AND PORTABLE NO. 40.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1910, stating that the only applicant for transfer to the janitorship of the Cook School-house and Portable No. 40 is James F. Cooper, Jr., janitor of the Common-street School-house, and recommending that he be transferred to this position, to date from Feb. 13, 1910.

Placed on file, and the transfer of James F. Cooper, Jr., to said position approved, from the date stated.

JANITORSHIP, FLORENCE-STREET SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1910, stating that the only applicant for transfer to the janitorship of the Florence-street School-house is William H. Johnson, janitor of the Hutchings-street Portables Nos. 41, 102, 103 and 105, and recommending that he be transferred to this position, to date from Feb. 13, 1910.

Placed on file, and the transfer of William H. Johnson to said position approved, from the date stated.

JANITORSHIP, WALNUT-STREET SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1910, stating that the only applicant for transfer to the janitorship of the Walnut-street School-house is James E. Johnson, janitor of the Joy-street Portables Nos. 97, 98, 99 and 100, and recommending that he be transferred to this position, to date from Feb. 8, 1910.

Placed on file, and the transfer of James E. Johnson to said position approved, from the date stated.

JANITORSHIP, JOY-STREET PORTABLES NOS. 97, 98, 99 and 100.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1910, stating that there are no janitors in the service who desire to be transferred to the janitorship of the Joy-street Portables Nos. 97, 98, 99 and 100, and recommending that requisition be made upon the Civil Service Commission for the names of candidates eligible to fill this position.

Placed on file, and the Secretary directed to make requisition upon the Civil Service Commission accordingly.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1910, submitting a list of temporary appointments, reappointments and transfers of janitors, for periods of ten days or less, and amounts due for such services as follows:—

Bowker Building School—Archibald P. Goodman, amount due from Jan. 18 to 21, 1910, inclusive, \$4.

Cook School-house and Portable No. 40—Charles Timmins, reappointed from Jan. 23 and from Feb. 4, 1910; amount due from Jan. 18 to Feb. 7, 1910, inclusive, \$31.17.

Emerson Primary School-house and Portable No. 65—Edward Hackett, reappointed from Jan. 20 and from Jan. 30, 1910; amount due from Jan. 18 to Feb. 7, 1910, inclusive, \$34.02.

Florence-street School-house—William L. Lovejoy, appointed from Jan. 24, 1910; amount due for Jan. 24 and 25, 1910, \$2.92; Frank Gallagher, appointed from Jan. 26, 1910, reappointed from Feb. 5, 1910; amount due from Jan. 26 to Feb. 7, 1910, inclusive, \$23.72.

Hutchings-street Portables Nos. 41, 102, 103 and 105—John Powers, reappointed from Jan. 19, from Jan. 29, and from Feb. 8, 1910; amount due from Jan. 18 to Feb. 7, 1910, inclusive, \$27.69.

Joy-street Portables Nos. 97, 98, 99 and 100—Henry T. Brennan, reappointed from

Jan. 14, from Jan. 24, and from Feb. 3, 1910; amount due from Jan. 18 to Feb. 7, 1910, inclusive, \$27.69.

Nathan Hale School-house—Patrick J. White, appointed from Feb. 7, 1910.

Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42—William H. Johnson, temporary transfer extended from Jan. 17, from Jan. 27 and from Feb. 6, 1910; amount due from Jan. 18 to Feb. 7, 1910, inclusive, \$90.63.

Stephen M. Weld School-house—Patrick J. White, appointed from Feb. 4, 1910; amount due from Feb. 4 to 6, 1910, inclusive, \$6.02; John Hoey, appointed from Feb. 7, 1910.

Walnut-street School-house—James E. Johnson, temporary transfer extended from Jan. 19, Jan. 29 and from Feb. 8, 1910; amount due from Jan. 18 to Feb. 7, 1910, inclusive, \$36.96.

Warren School-house—Thomas F. Powell, temporary transfer extended from Jan. 21 and Jan. 31, 1910; amount due from Jan. 18 to Feb. 7, 1910, inclusive, \$39.55.

Wendell Phillips School-house—Michael E. Colleary, temporary transfer extended from Jan. 20 and from Jan. 30, 1910; amount due from Jan. 18 to Feb. 7, 1910, \$57.

Placed on file, and the reappointments and transfers approved.

On motion, it was ORDERED, That for services rendered as acting janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, Joy-street Portables Nos. 97, 98, 99 and 100, from Jan. 18 to Feb. 7, 1910, inclusive, twenty-seven and 69-100 dollars (\$27.69).

To Michael E. Colleary, Wendell Phillips School-house, from Jan. 18 to Feb. 7, 1910, fifty-seven dollars (\$57).

To Frank Gallagher, Florence-street School-house, from Jan. 26 to Feb. 7, 1910, inclusive, twenty-three and 72-100 dollars (\$23.72).

To Archibald P. Goodman, Bowker Building School, from Jan. 18 to 21, 1910, inclusive, four dollars (\$4).

To Edward Hackett, Emerson Primary School-house and Portable No. 55, from Jan. 18 to Feb. 7, 1910, inclusive, thirty-four and 2-100 dollars (\$34.02).

To James E. Johnson, Walnut-street School-house, from Jan. 18 to Feb. 7, 1910, inclusive, thirty-six and 96-100 dollars (\$36.96).

To William H. Johnson, Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42, from Jan. 18 to Feb. 7, 1910, inclusive, ninety and 63-100 dollars (\$90.63).

To William L. Lovejoy, Florence-street School-house, for Jan. 24 and 25, 1910, two and 92-100 dollars (\$2.92).

To Thomas F. Powell, Warren School-house, from Jan. 18 to Feb. 7, 1910, inclusive, fifty-nine and 55-100 dollars (\$59.55).

To John Powers, Hutchings-street Portables Nos. 41, 102, 103 and 105, from Jan. 18 to Feb. 7, 1910, inclusive, twenty-seven and 69-100 dollars (\$27.69).

To Charles Timmins, Cook School-house and Portable No. 40, from Jan. 18 to Feb. 7, 1910, inclusive, thirty-one and 17-100 dollars (\$31.17).

To Patrick J. White, Stephen M. Weld School-house, from Feb. 4 to 6, 1910, inclusive, six and 2-100 dollars (\$6.02).

CENSURE OF JANITOR, BUNKER HILL AND BUNKER HILL-STREET SCHOOL-HOUSES.

A communication was received from the Schoolhouse Custodian, under date of Jan. 17, 1910, stating that during the Christmas vacation parts of the heating apparatus and plumbing in several of the school-houses were frozen, and calling particular attention to the case of the Bunker Hill and Bunker Hill-street School-houses.

Placed on file, and the Chairman authorized to write a letter of censure to the janitor of the Bunker Hill and Bunker Hill-street School-houses for his negligence in the matter, and to inform him that another occurrence of this kind will be regarded as sufficient cause for suspension, transfer or removal from the service, as the nature of the case may justify.

WASHING OF WINDOWS.

A report was received from the Schoolhouse Custodian, under date of Jan. 17, 1910, in response to the order passed at the meeting of Dec. 20, 1909, requesting him to report upon the cost of washing the windows of school buildings generally, on the inside, two additional times per annum, and of certain selected buildings four additional times per annum.

Laid on the table, and a copy ordered to be transmitted to each member of the Board.

SWIMMING POOLS IN HIGH SCHOOL BUILDINGS.

A communication was received from the Director of School Hygiene, under date of Jan. 21, 1910, stating that the plans for the new High School of Commerce and School Administration Building have been presented to him for consideration of the question of incorporating therein a swimming pool, and requesting that he be informed of the policy of the Board with regard to the matter.

Laid on the table.

PLAYGROUNDS, 1910.

A communication was received from the Director of School Hygiene, under date of Feb. 3, 1910, submitting a plan for the conduct of playgrounds during the year 1910.

The communication was placed on file, the plan contained therein approved and adopted, and the Auditor directed to include in the budget for the current financial year the necessary items to carry the aforesaid plan into effect.

TEACHERS' COUNCIL ON PENSIONS.

A communication was received from Lillian B. Poor, under date of Jan. 24, 1910, stating that the Teachers' Council on Pensions had met at the School Committee Rooms on Mason street on Jan. 24, 1910, and organized with Augustine L. Rafter as Chairman and Lillian B. Poor as Secretary, and that the Council stands ready to act at the call of the School Committee.

Placed on file, and the Secretary directed to invite those masters and teachers retired on three-fourths pay to select a single delegate to attend the meetings of the Teachers' Council on Pensions, and also to invite a delegate of the committee representing the truant officers to attend such meetings.

NAMING OF SCHOOL-HOUSES.

A further communication was received from Myrtle L. Hodge, Regent of the General Benjamin Lincoln Chapter, D. A. R., under date of Jan. 29, 1910, again urging that the action of the Board on Jan. 12, in naming a school in East Boston the John Barry School, be amended, and that said school be known as the Commodore Barry School.

A communication to the same effect was also received from Carrie F. Manson, Corresponding Secretary of the Home Club of East Boston.

The several communications on the subject were placed on file, and the order passed at the meeting of Jan. 12 relating to this matter (see p. 198) was amended to read as follows:—

ORDERED, That on the completion and occupancy of the new elementary school in the Adams District, situated on Webster street, it be named the Samuel Adams School, and the present Adams School be named the Commodore Barry School.

That the lower elementary school in the Lewis District, situated on Hutchings-street, be named the William Lloyd Garrison School.

That the lower elementary school in the Sherwin-Hyde District, situated on Rugles street, be named the Lafayette School.

That the lower elementary school in the Sherwin-Hyde District, situated on Hunneman street, be named the George T. Angell School.

That the Thetford-street School be named the Robert Swan School.

YARD OF SAVIN HILL SCHOOL.

A petition was received from Mrs. E. L. Miller and eight other residents of Savin Hill, that an improvement be made in the condition of the yard of the Savin Hill School.

Referred to the Board of Schoolhouse Commissioners.

BOSTON-1915 COMMITTEE

A communication was received from C. Bertrand Thompson, Organization Secretary of the Boston-1915 Committee, under

date of Jan. 29, 1910, enclosing an explanatory circular with reference to the organization of a Directorate of the Boston-1915, and requesting the Board to send a representative to attend a conference to be held on March 3, 1910.
Placed on file.

GIFT OF PORTRAIT TO GILBERT STUART SCHOOL.

A communication was received from Joseph W. Swan, President of the Stoughton School Alumni Association, under date of Jan. 26, 1910, stating that some of the older members of said association desire to present to the Gilbert Stuart School a framed portrait of their old teacher, Isaac Swan, and requesting the approval of the Board thereof.

Placed on file, and the Secretary directed to inform the Stoughton School Alumni Association that the Board approves the proposed gift and expresses its thanks therefor.

ANNUAL REPORT, BOARD OF TRUSTEES OF PERMANENT SCHOOL PENSION FUND.

The second annual report of the Board of Trustees of the Permanent School Pension Fund for the year ending Jan. 31, 1910, was received, from which it appears that the total amount appropriated for pensions during that year was \$5,043.19, paid for pensions during the year \$3,075.12, unexpended balance \$56,968.07. Received for investment balance of appropriation of 1908-09 \$62,213.01, balance of appropriation of 1909-10, \$56,968.07, total receipts \$119,181.08. Sundry receipts \$1,681.95. Sundry payments \$3,145.84. Fund \$117,717.20. Investments purchased \$114,000. Cash on hand \$3,717.20. Number of teachers retired on pension during the year 31; number now drawing pensions 66.
Placed on file.

SIGNING OF CONTRACTS BY CHAIRMAN.

On motion, it was
ORDERED, That the action of the Chairman in signing, on behalf of this Board, contracts for material to be furnished by the J. L. Hammett Co. and Carter, Rice & Co. Corporation, is hereby approved.

BOUNDARY LINES, ADAMS AND LYMAN DISTRICTS.

On motion, it was
ORDERED, That the boundary lines of the Adams and Lyman Elementary School Districts shall hereafter be as follows:—

Adams District, for Boys and Girls.

Beginning at the junction of Brooks street and the railroad; thence by the railroad to Cunard Wharf; thence by the water to Brooks street extended; thence by the centre of Brooks street extended to the point of beginning.

Lyman District, for Boys and Girls.

Beginning at the junction of Brooks street and the railroad; thence by the centre of Brooks street to Bennington street; thence by the centre of Bennington street across Central square to the water; thence by the water to Cunard Wharf; thence by the railroad to the point of beginning.

OBSERVANCE OF LINCOLN DAY.

On motion, it was
ORDERED, That, inasmuch as Lincoln Day, Feb. 12, 1910, falls upon Saturday, principals of schools and districts be directed to hold appropriate exercises on the preceding Friday.

USE OF SOUTH BOSTON HIGH SCHOOL-HOUSE FOR SOCIAL CENTER.

A communication was received from Mary P. Follett, Chairman of the Committee on the Extended Use of School Buildings of the Women's Municipal League, under date of Feb. 3, 1910, requesting on behalf of said Committee that the usual charge for heat and light be abated in the case of the use of the South Boston High School-house as a social center for young men and women.

Placed on file, and the abatement of the city charge for heat and light approved.

BILLS BEFORE THE LEGISLATURE.

The Board considered various bills pending before the Legislature, and acted thereon as follows:—

House Bill No. 618, An Act Relative to Minors Engaged in Street Trades:—

A communication was received from Richard K. Conant, Secretary of the Massachusetts State Child Labor Committee, transmitting a copy of the aforesaid bill and requesting the opinion of the Board with regard to the matter.

The communication was placed on file, and the Secretary directed to reply thereto to the effect that the Board is of the opinion that the scope and general effect of the bill is admirable, and while it feels that it has no special facilities for dealing with children over fourteen years and under sixteen years of age who are not attending school, nevertheless, if it is felt by the Legislature that the School Committee is the proper body to undertake the licensing of such minors, the Committee is willing to do it, and will endeavor to perform the work satisfactorily.

House Bill No. 391, An Act Relative to the Age at which Children Shall be Required to Attend School:—

The Secretary was directed to inform the Committee on Education of the Legislature that this Board feels that, in the event of the passage of this bill, the funds available for school purposes should be increased sufficiently to enable the Board to provide accommodations and teachers for the very large additional number of children who would be obliged to attend school.

House Bill No. 402, An Act Relative to the Employment of Minors:—

The Secretary was directed to transmit to the Committee on Labor a communication similar to the one ordered to be transmitted to the Committee on Education, relative to the necessity of providing additional funds for school purposes should this bill become a law.

Senate Bill No. 59, An Act Relative to the Tuition of Children attending Schools in Places Other than the Residence of Parents or Guardians:—

Mr. Lee was authorized on behalf of this Board to appear before the Committee on Education of the Legislature in opposition to this bill.

MEDICAL INSPECTION OF CHILDREN RECEIVING AGE AND SCHOOLING CERTIFICATES.

Mr. Lee, to whom was referred on Dec. 27, 1909, a communication from Richard K. Conant, Secretary of the Massachusetts State Child Labor Committee, with reference to the medical inspection of children receiving age and schooling certificates, made an oral report thereon, and was discharged from further consideration of the subject.

ADJOURNMENT.

The Board adjourned at 11.15 o'clock P.M.
Attest:—

THORNTON D. APOLLONIO,

Secretary.

SITE FOR EAST BOSTON COURT-HOUSE.

A loan appropriation of \$80,000 was made in 1909 for erecting a courthouse and police station building in East Boston. At that time it was intended to erect the said building on the site of the old East Boston High School building, in which the present quarters of the court are located, and a tentative scheme or plan was drawn up by Harrison H. Atwood, architect.

It was found to be impossible to complete this arrangement as the building is under the control of the School Committee, and they refused to relinquish their rights in the premises. On November 8, 1909, an additional appropriation of \$25,000 was made, providing for the purchase of a site and for a building for court-

house and police station. A total of \$105,000 was thus made available for the improvement.

Plans and specifications were then prepared for a building to be erected on the northerly half of the plot of land designated as Central square, which the East Boston Company had conveyed to the city in 1851, and the company agreed to release to the city their rights in said plot of land upon payment of \$6,000.

The matter was referred to the Law Department, and the Corporation Counsel decided "that in order to make the release effective so that the city can build upon the land the company will have to get the consent of and release from the present owners of property abutting on the square and that until such consent and release are obtained nothing further can be done in the matter."

HEALTHIEST CITIES.

The rate at which people die in other localities has a certain practical interest for intending travelers or emigrants. It is also instructive to the hygienist. The following mortality statistics for 1906 of the principal European and British cities have just been published by the sanitary authorities of Antwerp. The figures indicate the number of deaths per 1,000 of the inhabitants:

Antwerp.....	13.7
Amsterdam.....	13.7
Rotterdam.....	14.1
Edinburgh.....	14.2
Lege.....	14.3
Brussels.....	14.6
Berlin.....	15.1
The Hague.....	15.3
Dresden.....	15.4
Hamburg.....	15.5
London.....	15.7
Prague.....	16.6
Birmingham.....	16.8
Glasgow.....	17.7
Vienna.....	17.8
Paris.....	17.9
Munich.....	18.1
Budapest.....	18.2
Ghent.....	18.6
Rome.....	18.9
Manchester.....	19.1
Cologne.....	19.6
Liverpool.....	20.6
Moscow.....	20.8
Odessa.....	20.8
Belfast.....	20.8
Dublin.....	23.3
Havre.....	24.4
St. Petersburg.....	25.4
Trieste.....	25.8
Madrid.....	29.5

Boston's death rate for 1909 was 17.6, which shows a decrease from the rate of the year previous, when the figure stood at 19.08.

A comparison of the death rates of the fourteen largest American cities for the year 1909 may be interesting in connection with the above. They are as follows:

Cleveland.....	13.2
Chicago.....	14.0
Milwaukee.....	14.6
Detroit.....	14.8
Pittsburg.....	14.8
Buffalo.....	15.1
St. Louis.....	15.5
Philadelphia.....	16.3
New York.....	16.6
Cincinnati.....	16.8
Boston.....	17.6
Baltimore.....	18.1
Washington.....	18.5
New Orleans.....	20.6

Judged by the standard usually accepted in determining the sanitary status of cities,—deaths from typhoid fever per hundred thousand,—Boston stands sixth among the fourteen largest American cities, with 11.6 deaths per hundred thousand from typhoid, as against 12.1 in Chicago, 12.4 in Cleveland, 12.5 in Cincinnati, 12.7 in New York, and 14.4 in St. Louis.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, FEBRUARY 19, 1910.

No. 8.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By SUBSCRIPTION . . . \$1.00 Per Year.
SINGLE COPIES . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week, to insure its publication in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions retarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying-out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS, Room 44, City Hall, for information as to the watering, cleaning, lighting, and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO THE BOARD OF HEALTH, Room 11, Old Court House (rear of City Hall), for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE WATER COMMISSIONER, Room 58, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC GROUNDS, 154 East Cottage street, for information as to the care of the Common, Public Garden, and the small parks throughout the city other than playgrounds, and the extermination of the gypsy moth and the charges made for the same.

TO THE PARK COMMISSIONERS, Pinebank, Jamaica Plain, for information as to Franklin Park and Field, Commonwealth avenue, the Back Bay Fens, Marine Park and playgrounds in general throughout the city.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending February 17, 1910:

ASSESSING DEPARTMENT.

The following communication has been sent to Alonzo F. Andrews, Esq., member of the Board of Assessors:

"DEAR SIR,— You are hereby removed as a member of the Board of Assessors for the following reasons:

"The City Council having amended the ordinance concerning the Assessing Department by fixing the number of assessors at seven instead of nine, it has become necessary in order to comply with the existing ordinance to reduce the membership of the present Board by two. I have to-day accepted the resignation of John H. Donovan as a member of the Board, and I am convinced that of the remaining members you are the one whose services can be most easily dispensed with. I have therefore decided to remove you from the Board and file this statement with the City Clerk in accordance with the provisions of section 14 of chapter 486 of the Acts of 1909.

"Respectfully,

"JOHN F. FITZGERALD,

"Mayor."

The resignation of John H. Donovan from the office or appointment of membership on the Board of Assessors of the City of Boston has been accepted.

CITY CLERK DEPARTMENT.

In accordance with the joint request of John F. Dever, Clerk of Committees, and John T. Priest, City Clerk, James E. Norton, Superintendent of Licensed Minors,

has been transferred to the City Clerk Department, at a salary of \$1,500 per annum.

COLLECTING DEPARTMENT.

James P. Kelly has been designated to serve as Acting City Collector at such times as the City Collector may be absent during the four weeks commencing February 14, 1910.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Miss Gwynette Gardiner resigned as nurse at the hospital at Mattapan on January 31, 1910, and Miss Beatrice E. Doherty, 80 Middle street, South Boston, was appointed to fill vacancy caused by said resignation, entering service on February 10, 1910, at \$40 a month.

Miss Mary J. McKenzie resigned as nurse at the hospital, Mattapan, on December 22, 1909, and Miss Helen G. Cavanaugh, 181 Norfolk avenue, Roxbury, was appointed as her successor, entering service January 25, 1910, at \$40 a month.

Miss Alice M. Hodgson resigned as head nurse at hospital at Mattapan on December 31, 1909 and Miss Margaret J. Maloney, 393 Commonwealth avenue, city, was appointed as her successor, entering service (noon) February 10, 1910, at \$65 a month.

Miss Laura Beaton resigned as nurse at the Out-Patient Department on January 15, 1910, and Mrs. Anna L. Noonan, 130 Draper street, Dorchester, was appointed her successor, entering service February 11, 1910, at \$75 a month.

Abraham Brown resigned as choreman at Mattapan on February 4, 1910, and John J. Murphy, 137 K street, South Boston (patient), was appointed to fill vacancy caused by said resignation, entering service (noon) February 15, 1910, at \$18 a month.

Creation of position of ambulance chauffeur for the hospital at a salary of \$60 per month.

Mayor Fitzgerald has approved the creation of four positions of maid for the hospital, at a salary of \$18 a month each.

FIRE DEPARTMENT.

Lieutenant James F. McMahon promoted to the rank of Captain.

Ladderman James J. Lunny promoted to the rank of Lieutenant.

Appointment of John J. Gately as a painter at \$3.16 per day.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

Thomas I. Minton	1 40	1 40
Thomas J. Shea Company	1 80	1 80

ADDITIONS AND ALLOWANCES TO CONTRACTS.

Under the law the Mayor has during the week approved the following additions and allowances to contracts. Copies of these additions and allowances to contracts are on file in the office of the City Clerk.

BATH DEPARTMENT.

Contract with Mack & Moore, on East Boston gymnasium and public baths. Addition for installing steam piping and things necessary for Gegenstrom shower valves, \$247.50; addition on account of change in shower baths, \$1,485; contract, \$64,650; total additions, \$1,732.50; total deductions, \$1,198; contract as standing, \$65,184.50.

SCHOOLHOUSE DEPARTMENT.

On contract for plumbing in the Lewis District Elementary School, Pierce & Cox deduct \$350 from original contract price on account of the omission of fixtures, supplies and slate work, and for change in location of urinals. Contract, \$3,980; contract as standing, \$3,630.

On contract for building the Lewis District Elementary School, Whiton & Haynes Company deduct \$4,185 for the omission of miscellaneous items of work and the substitution of others, in accordance with change in the plans and specifications. Contract, \$55,600; less deduction, \$51,415.

PERMISSION TO CONSTRUCT.

Permission has been granted by the Mayor to the Superintendent of Streets for the following work in excess of \$1,000 in cost, to be done with the department force without competition: Renewing surface of Broadway drawbridge in South Boston, estimated amount being \$2,200.

"This is maintenance work and can in my opinion be as advantageously done by day labor methods as any work now necessary.

"(Signed) GUY C. EMERSON,
"Superintendent of Streets."

PERMISSION TO SELL HORSES.

Permission has been granted to the Park Department for the sale of five horses, on the recommendation of Dr. Austin Peters, the department veterinary, at the following prices: one bay horse, lame, \$50; one bay horse, troubled with shoe boils, \$75; one old white horse, \$75; one old white horse, \$50; one brown horse, troubled in summer time with a skin disease, \$175. These allowances to be made in trade for new stock.

CIRCULAR FROM THE MAYOR.

The following circular relative to the use of water in city buildings, and payment therefor, has been sent to the heads of the various city departments:

February 14, 1910.

To the Heads of Departments:

I desire to notify you that during the year 1910-11 bills will be sent to all city departments for the quantities of water used by them in city buildings. The supply furnished to each department will be charged for at the regular water rates.

This is a return to the policy in vogue prior to 1900 and is recommended by experts in the interest of economy as well as of lucid and accurate accounting between the city departments. Conclusive evidence has been presented that the remission of water charges to the departments not only in Boston but in other cities results in indifferent supervision of faucets and sanitary appliances and consequent waste of water. The loss from waste in the city departments was recently estimated as amounting to \$25,000 a year. As two-thirds of the charges of the Metropolitan Water Board are apportioned among the cities and towns of the metropolitan district on the basis of consumption, Boston is directly interested in the checking of waste, with its attendant increase of metropolitan assessments.

As between the Water Department and the other city departments, an inequitable relation has obtained in recent years. The deficiency in the Water Department in 1909-10 amounted to \$218,563.49. This was entirely due to the remission of charges to the city departments; but the taxpayers in the end were not relieved of any appreciable burden, as the deficit had to be replaced by transfers, derived ultimately from taxes and general revenue. In other years the loss of a portion of its rightful income may have prevented the Water Department from introducing desirable improvements, or forced it to resort to loans, thereby increasing the city debt, in order to defray their cost.

I have thought it advisable to give early notice of this return to a sounder policy, in order that each department may be enabled to adjust its particular usages and regulations in accordance with the practice hereafter to be followed.

Respectfully,

JOHN F. FITZGERALD, Mayor.

HEARINGS.

Hearings have been granted by the Board of Railroad Commissioners on the following matters:

Upon the petition of the West End Street Railway Company, by the Boston Elevated Railway Company, its attorney, for approval of the 295th and 296th locations in the City of Boston, established under orders of the Board of Aldermen, dated January 31, 1910, the Board will give a hearing at its office, 20 Beacon street, Boston, on Wednesday, February 16, 1910, at 10.30 o'clock in the forenoon.

Upon the petition of the Old Colony Street Railway Company, by the Boston Elevated Railway Company, its attorney, for approval of the 6th location in the City of Boston, established under an order of the Board of Aldermen, dated January 31, 1910, the Board will give a hearing at its office, 20 Beacon street, Boston, on Wednesday, February 16, 1910, at 10.30 o'clock in the forenoon.

EXTENSION OF TIME.

An extension of time has been granted upon the following contracts made by the Street Department, Highway Division:

James Doherty, for paving and regulating section of Washington street, West Roxbury. Time extended to July 15, 1910.

James H. McCarthy, for constructing a macadam road in Corbet street. Time extended to July 15, 1910.

John F. O'Connell, for paving and regulating section of Washington street, West Roxbury. Time extended to July 15, 1910.

P. J. Dinn & Co., for erecting three rail pipe fence on the retaining wall of Florence street, Mt. Hope Station. Time extended to April 1, 1910.

LAND-TAKINGS.

Land-takings are made by the Street Commissioners in conjunction with the Schoolhouse Commissioners for school purposes and by the commissioners in their own right for street construction, and for the construction of sewers or drains. Takings made for schools and streets are made outright. In certain cases though the city only takes a right of way where permission is desired to construct sewers and drains.

Takings made for the construction of streets will be given each week under the caption of "New Street Construction." Other takings will be grouped under general "Land-Takings" caption.

Taking for sewerage purposes of easement in land on Revere street, approved by the Mayor February 10, 1910; no land damages.

STONY BROOK CONDUIT AGREEMENT.

On February 11 the Mayor approved an agreement between the N. Y., N. H. & H. R. R. Co. and the city covering the construction and maintenance by the city of a 7-foot circular concrete conduit for a distance of about 1,800 feet on the right of way of the railroad company between a point near Aldrich street and a point near Anawan avenue at Bellevue Station, the said work being necessary in connection with the conduit for Roslindale branch of Stony brook.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

Allowances were made by the Superintendent of Streets and approved by the Mayor, as follows:

John Clancy, Highway Division, nine and one-half days at \$2.25, \$21.38.

Thomas J. Early, Sewer division, six days at \$2.50, \$15.

Michael Fanning, Street Department, twenty-four days at \$2.25, \$54.

APPROVAL OF SCHOOLHOUSE PLANS.

The following plans for the William L. Garrison School, Lewis District, to be erected on Hutchings street, have been approved by the Mayor: Building plans, plumbing plans, heating and ventilating plans, prepared by Newhall & Blevins, Architects. The building as planned will accommodate 440 pupils, and contain nine classrooms and kindergarten.

DISTRICT MEETINGS.

The following subjects were presented for consideration and discussion at the district meetings held during the week ending February 19:

**AT THE SOUTH BOSTON HIGH SCHOOL,
FOR SOUTH BOSTON.**
(February 11, 1910.)

**SOUTH BOSTON CITIZENS ASSOCIATION
REQUESTS.**

(PRESENTED BY MESSRS. E. J. POWERS, W. S. McNARY AND HENRY J. MCKEE.)

1. Rapid transit:
 - (a) Tunnel or subway under Fort Point channel to South Station and Park street. To junction of Broadway and Dorchester avenue, at least, possibly to Dorchester street.
 - (b) Extension of subway to Dorchester.
2. Streets:
 - (a) Completion of Old Colony avenue. Cost about \$20,000.
 - (b) Extension of Southampton street and widening of Preble street. Cost \$145,000.
 - (c) Extension of approach of Cove Street Bridge to Broadway and Dorchester avenue. Cost about \$30,000.
 - (d) Widening of L street from 50 to 60 foot street. Cost \$150,000. Or extension of Dorchester street and I street combined over the Reserve channel to Summer street extension. Cost about \$300,000.
 - (e) Building of a few hundred feet of a new street to connect properly East First and West First streets, greatly benefiting teaming. Cost \$60,000. Recommended by Metropolitan Improvement Commission.
 - (f) Asphalting of the narrow minor streets. Cost \$40,000.
 - (g) Some method of paving streets around Dorchester Heights to prevent their rapid wear and deterioration on the incline as at present. Cost \$210,000.
 - (h) Survey, preparation of plans and ascertainment of cost of a possible future bridge over the South Bay from the junction of Dorchester avenue and Old Colony road to Malden street, South End; thus connecting with the great crosstown thoroughfare of Dartmouth street. This project recommended by the Metropolitan Improvement Commission.
 - (i) Appropriation sufficient to keep South Boston streets cleaned as frequently as in the city proper.
3. Parks and playgrounds:
 - (a) Improvement of Marine Park. Building aquarium from Parkman Fund if possible. Filled-in roadway to Fort Independence in accordance with the original plans in place of present pile bridge, which was built for ten years and has lasted twenty. Improvement of island and roadway by plenty of shade trees. Cost about \$100,000. Completion of the pier, with rotunda at end. Cost about \$50,000. Filling ponds.
 - (b) Filling in and improving of McNary Playground, so called, at head of old harbor, where between 60 and 70 acres of marsh and flats can be rapidly filled by dredging out the flats of the old harbor and securing a basin filled with water at all times. Cost about \$100,000. Providing a public landing on playground for rowboats and other small boats and beaching and mooring places for same. Erection of playground administration building, combined with all-the-year-around baths similar to the Dover street building. Cost \$75,000.
 - (c) Making of a small park or square at the junction of Broadway and Dorchester avenue, extending to Fourth street, thus giving to South Boston a small park at the entrance, up to the line of SS. Peter & Paul's church. Cost probably less than \$50,000.
 - (d) Lease or otherwise acquire the present natural little park, formerly occupied by Home for Feeble-minded Children, at M and Eighth streets, now owned by the Howe Memorial Association, which is endeavoring to erect thereon a monument to Samuel Gridley Howe, the eminent teacher of the blind and feeble-minded children. If purchased, cost probably \$30,000 and \$10,000 to put it in condition.
 - (e) Four neighborhood playgrounds for women and small children; one between D, Sixth and Old Colony road; another between D, Broadway and Dorchester street, another near Dorchester and Eighth street junction, and one somewhere in Washington Village. Cost about \$10,000 apiece; total of \$40,000.
 - (f) Utilizing vacant space at junction of Emerson, Third and H streets for neighborhood playground; now owned by the city. Securing the use of the old Hawes Church land at junction of Emerson, Fourth and K streets as neighborhood playground. Removal of fence for neighborhood playground of the city's land at junction of Emerson, Fourth and M streets. Total cost about \$25,000.
 - (g) Equipment of the parks and playgrounds and Strandway and neighborhood playgrounds with proper sanitary conveniences. This has

been completely overlooked and is an absolute necessity if the parks and playgrounds are to be utilized and enjoyed, particularly by women and children. Cost \$50,000.

- (h) Equipments of the head house baths or L street baths for all-the-year-around salt water bathing, open; small fee charged for security and convenience in dressing under shelter in warm room.
 4. Improvement of historic Dorchester Heights.
 - (a) Strengthening and increasing the height of the monument so that it will rise clear of surrounding buildings, so that it can be seen from both water and land, and appropriately crown these heights—the site of the first great triumph of the American Revolution. Cost \$25,000.
 - (b) Building of approach from the Strandway, giving a clear view of the monument, as recommended by the Metropolitan Improvement Commission, utilizing possibly part of Covington street, but using mostly vacant land; widening or rectifying the lines of Telegraph street so that a clear view of the monument could be obtained from Dorchester street, as recommended by the Society of Architects. Building of a new street from the junction of Broadway and Dorchester street over the line of Pacific street, widening and improving the latter, so that a view of the monument can be obtained from Broadway. Building stone steps on the Heights where necessary, and thus making appropriate and proper approaches to these historic Heights. If the city could have the right to relocate and resell property the cost would probably be \$50,000 to \$75,000.
 5. Extension of Broadway from Washington street to the junction of Shawmut avenue and Tremont street. This is properly a South End improvement, but would be a benefit to our people by giving a direct entrance for the cars into the old subway.
 6. Municipal building. Cost \$250,000.
- The cost of these improvements, roughly speaking, leaving out the rapid transit and the extension of Broadway, which is essentially a rapid transit feature, and the cost of subways being met by rentals from the elevated, would be about \$1,450,000.

**SOUTH BOSTON TRADE ASSOCIATION
REQUESTS.**

(PRESENTED BY MR. JAMES J. MURPHY.)

1. Extend Old Colony avenue at least to the Strandway.
2. Playground adjoining Old Colony avenue, between C and D streets.
3. New Municipal building.
4. Improve police stations.
5. Abate smoke nuisance, Edison Company being principal offender.
6. Abate odor nuisance from Spectacle Island.
7. Have New Haven road extend subway tract through First street, improving business part of the district.

**ANDREW SQUARE IMPROVEMENT ASSO-
CIATION REQUESTS.**

(PRESENTED BY MESSRS. DANIEL V. MCISAAC AND GEORGE H. CARVER AND REV. T. J. MAHONEY.)

1. Proper approach to Strandway from Andrew square by way of Preble street, widening Preble street according to plans on file in Street Commissioners' office.
2. (Presented by Mr. Carver.) Objection to South Bay nuisance, caused by dumping of house refuse.

**SOUTH BOSTON HIGH SCHOOL ALUMNI
ASSOCIATION REQUESTS.**

(PRESENTED BY MR. THOMAS F. O'BRIEN.)

1. Improve grounds around high school building; establish running track and bowling green.
2. Supported Father Toomey's position against amusement licenses at City Point.
3. Improve street railway transportation to and from South Boston: have transfers from South Station north.
4. Install handball court at L street, appropriation of \$2,500 having already been authorized and present handball court having been wrecked by recent storm.
5. Little piece of land, H, Second and Third streets, can be put in good condition for playground at small expense, and good beach can be made near there.

RT. REV. DENIS F. O'CALLAGHAN.

1. Complete Old Colony avenue.
2. Improve narrow streets adjoining for benefit of the poor people.

MISS ANNE E. NEWHALL.

(REPRESENTING MAFAPANOCK WOMEN'S CLUB.)

Complete small playground on West Fifth street, between D and E streets. Spoke very urgently about the need of playground accommodations for the children of Ward 13.

MR. CORNELIUS J. DESMOND.

1. Consider lot, bounded by Story and F streets, between G and H streets, for playground.

2. Consider school accommodations for South Boston.

MR. MICHAEL W. NORRIS.

1. Subway.
2. Fill up South Bay.
3. Help along Commonwealth Dock project.
4. Have municipal building.
5. Encourage coming of T Wharf Corporation to South Boston.
6. Improve street sweeping and watering.
7. Make Elevated road remove snow more promptly.
8. Establish aquarium at City Point.

MR. WILLIAM L. NEWTON.

1. Increase the playground accommodations for children of Ward 13, equipping playgrounds at B and Third, and D and E streets; with sand boxes, gymnastic apparatus, etc.
2. Increase use of school yards as summer playgrounds.
3. Make the Elevated remove snow more rapidly.
4. Supported improvements suggested by Citizens Association.
5. Have subway and have transportation facilities for the people, in the way of cars, improved.

REV. MORTIMER E. TOOMEY.

1. Don't issue permits for amusements at City Point; natural attractions are sufficient. (Mayor Fitzgerald assured Father Toomey that such amusement licenses would not be issued this year.)
 2. Have band concerts afternoons instead of evenings at the Point.
 3. Put additional electric lights at the Point, one light being equal to three policemen.
- Father Toomey said that the above suggestions were in the interest of morality and proper enjoyment of natural advantages at the Point.

MR. MICHAEL J. CARROLL.

1. Increase height of Dorchester Heights Monument so that it will rise clear of surrounding buildings, and trim out trees so that a good view of the Heights will be afforded.
2. Carry out Old Colony avenue project and improve small neighboring streets as favored by Father O'Callaghan.

MR. J. FRANK O'HARE.

1. Favored improvements suggested by the committee of the Citizens Association.
2. Equip playgrounds corner B and Bolton streets on D and E streets.
3. Playground conditions in Ward 13 should receive particular attention of Mayor and City Council, as conditions there are bad in the matter of tuberculosis.
4. Establish aquarium at City Point.
5. Improve Ward 15 playgrounds—already \$25,000 for the purpose in Park Department.
6. Erect engine house for Bay View section.
7. Put wires on Broadway underground and have no poles and wires on Old Colony avenue.
8. Improve street car transportation facilities, and in connection with that matter improve the bridges.

SENATOR PATRICK H. O'CONNOR.

1. Subway for South Boston.
2. Strandway playground.
3. Convenience station at Dorchester Heights.
4. Widen Preble street.
5. Municipal building, with baths, library, etc.
6. Bath-house for Ward 15.
7. Playground for Ward 13.
8. New schools.

Mayor Fitzgerald suggested that the citizens of South Boston should formulate their needs in the way of new schools, as an application is being made to the Legislature through the School Committee for an additional loan of two and one-half millions for that purpose.

VOTE OF THANKS.

On motion of Hon. W. S. McNary a unanimous rising vote of thanks was extended to the Mayor and City Council for coming to South Boston.

ADDRESS BY COUNCILMAN KENNY.

At suggestion of the Mayor, Councilman Kenny, as a resident of South Boston, addressed the gathering, promising support of South Boston measures as far as was compatible with the needs of other sections and with the money at the disposal of the Mayor and City Council.

MEETING IN MARCH.

It was voted, at suggestion of the Mayor, on motion of Mr. McNary, that there be another meeting in the South Boston High School on the first Friday evening of March, and that all South Boston citizens who are interested in the public welfare be invited to be present to discuss such questions as may properly come before the meeting.

Adjourned at 11 o'clock p. m.

AT CITY HALL FOR WARDS 6, 7, 8, 9, 10,
11 AND 12.

(February 14, 1910.)

NORTH END COMMITTEE REQUESTS.
(PRESENTED BY MR. ANDREW A. BADARACCO.)

1. Most pressing need of Ward 6 is cleaner streets. Four men instead of one should be employed to collect rubbish.
2. Three regular weekly collections of garbage should be made. In July and August daily collections.
3. Protection needed against smoke nuisance of Boston Elevated power station at Battery street.
4. Recommends ordinance limiting street hawking.
5. Gas tank on Prince and Commercial streets a menace to district.
6. Women's privileges at North End municipal bath inadequate. Second floor should be given over to women's exclusive use. North Bennet Street Playground should be resurfaced.
7. Present disgraceful condition of North End Park; \$35,000 needed for repairs.
8. Buildings of Eliot School district inadequately lighted; widening of Wiggin street would correct lighting of school.
9. Necessity of public library building in Ward 6. Present stations inadequate.
10. Need of Tenement Commissioner to look after housing conditions.
11. Need of additional broad thoroughfare from congested market district.
12. Need thoroughfare between North and South Stations.
13. Memoranda submitted in regard to cost of garbage disposal.

WEST END IMPROVEMENT SOCIETY
REQUESTS.

(PRESENTED BY REV. CHRISTOPHER R. ELIOT, MR. MICHAEL W. BRECK, MR. JEREMIAH MCCARTHY AND MR. ROBERT W. SILVERMAN.)

1. New grammar school. Washington School overcrowded; Baldwin School unfit and badly located.
2. Opposed to schoolhouse on park.
3. More facilities needed at Charlesbank; no instructor there for last two years.
4. Ask proper policing of Charles River Basin.
5. Ask better care of alleys; also better street sweeping at night. District should be allowed more than one push-cart man.
6. Need street extensions: Bowker street, through Chardon street to Pitts street; Bowdoin street to Moss place.
7. Construction of street where Pike (Black) alley now is. Conditions there dangerous.
8. Water fountains for Charlesbank.
9. Ask city to use influence to hasten completion of elevated railroad to Cambridge, in interest of rapid transit in West End.

(By Mr. McCARTHY.)

1. Underground convenience station at Lowell square, also one in Bowdoin square.
2. Fix up Charlesbank Gymnasium.
3. Use vacant lot as ball park for boys.

(By Mr. SILVERMAN.)

1. Necessity of another schoolhouse in West End.
2. Opposed to schoolhouse on park.
3. Need of all-year-round bath house.
4. Necessity for regulation of street traffic, making some streets one-way streets.
5. Asphalt Wall and Auburn streets and few others.
6. Improve lighting of West End.
7. Cut through Pike (Black) alley or else close it.

MAJOR FRANK H. BRIGGS.

1. Need of subway to relieve congestion of out-of-town cars on Boylston street.
2. Schoolhouses in Ward 11. Old Phillips School overcrowded. Prince School a hospital school.
3. Garbage removal the imminent thing. Should have daily removal of offal.
4. Should have one system of street lighting.

SENATOR JOSEPH P. LOMASNEY.

1. First need of West End a new school.
2. Need all-year-round bath house.
3. Fix up ball field for boys on Leverett street end of Charlesbank.
4. Improve streets which are trucking thoroughfares.
5. Do away with overcrowded condition of Washington School.

HON. DANIEL J. WHITTON.

1. Need more sandpits at Charlesbank gymnasium.
2. Irrigate Charlesbank Park, which is fast drying up.
3. Improve lighting in West End, especially on streets leading to hospital.
4. Improve condition of Pike (Black) alley.
5. Provide Floating Hospital to be in charge of City Hospital Trustees.

MR. NATHAN S. SODEKSON.

1. Fix up Beacon street side of Boston Common as ball field for boys.
2. Put bath house and indoor gymnasium on Common.

SOUTH END IMPROVEMENT SOCIETY
REQUESTS.

(PRESENTED BY MR. GEORGE W. COLEMAN.)

1. Need more efficient system of street cleaning and garbage removal. Also better street lighting.
2. Need improved drainage system to prevent backing up of sewage water.
3. Restriction of smoke nuisance.
4. City should clean private alleys. Bill before Legislature to permit this.
5. Extension of Arlington street to Castle square.
6. Improvement in electric car service. Need of more stopping places.
7. Need municipal building to include gymnasium and public hall.
8. Discontinuance of Way Street School. Provision for social needs of Ward 7 by new building.
9. Pier for summer use opposite Randolph Street Playground. Better supervision of playground, especially on Saturday afternoons. Need flooring in playground building for basket ball.
10. Ask reduction of noise made by Street Department wagons in early morning by sending them through streets which are not residential.

MR. TIMOTHY F. CALLAHAN.

1. Supports all suggestions of South End Improvement Society.
2. Need of softer flooring for Randolph Street Playground.
3. Need of new drainage system for South End.
4. Better cleaning of streets needed. Should be flushed in summer.
5. Better schoolhouses for South End needed. Present buildings old and dirty.

SOUTH END IMPROVEMENT ASSOCIATION
REQUESTS.

(PRESENTED BY MR. SAMUEL B. DOGGETT.)

1. Desired new streets put through section bounded by Boylston, Tremont and Berkeley streets, extension of St. James avenue, Arlington street and Broadway to open up South End district to business and improve valuations of land. New City Hall in Castle square would greatly increase land valuations of entire district.
- Mr. Godfrey Morse also suggested new City Hall in Park square or Castle square district as means of increasing land values there.

MRS. ANGELINA E. POST.

(REPRESENTING OWNERS' AND TENANTS' ALLIANCE OF SOUTH END.)

1. Alleged systematic under-assessment of property in South End.
2. Need more stopping places on car lines between Roxbury Crossing and Pleasant street.
3. Carelessness on part of garbage collectors.
4. Asked removal of elevated structure.

MISS HELENA STUART DUDLEY.

(REPRESENTING DENNISON HOUSE.)

1. Municipal building south of Broadway extension much needed.
 2. New school building needed.
- Presented letter from Frederick W. Swan, master of Quincy School, urging these improvements.

MR. CHRISTOPHER P. McCAFFREY.

1. Deplored condition of Quincy Schoolhouse.
2. Asks spending of \$25,000 appropriation made by last city government to enlarge school yard.
3. Repave Harrison avenue from Harvard street to Broadway; also from Kneeland street to Harvard street.
4. Repave Albany street from Kneeland street to Oak street.
5. Lighting irregular on streets of Ward 7.

REV. HENRY L. WRISTON.

Asked influence of city government on Elevated road for transfers east and west from Tremont street and Columbus avenue cars.

MR. JOHN DOYLE.

1. Put footbridge from Greenwich park, Ward 12, over railroad tracks to Cumberland street, Ward 10. Mr. Malcolm E. Nichols supported this.
2. Need of bathing accommodations.
3. Asphalt all streets of South End running east and west.
4. Extend East Dedham street to South Boston. Fill in South Bay south of East Dedham street.
5. Widen Northampton street from Washington street to Harrison avenue or Albany street.

MR. THOMAS UNIACKE.

1. Close Dover street floating bath house. Substitute swimming pools in bath house.
2. Have roads "start somewhere and end somewhere."

3. Deplores loss of business concerns which have left South End to go to Cambridge.

SEWERAGE SYSTEM OF SOUTH END.

Superintendent Emerson explained that bad conditions of sewerage at South End were due to lack of foresight on part of those who reclaimed the land from ocean. Cellars too low to make use of improved sewerage system of overflows into harbor. Plans drawn up to remedy difficulty (by means of auxiliary pumping station in South End, independent set of drains for surface water, etc.), but estimated cost is about \$1,000,000. Annual levy of one-twentieth of 1 per cent not available for this district, being restricted to Charles river drainage. Would require legislative action to make this loan available.

MR. JOHN KANE.

Deplored sewerage conditions in South End. Should make an appropriation to investigate conditions now without waiting for million-dollar appropriation.

MR. GODFREY MORSE.

1. Abate smoke nuisance.
2. Build new City Hall in Park square.
3. Do away with garage nuisance on Harcourt street.
4. Collect garbage more frequently.

MR. MALCOLM E. NICHOLS.

1. Deplored garage nuisance on Harcourt street. Issuance of such licenses all over city should be restricted.
2. Need of footbridge over railroad tracks from Greenwich park to Cumberland street.
3. Need of playground in vicinity of Columbus avenue and Dartmouth street. Certain land there, not to be bought, could be used for swings, etc.
4. Abate smoke nuisance. Electrify railroads.

Mayor Fitzgerald asked citizens to attend monthly meetings in City Hall and make their complaints in regard to city matters.

REMARKS BY COUNCILLORS ATTRIDGE
AND HALE.

Councillors Attridge and Hale addressed the meeting,—asking co-operation of citizens with city government in improving conditions in city.

VOTE OF THANKS.

On motion of Mr. Coleman a unanimous rising vote of thanks was extended to the Mayor and City Council.

Adjourned at 10.55 p. m.

AT WEST ROXBURY HIGH SCHOOL FOR
WEST ROXBURY DISTRICT.

(February 15, 1910.)

CLEVELAND CLUB REQUESTS.

(PRESENTED BY MR. PATRICK J. BRADY.)

1. Schoolhouse in Germantown, West Roxbury district.
2. Schoolhouse on corner Belgrade avenue and Beech street.
3. Opening of yard of Paving Division in West Roxbury.
4. Widening of Washington street as a state highway from La Grange street to Metropolitan avenue.
5. Sewer construction, laying out and widening of streets, repair of streets and more strict attention paid to cleaning of streets of West Roxbury district.
6. Employment of more men in paving yard of district.
7. Establish street cleaning division.
8. Construct granolithic or brick sidewalks on Washington street from Green street to the Arborway.
9. Playground on corner of Williams and Washington streets, or in that vicinity.
10. Municipal building.
11. Bridge tunnel constructed under New York, New Haven & Hartford Railroad, from Amory street, opposite Cornwall, and a street that runs to Lamartine street.
12. Oppose widening of Forest Hills square at present time as the amount of money Boston would have to appropriate for such an undertaking could be spent to greater advantage for widening of some other streets of West Roxbury.

JAMAICA PLAIN CITIZENS ASSOCIATION
REQUESTS.

(PRESENTED BY REV. CARROLL PERRY.)

1. Of first importance—playgrounds.

(PRESENTED BY MR. L. J. BRACKETT.)

2. Sidewalks on Centre street from Green street to Boylston street.
3. Sidewalks on Washington street from Green street to Forest Hills square. Also new sidewalks on many important cross streets.
4. Cleaner and better watered streets; receptacles for waste paper in business streets.
5. Increased efficiency in collection of ashes and garbage.

(PRESENTED BY DR. E. PEABODY (GERRY).)

6. Preservation of trees and extended use of parks.

Dr. Gerry also criticised the footbridge at Forest Hills Station over the New York, New Haven & Hartford tracks, stating that he did not know about the matter personally but that it had been criticised by people who had brought it to his attention who believed there should be a tunnel instead of a footbridge. Superintendent Emerson explained why the bridge has been constructed instead—stating the objections against the tunnel to be that it would be difficult to drain it, that it would be very hard to police it, and that it would be more expensive than the footbridge. He also stated that while people would have to go over the bridge the rise would not be a bad one, but would be a gradual incline, with but a few steps, while in the tunnel they would have to go down and then up again. He said there was a division of opinion in regard to the two methods, with not much of a majority in favor of either that he could find. Mr. George Cherry, later in the evening, supported Mr. Emerson's view of the matter, stating that he and a large number of people considered the footbridge preferable, that the tunnel would be difficult to police, as it would probably become a resort for loafers, etc., and that it would be more expensive. He saw no difference in going down 20 feet and then up 20 feet, as compared with reversing the process.

RECOMMENDED FOR CONSIDERATION.

1. Construction of new street over course of Stony brook.
2. Tunnel under New Haven tracks at some point between Green street and Boylston street.
3. Restoration of noon bell and no-school bell service.

INDORSEMENT OF MAYOR AND CITY COUNCIL ASKED FOR.

1. Station of elevated at Green street.
2. Electrification of steam railroads in Greater Boston.

GERMANTOWN CITIZENS ASSOCIATION REQUESTS.

(PRESENTED BY MR. W. H. GLEASON, *President*.)

1. New schoolhouse to take place of the one that has done service since 1857, and is now in very unsanitary and unfit condition.
2. Engine house, not an expensive one, sufficiently large to house a light hose wagon and possibly an improved combination chemical.
3. Stimson street extension.
4. A playground.
5. Station of New York, New Haven & Hartford Railroad at foot of Stimson street extension.
6. Oiling the streets as at present.
7. Branch delivery of public library books.
8. More street lights in the Fidelia Park district.
9. A more sane observance of July 4.
10. Ash cart service permanent, and not intermittent as at present.
11. Use of school buildings for citizens' meetings.
12. No further issuance of cemetery permits in the district.
13. Night car service on Boston Elevated Railway.
14. Voting precinct in Germantown proper.

ALSO INDORSES.

1. Proposed widening of Washington street from La Grange street to Metropolitan avenue.
2. Establishment of a Zoo in Stony Brook Reservation or Franklin Park.
3. Station of Boston Elevated at Green street.
4. Electrification of steam railways.
5. Continuance of meetings of Mayor and City Council with the citizens of various districts.

WEST ROXBURY CITIZENS' ASSOCIATION REQUESTS.

(PRESENTED BY MR. WILLARD N. POLAND.)

1. Temple street. Laying out and construction from Centre street, running about west under railroad tracks to Ivory street.
2. Stratford street. Lay out and construct portion near Highland Station where there is a plot of land laid out in the manner of a small park with a roadway on either side. This section of Stratford street has never been laid out and accepted by the city.
3. Centre street. Widen to a respectable width. Appreciate the fact that this proposition will involve considerable expense, and would be content if a portion of this street could be widened each year.
4. Spring street sewer. This street is not provided with any sewer from a point at or about Gardner street to Charles River. Residents have to depend upon the old fashioned cesspool.
5. Sidewalks. This subject we would like to receive attention generally throughout the district.
6. Street cleaning. Because of abolition of West Roxbury department yard, West Roxbury streets have more or less suffered for want of street cleaning. It is a matter of fact that in West Roxbury.

7. Street watering should be continued later in the season than is the practice to-day.

8. Beech street. Indorse all that the Roslindale people say in connection with this street. Not only inconvenient for street railway company and the general public, but absolutely dangerous. Not a single point where a sidewalk of proper width can be maintained, and at the same time leave any space at all between sidewalk and nearest rail.

MOUNT HOPE CITIZENS' ASSOCIATION REQUESTS.

(PRESENTED BY MR. JOHN E. BARRY, *President*.)

1. General recommendations for improved streets, sewer extension and school accommodations.
2. Municipal building.
3. Playground with gymnastic apparatus.
4. Opposed to elevated structure on Hyde Park avenue.

SUGGESTIONS OF BUDGET COMMITTEE OF THE ASSOCIATION.

(PRESENTED BY CHARLES J. LENNON, *Chairman*, JAMES D. HEALEY AND CHARLES A. NELSON.)

1. Playgrounds. Convenient plot at a central point near Mt. Hope depot, equipped with apparatus to be used as an open air gymnasium. Could also be used for band concerts.
2. Schools. From some sections of district it is one and one-half miles to the nearest grammar school. New grammar school should be erected at Mount Hope.
3. The Canterbury primary school, now located, you might say, in the Italian Cemetery, is a building of wood and perhaps fifty years of age or more, antiquated in design and convenience, badly ventilated, has been condemned in reports of Chairman of Budget Committee after a careful investigation, and also by Loca P. Howard, principal of Charles Sumner school district, after he was instructed to find out for the School Committee of Boston if the chairman's report was as he represented. A new school with more cheerful surroundings is urgently needed.
3. Gypsy Moths.—Pests numerous and have devastated several lots of fine trees. Many wooded sections owned or controlled by non-residents who take little interest. Some remedy should prevail to make thorough cleaning of all property—developed and undeveloped.
4. Ashes and Garbage.—Recommended change in present system. It seems from a fair and just summary of the matter that the city should do this work itself.

5. Stony Brook.—Brook open to filth and dirt, trees overhang, the bed is shallow and not deep enough to warrant protection in case of great thaw or flood. In summer when the water is low a thick green scum covers the entire surface, causing malaria and other sickness. Roslindale has had the sister branch covered from one section to another in that district and I believe the people of Mount Hope should be afforded the same protection.

6. Streets to Accept.—Clifford, Rowe, Brook, Caterbury streets (straight from Rowe to a point west of Perkins), Folsom street. Street from junction of South and Washington east to Florence street. One side owned by city—the Washington Street Playground.

7. Streets for Repair.—Neponset avenue complete entirely with gutters and resurfaced. Paine street, sewer and gutter. Catherine street, resurface and gutter. Sewer now running through Catherine street is of little or no value. Really a disgrace to the city.

8. Trees.—Every public way, particularly in the suburban sections, should be planted with shade trees. Every main artery or boulevard running through our city should be planted with shade trees to start with. Every street after the opening of this innovation, if started in the course of construction should be provided with shade trees. Hyde Park avenue, now in the process of construction, should be completed with shade trees.

9. Elevated Structures.—Association on record as opposed now and forever against any elevated structure ever taking up in whole or in part any thoroughfare in our district.

10. Wires.—All overhead wires should be placed underground within a certain term of years. The present system of burying a few miles of wires each year is of little or no value owing to the increase of five miles of overhead new each year to the one going underground. All new permits should compel the various companies to place such new wires underground, and at the same time require so much of the old wires each year. Hyde Park avenue is literally covered with poles and wires and might be termed a disgrace.

11. New District Yard.—Indorse a yard south of Forest Hills. The West Roxbury yard was abolished against the wishes of the people and for no good, justifiable cause.

12. Election Booths.—Precinct 5 booth in Stephen M. Weld School is ten minutes' walk from Mount Hope depot. The old location at Mount Hope depot is considered by most every citizen in precinct the proper and feasible place.

13. Streets Oiled.—If city could afford it every street, watered and oiled by the city, if possible, would be a great benefit to the convenience of the people.

14. Police Station.—New station is needed.

15. Municipal Building.—Indorse this project. Public Library pays \$1,200 per year rent for a one-room one-story affair and this money could be used toward defraying the cost of a new building with accommodations for a library and, perhaps, a new police station.

16. Circuit Route.—Should be inaugurated through Washington and Ashland streets and Hyde Park avenue and vice versa—so-called belt line.

17. Sidewalks.—Every street should have good sidewalks. The asphalt idea an excellent one. Work should be uniform in color and material.

ROSLINDALE CITIZENS ASSOCIATION REQUESTS.

(AS PRESENTED BY BUDGET COMMITTEE, GEORGE W. SMITH, WARD D. PRESCOTT AND GEORGE W. CURRUTH.)

1. Streets.—Acceptance and construction of Malcolm street, Mozart, Bellevue and Dudley avenues, Bradford terrace, Farquhar street from Selwyn to Centre street, Cornell street from Orange street to Colberg avenue, Montello and Edgemont streets. Widening of Beech street from Belgrade avenue to Centre street, with new bridge over New York, New Haven & Hartford Railroad.

2. Street Cleaning.—The establishment of a Street Cleaning Department for all this district south of Green street.

3. Sewers.—Continuation of the Roslindale branch of Stony brook to Beech street.

4. Parks and Public Grounds.—Construction of the proposed parkway connecting the bridge path with the Stony Brook Reservation. That the city purchase for parks a lot of land bounded by South street, South Walter street and Robert street and two lots bounded by Poplar, South and Washington streets, one of the latter to be used as a site for a new municipal building. The installing of an open air gymnasium, running track and convenience station on the Washington Street Playground.

5. Subways.—That a foot subway be constructed under the tracks of New York, New Haven & Hartford Railroad at Bellevue Station to connect Guernsey street and Anawan avenue.

6. Public Buildings.—A new primary schoolhouse to be located in the vicinity of Bellevue Station.

Municipal building for Roslindale similar to one now under construction at Curtis Hall.

New subpolice station for Roslindale.

7. Reopening of Paving Division yard in District 11.

REV. FATHER LYONS.

1. Favored tunnel under the New York, New Haven & Hartford Railroad, between Boylston and Green streets.
2. Favored passageway under tracks from Cornwall to Oakdale streets.

MR. WHEELWRIGHT.

1. Suggested separation of paper from other refuse by householders, in interests of economy, as a source of revenue to the city. (Superintendent Emerson stated that that idea had been attempted, but was impracticable, that the citizens would not co-operate.)

Mr. Frank M. Doyle favored an ordinance requiring separation by householders, thought that that might help.

STREET AND SIDEWALK SITUATION IN BOSTON.

Mayor Fitzgerald explained that Boston had always been much more liberal than any other city in the country in the matter of streets and sidewalks—that the city paid half the cost, whereas in other cities the abutter paid the entire cost. Inasmuch, however, as the outlying sections had in the past contributed to the building up of the heart of the city in these respects, he had believed in going slow in changing the method now, in the interest of fair play.

MR. JOHN HEALEY.

Referred to certain land known as the Bussey land, that paid no taxes, was an eyesore and was in scandalous condition; hoped something could be done about it.

MR. WILLIAM H. MORGAN.

1. Open-air gymnasium at the Overlook Building, Franklin Park, should be built.
2. Establish Jamaica Plain surface cars at Egleston square elevated station, with transfers.
3. Have more suitable and better cars and better schedule for the district.

MR. JEREMIAH D. HOLLAND.

1. Better sidewalks.
2. More equitable assessing of property; cases of gross inequality in the district, some in speaker's own neighborhood.
3. Have water meter charges made more just; minimum charge of \$15 is unfair.
4. Indorse these meetings, as the average citizen could not go to City Hall with grievances.

MR. HENRY C. KRAMER.

Continue Stony brook work as rapidly as possible.

MR. FRANK M. DOYLE.

1. Elevated staircases at Egleston square too narrow for people to pass properly, and rather dangerous for elderly people; muffle noise of the cars; ventilate the cars better at the end of trips; have cheaper car fares for school children, particularly to and from high schools located at a distance; have Elevated pay for paving between second and third rails.

2. Open dumps should be closed.

3. Reopening of municipal yard, West Roxbury, will not improve service unless we have the men behind the guns; division of street yards is expensive and divides the responsibility.

4. Heathcote and Marmont streets should be constructed.

MR. LENNON.

1. Our expensive parks should be made more usable by the common people; would result in less trouble in the courts.

2. Favored playgrounds, which can be used, for district. It is a park district, but parks and playgrounds are very different things. Fit up playgrounds for children and others with sand gardens, swings, etc.; suggested plot up at Prince street, by park, that could well be used for playground purposes.

3. New school, perhaps on Belgrade avenue.

4. Present method of building streets and sidewalks should be improved. Macadam, grass plots and granolithic sidewalks do not cost any more than the present methods and make better and handsomer construction.

MR. GEORGE F. STOWERS.

Favored continuation of ringing of noon bell and no-school bell, and suggested in this line a bell for new fire house, Walk Hill and Wenham streets.

FUTURE MEETINGS.

The Mayor stated that there would be similar meetings held in this hall later, early in the months of March, April and May, to consider matters affecting the district; that one of the members of the City Council would probably preside, and that all the citizens and representatives of improvement associations were earnestly invited to attend, and to suggest at the meetings anything of importance to the district.

VOTE OF THANKS.

On motion of Mr. Morgan, a unanimous vote of thanks was given to the Mayor and City Council for their presence at this meeting.

Adjourned.

MEETING OF SCHOOL PHYSICIANS.

The regular quarterly meeting of the School Physicians' Association was held in rooms of the Health Department on Friday evening, February 11, Dr. H. E. Marion presiding. The paper of the evening was by Dr. John T. Sullivan, whose subject was with reference to the problems in connection with adenoids, enlarged tonsils and other naso-pharyngeal obstructions. The subject was further discussed by Drs. Harris P. Mosher, John P. O'Brien, W. S. Boardman, and others. The election of officers for the coming year resulted in the choice of the following physicians:

President, Henry S. Rowen; *Vice-President*, C. Morton Smith; *Secretary*, Henry J. Perry; together with an executive committee.

Dr. S. H. Durgin spoke of the value of following up the isolation of infectious cases in the homes, and the need of more help for this purpose.

Dr. Durgin presented to the members at the meeting the new Superintendent of School Physicians, Dr. S. H. Ayer.

Philadelphia claims to have the finest high pressure fire service in the world, drawing water direct from Delaware river, with 20-inch distributing main supplying 12 and 16 inch mains into the business district; its special pumping plant, which can be put in instant operation, has a capacity of 10,000 gallons a minute, with power to throw a 2-inch stream 230 feet vertical; this service now being installed by other cities.—*Philadelphia.*

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH:

1910.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON:

1910.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.
March 29. Janitors and Engineers of Public Buildings, Class 24.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth; and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and, when filled out, should be filed in the office of the Commission.

In order to receive a notice to appear at any of the above scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

By order of the

MASSACHUSETTS CIVIL SERVICE COMMISSION,
WARREN P. DUDLEY,
Secretary.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the week ending February 26:

Feb. 23, Faneuil Hall: Mr. James B. Forrest, tenor; Mr. Frank H. Eaton, flutist.
Feb. 24, South Boston High School, corner of Sixth and G streets, South Boston: Miss Mary Tracy, soprano; Mr. Louis E. Dalbeck, cellist.
Feb. 25, Ford Hall, Ashburton place; Mrs. Wilhelmina Calvert, soprano; Mr. Barthold Silberman, violinist.

An important feature of these concerts are lectures by Professor Louis C. Elson, who explains and interprets the programme rendered.

Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at the leading music stores and at drug stores and other places in the vicinity of the different halls.

Philadelphia's assessed realty values have increased \$160,000,000 in the past five years, during which period the city has built more than 30,000 dwellings.—*Philadelphia.*

CITY OF BOSTON.

PROPOSALS FOR LUMBER.

The Boston School Committee invites proposals for furnishing and delivering lumber to the various schools throughout the year. Proposals may be obtained at the office of the Auditor of the School Committee, Room 53, 168 Tremont street, and bids covering the proposal must be received by the undersigned on or before Monday, February 28, at 11 o'clock a. m. A duplicate copy of the bid must be sent direct to the City Auditor, City Hall. The right to reject any or all bids is reserved.

(Feb. 19.) WILLIAM J. PORTER,
Auditor.

CITY OF BOSTON.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 12 o'clock Friday, February 25, for the hay, grain and straw needed in the different departments for March, 1910. The bid must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1, straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association, and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The oats must be No. 2, clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate must be filed, without the check, with the City Auditor. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Friday, February 25, at 12 m. The superintendent reserves the right to reject or accept bids.

(Feb. 19.) J. EDWARD MULLEN,
Superintendent of Supplies.

CITY OF BOSTON.

PROPOSALS FOR ATTACHMENTS FOR COMPOSING MACHINES.

Proposals will be received until February 26 by the Printing Department, City of Boston, for the following attachments, alterations and supplies for composing machines: Five low-quad attachments, 21 matrix cases, 4 fonts 6 point 8A, 4 fonts 8 point 8A, 3 fonts 10 point 8A, 5 fonts 11 point 8A, 5 fonts 12 point 8A, 5 fonts 11 point 92J, 1 font 10 point 11J, 2 fonts 6 point 11J, 2 fonts 8 point 11J, 1 font 6 point 8A superior figures, 1 font 10 point 8A superior figures, 2 sets 11 point 8A italic figures, 2 fonts 10 point 8A italic figures, 2 sets 8 point 8A italic figures, 2 sets 6 point 8A italic figures, 10 left keybar frames, book C; 10 right keybar frames, book C; 10 right keybar frames, job C-2; changing 20 molds to low quad. Further particulars furnished upon request, and the right is reserved by the Superintendent of Printing to reject any or all bids as deemed to be for the interest of the City of Boston.

(Feb. 19.) JAMES H. SMYTH,
Superintendent of Printing.

CITY OF BOSTON.

PROPOSALS FOR STEVEDORE WORK.

The Trustees of the Boston City Hospital will receive sealed proposals for discharging ten thousand (10,000) tons of coal (2,240 pounds to the ton), more or less, as required from time to time, from March 1, 1910, to February 1, 1911, from barges into coal pocket. Form of contract to be obtained at the office of the superintendent, 818 Harrison avenue, and returned to said office not later than 12 o'clock noon on February 24, 1910, at which time and place the proposals will be publicly opened. A duplicate copy of the proposal must be filed with the City Auditor on or before the date given above for receiving proposals. Proposal to be signed by the bidder and accompanied by a properly certified check for two hundred dollars (\$200). A bond will be required for the faithful performance of the contract. The right is reserved by the trustees to reject any and all bids. Per order of the trustees,

(Feb. 19.) J. H. MCCOLLOM, M. D.,
Superintendent.

CITY OF BOSTON.

PROPOSALS FOR WATER METERS.

The Water Commissioner of the City of Boston invites proposals, from manufacturers only, for furnishing fifty-five hundred (5,500) 1-inch, six hundred (600) 1½-inch, two hundred (200) 1-inch and fifty (50) 1½-inch water meters, and giving bond of a surety company doing business in Massachusetts, in the sum of fifteen thousand (\$15,000) dollars on the contract. Only proposals obtained at the Water Commissioner's office, Room 58, City Hall, Boston, signed by the bidder and there left before 12 o'clock, noon, Monday, February 28, 1910, with a certified check for one thousand (1,000) dollars, will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor before the time above specified.

The commissioner reserves the right to reject any or all proposals should he deem it to be for the interests of the city so to do.

(Feb. 19.) WILLIAM E. HANNAN,
Water Commissioner.

FINANCE COMMISSION.

The following communication has been submitted by the Finance Commission to the Mayor and City Council:

February 12, 1910.

To the Honorable the Mayor and City Council:

GENTLEMEN,—The commission respectfully submits herewith a report upon the Assessing Department.

The former Finance Commission, on November 7, 1908, submitted a report upon this department, in which it was pointed out that in many respects the methods of administration were antiquated, and that the expenditures of the department were excessive. Some of the recommendations then made were adopted by the department, and the expenditures have been reduced from \$190,720 in 1907-08 to \$175,058 in 1908-09, and to \$169,330 in 1909-10.

The commission believing that the other recommendations, if adopted, would have effected a much larger saving without loss of efficiency, procured an accountant to examine the expenditures of the department for the year 1908-09, and to compare the cost of administration in Boston with Worcester, which ranks next to Boston in valuation, and Brookline, which ranks third after Boston. The result of this investigation has convinced the commission that by changing certain methods, and by establishing such reasonable standards of efficiency as ought to be attained in the public service of a city like Boston, the expenditures of the department would be reduced to \$128,000 a year, or \$55,343 less than the department's estimates for the current year.

The department is not responsible for having two additional assessors thrust upon it at a cost of \$8,000 a year. The work had been performed for nearly two years by seven principal assessors, without any diminution of efficiency, and they did not ask for the increase in the force. The appointments were deliberate gifts of the city's money, apparently for political purposes, and wholly without justification.

The appointments of the principal and of the assistant assessors have been made almost invariably for political reasons, and it is not remarkable, therefore, that the work of the department has not been performed more efficiently and economically. The existing system is cumbersome and extravagant, and seems to be maintained for the purpose of furnishing steady employment at high rates of compensation rather than for the purpose of having the duties of the office discharged in the best possible manner, and at the lowest possible cost.

The extravagance of the department is shown by the following facts:

The average annual pay roll cost for the entire department in the fiscal years 1904 to 1908 (both inclusive) was \$175,785. In 1908-09 it was \$169,031, and in 1909-10, \$163,632. In 1908-09 the pay roll cost for each person assessed for poll tax was 90 cents in Boston and 36 cents in Worcester. The pay roll cost per bill was 69 cents in Boston and 25 cents in Worcester. The comparative costs in 1909-10 have not been computed, but they would not show any substantial variation from the figures of the year 1908-09. After making all possible allowances in favor of Boston, due to differences in conditions, the pay roll cost in this city appears to be greatly excessive.

The excessive pay roll cost is due to the system that has been established, which necessitates the employment of a larger force than a proper system would require. In the year 1908-09, there were employed in the department ten permanent salaried clerks, whose compensation amounted to \$22,947, twenty-five ward clerks who received \$53,108, and twenty-one extra street and miscellaneous clerks who received \$7,767, the total aggregating \$83,823. Of this sum \$60,876, or approximately 75 per cent of the total cost of clerical assistance, was paid for clerks on per diem or per item rates, which in the opinion of the commission were too high. In the last year the cost of clerk hire has been reduced from \$83,823 to \$78,448, but further reductions should be made. The average annual salary of the office clerks in the City of New York is \$925, and of the district clerks \$1,130, whereas the average earnings of the ward clerks in Boston for 1908-09, for a period of less than twelve months, was \$2,124. It is true that more work is performed by each clerk in the Boston department, but even allowing for this excess, the disparity in salary is still far too great. Comparisons with Worcester and Brookline furnish further evidence of the excessive compensation paid in Boston. In 1908-09 the clerical cost of the Assessing Department in Boston was \$77.44 for each million of real estate valuation; in Worcester \$58.86, and in Brookline \$55.10. The clerical cost per million of personal estate valuation in Boston was \$341.77, in Worcester \$238.25, and in Brookline \$104.40. The clerical cost per million of total valuation, real and personal, was in Boston, \$127.31, in Worcester \$106.31, and in Brookline \$80.74. This basis of comparison is unfavorable to Worcester and Brookline, as the total valuation in Boston is more than ten times as much as in Worcester, and about thirteen times as much as in Brookline, and the ratio of the cost of assessing to the total assessed valuation should, therefore, be lower in Boston than in these municipalities.

The present cost of clerical service is not justified by the increase in population, or in the work of the department. As shown in the report of the former Finance Commission (Vol. 1, page 441), during the ten years previous to 1908, the clerical cost increased 44.7 per cent while the increase in the number of polls was only 14.27 per cent, in the number of persons assessed for property 9.96 per cent, and in the number of tax bills 15.38 per cent. While the experience of the present clerical force is valuable, the compensation should not so greatly exceed that which similar services command in private employment.

The commission calls special attention to certain of the methods now existing, and to the remedies which it proposes.

I. THE STREET WORK.

From the first of May to the fifteenth of June in each year, the department employs 138 men upon the street work, which consists of a house to house canvass throughout the entire city for the purpose of listing the polls, and obtaining information relative to the holdings of personal and real property as a basis for the assessment of taxes. For this purpose the city is divided into forty-six districts, and three men are assigned to each district. The street force consists of forty-six first assistant assessors, who are paid \$10 a day, forty-six second assistant assessors, who are paid \$5 a day, and forty-six street clerks, also paid \$5 a day, the total compensation for this work amounting to

\$36,800. The cost is greatly disproportionate to the value of the service rendered, especially to that part which relates to the enumeration for poll tax purposes. A large reduction could be made if chapter 276 of the Acts of 1894, which requires the appointment of assistant assessors in equal numbers from the two leading political parties were repealed, and the list of voters taken by the Police Department were used by the Assessing Department as a basis for the assessment of poll taxes. The Legislature has been requested by the commission to repeal the Act of 1894, and to provide that the names taken by the police shall be transmitted to the Board of Assessors, to be used by them as a basis for the assessment of poll taxes, leaving power in the assessors, however, to add to the list of those liable for a poll tax any persons found by the Board of Assessors, but not listed by the police.

Under the proposed amendments to the law, the assessors would be relieved of substantially all of the work of listing persons subject to a poll tax only, which constitutes the bulk of the street work. The second assistant assessors could then be dispensed with, and the number of assessing districts, the number of first assistant assessors, and the number of street clerks could then be reduced from forty-six to thirty-one, as indicated in an appendix hereto marked "A." This arrangement would give ample time for the proper performance of the street work, and would result in a saving of \$27,200 annually, as follows:

46 second assistant assessors at \$200.	\$9,200
15 first assistant assessors at \$1,000	15,000
15 street clerks at.....	3,000
Total.....	\$27,200

II. THE COST OF ASSESSING SINGLE POLLS.

Those persons who are liable only for a poll tax are termed by the department "single polls." In the year 1908-09 there were 168,541 "single poll" assessments of \$2 each. These represented 70 per cent of the total number of tax bills but only 1½ per cent of the total taxes assessed. In 1908-09, 187,566 polls were assessed, including those assessed for property, and only 59,952, or less than one-third, were collected in that year. Of these probably not more than 40,000 were single polls, as about 19,000 polls are assessed in connection with property, and the amount collected on the single polls therefore was only about \$80,000. The cost of assessing and collecting the "single poll" taxes was at least \$35,000 more than the amount collected. Although this part of the city's business has been for years conducted at considerable loss, no effort has been made to simplify the system and reduce the cost. Notwithstanding the recommendations of the former Finance Commission, these unremunerative single polls are still copied by hand seven times, making 1,179,787 items altogether as follows:

1. In the street books.
2. In the tax books.
3. Upon the bills.
4. Upon the bill coupons.
5. In the collector's manuscript.
6. Upon cards used to prepare the consolidated manuscript.
7. In the consolidated manuscript.

The clerical cost of this work, excluding the cost of entering names upon the street books and also on the bill coupons for the Collecting Department, is approximately \$17,000 a year. The department officials claim that there is no practical

method of reducing the expense of this unproductive work, but the commission believes that it can be accomplished in the following manner. From cards furnished by the Police Department containing the list of voters, the "single polls" can be separated by the Assessing Department, and arranged in one alphabetical series for the entire city. From this list the bills and coupons could be made out in duplicate at one operation, either on the typewriter or by hand. From the same list, also at one operation, duplicate sheets could be made, one for the assessors' "single poll" tax book for the entire city, and one for a duplicate book for the use of the collector. These sheets could subsequently be bound in book form, thus rendering unnecessary the entry of "single poll" items in the consolidated manuscript which now contains the list of "single poll" and personal and real estate assessments. The new "single poll" book would be as useful to those who have settlement claims as the present consolidated manuscript.

A responsible private company has offered to do this entire work in its own offices for \$1,955 or at City Hall for \$2,250 a year. The assessors' clerks should be able to perform the work for not exceeding \$2,500 a year. In either case, approximately, \$11,000 (allowing \$2,000 for the additional police list and \$1,000 for sorting cards in an alphabetical series) should be saved annually. A further saving of about \$500 a year could also be made by the elimination of interpreters, who, under the proposed system, would not be necessary.

III. REAL ESTATE WARD BOOKS.

These books contain real estate entries for a single year only, and the annual cost of preparation is about \$3,500. All real estate entries for the entire city are written each year notwithstanding the fact that in many cases no change of title has taken place. In such cases the rewriting of the entry is wholly unnecessary. The form of record kept by the Boston Real Estate Exchange furnishes a history of each parcel of real estate for five years, and no entry, except the valuation, is made during this period, unless there has been a change of title. A similar, but improved form of record, made of loose leaves, would furnish far more information and would cost much less. In this record, whenever the space provided for a particular parcel is insufficient to note all the changes of title, there should be a reference to the following page, on which such changes in title could be set forth. The loose leaves could be bound together and locked, and thus would furnish as safe a record as the one now used. By this means the department would save about \$2,600 annually.

IV. THE DOOMING BOARD.

In the opinion of the commission, the dooming board, as at present constituted, is not the most efficient means of determining the assessments on personal property. The taxes on personal estates of \$5,000 or more are fixed by the action of this board, which consists of the nine principal assessors and forty-six first assistant assessors, and is in session for a period of about fifty days. Much of its work concerns trusts, divided estates and corporations, for which statistics are on file in the assessors' office, but with which the principal assessors cannot be familiar. In other places, such as Worcester and Bridgman, where such

personal assessments are determined by the principal assessors alone, the ratio of personal estate valuation to real estate valuation is much higher than it is in Boston. It seems doubtful whether the city receives full value for the \$18,400 paid each year for this work, and the commission suggests that the principal assessors consider a means of improving the efficiency of the dooming board, or of finding a better substitute.

The estimate of the department for the current year is \$183,343. In the opinion of the commission, by the adoption of the recommendations herein made, the department can be maintained, without loss of efficiency, at an annual cost of about \$128,000, or over \$55,000 less than the department's estimate.

The commission recommends:

1. That in the event of the repeal of chapter 276 of the Acts of 1894, and the amendment of the Police Listing Act, so as to enable the department to receive the police list as a basis for assessing polls, the second assistant assessors be dispensed with, and the number of first assistant assessors and of street clerks be each reduced from forty-six to thirty-one.

2. That the bills and coupons for "single poll" items be made out at one operation, and that the assessors' "single poll" tax book for the entire city, and the collector's duplicate of the same, be made at one operation.

3. That a form of real estate book, similar to that used by the Real Estate Exchange, but improved as already suggested, be adopted.

4. That the excessive salaries of the clerical force be reduced.

5. That the board of principal assessors be reduced by action of the Mayor and City Council, from nine to seven.

Respectfully submitted,

THE FINANCE COMMISSION,
by

JOHN A. SULLIVAN,
Chairman.

NEW CIVIL SERVICE RULES.

Pursuant to the authority conferred by section 6 of chapter 19 of the Revised Laws, the Civil Service Commissioners have prepared the following amendments and alterations of the Civil Service Rules:

AMENDMENTS TO CIVIL SERVICE RULES.

First.—The following is adopted as section 3 of Civil Service Rule 31:

3. In case a provisional appointee shall have served continuously for eighteen months from date of appointment authorized by the commission, and for at least six months after notice received by the commission of the last increase of pay or change of his duties, and in case no suitable eligible list, in the opinion of the commission, shall have been established after open competitive examination within such period of time, the commission shall authorize the appointing officer to make such appointment permanent if he shall file with it a certificate in such form as it shall prescribe to the effect that the provisional appointee is duly qualified for the position, that his services have been entirely satisfactory, and that the best interests of the city or of the Commonwealth will be served by such permanent appointment. No transfer will be allowed of a person so appointed except upon consent of the commission and under the provisions of the civil service rules relating to transfers.

Second.—Sections 3, 4 and 5 of said Rule 31 are hereby renumbered and shall hereafter be Sections 4, 5 and 6, respectively.

Prepared and respectfully submitted to the Governor and Council for approval.

(Signed) CHARLES WARREN,
FRANK FOXCROFT,
ELMER L. CURTISS,
Civil Service Commission.

January 7, 1910.

Approved in council, January 13, 1910

(Signed) E. F. HAMLIN,
Executive Secretary.

A true copy. Attest:

WARREN P. DUDLEY,
Secretary Civil Service Commission.

January 17, 1910.

In accordance with the provisions of section 8 of chapter 19 of the Revised Laws, notice is hereby given that the foregoing amendments to the Civil Service Rules will take effect on the first day of April, 1910.

By order of the Civil Service Commission,
WARREN P. DUDLEY, *Secretary.*

CLASS HOURS, MUNICIPAL GYMNASIUMS.

The class hours of the several municipal gymnasiums are as follows:

At the Cabot Street Gymnasium, Roxbury; Ward 16 Gymnasium, Municipal Building, Columbia Road, Dorchester; D Street Gymnasium, Commonwealth Park, South Boston; North Bennet Street Gymnasium, City Proper:

Monday and Thursday for women and girls. Class hours: Mothers' class, 10 to 12 a. m.; school girls, 4 to 6 p. m.; ladies' class, 8 to 10 p. m. Tuesday and Friday for men. Class hours: 8 to 10 p. m.

Wednesday and Saturday for boys. Hours same as all other gymnasiums.

PROCEEDINGS OF CITY COUNCIL.

Monday, February 14, 1910.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m. Coun. BALLANTYNE, senior member, presiding and all the members present.

The Council voted, on motion of Coun. HALE, to dispense with the reading of the records of the last meeting.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of chapter 514, Acts of 1894 (the Mayor being present), viz.:

Fourteen traverse jurors, United States District Court, February sitting, to appear March 1, viz.:

William T. Bolles, Ward 17; John H. Thompson, Ward 10; Eskild Persen, Ward 2; John A. Anderson, Ward 1; Edward W. Ware, Ward 16; Eugene J. O'Connor, Ward 21; William E. Mock, Ward 23; John P. Lyman, Ward 11; Archibald J. Elliott, Ward 25; John H. McKinnon, Ward 19; Roderick Boone, Ward 21; James A. McIntyre, Ward 14; Michael A. Finn, Ward 18; Thomas J. Kirby, Ward 21.

Five traverse jurors, Superior Civil Court, seventh session, to appear February 21, viz.:

Michael McDermott, Ward 25; Frederick L. Dutton, Ward 23; George E. McGowan, Ward 14; George F. Jones, Ward 24; Eugene E. Kingsley, Ward 17.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named when appointed, viz.:

Claims.

John H. Forger, to be paid expense incurred by him on account of trial for his acts while an officer in the House of Correction.

Walter C. Isaacs, for compensation for damage to his overcoat by a projection on a waste paper can, corner Court street and Cornhill.

Committee of the Whole.

Petitions for use of Faneuil Hall, viz.:

Isidor Phillips, evening of February 23.
Fusileer Veteran Association, afternoon and evening of May 11.
Boston Lodge No. 10, B. P. O. E., evening of March 6.

APPOINTMENTS BY THE MAYOR.

City of Boston.

Office of the Mayor, February 14, 1910.

To the City Council:

Subject to confirmation by your honorable body, I hereby appoint Cornelius J. Donovan (37 Eutaw street, Ward 1) Weigher of Vessels for the term ending April 30, 1910.

Respectfully,

JOHN F. FITZGERALD, Mayor.

City of Boston.

Office of the Mayor, February 14, 1910.

To the City Council:

Subject to confirmation by your honorable body, I hereby appoint William McDonald (27 Hucks street, Ward 17) a Weigher of Coal, Measurer of Wood and Bark, Measurer of Grain and a Weigher of Boilers and Heavy Machinery for the term ending April 30, 1910.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Laid over, under the law.

LOAN FOR FIREBOAT.

The following was received:

City of Boston.

Office of the Mayor, February 12, 1910.

To the City Council:

The Fire Commissioner has requested, under date of January 22, that the loan appropriation for a new fireboat be increased from \$55,000 to \$60,000, and that the unexpended balances in the appropriations for Fireboat No. 47, amounting to \$2,374.99, and for a fireboat landing and quarters for the men, amounting to \$199.49, be transferred to the same appropriation. His reason, as given in the communication referred to, is that the lowest bid received for the construction of the new fireboat is \$54,500, and that an additional sum will be required for expenses of equipment, as well as for advertising, inspection and the architect's fee.

I approve the reason set forth in the Fire Commissioner's letter and recommend the passage of the accompanying drafts of orders providing for an increase of the loan and for the above-mentioned transfers.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Ordered, That the sum of five thousand dollars (\$5,000) additional be hereby appropriated to

be expended by the Fire Department for new fireboat; and that to meet such appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to the above amount.

Ordered, That the City Auditor be authorized to transfer the unexpended balance of the appropriation for Fireboat No. 47, amounting to \$2,374.99, and the unexpended balance of the appropriation for landing for fireboat and quarters for men, amounting to \$199.49, to the appropriation for new fireboat.

Referred to the Committee on Finance, when appointed.

REDUCTION OF ASSESSORS.

The following was received:

City of Boston.

Office of the Mayor, February 14, 1910.

To the City Council:

I hereby recommend to your honorable body the passage of an ordinance relating to the Assessing Department, according to the form herewith inclosed.

Respectfully yours,

JOHN F. FITZGERALD, Mayor.

City of Boston.

An Ordinance Relating to the Assessing Department.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section 1 of chapter 5 of the Revised Ordinances of 1898 is hereby amended by striking out the word "nine" in the second line thereof and by inserting in place thereof the word "seven," so that the said section as amended will read as follows:

The assessing department shall be under the charge of the board of assessors, consisting of seven assessors, who shall have and exercise all the powers and duties, and be subject to all the limitations, of assessors of taxes; shall keep a full and complete record of the names of each person having a residence in the city of Boston, with his residence on the first day of May of the current and preceding year, and also a record of the names of persons whose taxes have been abated in whole or in part, with the amount originally assessed to each, the amount of the abatement, and the reason for which it was made; may appoint as assistants, subject to confirmation by the mayor, two persons for each assessment district, and such assistants and subordinates as it may deem necessary.

Sec. 2. Section 5 of chapter 3 of the Revised Ordinances of 1898 is hereby amended by striking out the word "eight" in the twelfth line thereof and by inserting in place thereof the word "six."

Declared referred to the Committee on Ordinances, when appointed.

Coun. BRAND—Mr. Chairman, I move reconsideration of the reference for the reason that I believe this should be referred to Committee of the Whole this afternoon and considered and reported back to-day.

Reconsideration prevailed, and on motion of Coun. BRAND the ordinance was referred to Committee of the Whole Board, to be considered and reported back later to-day.

NOTICES OF CONTRACTS.

Notice was received from James B. Shea, an employee of the Park Department, that he has entered into a contract with the City of Boston.

Notice was received from J. E. Bean, an employee of the Park Department, that he has entered into a contract with the City of Boston. Placed on file.

NOTICE OF APPOINTMENT.

Notice of appointment of James A. Gallivan as Street Commissioner was received and placed on file.

COAL AND COKE LICENSES.

A list of coal and coke licenses granted by the Secretary of the Commonwealth was received. Placed on file.

MEDICAL EXAMINER DISTRICTS.

A petition was received from George Burgess Magrath, M.D., Medical Examiner, for a new division of Suffolk County into two medical examiner districts.

Referred to the Committee on County Accounts.

NOTICE OF HEARINGS.

Notice was received from the Railroad Commissioners of hearing on petition of the Old Colony Street Railway Company on February 16 for approval of 6th location.

Notice was received from the Railroad Commissioners of hearing on petition of West End

Street Railway Company on February 16 for approval of 295th and 296th locations. Placed on file.

ACCEPTANCE OF LOCATION.

Notice was received from the American Sugar Refining Company of acceptance of track relocation on Granite and First streets. Placed on file.

SIDEWALK SCHEDULE.

A communication was received from the Superintendent of Streets of the cost of constructing gravel sidewalks with granite edgestones on Auckland street, between Savin Hill avenue and Bay street, amounting to \$1,404.18.

In connection with the above was the following: Ordered, That the persons named in the within schedule be and they hereby are charged and assessed with one-half the sums set to their respective names as their proportional parts of the cost of constructing gravel sidewalks with granite edgestones in front of their estates, and the same is ordered to be certified and notice given to the parties aforesaid, the amount being \$702.09.

The order was passed.

LICENSES.

The Chair presented petitions for minors' licenses for sixty-eight newsboys, five bootblacks and five vendors, and asked the approval of the Board on the same.

The licenses were granted by the Board.

RULES OF THE BOSTON CITY COUNCIL.

Coun. KENNY submitted the following:

In City Council, February 14, 1910.

The special committee appointed to prepare rules for the government of the City Council for the current year report herewith the accompanying draft.

Respectfully submitted,
WALTER BALLANTYNE, Chairman.

President.

Rule 1. The president of the council shall take the chair at the hour to which the council shall have adjourned, and shall call the members to order, and, a quorum being present, shall cause the minutes of the preceding regular meeting to be read. In the absence of the president, the senior member by age present shall preside until a presiding officer is chosen.

Rule 2. The president shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal. Any member may appeal from the decision of the chair, and no other business, except a motion to adjourn, shall be in order until the question on appeal has been decided. The question shall be put as follows:

"Shall the decision of the chair stand as the judgment of the council?" The vote shall be by a roll call, and it shall be decided in the affirmative unless a majority of the votes are to the contrary.

Rule 3. The president shall propound all motions in the order in which they are moved, unless the subsequent motion shall be previous in its nature, except that, in naming sums and fixing times, the largest sum and the longest time shall be put first; provided that this rule shall not be construed to mean that the original motion shall be put previous to amendments and substitutions.

Rule 4. The president shall, at the request of any member, make a division of a question when the sense will admit.

Rule 5. The president shall, without debate, decide all questions relating to priority of business to be acted upon.

Rule 6. The president shall declare all votes; but if any member doubts a vote, the president shall cause a rising vote to be taken, and, when any member so requests, shall cause the vote to be taken or verified by yeas and nays.

Rule 7. The president shall appoint all committees, fill all vacancies therein, and designate the rank of the members thereof.

Rule 8. When the president of the council or the president *pro tempore* shall desire to vacate the chair he may call any member to it; but such substitution shall not continue beyond an adjournment.

Motions.

Rule 9. Every motion shall be reduced to writing if the president shall so direct.

Rule 10. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost shall not preclude amendment, or a motion to strike out and insert.

Rule 11. No motion or proposition of a subject different from that under consideration shall be admitted under color of amendment.

Rule 12. When an order or resolution relates to a subject which may properly be examined and reported upon by an existing committee of the city council, such order or resolution shall, upon presentation, be referred to such committee. When a motion is made to refer any subject, and different committees are proposed, the motion shall be put in the following order:

1. To a standing committee of the council.
2. To a special committee of the council.

Rule 13. After a motion has been put by the president it shall not be withdrawn except by unanimous consent.

Rule 14. When a question is under debate the following motions only shall be entertained, and in the order in which they stand arranged:

1. To adjourn.
2. To lay on the table.
3. To postpone to a day certain.
4. To commit.
5. To amend.
6. To postpone indefinitely.

Rule 15. A motion to adjourn shall be in order at any time, except on an immediate repetition, or pending a verification of a vote; and that motion, the motion to lay on the table and the motion to take from the table, shall be decided without debate.

Readings.

Rule 16. Every ordinance, order and resolution shall, unless rejected, have two several readings, both of which may take place at the same session, unless objection is made. Whenever the second reading immediately follows the first reading the document may be read by its title only; provided, that all orders for the sale of land other than school lands, all appropriations for the purchase of land other than for school purposes, and all loans voted by the city council shall require a vote of two-thirds of all the members of the city council, and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days after the first.

Reconsideration.

Rule 17. When a vote has been passed, any member may move a reconsideration thereof at the same meeting; or he may give notice to the clerk, within twenty-four hours of the adjournment, of his intention to move a reconsideration at the next regular meeting; in which case the clerk shall retain possession of the papers until the next regular meeting; and when a motion for reconsideration is decided that vote shall not be reconsidered.

Conduct of Members.

Rule 18. Every member when about to speak shall rise, address the chair, and wait until he is recognized, and in speaking shall confine himself to the question and avoid personalities. Any member who, in debate or otherwise, indulges in personalities or makes charges reflecting upon the character of another member shall make an apology in open session at the meeting when the offence is committed or at the next succeeding regular meeting, and failing to do so, shall be named by the president or held in contempt and suspended from further participation in debate until said apology is made.

Rule 19. No member speaking shall, without his consent, be interrupted by another, except upon a point of order.

Rule 20. No member shall be permitted to vote on any question, or serve on any committee, where his private right is immediately concerned, distinct from the public interest.

Rule 21. Every member who shall be present when a question is put, where he is not excluded by interest, shall give his vote, unless the council for special reason shall excuse him. Application to be so excused on any question must be made before the council is divided, or before the calling of the yeas and nays; and such application shall be accompanied by a brief statement of the reasons, and shall be decided without debate.

Standing Committees.

Rule 22. The following standing committees of the council, to consist of three members each, except where otherwise herein provided, and all other committees, unless otherwise provided for, or specially directed by the council, shall be appointed by the chair:

Committee on armories and military affairs—county accounts—Faneuil Hall and county buildings—inspection of prisons—lamps—licenses—markets—railroads—soldiers' relief—public improvements, to consist of all the members of the council.

1. A committee on appropriations, to consist of all the members of the council, to whom shall be referred such appropriation orders as may be submitted to the council from time to time.

2. A committee on finance, to consist of all the members of the council, to whom shall be referred all applications for expenditure which involve a loan, or a transfer of any part of an appropriation named in the general appropriation order.

3. A committee on claims, to consist of five councillors, to whom shall be referred all claims against the city arising from the act or neglect of any of its departments. They shall report annually a list of the claims awarded or approved

by them, and the amount of money awarded or paid in settlement thereof.

4. A committee on ordinances, to consist of five councillors, to whom shall be referred all ordinances introduced in the council, or transmitted to them by vote of any standing committee. Unless specially instructed, they shall pass upon the question of the form and legality of the ordinances so referred; they may append an order that such ordinance "ought not to pass" and give their reasons therefor, or report such ordinance in a new draft. Such report shall be made in not over two weeks from the meeting at which the reference was ordered, or the ordinance received from a committee.

5. A committee on legislative matters, to consist of three councillors, who shall, unless otherwise ordered, appear before committees of the General Court and represent the interests of the city; provided, said committee shall not, unless directed so to do by the city council, oppose any legislation petitioned for by the preceding city council.

6. A committee on police, to consist of three councillors, to whom shall be referred all matters relating to the Police Department.

7. A committee on printing, to consist of three councillors, who shall have the charge of all printing, advertising, or publishing ordered by the city council, as one of its contingent or incidental expenses, and the supply of all stationery or binding for the same purpose. The committee shall fix the number of copies to be printed of any document printed as above, the minimum, however, to be 600; and they shall have the right to make rules and regulations for the care, custody and distribution of all documents, books, pamphlets and maps by the clerk of committees.

8. A committee on public lands, to consist of three councillors, to whom shall be referred all matters relating to public lands.

9. A committee on revenue from bay windows, areas, etc., to consist of five councillors.

10. A committee on Assessing Department, to consist of three councillors.

11. A committee on Bath Department, to consist of three councillors.

12. A committee on Cemetery Department, to consist of three councillors.

13. A committee on Consumptives' Hospital Department, to consist of three councillors.

14. A committee on Health Department, to consist of three councillors.

15. A committee on Hospital Department, to consist of three councillors.

16. A committee on Institutions Department, to consist of three councillors.

17. A committee on Library Department, to consist of three councillors.

18. A committee on Overseeing of the Poor Department, to consist of three councillors.

19. A committee on Street Department to consist of five councillors.

Order of Business.

Rule 23. At every regular meeting of the council the order of business shall be as follows:

1. Communications from his honor the mayor.
2. Presentations of petitions, memorials and remonstrances.
3. Hearings.
4. Unfinished business of preceding meetings.
5. Orders of notice of hearings.
6. Reports of city officers.
7. Reports of committees.
8. Motions, orders and resolutions.

Report of Committees.

Rule 24. Committees, to whom any matter is especially referred, shall report within four weeks or ask for further time.

Spectators.

Rule 25. No person, except a member of the council, shall be permitted to occupy the seat of any member while the council is in session.

Rule 26. No person, excepting heads of departments, and reporters, shall be allowed in the anteroom of the council chamber while the council is in session. No person shall be allowed to enter the council chamber while the council is in session, after the seats furnished for spectators are occupied. The city messenger shall enforce this rule.

Burial Grounds.

Rule 27. No permission for the use of land for the purpose of burial shall be granted until a public hearing shall have been given by the city council on the application for such permission.

Smoking in the Council Chamber.

Rule 28. No smoking shall be allowed in the council chamber when the council is in session.

Meetings.

Rule 29. No meeting of any committee shall, without the consent of all members thereof, be called upon less notice than twenty-four hours from the time the clerk shall have mailed the notices or dispatched them by special messenger.

Form of Votes.

Rule 30. In all votes the form of expression shall be "Ordered" for everything by way of

command; and the form shall be "Resolved" for everything expressing opinions, principles, facts, or purposes.

Transfers and Loans.

Rule 31. Every application for an additional appropriation, to be provided for by transfer or loan, shall be referred to the committee on finance; and no such additional appropriation shall be made until the said committee have reported thereon.

Amendment and Suspension.

Rule 32. The foregoing rules shall not be altered, amended, suspended or repealed, at any time, except by the votes of two-thirds of the members of the city council present and voting thereon.

It was voted, on motion of Coun. HALE, that the reading be dispensed with and that the report be laid over to the next meeting, and that each member of the City Council be supplied with a copy for examination.

SANITARY DIVISION, DORCHESTER.

Coun. BRAND offered an order—That his Honor the Mayor be requested to direct the Superintendent of Streets to establish a yard of the Sanitary Street Cleaning and Watering Division in the Dorchester district.

The order was assigned to the next meeting of the Council.

EXPENSE OF HEARINGS, PRINTING, ETC.

Coun. COLLINS offered the following—Ordered, That the expense of hearings given by the City Council or its committees during the present financial year be charged to the appropriation for City Council, Incidental Expenses.

Passed.

Ordered, That the expense of printing documents ordered printed by the City Council during the present financial year be charged to the appropriation for Printing Department, City Documents, etc.

Passed.

Ordered, That the expense incurred during the present financial year for the advertising by the city of hearings before state officers and boards, for the advertising of elections and for the publication of ordinances and regulations be charged to the appropriation for City Council, Incidental Expenses.

Passed.

CARE OF RECORDS, ETC.

Coun. ATTRIDGE offered an order—That all the records, documents, maps, plans, papers and portraits formerly in the charge of the Clerk of the Common Council be placed in the care and custody of the City Clerk.

Passed.

WIDENING OF NORFOLK STREET.

Coun. BRAND offered an order—That the Committee on Finance, when appointed, be requested to include in the first loan bill the sum of \$260,000 for the widening of Norfolk street, from Codman square to Dorr's Bridge, Ward 24.

Referred to Committee on Finance when appointed.

PERMANENT BASIS, SEWER DIVISION.

Coun. CURLEY offered an order—That the Superintendent of Sewers, through his Honor the Mayor, be directed to place men employed as laborers in said department upon a permanent basis.

The order was passed.

VOTES FOR PRESIDENT.

On motion of Coun. CURLEY the Council voted to proceed to the election of a President.

The members, when their names were called, announced their choice as follows:

Coun. Attridge, Collins and McDonald—Walter L. Collins.

Coun. Ballantyne and Hale—Walter Ballantyne.

Coun. Brand—Frederick J. Brand.

Coun. Buckley—Timothy J. Buckley.

Coun. Curley—Thomas J. Kenny.

Coun. Kenny—Matthew Hale.

And there was no choice.

The roll was called, and the members announced their choice for president as follows:

Coun. Attridge, Collins and McDonald—Walter L. Collins.

Coun. Ballantyne and Hale—Walter Ballantyne.

Coun. Brand and Curley—Frederick J. Brand.

Coun. Buckley—Timothy J. Buckley.

Coun. Kenny—Matthew Hale.

And there was no choice.

Coun. BRAND—Mr. President, I move that we proceed to another ballot for president.

The motion to proceed to another vote for president was carried, the members announcing their choice as follows:

Coun. Attridge, Collins, McDonald—Walter L. Collins.

Coun. Ballantyne and Hale—Walter Ballantyne.

Coun. Brand—Frederick J. Brand.

Coun. Buckley—Thomas J. Kenny.

Coun. Curley—Timothy J. Buckley.

Coun. Kenny—Matthew Hale.

And there was no choice.

Coun. CURLEY—Mr. Chairman, I move you that we proceed to another ballot. I would say in this connection that I have been informed that one member of this body has four votes pledged to him, including his own. If such is the case I think an opportunity should be given him to be chairman of the body and I shall vote for him on this ballot.

The Council voted to proceed to another ballot for president, and the Clerk called the roll with the following result:

Coun. Attridge, Collins, McDonald—Walter L. Collins.

Coun. Ballantyne, Brand, Hale—Walter Ballantyne.

Coun. Buckley—Thomas J. Kenny.

Coun. Curley—Daniel J. McDonald.

Coun. Kenny—Matthew Hale.

And there was no choice.

The Council voted to proceed to a ballot, the roll was called and the members responded with the following result:

Coun. Attridge, Collins, McDonald—Walter L. Collins.

Coun. Ballantyne, Hale—Walter Ballantyne.

Coun. Brand, Curley—Timothy J. Buckley.

Coun. Buckley—Thomas J. Kenny.

Coun. Kenny—Matthew Hale.

And there was no choice.

RECESS.

The Council voted, on motion of Coun. BRAND at 3.52 p. m., to take a recess and go into Committee of the Whole.

The Council reassembled in the Council Chamber and were called to order by Coun. BALLANTYNE at 4.15 p. m.

REPORTS OF COMMITTEE ON THE WHOLE.

Coun. CURLEY, for the Committee on the Whole, submitted the following:

(1) Reports of petitions (severally referred to-day) for the use of Faneuil Hall—that leave be granted, viz.:

Isador Phillips, evening of February 23.

Fusileer Veteran Association, afternoon and evening of May 11.

Boston Lodge No. 10, B. P. O. E., evening of March 6.

Reports accepted; leave granted on the usual conditions.

(2) Report on message of Mayor and amended ordinance (referred to-day) reducing the number of principal assessors from nine to seven—that the ordinance ought to pass.

Report accepted; said ordinance passed.

THE REPAIR OF STANDISH STREET.

Coun. BRAND offered an order—That the Superintendent of Streets be requested to immediately put in safe and proper condition for public travel Standish street, Ward 20, Dorchester.

Passed.

VOTES FOR PRESIDENT.

Coun. BRAND—Mr. Chairman, I move you, sir, that we proceed to ballot at this time for president of this Council.

The motion was carried, the Clerk called the roll, and the members announced their preference as follows:

Coun. Attridge, Collins, McDonald—Walter L. Collins.

Coun. Ballantyne, Brand, Curley, Hale—Walter Ballantyne.

Coun. Buckley—Thomas J. Kenny.

Coun. Kenny—Matthew Hale.

And there was no choice.

Coun. BRAND—Mr. Chairman, there being no choice, I move you, sir, that we proceed to take another ballot.

The Council voted to proceed to another ballot, with the following result:

Coun. Attridge, Collins, McDonald—Walter L. Collins.

Coun. Ballantyne, Brand, Hale—Walter Ballantyne.

Coun. Buckley—Thomas J. Kenny.

Coun. Curley and Kenny—Matthew Hale.

And there was no choice.

On motion of Coun. BRAND the Council voted to proceed to another ballot, with the following result:

Coun. Attridge, Collins, Kenny, McDonald—Walter L. Collins.

Coun. Ballantyne, Hale—Matthew Hale.

Coun. Brand—Frederick J. Brand.

Coun. Buckley—Thomas J. Kenny.

Coun. Curley—John J. Attridge.

And there was no choice.

On motion of Coun. McDONALD the Council voted to proceed to another ballot, with the following result:

Coun. Attridge, Collins, Kenny, McDonald—Walter L. Collins.

Coun. Ballantyne, Buckley, Hale—Matthew Hale.

Coun. Brand—Walter Ballantyne.

Before the result was announced Coun. CURLEY said:

Mr. Chairman, we might as well settle this thing—Matthew Hale. (Laughter.)

And there was no choice.

Coun. CURLEY moved to adjourn, but withdrew the motion at request of Coun. Buckley.

COMMITTEE ON SOLDIERS' RELIEF.

Coun. BUCKLEY offered an order—That a special committee, to consist of three members of the City Council, be appointed temporarily to determine the amounts of aid to be allowed to soldiers and sailors and their families and other persons, under the provisions of chapter 79 of the Revised Laws and any acts in addition thereto or amendment thereof; the amounts so paid to be charged to the appropriation for soldiers' relief.

The order was passed. The President appointed as such committee Coun. Hale, Brand and McDonald.

MINORS' LICENSES, ETC.

Coun. HALE offered an order—That the City Clerk shall, until otherwise ordered by the City Council, issue licenses and badges to minors, and shall, in such case, see that every minor licensed by order of the City Council conforms to the condition of such license.

Passed.

DUTIES OF CLERK OF COMMITTEES.

Coun. HALE offered an order—That the Clerk of Committees already elected by the City Council shall have charge of the libraries in the rooms of the former Clerk of Committees Department; shall, when no other provision is made, act as the clerk of all committees, standing or special, of the City Council; shall make proper records in books kept for the purpose of all the proceedings and transactions of each committee; shall keep a calendar of all the meetings of each committee, and notify the members thereof of such meetings when requested so to do by the chairman or a majority of the committee; shall keep in the said libraries, which together shall be known as the City Hall Reference Library, a copy of the several publications issued by the city, and by every board and department thereof, and copies of publications presented to the City of Boston from other sources; and shall perform such other duties and services for said committees as they may, from time to time, require.

Assigned to the next meeting, on motion of Coun. CURLEY.

DUTIES OF SERGEANT-AT-ARMS.

Coun. HALE offered an order—That the Sergeant-at-arms already elected by the City Council shall have the care, custody and distribution of all documents, pamphlets and books printed for the City Council, and of all such documents, pamphlets and books formerly in charge of the City Messenger; shall attend all meetings of the City Council and committees thereof; shall, under the direction of the presiding officer, have the supervision of such chambers and rooms as may be assigned for the use of the City Council or any committee thereof; and shall perform all services required of him by the Mayor, the City Council and any committees thereof for the conduct of their affairs; shall have charge of all regular or special details of police for the preservation of order in City Hall; and may spend such money as may be necessary for the performance of his duties, subject to the approval of the City Council.

The question came on giving the order a second reading.

Coun. CURLEY—Mr. Chairman, I most respectfully move that that order be assigned for one week. I understand that our present City Messenger is a member of the City Messengers' Club of Massachusetts, and, while perhaps no grave injury will result to him by changing his title, still the title of sergeant-at-arms is not quite as dignified as that of city messenger. There might also be other corrections made in the order, and I move that it be assigned till the next meeting.

The motion to assign to the next meeting was carried.

Adjourned, on motion of Coun. CURLEY, at 4.30 p. m., to meet on Monday, February 21, at 3 p. m.

Wednesday, February 16, 1910.

Special meeting of the City Council held in the Council Chamber, City Hall, at three o'clock p. m., Coun. BALLANTYNE, senior member in the Chair and all the members present.

The Clerk read the call for the meeting, as follows:

City of Boston,

Office of the Mayor, February 14, 1910.

To the members of the City Council:

You are hereby requested to assemble in the City Council Chamber, City Hall, on Wednesday, February 16, 1910, at three o'clock p. m., for the purpose of effecting a permanent organization of your honorable body and transacting such other business as may come before you.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Placed on file.

ELECTION OF PRESIDENT.

Coun. BRAND—Mr. Chairman, I move you that at this time we proceed to the election of a president of the Council, under the law.

The motion was carried, and the Clerk called the roll, with the following result:

For Walter L. Collins—Coun. Attridge, Collins, Kenny, McDonald—4.

For Walter Ballantyne—Coun. Ballantyne, Brand, Buckley, Hale—4.

Coun. CURLEY—Mr. President, I suppose in the interests of good government it is about time to settle this question. Personally I had supposed that it would be possible for the representatives of good government in the body without the assistance of one who is outside the pale of the Good Government Association. But apparently it is not. The situation to my mind presents a bit of a paradox—two candidates having four votes each; and I suppose for the good of the community it might be just as well to settle it now as at any time. Personally, I have great admiration for both gentlemen, and do not enjoy any more than they do the torture that I am now causing them (laughter); but, in order that this question may be definitely settled, once and for all, Mr. President, and in order that an honor may be conferred upon the Scotch race that they have never enjoyed in this city, I am going to vote for Walter Ballantyne.

Walter Ballantyne, having received five votes and Walter L. Collins four votes, Walter Ballantyne was declared elected president of the Council. (Applause.)

Coun. CURLEY—Mr. President, I move you that we do now adjourn.

President BALLANTYNE—Just a moment, gentlemen; I would like to say one word before we adjourn. This honor has come to me as a surprise at this time, although I had been looking for it and thought that in the end I might be chosen to this high office. I want to assure you that I appreciate this very high honor that has been done me. I thank those who have voted for me and I express my good will to those who refrained from voting for me for what they thought good reasons. I have no feeling against any one who has voted against me at any time, and I promise you that in the discharge of my duty as president of the Council I shall try to be fair to every one. I shall use this gavel without distinction and shall show favor to none. I thank you again for the honor you have conferred upon me. (Applause.)

Coun. BRAND—Mr. President, I wish to call the Council's attention to the rules as printed, finding a copy of them on the desk here. Rule 7 conflicts with the ordinance or order which was offered at the Monday afternoon meeting, and I would suggest that we either strike out rule 7 or amend the ordinance that is before the Council, as the two conflict.

THE PRESIDENT—The Chair would say to Coun. Brand that the rules as printed are simply here for the action of the Council. None of them have been adopted. We are simply at the present time working under the rules of the old Board of Aldermen. These rules were assigned to the next meeting of the Council, so they are before us for action if the members so wish.

Coun. BRAND—Mr. President, I take occasion at this time to call attention to the conflict between Rule 7 and the order or ordinance before the Council, before we adjourn.

Coun. CURLEY—Mr. President, at the last meeting it was moved that the adoption of the rules be assigned to the next meeting, the presumption being that we would adjourn for one week. I would say that this is the first time I have seen a copy of the rules. I would like to read them over myself, and I trust that no action will be taken before the next meeting of the Council. I have discovered several slight informalities, one in particular in relation to the distinguished gentleman who now presides as sergeant-at-arms *pro tem*, and in the past has presided as city messenger. The title of city messenger is conferred upon him under the new rules, and yet we are unaware at the present time whether he shall still continue to have that royal title or whether he shall be reduced to sergeant-at-arms. In all probability other informalities may be discovered between now and next Monday.

Coun. BRAND—Mr. President, it was not my purpose to have any action taken on this, but

merely to call the attention of the Council to an irregularity. Through our haste at the last meeting, when we passed the ordinance reducing the number of assessors from nine to seven, in accordance with the message of his Honor the Mayor, we neglected to reconsider, and I think this would be a proper time to observe that formality. Therefore, at this time I move a reconsideration of the action taken by the Council last week on the ordinance reducing the number of assessors from nine to seven, hoping that the same will not prevail.

The PRESIDENT—The Chair would rule the motion out of order, for the reason that it would have been necessary to give notice of reconsideration to the City Clerk within twenty-four hours of the adjournment of the last meeting. The matter is in the hands of the Mayor I believe now, and not in the hands of the Council.

Coun. BRAND Mr. President, I wish to say that I think the Chair is in error in his ruling, because I believe the question is open and can be called up for reconsideration even after the twenty-four hours.

The PRESIDENT—The Chair does not so understand the rules, unless you give notice to the City Clerk within twenty-four hours after the adjournment of the meeting.

NEW FERRYBOAT.

The following was received:

City of Boston,

Office of the Mayor, February 16, 1910.

To the City Council:

Complaints have been received from representatives of the teaming interests that owing to the recent loss of one of the boats in the Ferry Division of the Street Department, and the age and defective condition of two of the others now in service, there is imminent risk of such interruption in the service as to cause great loss to our business interests unless the ferry fleet is immediately enlarged.

After a thorough investigation of the subject and consultation with the Superintendent of Streets, I recommend the passage of a loan order appropriating \$125,000 for a new ferryboat of improved modern type to meet the legitimate demands of this important and constantly increasing traffic.

Respectfully,
JOHN F. FITZGERALD, Mayor.

Inclosure.

Ordered. That the sum of one hundred and twenty-five thousand dollars (\$125,000) be appropriated, to be expended by the Superintendent of Streets for the purpose of constructing and equipping a new ferryboat; and that to meet said appropriation the City Treasurer be authorized to issue from time to time, on request of the Mayor bonds of the city to said amount for said purpose.

Referred to the Committee on Finance, when appointed.

SOLDIERS' RELIEF.

Coun. CURLEY moved to adjourn.

Coun. HALE—Mr. President, I don't know whether it is possible to wait, but we are expecting from the Soldiers' Relief Department a new typewritten copy of the order for the month. If we do not pass it to-day it will hold up the pay for a week or so.

A recess was taken at 3.33 p. m. for fifteen minutes.

The Council reassembled and were called to order by the President at 3.52 p. m.

Coun. HALE, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of February, 1910.

Report accepted; order passed.

Adjourned at 3.53 p. m., on motion of Coun. ATTRIDGE, to meet on Monday, February 21, at 3 p. m.

A plan is under consideration by the authorities of Chicago for renaming about half the streets of that city. If it is adopted, as it seems likely to be, great numbers of old historic titles will go by the board and numbers take their place. All east and west thoroughfares are to be called avenues and all north and south to be called streets. As Chicago is laid out on the checker-board system, it would be possible to know by the number of the house and by the number of the street and avenue just where any place is located. In considering present conditions it was found that there are seven thoroughfares named Lake and the same number each for the names Park, Jackson and Grove. Nearly 100 names are triplicated and nearly 500 duplicated.

PROCEEDINGS OF SCHOOL COMMITTEE.

Feb. 14, 1910.

A special meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 6:20 o'clock P.M., the Chairman presiding.

Present: Messrs. Brock, Ellis, Lee and Scannell.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

APPOINTMENTS OF TEACHERS.

The Chairman stated the question was on approving the appointments of teachers on probation, as reported by the Superintendent and laid over at the last meeting. The appointments were approved.

ELECTRIC LIGHTING, MECHANIC ARTS HIGH SCHOOL-HOUSE.

A communication was received from the Board of Schoolhouse Commissioners, under date of Feb. 10, 1910, in response to the order passed at the meeting of Feb. 7 (see p. 7), requesting said Commission to make the necessary switchboard connections at the Mechanic Arts High School-house so that electric current for lighting may be generated by the existing electric plant in that building, stating that the matter will be taken up and given attention.

Placed on file.

INDEPENDENT LIGHTING PLANT, HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILDING.

A communication was received from the Board of Schoolhouse Commissioners, under date of Feb. 10, 1910, in response to the order passed at the meeting of Feb. 7 (see p. 6), requesting that the plans for the new building to be occupied by the High School of Commerce, the School Committee and the Board of Schoolhouse Commissioners be prepared with a view to the installation of an independent lighting plant therein, stating that it is the intention of said Commission to plan the building in that way.

Placed on file.

FIRE PROTECTION.

A communication was received from the Board of Schoolhouse Commissioners, under date of Feb. 11, 1910, with reference to report received at the meeting of Feb. 7 (see p. 6) from William C. Crawford and George S. Burgess, containing suggestions for securing better fire protection in school buildings, stating that the matter has already received the attention of the Schoolhouse Commission.

Placed on file.

AFTERNOON KINDERGARTEN CLASS, QUINCY DISTRICT.

On motion of the Superintendent, it was ORDERED, That an afternoon kindergarten class be established in the Quincy District, beginning Mar. 1, 1910.

AMENDMENT TO RULES.

A communication was received from the Board of Superintendents, under date of Feb. 11, 1910, recommending that section 138, paragraph XI., of the rules, relative to the issue of special certificates, be amended in accordance with an accompanying order.

Placed on file.

The following order was offered:—
ORDERED, That the rules be amended as follows:—

Section 138, paragraph XI. Special: Insert in the paragraph describing the requirements for assistant directors of physical training and athletics and assistant instructors in athletics in the ninth line before the words "assistant instructors" the words,—"instructors and,—so that the paragraph will read as follows:—

For assistant directors of physical training and athletics: A diploma from a college, university or medical school approved by the board of superintendents, or from an institution of as high a grade, and evi-

dence of three years' successful experience in teaching and governing schools, a satisfactory portion of which must have been in physical training. For instructors and assistant instructors in athletics: A diploma from a high school approved by the board of superintendents, or evidence of an equivalent academic education, and evidence of three years' successful experience in teaching and governing schools, a satisfactory portion of which must have been in physical training.

Insert before the paragraph describing the requirements for certificates in special studies valid in day high schools the following:—

For instructor and assistant instructor of military drill: Completion of a three years' course of study in a high school or in an institution of similar grade approved by the board of superintendents; and a two years' course of instruction in military tactics at a military academy approved by the board of superintendents, or, two years' service in a regular state militia; and evidence of two years' successful experience in teaching military tactics.

Strike out the paragraph describing the requirements for certificates for industrial instructors, and substitute in place thereof the following:—

For industrial instructors in household science: Graduation from a college or university approved by the board of superintendents, and evidence of one year's successful experience in teaching classes in household science and arts. For industrial instructors in dressmaking and millinery: Either a diploma from an institution giving approved courses in industrial training, and two years' successful experience in teaching industrial subjects; or four years' trade experience, a satisfactory portion of which shall include experience in teaching, and such evidence of business ability as the board of superintendents may determine; or three years' successful experience in teaching industrial subjects in the High School of Practical Arts.

Laid over.

AMENDMENT TO COURSE OF STUDY FOR EVENING HIGH SCHOOLS.

A communication was received from the Board of Superintendents, under date of Feb. 14, 1910, recommending that the Course of Study for the Evening High Schools, School Document No. 13, 1906, be amended as follows:—

Pages 37 and 38. Strike out the provision for typewriting and substitute in place thereof the following:—

TYPEWRITING I.

1. A thorough mastery of the keyboard by the touch method; finger exercises, using four fingers of each hand; copying words, sentences, letters; dictation of plain matter not to exceed 15 to 20 words per minute; tabulating, arranging simple matter in three columns; centering matter.

2. Mechanism of the machine; use of line space gauge, marginal stops, release key, scales, paper guides, upper case or shift keys, upper case lock, marginal release, and tabulating device.

Note 17. The touch method is generally recognized as the logical way to operate a machine rapidly and accurately. Speed should always be secondary to accuracy. Repetition is necessary to secure mastery; therefore learners should be kept at each exercise until it can be written by touch. Progress to be thorough is necessarily slow.

TYPEWRITING II.

Finger exercises to perfect touch method; spelling a selected list of common words frequently misspelled; copying from stenographic notes; addressing envelopes and post cards; composing letters on the machine without copy; advanced tabulating and setting-up matter; exercises in punctuation, applying the simple rules of punctuation; dictation for speed; writing from copy reports; statements, specifications, legal papers, etc.; manifold, carbon work.

2. Mechanism of machine; pupils should be able to replace ribbon, clean and oil machine, and have a general idea of how to locate trouble,—in a word, keep the machine in running order.

Note 18. Drills for speed should find a prominent place in advanced work, but not at the sacrifice of accuracy. The budget system, binding together pages of like exercises, if reasonably perfect, encourages accuracy.

Placed on file, and the course of study amended accordingly.

JANITORSHIP, JOY-STREET PORTABLES NOS. 97, 98, 99 and 100.

A communication was received from the Secretary, under date of Feb. 12, 1910, stating that pursuant to the action of the Board at the meeting of Feb. 7, the Civil Service Commission has certified the following-named persons as eligible for appointment to the position of janitor of the Joy-street Portables Nos. 97, 98, 99 and 100:—Dennis J. Lenehan, Daniel T. Kelly and Henry J. Mahoney.
Placed on file.

LEAVE OF ABSENCE AND RESIGNATION OF JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Jan. 17, 1910, stating that Jeremiah W. Murphy, janitor of the Wendell Phillips Schoolhouse, is incapacitated and unable to perform his duties, and recommending in view of his long service in the public schools that he be granted one year's leave of absence on half-pay, from Jan. 10, 1910, until Jan. 10, 1911, his resignation to take effect on the latter date.

A communication was also received from the Master of the Wendell Phillips District, with reference to the same matter.

Placed on file, and leave of absence on half-pay granted Jeremiah W. Murphy from Jan. 10, 1910, until Jan. 10, 1911, his resignation to take effect on the latter date.

SALARY OF DIRECTOR OF HOUSEHOLD SCIENCE AND ARTS.

A communication was received from the Director of Household Science and Arts, under date of Feb. 11, 1910, requesting that the salary established for her position be increased.

Laid on the table.

SALARY OF DIRECTOR OF KINDERGARTENS.

A communication was received from the Superintendent, under date of Feb. 10, 1910, transmitting a request from the Director of Kindergartens that the salary established for her position be increased.

Laid on the table.

SALARIES OF TEACHERS.

A communication was received from Murray H. Ballou, President of the Sub-Masters' Club of Boston, under date of Feb. 10, 1910, stating that the request received from Charles J. Lincoln, as a representative of the teachers of the city, at the meeting of Jan. 3, 1910 (see p. 196), relative to the salaries of teachers who die before the end of August, has the hearty approval of the Sub-Masters' Club, and it is hoped that favorable action may be taken by the School Board.

Referred to the Business Agent.

NO-SESSION SIGNAL.

A communication was received from John E. Gillis, through His Honor the Mayor, under date of Feb. 10, 1910, suggesting that the signal for no session of schools be given by lighting the street electric lamps for five minutes at 7:45 o'clock A.M.

Placed on file.

LIGHTING OF ENGLISH HIGH AND PUBLIC LATIN SCHOOL-HOUSES.

A communication was received from the Boston Consolidated Gas Company, under date of Feb. 12, 1910, requesting permission to study the operating conditions at the English High and Public Latin Schoolhouses, and asking that the company be allowed to install instruments for that purpose, which will be removed and everything placed in its previous condition without expense to the School Board.

Referred to the Business Agent for investigation, with full power to act thereon.

APPROVAL OF CONTRACTS FOR FEBRUARY.

On motion, it was ORDERED, That contracts for the month of February, 1910, be approved on behalf of this Board by Mr. Ellis, or in the event of his absence by Dr. Scannell.

APPROVAL OF PAY ROLLS, BILLS AND CONTRACTS.

On motion, it was ORDERED, That the pay rolls and bills, both regular and special, for the month of March, 1910, prepared and certified to by the Business Agent, and the contracts for the same month be approved on behalf of this board by Dr. Scannell, or in event of his absence by Mr. Lee.

TEMPORARY ASSISTANCE, BUSINESS AGENT'S OFFICE.

On motion, it was ORDERED, That the Business Agent be authorized to employ such temporary assistance in his office as he may deem necessary during the months of February and March, 1910, at an expense not exceeding one hundred dollars (\$100.).

ADDITIONAL SCHOOL ACCOMMODATIONS.

The report received from the Superintendent at the meeting of Nov. 15, 1909 (see p. 166), relative to the overcrowded condition of school-houses, and also the report received at the meeting of Dec. 20, 1909 (see p. 187), relative to the immediate need for additional elementary school accommodations, were placed on file.

TUNGSTEN LAMPS.

The communication received from the Business Agent at the meeting of Nov. 15, 1909 (see p. 167), relative to the renewal of Tungsten lamps, was taken up, and the Secretary directed to obtain the opinion of the Corporation Counsel as to whether the School Committee or the Board of Schoolhouse Commissioners should assume the cost of the renewal of such lamps.

AMENDMENTS TO REGULATIONS.

The order offered at the meeting of Jan. 17, 1910 (see p. 201), amending section 384 of the regulations, relative to the admission of pupils to kindergartens and first grades, was taken up and passed.

The order offered at the last meeting (see p. 6), amending section 209 of the regulations, relative to patriotic exercises in schools, was taken up and passed.

The order offered at the last meeting (see p. 6), amending section 214 of the regulations, relative to contagious diseases, was taken up and passed.

The order offered at the last meeting (see p. 6), amending section 215 of the regulations, relative to the exclusion of pupils from schools on account of contagious diseases, was taken up and passed.

CONDITION OF STREETS IN DORCHESTER.

The petition received from Mrs. J. Shufro, et al., at the meeting of Jan. 17, 1910 (see p. 203), relative to the condition of the streets in the Roger Wolcott District, was taken up, and referred to the Superintendent of Streets with the request that he give the matter proper and seasonable attention.

PROVISIONAL COURSE OF STUDY FOR ELEMENTARY SCHOOLS.

The communication received from the Board of Superintendents at the meeting of Nov. 1, 1909, (see p. 154), relative to the modification of the Provisional Course of Study for Elementary Schools, was taken from the table, and placed on file.

COMPENSATION OF JANITORS.

The communication received from William M. Kendrick, Secretary of the Janitors' Association of the Boston Public Schools, at the meeting of Jan. 17, 1910 (see p. 203), requesting that a hearing be granted the Arbitration Committee of said association on inside window cleaning and additional compensation for extra work, use of halls, etc., was taken up for consideration, and the Secretary directed to notify the Arbitration Committee of the Janitors' Association that the Board will grant a hearing on the matter on Feb. 28 at 5:30 o'clock P.M.

USE OF GYMNASIUM AND BATHS, EAST BOSTON HIGH SCHOOL-HOUSE.

The communication from F. W. Pattison and A. R. Williams of the Maverick Church, East Boston, relative to the public use of the gymnasium and baths of the East Boston High School-house, received at the meeting of Nov. 8, 1909 (see p. 161), and referred to the Superintendent for consideration and report, was placed on file.

IRISH LANGUAGE AND HISTORY CLASS, SOUTH BOSTON EVENING HIGH SCHOOL.

The petition of James Hickey, et al., relative to the establishment of an Irish language and Irish history class in the South Boston Evening High School, received at the meeting of Nov. 1, 1909 (see p. 155), and referred to the Director of Evening and Vacation Schools for consideration and report, was placed on file.

SCHOOL ON SPECTACLE ISLAND.

Mr. Brock, who was requested at the meeting of Apr. 26, 1909, to investigate the School on Spectacle Island, made an oral report thereon, expressing the opinion that said school should be put in proper condition for occupancy, and it was

ORDERED, That the Schoolhouse Commission be requested to give the matter prompt and favorable attention.

BILLS BEFORE THE LEGISLATURE.

The Board considered various bills pending before the Legislature, and acted thereon as follows:—

On motion, it was ORDERED, That the Superintendent be authorized to represent this Board before the proper committee of the Legislature with regard to bills relating to the Commonwealth assuming a share of the cost of maintaining day and evening industrial schools.

House Bill No. 1053, An Act to Prohibit the Use of Rooms in School-houses in the City of Boston for Lunch Rooms unless Applicants for Such Use pay License Fees to Said City:—

ORDERED, That the Chairman be authorized to address a communication to the Committee on Education of the Legislature in opposition to the passage of this bill.

ADJOURNMENT.

The Board adjourned at 7:10 o'clock P. M.
Attest:—

THORNTON D. APOLLONIO,
Secretary.

SCHOOL DEBT.

1885.....	\$120,000 00
1890.....	494,897 07
1895.....	2,751,922 07
1900.....	5,961,525 00
1905.....	10,869,725 00
1910.....	*15,328,525 00

* In addition to this amount there is \$500,000 authorized in 1909 but not yet issued.

The "Kingsway," running from Holborn, near Southampton Row to the Strand, near Somerset House, has been constructed through a densely populated area at a cost of £6,128,380, and it is claimed that it will involve no final expense to the taxpayers, because the Council was permitted to acquire sufficient property to enable it to benefit from the improved values. In this improvement, the homogeneity of the street has been well maintained, as the city exercised a direct control over the class of buildings and their appearance.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 2.

SATURDAY, FEBRUARY 26, 1910.

No. 9.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By Subscription . . . \$1.00 Per Year.
Single Copies . . . 5 Cents.

IN ADVANCE.

Application for entry as second-class mail
matter pending.

ADVERTISING.

A rate of 10 cents per agate line has been
established for such advertisements as under
the law must be printed in the *City Record*.
Advertising and other copy must be in hand
by Thursday of each week, to insure its publica-
tion in the Saturday issue.

Copies for sale at the Mayor's Office, Room 27,
City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
retarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure of
such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COM-
MISSIONERS, Room 41, City Hall, for infor-
mation relative to the laying-out, relocation,
widening and discontinuance of high-
ways; the taking of real property for
municipal purposes; the assessments of
betterments for streets and sewers; the
plotting of undeveloped areas for streets
and the opening of private ways; the
granting of licenses for the storage or
sale of merchandise in public streets;
the regulation of street traffic; the mak-
ing of specific repairs in public streets;
the naming of public streets; the planting
and removal of trees in public ways; the
issuing of licenses for the storage of
gasolene, oil and other inflammable sub-
stances or explosive compounds; the use
of the public ways for any permanent or
temporary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marquises,
bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS
Room 44, City Hall, for information as to
the watering, cleaning, lighting, and
repairing of streets, the construction and
care of sewers and catch-basins, the opera-
tion of the ferries, the maintenance of
bridges and drawbridges and the removal
of ashes and offal.

TO THE BOARD OF HEALTH, Room 11,
Old Court House (rear of City Hall), for
information relative to the inspection of
milk, vinegar, meat, fish and vegetables,
the issuance of permits for stables, slaugh-
ter houses, etc., smoke nuisances, the
existence of contagious diseases or public
health nuisances.

TO THE WATER COMMISSIONER, Room
58, City Hall, for information relative to
the supplying or metering of water and
the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC
GROUNDS, 154 East Cottage street, for
information as to the care of the Common,
Public Garden, and the small parks
throughout the city other than play-
grounds, and the extermination of the
gypsy moth and the charges made for the
same.

TO THE PARK COMMISSIONERS, Pine-
bank, Jamaica Plain, for information as to
Franklin Park and Field, Commonwealth
avenue, the Back Bay Fens, Marine Park
and playgrounds in general throughout
the city.

TO THE SCHOOL COMMITTEE, Mason
street, for information relative to the
operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS,
120 Boylston street, for information as to
the construction and repair of school
buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, Feb-
ruary 28, 3 p. m.

Meeting of School Committee, Monday,
March 7, 5.30 p. m.

Meetings of the Boston Transit Commis-
sion are held on Tuesday and Thursday
of each week at 10.30 a. m.

A hearing will be held on the petition
of James L. Maloney for permission to
use a wooden building as a stable for
three additional horses, making a total
of four horses, at 48 Union avenue, Ward
23, on Thursday, March 3, at 10 a. m., in
the office of the Board of Health, 11 Old
Court House.

LEGISLATIVE CALENDAR.

station at Huntington and Massachu-
setts avenues, Boston.

TAXATION. (Room 436.)

March 1, 10.30 a. m. On taxing per-
sonal property held in trust by trust
companies.

March 1, 10.30 a. m. To equalize taxes
on property held in trust.

March 4, 10.30 a. m. On taxation, etc.,
of signs, boards, etc., for advertising.

March 4, 10.30 a. m. On exempting
veterans of the Civil war.

PROPOSALS ADVERTISED.

Bids have been asked for by adver-
tisements in the *City Record*, by the fol-
lowing departments. The attention of
contractors and others is specially called
to the closing time for the receipt of
such proposals. This will be published
weekly.

INFIRMARY DEPARTMENT.

Advertises for proposals for construc-
tion of a trolley system for the transporta-
tion of coal from the coal sheds to the
power house of the almshouse on Long

Island. Proposal forms to be had at office of the trustees, 28 Court square. Bids to be filed at office of same.

Bids close Wednesday, March 2, 12 m.

PUBLIC BUILDINGS DEPARTMENT.

Advertises for proposals for platform, desks, chairs, and railing for the City Council Chamber, in accordance with plans and specifications to be seen at the office of the Superintendent, Room 30, Old Court House. Proposal forms may be obtained at the same office.

Bids close Thursday, March 3, at 12 m.

SCHOOL COMMITTEE.

Advertises for proposals for lumber to be delivered to the various schools throughout the year. Proposal forms can be obtained at the office of the Auditor of the School Committee, 168 Tremont street. Proposals to be filed at office of auditor.

Bids close Monday, February 28, at 11 a. m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for heating and ventilating system to be installed in the Samuel Adams School, Bigelow and Webster streets, East Boston. Proposal forms may be obtained at the office of the Commissioners, 120 Boylston street. Bids are to be filed at same office.

Bids close Wednesday, March 9, at 12 m.

Advertises for proposals for erecting building and installing plumbing system for the Samuel Adams School, Bigelow and Webster streets, East Boston. Proposal forms may be had at the office of the Commissioners, 120 Boylston street. Bids are to be filed at same office.

Bids close Wednesday, March 9, at 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for semi-bituminous steaming coal. Proposal forms may be had at the office of the superintendent, Room 825, Tremont Building. Bids are to be filed at that office.

Bids close Tuesday, March 1, 12 m.

WATER DEPARTMENT.

Advertises for proposals for 2,350 tons of water pipe and special castings. Proposal forms may be obtained at the office of the Commissioner, Room 58, City Hall. Bids are to be filed at same office.

Bids close Tuesday, March 8, at 12 m.

ARCHITECTURAL DISTRICTS SYSTEM.

The city of Washington is planning a city beautiful law, that is, for this country, decidedly revolutionary. With the consent of 90 per cent of the property owners any street or part of a street may be designated as a Class A district, subject to the regulation of the city government as to height and character and position of all buildings. This is the European method—only there the city has reserved the right from the beginning to prescribe the conditions of building and does not need to go to the property owners to secure their consent. With respect to the 10 per cent who do not wish to comply, they may be able to show damages in court when permission is refused them to put up sky-scrapers or cheap and ugly shacks—and they may not.—*Pacific Outlook.*

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending February 24, 1910:

FINANCE COMMISSION.

Commissioner John F. Moors has been designated to serve as Acting Chairman of the Finance Commission during such time as the Chairman, Mr. Sullivan, may be absent for the month commencing February 21.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

Mary Cotter, scrubber, \$5 per week; Annie Chamberlain, scrubber, \$5 per week; Annie Early, table girl, *re.*, \$16 per month; Margaret Heath, laundress, \$16 per month; Ellen Shugrue, laundress, \$16 per month; Madeline Shugrue, laundress, \$16 per month. Charles E. Pinckney, temporary elevator boy, \$7 per week; Theresa Donovan, supply ward maid, \$15 per month; Caroline Robertson, ward attendant, \$5 per week.

LIBRARY DEPARTMENT.

Katherine F. McEtrick, formerly in the "extra" service, employed as a regular assistant at the Upham's Corner branch at \$6 per week.

OVERTIME.

The following employees of the Finance Commission have been allowed overtime for the week ending February 17:

Katharine R. Walsh, \$18 a week, for 1½ days, \$3.86; James E. Gallivan, \$6 a week, for 1 day, \$1.

CONTRACTS AWARDED.

The following contracts for work and supplies have been awarded during the week ending February 24. Those awarded without public advertisement are specially indicated.

SUPPLY DEPARTMENT.

On February 19 the Mayor approved contracts with James F. Murphy for furnishing bank gravel and sand between March 1, 1910, and February 1, 1911, in the following named districts, the proposals for furnishing said material, which were opened February 14, being as follows:

	PER DOUBLE LOAD.	
	Gravel.	Sand.
DORCHESTER.		
James F. Murphy	\$1 95	\$1 95
James McGovern	1 98	1 98
ASHMONT.		
James F. Murphy	1 96	1 96
James McGovern	2 50	2 50

On February 21 the Acting Mayor approved a contract with Patrick F. Donovan for furnishing crushed stone and screenings for the Dorchester and Ashmont districts for the year ending February 1, 1911, the proposals for fur-

nishing said material, which were opened February 14, being as follows:

	Per Ton.
Patrick F. Donovan	\$1 22
Old Colony Broken Stone and Concrete Company	1 50
Mt. Hope Quarry Company	1 65

On February 21 the Acting Mayor approved a contract with the Bleiler Contracting Company for furnishing crushed stone and screenings in the South Boston district for year ending February 1, 1911, the proposals for furnishing said material, which were opened February 14, being as follows:

	Per Ton.
Bleiler Contracting Company	\$1 50
Tide-Water Broken Stone Company	1 50
J. C. Coleman & Sons	1 65

On February 21 the Acting Mayor approved a contract with David Burnett for furnishing crushed stone and screenings for the East Boston district for year ending February 1, 1911, at \$1.37 per ton, the proposals for furnishing said material, which were opened February 14, being as follows:

	Per Ton.
Coleman Brothers	\$1 37
David Burnett	1 37½

On February 19 the Mayor approved contract with the West Roxbury Trap Rock Company for furnishing crushed stone and screenings for year ending February 1, 1911, in the West Roxbury district, the proposals for furnishing said material, which were opened February 14, being as follows:

	Per Ton.
West Roxbury Trap Rock Company	\$1 09
Thomas F. Minton	1 15
Mt. Hope Quarry Company	1 70

On February 21 the Acting Mayor approved with Coleman Brothers a contract for furnishing crushed stone and screenings for the year ending February 1, 1911, in the Charlestown District, the bids for furnishing said material, opened February 14, being as follows:

	Per Ton.
Coleman Brothers	\$1 37
David Burnett	1 45

WITHOUT ADVERTISING.

SCHOOLHOUSE DEPARTMENT.

February 8, 1910.

HON. JOHN F. FITZGERALD, Mayor:

DEAR SIR.—On October 4, 1909, there was organized for the Mechanic Arts High School an Advisory Committee consisting

of eighteen prominent gentlemen, each identified with an important industry. Mr. Frederick P. Fish, Chairman of the State Board of Education, is the chairman of this board. Mr. Fish, Mr. Magnus Alexander of the General Electric Company, Prof. Alfred E. Burton, Dean of the Massachusetts Institute of Technology, Mr. M. B. Kaven, Superintendent of the United Shoe Machinery Company's Works at Beverly, and Mr. W. B. Russell, Director of the Franklin Union, were made a Special Committee on Equipment and Course of Study.

This committee held numerous meetings and discussed the entire problem of the school from many points of view. Under its direction, quotations were obtained from the makers of all the well-known machines that it was deemed advisable to consider as a part of the equipment of the new machine shops. These quotations were received in response to inquiries which presented the case of the school in the most favorable light, and liberal concessions were made, amounting in most cases to the entire discount allowed to dealers by the manufacturers.

A report of the Advisory Committee, prepared by the subcommittee above mentioned, was approved by the School Committee, January 12, 1910, and ordered to be transmitted to this Board. At the same meeting, sundry unexpended balances were transferred to the account of the Mechanic Arts High School with the understanding that the recommendation of the report should be carried into effect. The machines in the list appended to the report were chosen after a careful consideration of cost, as well as of types, sizes, and adaptation to educational requirements. They all represent makers of good tools in common use in this vicinity. In this list are three groups each of which exceeds in cost \$1,000:

GROUP I.

F. E. Reed Company, Worcester, 26 engine lathes, 12-inch swing \$6,904 00

GROUP II.

The Fairbanks Company, 42 Pearl street, Boston, representing Prentice Brothers, Worcester, 7 engine lathes, 12-inch swing; 5 upright drills, 20 inches and 21 inches \$2,800 00

GROUP III.

Brown & Sharpe Manufacturing Company, Providence, R. I., 1 Universal milling machine, No. 1½; 2 pairs of index centers; 1 Universal grinding machine, No. 1; 1 surface grinding machine, No. 2; 1 tool grinder, No. 0; 1 tool grinding machine, No. 1 \$1,877 40

A large group of F. E. Reed Company's lathes was chosen on account of their superior quality, and the further fact that the quotation was the lowest of five from makers of machines fairly comparable in size, type and grade.

It was deemed best to take a small group of Prentice Brothers' lathes, at a slightly higher figure, in order that more than one type should be represented in the equipment. The quotation on Prentice Brothers' drills was the lowest for the machines required.

The Brown & Sharpe machines are highly desirable from an educational point of view on account of their excellence and extended use. There are no other well-known grinding machines in this market, of the types and sizes specified, that are comparable with them. No other milling machine, with the features of the Brown & Sharpe, was quoted at a lower price.

This Board is satisfied that the methods pursued by the above named special committee, composed of men well qualified by training and experience to give

expert advice, have insured the most satisfactory form of competition, and fully safeguarded the interests of the city. The market price of most of these machines has advanced about 5 per cent since January 1, 1910, but all of the firms have signed contracts at their original quotations.

I therefore respectfully request you to authorize this Board to make, without advertising, contracts as specified above, namely, with F. E. Reed Company for \$6,904. The Fairbanks Company for \$2,800, and Brown & Sharpe Manufacturing Company for \$1,877.40.

I am, dear sir,
Your obedient servant,

R. CLIPSTON STURGIS.
Chairman.

Copies of specifications, etc., follow:

Brown & Sharpe Manufacturing Company of Providence, R. I., agree to furnish for the sum of \$1,877.40 the merchandise and labor described in the following specifications:

SPECIFICATIONS.

Furnish and deliver, free on board, Providence, R. I., for the Mechanic Arts High School, the following machines and tools made by Brown & Sharpe Manufacturing Company:

One (1) No. 1½ Universal milling machine of latest model, complete as described in circular, "Form A 11-2-16," without outfit of tools.

One (1) pair 10-inch plain index centers.

One (1) pair 8-inch single dial index centers. Both without table and complete as described in circular, "Form 250."

One (1) No. 1 Universal grinding machine of latest model, complete as described in circular, "Form 11-27."

One (1) No. 2 surface grinding machine of latest model, fitted with 4½-inch index centers, adjustable swivel vise, and Walker Company's 1½ standard type surface grinding chuck; all complete as described in circular, "Form L-2-38," and on page 5 of O. S. Walker & Co.'s catalogue G.

One (1) No. 0 tool grinder with overhead works, complete as described in circular, "Form N 0-10," and furnished with wheel guards.

One (1) No. 1 tool grinding machine, complete as described in circular, "Form N-1-29," and furnished with wheel guards.

The Fairbanks Company, 42 Pearl street, Boston, Mass., agree to furnish for the sum of \$2,800 the merchandise and labor described in the following specifications:

SPECIFICATIONS.

Deliver, f. o. b.—Boston, for the Mechanic Arts High School, the following machines made by Prentice Brothers Company:

Six (6) engine lathes 12 inches by 4 feet, 4 step cone, single back geared, compound rest with regular equipment, consisting of large and small face plates, center and follower rests, tool post and rocker, centers, countershaft, change gears to cut from five to thirty-two threads per inch without compounding, all necessary wrenches and cast-iron chip pan supported on lathe legs.

One (1) high-speed engine lathe 12 inches by 6 feet, mounted in oil pan, with all geared head, adapted to be driven directly from the line shaft, compound rest and quick change gear device, with regular equipment, including large and small face plates, center and follower rests, tool post and rocker, centers, all necessary wrenches, etc.

Three (3) 20-inch stationary head upright drills, with back gears and wheel, lever and power feeds; one drill to be supplied with tapping attachment.

Two (2) 21-inch sliding head upright drills, with back gears and wheel, lever and power feeds.

The bevel gears driving the spindles of each of these drills are to be protected by approved guards.

F. E. Reed Company of Worcester, Mass., agree to furnish for the sum of \$6,904 the merchandise and labor described in the following specifications:

SPECIFICATIONS.

Deliver, free on board Worcester, for the Mechanic Arts High School, F. E. Reed Company's engine lathes as follows:

Twenty-two lathes 12 inches by 4 feet with elevating rest.

Three lathes 12 inches by 4 feet with plain rest and taper attachment.

One lathe 12 inches by 4 feet with plain rest, taper attachment and draw in collet attachment, with seven collets.

Each lathe is to have power cross feed; swing over bed 13½ inches; distance between centers 1 foot 8 inches; tool posts slotted for tools 1 inch by ½ inch; maximum distance from center line of lathe to top of tool post washer or shoe 1½ inches; regular equipment including gear guards, large and small face plates, center rest, graduated dials on rest screws, complete set of screw cutting gears without box, all necessary wrenches, etc.; and chip pans mounted on lathe legs.

Each lathe is to be supplied with approved countershaft having special self oiling friction pulleys close together to be driven from single main line pulley and special shipper lever castings, all equivalent to those now in use in the school.

PUBLIC CONCERTS.

The Music Department has arranged the following free municipal concerts for the week ending March 5:

March 1, West Roxbury High School, Elm street, Jamaica Plain; Miss Grace L. Brown, soprano; Mr. Tasley Mauch, cornetist.

March 3, Charlestown High School, Bartlett street, corner Monument square; Miss Edith B. Whitcomb, soprano; Jacques Benavente, saxophonist.

March 4, Dorchester High School, Talbot avenue, corner of Washington street, Dorchester; Miss Adelaide Griggs, contralto; Mr. William Howard, violinist.

An important feature of these concerts are lectures by Professor Louis C. Elson, who explains and interprets the programme rendered.

Tickets may be obtained at the office of the Music Department, 64 Pemberton square, at the leading music stores and at drug stores and other places in the vicinity of the different halls.

PUBLIC HEARINGS.

The Board of Street Commissioners will hold a public hearing on Tuesday, March 1, 1910, on the following petitions of the New England Telephone and Telegraph Company for leave to erect poles:

Milton avenue, north from Fairmont avenue, Ward 24; Milton avenue, north from Evans street; Milton avenue, south from Norfolk street; Mt. Vernon street, from Boston street to Dorchester avenue; Edson street, Ward 24; Evelyn street, between Blue Hill avenue and Norfolk street; Shepard street, Ward 25.

CIRCULAR FROM THE MAYOR.

MAYOR'S OFFICE.

BOSTON, February 18, 1910.

To the Heads of Departments:

You are hereby directed to grant leave of absence without loss of pay, as part compensation for services rendered the City of Boston, to employees whose services can be dispensed with, on all legal holidays during the present municipal year.

Respectfully,
JOHN F. FITZGERALD, Mayor.

PAYMENTS TO DISABLED EMPLOYEES.

STREET DEPARTMENT.

Allowances made by the Superintendent of Streets and approved by the Acting Mayor, as follows:

Lawrence Sheeley, Highway Division, 23 days at \$3.50, \$80.50.

DISTRICT MEETINGS.

The following subjects were presented for consideration and discussion at district meetings held in Brighton and Roxbury during the week ending February 19:

**AT THE BRIGHTON HIGH SCHOOL,
FOR BRIGHTON.**
(February 16, 1910.)

**FANEUIL IMPROVEMENT ASSOCIATION.
REQUESTS.**

(PRESENTED BY MR. W. W. STALL AND OTHERS,
AS BELOW.)

(PRESENTED BY MR. W. H. THAYER.)

1. Schools.—Brighton has a valuation in real estate larger than 18 of the 33 cities in the Commonwealth, but school accommodations are inadequate, children obliged in some cases to walk nearly 4 miles daily with no conveyance to take them back and forth. New school building should be erected in Faneuil district. Land should be secured for addition to Brighton High School. Medical inspection in some cases lax. Schoolhouses should be fumigated at regular intervals.

(PRESENTED BY MR. RUDOLPH BURROUGH.)

2. Removal of Ashes and Garbage.—Present system of removal of ashes and garbage unsatisfactory. In future contracts the condition of horses and equipment to be used should be stipulated. Present contracts should be enforced in regard to penalties for failure to collect weekly.

(PRESENTED BY MR. JAMES H. STONE.)

3. Streets.—Widening and improvement of Faneuil street,—of prime importance to Brighton, especially Faneuil, as at present there is only one thoroughfare from Union square, Allston, to Oak square. Street Commissioners about ten years ago planned widening of street to 70 feet wide. Improvement of Faneuil street would develop at least 140 acres of vacant land.

(PRESENTED BY MR. L. J. HEWITT.)

4. General Improvement and Maintenance of Streets.—Warren avenue, Sparhawk and Arlington streets, practically one street; now having blind end, should be extended a few hundred feet to intersect Faneuil street. Number of adjacent streets, including Bennett and Surrey, need slight additions. North Beacon street should be improved. Washington street not adequate for present requirements. This thoroughfare congested at Oak square car barns by handling of cars there. Car houses should be set back. Commonwealth avenue should be divided, having one side for pleasure carriages, the other for teaming, etc. Employees should be made directly responsible for certain sections of roadway. Present manner of oiling and watering streets unsatisfactory.

(PRESENTED BY MR. F. W. WEBBER.)

5. Baths and Playgrounds.—Furnish along river bank concrete baths, sunk low enough to form natural basin, with low roof construction. Obtain land from Metropolitan Park Commission for permanent playground. Demand for larger playground at North Brighton. Use influence to complete connecting link of Metropolitan Park system.

(PRESENTED BY MR. C. H. WARREN.)

6. Fire Protection.—Hasten building of fire station at Oak square, for which appropriation has already been made. Provide for equipment and maintenance of same. Complaints because of discontinuance of fire bells. Resume fire warning noon signal and no-school signal.

(PRESENTED BY MR. H. P. KENISON.)

7. Public Library.—Need of branch library in Faneuil district. Present branch over a mile from Oak square and over one and one-half miles from Newton line. Two thousand five hundred persons would be served by a branch library placed in Oak square.

(PRESENTED BY MR. GUILFORD.)

8. Electrification of Railroads.—Mr. Guilford spoke and also presented a brief showing advantages of electrification of railroads, some of the salient points in favor of same being: economy of coal, abatement of smoke and noise; relief from congestion in passenger traffic; relief from congestion in city tenement district; rapid transit; increased value of real estate.

**FITZGERALD CLUB OF NORTH
BRIGHTON REQUESTS.**

(PRESENTED BY MR. THOMAS W. MURRAY.)

1. City should hire field in North Brighton for ball games, etc. No place in North Brighton for boys and young men to play without trespassing.

2. Desire efficient method of collecting garbage and ashes. People in this section have had

to wait from two to four weeks in summer before garbage is collected. Should be collected twice a week.

3. Desire re-establishment of reading room branch of library at North Brighton. Had such a room for ten years but four years ago was transferred to Allston.

4. Desire city's assistance in procuring bathing beach on banks of Charles river at North Brighton. Even bath house has been taken away, and there is now no chance for boys to swim in river.

5. Re-establish ringing of fire alarms, and noon-day bell.

6. Pave Western avenue from Charles River Bridge to Cambridge line. Street has more heavy traffic than any other street of section, but is in miserable condition.

7. Enlarge William Wirt Warren School so that children of North Brighton can complete grammar school course therein. At present, during last two years in grammar school children are sent to Thomas Gardner School in Allston, over a mile distant from North Brighton.

8. Desire assistance in obtaining through car service to subway via Western avenue. Present service unsatisfactory.

9. Re-establish sewer yard at North Brighton.

10. Establish full company at Engine House 34 to give better fire service to North Brighton. Constant danger to section from Brighton abattoir.

11. Desire relief from odor nuisance if rendering plant of abattoir is rebuilt.

12. Condition of Western Avenue Bridge bad. Reconstruction of bridges should not be postponed to winter time.

ALLSTON IMPROVEMENT ASSOCIATION.

(PRESENTED BY MR. THOMAS F. J. CALLAHAN.)

1. Improve Western avenue which is main artery of travel between Cambridge and Boston and suburban district.

2. Extend either Holton or Brentwood streets. This would obviate dangers of present route which school children are obliged to take to reach Thomas Gardner School.

3. Locate bathing place on river between Western Avenue Bridge and North Harvard Street Bridge.

ALLSTON NEIGHBORHOOD CLUB.

(PRESENTED BY MR. ISAAC F. WOODBURY.)

1. Electrify railroads. Abate smoke and noise nuisances.

2. Do away with abrupt corners at Franklin and Lincoln streets; also at Mansfield and Cambridge streets.

3. Either improve or sell vacant lot of land owned by city at Mansfield, Lincoln and Cambridge streets.

4. Provide playgrounds while there is still vacant land. Do not wait until vacant lots are built over.

5. Provide bathing facilities on Charles river such as Cambridge has provided on other side.

6. Improve system of garbage removal.

7. Finish streets already opened up.

8. Improve sidewalks. Law should be passed to compel property owners to build and pay for sidewalks in front of their property. "Twenty-five years behind times in sidewalk building."

Mayor Fitzgerald at this point explained that in western cities abutters pay for all the cost of sidewalks. In Boston undesirable conditions are caused by property owners being unwilling to pay assessment to meet their share of expense.

A. B. BEAL.

(OF THE ALLSTON IMPROVEMENT ASSOCIATION.)

1. Land at corner of Lincoln, Mansfield and Cambridge streets has been a loss to city for eighteen years. This and other dead land owned by city should be sold.

2. Improve car service.—Mayor Fitzgerald suggested that the establishment of a Public Service Commission would better conditions of car service. If members of improvement associations would take up this subject, something might be done.

MR. WILLIAM B. QUIGLEY.

1. Improve Faneuil street.
2. Improve Lake street.

MR. LEE.

1. Widen North Harvard street. Plans already in Street Commissioners' office for widening street to 60 feet. Would cost \$75,000.

2. Wires on this street should be attended to. Street very heavily wired, and wires should be put underground.

MR. McLAUGHLIN

1. Extend Holton street to Antwerp street. Plans already drawn and favored by Street Commissioners. Would save seven or eight minutes time in walking and a distance of 3,000 feet. Would benefit school children.

2. Improve Western avenue. Dust conditions bad, ruining property.

3. Put fire box at corner of Smith street and Western avenue. Fifty thousand dollars recently expended in new buildings here and property is entitled to be protected.

4. Improve system of garbage collection. "By actual count twelve weeks have passed since any collection has been made." Put system on city basis.

MR. ALBERT G. WOLF.

1. Improve condition of Allston tunnel. Drains clogged with dirt and ice; tunnel turned into a river. Copper sheathing should be placed entire length of tunnel to prevent its leaking.

2. Improve car service from Barry's corner.

3. Make bridge repairs in summer, not in winter.

SENATOR CHARLES D. B. FISK.

1. Approves of these meetings.

2. Widen and complete Faneuil street. This of importance to whole section.

3. Buy land in rear of high school building now when it can be secured for reasonable amount. Addition to school will have to be made in near future.

4. Improve garbage collection.

MR. DONOVAN.

1. Improve Allston tunnel. Hand rails should be of wood instead of iron.

2. Put crosswalk from east side over to tunnel, to do away with bad conditions now existing on street before you can reach tunnel.

MR. DEVINE.

1. Extend Warren avenue, Sparhawk and Arlington streets (these three practically one street) a few hundred feet to Faneuil street. This would give direct line for traffic throughout center of Brighton district.

MR. MAURICE M. OBER.

1. Provide municipal building with indoor gymnasium.

MR. J. R. WATERS.

1. Accept Champney street, Hunnewell avenue and Stratton street. Mr. Waters presented petition to this effect, signed by taxpayers of property on these streets.

REMARKS BY MAYOR FITZGERALD.

Mayor Fitzgerald explained the street and sidewalk situation in Boston, saying that in other cities of the country the abutting land owners had to build streets and pay all assessments; in some cities, street bonds being issued which are a lien on the property. Under Mayor Collins not a dollar was expended on streets as he thought law in Boston should be changed to conform with that of other cities in this respect. Last two administrations, however, have appropriated from \$300,000 to \$400,000 yearly for streets. Will give subject as generous treatment as possible.

Future meetings to be held once a month to be presided over by some member of Council. Improvement societies should consider matter whether they wish contracts for garbage collection, etc., awarded to lowest bidder, regardless of character of service. Should also consider use of parks as playgrounds, whether people desire greater use of parks—with certain sections set aside for baseball, sand gardens, etc.

Relief could be afforded people in matter of car service by organization of public service body to stand between corporations and people.

Adjourned at 10.55 p. m.

**AT VINE STREET CHURCH, ROXBURY,
FOR WARDS 17, 18, 19.**
(February 17, 1910.)

ROXBURY IMPROVEMENT ASSOCIATION.

(PRESENTED BY MR. ERNEST C. MARSHALL.)

1. Better police protection, lighting and general care of parks of district.

2. Repave Warren street in front of high school with noiseless pavement.

3. Enlargement of Orchard park by extending to Yeoman and Adams streets, and provide all-the-year around bath.

4. Place drinking fountains in parks of district.

5. Need of more convenience stations.

6. Removal of fence at corner of Hunnewell street and Harrison avenue.

7. Municipal building of same general character as that on Columbia road.

8. Recommend oiling of streets; better cleaning of streets before oil is applied.

9. Increase efficiency of Fire Department by addition of living squadron.

10. Re-equipment of Columbus Avenue Play ground.

11. Comprehensive plan for sidewalk construction should be adopted.

12. Improve collection of garbage and ashes.

13. Larger appropriation by city to Ramfidge Fund in order to take larger number of children on summer excursions.

(PRESENTED BY MR. PATRICK D. WALSH.)

14. Municipal building in neighborhood of Vine Street Church, similar in character to municipal building on Columbia road.

ST. ALPHONSUS ASSOCIATION.
(PRESENTED BY MR. JEREMIAH MAHONEY.)
Necessity for more playgrounds in Ward 19.

MR. JAMES P. FOX.
Fire protection for Parker Hill.

MR. THOMAS H. MCINERNEY.
1. Push matter of playground for Ward 19 as rapidly as possible.
2. Hurry completion of engine house (appropriation already made).
3. Pave Heath street.
4. Accept Estey street; extend and accept Wensley street.
5. Bridge over New Haven tracks to connect Hillside street with Cedar street at Columbus avenue.
6. Request elevated to resume service of cars from Brookline to North station by way of Tremont street.

MR. JOHN A. COSTELLO.
Improve condition of bridge at Roxbury crossing; take care of surface water coming from Parker Hill.

MR. THOMAS P. PHELAN.
Improve conditions at Dudley street terminal.

MR. ROGER F. SCANNELL, JR.
Convenience station, Roxbury Crossing.

MR. JAMES A. WATSON.
1. Necessity for more lights on Columbus Avenue Playground in interest of morality.
2. Use wardrobe in Ward 18 as reading room for part of time.
3. Compel elevated road to station guards to protect people at exits onto Washington and Zeigler streets.
4. Establish free transfer zone at Dudley street and allow transfers to be used for one hour. This to help business men of locality.
5. Improve condition of Madison Park.

MR. WILLIAM P. O'BRIEN.
(REPRESENTING WARD 17 IMPROVEMENT ASSOCIATION.)

1. Enlargement of Orchard Park.
2. Municipal building with gymnasium, shower, tub baths, etc.

MR. THOMAS M. JOYCE.
1. Tear down abandoned Dearborn School building as it blocks light of new school. Space would make valuable school yard.
2. Asphalt Ambrose and Orchard Park streets, to do away with noise which interrupts children in their studies.
3. Fix up Norfolk avenue and Langdon street; need of sidewalks, etc.
4. Transfer facilities at Hampden street.
5. Municipal building on Vine Street Church site.
6. Playground for Ward 17.

MR. JEREMIAH J. GOOD.
Municipal building to be located in Orchard Park, city already owning land.

MR. DANIEL FOLEY.
1. Overcrowded condition of Roxbury High School.
2. Have Schoolhouse and Bath Departments combine in erection of building on land owned by city in rear of Roxbury High School, which could be used as an addition to high school and contain baths, etc., for general public.
3. Reform conditions at Dudley street terminal.

MR. M. O. HUDSON.
(REPRESENTING ROXBURY NEIGHBORHOOD HOUSE.)
1. Better supervision of playgrounds at Fellows street and Orchard Park, so as to give small children a chance to play.
2. Build municipal building in Orchard Park.
3. Ground at Orchard Park now going to waste. Either make it a playground or a park.

MR. TIMOTHY L. CONNOLLY.
Tear down old school so that children of new school in Orchard Park may have yard in which to go for recess. At present have no recess.

MR. G. A. SPOONER.
1. Improve transportation facilities on elevated.
2. Investigate sanitary conditions of cars.

MR. JOHN KEARNS.
1. Improve conditions at Dudley Street Terminal.
2. Establish free zone for transfers.

MR. JOHN A. SIMPSON.
Establish transfer station of elevated road at corner of Massachusetts and Huntington avenues.

MR. CHARLES L. PAGE.

1. Provide playgrounds with instructors.
2. Rent grounds for playgrounds until city is able to buy same.
3. Divide parks into parks and playgrounds.

MR. JOHN BOWEN.
Municipal building on Orchard Park.

MR. JOHN B. WALL.
1. Remedy conditions at Dudley Street Elevated.
2. Provide more lights for Columbus Avenue Playground in interest of morality.
3. Extend Walpole street, affording better fire protection to district in which are Art Museum, Opera House, United Drug Company's factories and many other large buildings.

MR. BENNETT.
Do away with turnstiles at Northampton street station of elevated.

MR. FRANK CLUNE.
1. Place baseball diamond in Washington Park.
2. Improve conditions at Dudley street terminal.

REMARKS BY MAYOR FITZGERALD.
Mayor Fitzgerald explained that the city had no direct control over Boston Elevated Railway and suggested bill for the appointment of a Public Service Commission, which could regulate service given by public service corporations. Also explained that the city is limited by the Legislature in the amount of money it can appropriate, and has no control over certain percentage of appropriations. He asked the co-operation of citizens of the district in future meetings.

REMARKS BY COUNCILLOR BALLANTYNE.
Councillor Ballantyne addressed the meeting, and said that, while the representatives of Ward 17 would see that the Roxbury district had a fair share of the appropriation bill and loan bill, they also proposed to do their duty to every section of the city.

REMARKS BY COUNCILLOR CURLEY.
Councillor Curley addressed the meeting, saying that the district was united in wanting the enlargement of Orchard Park and a municipal building on Orchard Park. He also spoke of the necessity for tearing down the old Dearborn School property to provide a school yard in conjunction with the new Dearborn School. Councillor Curley stated he was authorized by the pastor of St. Patrick's Church to say that if the city would turn over this school for a nominal consideration he would tear down the building, remove the material, and construct a parochial high school on Mount Pleasant avenue, to be maintained without expense to the City of Boston.

On motion of Mr. O'Brien a unanimous vote of thanks to the Mayor and City Council for their attendance was passed.

Adjourned.

POPULATION OF FRANCE.

For the third year in succession there is evidence of a declining birth rate and of a permanent excess of deaths over births in France. For the first half of 1909 the births are 398,710, or 12,692 fewer, and the deaths are 426,913, or 25,019 more, than in the corresponding period of 1908, and there is an excess of deaths over births of 28,203. Thus, without any great "positive check," such as war or pestilence, the population of France will probably have declined during the year by about 56,000. This startling situation is commented on by M. Leroy-Beaulieu, the well-known economist, in the *Journal des Debats*. He points out that whereas there were 1,000,000 children born annually in France in 1861, the number dropped in 1907 to 773,000, and is likely to be still lower in the future. At this rate the French population of France, by the end of the century, will only be 30,000,000. M. Leroy-Beaulieu proposes to stimulate population by reserving all paid posts in the state and municipal civil service in the future for married men with three children at least, and to give a bounty of 500f for the third child of every family, without distinction of class. This, however, will cost £6,000,000 or £7,000,000 annually.

NEW CIVIL SERVICE RULES.

Pursuant to the authority conferred by section 6 of chapter 19 of the Revised Laws, the Civil Service Commissioners have prepared the following amendments and alterations of the Civil Service Rules:

AMENDMENTS TO CIVIL SERVICE RULES.

First.—The following is adopted as section 3 of Civil Service Rule 31:

3. In case a provisional appointee shall have served continuously for eighteen months from date of appointment authorized by the commission, and for at least six months after notice received by the commission of the last increase of pay or change of his duties, and in case no suitable eligible list, in the opinion of the commission, shall have been established after open competitive examination within such period of time, the commission shall authorize the appointing officer to make such appointment permanent if he shall file with it a certificate in such form as it shall prescribe to the effect that the provisional appointee is duly qualified for the position, that his services have been entirely satisfactory, and that the best interests of the city or of the Commonwealth will be served by such permanent appointment. No transfer will be allowed of a person so appointed except upon consent of the commission and under the provisions of the civil service rules relating to transfers.

Second.—Sections 3, 4 and 5 of said Rule 31 are hereby renumbered and shall hereafter be Sections 4, 5 and 6, respectively.

Prepared and respectfully submitted to the Governor and Council for approval.

(Signed) CHARLES WARREN,
FRANK FOXCROFT,
ELMER L. CURTISS,
Civil Service Commission.

January 7, 1910.

Approved in council, January 13, 1910
(Signed) E. F. HAMLIN,
Executive Secretary.

A true copy. Attest:
WARREN P. DUDLEY,
Secretary Civil Service Commission.

January 17, 1910.

In accordance with the provisions of section 8 of chapter 19 of the Revised Laws, notice is hereby given that the foregoing amendments to the Civil Service Rules will take effect on the first day of April, 1910.

By order of the Civil Service Commission,
WARREN P. DUDLEY, *Secretary.*

CLASS HOURS, MUNICIPAL GYMNASIUMS.

The class hours of the several municipal gymnasiums are as follows:

At the Cabot Street Gymnasium, Roxbury; Ward 16 Gymnasium, Municipal Building, Columbia Road, Dorchester; D Street Gymnasium, Commonwealth Park, South Boston; North Bennet Street Gymnasium, City Proper:

Monday and Thursday for women and girls. Class hours: Mothers' class, 10 to 12 a. m.; school girls, 4 to 6 p. m.; ladies' class, 8 to 10 p. m.
Tuesday and Friday for men. Class hours: 8 to 10 p. m.

Wednesday and Saturday for boys. Class hours: Wednesday, school boys, 4 to 6 p. m.; working boys, 8 to 10 p. m. Saturday, school boys, 10 to 12 a. m. and 4 to 6 p. m.; working boys, 8 to 10 p. m.

Ward 7 Gymnasium, 75 Tyler street, City Proper. Schedule the same as the four gymnasiums above with the exception that Tuesday and Thursday are for women and girls and Monday and Friday for men.

Ward 9 Gymnasium, corner Harrison avenue and Plympton street, city.

Monday and Thursday for women and girls from 10 a. m. to 6 p. m. Class hours: School girls, 4 to 6 p. m.; men, 8 to 10 p. m.

Tuesday and Friday for men all day. Class. 8 to 10 p. m.

Wednesday and Saturday for boys. Hours same as all other gymnasiums.

FINANCE COMMISSION.

BOSTON, February 18, 1910.

To the Honorable the Mayor and City Council:

GENTLEMEN,—In its report to the General Court, dated January 31, 1910, the Finance Commission showed that in the last two years the standards of administration have been raised, in respect to the award and execution of contracts, the purchase of land and of materials and supplies, and in the use of the power to borrow money for public purposes. It was also shown that the most conspicuous failure of the last two years was the omission to reduce the amount of excessive salaries and the number of superfluous employees. The commission respectfully invites the attention of the present city government to the latter subject, in the hope that some effective action may be taken to reduce the burden of taxation which the maintenance of the city's inflated pay rolls entails. The high taxes have retarded the development of real estate and of industrial and commercial enterprises, thus injuriously affecting the prosperity of the entire community. Unless the present administration reduces the pay rolls, true economy in administration will not be attained, nor will there be relief from the present heavy tax burdens. The increase in the number carried on the city's pay rolls in recent years is striking. From 1895 to 1909 the number of city employees (including those of the Penal Institutions Department) has increased from 8,645 to 12,774, an increase of 4,129 in number, or about 47 per cent; and the amount paid has increased from \$7,598,367 to \$12,589,338, an increase of \$4,990,971, or about 65 per cent. This increase has not been justified by the increases in wealth, population, or the amount of service performed. The valuation of property assessed for the purpose of taxation has increased from \$951,367,928 to \$1,347,948,227, or about 41.6 per cent; the population from 496,920 to probably not more than 630,000, or about 26.7 per cent; and the total amount of service performed by the city employees has not increased much faster, if any, than the population. Thus the increase in the amount spent on pay rolls has been about two and one-half times as great as the increase in population, or in the amount of service performed.

The necessity of economy in this item is further shown by the fact that last year's pay roll for the city departments was, as previously stated, \$12,589,338, or more than three-quarters of the \$16,926,459.50 which was appropriated to be met from taxes for the city departments, including the Penal Institutions Department, but exclusive of interest and sinking fund requirements.

The Mayor and City Council may control the amount of pay rolls by scaling down appropriations so as to require the removal of the superfluous employees and the reduction of excessive salaries. The examination of heads of departments by the City Council will disclose excesses in the matter of salaries, both as to number of employees and amounts paid, beyond those already revealed by the investigations of the former Finance Commission into the Assessing, Auditing, City Clerk, Collecting, Treasury, Clerk of Committees, City Messenger, Water, Weights and Measures, Health, Cemetery, Soldiers' Relief and Schoolhouse Departments. Some of the reductions then recommended have been accomplished, and the opportunity is now afforded to effect others,

TRANSFERS OF EMPLOYEES.

	To	Position.	Salary.
FROM MAYOR'S OFFICE:			
Messenger	Collecting Department	Clerk	\$1,400
Stenographer	Collecting Department	Clerk	1,600
FROM CITY MESSENGER DEPARTMENT:			
Assistant city messenger	City Clerk Department	Clerk	1,500
Assistant city messenger	Street Commissioners	Messenger	1,500
Assistant city messenger	Water Department	Messenger	1,200
Messenger	City Clerk Department	Messenger	900
FROM CLERK OF COMMITTEES DEPARTMENT:			
Constable	Street Department	Constable	1,400
Constable	Street Commissioners	Constable	1,200
Constable	Street Commissioners	Constable	1,200
Assistant clerk of committees	Street Commissioners	Clerk	2,000
FROM CLERK OF COMMON COUNCIL:			
Messenger	Street Commissioners	Messenger	800
Assistant clerk	Registry Department	Clerk	800
Total			\$15,500

including those recommended by the present commission in the Assessing and Penal Institutions Departments.

If the amounts estimated to be necessary for the current year by the Assessing, Collecting, Treasury, City Clerk and Weights and Measures Departments are reduced to the amounts recommended by the present Finance Commission, as shown in the table below, a saving of \$87,589 can be effected, largely by reducing the number of and amounts paid to salaried employees:

	Estimates, 1910-11.	Amounts Recommended by Finance Commission.
Assessing	\$183,343	\$128,000*
Collecting	136,000	120,000
Treasury	48,600	43,000
City Clerk	45,000	40,000
Weights and Measures	24,896	19,250
	\$437,839	\$350,250
	350,250	
Saving	\$87,589	

* \$27,200 of the proposed saving is dependent upon the action of the Legislature. (See Finance Commission Report, February 12, 1910.)

In the budget recently prepared by the Mayor for the fiscal year 1910-11, \$424,496 is provided for these five departments, but, in the opinion of the commission, \$350,250 will be ample for their actual needs. This reduction will necessitate the removal of four employees recently transferred to the Collecting and the City Clerk Departments from the Mayor's office and the City Messenger Department, and thus \$5,400 a year will be saved on salaries. The eight employees whose annual salaries amount to \$10,100, and who also were recently transferred from the offices of the City Messenger, Clerk of Committees and Clerk of the Common Council, should not be retained, and if not removed the appropriations for the Street Commissioners, Water, Street and Registry Departments, to which

they have been transferred, should be scaled down so as to require their removal.

The list of these transfers is at top of page.

These transfers were made to provide places for two officials in the office of the former Mayor, and for all except three employees in the offices of the City Messenger, the City Clerk and the Clerk of the Common Council, all of which offices were abolished by the charter amendments of 1909 for the express purpose of saving the city the expense of their maintenance. With the exception of the two constables transferred to the office of the Street Commissioners these appointments were made without any regard whatever for the needs of the service. The constables transferred to the Street Commissioners Department may have been intended to provide for the inspection of minors to whom licenses are to be issued, but, in the opinion of the commission, it would be better to abolish these positions, and to provide by ordinance that the licenses to minors of the age of fourteen years and over shall be issued by the School Committee, which already issues licenses to minors under the age of fourteen and can perform the additional work with substantially no increased expenditure. Unless the incumbents of the twelve positions in question are removed the \$15,500 paid to them will be practically a total waste.

One of the two temporary positions recently created by the City Council, the sergeant-at-arms and the Clerk of Committees, should be abolished, thus saving \$2,500 a year.

If these recommendations are adopted nearly \$100,000 a year can be saved, as shown in the following table:

In five departments named above (including \$5,400 for four employees recently transferred)	\$87,589
Salaries of eight other transferred employees	10,100
Abolition of office of sergeant-at-arms or Clerk of Committees	2,500
	\$100,189
Less amount to be expended by the School Committee for issuing additional minors' licenses	1,000
Saving	\$99,189

The City of Boston pays more for the kind of clerical service rendered to it than neighboring cities and towns, the Federal Government, the Commonwealth or private employers. (See Finance Commission Report, Vol. I., p. 340, *et seq.*) There is no reason why the city should pay more than is paid at the State House for similar service, and the commission believes reductions should be made accordingly.

THE LABOR FORCE.

The commission also believes that substantial economies can be effected by reducing the city's labor force as rapidly as possible, consistently with a due regard for the men who have grown old in the service. If the places made vacant by natural causes are not filled, the maintenance force will eventually be reduced to the proper size without hardship to any individual, but while waiting for this slow method of reduction to become effective the city's financial interests may demand a reduction in the amount paid for day labor to those employees who are incapacitated by age. At all events there should be no increase in wages. If, as both branches of last year's City Council voted, the wages of all city laborers and mechanics who now receive less than \$2.50 per day should be increased to that amount, the increase would apply to about 2,800 employees, and would cause an increased annual expenditure of at least \$200,000, and a resulting increase of about fifteen cents in the city's tax rate. The financial condition of the city is such that no increase in the tax rate should be made except for the most imperative reasons. Therefore, the commission suggests that if the increase in wages be again proposed the most careful consideration should be given to all the facts in the existing situation before final action is taken.

The total number of city and county employees, outside of the three departments to which pension systems apply, the Police, Fire and School Departments, is 7,458, and of this number about 2,800 are employed as laborers in the Street, Water, Park, Public Grounds and Cemetery Departments. Of the 2,800, 618, or 22 per cent, have been twenty years or more in the service; 301, or 10.7 per cent, have been twenty-five years or more in the service; and 153, or 5.4 per cent, have been thirty years or more in the service. One hundred and one of the laborers entered the service when fifty-five years old or more, and it is not likely that many of these have been so long as twenty years in the service, but it is probable that most of them are incapacitated, in whole or in part, on account of age. Likewise, many of the 618 who have been twenty years or more in the service are incapacitated. It is fair to assume that at least one-fifth of the entire laboring force are incapable, on account of age, of doing a full day's work. This means that about 560 city laborers are not now performing, and are not expected by the heads of departments to perform, a full day's work. The inefficiency of the day labor force due to age has been shown by the investigations of Metcalf & Eddy and other engineers employed by the former Finance Commission, and their conclusions have been confirmed by every city official who has appeared before either the former or the present Finance Commission. That many city laborers render a full equivalent in service for the wages they receive cannot be disputed. Nor can it be disputed that others cannot and still others will not. That the labor force as a whole has not

in the past and is not now rendering the service which the city is entitled to receive is shown by the following facts:

1. By the admissions of heads of departments and other city officials.

The former Superintendent of the Paving Division, James H. Doyle, stated to the former Finance Commission that the employees in his department did far less work than persons in similar occupations privately employed; and that the cost of work performed by city labor was far in excess of that performed for the city by contractors.

Former chief engineer (now Deputy Superintendent) of the Paving Division, James H. Sullivan, states that the employees in that division are much less efficient than others in private employ; and that, in fact, contractors receive twice as much labor for each \$2.25 expended as the city receives from the day labor force in the Paving Division.

Chief engineer of the Sewer Department, Edgar S. Dorr, states that work done by the labor force of the department cost 25 to 50 per cent more than it would cost the city if done by contract.

Deputy Superintendent of the Sewer Department, C. Barton Pratt, states that the force is far less efficient than labor in private employ, as shown by the fact that the cost of work performed by the department force ranges from 50 to 100 per cent above the cost of similar work done by contract.

Deputy Superintendent of the Sanitary and Street Cleaning Divisions, George H. Foss, estimates the efficiency of the labor force in these divisions as about two-thirds of that of private contractors.

The present Superintendent of Streets, Guy C. Emerson, estimates that the average efficiency of the labor force of the several divisions of the Street Department is 25 per cent less than that of private contractors.

The present Water Commissioner, William E. Hannan, states that the laborers in the Water Department perform about one-half as much work a day as a contractor's force, and that a contractor receives twice as much labor for the \$2 he pays as the city receives for the \$2.25 it pays.

2. By the investigations of experts.

Mr. Samuel S. Whinery, an engineer employed by the former Finance Commission, estimated that the annual loss in the Paving and Street Cleaning Divisions in 1906-07 and 1907-08, due largely to inefficiency of labor, was \$150,000 and \$100,000, respectively, or \$250,000 a year in these two divisions. (Finance Commission Report, Vol. IV., pp. 191, 324.)

Metcalf & Eddy estimated the annual loss in the Sewer Department in 1906-07 and 1907-08 as \$375,000, of which \$194,000 a year, or more than one-half, was due to the excessive cost of work performed by the day labor force. (Finance Commission Report, Vol. III., pp. 855, 856.)

Mr. X. H. Goodnough, engineer of the State Board of Health, who made an investigation of the Sanitary Department for the year 1907-08, at the request of the former Finance Commission, estimated that the city could save \$150,000 a year, or nearly one-fifth of the cost of maintaining the department, if the system of having part of the work performed by day labor and part by contract were abandoned and the entire work performed by contract. (Finance Commission Report, Vol. II., p. 131.)

Metcalf & Eddy estimated the annual loss in the Water Department in 1906-07 and 1907-08 as \$150,000 a year, of which \$130,000 a year was on salaries and wages

and due to inefficiency. (Finance Commission Report, Vol. III., p. 222.)

3. By the excessive cost of Boston service as compared with other cities.

Metcalf & Eddy made a study of the comparative day labor cost, per foot, of laying 12-inch sewer pipe in a trench 10 feet deep, the wages and hours of service being reduced to a common basis. The results are shown in the following table (Finance Commission Report, Vol. III., p. 717):

Lowell.....	\$2 96
Lawrence.....	2 27
Cambridge.....	2 01
Everett.....	1 87
New Bedford.....	1 64
Worcester.....	1 63
Newton.....	1 51
Quincy.....	1 44
Fitchburg.....	1 36
Brockton.....	1 34
Malden.....	1 32
Haverhill.....	1 13
Average, \$1.79.	
Boston, \$3.50.	

Metcalf & Eddy's investigations showed that the day labor cost per foot of laying water pipe in a 6-foot trench was about 69 per cent greater in Boston than in other Massachusetts cities. The actual cost in Boston was 96.1 cents. The relative costs, on a common basis of hours and wages, are shown by the following table (Finance Commission Report, Vol. III., p. 128):

AVERAGE JANUARY 1, 1905, TO JULY 1, 1907.

Worcester.....	46.9 cents....1907
Cambridge.....	47.3 cents....1905
Lowell.....	47.1 cents....1907
Somerville.....	42.5 cents....1906
Newton.....	42.4 cents....1906-07
New Bedford.....	33.3 cents....1907
Chelsea.....	30.1 cents....1906
Average, 41.7 cents.	
Boston, 70.5 cents.	

The cost of hydrant maintenance in winter was shown to be from 14 cents to \$1.44 more per hydrant in Boston than in other cities, the excess ranging from 6.8 per cent to 132 per cent.

Cost per hydrant from November 15, 1906, to March 15, 1907, (Finance Commission Report, Vol. III., p. 86):

Boston.....	\$2 53
Cambridge.....	2 39
Chelsea.....	1 47
Worcester.....	1 28
Brookline.....	1 09

4. By the comparative costs of day labor and contract work.

A single illustration will be sufficient. In speaking of two jobs, one for the Metropolitan Water and Sewerage Board and the other for the City of Boston, the former Finance Commission said (Vol. I., p. 271):

"Calculating both jobs, *i. e.*, the one done by contract for the metropolitan works and that done by the city by day labor, upon the same basis of pay, the metropolitan work cost \$3.13 per one thousand bricks laid, while the city work cost on various jobs at the minimum \$9.48, and from that to as high as \$18.34 per one thousand bricks laid. This is in all instances simply the mason cost, excluding the pay of mortar mixers and tenders. The excessive cost is further shown by the fact that on one contract job performed for the city the cost to the contractor on the same basis was only \$2.98 per thousand bricks."

Every municipal engineer and every scientific journal admits that the cost of labor directly employed by American cities is far in excess of that which such cities would have to pay under contract.

5. By the tendency towards decreased efficiency.

In Volume III. of the Finance Commission Report, page 48, Metcalf & Eddy, in speaking of the declining efficiency of the pipe-laying force in the Boston Water Department, said:

"After due allowance for the reduction in hours of employment and increase in wages, there has been a decrease in efficiency of labor amounting to 50 per cent in the past thirteen years."

A chart prepared by the City Engineer of Boston shows that from 1878 to July 1, 1907, the labor cost of pipe laying, per linear foot, quadrupled, i. e., that an eight-hour day at \$2, in 1907 (with a Saturday half holiday), yielded about one-fourth the results of a ten-hour day (with no half holiday) at \$1.75 in 1878. (Finance Commission Report, Vol. I., pp. 270, 271.)

The following table shows the amount of pipe laid at a labor cost of \$1 in various periods (Finance Commission Report, Vol. III., p. 123):

1878 about.....	4½ ft.
1880-90 about.....	2.7 ft.
1896 about.....	2½ ft.
1900 about.....	1.9 ft.
1907 about.....	1½ ft.

Further analysis shows that, reduced to a uniform basis of hours and wages, the cost per linear foot of laying water pipe increased from 25.5 cents in 1878 to 59.4 cents in 1907,* or about two and one-third times. (Finance Commission Report, Vol. III., p. 118).

* Up to July 1.

From the foregoing statement of facts it appears that the proposition for an increase in wages, if made, should be stated as follows: Is it consistent with the financial interests of the city to effect a general increase of more than 11 per cent in the wages of the city's labor force, applicable alike to the efficient, the comparatively inefficient, and the almost totally inefficient, notwithstanding the fact that the force, as a whole, now receives 12½ per cent more wages, and performs at least 33½ per cent less work, than similar labor in private employment? The mere statement of the proposition would seem to show its injustice to the taxpayers of an already overtaxed community. It may be urged that the rise in the cost of living makes the increase necessary. If this be true, it is true of all city employees. Yet a proportionate increase in compensation to all city employees would be out of the question, as it would result in a tax rate that would seriously check the commercial and industrial growth of the entire city, and labor itself would ultimately bear the greater part of the burden.

Moreover, rates of pay and conditions of service are very favorable to the labor force employed by the City of Boston as compared with those of other cities and of private contractors. A study made by Metcalf & Eddy in 1908 showed that of eighteen Massachusetts cities for an eight-hour day four paid their laborers less than \$2, ten paid \$2, and only four paid \$2.25. None paid more. (Finance Commission Report, Vol. III., p. 1087.) In Brookline, Newton, Cambridge and Somerville, \$2 a day is the rate now paid. In Baltimore, Chicago, New York, Philadelphia and St. Louis, the per diem rates for unskilled city laborers are \$1.66, \$2, \$1.75 and \$1.50 respectively.

A study made by Metcalf & Eddy of the wages paid to laborers by thirty-six local

contractors in the years 1907 and 1908 showed that the average pay was below 25 cents an hour. (Finance Commission Report, Vol. III., p. 1085.) None of the laborers employed by these private contractors were paid for legal holidays, and, therefore, not even those who received the highest wages obtained as much as the city laborers received for actual working time, namely \$2.52 a day, or 31½ cents an hour, including Saturday half holidays and legal holidays. The prevailing rate paid to laborers in private employ in and about the City of Boston is now \$2, and none are carried through the winter by their employers unless there is work for them; whereas the city laborers are usually employed throughout the year, though at certain seasons there is little work to be done. There is little justice in a situation in which the wage of a city laborer is considerably higher than that of a laborer in private employ who performs much more work, but who lacks the political influence necessary to get on the city pay roll.

It is maintained by some persons that notwithstanding the inefficiency of city labor, and the loss which the excessive pay rolls cause, no reduction should be made in the number or compensation of city employees. Those who take this position deny that a municipal corporation should perform its work in the same way as a private corporation, as they claim the latter exists merely for the purpose of making money under a system of competition, while the former exists for the purpose of bettering the condition of all its members and is free from the pressure of competition. Admitting that municipal and private corporations are not in every respect alike, and that a city must consider certain factors which a private corporation can ignore, the commission calls attention to the fact that cities are subject to competition and that Boston would undoubtedly have attracted more industrial and commercial enterprises if its taxes, due largely to excessive pay rolls, had not been so high.

Moreover, the money wasted on superfluous employees benefits only a small portion of the community for which the entire community is taxed. If the money so wasted were wisely expended, it would bring far more good to a far greater number of equally deserving citizens.

RECOMMENDATIONS.

The commission believes that great improvements in administration can be made by the adoption of the following methods:

1. By eliminating the superfluous employees.
2. By reducing salaries of subordinates to approximately the scale prevailing in private employment.
3. By procuring for the heads of departments men of greater ability and longer experience than have heretofore been required, even though it becomes necessary to provide much more compensation than is given at present.
4. By establishing a merit system in all the departments, under which the merits and defects of employees shall be noted and recorded, and by making promotions from within the ranks whenever practicable and in such cases only after just consideration of the merits of the prospective appointees.

Respectfully submitted,

THE FINANCE COMMISSION,

by

JOHN A. SULLIVAN,
Chairman.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH:

1910.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.

FOR THE SERVICE OF THE CITY OF BOSTON:

1910.
March 21. Foremen of Laborers, Inspectors of Work, Class 22.
March 22. Sub-foremen of Laborers, Class 23.
March 28. Prison Watchmen, Class 17.
March 29. Janitors and Engineers of Public Buildings, Class 24.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply for the service of the Commonwealth; and only citizens of the United States who have been residents of Massachusetts for the past year and of Boston for the six months last past have a right to apply for the service of Boston.

Blank applications for the Commonwealth and Boston services can be obtained by applying to the Civil Service Commission, State House, Boston, and, when filled out, should be filed in the office of the Commission.

In order to receive a notice to appear at any of the above scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

By order of the

MASSACHUSETTS CIVIL SERVICE COMMISSION,

WARREN P. DUDLEY,
Secretary.

BALTIMORE'S NEW CHARTER.

The commission appointed to draft a new charter for Baltimore, which will be acted upon not by the people of that city but by the State Legislature of Maryland, has about completed its work, and the proposed instrument is only a moderate change from the existing charter. It attempts to make a complete separation of the executive and legislative functions by limiting the powers of council to the passing of ordinances of a general character, and establishing a Board of Estimate and Control, made up of the leading city officers, which will have charge of the city's finances and general administration. There is no provision for the recall, initiative or referendum; but the civil service is established in all departments.—*Pacific Outlook.*

What is characterized by the Municipal Journal as the world's greatest water project has been under way in the Catskills for several years, and will reach New York City with 500,000,000 gallons of water a day about five years hence. The system embraces ninety miles of aqueducts and tunnels and is estimated to cost \$162,000,000. The water will come into New York under a head that will carry it to the top of twenty story buildings, instead of five or six stories as at present. The chief engineer of the project is J. Waldo Smith.

Philadelphia's assessed realty values have increased \$160,000,000 in the past five years, during which period the city has built more than 30,000 dwellings.—*Philadelphia.*

PROCEEDINGS OF CITY COUNCIL.

Monday, February 21, 1910.

Regular meeting of the City Council in the Council Chamber, City Hall, at three o'clock p. m., President BALLANTYNE in the chair and all the members present.

On motion of Coun. HALE, the reading of the records of the last meeting was dispensed with.

JURORS DRAWN.

Forty-one traverse jurors were drawn under chapter 514 of the Acts of 1894, for the Superior Criminal Court, to appear March 9, as follows:

Frank E. Smith, Ward 17; Franklin P. Daly, Ward 22; Henry H. Fletcher, Ward 19; Frank E. Hanson, Ward 21; James Young, Ward 25; Edward Murphy, Jr., Ward 20; William E. Shackley, Ward 20; Lawrence A. Rettmann, Ward 22; Annable Smith, Ward 10; James Murray, Ward 23; William E. Leavett, Ward 24; Lawrence Grant, Ward 22; Theobald Goetz, Ward 23; Eugene McCarthy, Ward 23; Nicola V. Campana, Ward 6; Charles H. Whittemore, Ward 24; Arthur J. Leary, Ward 13; William Orkin, Ward 8; John F. Holman, Ward 3; James R. Meany, Ward 19; Clifford C. Chapman, Ward 17; Robert W. Stanley, Ward 18; Berton A. Rupert, Ward 22; Nicholas J. Quinn, Ward 9; Walter A. Smith, Ward 23; George A. Griffith, Ward 11; John J. O'Connor, Ward 16; Harry L. Flynn, Ward 20; William H. Scott, Ward 4; Jabez Nichol, Ward 23; Harry A. Simpson, Ward 20; John F. Shea, Ward 13; William E. H. Home, Ward 20; Daniel N. S. Barker, Ward 20; Ferdinand Holzworth, Ward 19; William J. McCracken, Ward 24; Gustaf Cederslund, Ward 19; Henry W. Kelly, Ward 17; Fred A. Cunningham, Ward 18; Edward E. Piper, Ward 10; Alonzo Fernald, Ward 2.

RESIGNATION AND REMOVAL.

Notice was received from the Mayor of the resignation of John H. Donovan from the Board of Assessors, to take effect at the close of business February 18, and of the removal of Alonzo F. Andrews as a member of the Board of Assessors February 18.

Notices placed on file.

APPROPRIATION BILL.

The following was received:

City of Boston,
Office of the Mayor, February 18, 1910.

To the City Council:

In accordance with section 3 of chapter 486 of the Acts of 1909, I transmit herewith the estimates of the several departments for the financial year 1910-1911, together with a list of the appropriations which I recommend. I also transmit for your information the basis of estimate prepared by the City Auditor, which includes the amount which can be raised within the tax limit for the current expenditures of the city and an estimate of the income for the present year. These two items, added together, fix the limit within which the total amount appropriated by the City Council must fall.

The sum total of all the estimates submitted by the heads of city departments, with an allowance of \$250,000 for the Reserve Fund, is \$13,311,726. The total of the estimates submitted by heads of county departments is \$1,384,679. The city and county debt requirements, embracing interest, sinking funds and installments upon serial bonds total \$5,097,480. The sum of these various items, \$19,793,885, is \$467,507 less than the amount available under the law for current expenditures.

I recommend a reduction of \$944,430 in the city and county estimates, making a total appropriation of \$18,849,455. This includes an increase of \$80,834.59 in the debt requirements, over which the Mayor and the City Council have no control, and an increase of \$495,564.31 over the actual expenditures of the city and county departments during the fiscal year 1909-1910. The amount available but not appropriated is \$1,381,396.28.

It is my judgment that in most cases the items of increase merely allow for the normal growth of population. In special cases, such as the Highway and Sanitary Divisions of the Street Department, experience has proved that the appropriations in the past have been reduced below the minimum of efficiency and of enlightened regard for the public welfare.

Respectfully,

JOHN F. FITZGERALD, Mayor.

Appended were the detailed department estimates.

Art Department: Eight hundred dollars	\$800 00	
Assessing Department: One hundred seventy thousand dollars	170,000 00	
Auditing Department: Forty-six thousand eight hundred dollars	46,800 00	
Bath Department: One hundred eighty-three thousand nine hundred fifty-two dollars	183,952 00

Referred to the Committee on Appropriations, when appointed.

PETITIONS REFERRED TO COMMITTEES WHEN APPOINTED.

Claims.

W. L. Douglas Shoe Company, for compensation for the breaking of a window at corner Court and Howard streets.

Mrs. Lillian Snyder for compensation for injuries caused by an alleged defect at 155 Leverett street.

County Accounts.

Social Law Library, for an appropriation of \$1,000 for said library.

Faneuil Hall, Etc.

Boston American, for use of Faneuil Hall on evening of March 21.

Boston Lodge No. 10, B. P. O. E., for use on the afternoon of March 6, 1910.

CONFIRMATION OF APPOINTMENT.

The President called up, under unfinished business, Nos. 1 and 2, viz.:

Action on appointments submitted by the Mayor February 14, viz.:

1. Cornelius J. Donovan, to be a Weigher of Vessels for the term ending April 30, 1910.

2. William McDonald, to be a Weigher of Coal, a Measurer of Wood and Bark, a Measurer of Grain and a Weigher of Boilers and Heavy Machinery, for the term ending April 30, 1910.

The question came on confirmation. Committee, Councillors Brand and McDonald. Whole number of ballots nine; yeas nine, and the appointment was confirmed.

NAMING STREETS.

Communications were received from the Street Laying-Out Department submitting the following orders:

Changing name of way at West Roxbury known as Arundel street, from Walter street to Centre street, to Ardale street.

Naming Charlestown bridge Washington street, North, from the present terminus of Washington street North from its junction with Causeway street to the junction of City square and Chambers street.

Changing the name of Walk Hill street, West Roxbury, from Asticou road to South street, to St. Ann street.

Changing name of Walk Hill street, West Roxbury, from Asticou road to Washington street, to Asticou road.

Changing name of way at Roxbury, known as Roseley court, leading southwesterly from Roxbury street, to Anita terrace.

Severally placed on file.

REGISTRY OF DEEDS PAY ROLL.

A communication was received from the Suffolk Register of Deeds certifying the persons employed in the office commencing January 24, 1910, and ending February 21, 1910, total amount of clerk hire being \$3,165.55.

Referred to the Committee on County Accounts when appointed.

COAL AND COKE LICENSES.

Notice was received from the Secretary of the Commonwealth of the granting of coal and coke licenses.

Placed on file.

RAILROAD NOTICES.

Notice was received from the Railroad Commissioners of approval of 295th and 296th location of the West End Street Railway Company.

Notice was also received from the Railroad Commissioners of approval of 6th location, curved track corner of Washington and Grove streets, of the Old Colony Street Railway Company.

Notice was received from the Railroad Commissioners that public convenience and necessity do not require the construction of the Boston, Lowell and Lawrence Electric Railroad Company. Placed on file.

REPORT OF FINANCE COMMISSION.

Communication was received from the Finance Commission reporting on excessive salaries and superfluous employees.

Referred to the Committee on Appropriations, when appointed.

BOSTON WHARF COMPANY.

Notice was received from the Boston Wharf Company of acceptance of location for track across Congress street, Ward 13.

Placed on file.

SIDEWALK ASSESSMENTS.

Communications were received from the Superintendent of Streets giving the cost of constructing brick sidewalks in front of certain estates on Hampshire street, Ward 18, amounting to \$1,495.68, and on sundry streets in Ward 18, amounting to \$1,038.78, with orders that the persons named in the within schedules be and they hereby are charged and assessed with one half the sums set to their respective names as their proportional parts of the cost of constructing brick sidewalks with granite edgestones in front of their estates on said streets, and the same is ordered to be certified and notice given to the parties aforesaid.

Orders passed.

MINORS' LICENSES.

President Ballantyne submitted the applications for minors' licenses of forty-three newsboys and one bootblack.

The Board voted to grant the licenses.

THE PROCEEDINGS.

Coun. ATTRIDGE offered an order—That the contract formerly made with Edward W. Hamden to report the proceedings of the City Council, be continued until otherwise ordered, except that the yearly amount named in said contract as payment therefor be reduced from \$5,100 to \$3,000; the amount paid to be charged to the appropriation for City Council Proceedings, when made.

Passed.

DORCHESTER SANITARY YARD.

Coun. BRAND called up special assignment, viz.:

4. Ordered, That his Honor the Mayor be requested to direct the Superintendent of Streets to establish a yard of the Sanitary, Street Cleaning and Watering Divisions in the Dorchester district.

Passed.

RULES.

On motion of Coun. HALE the Council took up special assignment, viz.:

3. Report of the Committee on Rules, recommending the adoption of a draft of rules for the government of the City Council for the current year, as contained in City Document 44.

Coun. HALE moved to amend the rules as reported by inserting in the appropriate place in the committee list, under Rule 22, the following committees:

A committee on county accounts, to consist of three councillors; a committee on Faneuil Hall, to consist of three councillors.

Coun. BRAND offered an order—That the committee designated in the rules submitted as "Public Improvements" be and is hereby designated as the Executive Committee of the City Council.

The rules, with the proposed amendments, were referred to Committee of the Whole.

POSTAGE FOR CITY RECORD.

Coun. KENNY offered an order—That there be allowed and paid to the editor of the *City Record* the sum of one hundred dollars to meet the cost of postage on the mailing of the paper to subscribers; to be accounted for by vouchers filed with the City Auditor, and to be charged to the appropriation for Statistics Department, *City Record*, publication of.

Passed.

DUTIES OF CLERK OF COMMITTEES.

On motion of Coun. HALE the Council took up special assignment, viz.:

5. Ordered, That the Clerk of Committees already elected by the City Council shall have charge of the libraries in the rooms of the former Clerk of Committees Department; shall, when no other provision is made, act as the clerk of all committees, standing or special, of the City Council; shall make proper records in books kept for the purpose of all the proceedings and transactions of each committee; shall keep a calendar of all the meetings of each committee, and notify the members thereof of such meetings when requested so to do by the chairman or a majority of the committee; shall keep in the said libraries, which together shall be known as the City Hall Reference Library, a copy of the several publications issued by the city, and by every board and department thereof, and copies of publications presented to the City of Boston from other sources; and shall perform such other duties and services for said committees as they may, from time to time, require.

In connection with the above Coun. HALE offered the following as a substitute:

Ordered, That the Clerk of Committees already elected by the City Council shall have charge of the libraries in the rooms of the former Clerk of Committees Department; shall, when no other provision is made, act as clerk of all committees, standing or special, of the City Council; shall make proper records in books kept for the purpose of all the proceedings and transactions of each committee; shall keep a calendar of all the meetings of each committee, and notify the members thereof of such meetings when requested so to do by the chairman or a majority of the committee; shall keep in the said libraries, which together shall be known as the City Hall Reference Library, a copy of the several publications issued by the city, and by every board and department thereof, and copies of publications presented to the City of Boston from other sources; and shall perform such other duties and services for said committees as they may, from time to time, require; and may spend such money as may be necessary for the performance of his duties, subject to the approval of the City Council.

The order and substitute were referred, on motion of Coun. CURLEY, to Committee of the Whole.

DUTIES OF SERGEANT-AT-ARMS.

On motion of Coun. CURLEY, the Council took up special assignment, viz.:

6. Ordered, That the sergeant-at-arms already elected by the City Council shall have the care, custody and distribution of all documents, pamphlets and books printed for the City Council, and of all such documents, pamphlets and books formerly in charge of the City Messenger; shall attend all meetings of the City Council and committees thereof; shall, under the direction of the presiding officer, have the supervision of such chambers and rooms as may be assigned for the use of the City Council or any committee thereof; and shall perform all services required of him by the Mayor, the City Council and any committees thereof for the conduct of their affairs; shall have charge of all regular or special details of police for the preservation of order in City Hall; and may spend such money as may be necessary for the performance of his duties, subject to the approval of the City Council.

Referred, on motion of Coun. CURLEY, to Committee of the Whole.

ABOLITION OF GRADE CROSSINGS.

Coun. CURLEY offered the following:

Resolved, That the City Council of the City of Boston, acting as County Commissioners, is opposed to such modification in the plan, already adopted for the abolition of grade crossings of the Old Colony Railroad through Dorchester, as will tend to confine the ebb and flow of the tide, or in any way interfere with the water bed in Tenean creek, Dorchester district, such as would result from the construction of a conduit, instead of the bridge.

Resolved, That the City Clerk be directed to forward a copy of these resolutions to the Harbor and Land Commission.

Resolved, That the Corporation Counsel be requested to appear before commission to represent the city's interests.

The order was read a second time, and the question came on its passage.

The order was passed.

LABORERS IN PARK DEPARTMENT.

Coun. CURLEY offered an order—That his Honor the Mayor be requested to order the Park Commissioners to place the laborers in the Park Department on a permanent basis.

Passed.

STREET CLEANING YARD IN ROXBURY.

Coun. CURLEY offered an order—That the Superintendent of Streets, through his Honor the Mayor, be directed to take the steps necessary for the establishment of a municipal street cleaning yard in the Roxbury district.

Passed.

EXPENSES OF CLERK OF COMMITTEES AND SERGEANT-AT-ARMS.

Coun. CURLEY offered an order—That the salaries and authorized expenses of the Clerk of Committees and the sergeant-at-arms be charged to the appropriation for contingent expenses, City Council, when made.

Passed.

RECESS.

On motion of Coun. CURLEY, the Council voted at 3.37 p. m. to take a recess, subject to the call of the President, going into Committee of the Whole, and the President designated Coun. Buckley as chairman of that committee of this meeting.

The members reassembled in the Council Chamber and were called to order by President BALLANTYNE at 5.04 p. m.

REPORT ON RULES.

Coun. BUCKLEY submitted the following:

The Committee of the Whole, to whom was referred the report of the Committee on Rules and Orders by the government of the City Council for the present year, report the same in a new draft as follows:

Amend rules referred to below to read as follows:

Rule 22, as follows: The following standing committees of the Council and other committees, unless otherwise especially directed by the Council, shall be appointed by the Chair.

Section 1. A committee to be known as the Executive Committee of the City Council, to consist of all the members of the Council.

Section 2. A committee for the inspection of prisons to consist of all the members of the Council.

Section 5 amended to read as Section 7. A committee on legislative matters to consist of five councillors who shall, unless otherwise ordered, appear before committees of the General Court and represent the interests of the city; provided, said committee shall not appear, unless authorized by vote of the City Council, oppose any legislation petitioned for by the preceding City Council.

Section 6, original, stricken out.

Section 7, original, now Section 8, amended in the last line by striking out after the word the "Clerk of Committees" and substituting the words "City Messenger."

Rule 24. Second line strike out "four" and insert "three" so as to read "three weeks," instead of "four weeks."

Rule 27. After the words "City Council" in the third line, add "after due notice has been served upon abutters."

In the order relative to Clerk of Committees, duties, etc., add after the words City Council in the last line, "and that such money be provided from the City Council contingent fund," so that it will read as follows:

Ordered, That the Clerk of Committees already elected by the City Council shall have charge of the libraries in the rooms of the former Clerk of Committees Department; shall, when no other provision is made, act as the clerk of all committees, standing or special, of the City Council;

shall make proper records in books kept for the purpose of all the proceedings and transactions of each committee; shall keep a calendar of all the meetings of each committee, and notify the members thereof of such meetings when requested so to do by the chairman or a majority of the committee; shall keep in the said libraries, which together shall be known as the City Hall Reference Library, a copy of the several publications issued by the city, and by every board and department thereof, and copies of publications presented to the City of Boston from other sources; and shall perform such other duties and services for said committees as they may, from time to time, require, and that such money be provided from the City Council contingent fund."

On the order relative to sergeant-at-arms, to define duties of, Committee of the Whole report back in a new draft, striking out the words "sergeant-at-arms" in the first line and inserting the words "city messenger." After the word "Council," in the last line, add the following, "and that such money be provided from the City Council contingent fund," so that it will read as follows:

Ordered, That the City Messenger already elected by the City Council shall have the care, custody and distribution of all documents, pamphlets and books printed for the City Council, and of all such documents, pamphlets and books formerly in charge of the City Messenger; shall attend all meetings of the City Council and committees thereof; shall, under the direction of the presiding officer, have the supervision of such chambers and rooms as may be assigned for the use of the City Council or any committee thereof; and shall perform all services required of him by the Mayor, the City Council and any committees thereof for the conduct of their affairs; shall have charge of all regular or special details of police for the preservation of order in City Hall; and may spend such money as may be necessary for the performance of his duties, subject to the approval of the City Council, and that such money be provided from the City Council Contingent Fund.

Reports accepted, amendments as reported passed, and the rules as amended were adopted.

SETTLEMENT OF CLAIMS.

Coun. KENNY offered the following:

City of Boston.

In the Year Nineteen Hundred and Ten.

An Ordinance.

To Amend section 17 of chapter 3 of the Revised Ordinances of 1898.

Be it ordained by the City Council of Boston, as follows:

Section seventeen of chapter three of the Revised Ordinances of 1898 is hereby amended by striking out all of said section and substituting the following thereto:

Section 17. All claims against the city presented to the city council shall be referred to the law department for investigation. Every officer in charge of a department shall settle any claim or suit arising from any transaction, act or neglect of the department under his charge, provided that the settlement is approved by the corporation counsel and by the mayor, and can be effected for not exceeding the sum of five hundred dollars.

Referred to the Committee on Ordinances when appointed.

APPROVAL OF COMMISSIONER GALLIVAN'S APPOINTMENT.

Notice was received from the Civil Service Commission, approving the appointment of James A. Gallivan as Street Commissioner.

Placed on file.

APPOINTMENT OF COMMITTEES.

President BALLANTYNE stated that he was about to announce the appointment of standing committees of the City Council.

President BALLANTYNE read the list of committees, as follows:

Appropriations—All the members, Coun. Brand, Chairman.

Finance—All the members, Coun. Attridge, Chairman.

Executive Committee—All the members, Coun. Hale, Chairman.

On the following committees the first named member is Chairman.

Ordinance—Curley, Brand, Buckley, Hale, Attridge.

Claims—Buckley, Hale, Collins, Brand, McDonald.

Legislative Matters—Kenny, Collins, Brand, Buckley, Hale.

Public Lands—Collins, Attridge, Ballantyne, Printing—McDonald, Brand, Kenny.

County Accounts—Attridge, Kenny, Hale, Faneuil Hall—Curley, Attridge, Ballantyne.

Soldier's Relief—Hale, Buckley, Curley.

Prisons—All the members, Coun. Brand, Chairman.

ROPING OFF OF STREETS.

Coun. HALE offered an order—That the City Messenger be requested to cause the necessary roping off of streets or public grounds that may be required, and until otherwise ordered; the expense attending the same to be charged to the appropriation for City Council. Incidental expenses, when made.

Coun. HALE—Mr. President, I move that that be referred to the Executive Committee and that Corporation Counsel Babson be requested to appear at our next meeting with regard to the matter.

Coun. HALE'S motion was carried.

DISPLAY OF FLAGS.

Coun. HALE offered an order—That the City Messenger be requested to cause the flags to be displayed on the public flagstaffs during all holidays, until otherwise ordered; the expense attending the same to be charged to the appropriation for City Council, incidental expenses, when made.

Coun. HALE—Mr. President, I move that that also be referred to the Executive Committee.

Coun. BRAND—Mr. President, I would suggest that to-morrow is Washington's Birthday, a day when the flags are all displayed, and that the City Messenger be instructed to display the flags as usual on all public buildings.

President BALLANTYNE—The Chair will accept that as a motion when this order is acted upon.

The order was referred to the Executive Committee.

Coun. BRAND—Mr. President, I move that the City Messenger be requested to display the flags on all public places to-morrow, Washington's Birthday, and that the expense attending the same, including Washington's Birthday and Lincoln's Birthday, be charged to the City Council, Contingent Expenses.

Coun. Brand's motion was carried.

EIGHT HOUR BASIS FOR AMBULANCE DRIVERS.

Coun. CURLEY offered an order—That the Hospital Trustees be requested, through his Honor the Mayor, to place the men employed as ambulance drivers on an eight-hour basis and a salary of not less than \$2.50 per day.

Passed.

GENERAL RECONSIDERATION.

On motion of Coun. CURLEY, general reconsideration of all action taken to-day was refused.

LOCKER BUILDING, FRANKLIN FIELD.

The following was received:

Office of the Mayor,
Boston, February 21, 1910.

To the City Council:

I hereby recommend the passage of the accompanying loan order for \$4,500 for the completion of the locker building at Franklin Field.

This action is taken at the special request of his Honor Mayor Fitzgerald, in compliance with the recommendation of the Board of Park Commissioners in their letter of February 14 addressed to him.

The items covered by said loan as scheduled by the Park Commissioners in their letter are:

1. For concrete flooring and plastering in the basement of the locker building at Franklin Field, \$1,000.

2. For railings to the porch and balustrade and steps on the front walk or terrace of same, \$3,500.

Respectfully,

WALTER BALLANTYNE,
Acting Mayor.

In City Council,
Boston, February 21, 1910.

Ordered, That the sum of four thousand five hundred dollars (\$4,500) be appropriated, to be expended by the Park Department for the completion of the locker building at Franklin Field, and that to meet the said appropriation the City Treasurer be authorized to issue, on the request of the Mayor, bonds of the City of Boston for the said amount.

Referred to the Committee on Finance.

Adjourned, on motion of Coun. BRAND, at 5.22 p. m., to meet on Monday, February 28, at 3 p. m.

PLAYGROUND STATISTICS.

The year book of the Playground Association shows that 336 municipalities, out of 914 in the country having more than 5,000 population, now support playgrounds and there are in all 1,535 of these playgrounds.—*Pacific Outlook*.

PROCEEDINGS OF SCHOOL COMMITTEE.

Feb. 21, 1910.

A regular meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5.17 o'clock P.M.
Present: Messrs. Brock, Ellis, Lee and Scannell.

CHAIRMAN PRO TEMPORE.

Pending the arrival of the Chairman, the Board was called to order by Mr. George E. Brock, the senior member.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

TUNGSTEN LAMPS.

A communication was received from the Corporation Counsel, under date of Feb. 18, 1910, in response to the request of the Board at the meeting of Feb. 14, 1910 (see p. 15), for an expression of opinion as to whether the School Committee or the Schoolhouse Commission should assume the cost of the renewal of Tungsten lamps, stating that he is of the opinion that when the Board of Schoolhouse Commissioners has fully equipped a building with such lamps it has fulfilled its duty under the statute.

Placed on file.

The communication received from the Business Agent at the meeting of Nov. 15, 1909 (see p. 167), relative to the renewal of Tungsten lamps, was taken up and placed on file.

SUIT OF JOHN A. WHITTEMORE, COAL CONTRACTOR.

A communication was received from the Assistant Corporation Counsel, under date of Feb. 17, 1910, with reference to the suit of John A. Whittemore versus the City of Boston to recover for coal supplied to the School Committee under contract dated June 20, 1907, which coal proved to be of inferior and different quality than the contract called for, stating that he is of the opinion that while it is difficult to ascertain the precise balance which may be due the plaintiff, it would be best to compromise for the sum of two hundred dollars, and that, subject to the approval of the School Board, he has settled the case for that amount, and would recommend that payment be made accordingly.

Placed on file, and the settlement of the aforesaid matter as recommended by the Assistant Corporation Counsel approved.

ELECTRIC PLANT, ABRAHAM LINCOLN SCHOOL-HOUSE.

A communication was received from the Board of Schoolhouse Commissioners, under date of Feb. 14, 1910, submitting in response to the request of the School Board at the meeting of Feb. 7 (see p. 2), the report of their engineer on the establishing of an independent electric light plant, operated by a gas engine, in the Abraham Lincoln School-house.

Placed on file.

USE OF BATHS IN EAST BOSTON HIGH SCHOOL-HOUSE.

A communication was received from Lawrence M. Stockton, Vice Chairman of the Bath Department, under date of Feb. 17, 1910, transmitting a vote passed by the Bath Trustees requesting the School Committee to allow said Trustees to open the shower baths in the East Boston High School-house for the use of the general public during evenings between 6 and 10 o'clock, all day on Saturdays and until noon on Sundays, to the first of June, 1910.

Referred to the Superintendent for consideration and report.

DEATHS.

The Superintendent reported the deaths of the following named teachers:—

Public Latin School—Arthur I. Fiske, head-master, Feb. 19, 1910.

Trade School for Girls—Agnes Opdyke, vocational assistant, Feb. 11, 1910.

Placed on file.

RESIGNATION.

The following resignation, reported by the Superintendent, was presented:—

Placed on file.

LEAVES OF ABSENCE.

On the report of the Superintendent, leave of absence was granted each of the following-named teachers for the terms specified:—

Normal School—Laura S. Plummer, assistant, from Apr. 13 to 15, 1910, three days, without loss of pay.

Girls' Latin School—Mary D. Davenport, assistant, from Sept. 13, 1909, to Jan. 13, 1910.

Roxbury High School—Melville C. Freeman, junior-master, Feb. 11, 1910, one day, without pay; Florence E. Leadbetter, assistant, from Feb. 1 to 3, 1910, three days.

South Boston High School—Christina M. McCarthy, special assistant instructor, Feb. 14, 1910, one day.

Agassiz District—Isabelle H. Earnshaw, first assistant, kindergarten, Feb. 21, 1910, one day.

Christopher Gibson District—Lucy B. Conner, assistant, Feb. 14, 1910, one day; Marion E. Killion, assistant, Feb. 15 and 16, 1910, one half day each.

Dearborn District—Eloise B. Walcott, assistant, Jan. 12 and 13, 1910, two days.

Dillaway District—Lucia A. Ferguson, assistant, from Mar. 1 to May 1, 1910.

Dwight District—Mabel E. Latta, assistant, from Jan. 28 to Feb. 7, 1910, five days.

Eliot District—Mary V. Cunningham, assistant, Feb. 6, 1910, one day.

Emerson District—Harriet E. Litchfield, assistant, Feb. 10, 1910, one day; Ona I. Nolan, assistant, from Feb. 1 to 4, 1910, three days.

Everett District—Susan S. Foster, assistant, Jan. 27, 1910, one day; Emma F. Porter, assistant, Feb. 8, 1910, one-half day.

George Putnam District—Ellen E. Leach, assistant, from Jan. 12 to Feb. 7, 1910.

Hancock District—Catharine W. Fraser, assistant, Feb. 11, 1910, one day.

Harvard District—Louisa A. Whitman, assistant, Jan. 4, 1910, one-half day, and from Jan. 6 to Apr. 1, 1910.

John A. Andrew District—Mary E. Keohan, assistant, Feb. 2, 1910, one day.

Longfellow District—Leila R. Haynes, assistant, from Feb. 1 to July 1, 1910.

Martin District—Mary E. Harris, assistant, Feb. 7, 1910, one day; Mary C. Rogers, assistant, Feb. 14, 1910, one-half day.

Mary Hemenway District—Clara A. Perkins, assistant, kindergarten, Feb. 21, 1910, one day.

Oliver Wendell Holmes District—Josephine T. Sullivan, assistant, Feb. 7, 1910, one day.

Phillips Brooks District—Frances L. O'Connell, assistant, kindergarten, from Jan. 31 to Apr. 30, 1910.

Prescott District—Daisy G. Dame, first assistant, kindergarten, from Mar. 1 to June 1, 1910, without pay; Mary R. FitzGerald, assistant, from Jan. 12 to 15, 1910, three days.

Prince District—Helen M. Cobb, assistant, kindergarten, from Jan. 18, 1910, to Jan. 18, 1911, without pay.

Rice District—Julia M. Fitzpatrick, assistant, Feb. 7 and 11, 1910, one and one-half days.

Thomas Gardner District—Agnes A. Aubin, assistant, Feb. 15, 1910, one-half day; Carolyn B. Shattuck, from Mar. 1 to July 1, 1910.

Thomas N. Hart District—Emily E. Willett, first assistant, kindergarten, Feb. 21, 1910, one day.

Washington District—Theresa A. Dacey, assistant, Feb. 7, 1910, one day.

Washington Allston District—Helen E. Raymond, assistant, Feb. 7, 1910, one-half day.

William E. Russell District—Maud I. Carter, assistant, Feb. 7, 1910, one-half day.

Winthrop District—Marguerite C. Cronan, assistant, Feb. 10 and 11, 1910, two days.

Manual Training—Carrie A. Rogers, assistant instructor, Feb. 7, 14 and 21, 1910, without pay.

On the report of the Superintendent, leave of absence for travel and rest, under the provisions of section 317 of the regulations, was granted each of the following-named teachers for the terms specified:—

Bowdoin District—Serena F. Perry, assistant, from Mar. 5, 1910, to Mar. 5, 1911.

Mather District—Elizabeth Donaldson, first assistant in charge, from Sept. 1, 1910, to Sept. 1, 1911.

On motion of the Superintendent, it was

ORDERED. That the leave of absence granted at the meeting of Sept. 20, 1910, to Mary D. Davenport, assistant, Girls' Latin School, from Sept. 13, 1909, to Sept. 1, 1910, be, and hereby is, rescinded.

MINORS' LICENSES.

A communication was received from the Superintendent, under date of Feb. 21, 1910, recommending that, in accordance with applications which are on file in his office, minors' licenses be granted as follows:—

To sell newspapers, 79

To black boots, 4

Issue of licenses authorized accordingly.

ACTING MASTER. OLIVER HAZARD PERRY DISTRICT.

A communication was received from the Superintendent, under date of Feb. 21, 1910, reporting that he had designated Stanley A. Starratt, sub-master, to act as principal of the Oliver Hazard Perry District, to date from Feb. 21, 1910, during the absence of the master, and until the position is otherwise filled in accordance with the regulations.

Placed on file.

TEMPORARY SUB-MASTER, LEWIS DISTRICT.

On motion of the Superintendent, it was ORDERED, That while W. Stanwood Field, because of his services in connection with the continuation schools, is absent from his regular duties in the Lewis District, his place in that district be filled by the appointment of a temporary sub-master.

TEACHER OF AFTERNOON INDUSTRIAL CLASS, DORCHESTER HIGH SCHOOL.

A communication was received from the Superintendent, under date of Feb. 21, 1910, stating that subject to the approval of the Board, he had appointed Ludwig Frank, instructor in the Dorchester High School, as teacher of the afternoon class in industrial training in said school, for twenty-one lessons, beginning Sept. 27, and ending Dec. 3, 1909.

Placed on file, and the appointment approved.

RETIREMENT OF TEACHER ON PENSION.

The Superintendent offered the following:

ORDERED, That the following-named teacher be retired on pension in accordance with the provisions of chapter 589 of the acts of 1908, at the rate and from the date stated:—

Blackinton District—Ellen S. Bloomfield, from Feb. 11, 1910, \$120.

Passed, a majority of the Board voting in the affirmative.

ACTING PRINCIPAL, ELIOT EVENING SCHOOL.

A communication was received from the Superintendent, under date of Feb. 21, 1910, reporting that he had designated Joel W. Reynolds, first assistant in the Eliot Evening School, to act as principal of said school, from Feb. 21, 1910, and until the position is otherwise filled in accordance with the regulations.

Placed on file.

On motion of the Superintendent, it was ORDERED, That the compensation of Joel W. Reynolds, acting principal of the Eliot Evening school, be fixed at the rate of four dollars (\$4) per evening of service.

COMPENSATION OF PRINCIPAL OF ELIOT EVENING SCHOOL DURING ABSENCE.

A communication was received from the Superintendent, under date of Feb. 14, 1910, transmitting a communication addressed to him by the Principal of the Eliot Evening School, with reference to the deduction made from his pay because of absence on account of personal illness, the Superintendent suggesting the desirability of amending the regulations to allow principals a limited number of days' absence per year, without loss of pay.

Placed on file, and the following order offered:—

ORDERED, That the regulations be amended as follows:—

Section 344, paragraph 1. After the comma and before the word "shall" in the next to the last line thereof add the following:—(5) for absence on leave granted by the superintendent to principals of schools or districts not exceeding three days in each school year, or evening school term,—so that the paragraph will read as follows:—

Sect. 344. 1. The salaries of members of the supervising staff and of teachers absent from duty to visit other schools, not exceeding two days in each school year, or under leave granted by the superintendent (1) because of death in the immediate family of the teacher, for not more than five days, (2) to attend the funeral of

a teacher or school officer in the employ of the city, for not more than one day, (3) for service in teachers' institutes held under the direction of the state boards of education or to take part in teachers' associations, for not more than three days, (4) for court attendance on school business, (5) for absence on leave granted by the superintendent to principals of schools or districts not exceeding three days in each school year, or evening school term, shall be subject to no deduction for the period of absence.

Laid over.

ADVISORY COMMITTEE ON FURTHER USE OF SCHOOL BUILDINGS.

On motion of the Superintendent, it was ORDERED, That an Advisory Committee on the Further Use of School Buildings consisting of twelve members, be, and hereby is, established.

EVENING CLASSES IN ENGLISH FOR FOREIGN BORN PUPILS.

On motion of the Superintendent, it was ORDERED, That the Superintendent be, and hereby is, authorized to continue evening classes for the instruction in English of foreign born pupils after the close of the evening school term of 1909-10, at an expense not to exceed one thousand dollars (\$1000).

TEACHERS' COUNCIL ON PENSIONS.

A communication was received from the Superintendent, under date of Feb. 14, 1910, reporting that in accordance with the invitation of the Board issued at the meeting of Feb. 7 (see p. 9), the teachers now on leave of absence on three-fourths pay have elected Alfred Bunker as their representative to attend the meetings of the Teachers' Council on Pensions.

Placed on file.

BOWDOIN DORCHESTER SCHOOL FUND.

On motion of the Superintendent, it was ORDERED, That the Auditor be, and hereby is, authorized to expend the income and available cash on hand of the Bowdoin Dorchester School Fund for the benefit of the public schools in Dorchester and South Boston, as apportioned to said schools by the Board of Apportionment.

REPORT OF COMMITTEE ON VOCATIONAL ADVICE.

A communication was received from the Superintendent, under date of Feb. 21, 1910, transmitting a further report and recommendations from the Committee on Vocational Advice, relative to the employment of pupils after graduation from the public schools.

Laid on the table, and the Secretary directed to send a copy to each member of the Board, and to invite the Committee on Vocational Advice to appear before this Board at its next regular meeting at 8 o'clock P.M. for further consideration of the matter.

ASSISTANCE TO INSTRUCTOR IN PRINTING. PRE-APPRENTICE SCHOOL OF PRINTING AND BOOK- BINDING.

On motion of the Superintendent, it was ORDERED, That the acting principal of the Pre-Apprentice School of Printing and Bookbinding be, and hereby is, authorized to expend a sum not exceeding fifteen dollars (\$15) for assistance to the instructor in printing in that school.

SEATING CONDITIONS IN ELEMENTARY SCHOOLS.

A communication was received from the Superintendent, under date of Feb. 14, 1910, stating that the Department of School Hygiene has conducted a very careful investigation of the seating conditions in 1880 elementary school-rooms, and that it would appear that sufficient attention has not been given to the proper use of the furniture supplied; and recommending the passage of the following order:—

ORDERED, That the regulations be amended as follows:—

Section 217. Strike out the section and insert in place thereof the following:—

Sect. 217. 1. A register shall be kept in every school of the names, ages, dates of

admission, and places of residence of the pupils. Other records shall also be kept of the absence and tardiness of pupils, and of their advancement and standing.

2. Each pupil shall be seated in accordance with his physical requirements only, and not according to rank in scholarship or in conduct, or in both. Adjustable furniture shall be requested by the principal on regular requisition to the Schoolhouse Commission, so that the demands of those pupils unfitted by size for the standard fixed furniture may be met properly. All adjustable furniture shall be altered sufficiently often to meet the requirements of each pupil.

Re-number paragraphs 2 and 3 as paragraphs 3 and 4 respectively.

The communication was placed on file, and the order laid over.

ARRIVAL OF CHAIRMAN.

Mr. Ellis arrived and assumed the Chair.

TEMPERATURE OF SCHOOL ROOMS.

A communication was received from the Superintendent, under date of Feb. 14, 1910, transmitting a report from the Director of School Hygiene, showing the results of the investigation of the temperature in 1880 class rooms in elementary school districts, and stating that the investigation shows that a large number of the class rooms are maintained at a temperature both above and below that considered best for health and efficiency, namely, 67 degrees Fahrenheit, and recommending the passage of the following orders:—

ORDERED, That the regulations be amended as follows:—

Section 226. Strike out the section and insert in place thereof the following:

Sect. 226. 1. Teachers in elementary schools shall so arrange their daily exercises in their classes that each pupil shall have, each forenoon and afternoon, regular exercises from the course of study in physical education. These exercises shall be given between 10 o'clock A.M. and 10:10 o'clock A.M., and for a ten-minute period in the afternoon beginning 50 minutes after the afternoon session opens. The time designated for regular physical exercises shall be in addition to the time devoted in each session to recess. Windows shall be opened, top and bottom, for a sufficient portion of each period allotted to physical exercises to ensure the thorough flushing of each room with outside air.

2. Principals in each high school shall so arrange their daily exercises in the various classes that each pupil shall have, each forenoon, a ten minute setting-up drill. This exercise should occur between periods two and three. The time designated for this physical exercise shall be in addition to the time devoted to regular lessons in physical training required by the course of study. Windows shall be opened top and bottom, for a sufficient portion of each period allotted to the setting-up drill to ensure the thorough flushing of each room with outside air.

ORDERED, That the regulations be amended as follows:—

Section 231. Strike out the section and insert in place thereof the following:

Section 231. 1. Teachers shall at all times give vigilant attention to the ventilation and temperature of their classrooms to the end that the air be kept pure, and the temperature maintained as near 67 degrees Fahrenheit as possible.

2. They shall record the temperature of each room, each session, in a permanent form accessible to inspection, the reading to be made and recorded at a time midway between the opening of the session and the time for physical exercises or recess.

3. They shall thoroughly air each classroom by opening the windows, top and bottom, a sufficient portion of each recess period and of the period allotted to physical exercises, so as to ensure the flushing of each room with fresh air from outside the building.

4. They shall thoroughly air each classroom and dressing-room by opening the windows, top and bottom, at the close of the forenoon session for a period of not less than three nor more than ten minutes.

5. Any failure of adjustment of the heating and ventilating apparatus to meet the prescribed requirements shall be immediately reported by the teacher to the principal or teacher in charge, who shall report the same, in writing, immediately to the Director of School Hygiene.

Section 255. Number the present section as paragraph 1 and add paragraph 2:—

2. They shall report to the Director of School Hygiene immediately any failure of the heating and ventilating system to meet the prescribed requirements.

ORDERED. That the Rules for Janitors, Engineers and Matrons be amended as follows:—

Rule 30. Strike out the present rule and insert in place thereof the following:—

Rule 30. Janitors shall have the temperature of every room occupied for school purposes at not less than 60 degrees F. at 8:30 o'clock A. M., each school day, and shall maintain the temperature in such rooms as near 67 degrees Fahrenheit as possible during the hours of session, except during periods allotted to physical exercises and recesses.

Janitors shall bank their fires one-half hour after the close of the regular school hours in elementary schools, and not before half past three in the high schools.

Rule 31. Strike out the rule and insert in place thereof the following:—

Rule 31. Janitors shall have the ventilating apparatus in full and complete operation as early as 8:30 o'clock A. M., and shall run the same to its full capacity during the hours of sessions, except during the periods allotted to physical exercises and recesses, during which periods the windows are to be opened top and bottom.

Rule 32. Strike out the rule and insert in place thereof the following:—

Rule 32. Janitors shall thoroughly air out all buildings by opening the windows and doors of class-rooms at the close of the afternoon session and also at the close of the evening session, if any be held.

They shall thoroughly air each room or basement used as a lunch room by the opening of windows for a period of not less than five minutes terminating ten minutes before the beginning of the regular lunch period.

Rule 34. Strike out the rule and insert in place thereof the following:—

Rule 34. Janitors are required to be careful and economical in the use of fuel and other supplies; and shall make a monthly report to the Schoolhouse Custodian of the quantity of fuel on hand in their respective buildings and an estimate of the amount which will probably be consumed during the six weeks following. They are reminded, however, that the committee does not desire the saving of fuel at the expense of the health of pupils by failure to provide a sufficient amount of heat and of fresh air in class rooms.

The communication was placed on file, the Secretary directed to send a copy thereof to each member of the Board, and the orders were laid over.

SALARIES OF TEACHERS OF SPECIAL CLASSES.

A communication received from the Superintendent, under date of Feb. 19, 1910, transmitting a communication received from Mary A. Stillman and eight other teachers of special classes, requesting that when the question of increasing the salaries of teachers is taken up, they also be given consideration.

Laid on the table.

SALARY OF SUPERVISOR OF HOUSEHOLD SCIENCE AND ARTS.

A communication was received from the Superintendent, under date of Feb. 21, 1910, transmitting a communication from the Supervisor of Household Science and Arts, requesting that the salary for her position be increased.

Laid on the table.

COURSE OF STUDY FOR EVENING INDUSTRIAL SCHOOLS.

A communication was received from the Board of Superintendents, under date of Feb. 21, 1910, as follows: The Course of Study for the Evening Industrial Schools is planned to meet, so far as possible, the present industrial conditions. The character of the instruction is shaped to meet the practical needs of the individual pupil and class work is, of necessity, limited. The Board is, therefore, of the opinion that it is advisable to discontinue the issue of diplomas to pupils of the Evening Industrial Schools, and recommends that hereafter no diplomas be issued, but that instead thereof certificates be granted to those pupils who satisfactorily complete at least two years' work.

Placed on file, and the recommendation adopted.

OPEN-AIR INSTRUCTION.

A report was received from the Board of Superintendents, under date of Feb. 14, 1910, relative to open-air instruction, containing the following recommendations:—

(a) That an experimental open-air room be provided in the Hancock and in the Quincy Districts. That under such conditions as the Assistant Superintendent in charge may find feasible, one or more open-air rooms be provided in the Wells District and one additional room in the Hancock District.

That in the Thomas Gardner District permission be granted to establish a cookery class for mothers of anaemic children.

That a special teacher of cookery be authorized to instruct this class. That the class be held at hours convenient for its members. That the district nurse be directed to encourage home application of instruction received in this class and report monthly to the Principal in regard to the changes in the physical condition of the children whose mothers attend this class. That an amount not exceeding \$5 per month be authorized for the purchase of materials for the use of this class.

That in the Dillaway District a class of not more than thirty pupils be housed in the second story room of the Old Thornton-street School. That this room be supplied with hinged windows and that the teacher be directed to open these windows at least every thirty minutes for a five minute recess.

(b) The Board further recommends that the matter of the expense of renting and of fitting up suitable rooms in the above-mentioned districts be referred to the Schoolhouse Commission.

(c) That the Board of Superintendents be authorized to co-operate with organizations expressing a willingness to furnish food or milk at cost.

(d) That the Director of School Hygiene be authorized to assign special duties to the nurses in districts where open-air classes are established.

(e) That the services of an extra teacher be authorized in districts where the organization is such as would be seriously affected by the establishment of an open-air class.

(f) That principals be directed to continue authorized experiments now in operation for the purpose of improving the conditions of anaemic children in their districts.

(g) That the experiment now in operation in the Prescott District for the purpose of improving the condition of anaemic children be continued, and that the Schoolhouse Commission be requested to provide suitable awnings therefor.

(h) The Board of Superintendents asks permission to offer at a later date further recommendations with reference to open-air rooms.

The report was placed on file, the recommendations appended thereto adopted, and the Superintendent requested to carry them into effect as soon as possible.

TEMPORARY ASSISTANT, SECRETARY'S OFFICE.

On motion, it was

ORDERED. That the employment of a temporary assistant be, and hereby is, allowed in the office of the Secretary for a period not exceeding one month, whose compensation shall be at the rate of fifty dollars (\$50) per month.

SALARIES OF TEACHERS.

A report was received from the Business Agent, under date of Feb. 19, 1910, on the communication referred to him at the meeting of Jan. 3, 1910 (see p. 196), from Charles J. Lincoln, representing the teachers of the city, with reference to teachers whose salaries are fixed on a yearly basis payable monthly and who die before the end of August being entitled to a certain proportion of the July and August salary which they would otherwise have earned.

Placed on file, and the Secretary directed to send a copy to Charles J. Lincoln, and to inform him that the Committee will be glad to receive any further views from the committee of teachers on this subject.

SALARIES OF TEACHERS ABSENT WITHOUT PAY.

A communication was received from the Business Agent, under date of Feb. 17, 1910, with reference to deductions from the sal-

aries of teachers who are absent without pay, and recommending that the regulations be amended to provide that teachers absent without pay for one year shall receive no compensation during that period, that teachers absent on leave for less than one year shall lose one-two hundredth part of their annual salary for each day's absence from duty, including days on which regular school sessions may be suspended, and in the event of such deduction in any one month exceeding the salary for the month, that the balance shall be deducted from the salary for any succeeding month.

Placed on file.

The following order was offered:—
ORDERED. That the regulations be amended as follows:

Section 345, paragraph 2. Renumber as 3, and insert the following:

2. Teachers absent from duty on leave, without pay, for one year shall receive no compensation during such period. The salaries of teachers absent from duty on leave, without pay, for a period of less than one year shall be subject to a deduction of one two-hundredth part of the annual salary of the absentee for each day's absence, including days on which regular school sessions may be suspended, provided that in the event of such deduction exceeding the salary for the month from which the deduction is made, the balance shall be deducted from the salary for any succeeding month.

Laid over.

TEMPORARY ASSISTANT, BUSINESS AGENT'S OFFICE.

A communication was received from the Business Agent, under date of Feb. 17, 1910, reporting that pursuant to the order of the Board at the meeting of Feb. 14, 1910, he had appointed Anna J. Harmon, who has been duly certified by the Civil Service Commission, as a temporary assistant in his office, to date from Feb. 15, 1910.

Placed on file, and the appointment approved.

On motion, it was

ORDERED. That the salary of Anna J. Harmon, temporary assistant in the office of the Business Agent, is hereby fixed at the rate of two dollars (\$2) per day of actual service.

DEATH OF A JANITOR.

A communication was received from the Schoolhouse Custodian, under date of Feb. 21, 1910, reporting the death on Feb. 7, 1910, of Christopher P. Curtis, janitor of the Nathan Hale School-house.

Placed on file.

SALARY DUE CHRISTOPHER P. CURTIS.

On motion, it was

ORDERED. That the salary due Christopher P. Curtis, late janitor of the Nathan Hale School-house, be paid to his son, Ibr W. H. Curtis.

JANITORSHIP. NATHAN HALE SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Feb. 21, 1910, submitting a list of applicants for transfer to the janitorship of the Nathan Hale School-house, and recommending the transfer of Frank W. Munroe, janitor of the Miles Standish School-house, who stands at the head of the list, to the position, to date from Feb. 27, 1910.

Placed on file, and the transfer of Frank W. Munroe to said position approved, from the date stated.

JANITORSHIPS. COMMON-STREET SCHOOL-HOUSE AND HUTCHINGS STREET PORTABLES.

A communication was received from the Schoolhouse Custodian, under date of Feb. 21, 1910, stating that there are no applicants in the service for transfer to the janitorships of the Common-street School-house and Hutchings-street Portables Nos. 41, 102, 103 and 105, and recommending that requisition be made upon the Civil Service Commission for the names of candidates eligible to fill these vacancies.

Placed on file, and the Secretary directed to make requisition upon the Civil Service Commission accordingly.

JANITORSHIP, WARREN SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of Feb. 21, 1910, recommending that Thomas F. Powell, janitor, who is unassigned to any school building, be temporarily appointed to the janitorship of the Warren School-house, during the absence on leave of the regular janitor, to date from Feb. 22, 1910.

Placed on file, and the temporary appointment approved.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of Feb. 21, 1910, submitting a list of temporary appointments, reappointments and transfer of janitors, for periods of ten days or less, and amounts due for such services, as follows:—

Common-street School-house—John Hoey, appointed Feb. 13, 1910; amount due from Feb. 13 to 21, 1910, inclusive, \$11.80.

Cook School-house and Portable No. 40—Charles Timmins, amount due from Feb. 8 to 12, 1910, inclusive, \$7.42.

Emerson School-house and Portable No. 55—Edward Hackett, reappointed from Feb. 9 and from Feb. 19, 1910, amount due from Feb. 8 to 21, 1910, inclusive, \$22.68.

Florence-street School-house—Frank Gallagher, reappointed from Feb. 5, 1910; amount due from Feb. 8 to 12, 1910, inclusive, \$9.12.

Hutchings-street Portables Nos. 41, 102, 103 and 105—John Powers, reappointed from Feb. 13, 1910; amount due from Feb. 8 to 21, 1910, inclusive, \$18.46.

Joy-street Portables Nos. 97, 98, 99 and 100—Henry T. Brennan, reappointed from Feb. 13, 1910; amount due from Feb. 8 to 21, 1910, inclusive, \$18.46.

Nathan Hale School-house—Patrick J. White, reappointed from Feb. 17, 1910; amount due from Feb. 7 to 21, 1910, inclusive, \$39.36.

Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42—William H. Johnson, amount due from Feb. 8 to 12, 1910, inclusive, \$21.58; Charles Timmins, appointed from Feb. 13, 1910; amount due from Feb. 13 to 21, 1910, inclusive, \$38.84.

Stephen M. Weld School-house—John Hoey, amount due from Feb. 7 to 12, 1910, inclusive, \$12.03.

Warren School-house—Thomas F. Powell, reappointed from Feb. 9 and from Feb. 19, 1910; amount due from Feb. 8 to 21, 1910, inclusive, \$39.70.

Wendell Phillips District—Michael E. Colleary, temporary transfer extended from Feb. 9 and from Feb. 19, 1910; amount due from Feb. 8 to 21, 1910, inclusive, \$38.

Placed on file, and the reappointments and transfer approved.

On motion, It was

ORDERED, That for services rendered as acting janitors of various school-houses, payments be made as follows:—

To Henry T. Brennan, Joy-street Portables Nos. 97, 98, 99 and 100, from Feb. 8 to 21, 1910, inclusive, eighteen and 46-100 dollars (\$18.46).

To Michael E. Colleary, Wendell Phillips School-house, from Feb. 8 to 21, 1910, inclusive, thirty-eight dollars (\$38).

To Frank Gallagher, Florence-street School-house, from Feb. 8 to 12, 1910, inclusive, nine and 12-100 dollars (\$9.12).

To Edward Hackett, Emerson School-house and Portable No. 55, amount due from Feb. 8 to 21, 1910, inclusive, twenty-two and 68-100 dollars (\$22.68).

To John Hoey, Common-street School-house, from Feb. 13 to 21, 1910, inclusive, eleven and 80-100 dollars (\$11.80); Stephen M. Weld School-house, from Feb. 7 to 12, 1910, inclusive, twelve and 3-100 dollars (\$12.03).

To William H. Johnson, Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42, from Feb. 8 to 12, 1910, inclusive, twenty-one and 58-100 dollars (\$21.58).

To Thomas F. Powell, Warren School-house, from Feb. 8 to 21, 1910, inclusive, thirty-nine and 70-100 dollars (\$39.70).

To John Powers, Hutchings-street Portables Nos. 41, 102, 103 and 105, from Feb. 8 to 21, 1910, inclusive, eighteen and 46-100 dollars (\$18.46).

To Charles Timmins, Cook School-house and Portable No. 40, from Feb. 8 to 12, 1910, inclusive, seven and 42-100 dollars (\$7.42); Nathaniel Hawthorne and Howard-avenue and Annex School-houses and Portable No. 42, from Feb. 13 to 21, 1910, inclusive, thirty-eight and 84-100 dollars (\$38.84).

To Patrick J. White, Nathan Hale School-house, from Feb. 7 to 21, 1910, inclusive, thirty-nine and 36-100 dollars (\$39.36).

CHARLESTOWN FREE SCHOOL FUND.

Mr. Brock, as Treasurer of the Corporation, submitted a statement of the receipts and expenditures of the Charlestown Free School Fund for the year ending Jan. 31, 1910, the balance to new account being \$8,807.93.

Placed on file, and the Chairman authorized to approve the same, and to verify the sums and securities belonging to said fund and in the possession of the Treasurer.

PHYSICAL EXAMINATION OF NORMAL SCHOOL PUPILS.

A communication was received from Wallace C. Boyden, in behalf of the faculty of the Normal School, under date of Feb. 18, 1910, recommending that a medical examination be required of candidates for admission to the Normal School, which shall determine whether they have any disease or physical defect which is likely to interfere with their success as teachers, and that a similar physical certificate be required for graduation from said school.

Referred to the Board of Superintendents for consideration and report, and the Secretary directed to thank the faculty of the Normal School for its suggestion in this matter.

MEASUREMENTS OF SCHOOL CHILDREN.

A communication was received from Dr. W. T. Porter, Consulting Physiologist, under date of Feb. 14, 1910, with reference to the plan for measuring school children, stating that the scales and measuring rods will probably be ready for use this month, that the five year old children should be measured in September, January and May, and that it will be necessary to make the first measurements in September, 1910; meanwhile, the scales and rods may be used to advantage in selecting physically defective children in accordance with the plans of the Medical Director.

Placed on file.

COLLEGE DEGREES COUNTING TOWARDS PROMOTIONAL EXAMINATIONS.

A communication was received from James H. Ropes, Chairman of Commission on Extension Courses, under date of Feb. 16, 1910, stating that a commission representing Harvard College, the other colleges in the neighborhood, the Massachusetts Institute of Technology, and the Museum of Fine Arts, is trying to organize a system of extension collegiate courses to be given in Boston, which would serve the special needs of teachers in their desire for further advanced education, and that in accordance with the rules of the School Committee relative to promotional examinations, it is essential that these courses should be accepted toward a degree by some college. It has therefore been proposed that Harvard and some of the other institutions should offer the degree of Associate in Arts, and the Commission desires to know if this would meet the views of the School Committee.

Referred to the Board of Superintendents for consideration and report.

INJURY TO MARGARET MCCOY.

A communication was received from Matthew Hale, under date of Feb. 14, 1910, with reference to injury sustained by Margaret McCoy, formerly kindergarten attendant in the service of the city.

Referred to the Secretary for investigation and report.

USE OF HALL OF JOHN A. ANDREW SCHOOL-HOUSE.

A communication was received from Mortimer L. Berkowitz, Executive Secretary of the United Improvement Association, under date of Feb. 18, 1910, calling attention to an application of the Andrew Square Improvement Association for the use of the hall in the John A. Andrew School-house on the first Monday in each month, and desiring to know if it is planned to have lighting fixtures installed in this building, and if it could not be done at an early date.

Laid over for further consideration, and the Secretary directed to ascertain what the plans of the Schoolhouse Commission are with regard to providing artificial lighting for the hall of this school-house.

LUNCH SERVICE IN SCHOOL BUILDINGS.

A communication was received from Joseph A. Cahalan, Robert F. Waul and William L. Doonan, under date of Feb. 21, 1910, requesting a public hearing before the School Board takes action with reference to the bill before the Legislature relative to the payment of license fees by applicants for the use of lunch rooms in school buildings.

Mr. Cahalan appeared and was heard with reference to this matter.

The communication was thereupon placed on file, and the Secretary directed to request the committee of head-masters having charge of the lunch service to make a detailed report thereon, and also to request the Women's Educational and Industrial Union to furnish a financial statement with regard to the service furnished by that organization.

COMPENSATION OF TRAINING TEACHERS.

Gertrude E. Bigelow, Supervisor of Practice in the Normal School, appeared and was heard on the question of payment of training teachers.

Laid on the table.

ANNUAL APPROPRIATION ORDER.

The Board took up for consideration the annual appropriation order, prepared and submitted by the Auditor in accordance with the rules, as follows:—

SCHOOLS.

Appropriation, 1909-1910.

To the School Committee:—

The undersigned would state that the Board of Assessors has certified that the average taxable valuation of the city on which the sum allowed the School Committee is based amounts to \$1,323,892,973.85.

In addition to forty cents on each \$1000 of the valuation, which may be appropriated solely for new school buildings, lands, yards and furnishings, which can be appropriated later and is not waived by the present budget, the School Committee is authorized by statute to appropriate "for the support of the public schools", "for repairs and alterations of school buildings", and to provide for the payment of pensions to teachers, three dollars and thirty-one cents (\$3.31) upon each \$1000 of the taxable valuation of the city. This amount's this year to \$4,382,085.74. The School Committee may also appropriate:—

Estimated income for 1910-1911.....	\$60,203.16
Unexpended balance, 1909-1910.....	7,920.05
Excess of income over amount estimated 1909-10	4,791.04
	\$72,914.26

Of the amount appropriated last year solely for pensions to teachers, the unexpended balance, \$56,968.07, has been transferred to the permanent investment fund. Last year \$62,213.01 was transferred to said fund, making the total amount invested \$119,181.08. The unexpended balance, on Physical Education, \$25.48, may be used in addition to the four cents on each thousand dollars of the valuation allowed by law each year. The total amount which the School Committee and the Schoolhouse Commission may expend for carrying on the schools, and for the maintenance of school buildings (excluding pensions) during the current year is \$4,388,830.83. Of this amount not less than \$330,973.24 (being twenty-five cents on each thousand dollars of the valuation) must be appropriated solely for repairs and alterations of school buildings, \$52,955.72 may be appropriated solely for expenditures pertaining to Physical Education, as authorized by Chapter 295 of the Acts of 1907, and can be appropriated for no other purpose. In addition to this amount a further sum of \$15,000 is appropriated under the head of Physical Education, "Special", to pay salaries of additional instructors, and equipment that may be needed in that department. As authorized by Chapter 589 of the Acts of 1908 the sum of \$66,194.65 is appropriated for the payment of pensions to teachers in the public day schools.

The appropriation as recommended is based upon the following:—

\$2.95 per thousand on	\$1,323,832,973.85
"Ordinary"	\$3,905,484 27
.25 per thousand, "Repairs," etc.	330,973 24
.04 per thousand, Chapter 285, Acts of 1907, "Physical Education"	52,955 72
.02 per thousand, Chapter 357, Acts of 1907, "Appointment of Nurses"	26,477 86
.05 per thousand, Chapter 589, Acts of 1908, "Pensions to Teachers"	66,194 65
Unexpended balance, 1909-10, general appropriation	7,920 06
Excess of income over amount estimated, 1909-10	4,791 04
Estimated income for 1910-11	60,203 16
	\$4,455,000 00

The amount of money available the coming year, exclusive of what is set aside for pensions, and what is allowed the Schoolhouse Commission for rents and repairs of school-houses will permit of an increase in expenses of \$186,561.60. The action of the Legislature the past year in allowing the School Committee to appropriate for school purposes a larger portion of the tax levy than formerly will enable the Committee to take care of the annual increased expenses occasioned by additional pupils, be more liberal in the furnishing of supplies, and also enlarge to some extent its sphere of action in the line of industrial education.

In accordance with Section 1, Chapter 418 of the Acts of 1901, and acts in addition thereto or amendments thereof, the passage of the accompanying order is recommended.

Respectfully submitted,
William J. Porter,
Auditor.

BASIS FOR APPROPRIATIONS RECOMMENDED, 1910-1911.

Salaries of Instructors. Normal School.

1 Head-master	\$3,780
1 Master	3,204
1 Master, Head of Department	2,916

Pensions to teachers.....	66,194 65
Repairs and alterations of school buildings.....	331,000 00
Rents of hired school accommodations.....	25,000 00

Total amount appropriated.....\$4,455,000 00

The order passed by the following vote:—
Yeas—Messrs. Brock, Ellis, Lee and Scannell—4.
Absent—Mr. Magenis—1.

RECESS.

The Board took a recess at 7.05 o'clock P.M.

The members of the Board reassembled in the School Committee Chamber at 8:22 o'clock P.M., and were called to order by the Chairman.

SALARIES OF EMPLOYEES, SUPPLY DEPARTMENT.

On motion, it was

ORDERED, That from and after Mar. 1, 1910, the salaries of the following-named employees in the Supply Department be respectively established at the rates per annum hereinafter stated: Fred L. Wetherbee, assistant, fifteen hundred dollars (\$1,500); Frank L. Kelliher, assistant, ten hundred twenty dollars (\$1,020); William L. Reardon, messenger, nine hundred sixty dollars (\$960); James E. Gannon, messenger, six hundred dollars (\$600).

On motion, it was

ORDERED, That the salary of Amos M. Keirstead, assistant in the Supply Department, be at the rate of three thousand one hundred and eighty dollars (\$3,180) per annum, to date from Mar. 1, 1910, and said Keirstead shall furnish at his own ex-

pense, in connection with the delivery of supplies, one assistant, two horses, and two wagons.

GEORGE T. ANGELL DRINKING FOUNTAIN FUND.

A communication was received from Isabelle Stone, under date of Feb. 21, 1910, with reference to an entertainment for the benefit of the fund for the drinking fountain to be erected in honor of the late George T. Angell, and requesting the aid of the School Board in placing at the disposal of the committee as many children as possible from the public schools.

Referred to the Superintendent with full powers.

AMENDMENTS TO RULES AND REGULATIONS.

The order offered at the meeting of Feb. 14, 1910 (see p. 13), amending section 138, paragraph XI., of the rules, relative to special certificates, was taken up and passed.

The order offered at the meeting of Oct. 18, 1909 (see p. 141), amending section 344, paragraph 5, of the regulations, relative to the salaries of teachers, etc., absent without leave, was taken up and passed.

COMPENSATION OF JANITORS.

The communications received from William M. Kendrick, Secretary of the Janitors' Association of the Boston Public Schools, at the meeting of Jan. 17, 1910 (see p. 203), relative to a ten per cent increase in the salaries of janitors based on the present schedule, and to compensation for inside window cleaning, use of halls, etc., were taken up, and the Secretary was directed to notify the Arbitration Committee of the Janitors' Association that said committee will be given a hearing at the next regular meeting instead of at the meeting which it was proposed to hold on Monday, Feb. 28.

SWIMMING POOL, HIGH SCHOOL OF COMMERCE AND SCHOOL ADMINISTRATION BUILDING.

A communication was received from Frederick P. Fish, under date of Feb. 11, 1910, with reference to including a swimming pool in the plans for the High School of Commerce and School Administration Building.

Placed on file.

EXECUTIVE SESSION.

The Board went into executive session. The doors were opened.

ADDITIONAL SCHOOL ACCOMMODATIONS.

A communication was received from the Superintendent, under date of Feb. 21, 1910, as follows:—

Additional school accommodations are needed in the city of Boston first to provide for present requirements and second to provide for future growth. These additional accommodations are needed in order to increase the efficiency of the schools by preventing the assignment of an excessive number of pupils to any teacher; to protect the health of the children, by discontinuing the use of unsanitary and poorly lighted buildings; and to serve the convenience of citizens, by locating schools so that they are reasonably accessible.

I. Buildings are needed for present requirements as follows:—

1. To provide for the reduction of all regular classes in elementary schools to 41 pupils per teacher. The schools cannot be expected to do efficient work with classes ranging from 50 to 70 pupils to a teacher as is now the case in many places.

2. To provide for the abandonment of rented quarters for which the city will expend during the present year approximately twenty-five thousand dollars (\$25,000). Stores, halls and churches are seldom properly ventilated or lighted for school purposes, and at the best are very unsatisfactory and undesirable. Permanent accommodations should be provided not only for the purpose of saving the money now expended for rentals but also for the purpose of protecting the health of the pupils.

3. To provide for the removal of children from the basements, corridors and halls of school-houses. The heating, light-

ing and ventilation of these temporary school rooms are far below the standard required for good health. The use of the school hall for class room purposes interferes seriously with many important activities and influences of the school.

4. To provide for a reduction in the number of portables. A portable building, when suitably located, furnishes a fairly satisfactory school room. The shifting of population and the gradual growth in school attendance will always make it necessary to use some portables. It is evident, however, that when the number of pupils housed in portables in a single district is sufficient to fill a regular building, such a building should be erected.

5. To provide for the abandonment of old buildings that are in varying degrees unsatisfactory, unsafe and unsanitary. There are some buildings that undoubtedly should be immediately abandoned and many others that will soon reach the limit of proper service.

Buildings have been authorized as follows:—

	Rooms	Rooms needed now	Rooms for growth
1. Adams	14	11	3
2. Abraham Lincoln	40	40	0
3. Hyde-Sherwin	16	16	0
4. Lewis	10	10	0
5. Wendell Phillips	17	17	0
Rooms for future growth			3

*Will accommodate four rooms from Dearborn.
**Will provide for relief of Lewis, 4 rooms; Phillips Brooks, 2 rooms; Christopher Gibson, 3 rooms; and George Putnam, 1 room.
***Will provide for abandonment of 2 rooms in the Sharp, 1 room in the Grant, and 4 rooms in the Somerset.

In addition to new buildings already authorized or in process of construction, additional rooms are needed for the purposes outlined above, as follows:—

Location	Rooms
East Boston	29
Charlestown	19
North End	17
West End	21
City Proper	3
South End	15
South Boston	21
Roxbury	22
Roxbury	3
West Roxbury	36
Dorchester	189

In order to provide these rooms, I recommend that new buildings be erected as indicated below. Since the erection of a new building will often render necessary a change of district lines, the necessity for these buildings must be determined by considering the whole section affected, and not by taking into account the needs of a single district only. Since none of these buildings will be ready for occupancy prior to Sept. 1, 1911, and others not until Sept. 1, 1913, it is evidently desirable that each building exceed slightly the present requirements, in order to provide for the probable growth of the district during the next three years. Consideration has also been given to the standard size of buildings that the Schoolhouse Commission has found to be economical in construction. All rooms provided in these buildings in excess of present requirements are accounted for later in the discussion of provisions for future growth. The cost of the buildings themselves may be estimated with reasonable accuracy. The size of school yards vary from 30,000 to 45,000 square feet each, and the cost must necessarily be an estimate, based upon previous experience in the purchase of land in the localities indicated. These recommendations have been carefully considered and represent my best judgment upon the facts now available. The list should be considered, however, merely as a tentative program for action, subject to such later modification as varying conditions may from time to time render desirable.

NEW BUILDINGS RECOMMENDED

District, size and cost:—

EAST BOSTON:—	
Blackinton, 9 room annex. Building.	\$90,000
Land owned.	
Chapman-Emerson, 12 room lower elementary. Building.	\$80,000. Land, \$30,000.
Lyman, 16 room upper elementary. Building.	\$118,000. Land, \$40,000.
CHARLESTOWN:—	
Prescott, 16 room upper elementary. Building.	\$118,000. Land, \$40,000.
—, 8 room lower elementary. Building.	\$55,000. Land, \$30,000.

NORTH END:—

Elliot, 10 room lower elementary. Building. \$65,000. Land, \$30,000.
Hancock, 10 room lower elementary. Building. \$65,000. Land, \$30,000.

WEST END:—

W. Hs-Washington, 20 room lower elementary. Building. \$150,000. Land, \$150,000.

SOUTH END:—

Franklin-Quincy, 16 room lower elementary. Building. \$105,000. Land, \$70,000.

SOUTH BOSTON:—

Hart-Perry, 10 room lower elementary. Building. \$65,000. Land, \$20,000.
—, 12 room lower elementary. Building. \$80,000. Land, \$30,000.

ROXBURY:—

Dwight-Everett, 8 room lower elementary. Building. \$55,000. Land, \$15,000.
Comins, 10 room lower elementary. Building. \$55,000. Land, \$30,000.
Lewis, 16 room upper elementary. Building. \$118,000. Land, \$30,000.
Hugh O'Brien, 16 room upper elementary. Building. \$118,000. Land, \$40,000.
Phillips Brooks, 12 room lower elementary. Building. \$80,000. Land, \$20,000.

BRIGHTON:—

Bennett, 4 room lower elementary. Building. \$16,000. Land, \$15,000.
Washington Allston, 4 room lower elementary. Building. \$16,000. Land, \$15,000.

WEST ROXBURY:—

Longfellow, 4 room lower elementary. Building. \$16,000. Land, \$15,000.
Robert G. Shaw, 4 room lower elementary. Building. \$16,000. Land owned.
Lowell, 4 room lower elementary. Building. \$16,000. Land, \$15,000.

DORCHESTER:—

Edward Everett, 6 room lower elementary. Building. \$42,000. Land owned.
Roger Wolcott, 16 room upper elementary. Building. \$118,000.
—, 8 room lower elementary. Building. \$55,000. Land, \$15,000.
—, 10 room lower elementary. Building. \$65,000. Land, \$15,000.
Total number rooms, 261. Total cost, \$2,432,000.

*Location to be determined by future growth.
This program, if carried into effect, will provide 261 rooms, of which 149 are needed now, leaving 112 rooms for future growth, or including the 3 rooms in the Adams District, a total of 75 rooms for future growth. It will also permit the discontinuance of all the following buildings not later than Sept. 1, 1913, and of some of them at a much earlier date.

Austin	6 rooms
Prescott and annex	12 rooms
Portland	6 rooms
Baldwin	6 rooms
Somerset	4 rooms
Way Street	3 rooms
Washington Street	2 rooms
Savin Hill	2 rooms
Tioston	6 rooms
Total	47 rooms

II. Buildings will be needed for future growth. The total school registration for the school year ending in June is shown in the following table:—

June	High Normal	Elementary	Kindergarten	Special	Total
1904	7,398	88,820	6,710	221	96,349
1905	8,115	87,497	7,045	214	102,880
1906	8,455	89,134	7,279	265	105,129
1907	8,591	90,439	7,170	170	106,370
1908	9,168	91,937	7,253	173	108,531
1909	11,083	93,357	7,211	170	111,721

The average annual increase in elementary schools, including kindergartens, for the past five years, has been one thousand seven hundred and eighty-seven (1,787). Two factors have made this increase less than was to be expected: First—The change from nine grades to eight reduced the numbers in elementary schools and increased the numbers in high schools. Second—Owing to financial conditions, practically no additional kindergarten facilities were provided during these years. The normal rate of increase in kindergartens, has, therefore, been prevented. Undoubtedly reasonable additions to kindergarten facilities should be furnished, and the number of applicants warrants the belief that the increase in kindergarten attendance during the coming years will exceed the rate above given. The increased building activity in Brighton, Dorchester and East Boston seems to indicate that the growth of the city in population during the next three years will equal, if not exceed, that of the past five. On the basis of an average annual increase of one thousand seven hundred and eighty-seven (1,787) pupils, one hundred and twenty-two (122) school rooms will be needed for the next three years, of which seventy-five (75) will be provided as above indicated. The

cost of the remaining forty-seven (47) rooms will be approximately as follows:
 47 rooms, \$6,500 per room..... \$305,500
 4 school sites at \$40,000..... 160,000

SUMMARY OF COST.

To complete buildings now under construction..... \$180,000
 Administration expenses of Schoolhouse Commission, three years..... 105,000
 New buildings as per list..... 2,432,000
 New buildings for future growth..... 465,500
 \$3,182,500
 Amount needed for new buildings..... \$3,182,500
 In order to meet this expense there will be available under loans authorized by law—
 Feb. 1, 1910..... \$500,000
 Feb. 1, 1911..... 500,000
 Feb. 1, 1912..... 500,000
 1,500,000
 \$1,682,500

It is evident, therefore, that the citizens of Boston must be content to leave the children for some years to come in overcrowded rooms, in corridors, halls, portables, rented quarters, and unsatisfactory buildings, or provide additional funds substantially in accord with the above statement.

Account has not been taken of a few unoccupied rooms now existing that will in theory become available for additional growth, because experience has shown that it is impossible to locate buildings so that every room is available for use immediately upon its completion. Neither has account been taken of accommodations in parochial schools that will probably be erected, because the relief furnished by these schools will depend upon the location. For example, the parochial school now in process of erection in the William E. Russell District will prevent future overcrowding in that district, and possibly relieve the present overcrowding in the John A. Andrew District; but rooms rendered vacant in these two districts because of the erection of this parochial school cannot be used to relieve the overcrowded conditions in other sections of the city.

No provision is made in the foregoing list of buildings for industrial schools, with the exception of the possible use of the old Brimmer Building after the completion of the Abraham Lincoln School; nor has any provision been made for relieving present congested conditions in high schools, the replacing of at least one high school that is very unsatisfactory, or for much needed enlargements of school yards.

I recommend, therefore, that the Legislature be asked for authority to borrow one million dollars (\$1,000,000) in 1910, one million dollars (\$1,000,000) in 1911, and five hundred thousand dollars (\$500,000) in 1912. These loans, in addition to those now authorized by law, will provide a total of four million dollars (\$4,000,000), of which a trifle over eight hundred thousand dollars (\$800,000) will be available for such use in connection with industrial high schools and the extension of school yards as may later be deemed expedient.

Placed on file, and the Secretary directed to send a copy thereof to His Honor the Mayor and to the Finance Commission.

Supplementary to the foregoing report on the amount needed for additional school accommodations, the Superintendent submitted a resume of the conditions in the several elementary school districts in substantiation of the statements and tables contained therein.

Placed on file.

The following preamble and order were offered:—

The School Committee believes that there is grave need that the following buildings be immediately replaced by new structures:

Austin
 Pormort
 Baldwin
 Somerset-street
 Way-street
 Washington-street
 Savin Hill
 Tileston.

It also believes that the Prescott School in Charlestown either should be replaced by a new structure, or so made over in connection with a new structure as to be entirely habitable from the point of view of the health and safety of the children who are to occupy it.

When compelled, however, to choose between having children housed unsatisfactorily in regular buildings and housing

them equally unsatisfactorily in portable buildings or rented quarters at the expense of funds for repairs which are already insufficient, or at the expense of funds which should be devoted to supplies which have been insufficient for years, the School Committee deems it best to choose the former alternative.

ORDERED, That in accordance with Chapter 450 of the Acts of 1907, the following-named school districts be, and hereby are, designated as the school districts in which additional school accommodations are necessary, the said school districts being named in the order in which, in the opinion of the School Committee, provision should be made for additional school accommodations from the funds that may become available during the current year under the provisions of Section 2 of said chapter, and the number of pupils set opposite each of the school districts being the approximate number of additional pupils for which provision should be made in each of said school districts:—

	Pupils
1. Adams District: Completion of elementary school, upper grades.	
2. Everett District: Completion of Trade School for Girls.	
3. Dwight District: Completion of Annex to Girls' High School.	
4. Henry L. Pierce District: Completion of Annex to Dorchester High School.	
5. Blackinton District: Elementary school, upper grades.....	396
6. Phillips Brooks District: Elementary school, lower grades.....	528
7. Comins District: Elementary school, lower grades.....	528

8. Edward Everett District: Elementary school, lower grades.....	176
9. Bennett District: Elementary school, lower grades.....	176
10. Washington Allston District: Elementary school, lower grades.....	176
11. Robert G. Shaw District: Elementary school, lower grades.....	176
12. Adams District: Elementary school, lower grades.....	528

The order passed, the four members of the Board present voting in the affirmative.

SCHOOL SAVINGS SYSTEMS.

Mr. Brock was appointed a special committee to investigate and report with regard to savings systems in the public schools.

TEACHING EXPERIENCE REQUIRED FOR PHYSICAL TRAINING CERTIFICATE.

On motion, it was ORDERED, That the Board of Superintendents be requested to consider and report upon the advisability of requiring a less amount of teaching experience as a pre-requisite for the certification of teachers of physical training.

ADJOURNMENT.

The Board adjourned at 10:41 o'clock P.M.

Attest:—

THORNTON D. APOLLONIO,
 Secretary.

MUNICIPAL RAILWAY.

Tacoma will presently vote on the issuing of \$1,000,000 in bonds to construct a municipal railway.—*Pacific Outlook*.

WET OR DRY?

April 5 the people of Chicago will vote on the question of closing saloons. The petition asking for the election contained 74,805 signatures. There are actually people in the city who believe the dry proposition will win.—*Pacific Outlook*.

SMOKELESS PITTSBURG.

A tremendously earnest campaign is under way in Pittsburg against the nuisance that gave that city its first fame—the smoke. It is claimed that within a short time the city will be rendered practically smokeless.—*Pacific Outlook*.

In Rio Janeiro, a space $2\frac{1}{2}$ miles long and 300 feet wide, was expropriated through the settled city, from water to water, for a boulevard 100 feet wide and over a mile long. The sale of the 100 feet on either side, is said to have paid for the whole improvement. In the short space of eighteen months the city constructed this beautiful avenue and gained an enormous amount of taxable property.

Philadelphia has the largest and most heavily endowed institution in the world for the care of orphans, Girard College, caring for 1,510 boys, utilizing seventeen large marble buildings, standing on a tract of forty acres in the heart of the city, and having an income producing endowment in excess of \$25,000,000.—*Philadelphia*.

In London, for the Strand Improvement Scheme, an open competition was held to obtain the best general design. The city then sold the land to individuals and syndicates with the restriction that they should build in general conformity with the scheme. Mr. Norman Shaw, the architect, who judged the competition, was employed by the city to pass upon the various designs for the buildings.

CITY OF BOSTON.

CONCERNING NUMBER OF ASSESSORS.

Ordinances of 1910, Chapter 1.

In the Year One Thousand Nine Hundred and Ten.

Be it ordained by the City Council of Boston, as follows:

Section 1. Section one of chapter five of the Revised Ordinances of 1898 is hereby amended by striking out the word "nine" in the second line thereof and by inserting in place thereof the word "seven," so that the said section as amended will read as follows:

The assessing department shall be under the charge of the board of assessors, consisting of seven assessors, who shall have and exercise all the powers and duties and be subject to all the limitations of assessors of taxes; shall keep a full and complete record of the name of each person having a residence in the City of Boston, with his residence on the first day of May of the current and preceding year, and also a record of the names of persons whose taxes have been abated in whole or in part, with the amount originally assessed to each, the amount of the abatement, and the reason for which it was made; may appoint as assistants, subject to confirmation by the mayor, two persons for each assessment district, and such assistants and subordinates as it may deem necessary.

Section 2. Section five of chapter three of the Revised Ordinances of 1898 is hereby amended by striking out the word "eight" in the twelfth line thereof and by inserting in place thereof the word "six."

In City Council, February 14, 1910.

Passed. JOHN T. PRIEST,
City Clerk.

Approved, February 18, 1910.

JOHN F. FITZGERALD,
Mayor.

A true copy.
Attest: JOHN T. PRIEST,
City Clerk.

CITY OF BOSTON.

MAY CLEANING.

Notice to Housekeepers and Tenants.
Permits will not be granted for the placing of rubbish, dirt, ashes or filth in the public streets.

Notice is hereby given that housekeepers and other occupants of dwellings must place their ashes, etc., in barrels or cans in order to have them removed, as no person will be allowed to place any dirt, ashes, filth or rubbish of any kind whatever in any of the ways, streets or places of the city.

In order to have ashes, etc., removed by the city carts, they must be placed in receptacles not larger than an ordinary flour barrel; and in the district north of Massachusetts avenue all combustible waste such as paper, rags, etc., must be tied in bundles or placed in receptacles not larger than an ordinary flour barrel and separated from the ashes and placed in a position on a level with the grade of the adjoining sidewalks.

Vault filth, offal, bricks and mortar, gravel and earth garden rakings and shrubbery will not be removed by the city.

GUY C. EMERSON,
Superintendent of Streets.
Boston, February 23, 1910. (Feb. 26—Mar. 5.)

CITY OF BOSTON.

PROPOSALS FOR PLATFORM, DESKS, CHAIRS AND RAILING FOR THE CITY COUNCIL CHAMBER.

The Superintendent of Public Buildings of Boston invites proposals for platform, desks, chairs and railing for the City Council Chamber, in accordance with plans and specifications to be obtained at the office of the superintendent, 30 Old Court House, on and after Monday, February 28, 1910. Proposals to be made upon the form issued with the specifications, signed by the bidder and left at the office of the superintendent before 12 m., Thursday, March 3, 1910, accompanied by a certified check for \$250, payable to and to be the property of the city if the bid is not carried out. The proposals will then and there be publicly opened and read. All proposals must be made in duplicate, the duplicate without check to be deposited with the City Auditor before the time specified for opening the bids. The superintendent reserves the right to reject any and all proposals and to give preference to bidders paying the trades unions' rate of wages. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Platform, Desks, Chairs and Railing for the City Council Chamber."

GEORGE W. MORRISON,
Superintendent of Public Buildings.
(Feb. 26.)

CITY OF BOSTON.

TO HEATING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for heating and ventilating Elementary School, Adams District (Samuel Adams School), Webster and Brigham streets, East Boston, Mass., and giving bond of a surety company therefor in the sum of \$6,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Wednesday, March 9, 1910, at said office, with a certified check for \$1,000, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The Commissioners reserve the right to reject any and all proposals and to give preference to bidders paying the trades unions' rate of wages.

CITY OF BOSTON.

PROPOSAL FOR CAST IRON WATER PIPES AND SPECIAL CASTINGS.

The Water Commissioner of the City of Boston invites proposals for furnishing twenty-three hundred fifty (2350) tons of cast-iron water pipe and special castings, and giving bond of an approved surety company doing business in Massachusetts in the sum of fifteen thousand (15,000) dollars therefor. Only proposals obtained at the office of the Water Commissioner, Room 58, City Hall, Boston, signed by the bidder and there left before 12 o'clock, noon, of Tuesday, March 8, 1910, with a certified check for one thousand (1,000) dollars, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. A duplicate sealed proposal, without check, must be deposited with the City Auditor before the time above specified. The Commissioner reserves the right to reject any or all proposals and to give preference to bidders paying the trades unions' rate of wages.

WILLIAM E. HANNAN,
Water Commissioner.
(Feb. 26.)

CITY OF BOSTON.

PROPOSALS FOR COAL.

The Supply Department of the City of Boston solicits proposals for furnishing the Parental School, Spring street, West Roxbury, with 300 tons semibituminous steaming coal of the best quality, either New River, Pocahontas or Georges Creek; must be free from excessive sulphur, slate, moisture or dirt. The bidder must use the form to be obtained at Room 825 Tremont Building. Proposals will be received at the office of the superintendent until 12 o'clock, Tuesday, March 1, at which time and place the bids will be publicly opened and read. A bid in duplicate must be filed with the City Auditor prior to that time. The successful bidder must deposit a certified check for one-quarter the amount of the contract, as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Tuesday, March 1, at 12 m. The superintendent reserves the right to reject or accept bids.

J. EDWARD MULLEN,
Superintendent of Supplies.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
retarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure of
such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COM-
MISSIONERS, Room 41, City Hall, for informa-
tion relative to the laying-out, relocation,
widening and discontinuance of high-
ways; the taking of real property for
municipal purposes; the assessments of
betterments for streets and sewers; the
plotting of undeveloped areas for streets
and the opening of private ways; the
granting of licenses for the storage or
sale of merchandise in public streets;
the regulation of street traffic; the mak-
ing of specific repairs in public streets;
the naming of public streets; the planting
and removal of trees in public ways; the
issuing of licenses for the storage of
gasolene, oil and other inflammable sub-
stances or explosive compounds; the use
of the public ways for any permanent or
temporary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marqueses,
bay windows, coal holes and vaults.

TO THE SUPERINTENDENT OF STREETS
Room 44, City Hall, for information as to
the watering, cleaning, lighting, and
repairing of streets, the construction and
care of sewers and catch-basins, the opera-
tion of the ferries, the maintenance of
bridges and drawbridges and the removal
of ashes and offal.

TO THE BOARD OF HEALTH, Room 11,
Old Court House (rear of City Hall), for
information relative to the inspection of
milk, vinegar, meat, fish and vegetables,
the issuance of permits for stables, slaugh-
ter houses, etc., smoke nuisances, the
existence of contagious diseases or public
health nuisances.

TO THE WATER COMMISSIONER, Room
58, City Hall, for information relative to
the supplying or metering of water and
the water charges of the city.

TO THE SUPERINTENDENT OF PUBLIC
GROUNDS, 154 East Cottage street, for
information as to the care of the Common,
Public Garden, and the small parks
throughout the city other than play-
grounds, and the extermination of the
gypsy moth and the charges made for the
same.

TO THE PARK COMMISSIONERS, Pine-
bank, Jamaica Plain, for information as to
Franklin Park and Field, Commonwealth
avenue, the Back Bay Fens, Marine Park
and playgrounds in general throughout
the city.

TO THE SCHOOL COMMITTEE, Mason
street, for information relative to the
operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS,
120 Boylston street, for information as to
the construction and repair of school
buildings.

MUNICIPAL CALENDAR.
